### Chapter 184

"Once we are separated, we will inevitably end up being defeated by each other."

Hearing Qian Mu's words, Ouyang Tianchen was speechless.

He naturally knows the truth.

The mid-grade immortal cannon is not bulky and is very easy to move.

As long as you have a slightly larger flying boat, you can carry the mid-grade immortal-killing cannon to attack everywhere.

Facing the bombardment of the middle-grade Immortal-Destroying Cannon, the mountain gate formation of their two families was completely unable to defend themselves.

In other words, no second-level immortal formation can block the continuous attacks of the middle-level immortal cannon.

Once they disperse and evacuate, it is very likely that Lian Zhengyu will go out with the middle-grade immortal cannon.

But what can be done?

Could it be that they were just blocking it outside the mountain gate of Dao Sheng Sect?

Of course, this is also a solution.

But if this happens, they will be completely at loggerheads with Dao Sheng Sect.

It won't be over until then.

After being silent for a while, Ouyang Tianchen asked Qian Mu.

"In Brother Qian's opinion, how should we respond?"

Qian Mu collected his thoughts and then said slowly.

"The Dao Sheng Sect has three middle-grade immortal-killing cannons, which is indeed beyond our expectations."

"But the middle-grade immortal-killing cannon is not invincible."

"Each attack from the mid-grade Immortal-Destroying Cannon consumes a four- to six-star Chaos Beast Crystal Core."

"I think no matter how wealthy the Dao Sheng Sect is, they won't have too many crystal core reserves."

"We can let the true immortal monks in the family bring low-grade immortal-killing cannons to constantly harass the Dao Sheng Sect's mountain gate formation."

"And we stay in the rear and skim the formation."

After listening to Qian Mu's analysis, Ouyang Tianchen couldn't help but his eyes lit up.

This is indeed a good idea.

There are nearly a thousand True Immortal cultivators from their two families combined.

Although the True Immortal monks will definitely not be able to break the Dao Sheng Sect's mountain gate formation for a while.

But it can also play a certain role in harassment.

Just look at Lian Zhengyu, who is not willing to use the medium-grade immortal-killing cannon to deal with the true immortal cultivators.

But he believed that it would definitely not be the case.

Chaos beast crystal cores with four stars or above are not cabbage, and the Dao Sheng Sect probably doesn't have much in stock.

Using a medium-grade immortal-killing cannon to deal with true immortal monks is like using a cannon to swat mosquitoes.

As for whether Lian Zhengyu and Song Heguang will take action against the True Immortal cultivators.

I am very sure of that.

But there are still seven of them Golden Immortal monks, raking the formation behind.

It is not a problem at all to intercept the attacks of the other two Golden Immortal monks.

Thinking of this, Ouyang Tianchen's depressed mood disappeared and he said loudly.

"Just do as Brother Qian says."

After a while.

The scattered monks from the two families gathered together again and slowly approached Yunfei Island.

Ouyang Tianchen waved his hand.

Nearly a thousand True Immortal monks quickly rushed toward the Dao Sheng Sect's mountain gate formation.

Lian Zhengyu stood at the top of Daosheng Peak. Seeing the situation in front of him, he couldn't help but feel helpless.

All the opponent's golden immortals hid behind, leaving only the true immortal monks to attack the mountain gate formation.

This left him with nowhere to start.

Qian Mu guessed well. Dao Sheng Sect's crystal core reserves were indeed not very large.

It is impossible for him to use the middle-grade immortal cannon to deal with the true immortal monks.

But it would definitely not work to allow the other side to block outside the mountain gate and attack like this.

Think of this.

Lian Zhengyu sacrificed an immortal sword, and the dazzling sword light swept out of the mountain gate.

Ouyang Tianchen and Qian Mu took action at the same time.

They each sacrificed their celestial weapons to intercept and repel Lian Zheng's celestial sword.

Lian Zhengyu was not given the chance to kill two True Immortal cultivators.

The two sides kept testing each other across a long distance.

Whenever Lian Zhengyu and Song Heguang wanted to attack the other party's True Immortal cultivator.

The opponent's seven golden immortals would immediately intercept them without giving them a chance.

The war suddenly reached a stalemate.

Even Zhengyu was powerless when he wanted to expel the other party.

The Ouyang family and the Qian family seem to have been attacking fiercely.

But those True Immortal monks alone wanted to break the Dao Sheng Sect's mountain gate formation.

Of course, this is just nonsense.

The final result was that the Dao Sheng Sect was blocked in the mountain gate and unable to get out.

The monks of the Ouyang family and the Qian family also took advantage of the Dao Sheng Sect's mountain gate formation, but they were helpless.

...

A stream of light quickly streaked across the sea.

Xie Mingyuan and Zhang Yuhe stood on the flying boat, looking into the distance from time to time.

Contact the sect through the Immortal Mirror.

At this time, they had received news that the Ouyang family and the Qian family were attacking the mountain gate of Dao Sheng Sect.

However, intimidated by the power of the mid-grade Immortal-Destroying Cannon, the opponent's attack power was not too strong.

For now, there should be no problem with the sect's safety for the time being.

Not only that, the sect leader Lian Zhengyu also used a medium-grade immortal-killing cannon to kill Ouyang Tianyue.

You know, there are only so many Golden Immortal monks in the entire Ji'an sea area.

It has been many years since the Golden Immortal monk died in this sea area.

Even if occasionally a Golden Immortal monk dies in battle, it is in the Chaos Continent.

In the Ji'an sea area, the Golden Immortal monks are all top-notch combat power, and it is rare for a Golden Immortal to fall.

In fact, they were also very curious, where did the sect master get the middle-grade immortal-killing cannon?

But that's not their concern.

As long as the sect is fine.

After half a month of flying, they had gradually approached the Ouyang family's sphere of influence.

Zhang Yuhe put away the flying boat and turned to Xie Mingyuan.

"Senior brother, let's hide our bodies and quietly approach Tianchen Island."

Xie Mingyuan couldn't help being surprised when he heard that Zhang Yuhe planned to directly enter Tianchen Island.

"Uh, junior brother, should we go directly to Tianchen Island? That old ghost Ouyang Tianwu did not appear in the team attacking the sect."

"Presumably he should be staying at Tianchen Island, right?"

"Isn't it too risky for us to go there like this?"

Zhang Yuhe responded calmly.

"Even if Ouyang Tianwu is on Tianchen Island, it doesn't matter. We just take the opportunity to kill him."

Hearing this, Xie Mingyuan couldn't help but open his mouth wide, not knowing what to say for a moment.

He thought, Junior Brother must be crazy.

You, a true immortal monk who has just ascended to the throne and has only passed ten thousand years, want to kill Ouyang Tianwu, the veteran golden immortal?

But then he thought of Zhang Yuhe's fierce fighting power.

So, there was no refutation.

As early as ten thousand years ago, Zhang Yuhe could instantly kill Ouyang Lishan.

After thousands of years of training, even if you can't defeat the Golden Immortal, you should still be able to escape.

Thinking of this, Xie Mingyuan asked seriously.

"Junior brother, are you sure? Don't take risks."

Zhang Yuhe looked up at the sky and responded calmly.

"Senior brother, don't worry, it's not difficult to kill a bunch of golden immortals."

Seeing that Zhang Yuhe was so confident, Xie Mingyuan did not persuade him.

At the same time, he shouted with great pride.

"Okay, since Junior Brother is so confident, then I will accompany you for a walk and see how Junior Brother reverses the Golden Immortal's grace."
