

Top talent 201

Section 201

No one knows how far Zhang Yuhe will grow in the future.

Making friends in advance now is equivalent to embracing someone in advance.

We are all smart people.

Know how to choose.

Otherwise, people like Long Xingxiu who have nothing to do with him.

Why are people so positive?

He even personally went to the Tiangong sea area to help him collect the materials for refining the thunder-absorbing pillar.

Everyone knows what this means.

After collecting the materials, the Golden Immortal Ancestors did not disperse.

They stood outside the weapon refining hall.

Seeing Zhang Yuhe controlling more than a hundred cauldrons at the same time, everyone couldn't help but be amazed.

"It's really a great experience."

"Yes, I have never seen someone who can refine hundreds of immortal weapons at the same time."

"Don't say you haven't seen it before, I've never heard of such a thing."

"Zhang Xiaoyou not only cultivates extremely fast, but also comprehends the Supreme Law, and even has such profound attainments in the art of weapon refining."

"With the existence of such peerless talents, our Ji'an sea area will inevitably develop and grow."

"Perhaps one day in the future, it can develop into a large sea area like Tianbao Sea Area."

"Haha, that's inevitable."

A group of golden immortal ancestors, although they belong to three major forces.

But everyone is understanding.

They knew that Zhang Yuhe existed.

Perhaps in the near future, the entire Ji'an sea area will be unified.

This is an inevitable process.

When a superb figure appears in a sea area.

Everyone will naturally fall in love with you and not resist.

Everyone understands the principle of eating meat if you hold it on your thigh.

in their eyes.

Zhang Yuhe is that thick and strong thigh.

You must hold it firmly.

...

Chapter 180 Building the Tribulation Platform

A group of Golden Immortal Ancestors were discussing quietly outside the Weapon Refining Hall.

Although the materials have been collected, Zhang Yuhe can just leave the rest to himself.

But they had no intention of leaving.

Golden Immortal monks have a lifespan of tens of millions of years, which is not less than a few hundred years anyway.

They all wanted to see how effective the final tribulation platform would be.

Of course.

What everyone is more concerned about is whether Zhang Yuhe can successfully break through the Golden Fairyland.

And survive the Golden Immortal Tribulation.

The Supreme Prodigy has never appeared in the waters of Ji'an.

But throughout the history of the South China Sea Immortal Territory, there is no shortage of supreme geniuses.

However, although these supreme geniuses are in the limelight for a while.

But no one can make it to the end.

None of the existing Daluo Immortals in the South China Sea Immortal Realm is the original Supreme Prodigy.

Because every supreme genius has a natural enemy.

That is the test of heaven.

When they break through the great realm, the calamity they need to face will be extremely terrifying.

The power is far beyond ordinary people's imagination.

Even if it is like Duobaomen, a super power in the South China Sea Immortal Domain.

Nor can he protect a supreme genius and survive the calamity all the way to the end.

Don't say that you will eventually become Taoist.

They couldn't even withstand the catastrophe of the Great Luo Immortal.

Everyone is very optimistic about Zhang Yuhe.

But the premise is that he must first survive this wave of golden immortal tribulation.

If Zhang Yuhe can't even withstand the Golden Immortal Tribulation, how can he lead everyone towards development and growth.

If you want to lead the development of a sea area, you need at least one Great Immortal.

Everyone is looking forward to Zhang Yuhe being able to break through all the way to Taiyi Immortal.

However, the premise of all this is to solve the problem of overcoming the tribulation.

Under the intertwining of various complicated emotions, no one had the intention to leave.

They wanted to wait for Zhang Yuhe to finish refining all the thunder-absorbing pillars.

Then build the Tribulation Platform.

Finally, they want to see when the Supreme Prodigy breaks through.

How exaggerated will the catastrophe it will lead to be?

Of course.

Most importantly, they want to see it.

Can Zhang Yu survive the catastrophe?

Once Zhang Yuhe can successfully break through and survive the Golden Immortal Tribulation.

Then he will undoubtedly be the number one person in the entire Ji'an sea area.

The Supreme Prodigy has always been invincible at the same level.

As long as Zhang Yuhe breaks through to the Golden Immortal Realm, then he will be an invincible existence.

Although not as powerful as Taiyi Immortal.

It is not as long-lived as Taiyi Immortal, but it is enough to lead the Ji'an sea area to develop and grow.

...

Zhang Yuhe, who was in the weapon refining hall, ignored the thoughts of the golden immortal ancestors outside.

In fact, he has always understood everyone's thoughts.

But he never worried.

He knew very well about the Renshui thunder absorbing array he had improved.

So, after the materials are collected.

He no longer has to worry about overcoming the tribulation.

...

Two hundred years later.

When all the lightning absorbing pillars are refined.

Zhang Yuhe walked out of the weapon refining hall.

The Golden Immortal Ancestor, who was sitting quietly at Dao Sheng Peak, quickly flew over.

Lian Zhengyu asked him excitedly.

"Have all the lightning-absorbing pillars been refined?"

"Um."

Zhang Yuhe nodded.

Lian Zhengyu continued to ask with concern.

"Would you like to rest for a while first?"

"No, let's go to Galaxy Island first and arrange the tribulation platform."

"Okay, let's go and take a look."

Everyone was very interested in the first tribulation platform in the Ji'an Sea.

Since this tribulation platform was crowdfunded by the three major forces.

So the location of the construction had already been discussed and determined.

It was built on the Milky Way Island.

It was right in the middle of the three forces.

No matter which force the disciples were from, the distance to cross the tribulation in the future would be about the same.

For this reason, Lian Zhengyu had already given the order.

Section 202

Moved all the people on Galaxy Island out, and made some preliminary preparations.

Fortunately, Galaxy Island was originally the mountain gate station of the Ouyang family.

After being conquered by Zhang Yuhe.

Although Daosheng Sect moved in many disciples, the number was not too large.

It would not take too much effort to move all of them out.

And in order to build the Tribulation Platform.

Not to mention a Galaxy Island, even if it was to move out the respective mountain gate stations.

Everyone would seriously consider it.

The Tribulation Platform is a true eternal foundation for any force.

As long as it is successfully built, the True Immortal disciples will no longer have to worry about the tribulation after breaking through the Golden Immortal.

As long as other resources are sufficient.

In the foreseeable future, a large number of Golden Immortal cultivators will surely be cultivated.

A few days later.

Three huge flying boats appeared in the sky above Galaxy Island.

Xie Mingyuan quickly flew forward and shouted respectfully to everyone.

"Disciple Xie Mingyuan, I greet the sect master and all the seniors."

At this time, Xie Mingyuan saw Zhang Yuhe on the flying boat and couldn't help but feel a little envious.

As a true immortal disciple, Zhang Yuhe can be ranked with many golden immortal ancestors.

Even for his tribulation.

The three major forces in the Ji'an Sea area can actually join hands and work together.

This is simply unimaginable.

But thinking of Zhang Yuhe, the invincible combat power, and the talent of the heroes.

He was relieved.

This kind of peerless prodigy is bound to attract attention wherever he goes.

Lian Zhengyu glanced at the Galaxy Island, then turned to Xie Mingyuan and asked.

"Are you ready?"

"Reporting to the sect master, everything is ready according to the sect master's instructions."

Lian Zhengyu nodded, and then led everyone to the Galaxy Peak.

At this time, the Galaxy Peak had been significantly transformed by Xie Mingyuan and his men.

They moved mountains and filled the sea.

A huge platform was built on the top of the Yinhe Peak.

