### Chapter 192

Hearing this, Lian Zhengyu was stunned.

I don't know why Yu Liwei suddenly asked about Zhang Yuhe.

He nodded and responded.

“There is a Zhang Yuhe, an ascended cultivator who just came up from the lower world ten thousand years ago.”

Yu Liwei took a deep breath and then said slowly.

“Just received news that Zhang Yuhe comprehended the law of power and attacked Tianchen Island in one fell swoop and killed Ouyang Tianwu.”

Lian Zhengyu was stunned for a moment, his mouth wide open, shocked to the point of being speechless.

He knew Zhang Yuhe.

After all, there were not many true immortal disciples in Daosheng Sect.

There were only a hundred people in total.

As for ascended cultivators, there were even fewer.

At present, there were only Zhang Yuhe and Xie Mingyuan.

But he clearly remembered that it had only been ten thousand years since Zhang Yuhe ascended to the fairyland.

Can he kill Ouyang Tianwu, such a veteran golden immortal cultivator?

Why does this sound so unreal?

If this was not said by Yu Liwei, he might have slapped her.

What nonsense is this in broad daylight?

Can a True Immortal cultivator who has only practiced for ten thousand years kill a Golden Immortal ancestor?

Also, Yu Liwei just said that Zhang Yuhe has comprehended the law of power?

This is unlikely.

The law of power is the supreme law.

In the history of Ji'an Sea, there has never been such a powerful person.

Lian Zhengyu knew that Yu Liwei would never make such a joke with him.

This is probably true.

Thinking of this.

Lian Zhengyu took out the Immortal Mirror and quickly cast a spell.

...

A few days later.

Two shocking news quickly spread throughout the entire Ji'an Sea.

First, Yu Liwei, the leader of the Nine Immortal Sect, suddenly took action.

Killed the Golden Immortal cultivators of the Ouyang Family and the Qian Family in one fell swoop.

Now these two major family forces have been removed from the Ji'an Sea.

Compared to this news.

Another piece of news shocked the world even more.

Zhang Yuhe, a disciple of Daosheng Sect, reversed the Golden Immortal ancestor with his True Immortal cultivation.

Killed Ouyang Tianwu on Tianchen Island.

According to rumors, Zhang Yuhe has comprehended the law of power, so he can reverse the Golden Immortal.

When the news came out, everyone couldn't believe it was true.

Not to mention this small Ji'an Sea Area.

Even in the entire South China Sea Immortal Area, there has not been a cultivator who comprehended the Supreme Law for a long time.

However, the news was spread by the cultivator of the Ouyang family before his death.

It should be true.

At the beginning, Zhang Yuhe spent some extra time when attacking the Tianchen Island defense formation.

A large number of cultivators on the island quickly spread the news throughout the Ji'an Sea Area.

For such a situation, Zhang Yuhe was prepared.

He didn't plan to stay there all the time.

To be honest.

With his current strength, if he fully activates the Hunyuan Guiyi magical power.

In the Ji'an Sea, there are probably not many people who can threaten him.

In this case, why should he stay here?

Wouldn't it be better to lie down comfortably?

...

Ten Thousand Beast Sect, the meeting hall.

Long Xingxiu's face was full of regret.

He muttered to himself.

"No wonder I felt something was wrong with this couple."

Yang Tongfang, who was sitting next to him, asked in a low voice.

"What do you mean, Senior Brother?"

"Do I need to ask? Of course, I'm talking about Yu Liwei and Lu Yunfei, this couple."

"Otherwise, why would Yu Liwei help Daosheng Sect?"

"She really deceived me so badly, she usually keeps a low profile."

"I thought that Jiuxian Sect was waiting for an opportunity just like us."

"Who knew that they had been in the same boat for a long time."

"They almost tricked our Ten Thousand Beast Sect into it."

At this point, Long Xingxiu couldn't help but feel a little fortunate.

Fortunately, they were concerned about Lu Yunfei's existence.

Over the years, they have never suppressed the Daosheng Sect.

Otherwise, their Wanshou Sect would probably follow the footsteps of the two major families.

The Jiuxian Sect and the Daosheng Sect together have a total of eight mid-grade immortal-killing cannons.

Who can withstand this?

Moreover, Yu Liwei is so powerful that she has actually comprehended the dream law to a small degree.

In addition, there is Zhang Yuhe who is suspected of mastering the law of power.

Once these two forces are united.

It will only take a few minutes to unify the entire Ji'an Sea Area.

Thinking of this.

Long Xingxiu immediately stood up and said to Yang Tongfang next to him.

"You should go to the Daosheng Sect immediately and show our goodwill."

"Also find out if Yu Liwei has the idea of unifying the Ji'an Sea Area."

Yang Tongfang hesitated for a long time before asking carefully.

"If she really wants to unify the Ji'an Sea, what should we do?"

"Is there any need to ask this? Naturally, we should follow the trend. Do you still want to resist?"

"Isn't it good to be alive?"

Hearing Long Xingxiu's words, Yang Tongfang couldn't help but be speechless.

But he also knew that this was the best choice.

The Ouyang family and the Qian family were destroyed, and now only their Wanshou Sect was left.

If they wanted to fight against Jiuxianmen and Daosheng Sect alone, they would undoubtedly be courting death.

.....

## Chapter 173 Chaos Supreme's Skills

Zhang Yuhe was driving the flying boat, taking Xie Mingyuan with him, and was flying rapidly towards the Daosheng Sect.

At this time, both of them had smiles on their faces.

After conquering Tianchen Island, they searched the island for most of the day.

The accumulation of the Ouyang family for three million years basically fell into their hands.

Especially Zhang Yuhe.

He controlled three thousand incarnations and searched for a large amount of resources on Tianchen Island.

From ordinary spiritual herbs and medicines to various mineral materials, the quantity was completely beyond his imagination.

It is true that people cannot get rich without windfall, and horses cannot get fat without night grass.

If you want to get resources, it is faster to confiscate the family and destroy the clan.

Like the resources he usually earned in the market by helping others refine immortal tools.

Even if he did it for hundreds of millions of years, it is estimated that there would not be as much as this wave.
