Section 211

have to say.

Zhang Yuhe's asking price is indeed a bit too high.

They, the Nangong Immortal Clan, do have elixirs that assist in the cultivation of the Immortal Body.

This is no secret.

It's just that it's extremely difficult to refine this kind of elixir.

A very rare elixir is needed as the main material.

They, the Nangong Immortal Clan, don't have much inventory.

Nangong Youxi thought for a long time.

Considering the Tribulation Platform as a long-term investment, she quickly made her choice.

"Our Nangong Immortal Clan has a kind of elixir called Jiulang Yunling Immortal Pill, which can assist the cultivation of the immortal body to a small level of success."

"I can apply for a Nine-Lang Yunling Pill from my family."

Nangong Youxi paused for a while and continued.

"But we need to wait until the decoration of the tribulation platform is completed before we can officially trade."

Hearing this, Zhang Yuhe couldn't help but be overjoyed.

He had heard of the Nangong Immortal Clan's Jiulang Yunling Pill before.

This elixir uses 30 million-year-old Jiulangyun Lingcao as its main medicine.

It is refined by adding the crystal core of the seven-star mutated chaos beast and other rare elixirs.

I heard that this elixir has a very good effect on the cultivation of the immortal body.

As long as he has a Jiulangyunling Immortal Pill, he will definitely be able to cultivate his immortal body to a small level.

An immortal body in the Xiaocheng realm can withstand the attack of a mid-level immortal weapon.

Of course.

If you just stand around and get beaten, you will definitely be beaten to death.

But with a small-level immortal body, there is definitely no problem in blocking one or two attacks from a mid-level immortal weapon.

If he can cultivate his immortal body to a small level of success, then his safety will be guaranteed.

Think of this.

Zhang Yuhe immediately responded.

"No problem, wait until the decoration of the Tribulation Platform is completed before trading."

He believed that with the credibility of the Nangong Immortal Clan, they would definitely not go back on their word because of such a thing.

After saying that.

Zhang Yuhe took out a jade slip and handed it over.

"This records the lightning absorbing pillar, the required materials, and the refining techniques."

"You prepare the thunder-absorbing pillars first, then I will carve the formation patterns and arrange the tribulation platform."

The formation master is naturally only responsible for setting up the formation.

As for the materials and formation base required for setting up the formation, you must prepare them yourself.

Nangong Youxi took the jade slip, looked at it carefully, and then said with a smile.

"No problem, we will prepare these things within a thousand years."

"We will have to trouble fellow Daoist Zhang then."

With the foundation of the Nangong Immortal Clan, materials for more than 10,000 thunder-absorbing pillars were collected.

Of course it's not a big trouble.

The three forces in their Ji'an sea area can all accomplish this.

It makes no sense that the Nangong Immortal Clan would not be able to handle it.

It's just that it will take a lot of effort to refine all these lightning-absorbing pillars.

After all, these thunder-absorbing pillars are all low-grade immortal weapons.

The Nangong Immortal Clan does not have a master of weapon refining like Zhang Yuhe.

You can start working at the same time and refine more than a hundred fairy weapons.

Moreover, ordinary weapon refiners, no matter how skilled they are, will still have a certain chance of failure.

That's why Nangong Youxi said it would take thousands of years to prepare.

The main purpose is to summon the weapon refiners to refine the more than 10,000 thunder-absorbing pillars.

Zhang Yuhe nodded slowly and said.

"Then it's settled, I will go to the Tiangong Sea in a thousand years."

Nangong Youxi nodded, and the deal on building the Tribulation Platform was concluded for the time being.

Suddenly, she seemed to remember something, turned around and said solemnly to everyone.

"You also need to prepare. The Chaos Continent has been very unstable recently."

"It can range from three to five thousand years, or within a thousand years, there will definitely be an outbreak of beast tide."

"You may need your help then."

Hearing this, everyone couldn't help but be shocked.

...

Chapter 188 Feng Xiaotian ascends

After hearing the news revealed by Nangong Youxi, everyone looked silent.

Everyone just hopes that the scale of this beast tide will not be too big.

In general.

These golden immortal monks can still save their lives in the beast tide.

As long as the fairy city is not breached.

Golden Immortal monks will not die on a large scale.

The fear is that the beast tide will expand in scale.

Once it develops into a catastrophe of immortal death.

Then let alone these golden immortal monks.

Even Taiyi Immortal will also fall into the beast tide.

But no one said anything.

What is coming will always come.

The monks compete with heaven for their fate.

Compete with the chaos beasts for living space.

It has been going on for countless years.

Everyone has long been numb.

Beast tide for everyone.