This will be the center of the Tribulation Platform.

As for the other arrangements in the Tribulation Platform, Xie Mingyuan didn't know.

It had to wait until Zhang Yuhe took action himself.

Zhang Yuhe stood on the platform on the top of the Yinhe Peak.

He looked up and nodded with satisfaction.

"Not bad, we can start."

After Zhang Yuhe finished speaking, he waved his right hand.

One by one, the lightning-absorbing pillars burst out with a rich fairy spirit and quickly fell to the edge of the Yinhe Island.

10081 lightning-absorbing pillars formed a huge arc along the entire Yinhe Island.

One by one, the lightning-absorbing pillars rushed straight into the sky, presenting an extremely mysterious formation.

Even if Zhang Yuhe had not yet begun to carve the formation pattern.

Everyone could see the extraordinaryness of this formation.

Zhang Yuhe carefully observed the position of each lightning-absorbing pillar and confirmed it.

He quickly took off into the air.

Reaching out his hand and constantly carving in the void.

The essence of the formation lies in the formation pattern.

The lightning-absorbing column is just the foundation.

Without the lightning-absorbing column, the Renshui lightning-absorbing formation cannot be arranged.

But if there is no formation pattern.

Then this formation is just an empty shell.

It is useless.

...

Chapter 181 Breaking through the Golden Immortal Realm

Zhang Yuhe quickly carved the formation pattern in the void, gradually connecting the lightning-absorbing columns together.

A group of Golden Immortal ancestors stood by and watched silently.

Among these Golden Immortal ancestors, there are many immortal formation masters.

However, they looked at Zhang Yuhe, who kept carving out of thin air, but couldn't see the reason.

Even though they had read the jade slips of the content of the Renshui lightning-absorbing formation before.

They still didn't understand it very well.

After Zhang Yuhe's many improvements.

The immortal-level Renshui lightning-absorbing formation is extremely complex and mysterious.

Otherwise, it would not be able to weaken the effect of the Golden Immortal's heavenly tribulation.

When the last formation pattern was carved,

Zhang Yuhe quickly pinched the magic formula and shouted loudly.

"Start the formation."

A light blue light curtain slowly rose on the Milky Way Island.

On the light curtain, some runes appeared out of thin air.

The whole picture was extremely mysterious.

Everyone couldn't help but exclaimed.

"Is this the Renshui Thunder Absorption Formation? It looks really complicated."

"Yes, even if I saw Zhang Xiaoyou set up the formation with my own eyes, I still didn't understand it very well."

"I just don't know what the specific effect of this formation is?"

"Don't worry, even if I am an outsider, I can see that this formation does have the effect of weakening the heavenly tribulation."

"Indeed."

...

Seeing that the formation has been fully activated, Zhang Yuhe breathed a sigh of relief.

Now everything is ready.

The rest depends on how strong this heavenly tribulation will be.

I hope that those things that exceed common sense will not appear again.

When Yu Fantian was crossing the great heavenly tribulation of ascension, a human-shaped phantom actually appeared.

It really scared him.

After arriving in the Immortal Realm, he understood it by looking up information.

That human-shaped phantom was actually the Supreme Pride who had failed to transcend the tribulation.

When a True Immortal cultivator breaks through the Golden Immortal Realm, if he has already comprehended the special law or the Supreme Law.

It is possible that the Supreme Pride phantom will descend.

"I hope that this time, only the Supreme Pride phantom will come."

Zhang Yuhe muttered to himself.

As far as he knew.

The strongest heavenly tribulation in the fairy world was the shadow of the supreme genius.

If it was only this strong.

He was confident that he could easily get through it.

At this time, Lian Zhengyu came up and asked him in a low voice.

"Do you need to make other preparations?"

"No, wait for me to rest for half a month, and then start trying to break through the Golden Immortal Realm and guide the heavenly tribulation to come."

"Okay, you must not be careless."

After Lian Zhengyu finished speaking, he led everyone away from the tribulation platform.

Before leaving, everyone looked at Zhang Yuhe, the peerless genius, with expectant eyes.

Everyone hoped that this peerless genius could take them further.

Section 203

Most of them have been cultivating to the Golden Immortal Realm for quite some time.

Except Yu Liwei, she may have a certain chance to break through to the Taiyi Immortal Realm by herself.

Everyone else knows this in their hearts.

If there is no great opportunity, the end of their lives will be the Golden Immortal Realm.

It is almost impossible to think of going further.

The life span of a Golden Immortal is tens of millions of years, which seems to be extremely long, but there is also a limit.

Everyone is thinking about it.

If one day, they can break through to the Taiyi Immortal Realm.

From then on, they will no longer have to worry about their life span, that would be great.

In their opinion.

Zhang Yuhe is their great opportunity.

Every time a genius rises, the people around him will benefit.

It is precisely because of this that everyone will work hard to help him collect materials for refining the lightning-absorbing column.

Now is the time to verify whether their efforts will be in vain.

Zhang Yuhe sat cross-legged on the Tribulation Platform of the Galaxy Peak.

After half a month.

I feel that my mind and breath have all recovered to the most perfect state.

He began to slowly operate the Hunyuan Heavenly Scripture.

A large amount of immortal spirit energy quickly gathered towards him.

The immortal spirit energy slowly flowed into the Dantian through the meridians.

Because at this time, he had already reached the great perfection of the true immortal.

The Dantian could not accommodate more immortal spirit energy.

These immortal spirit energy were quickly compressed and transformed in the Dantian.

I don't know how long it has been.

The golden Yuanying above the Dantian sea suddenly opened his eyes.

Three bright spots on the Yuanying body flashed quickly, blooming with dazzling golden light.

The golden light swept across the Dantian sea, like the rising morning glow.

The entire Dantian was reflected in a golden ocean.

The aura on Zhang Yuhe's body began to rise rapidly.

The terrifying pressure swept across hundreds of thousands of miles.

The aura of the Golden Immortal Realm was instantly revealed on him.

Lian Zhengyu and others, who had retreated millions of miles away at this time, could still feel this terrifying pressure.

Yu Liwei stood on the flying boat, looking at the direction of the Milky Way Island, and said solemnly to others.

"It's about to start."

The sea suddenly changed color, and dark clouds gathered quickly towards the direction of the Milky Way Island.

The endless dark clouds covered an area of hundreds of millions of miles.

"Retreat quickly, this place is also within the range of the heavenly tribulation."

Seeing the sudden change in the sky, everyone was shocked.

Originally, they thought they were far enough away.

However, looking at this posture, they are still within the range of the heavenly tribulation.

Everyone drove the flying boat and immediately turned to fly away.

Once the heavenly tribulation came, they couldn't stand it.

They are now in the Golden Immortal Realm.

The corresponding heavenly tribulation that came to them would be the heavenly tribulation of Taiyi Immortal.

No one of them could stand such a heavenly tribulation.

Everyone flew tens of millions of miles away before slowly stopping the flying boat.

Looking at the dark clouds in the distance.

Everyone was completely unsure.

The heavenly tribulation has not started yet, and this situation is so scary.

So can Zhang Yuhe still make it?

Thinking of this.

The atmosphere on the scene instantly became extremely solemn.

Zhang Yuhe stood on the Crossing Tribulation Platform, looking at the dark clouds in the sky.

He felt neither sad nor happy.

Although the movement seemed a bit loud, it was still within his acceptable range.

Compared with the great heavenly tribulation of ascension at the beginning.

The intensity of this heavenly tribulation seemed to be less.

