Chapter 178

In the fairy world over the years, he has consulted various materials.

Finally, he has a certain understanding of the innate treasures.

To be precise, the innate treasures should be divided into two categories.

They are innate spiritual materials and innate treasures.

Both have one thing in common, that is, they can grow by themselves.

Among them, the innate spiritual materials are equivalent to a very precious special refining material.

When the innate spiritual materials are refined into the fairy weapon, not only will the power be greatly improved.

And the fairy weapon refined with the innate spiritual materials also has the attribute of self-growth.

For example, if a low-grade fairy weapon refines the innate spiritual materials into it.

Then provide enough fairy materials and materials for the fairy weapon to absorb slowly.

Then this low-grade fairy weapon will gradually grow into a medium-grade fairy weapon and a high-grade fairy weapon.

It may even eventually grow into a Taoist weapon.

Most of the Taoist weapons in the fairy world grow up through this way.

Of course, not all fairy weapons refined with the innate spiritual materials can grow into Taoist weapons.

Each innate spiritual material has its own upper limit.

Some immortal weapons refined with innate spiritual materials may not be able to continue to grow after reaching the level of middle-grade immortal weapons.

Only a very small number of immortal weapons refined with innate spiritual materials will eventually grow into Taoist weapons.

And this time will be extremely long.

So long that even the Taoist ancestors cannot wait.

As for the innate treasure, it is the prototype of a natural magic weapon, and it comes with magic formulas and runes.

Just like the Nine Heavens Flying Spirit Stick.

There is no trace of artificial refining on the entire treasure, it is completely natural.

There are also circles of natural runes on the stick.

When he got the Nine Heavens Flying Spirit Stick in the Cangyun Realm.

It was through these runes and magic formulas that he finally refined this treasure for his own use.

Compared with innate spiritual materials, innate treasures are more precious.

Innate treasures are completely natural, and their power is much stronger than that of immortal weapons of the same level.

Even the innate treasures of the lower-grade immortal weapon level are more powerful than ordinary middle-grade immortal weapons.

Compared with innate spiritual materials.

There is no upper limit to the growth of the innate treasure.

Theoretically, every innate treasure can eventually grow into a Taoist weapon.

It's just a matter of time.

Once the innate treasure grows to the end, it will become an innate Taoist weapon.

Every innate Taoist weapon is the existence of suppressing the foundation of a clan.

Rumor has it.

The reason why the immortals can gain a foothold in the Chaos Continent.

It is because the three clans of humans, monsters, and demons each have an innate Taoist weapon.

Only with these three innate Taoist weapons can they resist the attacks of the Chaos Beasts.

Whether it is an innate spiritual material or an innate treasure.

Its preciousness is beyond his original imagination.

Zhang Yuhe looked at the Nine Heavens Flying Spirit Stick in front of him.

I saw that the original black theme on the stick has gradually turned golden.

It has evolved into a golden sky-supporting long stick.

Although the innate treasure has a restrained aura and is not as sharp as other immortal weapons.

He is Zhang Yuhe, but he can clearly sense it.

The Nine Heavens Flying Spirit Stick has evolved from the original upper-grade Tongtian Lingbao to a lower-grade immortal weapon.

He waved his right hand, and several pieces of immortal ore slowly fell on the platform.

The Nine Heavens Flying Spirit Stick exuded a faint breath, covering the ore.

The Dao rhyme breath carried by the immortal ore began to be slowly absorbed and integrated into the Nine Heavens Flying Spirit Stick.

To make an innate treasure grow, the consumption is not something that ordinary people can bear.

Over the years.

Zhang Yuhe continued to take orders to refine immortal tools and collected a large amount of immortal materials and immortal ore.

He put all these immortal materials into it.

After ten thousand years of cultivation, the Nine Heavens Flying Spirit Stick barely grew to a lower-grade immortal tool.

To make this innate treasure continue to grow to a middle-grade immortal tool.

It is not known how much immortal materials and immortal materials will be consumed, and it is unknown when it will take.

But he also knew that this kind of thing cannot be rushed.

The road to cultivation is long and endless.

He can wait.

After checking the status of the Nine Heavens Flying Spirit Stick, Zhang Yuhe came to the practice platform and slowly sat cross-legged.

He began to silently deduce the Renshui Thunder Absorption Array.

...

Tianchen Island, meeting hall.

Ouyang Tianchen was sitting in front of an old man in green with a gloomy face.

This man was the head of the Qian family, Qian Mu, a middle-stage golden immortal.

This time he came to Tianchen Island to find Ouyang Tianchen to discuss the details of dealing with Daosheng Sect and the subsequent distribution of territory.

Ten thousand years have passed, and the golden immortal cultivator behind the Daosheng Sect has not appeared.

They can't wait any longer.

Qian Mu picked up the teacup and drank it all, then said slowly.

"Brother Ouyang, have you decided? Now take action against Daosheng Sect."

Ouyang Tianchen responded firmly.

"Yes, if you and my two families join forces, we will definitely be able to quickly break through the gate of Daosheng Sect."

"Okay, then do it. Old Ghost Lu has been missing for so many years, he should have died long ago."

"There are only two golden immortals left in Daosheng Sect, Lian Zhengyu and Song Heguang, so there is no need to worry at all."

Hearing Qian Mu finally give in, Ouyang Tianchen couldn't help but be overjoyed.

He immediately stood up and said excitedly.

"Then it's settled. Three months later, we will join forces and take Yunfei Island."

"After the matter is done, we will share the territory of Daosheng Sect."

"Okay, it's a deal."

After the two continued to discuss some other details, Qian Mu hurriedly flew away.

He still had to go back and prepare.

Although Dao Sheng Sect has been weakened for many years, its apparent strength is in front of their two families.

Not worth mentioning at all.

But Lu Yunfei was once the number one golden immortal in the Ji'an sea area.

It is bound to leave a lot of backhands in Daosheng Sect.

If you don't prepare well, don't overturn when the time comes, that would be a funny thing.

The Ouyang family and the Qian family gathered a large number of people.

Naturally, there is no way to hide it from Dao Shengzong.

Lian Zhengyu felt that the war was coming.

He quickly shrunk the sect's power and abandoned all the outlying islands.

Concentrate all the strength of Dao Sheng Sect to fix the mountain gate of Yunfei Island.

At the same time, he also sent a message to all the disciples outside, asking them to be careful to guard against attacks from the other party.

Zhang Yuhe was silently deducing the formation.

Suddenly his expression changed, and an Immortal Mirror appeared in his hand.

After playing a magic formula.

Lian Zhengyu's voice came from the mirror.

"The Ouyang family and the Qian family are about to launch an attack on the Daosheng Sect."

"If you can't rush back to the mountain gate, you must hide your whereabouts and protect yourselves."

After hearing the message in the mirror, Zhang Yuhe was silent for a while and murmured to himself.

"We have finally reached this point. I hope Lian Zhengyu and Song Heguang can guard the mountain gate."