It is both a disaster and an opportunity.

If they want to survive in the beast tide, they can only continuously improve their strength.

Think of this.

Everyone couldn't help but clench their fists.

...

Nangong Youxi continued to chat with everyone for a while, then left in the flying boat.

The purpose of her trip was mainly to celebrate Zhang Yuhe, the newly promoted Supreme Talent of the Golden Immortal.

Reaching a deal to build a tribulation platform can only be regarded as an unexpected blessing.

As for the so-called beast tide, she just said it casually.

For Nangong Youxi, a genius from a powerful force.

That's what happened to the beast tide.

The Nangong Immortal Clan has been in the immortal world for hundreds of millions of years.

What kind of beast tide have they not seen?

Even if it is the Immortal Meteor Catastrophe that everyone talks about.

The Nangong Immortal Clan has also experienced this countless times.

Although they often suffer losses, they have long been accustomed to it.

After Nangong Youxi left, everyone followed suit and left one after another.

...

The Daosheng Sect held a Golden Immortal Ceremony for Zhang Yuhe, and even the Nangong Immortal Clan sent people to celebrate.

The news spread throughout the Ji'an Sea in an instant.

Everyone understood.

As long as Zhang Yuhe was there, the Daosheng Sect would restore its former glory.

It was already unstoppable.

Even if it went one step further, it was not impossible.

Section 212

...

After everyone left.

Zhang Yuhe walked into a cave at the top of Yinhe Peak.

According to the previous agreement, he needs to sit on Galaxy Island for ten thousand years.

In order to protect the safety of the Tribulation Platform.

Of course.

It doesn't mean that he can't go out in these ten thousand years.

He just needs to spend most of his time on Galaxy Island.

Zhang Yuhe came to the training platform and slowly sat down cross-legged.

Start thinking about follow-up training plans.

After opening the sixth orifice.

His current cultivation speed is more than twice as fast as before.

However, cultivation in the Golden Immortal Realm is not that easy.

Based on his previous estimate.

If nothing else bothers you.

It would take about 20,000 years for him to break through to the middle stage of Golden Immortal.

This time is actually considered very fast.

To know.

Golden Immortal monks live for tens of millions of years.

Others have practiced for decades, or even millions of years, but they may not be able to achieve a breakthrough.

He was able to break through a small realm within 20,000 years, which is already considered super incredible.

despite this.

Zhang Yuhe has no intention of spending time on cultivation for the time being.

Even if he breaks through to the middle stage of Golden Immortal, his strength will not be improved much.

And the beast tide is right in front of us.

There is not so much time for him to practice.

According to Nangong Youxi.

It can take anywhere from three to five thousand years, or within a thousand years, there will definitely be an outbreak of beast tide.

By that time, he will definitely have to go to the Chaos Continent.

There are only three Golden Immortal monks in the Daosheng Sect.

Once the Nangong Immortal Clan issues a recruitment order, he will naturally be needed.

We can't let Lian Zhengyu go.

And he also wanted to see how powerful the Chaos Beast was.

Powerful enough to completely crush most monks of the same level.

...

In a short period of time, it is impossible to improve your cultivation level.

Zhang Yuhe then focused on understanding the rules.

In his opinion.

Compared with other monks.

His biggest advantage is not his super fast training speed.

The fairy world is vast and endless, and there are countless talented people.

Occasionally, there will be some special spirits that practice very quickly.

Zhang Yuhe thinks.

My biggest advantage is actually my understanding.

His strong understanding allows him to learn anything at a glance.

Whether it's refining weapons, refining elixirs, or setting up formations to draw talismans.

As long as he takes a look, he will succeed in no time.

Not only that.

His explosive understanding is even more outstanding in understanding the laws.

It took him no more than six thousand years to understand the three supreme laws.

Such a perverted understanding is a bit scary to say.

That being the case.

Naturally, he must turn this advantage into strength as much as possible.

Think of this.

Zhang Yuhe silently checked his own situation.

The golden Nascent Soul in Dantian is closing its eyes slightly at this time.

On Yuanying's body, six bright light spots flickered.

Among the three light spots, there is a seedling growing slowly.

It is the three supreme laws that he has mastered.

For more than ten thousand years.

Although Zhang Yuhe did not continue to invest time in understanding the rules.

However, these three trees of law have still grown compared to the beginning.

Among them, the tree of the law of time has grown to more than three inches.

The other two trees of law also grew to more than two inches tall.

When the tree of law grows to one foot high.

That means that this law has reached the state of small success.

Although the three newly opened acupoints can continue to comprehend the three doors, the new supreme law.

But Zhang Yuhe did not intend to do this.