He even had some doubts.

Was he too prepared?

Despite this.

Zhang Yuhe was not careless.

He just waved his right hand, and nine flying swords surrounded him and rotated slowly.

Not only that, he also sacrificed a golden brick-shaped immortal weapon.

Formed a golden barrier above his head.

After doing all this.

Zhang Yuhe looked up at the sky.

The dark clouds quickly gathered in the sky, and soon formed a huge black vortex.

The sound of thunder and lightning continued to come from the black vortex.

After a while.

A golden figure jumped out of the vortex.

The golden human-shaped phantom, waving a terrifying spear, quickly rushed towards the Crossing Tribulation Platform.

"Fuck, is he going to use his ultimate move right at the beginning?"

Zhang Yuhe was simply stunned when he saw this situation.

When he was going through the great heavenly tribulation of ascension, it was only the last heavenly tribulation.

It was the shadow of the Supreme Heavenly Pride.

Why is it just the beginning this time.

The shadow of the Supreme Heavenly Pride appeared in the first heavenly tribulation.

This is too exaggerated.

Originally, when he saw the formation of the heavenly tribulation at the beginning, it didn't seem too terrible.

I thought that this time, he could easily get through it.

I didn't expect that the biting dog doesn't bark.

Even the heavenly tribulation is so cowardly?

You can't judge a heavenly tribulation by its appearance.

Even if it's not loud, its power should not be underestimated.

The first heavenly tribulation was the shadow of the Supreme Heavenly Pride, so how terrible will the following heavenly tribulations be.

Zhang Yuhe was completely at a loss.

"It seems that I have to go all out again this time."

Looking at the shadow of the Heavenly Pride rushing towards him, he muttered to himself.

...

Chapter 182 This wave of tribulation is stable

The Golden Immortal ancestors who were tens of millions of miles away were all shocked when they saw the golden shadow on the Milky Way Island.

Lian Zhengyu said with an incredible look on his face.

"The heavenly tribulation has just begun, how come the shadow of the supreme genius appears?"

Everyone was also confused.

When they broke through the Golden Immortal, they only had ordinary thunder tribulations.

Where have they seen such a formation?

They have never seen even a shadow of the supreme genius. .

Not to mention that they did not see the shadow of the supreme genius when they themselves passed the tribulation.

Even when they watched other cultivators pass the tribulation, they did not see it.

Section 204

They knew that some monks would attract the shadow of the Supreme Prodigy when they were going through tribulation, and they only learned about it from the classics.

No one expected it at all.

Zhang Yuhe had just begun the first wave of catastrophe.

It has already attracted the shadow of the Supreme Prodigy.

This seems to be somewhat inconsistent with what is recorded in the classics.

Only then did everyone understand.

Maybe Zhang Yuhe is not just as simple as comprehending the Supreme Law.

Maybe there are even more unnatural methods hidden.

Otherwise, the catastrophe would not be so outrageous.

Although the calamity varies from person to person.

But there are certain rules.

The more talented a monk is, the more powerful the disaster will be.

It is obvious that Zhang Yuhe is talented.

It must be something extraordinary, far beyond their imagination.

Yu Liwei next to her said with a solemn expression.

"That's Immortal Lord Zhenyue."

Hearing Yu Liwei's words, Long Xingxiu and others asked in surprise.

"Master Yu, have you seen that golden shadow before?"

Yu Li nodded slightly, and then said slowly.

"This person's name is Fu Zhenshan, his Taoist name is Zhenyue Immortal Lord. He comes from the Nine Stars Immortal Domain and is a peak Taiyi Immortal."

"Three million years ago, I saw this man take action in the Chaos Continent. With his Taiyi Immortal cultivation, he defeated the Chaos Beast King. His strength was very terrifying."

"It's just that I never heard news about this person again. I didn't expect that he also died."

Everyone looked silent.

They all know common sense stuff.

The shadows that can appear in the catastrophe must have been the supreme genius at the beginning.

However, it is the supreme genius who has fallen.

Such fierce men will all fall.

So, can Zhang Yuhe survive this disaster?

Everyone was completely confused.

...

Zhang Yuhe stood on the tribulation platform and looked at the humanoid figure rushing toward him.

There is no wave in my heart.

The catastrophe has just begun, and he is not afraid.

A humanoid shadow instantly appeared over Galaxy Island, and the spear in its hand exuded a terrifying pressure.

However, when the shadow passed through a blue light curtain, its aura began to slip significantly.

The Renshui Thunder Absorbing Formation soon showed its powerful power.

Directly weakened the pressure of the humanoid calamity by more than half.

Zhang Yuhe quickly used the magic formula.

An inexplicable aura instantly enveloped the human form.

The power of the law of time.

The human figure hesitated at the edge of the light screen, and its breath began to slip again.

The endless power of thunder, weakened and guided by Renshui's thunder-absorbing array, fell towards the edge of Galaxy Island.

On the sea, there was a huge wave.

Zhang Yuhe punched out and flew straight towards the humanoid figure in mid-air.

Boom...

There was a loud noise.

The humanoid shadow that was originally so powerful quickly collapsed and disappeared.

The first wave of catastrophe was easily overcome by Zhang Yuhe.

But he wasn't careless.

This is just the beginning.

Golden Immortal Tianxian bombarded a total of 108 times.

The calamity that follows will only get stronger and stronger.

Immediately afterwards, the second wave of heavenly tribulation was generated in the vortex.

This time it is still a humanoid figure.

It's just that his appearance is not the same as that of the previous person.

A new humanoid figure appeared, holding a mountain-breaking ax in his hand.

Quickly rush towards Galaxy Island.

Zhang Yuhe once again used the power of law to drag the humanoid shadow near the blue light curtain.

After the continuous weakening of Renshui's thunder-absorbing array.

The originally imposing humanoid figure looked like a soft-footed shrimp.

He punched them into pieces.

The whole process was relaxed and enjoyable.

It seems that he is not going through a tribulation, but writing and painting at will.

Heavenly tribulations continue to strike round after round.

Humanoid shadows kept pouring out from the black vortex.

Every time the humanoid shadow appears, it is different.

This made Zhang Yuhe sigh with emotion.

In the history of the fairy world, there have been many more supreme geniuses than he imagined.

How many peerless geniuses have been hacked to death by catastrophes?

Only then can humanoid shadows appear continuously?

Zhang Yuhe was a little panicked.

He is very afraid that he will become someone else's phantom in the future.

If that's the case.

That means that he is dead.

God is ruthless, it is terrible.

Even the dead were pulled out to serve as backdrops for future generations.

...

When the catastrophe enters the 36th wave.

Suddenly two humanoid shadows jumped out of the black vortex at the same time.

"Fuck, I knew it wasn't that simple."

Seeing this situation, Zhang Yuhe couldn't help but curse.

He knew that this catastrophe would not be that easy and he would be able to get through it easily.

The power of the two humanoid catastrophes is far from comparable.

The phantom of the Heavenly Tribulation approached the blue light curtain held up by the Renshui thunder-absorbing pillar.

Zhang Yuhe quickly activated the laws of time and space.

Under the intertwining power of two laws.

The two phantoms of the Heavenly Tribulation were quickly controlled near the blue light curtain.

Constantly being guided and weakened.

Immediately afterwards, Zhang Yuhe punched twice in succession.

Defeated the two phantoms of the Heavenly Tribulation.

...

Time passed slowly.

The catastrophe still occurs.

From the first human-shaped shadow, to the two, three, and four at the back.

