Chapter 197

Since you have already reached the Great Perfection of the True Immortal, the next thing to consider is to advance to the Golden Immortal Realm.

Breaking through the Golden Immortal Realm is not a trivial matter.

It is not that as long as you reach the Great Perfection of the True Immortal, you can directly break through to the Golden Immortal Realm.

At the beginning, Ouyang Lishan stayed in the Great Perfection of the True Immortal Realm for nearly 20,000 years.

For ordinary True Immortal cultivators, they still need some auxiliary elixirs and spiritual medicines.

Relying on the help of elixirs and spiritual medicines, break through the bottleneck of the Golden Immortal in one fell swoop.

Then lead the heavenly tribulation to come.

As long as you survive the heavenly tribulation, you will be a true Golden Immortal cultivator.

However, Zhang Yuhe does not need this.

He did not feel the existence of the bottleneck at all.

For him, the only thing he needs to prepare is to consider how to survive the heavenly tribulation.

When he was in Yufantian, the heavenly tribulation he faced was extremely terrible.

Now he has mastered the three supreme laws.

Zhang Yuhe dare not imagine it at all.

Once he breaks through to the Golden Immortal Realm, how exaggerated the heavenly tribulation he will bring will be.

Therefore, the preparation for the tribulation must not be sloppy.

You have to think it through.

In the past ten thousand years, in addition to practicing, he has been deducing and improving the Renshui Thunder Absorption Array.

At present, he has improved the Renshui Thunder Absorption Array to the lower grade of the fairy rank.

It is not so easy to arrange this array completely.

According to his idea, the lower grade of the fairy rank Renshui Thunder Absorption Array requires a total of 10081 lightning absorption columns to complete the arrangement.

And the level of these lightning absorption columns must all reach the level of lower grade fairy weapons.

More than 10,000 pieces of lower grade fairy weapons, what a terrible demand.

Zhang Yuhe even doubted.

Even if all the lower grade fairy weapons in the entire Ji'an Sea are collected, there may not be so many.

Fortunately, the requirements for materials for these lightning absorption columns are not very strict.

As long as the material strength can reach the level of lower grade fairy weapons.

Despite this.

It is extremely difficult to collect the materials of more than 10,000 pieces of lower grade fairy weapons.

If he relied on himself alone, it would probably take tens of thousands of years to collect all the materials.

Although he had looted a large amount of refining materials from the Ouyang family.

Enough for him to refine thousands of low-grade immortal-level lightning-absorbing pillars.

But this was only one-tenth of it.

There was still a big gap in setting up a complete Renshui lightning-absorbing array.

"It seems that I have to ask the sect master for help."

Thinking of this, Zhang Yuhe turned into a stream of light and flew quickly towards the Daosheng Sect.

He had figured it out.

This matter must be solved by Lian Zhengyu, and he would definitely not be able to do it alone.

He couldn't wait that long.

If tens of thousands of years were wasted in preparing for the tribulation.

This was completely unacceptable.

More than ten days later.

A stream of light passed over Yunfei Island and quickly flew into the mountain gate.

Before coming, he had already made an appointment with Lian Zhengyu.

At this time, the other party was waiting at the top of Daosheng Peak.

After a while, Zhang Yuhe flew and landed on the top of Daosheng Peak.

He saw Lian Zhengyu sitting in a small pavilion drinking tea quietly.

[The transfer station of the world-weary novel - Station 1

He quickly stepped forward and shouted respectfully.

"Disciple Zhang Yuhe, meet the master."

Lian Zhengyu's face was full of admiration after seeing Zhang Yuhe.

As the first supreme genius in the history of Ji'an Sea.

He didn't know how far Zhang Yuhe could go on the road of immortality.

But it would definitely exceed his imagination.

Lian Zhengyu looked up and down, and suddenly found that Zhang Yuhe exuded the aura of the great perfection of the true immortal.

He couldn't help but be shocked, and hurriedly asked Zhang Yuhe excitedly.

"Have you broken through to the great perfection of the true immortal?"

"Yes, master, the disciple broke through successfully by luck."

Zhang Yuhe nodded.

Lian Zhengyu opened his mouth, not knowing what to say for a moment.

It has only been 20,000 years since Zhang Yuhe ascended to the Immortal Realm, and he has already broken through to the Great Perfection of the True Immortal.

Doesn't this mean that.

As long as he is well prepared, he will be able to break through to the Golden Immortal Realm soon?

In 20,000 years, he broke through from the True Immortal Realm to the Golden Immortal Realm. Such a progress of cultivation.

Even in the Immortal Realm, the Tianjiao disciples of those super powers are not so exaggerated, right?

"Good, very good."

Lian Zhengyu stood up excitedly and kept cheering.

Thinking that their Daosheng Sect would actually have a genius like Zhang Yuhe who defied the heavens.

Lian Zhengyu was so excited that he couldn't speak.

...

Chapter 177 Crowdfunding Materials for Lightning Absorbing Pillars

Lian Zhengyu tried to calm his excitement. He understood the purpose of Zhang Yuhe's visit.

After breaking through to the Great Perfection of the True Immortal, he naturally had to consider the promotion to the Golden Immortal Realm and surviving the heavenly tribulation.

He thought that Zhang Yuhe came to him at this time, probably for these two things.

Lian Zhengyu pondered for a while before slowly speaking.

"The sect still has some spiritual medicines to help break through the Golden Immortal stage. These are things that Senior Brother Lu left behind."

"Over the years, the sect has been very weak, and there are not many True Immortal disciples who can cultivate to the Great Perfection."

"So these things have not been consumed."

"I'll get it for you later."

Hearing this, Zhang Yuhe shook his head and said.

"Master, there is no need for the spiritual medicine to assist the breakthrough. For the time being, I haven't felt the existence of the bottleneck, and I should be able to break through smoothly."

"The main reason is that I am not sure about the heavenly tribulation I will face after the breakthrough, so I came to ask for help from the master."

Lian Zhengyu opened his mouth and looked dumb.

For a moment, he didn't know what to say.

But thinking of Zhang Yuhe's peerless talent, he was relieved again.

In the fairy world, there are indeed some people who will not encounter bottlenecks when breaking through.

Legend has it that there is a special physique called the immortal body.

Not only is the cultivation speed extremely fast.

And it can also break through to the Daluo Immortal without encountering any bottlenecks.

In Lian Zhengyu's opinion, perhaps Zhang Yuhe may have a similar spiritual body.

Otherwise, he would not be able to cultivate so fast.

It only takes 20,000 years to complete the journey of hundreds of thousands of years for others.

Hearing Zhang Yuhe's request, Lian Zhengyu fell into deep thought.

He knew Zhang Yuhe's concerns.

Heavenly tribulation is a test of the heaven for cultivators.

The more talented the cultivator is, the stronger the heavenly tribulation he will face when he breaks through the realm.

In Lian Zhengyu's opinion.

Zhang Yuhe not only has a special spiritual body, but also comprehends the supreme law.

This peerless genius needs to face the heavenly tribulation when he breaks through the golden fairyland.