First he didn't have the right medium.

On the other hand, I want to understand a supreme law and get started.

It requires continuous understanding without any interruption.

He doesn't have this time.

So Zhang Yuhe decided.

Let's first understand the law of time and reach the state of small success.

The power of Xiao Cheng's laws is far beyond the entry-level level.

If you can understand the law of time before the beast tide breaks out, you will have a small success.

Then his strength will definitely improve qualitatively.

Think of this.

Zhang Yuhe then immersed himself in the understanding of the law.

...

Yu Fantian, the Milky Way Immortal Sea.

After Zhang Yuhe ascended to the throne, Feng Xiaotian changed the name of Thunder Lake to Galaxy Immortal Sea.

At the same time, this place is open to all monks, so that everyone can come and observe this holy place where the ancestor of the Galaxy became enlightened.

At this time, a colorful staircase hung in the sky.

Feng Xiaotian stood on a huge platform in the middle of the Immortal Sea.

Although he ascended to the Great Heavenly Tribulation, his power was extremely terrifying.

But there is Zhang Yuhe and the Renshui Thunder Absorbing Formation left behind.

Feng Xiaotian did not encounter much danger in the process of overcoming the tribulation.

Even the whole process can be said to be extremely easy.

Compared with the records in the classics left by the sect's predecessors.

It can be said that he survived the great catastrophe of ascension just by lying down.

Thinking of this, Feng Xiaotian couldn't help but sigh.

He looked up at the Immortal Climbing Staircase in mid-air and murmured to himself.

"I wonder if I can see the ancestor of Galaxy again after arriving in the fairy world."

Feng Xiaotian turned and looked into the distance.

He saw a large number of Dao Sheng Sect elders and several Mahayana cultivators.

They were waving to him.

In the past 20,000 years, Yufan Tian Dao Sheng Sect has flourished.

Now, there are hundreds of elders in the Fusion Realm in the sect.

And the number of Mahayana cultivators is currently as many as five.

Section 213

Among them, Li Tian and Wang Guofeng had already broken through to the Mahayana realm.

Especially Li Tian, who is now in the middle stage of Mahayana.

Seeing this situation, Feng Xiaotian couldn't help but feel relieved.

"With this foundation, I can ascend with confidence."

Feng Xiaotian put down a jade slip, and then took a step towards the stairs in the air.

The Immortal Staircase took him up slowly, and soon disappeared from everyone's sight.

...

Chapter 189 Time Law Minor Success

Ascension Island.

Liu Fang was sitting cross-legged next to a huge array platform.

More than 20,000 years have passed.

At this time, Liu Fang, judging from his aura, was already in the middle stage of the True Immortal.

Since the demise of the Ouyang Family and the Qian Family, the Daosheng Sect has developed rapidly.

The treatment of disciples in the sect has also been greatly improved.

It is precisely because of this.

Liu Fang was able to take the opportunity to break through to the middle stage of the True Immortal.

Although his cultivation level has improved, no one outside is targeting the True Immortal disciples of the Daosheng Sect.

But Liu Fang did not change his job.

He still chose to continue to guard the ascension platform here.

For no other reason.

Guarding the ascension platform highlights a leisurely life.

Under normal circumstances.

Even if it takes tens of thousands of years, it is rare to encounter an ascending monk.

This gives him plenty of time to practice without worrying about being disturbed.

At this moment, a dazzling light suddenly lit up on the ascension platform.

A figure appeared out of thin air.

Seeing this situation, Liu Fang quickly stepped forward and asked enthusiastically.

"I am Liu Fang from the Daosheng Sect. May I ask where you are from in the lower world? Are you willing to join the Daosheng Sect?"

"As one of the three major forces in the Ji'an Sea, the Daosheng Sect is extremely powerful. There are three golden immortal ancestors in the sect."

"As long as you join the Daosheng Sect, you will be satisfied with all kinds of benefits."

Feng Xiaotian looked at the man in front of him and talked non-stop.

He was stunned.

Are people in the fairy world so enthusiastic?

This made him a little uncomfortable.

In his original impression, shouldn't the big figures in the fairy world be high and mighty?

This man's aura is a bit stronger than his.

Why does he look like a peddler in the market?

Is there any bad intention?

Thinking of this.

Feng Xiaotian subconsciously pressed the storage belt around his waist, fearing that he would be cheated.

Seeing the other party's expression, Liu Fang was very speechless.

There is no way.

He didn't want to do this.

But the rewards given by the sect are too much.

Especially after Zhang Laozu broke through to the Golden Immortal Realm, the sect paid more attention to the work of the Ascension Platform.