When the catastrophe comes to the 99th round.

The number of humanoid phantoms that appeared at the same time has become five.

As the number of phantoms of the heavenly tribulation increases.

It becomes increasingly difficult for Zhang Yuhe to deal with them.

These phantoms of the heavenly tribulation also master the supreme law.

Under the interweaving of various law powers.

Section 205

Even if Zhang Yuhe used all his strength to activate the laws of time and space.

He still couldn't hold back the phantom of the heavenly tribulation for too long.

One after another, human-shaped phantoms quickly passed through the blue light curtain and rushed towards him.

These human-shaped phantoms, waving various weapons in their hands, quickly defeated the brick fairy weapon above his head.

Zhang Yuhe had to use all his strength to activate the Nine Heavens Hunyuan Sword Formation.

Endless sword energy light curtains formed a ring of protective barriers around him.

The phantom of the heavenly tribulation slowly dissipated and disappeared under the layers of interception of the sword energy light curtains.

At this time, Zhang Yuhe was no longer as relaxed as before.

He was solemnly activating the sword formation, and the immortal energy was injected into the sword formation as if it was free of charge.

As for the changes in the sky, he didn't even have time to take a look.

He didn't know how long it had passed.

The continuous heavenly tribulation suddenly stopped.

Zhang Yuhe looked up at the sky.

He saw the black vortex expanding rapidly.

The dark clouds in the sky seemed to be falling, pressing down on the Galaxy Island.

Zhang Yuhe took a deep breath.

He knew that the final moment was coming.

Based on the previous experience of the tribulation.

He knew the nature of the tribulation.

The last wave of the tribulation would be extremely terrible.

"I hope there will be no more accidents."

Zhang Yuhe muttered to himself.

Suddenly, ten consecutive human-shaped phantoms quickly jumped out of the black vortex.

Seeing this situation.

Zhang Yuhe was not panicked, but relieved.

Fortunately, it was still the phantom of the Supreme Pride, and no other unknown things appeared.

Although there were more of them, it was very difficult to deal with.

But after all, it was a known thing.

Even if it was difficult to deal with, he had a bottom line in his heart.

After the test just now.

Zhang Yuhe was very confident in the Renshui Absorbing Thunder Formation.

In addition to the Nine Heavens Hunyuan Sword Formation, the powerful defensive ability.

Ten phantoms of the Supreme Pride were not difficult for him.

He thought to himself.

This wave of tribulation was stable.

...

Chapter 183: After 30,000 years of cultivation, the Golden Immortal Avenue is now open

Lian Zhengyu and others stood in the distance, looking at the phantom of the heavenly tribulation in the sky in the direction of the Milky Way Island.

They have long been numb.

Why do the phantoms of the Supreme Pride appear at the same time?

Two or three appearing at the same time is already outrageous.

This is fucking, there are ten phantoms of the Supreme Pride at the same time.

What does that mean?

Does it mean that Zhang Yuhe's talent is equivalent to the sum of ten Supreme Pride?

Everyone is very puzzled about this.

But no one can give them a scientific score.

Because in the Ji'an Sea, they are the strongest group of people.

Even they don't know something.

Who else can they ask?

The only thing that makes everyone happy is the Renshui Thunder Absorption Array arranged by Zhang Yuhe.

It is indeed very effective in dealing with the heavenly tribulation.

Every time the phantom of the Pride passes through the light curtain of the formation, its power will be greatly weakened.

This shows that the construction of the Tribulation Platform is successful.

In the future, the younger disciples of the three forces will no longer have to worry about the tribulation.

Of course, there is a prerequisite here.

That is, after enduring the last wave of heavenly tribulation, the tribulation platform can still remain intact.

What if it is broken by the heavenly tribulation.

They don't have the ability to build such a tribulation platform again.

Everyone looked at the direction of Galaxy Island silently.

I don't know whether they are concerned about Zhang Yuhe's safety or the tribulation platform.

...

Zhang Yuhe stood on the tribulation platform.

At this time, he didn't think about anything.

He just madly injected the immortal energy into the sword formation.

Although he was confident.

After being weakened by the Renshui Thunder Absorption Array.

The Nine Heavens Hunyuan Sword Formation can definitely withstand the bombardment of the heavenly tribulation.

Even if ten supreme Tianjiao phantoms appear at the same time.

It is impossible to break the Nine Heavens Hunyuan Sword Formation.

Despite this.

He dared not miss any of the necessary preparations.

As Zhang Yuhe pushed with all his strength.

The Nine Heavens Hunyuan Sword Formation exuded a dazzling light.

At the same time, three inexplicable auras intertwined on the sword energy light curtain.

Now Zhang Yuhe did not dare to hold back.

He added all the power of the three laws to the sword formation.

The sea of immortal energy in the dantian was being consumed at a speed visible to the naked eye.

The Nine Heavens Hunyuan Sword Formation was fully deployed.

Countless layers of sword energy light curtains were formed within a radius of hundreds of thousands of miles.

The sword energy light curtain extended all the way to the outside of the Milky Way Island.

Not only that.

Zhang Yuhe also used all his strength to activate the Milky Way Zhoutian Gong.

Waves of starlight shone, and a faint glow was emitted on the surface of his skin.

The initial formation of the immortal body was his last resort to deal with the heavenly tribulation.

After cultivating the immortal body, his physical defense ability also became very impressive.

Facing the bombardment of ordinary heavenly tribulation, he could directly withstand it with his immortal body alone.

But Zhang Yuhe did not hope to use it.

If the heavenly tribulation really hit him.

Even if he was not killed by the strike, he would be scared to death.

His principle is to completely intercept the attack of the heavenly tribulation outside his body.

Only in this way can he feel safe.

Boom...

A deafening roar came from the black vortex in the sky.

Ten phantoms of supreme celestial beings, holding various weapons in their hands, rushed towards the Tribulation Platform.

When they came into contact with the light curtain formed by the Renshui Thunder Absorption Array.

The power of these phantoms was instantly weakened by more than half.

Despite this.

The remaining power of these phantoms, each one far exceeded that of a Golden Immortal cultivator.

Even a Golden Immortal who had reached the Great Perfection was not as powerful as any of the phantoms of the celestial beings.

Section 206

This is still after the weakening of the Renshui Thunder Absorbing Array.

before being weakened.

These supreme genius phantoms are all estimated to have the strength of Taiyi Immortal.

Fortunately, these phantoms were just transformed by the catastrophe.

Their attacks will have a fixed rhythm and fixed route.

And it can also be weakened by formations.

If it is the real Taiyi Immortal.

Then don't say ten of them come at the same time.

Even if there was only one, Zhang Yuhe probably wouldn't be able to withstand it for long.

I'm afraid I have to activate the Hunyuan Guiyi magical power.

Behind the light blue light.

The shadows of ten supreme geniuses waved their weapons at the same time.

The power of various laws is intertwined and presented.

And they are all based on the Supreme Law.

Zhang Yuhe attached the power of three laws to the sword formation.

There is simply no way to delay these shadows, even for a second.

Boom...

The attack of the Heavenly Tribulation Phantom quickly hit the surrounding sword energy light screen.

The layers of sword energy light curtains shattered in an instant.

Zhang Yuhe mobilized the Nine Heavens Hunyuan Sword Formation with all his strength.

The sword energy light curtain that had just been shattered was quickly restored to its original state by him.

The phantom of the Heavenly Tribulation charged forward crazily against countless sword energies.

I don't know how much time has passed.

The sword energy light curtain went from broken to repaired, and then broken again.

