Chapter 180

They have lost their hometown, so what are they doing?

Of course.

Tianchen Island is definitely not that easy to attack.

The Ouyang family will definitely leave enough defense forces on Tianchen Island.

There will be at least one Golden Immortal in charge.

Moreover, the Ouyang family has been operating on Tianchen Island for many years, and the island should have arranged a second-level defensive immortal formation.

And it is not an ordinary second-level immortal formation.

As for the third-level immortal formation, that is impossible.

The third-level immortal formation requires Taiyi Immortal to arrange it.

There has never been a Taiyi Immortal in the entire Ji'an Sea.

There is no possibility of a third-level immortal formation.

Despite this, the second-level defensive immortal formation is not that easy to break.

Even for an ordinary Golden Immortal cultivator, it takes a very long time to break a second-level mountain gate formation.

Especially when the opponent also has a Golden Immortal in charge, this is almost impossible to do.

But Zhang Yuhe still has confidence.

The heavyweight innate treasure of the Nine Heavens Flying Spirit Stick is specially used to break various turtle shells.

He believed that under the blessing of the law of power.

The general two-immortal defense immortal formation should not be able to withstand a few hits from the Nine-Sky Flying Spirit Stick.

As long as the defense formation of Tianchen Island is broken, the Ouyang family will be completely finished.

If the hometown is stolen, the remaining people are just rootless duckweed.

Whether they can continue to maintain the family power is a big problem.

Thinking of this.

Zhang Yuhe couldn't help but feel inexplicably excited.

He said to Xie Mingyuan excitedly.

"Let's do it, we will quickly go to Tianchen Island."

"Okay."

Xie Mingyuan didn't know that Zhang Yuhe's purpose was not just harassment.

Zhang Yuhe didn't explain.

Because this idea was really a bit shocking.

He, a true immortal cultivator, actually wanted to destroy a powerful force with a golden immortal in charge.

This idea was really too crazy.

So, he didn't explain and planned to wait until he arrived at Tianchen Island.

Zhang Yuhe released the flying boat, and the two boarded the flying boat, quickly turned into a stream of light, and flew away.

...

Chapter 163 Yu Liwei, the leader of Jiuxianmen

On a remote deserted island in the sea.

A huge flying boat was quietly staying nearby.

Ouyang Tianchen stood with his hands behind his back, standing in front of the flying boat with high spirits.

Behind him stood three golden immortals including Ouyang Tianyue.

In addition, there were hundreds of true immortals.

As for those below the true immortals, there was none.

Facing the upcoming war, it would be useless if you were not in the true immortal realm.

In order to be able to break through the gate of Daosheng Sect in one fell swoop, he spent a lot of money this time.

In addition to letting Ouyang Tianwu stay on Tianchen Island, he almost drew out all the elite forces of the family.

Ouyang Tianchen looked up at the sky, as if he saw the rise of the family.

As long as Daosheng Sect was destroyed, their Ouyang family would be able to obtain a larger territory.

A larger territory means more resources.

The family is prosperous and the future is promising.

After a while.

A stream of light appeared in the sky.

Qian Mu drove the flying boat and soon appeared in everyone's eyes.

Just like Ouyang Tianchen.

For this battle, Qian Mu also tried his best.

All four Golden Immortals of the Qian family were present, and there were more than 200 True Immortals.

Seeing the lineup of the Qian family, Ouyang Tianchen nodded silently.

He originally thought that Qian Mu, the old fox, would hold back.

Unexpectedly, Qian Mu was even more ruthless than him.

He didn't even leave a Golden Immortal to guard the house, and took all of them away.

Aren't you afraid that someone will steal your home?

Of course.

Ouyang Tianchen would naturally not remind Qian Mu.

In fact, their move was originally a desperate move, advancing without retreat.

If there were too many concerns, there would be no need to take action at all.

Thinking of this, he couldn't help but admire Qian Mu's determination.

Ouyang Tianchen soared into the air and landed on the flying boat of the Qian family.

He bowed politely to Qian Mu and said.

"Brother Qian is here so fast."

"Haha, I dare not let Brother Ouyang wait any longer."

After Qian Mu made some polite remarks, he went straight to the point and asked.

"I wonder if Brother Ouyang has any plans? Should we go directly to kill them, or quietly send people to see if we can lurk in the gate of Daosheng Sect and attack from the inside and outside."

Ouyang Tianchen waved his hand and said domineeringly.

"There is no need to do those useless things. Daosheng Sect must have been prepared long ago. Sending people to lurk in now is tantamount to sending ourselves to death."

"Our two families join forces, and we are completely overwhelmed by our strength. There is no need to play tricks with Daosheng Sect."

"Go directly to kill them and wipe out Yunfei Island in one fell swoop."

"Okay, let's do as Brother Ouyang said."

After the two discussed for a while, the flying boat turned into a stream of light and flew quickly towards Yunfei Island.

...

The Ouyang family and the Qian family mobilized in a large scale, which instantly attracted the attention of the entire Ji'an Sea Area.

Wanshou Island, the meeting hall.

The leader of the Wanshou Sect, Long Xingxiu, was sitting in front of the hall, chatting with the sect elder Yang Tongfang.

He smiled and said to Yang Tongfang.

"Ouyang Tianchen and Qian Mu are so bold that they dare to attack the Daosheng Sect."

"They are not afraid that Lu Yunfei will come back and beat them into pieces."

However, Yang Tongfang, who was standing next to him, said with some worry.

"Brother, Lu Yunfei is not really dead, is he?"

"If Ouyang Tianchen and Qian Mu really succeed, wouldn't they have picked up a big bargain?"

"Should we also intervene?"

Long Xingxiu waved his hand and said lightly.

"No, we just watch the show."

"I have dealt with Lu Yunfei for millions of years. I don't believe that he died so quietly."

"And even if Lu Yunfei is really dead, it is simply a foolish dream for the Ouyang family and the Qian family to want to capture the Daosheng Sect."

Hearing this, Yang Tongfang couldn't help but be a little surprised.

As far as he knew, there were only two Golden Immortals left in the Daosheng Sect, Lian Zhengyu and Song Heguang.

And the Ouyang family and the Qian family had as many as nine Golden Immortals.

This was a complete crushing game. Could there be any accidents?

He hurriedly asked Long Xingxiu.

"Do you think that Dao Sheng Zong has other strong reinforcements?"

Long Xingxiu shook his head and said lightly.

"I don't know whether there are strong reinforcements or not, but I know that Lu Yunfei must have left a powerful backup in Dao Sheng Zong."
