### Chapter 181

"Otherwise, he has been missing for so many years. Why would we look at the fat on our lips and not choose to take action?"

"Ouyang Tianchen and Qian Mu will definitely not get a good deal this time."

"Whether they can escape unscathed is a big question."

Hearing this, Yang Tongfang asked curiously.

"Senior brother, what kind of backup plan does Lu Yunfei think he will leave behind?"

Long Xingxiu shook his head silently and did not answer.

Because he doesn't know either.

Lu Yunfei, the ancestor of the Daosheng Sect, suppressed the Ji'an sea area for millions of years.

It left a huge shadow on their peers.

Even though Lu Yunfei had disappeared for more than 800,000 years, they did not dare to pursue the idea of the Holy Sect.

People like Ouyang Tianchen who rose up later had no idea how powerful Lu Yunfei was.

To actually want to destroy the Tao Sheng Sect, you really don't know the heights of the world.

But that's fine too.

Let people like Ouyang Tianchen test it out, and maybe they can see what kind of backup plan Lu Yun has left behind.

The same thing happened at Nine Immortals Sect.

Yu Liwei, the master of the Nine Immortals Sect, was sitting in a quiet pavilion drinking tea.

Since Lu Yunfei disappeared, Yu Liwei has become the number one person in Ji'an waters.

As early as a million years ago, she was already in the late stage of Golden Immortal, and she was only one step away from Lu Yunfei.

At this time, a middle-aged man ran over in a hurry.

Qin Chengzhi, a veteran Golden Immortal monk from the Nine Immortals Sect.

Qin Chengzhi hurried over and said to Yu Liwei respectfully.

"Sect Master, the Ouyang family and the Qian family have already launched a large-scale attack. They should be planning to completely destroy the Dao Sheng Sect."

Yu Liwei gently put down the teacup in her hand and said calmly.

"Don't worry about them."

Hearing this, Qin Chengzhi couldn't help but be shocked.

Originally, he thought that the sect leader should be extremely concerned about Dao Sheng Sect's affairs.

As far as he knew, the reason why Yu Liwei was able to cultivate to the current level was that she could even become the master of the Nine Immortals Sect.

To a large extent, it was due to Lu Yunfei's support.

There were even rumors that she and Lu Yunfei had a relationship back then.

But later I didn't know what exactly happened, and the two did not get together in the end.

This matter is extremely secretive. It is estimated that few people in the entire Ji'an sea area know about the old events. He also heard this rumor by chance.

It is precisely because of this that Yu Liwei has been secretly taking care of Dao Sheng Sect since Lu Yunfei disappeared.

Why is it that now, I am suddenly indifferent?

This made him very puzzled.

Yu Liwei obviously saw Qin Chengzhi's thoughts. She stood up and said as if talking to herself.

"Perhaps from now on, there will only be three major forces left in the Ji'an sea area."

After she finished speaking, she rose into the air and turned into a stream of light and disappeared into the distance.

Seeing this situation, Qin Chengzhi couldn't help but curled his lips.

He finally understood.

The owner of the door is also tough-talking.

He said he didn't need to pay attention to it, so he ran over in a hurry now.

You have lived for millions of years, so why are you pretending?

...

## Chapter 164 The war breaks out

Ouyang Tianchen and Qian Mu, with their elite forces, quickly advanced towards Yunfei Island.

They encountered some outlying islands on the way, but they ignored them.

In fact.

They also discovered that there was not even a single high-level monk on these outer islands.

After receiving the news, Daosheng Sect had already withdrawn all its main personnel to Yunfei Island.

See this situation.

Ouyang Tianchen, Qian Mu and others also knew that the Dao Sheng Sect must have been well prepared.

Yunfei Island at this time must be heavily guarded.

But they didn't care.

From their perspective, this was a complete crushing game.

No matter how much preparation the Dao Sheng Sect made, it could not change the final result.

The Tao Sheng Sect will be destroyed.

The two monks had no doubts about this result.

The flying boat flew across the sky quickly.

After half a day, they arrived at the outskirts of Yunfei Island.

At this time, a light blue light curtain slowly rose from above Yunfei Island.

The light curtain completely enveloped the entire island, with a radius of hundreds of thousands of miles.

Because the light curtain covers it.

Ouyang Tianchen and others stood outside and couldn't see clearly what was going on inside the Dao Sheng Sect's mountain gate.

Qian Mu flew to Ouyang Tianchen's side and said with a slightly solemn expression.

"Brother Ouyang, Dao Sheng Sect has activated its defensive formation, what should we do now?"

Ouyang Tianchen said calmly.

"Brother Qian, don't worry, isn't this what we expected?"

"No matter how prepared he is, we will fight slowly. No matter how strong the Dao Sheng Sect's defensive formation is, it can't stop so many of us from attacking."

"Too."

Qian Mu nodded in agreement.

Looking at Yunfei Island in the distance, Ouyang Tianchen waved his hand.

The True Immortal monks behind him quickly spread out to the side and slowly approached the island.

At this moment, a figure walked out of the blue light curtain.

Lian Zhengyu appeared.

He looked at Ouyang Tianchen and others and said calmly.

"The two fellow Taoists have been waiting for so many years, and now they can't wait any longer?"

Hearing this, Ouyang Tianchen was speechless.

It was Qian Mu next to him who took over the words and said back.

"The law of the jungle is an eternal truth. The Daosheng Sect has been weak until now, and it is time for it to withdraw from the stage of history."

"If Brother Lian Dao can't bear to see the disciples of the sect die, why not withdraw from the Ji'an Sea area early and go to other places to enjoy yourself?"

Facing Qian Mu's slightly arrogant tone.

Lian Zhengyu was not angry.

He just responded lightly.

"The Daosheng Sect has been based in the Ji'an Sea area for millions of years, so it will naturally not retreat."

"As for the law of the jungle you mentioned, we can only know who is weaker and who is stronger after fighting."

After saying that, he slowly retreated into the light curtain.

The other party has many people and powerful forces.

Lian Zhengyu naturally won't fight with them outside.

Anyway, there is the sect formation to rely on, and there is also the powerful trump card left by Lu Yunfei.

Even if he is a fool, he will not fight with the other party outside.

Facing the attacks of the Ouyang Family and the Qian Family, he has been mentally prepared.

Lian Zhengyu thought, maybe he could take this opportunity.

With the trump card left by Lu Yunfei, he could kill one or two Golden Immortals from the other side.

Let them know what it means that a lean camel is bigger than a horse.

The Daosheng Sect has a long history, and it is not comparable to the Ouyang Family and the Qian Family, two upstarts.

If he could kill one or two Golden Immortals from the other side in one fell swoop.

Then the Ouyang Family and the Qian Family would definitely have concerns.

After all, there are only nine Golden Immortals in total from the two families.

He only needs to kill one casually to deter the whole audience.