This goes on and on.

When the attack was only dozens of miles away from Zhang Yuhe.

The last phantom of the Heavenly Tribulation finally began to slowly dissipate.

The dark clouds dispersed and the sky gradually became clear again.

Countless rays of light fall from the sky.

Turning the entire Galaxy Island into a colorful world.

Zhang Yuhe was immersed in the glow.

The aura on his body is improving rapidly.

The sea of dantian that was about to dry up was filled up in an instant.

Not only that.

As the sun sets.

Zhang Yuhe felt that his immortal body's strength seemed to be increasing rapidly.

It wasn't until he was almost close to the completion of his immortal body that he finally stopped.

God's way is fair.

Every time after a catastrophe, the monks will be given certain feedback.

For example, it will greatly enhance the physical strength of the monk, or expand the capacity of the monk's Dantian.

Under the shroud of twilight.

Zhang Yuhe's immortal body has reached the peak of its initial stage.

There is only one step away from the realm of success.

But he also knew it.

This last step is the most difficult.

The Holy Earth Spirit Fruit can assist monks in the initial formation of their immortal bodies.

If you want to achieve a small level of immortal body, you also need similar heavenly materials and earthly treasures.

And it is even more precious than the Earth Spirit Holy Fruit.

Zhang Yuhe doesn't need to think about the immortal body for the time being.

In the waters of Ji'an, it is impossible to find similar genius treasures.

I want to cultivate my immortal body to a small level of success.

Let's wait until we go to Chaos Continent later.

There are countless resources there, which is the stage for the monks to struggle.

After the catastrophe.

Zhang Yuhe silently observed his own changes.

In addition to the improvement of the immortal body.

He found that his Dantian sea had expanded by about 50%.

As his Dantian expands and he activates the power of law, he can last longer.

Zhang Yuhe feels that his current strength can beat him ten years ago.

Feel the change in strength.

Zhang Yuhe couldn't help but look up to the sky and roar.

It has been practicing Taoism for 30,000 years, and the Golden Immortal Avenue is now open.

Now he is a real golden immortal monk.

Even if you don't activate the magical power of Hunyuan Guiyi, you can still roam freely in the fairy world.

Once the magical power of Hunyuan Guiyi is activated.

Even ordinary Taiyi Immortal, he can beat to death.

Think of this.

A smile slowly appeared on Zhang Yuhe's face.

Improvement in strength.

Make him feel safe.

...

Chapter 184 Opening three orifices in a row and being promoted to a magic weapon

When Lian Zhengyu and others saw the disaster dissipating, they quickly flew towards Galaxy Island.

They knew that Zhang Yuhe had already survived the catastrophe.

Thinking of such a terrible disaster.

Zhang Yuhe could also carry it through, and everyone couldn't help but feel extremely excited.

This illustrates at least two issues.

First of all, Zhang Yuhe's strength will definitely be much stronger than everyone originally imagined.

Otherwise, he would not be able to withstand the bombardment of so many geniuses.

One more thing is.

After the inspection just now.

Everyone is full of confidence in the tribulation platform arranged by Zhang Yuhe.

Such a terrifying catastrophe, the Tribulation Platform can weaken and resolve most of its power.

If it were other true immortal disciples who could overcome the tribulation, wouldn't it be much easier?

Use this method to cross the tribulation platform.

Maybe it won't take long.

A large number of Golden Immortal monks will soon emerge among their three forces.

Think of this.

Everyone's hearts became very excited.

Everyone came to the top of Galaxy Peak and congratulated Zhang Yuhe in unison.

"Congratulations to my fellow Taoist for overcoming the heavenly tribulation and taking another step forward on the path to immortality."

Zhang Yuhe quickly responded modestly.

"I just succeeded by luck. Thank you all fellow Taoists for your support."

"Without the help of fellow Taoists, I would not be able to complete the layout of the Tribulation Platform."

"In that case, it would be a bit difficult to survive such a catastrophe."

Zhang Yuhe was not polite, but sincerely thanked him.

The remaining three forces in the Ji'an sea area are under the leadership of Yu Liwei.

It shows the strong power of unity.

If it weren't for the strong support of Jiuxianmen and Wanshouzong.

Section 207

Only relying on Daosheng Sect and himself, they want to complete the construction of the Tribulation Platform.

It is still unknown how many years they will have to wait.

For all the Golden Immortal cultivators who participated in this matter, no matter what their purpose was.

Zhang Yuhe was sincerely grateful.

"Daoyou Zhang is too polite. With your peerless talent, you can take this step sooner or later even without our help."

"Yes, we just went to other sea areas and didn't help much."

"And building the Tribulation Platform is our common cause."

"With this Tribulation Platform, the True Immortal disciples of each family will be blessed in the future."

"Yes, this is a true foundation for all ages."

As everyone spoke politely, they looked at the huge Tribulation Platform on the Yinhe Peak.

At this time, Lian Zhengyu, who was standing next to them, said to everyone with a smile.

"Junior Brother Zhang has successfully broken through the Golden Immortal Realm, which is indeed a great event worth celebrating."

"I have decided to hold the Golden Immortal Ceremony in Daosheng Sect three years later. I welcome all Daoists to come."

Long Xingxiu, who was standing next to him, responded immediately.

"Of course, of course, Daoist Brother Zhang's Golden Immortal Ceremony cannot be without me."

"I will definitely attend on time."

...

Everyone was on the Yinhe Peak, talking about the world and carefully checking the Tribulation Platform.

Seeing that the Tribulation Platform was intact, everyone was amazed.

After a long time.

Everyone discussed the details of the subsequent use and care of the Tribulation Platform.

The importance of the Tribulation Platform is beyond doubt.

Let alone.

The more than 10,000 lightning-absorbing pillars, all of which are low-grade immortal artifacts.

It is enough to make many people jealous.

It is definitely not possible for such an important place to have no one to sit and guard it.

Considering that this Tribulation Platform was built by three forces together.

So, the final decision.

The three forces will send out Golden Immortals in turn to guard the Tribulation Platform on the Yinhe Peak.

The rotation will be once every ten thousand years.

As for the disciples of each party, if they want to use the Tribulation Platform, they only need to pay a certain amount of fairy stones.

It will be used as the maintenance fee of the Tribulation Platform, and there will be no other restrictions.

After discussing the details, everyone dispersed.

Only Lian Zhengyu, Song Heguang and Zhang Yuhe were left at the scene.

After all, this is the territory of the Daosheng Sect.

According to the results of the previous discussion.

For the first ten thousand years, Zhang Yuhe will be stationed on Yinhe Island to guard the Tribulation Platform.

After everyone dispersed.

Lian Zhengyu said a little embarrassedly.

"I didn't ask for my opinion just now, and I decided on the Golden Immortal Ceremony. I hope my junior brother won't be offended."

"The Sect Master can decide on this matter. I have no objection."

Zhang Yuhe waved his hand to show his understanding.

He naturally knew why Lian Zhengyu was eager to hold the Golden Immortal Ceremony.

The Daosheng Sect has been weak for hundreds of thousands of years.

Now that a Golden Immortal cultivator has finally appeared, it is natural to publicize it with great fanfare.

Although he has always been low-key and does not like to do such publicity.

But as a member of the Daosheng Sect, he also has to understand Lian Zhengyu's difficulties.

Moreover, the prosperity and development of the sect will only benefit him, not harm him.

Anyway, at that time, he only needs to show up.

Regarding the specific affairs of the celebration, Lian Zhengyu will naturally arrange them.

