

## Top talent 169

### Chapter 169

If you can use the fairy spirit stone, please ask the weapon refiner to help you refine the fairy weapon.

That is to say, Zhang Yuhe is easy to talk to.

For other weapon refiners, the conditions would be much more stringent than this.

If there is no urgent need for heavenly materials and earthly treasures, ordinary immortal weapon masters will not easily help refine weapons.

Most of the weapon refiners are very arrogant.

He doesn't have much ability, but he has a great temper.

Zhang Yuhe doesn't have much particularity.

It's okay to give him spiritual stones. Anyway, refining the fairy weapons won't take up much of his time.

After putting away the storage ring, Zhang Yuhe turned to Mu Juanjuan and said.

"Come and pick up the goods in half a year."

"Thank you Daoyou Zhang."

Mu Juanjuan bowed her hands and then left with He Xingfa.

Halfway through the walk, she said to He Xingfa next to her.

"This Fellow Daoist Zhang seems to be easy to talk to. Is his skill in weapon refining no problem?"

"It's not easy for me to collect a set of materials for refining the Flying Needle Immortal Artifact."

He Xingfa patted his chest and said confidently.

"Fairy, please rest assured. There is no doubt about Fellow Daoist Zhang's weapon refining skills. My Galaxy Sky-Breaking Staff was refined by Fellow Daoist Zhang."

"I think there are not many first-level immortal weapon masters in the entire city who can compare to Fellow Daoist Zhang."

Mu Juanjuan nodded and said nothing more.

She had seen He Xingfa use the Milky Way Breaking Sky Stick to fight with others.

It has to be said that the Galaxy Skybreaking Stick is much more powerful than ordinary immortal weapons.

This was also the reason why she wanted to find Zhang Yuhe to help refine the Flying Needle Immortal Artifact.

An immortal weapon master with simple requirements and good skills is not easy to find in Ji'anfang City.

Zhang Yuhe came to the weapon refining room.

A tall four-legged giant cauldron stands on a high platform indoors.

A low-grade immortal-level cauldron, the Galaxy Transformation Immortal Cauldron.

After making a small fortune, the various materials he accumulated became richer.

Therefore, Zhang Yuhe decisively updated all the tripods and alchemy tripods to low-grade immortal weapons.

A tripod at the level of an immortal weapon is much easier to use.

He waved his right hand and the cauldron lid flew up quickly.

Put various materials into the Immortal Transformation Cauldron one by one.

Zhang Yuhe pinched the magic formula, and the hot flame ignited instantly.

Refining immortal weapons is not too difficult for him.

In fact, the difficulty of refining the weapon is mainly reflected in the shaping of the immortal weapon and the outline of the runes in the later stage.

The reason why many weapon refiners often fail in refining is because the runes are not drawn well.

As a result, all previous efforts have been wasted.

But for Zhang Yuhe, this matter is as simple as drinking water.

He is like a top student who gets perfect marks in exams every day. He really doesn't understand why others say studying is difficult.

To refine immortal weapons, don't you just need hands?

Zhang Yuhe silently circulated the Hunyuan Scripture while observing the changes in the cauldron.

He can easily refine weapons and it will not delay his cultivation.

Unless it was like when I understood the law before, I entered a deep state of retreat without realizing it.

Normally, helping others refine immortal weapons would not affect his normal cultivation.

Half a year later, he successfully refined a complete set of Flying Needle Immortal Artifacts.

Looking at the eighteen slender flying needles in her hand, Mu Juanjuan's face looked like a peach blossom in full bloom.

This made He Xingfa who was standing next to him look a little crazy.

Mu Juanjuan thanked Zhang Yuhe repeatedly.

Zhang Yuhe just waved his hand without any fixed gesture.

Under the propaganda of He Xingfa and Mu Juanjuan, Zhang Yuhe's reputation gradually spread in the city.

Master Zhang of the Dao Sheng Sect is not only a kind person, but also helps others refine immortal weapons without making any special requests.

The key is that the immortal weapon refined by Master Zhang is somewhat more powerful than ordinary immortal weapons.

Zhang Yuhe's reputation spread rapidly among the real immortal circles in the city.

There was an endless stream of true immortals who came to him to help refine immortal weapons.

Zhang Yuhe also accepted all comers.

As long as you give the fairy spirit stone, he will help.

It doesn't matter even if there is no immortal spirit stone, he will also accept other materials and training resources of equal value.

In less than a hundred years, the reputation of master weapon refiner Zhang Yuhe has completely spread in Ji'angfang City.

Even the major forces, including the Jinxian boss who is stationed in Fang City, have heard of his fame.

Under Zhang Yuhe's deliberate management.

He slowly became a celebrity in the city.

The character of Zhang Yuhe, the master of weapon refining, is slowly becoming popular in the market.

## Chapter 154 Gathering Again

Without leaving home, his reputation spread throughout the city.

This is exactly the effect Zhang Yuhe wanted.

Having the reputation of a weapon refiner will not only make you more respected.

The key is to do this.

No one will ever again connect him with the death of Ouyang Lishan and others.

Who would have thought that the kind-hearted Master Zhang would be the ruthless character who killed all the Ouyang family and more than ten true immortals with one move?

No one would imagine it.

Coupled with Xie Mingyuan, no one would connect him with the death of Ouyang Lishan and others due to the foggy information spread before.

...

Time passes slowly.

Zhang Yuhe was quietly practicing in the cave while taking over the weapon refining business.

On this day, his expression suddenly changed, and the Immortal Mirror appeared in his hand.

After playing a magic trick.

The reflection of Liu Haitao appeared in the Immortal Mirror.

"Tomorrow, a small trade fair will be held at my house. I wonder if Fellow Daoist Zhang would be interested in attending?"

Hearing this, Zhang Yuhe's brows could not help but slightly frown.

Why did Liu Haitao look for him?

Although he is now a little-known name in the market of Ji'an.

But he and Liu Haitao have no friendship, at most they have only met once.

As for Xie Mingyuan before, he asked Liu Haitao to take care of him in the market.

That was just a polite remark.

If he took it seriously, he would be a fool.

But since others invited him, let's go and take a look.

Anyway, he is not Xie Mingyuan.

Xie Mingyuan is in the vortex, with so many people watching him, and he can't move at all.

Even though the incident has been over a hundred years.

But the Ouyang family still did not give up, and still arranged people to watch outside his cave every day.

Want to find out the golden immortal behind him through Xie Mingyuan.

It is very inconvenient for Zhang Yuhe to go to Xie Mingyuan to take a look.

They can only communicate through the Immortal Mirror.

But it is okay for Zhang Yuhe to go out by himself.

The people of the Ouyang family did not stare at him.

At least on the surface.

As long as he did not leave the market, he would be safe.

The most important thing was.

A hundred years had passed, and the power of Hunyuan Guiyi had long been cooled. Even if the Ouyang family really tore off their face.

He was not afraid at all.
