Chapter 168

Cannot touch metal and iron tools, can only use the jade box to store.

Zhang Yuhe waved his right hand and put the jade box into the storage bracelet.

He patted Zhang Can's shoulder happily and said.

"Well done, you can stay in the Wanlingtu with peace of mind in the future."

After that, he returned to the cave.

Zhang Yuhe walked to the practice platform and sat cross-legged.

He took out a jade box, opened it, picked up the earth spirit holy fruit and ate it in one bite.

The earth spirit holy fruit melted in his mouth, and the comfortable feeling flowed through his body.

He quickly operated the Galaxy Zhoutian Gong, and the starlight illuminated the cave brightly.

Before this, he had already deduced this body refining magic to the immortal level.

The Galaxy Zhoutian Gong polished his body day and night.

At this time, his physical strength was much stronger than when he just ascended.

However, the immortal body is a special evolution, and it cannot be cultivated by relying solely on the body refining magic.

There is no trick to this thing.

Only by relying on special natural treasures or some rare immortal pills can the cultivator's body evolve into an immortal body.

The energy transformed from the earth spirit holy fruit flows throughout Zhang Yuhe's body.

His skin surface emits a faint glow from time to time.

I don't know how long it has been.

Zhang Yuhe slowly opened his eyes.

He took out a fairy sword and gently scratched his arm.

There was only a faint white mark on his arm.

Seeing this, Zhang Yuhe couldn't help but be overjoyed.

"Haha, the immortal body is really strong."

Although he didn't use his full strength just now.

But the fairy sword was so sharp that it couldn't even scratch his skin.

He waved his fist gently and felt full of infinite power.

This is still without activating the law.

Zhang Yuhe felt.

Once the power law is activated, he can kill a great perfection true immortal like Ouyang Lishan with one punch.

The immortal body is so powerful.

Then the small success, great success and perfection of the immortal body, how powerful would that be?

Zhang Yuhe didn't dare to imagine it at all.

At the same time, he became alert secretly.

Although there are not many people who can cultivate immortal bodies in the Ji'an Sea.

Except for the Golden Immortal cultivators, there are almost no real immortals.

But the Ji'an Sea is just a small pond after all.

Zhang Yuhe believes that there must be many real immortal cultivators in the vast world outside.

Can cultivate immortal bodies.

Especially those big forces with Taiyi Immortal sitting in charge.

They have a long heritage and must have planted some natural treasures such as the Earth Spirit Holy Fruit.

So, Zhang Yuhe secretly warned himself.

Although his immortal body has just been completed, and he has also comprehended two supreme laws.

But he must not be complacent.

He still has to continue to practice in a low-key manner.

Only low-key people can live longer.

...

Chapter 153 Refining Master Zhang Yuhe

Zhang Yuhe was extremely excited when his immortal body was just completed.

Thank you for the gift from Ouyang Lishan.

If it weren't for the Wanlingtu, and there happened to be a plant of the Earth Spirit Holy Fruit that was about to mature.

Then he didn't know how long he would have to wait to cultivate into an immortal body.

Ouyang Lishan is really a good person.

Just as Zhang Yuhe was still sighing, his expression suddenly changed slightly.

A fairy mirror appeared in his hand.

Seeing the person who sent the message, Zhang Yuhe said to himself silently.

"Why is He Xingfa looking for me again?"

He Xingfa had sent messages many times before.

But at that time, he was at a critical moment of understanding the law, so he ignored it.

He didn't even reply to Xie Mingyuan's message.

Not to mention He Xingfa.

"Ask what's the matter?"

Zhang Yuhe cast a spell.

He Xingfa's projection soon appeared in the fairy mirror.

"Fellow Daoist Zhang, I finally got in touch with you. Do you have time recently?"

"I have a friend who wants to ask you to help me refine a set of immortal tools."

Hearing this, Zhang Yuhe remembered that he was still an instrument refiner.

Originally, he wanted to make a name for himself in the market so that he could collect resources.

But he was so absorbed in the law that he realized it over two thousand years later.

He almost delayed this matter.

Thinking of this, he immediately replied.

"Bring it here. I have time now."

Although killing more than ten true immortals of the Ouyang family was a big deal.

There is no shortage of cultivation resources for the time being.

But no one would complain about having too much money, right?

Zhang Yuhe was no exception.

Besides, there are many benefits to making a name for yourself as an instrument refiner.

Not only will you have a higher reputation, but it will also be easier to find someone to do things for you.

And many things will be easier to explain later.

For example, why did he suddenly become an immortal?

Because he is an instrument refiner.

Helping others refine immortal tools and getting some natural treasures is reasonable, right?

So, he did not change his mind and insisted on making a name for himself as a refiner.

After a while, He Xingfa brought a voluptuous female immortal to the outside of the house.

Zhang Yuhe welcomed the two into the house.

He Xingfa pointed at the female immortal and introduced her to Zhang Yuhe.

"Fellow Daoist Zhang, this is my friend Mu Juanjuan. She wants to ask you to help refine a set of flying needle immortal tools. I wonder what conditions are needed."

Zhang Yuhe glanced at the female immortal and said with a smile.

"I have heard of the name of the Jade Needle Fairy."

"Refining immortal tools is no problem. Even if it is a set of flying needle immortal tools, I am confident that I can refine it. As long as you prepare the materials, it will be fine."

"As for the conditions, there is no need to say. Just follow the normal rules of the fairy world."

The rules of the fairy world are to help others refine pills or tools.

As long as the refining is successful, you will receive items or immortal stones of equal value to the materials.

After hearing Zhang Yuhe's words, Mu Juanjuan's face showed joy.

She quickly took out a storage ring and handed it over and said.

"Then I will trouble you, Daoist Zhang. The materials are here."

Zhang Yuhe took the storage ring and released his spiritual sense to scan it.

There were a variety of materials, more than a dozen.

In addition, there were 300,000 immortal stones in the storage ring.

These immortal stones were the reward for his refining.