He does not need to worry about it.

...

Successfully break through to the Golden Immortal Realm.

Zhang Yuhe deliberately took time to return to the mountain gate.

He took some Chaos Beast Crystal Cores from the treasure house.

He first used nine six-star Chaos Beast Crystal Cores to upgrade his life magic weapon to a mid-grade immortal weapon.

Then he used the crystal cores to open all the fourth to sixth orifices.

But what surprised him was.

When opening the sixth orifice, he failed twice in a row.

It was not until the third time that he succeeded.

The success rate of opening the orifice of the Nascent Soul is not 100%, but the later it is, the higher the probability of failure.

This is why.

The main reason why many Golden Immortal cultivators may not even open the fourth orifice.

For them, the resources for opening the orifice of the Nascent Soul are extremely difficult to find.

If they fail once, they will have to wait until they find the right resources for opening the orifice again.

It is still unknown how long it will take.

Other people's secret methods for opening the orifice are not as easy as Zhang Yuhe's Chaos Opening Technique.

The Chaos Opening Technique only requires Chaos Beast Crystal Cores to open the orifice.

Although Chaos Beast Crystal Cores are indeed very precious.

This is even more true for high-level Chaos Beast Crystal Cores.

But this thing is huge after all.

On the Chaos Continent, Chaos Beasts are as numerous as cattle hairs, and they can't be killed.

As long as he is strong enough, he is not afraid of lacking resources for opening the orifice.

Dao Sheng Sect has the reserves left by Lu Yunfei, and there are many Chaos Beast Crystal Cores.

Zhang Yuhe just mentioned it to Lian Zhengyu and successfully got the crystal core.

Not only was the problem of opening the orifice easily solved, but even the Nine Heavens Hunyuan Sword was promoted to a mid-grade immortal weapon.

It is not as easy for other cultivators to open their minds as it is for him.

Most of the secret techniques for opening the mind in the immortal world require some specific natural treasures or specially made immortal pills to assist.

These things are extremely rare.

It is very difficult to find a resource for opening the mind, and there is also a chance of failure in opening the mind.

If you fail to open the mind continuously, your Taoism will collapse.

Therefore, among the Golden Immortal cultivators, there are very few who can open the six orifices.

As far as he knows.

Among the Golden Immortal cultivators in the entire Ji'an Sea, only Yu Liwei has opened the six orifices.

Others have not even opened five orifices.

This is also the main reason why Yu Liwei was able to easily suppress the Golden Immortal cultivators of the Ouyang Family and the Qian Family.

Opening two more orifices can increase the strength by at least 50%.

In addition, she was not in the late Golden Immortal stage, so she had an advantage in realm.

So Yu Liwei could easily suppress others.

...

Three years later.

Yunfei Island was decorated with lights and colors.

The faces of the Daosheng Sect were full of joyful smiles.

Since Lu Yunfei disappeared, everyone has not been so happy.

Today is the big day for the Golden Immortal Celebration for Zhang Laozu.

From time to time, foreign cultivators flew into Yunfei Island with invitations in hand.

...

Chapter 185 Nangong Youxi

In order to hold Zhang Yuhe's Golden Immortal Celebration.

Section 208

All the disciples of Daosheng Sect were mobilized.

Everyone was assigned to various places to participate in patrol and reception work.

Xie Mingyuan instructed all the disciples.

"Everyone should keep their eyes open and be careful not to bump into the Golden Immortal Ancestor who came to celebrate."

"Also, be careful not to let those people of unknown origin come in to make trouble."

"If you can't determine the identity of the other party, send a message in time."

"Yes."

After Xie Mingyuan finished speaking, he quickly rushed to the next patrol point.

Thinking of his former junior brother, he admired him very much.

Zhang Yuhe has been promoted to the Golden Immortal Ancestor for only more than 20,000 years since he ascended.

And he himself has been promoted for more than 200,000 years, but he is still in the late stage of the True Immortal.

Xie Mingyuan used to be very proud of his talent.

He has a golden spirit body and his cultivation speed is far faster than that of the cultivators of the same level.

When he was in Yufantian, he only took more than 60,000 years to successfully transcend the tribulation and ascend.

However, after arriving in the fairyland,

Only then did he realize how vast the fairyland was and how many geniuses there were.

Even though he didn't dare to stop for a moment, he had only reached the late stage of the True Immortal.

Although compared to most cultivators, his cultivation speed was already very fast.

But Xie Mingyuan was still not satisfied.

He felt that he was nothing compared to Zhang Yuhe.

Thinking of this, he gently clenched his fists and encouraged himself.

"You must break through to the Great Perfection of the True Immortal as soon as possible."

Dao Sheng Zong had elixirs to assist in breaking through the Golden Immortal, and now there was the Tribulation Platform arranged by Zhang Yuhe.

As long as he cultivated to the Great Perfection of the True Immortal, he would soon be able to break through to the Golden Immortal Realm.

...

Dao Sheng Peak, Juxian Hall.

More than 30 Golden Immortal cultivators gathered together.

In addition to the Golden Immortals of the Nine Immortal Sect and the Ten Thousand Beast Sect, almost all the scattered Golden Immortals in the Ji'an Sea were also present.

Everyone was full of expectations for Zhang Yuhe, the newly promoted Golden Immortal cultivator.

Long Xingxiu took out an exquisite jade box and spoke at the same time.

"Congratulations to Daoyou Zhang for achieving the Golden Immortal Avenue. This small gift is not a sign of respect."

"Thank you, Sect Master Long, for your support."

Zhang Yuhe took the jade box and responded politely.

Others also gave him gifts.

He put them away one by one without checking them.

The purpose of Daosheng Sect holding the Golden Immortal Ceremony was not to receive gifts for him.

It was to bring the parties closer together and increase exchanges.

At the same time, it would make Daosheng Sect famous and restore its former glory.

For this day, Daosheng Sect has been waiting for hundreds of thousands of years.

When everyone was chatting enthusiastically.

Lian Zhengyu suddenly took out the Immortal Mirror and exclaimed softly.

"Everyone, come with me. The Nangong Immortal Clan has sent someone."

"Ah..."

Hearing Lian Zhengyu's words, everyone looked incredible.

In the past, when Golden Immortal cultivators appeared in various places, they would send invitations to the Nangong Immortal Clan as usual.

But the other party only responded politely and would not send anyone to participate in the celebration.

Although the various forces in the Ji'an Sea are nominally subordinates of the Nangong Immortal Clan.

However, the Nangong Immortal Clan has never been very concerned about the remote Ji'an Sea.

They will not collect tribute resources from the various forces in the Ji'an Sea.

They never interfere in the internal struggles of the various forces in the Ji'an Sea.

Except for the outbreak of the beast tide in the Chaos Continent.

The Nangong Immortal Clan will send people to issue a conscription order to the various forces in the Ji'an Sea.

Under normal circumstances.

The Nangong Immortal Clan will not even look at the Ji'an Sea.

However, the Nangong Immortal Clan does have the capital to be proud.

Because there is Taiyi Immortal Lord in their family, and there is more than one.

Even in the entire South China Sea Immortal Domain, the Nangong Immortal Clan is a major force that can be ranked.

They built a monarch city in the Chaos Continent, and there are also several acropolises.

They simply look down on the small pond of the Ji'an Sea.

In addition, the Nangong Immortal Clan is located in the Tiangong Sea, which is extremely far away from the Ji'an Sea.

It is not easy for them to travel back and forth.