As long as he can win over an ascended cultivator and join the Daosheng Sect.

The rewards given by the sect are ten times more than before.

You know, the rewards given by the sect were not small.

Now it has increased tenfold, can Liu Fang not work hard?

After a long while, Feng Xiaotian asked with some hesitation.

"Is this Dao Sheng Sect?"

This person said a lot just now, but he only heard the three words Dao Sheng Sect.

He thought that the Dao Sheng Sect in the immortal world was of the same lineage as Yu Fantian.

We are all one family, so we shouldn't be deceived, right?

When Liu Fang heard this, he was stunned.

How could a cultivator from the lower realm who had just ascended know about Dao Sheng Sect?

Could this person, like Zhang Laozu, also come from Yu Fantian?

Thinking of this, he asked more enthusiastically.

"This is the ascension platform of Dao Sheng Sect. May I ask which lower realm did you ascend from?"

Feng Xiaotian hesitated for a while before slowly speaking.

"I am Feng Xiaotian, from the Dao Sheng Sect of Yu Fantian?"

"Uh."

Liu Fang was stunned at first, then quickly stepped forward, took Feng Xiaotian's hand, and said enthusiastically.

"So Junior Brother Feng and Patriarch Zhang are from the same world."

"Don't worry, Junior Brother, you've returned home when you get here."

Feng Xiaotian opened his mouth wide, shocked and speechless.

Is the Patriarch Zhang this person is talking about Zhang Yuhe?

How long has it been?

Has Zhang Yuhe become an ancestor in the fairy world?

Thinking of this.

Feng Xiaotian asked tentatively.

"I wonder which ancestor Zhang you are talking about?"

Don't make a mistake.

Liu Fang said with a smile.

"Don't worry, Junior Brother, it must be right. It's Patriarch Zhang Yuhe. You should know him."

Hearing this, Feng Xiaotian couldn't help but be overjoyed.

He hurriedly asked Liu Fang.

"Where is Patriarch Zhang now? Is it convenient for me to go over and see him?"

Liu Fang said with a smile.

"Ancestor Zhang is stationed in Yinhe Island, which is far away from here. It's not convenient for us to go there."

"I'll inform Senior Brother Xie first. You should have heard of it."

"But Xie Mingyuan, Ancestor Xie?"

"That's right."

After the two chatted for a while, Feng Xiaotian's mood instantly became relaxed.

Originally, he thought that after coming to the fairyland, he was just a newcomer with no foundation.

Everything had to rely on himself, slowly exploring and working hard.

Now it seems that this is not the case at all.

Zhang Yuhe is already a Golden Immortal Ancestor, and Xie Mingyuan is a veteran True Immortal in the late stage.

They are definitely two big backers.

With these two big backers, wouldn't he have a great start?

...

A few days later.

Xie Mingyuan brought Feng Xiaotian to Yinhe Island to meet Zhang Yuhe.

Zhang Yuhe was very happy to meet an old friend in a foreign land.

The three of them chatted enthusiastically for a long time on Yinhe Peak.

Before leaving.

Zhang Yuhe gave Feng Xiaotian two low-grade immortal weapons, one for attack and one for defense.

Low-grade immortal weapons were worthless to him.

But for Feng Xiaotian, a cultivator from the lower realm who had just ascended, they were very precious.

Section 214

In addition, he solemnly handed a Holy Earth Spirit Fruit to Feng Xiaotian.

He also told him to wait until his physical body was cultivated to a certain level before taking the Holy Earth Spirit Fruit to cultivate his immortal body.

The fruit tree in the Wanlingtu originally produced five fruits.

He ate one himself, gave one to Xie Mingyuan before, and now gave one to Feng Xiaotian.

There are two left.

He did not intend to use these two Holy Earth Spirit Fruits to exchange cultivation resources with others.

There is absolutely no need.

Keep them first and see who needs them in the future.

Of course, he will not give them to everyone.

Zhang Yuhe always remembered Feng Xiaotian's kindness.

When the demons invaded.

Feng Xiaotian gave him the only Qiankun positioning in the sect to save his life.

He has always remembered this kindness in his heart.

Standing on the top of the Milky Way Peak, looking at the figures of the two people in the distance.

Zhang Yuhe couldn't help but feel relieved.

He did not leave Feng Xiaotian to practice on the Milky Way Island.

There is only a tribulation platform left here, which is deserted.

It is not appropriate for Feng Xiaotian to stay here.

He should communicate with other cultivators in a prosperous place.

So that he can learn how to survive in the fairy world as soon as possible.

Therefore, Zhang Yuhe asked Feng Xiaotian to follow Xie Mingyuan first.

