Chapter 187

Even if Ouyang Tianwu hides in the formation, what's the use?

Do you still think that with this second-order immortal formation, you can stop him?

...

Tired of it? Said Qi Zhuanli Zhanqiao

Xie Mingyuan, who was standing next to him, was so shocked that he couldn't speak.

Although he had known for a long time that Zhang Yuhe's strength was far beyond that of ordinary true immortals.

But with one stick, Ouyang Tianwu, the veteran Golden Immortal monk, was seriously injured.

This result still shocked him.

No wonder Zhang Yuhe was so confident before.

With such strength, it seems that it is not difficult to kill all the golden immortals.

Zhang Yuhe ignored Xie Mingyuan's thoughts.

I saw him wave his right hand.

The nine flying swords quickly fell to the distance.

He quickly pressed the magic formula, and a huge sword energy light curtain slowly rose.

The entire Tianchen Island was enveloped within the scope of the sword formation.

He planned to deal a cruel blow to the Ouyang family.

Now that we have taken action, we must eradicate the root cause.

Tianchen Island gathers most of the elite children of the Ouyang family.

Just kill all these people.

So from now on, the only ones left in the Ouyang family are those true immortals who were taken away by Ouyang Tianchen.

Without the support of reserve forces, the entire family's power would be considered useless for the time being.

After setting up the Nine Heavens Hunyuan Sword Formation.

Zhang Yuhe waved the Nine Heavens Long Stick in his hand and hit it hard on the light curtain above Tianchen Island.

Boom...

The huge sound shook the world.

The array light curtain began to move violently.

Seeing such a situation, Ouyang Tianwu couldn't help being shocked.

If this continues, this defensive immortal formation will not last long at all.

Thinking of this, he quickly took out an immortal sword and struck Zhang Yuhe outside.

"snort."

Zhang Yuhe snorted coldly.

He waved his long stick casually and knocked the fairy sword away.

Then they continued to bombard the defensive formation.

Ouyang Tianwu was as anxious as an ant on a hot pot.

There was absolutely nothing he could do about Zhang Yuhe outside.

Even if he kills, he will only give away his head.

However, staying within the formation could not stop Zhang Yuhe from attacking the formation.

If this continues.

Tianchen Island's defensive formation will soon be breached.

Ouyang Tianwu frantically injected immortal energy into the control array.

While he kept calling for help from Ouyang Tianchen.

...

Zhang Yuhe waved the Nine Heavens Flying Spirit Stick and continuously bombarded the defensive formation.

Suddenly, there was a clicking sound.

The defensive formation that shrouded Tianchen Island suddenly exploded.

Ouyang Tianwu was simply stunned.

He didn't expect it at all.

The majestic second-level immortal formation couldn't resist even for a moment.

At this point he was too late to think too much.

He rose into the air and flew away quickly.

It's important to escape for your own life.

As for those family members who stayed on the island, we can only blame them for their suffering.

"Huh, you still want to run?"

Zhang Yuhe snorted coldly.

He quickly used the magic formula.

The Nine Heavens Hunyuan Sword Formation turned into endless sword energy and swept across the entire Tianchen Island in an instant.

Not only that, these sword energies also have the power of the law of time attached to them.

Tianchen Island was completely covered.

The children of the Ouyang family on the island seemed to be suddenly frozen.

They all stood still in place.

They could only watch as the endless sword energy cut them into ashes.

Ouyang Tianwu's figure has just jumped up,

Suddenly he felt an inexplicable power of law coming towards him.

Everything around him seemed to have been pressed on the pause button and became still.

Seeing this situation, he murmured to himself.

"The law of time?"

He really couldn't imagine what kind of incredible person it was that could comprehend two supreme laws at the same time.

However, he could no longer think too much at this time.

Ouyang Tianwu tried his best to activate the law of earth.

He has understood the laws of earth to a small degree, coupled with the advantages in cultivation realm.

Zhang Yuhe's law of time cannot trap him for too long.

A light yellow aura surged from Ouyang Tianwu's body, allowing him to escape from the trap in an instant.

Unfortunately, it's too late now.

Zhang Yuhe picked up the Nine Heavens Flying Spirit Stick and was already in front of him.

Ouyang Tianwu didn't even have time to use the defensive weapon, but was shot into pieces by the sky-raising stick shadow.

A mini Nascent Soul just flew out of his broken body.

But he was soon overwhelmed by the endless sword energy, turned into little bits of spiritual light, and dissipated between heaven and earth.

The ancestor of a generation of golden immortals fell into the hands of Zhang Yuhe.

...

Chapter 169 The intention to quit

With the death of Ouyang Tianwu.

Except for Zhang Yuhe and Xie Mingyuan, there was no one alive on the entire Tianchen Island.

With the blessing of the law of time.

The sword light formed by the Nine Heavens Hunyuan Sword Formation instantly wiped out all the people on the island.

The children of the Ouyang family who originally lived on the island all turned into ashes silently.

Zhang Yuhe looked around.

This large and bustling island is now deserted.

But he didn't feel any guilt.

The enemy is the enemy.

No matter men, women or children.

As long as they are enemies, they will naturally be beaten to death.

Zhang Yuhe waved his right hand.

Nine flying swords flew backwards quickly and sank into his sleeves.

He turned his head and looked at Xie Mingyuan and said.

"Brother, let's empty the resources on the island and leave here immediately."

"Okay."

Xie Mingyuan tried to calm himself down and responded excitedly.

This time he saw a true legend.

Zhang Yuhe, with the cultivation level of the late True Immortal, reversed the Golden Immortal cultivator.
