Chapter 198

The power will definitely be extremely terrifying.

Facing such a catastrophe, ordinary coping methods will definitely not work.

However, he couldn't think of any more ways.

Although the Dao Sheng Sect has a profound foundation, that happened hundreds of thousands of years ago.

Today's Dao Sheng Sect has been declining for hundreds of thousands of years.

This is no longer the era of Lu Yunfei.

What's more, even if Lu Yunfei is still there.

I guess it's the same, I can't think of any good solution.

There are only a few methods that can assist in overcoming the tribulation.

In the Ji'an sea area, there is no tribulation platform.

They don't have the ability to borrow the tribulation platforms of those big forces.

Apart from the Tribulation Platform, he really couldn't think of a more reliable way.

Thinking of this, Lian Zhengyu felt a little worried.

It was not easy for the Daosheng Sect to have a peerless talent like Zhang Yuhe appear.

You can't just watch him fall into the catastrophe.

Lian Zhengyu had no choice but to ask Zhang Yuhe.

"I wonder what kind of help you want the sect to provide you?"

Zhang Yuhe had already prepared for this.

He took out a jade slip and handed it over, and then said slowly.

"This is a formation that I have deduced and improved. As long as this formation can be deployed."

"Then I am confident that I can survive this disaster."

"Not only that, we can also use this formation to set up a tribulation platform."

"From now on, when the disciples in the sect break through the Golden Immortal Realm, they will no longer have to worry about overcoming the catastrophe."

Hearing this, Lian Zhengyu took the jade slip suspiciously and looked at it slowly.

As far as he knows.

The formations that can assist monks in dealing with the catastrophes of Golden Immortal and above are basically in the hands of those big forces.

This is why only those big forces can set up the Tribulation Platform.

Because other small forces simply don't know how to arrange such formations.

After seeing the contents of the jade slip, Lian Zhengyu was both happy and helpless.

The formation deduced by Zhang Yuhe can be said to be extremely perfect.

Even people with a little knowledge of formations can see it.

This is an extremely powerful auxiliary formation for overcoming tribulations.

It's just that the layout requirements of this formation are really outrageous.

He actually needed to use more than 10,000 low-grade immortal weapon-level lightning-absorbing pillars.

Where can I get so many lightning-absorbing pillars?

They simply couldn't find so many weapon-refining materials.

Moreover, even if the materials are slowly collected.

Refining all the more than 10,000 thunder-absorbing pillars would be a huge project.

Even if all the immortal-level weapon refiners in the Ji'an sea area are gathered together.

I'm afraid it will have to continue refining for a long time.

Zhang Yuhe obviously saw Lian Zhengyu's concerns.

He spoke slowly.

"As long as the sect leader helps me collect the materials, I can do the refining of the lightning absorbing pillar myself."

Hearing this, Lian Zhengyu couldn't help but be surprised.

"Are you sure, these are more than 10,000 low-grade immortal weapons. Even if you refine them day and night, it will take tens of thousands of years, right?"

Zhang Yuhe responded calmly.

"It won't take that long. As long as there are enough materials, I can use multiple tripods to start work at the same time. It doesn't take too much time."

"The key now is that such materials are indeed a bit difficult to get."

Even Zhengyu nodded, but he didn't dwell on the matter.

Compared to refining the thunder-absorbing pillar, the material issue is the most difficult to deal with.

After all, the amount Zhang Yuhe needed was a bit too much.

Even if the entire Ji'an sea area is searched, it is impossible to gather the materials.

It may take tens of thousands of years for Dao Sheng Sect to collect all the materials.

Even longer.

Moreover, the cost involved was not something that the Dao Sheng Sect could afford.

Once the Tao Sheng Sect's foundation is completely emptied out.

So how will other disciples practice in the future?

"Perhaps we can cooperate with the Nine Immortals Sect?"

Once the tribulation platform is set up, disciples from both sides can use it when they break through the Golden Immortal.

This is a mutually beneficial thing.

Thinking of this, Lian Zhengyu flipped his right hand.

An immortal mirror appeared in his hand.

He cast a spell.

After a while, Yu Liwei's voice came from the Immortal Mirror.

"I know about this matter. We will discuss it in person at Dao Shengzong in ten days."

...

Ten days later.

Two streaks of light passed from a distance and flew into the mountain gate of Dao Sheng Sect.

Except Yu Liwei herself.

She also called Long Xingxiu, the leader of the Ten Thousand Beast Sect, over.

The construction of the Tribulation Crossing Platform is a major event in the entire Ji'an sea area.

If this can be done.

Then in the near future, more Golden Immortal monks will surely emerge in the Ji'an sea area.

Facing Yu Li's micro invitation, Long Xingxiu not only did not refuse.

On the contrary, I was very happy.

He didn't want to be isolated by the Nine Immortals Sect and the Dao Sheng Sect.

Being able to participate in the construction of the Tribulation Platform was something he could only dream of.

Moreover, their Ten Thousand Beasts Sect has two disciples who have already reached the level of True Immortal Dzogchen.

It's just that I'm not sure I can survive the catastrophe, so I've been putting it off until now.

Once the Tribulation Platform is built successfully.

Their Ten Thousand Beast Sect can also get great benefits.

How could he refuse such a good thing?

.....

Chapter 178: Start refining the lightning-absorbing column

Yu Liwei and Long Xingxiu flew into Daosheng Peak, and Zhang Yuhe and Lian Zhengyu immediately stood up to greet them.

Long Xingxiu looked at Zhang Yuhe and asked with a smile on his face.

"I guess this is Zhang Xiaoyou."

"Zhang Xiaoyou has mastered the supreme law, and his feat of becoming a golden immortal with the cultivation of a true immortal is really admirable."

Zhang Yuhe heard this and immediately responded modestly.

"Master Long is too kind, I am just lucky."

.....

After some politeness, everyone came to the pavilion on the top of the mountain and sat down.

Yu Liwei looked at Lian Zhengyu and asked directly.

"You mentioned before that you are sure about building the tribulation platform."

Lian Zhengyu didn't waste words, he handed over the jade slip and then spoke.

"This is the formation that Zhang Yuhe improved. You will know it after you read it."

Yu Liwei picked up the jade slip and carefully examined it for a while, then passed it to Long Xingxiu.

Seeing the contents of the jade slip, both of them were greatly shocked.

Long Xingxiu said in amazement.
