

Top talent 176

Chapter 176

Xie Mingyuan picked up the wine glass, took a sip, and said with an intoxicated face.

"Good wine."

"I'm not afraid of junior brother's jokes. I have been in the immortal world for more than 200,000 years, but I have never drunk the three-color immortal brew."

Now he also knows that Zhang Yuhe is an immortal-level weapon refiner.

And in the market, the reputation is extremely loud.

In terms of collecting cultivation resources, he is much better than his senior brother who is a late True Immortal.

Zhang Yuhe also took a small sip.

The immortal brew turned into countless immortal spiritual energy, which instantly poured into the dantian.

After a while, he felt as if his strength had improved a little.

If there is a large amount of three-color immortal brew to assist him, then his cultivation speed can be accelerated a lot.

But he also knew that this was impossible.

According to what the Sanxian said.

The three-color fairy brew not only requires a large amount of rare fairy fruits, but also requires the addition of chaos beast crystal cores.

Not only that, brewing Sancai Xianjiang requires a long time.

It's not as quick as refining elixir.

Even so, the three-color immortal brew that can be obtained from each brew is only a small pot.

Such things are destined to be impossible to produce in large quantities.

It can only be done occasionally.

After a glass of wine, Xie Mingyuan said slowly.

"Junior brother, if you have something to do, you might as well tell me directly."

Seeing Zhang Yuhe being so enthusiastic, he thought he was asking for something.

Zhang Yuhe waved his right hand.

An exquisite jade box slowly landed on the stone table.

he said with a smile.

"Brother, look at what this is."

Xie Mingyuan opened the jade box with a somewhat puzzled expression. He couldn't help but be surprised when he saw the items inside.

He muttered to himself.

"Earth Spirit Holy Fruit..."

Almost all true immortals know the usefulness of the Earth Spirit Holy Fruit. It is a heavenly material and earthly treasure that assists the cultivation of the immortal body.

If the items that the True Immortal cultivators desire were ranked.

The Earth Spirit Holy Fruit will definitely be at the top of the list.

In order to find the Holy Earth Spirit Fruit, Xie Mingyuan didn't know how much effort he spent.

However, in the end, nothing was achieved.

There is no way, this kind of thing really depends on chance.

It is completely impossible to buy Huaxian Lingshi.

No matter who obtains the Holy Earth Spirit Fruit, they will not sell it.

Such a precious thing, even if you cultivate yourself into an immortal body, you can still give it to someone close to you for use.

It's simply not available on the market.

Seeing Zhang Yuhe, he actually took out an Earth Spirit Holy Fruit.

Xie Mingyuan asked quickly.

"Where did junior brother get the Holy Earth Spirit Fruit?"

"It's just a coincidence."

Zhang Yuhe did not elaborate.

He didn't think about it and deliberately kept it from Xie Mingyuan.

It's just that when talking about this kind of thing, it will involve the All Souls Diagram.

The Wanling Tu is a space immortal weapon, not to mention the early stage of a true immortal like him.

Even in the entire Ji'an sea area, there are probably only a few.

Therefore, it is better not to make things like this too clear.

It's not that he can't trust Xie Mingyuan.

But there is no need to say it too clearly.

He obtained the Ten Thousand Spirits Map from Ouyang Lishan, and the Earth Spirit Fruit Tree in it bore five fruits.

He took one for himself and gave one to Xie Mingyuan, which was considered a kind of settlement.

After all, if it hadn't been for Xie Mingyuan, Ouyang Lishan would not have been led out.

If Ouyang Lishan hadn't appeared, then the Earth Spirit Sacred Fruit would naturally have no chance with him.

The most important thing is that Xie Mingyuan treats him well.

From the moment I ascended to now, I have always been very caring.

A person should repay kindness, and a monk should do the same.

Otherwise, the further you go in practice, the more resistance you will encounter.

Cultivation focuses on the understanding of thoughts.

Looking at the jade box in front of him, Xie Mingyuan took a deep breath, and then said slowly.

"Junior brother, have you ever eaten the Holy Earth Spirit Fruit?"

"If not, you should keep this Holy Earth Spirit Fruit for yourself."

"Senior brother, don't worry, I have already cultivated my immortal body."

After Zhang Yuhe finished speaking, he slowly started to operate the Galaxy Zhou Tian Gong.

A faint gleam of light emanated from the surface of his skin.

This is the first manifestation of the immortal body.

Seeing this situation, Xie Mingyuan stopped being pretentious.

He put away the jade box on the table, bowed to Zhang Yuhe, and said seriously.

"Junior brother, I will never forget your great kindness."

"In the future, if you are asked, I will never refuse."

Cultivation of the immortal body is extremely important for immortals, and it can be said to be the strongest means of life-saving for immortals.

Especially in the Chaos Continent, it is almost impossible for a true immortal who has not cultivated an immortal body to gain a foothold.

Xie Mingyuan could not refuse Zhang Yuhe's gift.

He can only keep this gratitude in his heart forever.

Zhang Yuhe quickly helped Xie Mingyuan up and said calmly.

"Senior brother, there is no need to be polite. The path to immortality is to support each other in order to go further."

Hearing this, Xie Mingyuan nodded in agreement and said excitedly.

"Okay, let you and I, brothers, join forces to make a breakthrough in this vast fairyland."

...

Chapter 160 The late stage of true immortality, storm is coming

Time passes slowly.

Ten thousand years later, Zhang Yuhe walked out of the cave gate with a faint smile on his face.

"Finally a breakthrough."

At this time, the aura exuding from his body was clearly that of a late True Immortal.

During these ten thousand years.

In addition to taking orders and helping others refine immortal tools, he only occasionally went out to attend some gatherings of True Immortal cultivators.

The rest of the time, he almost completely stayed in the cave to practice.

It took him more than 2,000 years to improve his cultivation to the middle stage of True Immortal.

However, it took more than 7,000 years to go from the middle stage of True Immortal to the late stage.

The cultivation after True Immortal is really terribly slow.

With his extraordinary talent, plus the opening of the three orifices, it still took him nearly 10,000 years.

To practice to the late stage of True Immortal.

It is hard to imagine how those ordinary True Immortals practice.

Of course, those who can cultivate to True Immortal will not have too bad talent.

The great waves wash away the sand.

People with poor talent have been eliminated before True Immortal.

Even in the Immortal Realm, the talent of the cultivator is still very important.

According to legend, even a single head can cultivate to True Immortal, but it does not exist in the Immortal Realm.

At least Zhang Yuhe has never heard of such a thing.