Naturally, they will not send people to participate in the Golden Immortal Celebration here.

Unless the Taiyi Immortal Lord is born in the Ji'an Sea.

Holding the Immortal Lord Celebration, it is worth their trip.

Hearing that someone from the Nangong Immortal Clan is coming, everyone was shocked and speechless.

After a long time, Long Xingxiu frowned and guessed.

"Are they here to issue a conscription order?"

Hearing this, everyone fell into silence.

If the Nangong Immortal Clan issues a conscription order, it means that a beast tide will soon break out in the Chaos Continent.

Facing the beast tide in the Chaos Continent, these Golden Immortal cultivators are only slightly stronger than the True Immortal cultivators.

But it is also difficult to guarantee their own safety.

Otherwise, Lu Yunfei was so powerful at the time.

Didn't he disappear for hundreds of thousands of years because of this?

Seeing everyone's expressions, Lian Zhengyu stood up and spoke slowly.

"Don't guess blindly, just go out and see."

Under the leadership of Lian Zhengyu, everyone quickly turned into streams of light and flew outside.

When they arrived at Yunfei Island, hundreds of miles away.

They saw a huge flying boat passing quickly from a distance.

A young and beautiful woman stood in front of the flying boat, her dress fluttering.

Yu Li explained to everyone in a low voice.

"This is Nangong Youxi, the core disciple of the Nangong Immortal Clan."

"I heard that she has already reached the Great Perfection of the Golden Immortal, but she was not sure that she could survive the Taiyi Heavenly Tribulation, so she stayed in the Golden Immortal Realm for a long time."

Hearing this, everyone was even more shocked.

In the past, when the Nangong Immortal Clan issued a conscription order, at most only one True Immortal disciple would come.

This time, Nangong Youxi came, and things might not be so simple.

As the core disciple of the family, Nangong Youxi was only half a step away from breaking through to the realm of Taiyi Immortal.

Of course.

This half step is extremely difficult.

Breaking through the Heavenly Tribulation of Taiyi Immortal is not comparable to the Heavenly Tribulation of Golden Immortal.

Countless Tianjiao characters eventually fell at this step.

However, once they successfully break through, they will have unlimited lifespan.

You can say that.

As long as they become Taiyi Immortal Lord, the cultivators' dream of longevity is basically achieved.

At least in theory.

A person like Nangong Youxi should not appear in the Ji'an Sea Area.

However, before they could react,

A boy on the flying boat soared into the air and shouted loudly.

"The Nangong Immortal Clan congratulates Fellow Daoist Zhang on his promotion to the Golden Immortal Realm, and specially presents him with a mid-grade immortal weapon."

After the boy finished speaking, an exquisite jade box slowly flew towards Zhang Yuhe.

Zhang Yuhe gently took the jade box, and then bowed to Nangong Youxi on the flying boat to express his gratitude.

Section 209

"Thank you, fellow Taoist Nangong, for coming to my celebration. Please come with me."

After Zhang Yuhe finished speaking, he stretched out his hand to signal.

No matter what the purpose of the trip to Nangong Youxi is, the visitors are still guests.

Just go in first.

Moreover, the Nangong Immortal Clan is not harsh on subordinate forces.

Even if a recruitment order is issued, enough benefits will be given, and people's work will not be in vain.

Everyone quickly stepped aside.

Follow the flying boat and fly quickly towards Dao Sheng Peak.

...

Chapter 186 Invitation

After returning to Juxian Palace.

Yu Li greeted Nangong Youxi warmly.

"I have met Fairy Nangong."

Nangong Youxi responded with a smile.

"Long time no see, Fairy Yu."

Obviously, the two of them should have had a certain friendship before.

Everyone at the scene also hurriedly came forward to say hello to Nangong Youxi.

Wait until everyone is seated in the hall.

Nangong Youxi spoke slowly.

"I heard that fellow Daoist Zhang understood the law of power and was successfully promoted to the Golden Fairy Realm."

"Ancestor Tianming specially asked me to come here to express the Nangong family's congratulations."

The ancestor of Tianming in her mouth should be Nangong Tianming, Taiyi Immortal Lord of the Nangong family.

It is said that Nangong Tianming has practiced Taoism for hundreds of millions of years. As for his specific cultivation level.

They don't know.

Upon hearing this, Zhang Yuhe quickly said modestly.

"I just succeeded by luck. Thank you Ancestor Nangong for your concern."

Nangong Youxi waved his hand and then continued.

"The supreme genius has no luck."

"Everyone knows the nine supreme laws in the fairy world, but there are only a few who can understand one."

"As far as I know, there are currently no other supreme geniuses in the South China Sea Immortal Domain."

"It is not easy for the supreme genius to grow up. Every time he breaks through a great realm, he will face a disaster of life and death."

"I am very surprised that you were able to survive the Golden Immortal Tribulation in the Ji'an sea area."

After Nangong Youxi finished speaking, he looked at Zhang Yuhe with bright eyes, as if he was very confused.

Upon hearing this, Zhang Yuhe said gratefully.

"I have to thank all the fellow Taoists for their help in this matter."

"If it weren't for everyone's help in collecting materials and building a tribulation platform, I would definitely not be able to survive the Golden Immortal Tribulation."

"Oh, you also built a tribulation platform?"

Nangong Youxi's eyes lit up.

It was hard for her to imagine.

In a remote place like the Ji'an sea area, a tribulation platform can actually be built.

You must know that in the fairy world, those who can build a tribulation platform are all powerful forces.

At least there must be veteran Taiyi Immortal Lord, a force in charge, to be able to establish the Tribulation Transcendence Platform.

Because building a tribulation platform requires not only a lot of resources.

What's more important is that the formations that can assist monks in overcoming tribulations are completely in the hands of those big forces.

Their Nangong family has a tribulation platform.

This is the blueprint that their ancestors purchased from other forces at a great cost.

despite this.

The Nangong family's Tribulation Platform can only be used by True Immortal monks to break through to Golden Immortal.

As for being able to assist the Golden Immortal monks in breaking through the tribulation platform of Taiyi Immortal.

There is none in the entire South China Sea Immortal Domain.

It is estimated that only the top Taoist forces can deploy such a high-end tribulation platform.

This is also why there are many golden immortals in the South China Sea Immortal Domain.

But there is an important reason why Taiyi Immortal Lord is extremely rare.

There is no help from the Tribulation Platform.

Even if they reach Golden Immortal Dzogchen, they dare not break through easily.

To break through Taiyi Immortal, the calamity that needs to be faced is too powerful.

According to the records of the Nangong family.

In the Immortal Realm of the South China Sea, there are Golden Immortal Dzogchen monks who can successfully survive the Taiyi Heavenly Tribulation.

No more than 20% at most.

The remaining 80% of the monks all fell under the catastrophe.

Taiyi Immortal is the most important hurdle on the monk's road to immortality.

Just break through this level.

From now on, you can live a truly carefree and eternal life.

Because of this, this level is more difficult.

So much so that those peerless geniuses.

I can't say I'm sure I can handle it.

Nangong Youxi himself is a typical example.

She had outstanding talent since she was a child, and she had cultivated to the Golden Immortal Dzogchen two million years ago.

But she still didn't dare to break through easily.

Because she was not sure that she could survive the Taiyi Heavenly Tribulation.

In the South China Sea Immortal Realm, there are not many ways to assist the Golden Immortal monks in overcoming the Taiyi Heavenly Tribulation.

Usually, multiple pieces of defensive mid-grade immortal weapons are prepared, plus mid-grade Chaos Immortal Armor.

