### Chapter 182

It is hard to say whether the other party will retreat at this point.

In Lian Zhengyu's view, defending the mountain gate station has never been a problem.

The difficulty lies in that if the other party squats at the door of his house, Daosheng Sect will not be able to develop any more.

So Lian Zhengyu made up his mind.

This time, he must give it to the other party and knock down the arrogance of the two families.

Let the other party never dare to covet Daosheng Sect again.

To achieve this effect, it is necessary to kill the other party's Golden Immortal cultivator.

...

Seeing Lian Zhengyu slowly retreating into the light curtain of the formation, Ouyang Tianchen and others did not stop him.

After all, Lian Zhengyu is a mid-stage Golden Immortal, and his strength is not weaker than theirs.

If the other party wants to leave, they can't stop him at all.

But the monk can run away, but the temple cannot.

As long as the mountain gate of Daosheng Sect is broken, all the territory and wealth will be taken over.

Thinking of the accumulation of Daosheng Sect for millions of years, they are full of expectations.

Ouyang Tianchen waved his hand, and five long gun barrels appeared on each of the two flying boats.

Low-grade Immortal-killing Cannon.

In order to deal with Daosheng Sect, they took out all the good things they had kept in their bottom boxes.

Not only is the Immortal-killing Cannon extremely difficult to refine, but the materials required are also very precious.

In addition, every time the Immortal-killing Cannon is used to launch an attack, it is necessary to consume the Chaos Beast Crystal Core.

This is really not a good thing that ordinary people can afford.

Low-grade Immortal-killing Cannon is a real strategic resource, and finished products are rarely seen on the market.

As long as the True Immortal cultivator is hit by the low-grade Immortal-killing Cannon, there is no life or death.

Even the Golden Immortal cultivator dare not take the bombardment of the low-grade Immortal-killing Cannon.

Of course.

Cultivators are not Chaos Beasts.

Once a cultivator reaches the True Immortal Realm, his reaction speed is extremely fast, and it is not easy to hit him.

Ouyang Tianchen and others have never thought of using the low-grade Immortal-killing Cannon to deal with the disciples of Daosheng Sect.

The cultivators were too flexible, and it was difficult to hit them when they were not controlled.

But it was just right to use the low-grade Immortal-Exterminating Cannon to bombard the Dao Sheng Sect's formation.

With Ouyang Tianchen's right hand waved.

Ten low-grade Immortal-Exterminating Cannons fired at the same time.

Boom...

The Immortal-Exterminating Cannons shone with a scorching light and rushed straight to the Dao Sheng Sect's mountain gate station.

The Dao Sheng Sect disciples guarding the mountain gate took action one after another.

They either used magical powers or used immortal weapons to intercept.

However, the attack power of the Immortal-Exterminating Cannon was really extraordinary.

The scorching light broke through the layers of interception and instantly bombarded the Dao Sheng Sect's defensive formation.

The light blue light curtain was slightly shaken by the bombardment.

Then it returned to its original state.

Although the low-grade Immortal-Exterminating Cannon was powerful, the second-level defensive immortal formation was even more complicated.

The Dao Sheng Sect's mountain gate formation had been operating for millions of years.

It had long been like an iron barrel.

Unless Ouyang Tianchen and others can get multiple middle-grade immortal-destroying cannons for continuous bombardment.

Otherwise, don't think about breaking through the mountain gate formation of Daosheng Sect easily.

Seeing that the attack effect of the low-grade immortal-destroying cannon was not satisfactory.

Ouyang Tianchen and others were not disappointed.

They had been prepared for a long time.

If the mountain gate formation of Daosheng Sect was so easy to break through.

It would not have survived until now.

Maybe it would have been destroyed long ago.

Ouyang Tianchen waved his right hand, and a long-handled hammer appeared in his hand.

He exerted all his strength, and the immortal energy surged wildly.

The immortal hammer expanded rapidly, and the huge hammer phantom suddenly fell towards the mountain gate formation.

At the same time.

Ouyang Tianchen shouted loudly.

"Everyone, take action together, and destroy Daosheng Sect today."

Eight golden immortals plus nearly a thousand true immortal cultivators used their own methods at the same time.

They all launched attacks on the mountain gate formation of Daosheng Sect.

The war broke out instantly.

The surrounding seawater, due to the violent surge of immortal spirit energy, set off huge waves.

...

## Chapter 165 The Deterrent Power of the Intermediate-grade Immortal-killing Cannon

The two cultivators launched a fierce attack on the mountain gate formation of the Daosheng Sect.

The disciples guarding the mountain gate were also unwilling to be outdone.

Under the protection of the formation.

They each used their magical powers to intercept the opponent's attack.

Everyone understood that the mountain gate formation of the Daosheng Sect was extremely extraordinary.

But if the opponent's attack was allowed, the formation could not support too much.

Song Heguang waved his right hand.

A purple mirror slowly flew into the sky.

Intermediate-grade immortal weapon, Aurora Mirror.

With the injection of immortal energy.

The Aurora Mirror shot out a purple light and went straight to Ouyang Tianyue.

At this time, Ouyang Tianyue controlled a silver immortal sword and chopped it down at the mountain gate formation.

Seeing the purple mirror light coming, he was shocked.

As he dodged and moved, he offered a small green stick.

The green stick instantly turned into a sky-supporting tree, blocking in front of him.

As the purple mirror light shone, the sky-supporting tree transformed by the green stick quickly melted and disintegrated.

However, taking advantage of this gap.

Ouyang Tianyue had already escaped from the coverage of the purple mirror light.

Seeing this situation, he couldn't help but breathe a sigh of relief.

The power of the middle-grade immortal weapon is extremely extraordinary. Once he was hit by the purple mirror light just now.

He would definitely be seriously injured.

In fact, not every golden immortal cultivator has a middle-grade immortal weapon.

It has been tens of thousands of years since Ouyang Tianyue broke through to the golden immortal realm, but he does not have a middle-grade immortal weapon.

Seeing Song Heguang attack with a mid-grade immortal weapon as soon as he made a move, he couldn't help but feel a little envious.

However, soon his eyes became hot again.

As long as they could take down Daosheng Sect, would they still be afraid of not having a mid-grade immortal weapon?

...

Lian Zhengyu stood on the top of Daosheng Peak, taking in the entire battle situation.

He was not in a hurry to attack.

The opponent seemed to be attacking fiercely, but in fact he had been secretly preparing and had not used his full strength.

He was waiting for an opportunity.

Waiting for the opportunity to kill with one blow.

Lian Zhengyu was the highest combat power of Daosheng Sect at present.

If he didn't attack, it would be fine.

If he attacked, he would see the effect.

Just when Ouyang Tianyue escaped from the purple mirror light, he just breathed a sigh of relief.

Suddenly, a silver bracelet quietly appeared above his head.