In addition, it is the Yuanying that opens the six orifices and enhances the richness of the immortal power.

Cultivation of the immortal body to a small level will increase the physical defense capability.

Cultivate all six laws to a small level of success and improve your ability to deal with natural disasters.

Only when all these are ready to be completed and the strength can no longer be improved.

Only then will they try to give it a try.

Because by that time, it's useless even if you don't fight.

Although the Golden Immortal monk has a long life span, after all these preparations are completed.

Life span is basically coming to an end.

If we don't make a breakthrough, we may soon die due to exhaustion of life span.

In fact.

Most of the Golden Immortal monks simply did not have time to make all the preparations.

Shouyuan could no longer support it.

Middle-grade defensive immortal tools and middle-grade chaos immortal armor are easy to come by.

At least these things can be produced by those big forces.

But it is too difficult to open the six orifices of the Nascent Soul, cultivate the immortal body to the minor success, and even comprehend all six laws to the minor success.

That is too difficult.

Most of the Golden Immortal cultivators cannot do it in their entire lives.

So they had to break through in advance, and then fell in the heavenly tribulation.

Thinking that there was a tribulation platform built in the Ji'an Sea, Nangong Youxi's heart moved.

She asked Zhang Yuhe tentatively.

"I wonder if I can go and see your tribulation platform?"

Zhang Yuhe looked at everyone.

Although he built the tribulation platform, it was crowdfunded by everyone.

Naturally, he had to ask for everyone's opinions.

Everyone nodded and did not object.

The tribulation platform is there, so it doesn't hurt to let Nangong Youxi take a look.

Seeing that no one objected, Zhang Yuhe said to Nangong Youxi.

Section 210

"Then let's go and see it together."

"good."

Everyone flew out of the hall and quickly flew towards Galaxy Island.

A few days later.

A group of more than thirty people landed at the top of Galaxy Peak.

[World-weary novel transfer Station 2 99 2 85 9 3 87]

Look at the huge tribulation platform in front of you, and then look at the giant pillars in the distance.

Nangong Youxi couldn't help but said in amazement.

"This Tribulation Platform is indeed extremely mysterious."

"No wonder I can support Zhang Daoyou, a supreme genius, to survive the Golden Immortal Tribulation."

Hearing Nangong Youxi's praise, everyone felt a sense of accomplishment.

Although this tribulation platform was built by Zhang Yuhe, it is the common wealth of the three families.

And they all contributed to it.

Nangong Youxi looked everywhere carefully.

After a long time, she said with some disappointment.

"Although this tribulation platform is extremely mysterious, it still cannot support the Golden Immortal monks to survive the Taiyi Heavenly Tribulation."

Zhang Yuhe stood beside him, nodded, and then said slowly.

"Everything in the world has its own limits."

"This tribulation platform is based on low-grade immortal weapons, so it can only support monks through the golden tribulation."

"There is still a long way to go for the Golden Immortal cultivator to survive the Taiyi Heavenly Tribulation."

Although Nangong Youxi was a little disappointed, she was still very interested in this tribulation platform.

She turned to Zhang Yuhe and asked.

"I wonder if I can ask fellow Taoists to help the Nangong family arrange a similar tribulation platform?"

Although the Nangong family already has a tribulation platform.

But their tribulation platform requires the consumption of certain special materials every time it is opened.

Even if their family has a lot of money, they can't afford it.

The principle of the tribulation platform arranged by Zhang Yuhe is completely different.

Although she didn't fully understand it yet.

But she still knew the general principle of its operation.

This Tribulation Platform is based on those giant pillars that support the sky, and uses the endless water aura in the sea as its source power.

In order to achieve the purpose of weakening the natural disaster.

It can be said that this tribulation platform requires the consumption of some immortal spirit stones when it is activated.

There is almost no other consumption.

It is simply the most perfect escape platform.

...

Chapter 187 Jiulangyunling elixir

Hearing Nangong Youxi's invitation, Zhang Yuhe fell into deep thought.

There is no problem in helping the Nangong Immortal Clan build the Tribulation Platform.

He was not afraid of others, so he learned the Renshui Thunder Absorbing Formation.

After many improvements.

The complexity of the Renshui Thunder Absorbing Formation far exceeds that of the ordinary Immortal Formation Formation.

Even if he burns the complete formation content on the jade slip.

There are not many people who can follow the arrangements.

He has this confidence.

And in Zhang Yuhe's opinion.

There is nothing to keep secret about this.

Even if others learn it.

That doesn't matter much.

Aren't there so many magical skills and secret drawings in the immortal world that are slowly spread like this?

It is impossible to keep this thing secret forever.

He could deduce that the Immortal Level Renshui Thunder Absorbing Pillar.

Maybe others can deduce a better similar formation.

As long as they are not enemies.

It doesn't hurt to give someone a hand.

In fact, the Nangong Immortal Clan was pretty good to them.

Back then, Lu Yunfei was able to build a fairy city in the Chaos Continent.

Among them is the support of the Nangong Immortal Clan.

It's just that the Immortal Meteor Catastrophe broke out later.

The Nangong Immortal Clan was too busy to take care of themselves and could not provide timely support.

Only then did the Chaos Beasts attack the city.

In the end, all the monks in the fairy city except Yu Liwei escaped and Lu Yunfei disappeared.

Almost all the others died.

despite this.

The monks in the sea of Ji'an.

People like Yu Liwei and others have no complaints about the Nangong Immortal Clan.

Therefore, Zhang Yuhe felt that it was not impossible to help the Nangong Immortal Clan set up a tribulation platform.

But he certainly couldn't help in vain.

You have to get paid to work.

This is a matter of course.

Zhang Yuhe thought for a long time before slowly asking Nangong Youxi.

"It's okay to help you set up the tribulation platform. I wonder what kind of reward you plan to pay?"

Nangong Youxi said with a smile.

"Immortal weapons, elixirs, elixirs, immortal armors, as long as the conditions are right, you can choose whatever you want."

She naturally knew how precious Zhang Yuhe's platform was.

If the Nangong Immortal Clan also has such a tribulation platform, then in the future they will.

You can save a lot of expenses.

Of course.

If Zhang Yuhe's lion opens his mouth, it will definitely not work.

Everything has its proper value.

Once it exceeds its original value, she would definitely give up.

Zhang Yuhe thought silently.

He was thinking about what he needed.

He has no shortage of immortal weapons.

He has promoted the Jiutian Hunyuan Sword to a middle-grade immortal weapon.

He also looked down upon ordinary middle-grade immortal weapons.

As for high-grade immortal weapons, the Nangong Immortal Clan will definitely not give them to them.

Top-grade immortal weapons are the standard equipment of Taiyi Immortal, a newly promoted Golden Immortal.

He is also not qualified to master a high-grade immortal weapon.

What he needs most now is the elixir that can assist the cultivation of the immortal body.

Now he has cultivated his immortal body to its peak.

As long as there is the corresponding elixir, the immortal body can be broken through to the realm of small success.

It's just that everything that can assist the immortal body in cultivation is extremely precious.

He knew that the Nangong Immortal Clan had such things.

But whether the other party is willing to give it? That's unknown.

"No matter what, ask first. It's a bargain anyway."

Thinking of this.

Zhang Yuhe asked tentatively.

"I want a spiritual medicine and immortal pill that can assist the immortal body and cultivate to the realm of minor success. I wonder if you have such a thing?"

Hearing this, Nangong Youxi couldn't help but frown.