Just now, I learned from Feng Xiaotian that Yu Fantian is developing very well now.

Wang Guofeng has also cultivated to the Mahayana realm.

"Blue Star has a Mahayana realm in charge, so I think it should be fine, right?"

Zhang Yuhe thought silently.

The sea breeze blew past his face.

After a long time, he turned around and walked into the cave.

The cultivation of the law is more difficult than he imagined.

More than 800 years have passed.

The tree of the law of time in the dantian has grown from more than three inches at the beginning to more than nine inches now.

Only the last point is missing, but it has not been able to break through.

Still in the entry stage.

There are only two hundred years left before the agreement with Nangong Youxi.

He plans to make a concerted effort to comprehend the law of time to the realm of small success first.

Zhang Yuhe sat cross-legged on the training platform, immersing his mind in the comprehension of the law.

Perhaps he had just seen an old friend.

He seemed to feel that the growth rate of the law tree was a little faster than before.

More than a hundred years passed.

Zhang Yuhe walked out of the cave door with an excited smile on his face.

"Haha, I finally cultivated this law to the state of minor success."

...

## Chapter 190 Recruitment Order

Zhang Yuhe sank his mind into his dantian and silently checked his condition.

I saw that the sapling representing the law of time had grown to just one foot high.

This meant that he had comprehended the law of time to the state of minor success.

In addition.

The other two law trees also grew a little, but they were still less than three inches high.

Despite this, Zhang Yuhe was still very happy.

The supreme law of the minor success state was overwhelming any Golden Immortal cultivator.

Even without using other means.

Just using the law of time purely, he could play with other Golden Immortal cultivators in the palm of his hand.

The power of the time law can make a Golden Immortal cultivator completely immobile.

Unless the other party also masters the supreme law and fights against him with the power of the law.

However, according to Nangong Youxi, there is currently no second cultivator who masters the supreme law in the entire South Sea Immortal Realm.

"Try the power of the time law in the small success realm?"

Zhang Yuhe soared into the air and quickly came to a small lake on the island.

All kinds of fat fish were swimming comfortably in the lake.

In order to build a tribulation platform.

The entire Galaxy Island is completely uninhabited.

Except for himself.

There is only one True Immortal disciple, with a team of Mahayana deacons, stationed on the island.

There is no human interference.

The fish in the lake began to grow wildly.

Zhang Yuhe stretched out his finger and gently pointed at a small fish.

An inexplicable breath quickly enveloped the small fish along his finger.

Soon, this poor little fish was slowly shrinking at a speed visible to the naked eye.

After a while.

The little fish became a small particle.

It turned back into a fish egg,

"It's true."

Seeing this, Zhang Yuhe was very surprised.

After the law of time reaches the state of minor success, it has a certain ability to go back.

Simply put.

It can beat a target back to the state of infancy.

Such an ability is very scary to think about.

For example.

The opponent is an invincible Taoist.

But you can use the law of time to beat him back to the state of infancy.

Wouldn't it be possible to kill the opponent with just one slap?

Such an ability is simply against the sky.

Of course.

With Zhang Yuhe's current strength, he naturally can't beat a cultivator back to the state of infancy.

He can only make some young lives grow inversely.

But the power of the law of time is still visible.

This is only the state of minor success.

Once he cultivates the law of time to the state of major success, or even the state of perfection.

At that time.

It is estimated that it can allow those weaker monks to reincarnate directly.

The law of time has infinite uses.

Time reversal is just one of them.

As he comprehends the law of time further, he can also speed up the passage of time for the target.

In other words, he can make the target age and die instantly.

In short, the law of time can control the flow of time within a certain range.

But the specific application will consume a lot of energy.

For him now.

The most practical means is still to imprison the target through the law of time.

Other application means need to wait until his strength is improved to a certain level before they can be slowly developed.

Just when Zhang Yuhe was still happily abusing those poor fish in the lake.

Section 215

Suddenly he flipped his right hand.

An immortal mirror appeared in his hand.

After playing a magic formula.

Seeing the message from Lian Zhengyu on it, he couldn't help but frown.

"Is the beast tide in Chaos Continent about to begin?"

According to the content of Lian Zhengyu's subpoena.

The Nangong Immortal Clan has officially issued a recruitment order.

Let all parties in the Ji'an sea area quickly send out manpower to assemble in the Tiangong sea area.

Then we will go to Chaos Continent together.

Lian Zhengyu asked him to return to the sect to discuss the matter together.

Zhang Yuhe put away the Immortal Mirror and turned into a stream of light and quickly flew towards the Dao Sheng Sect.

He used all his strength to activate the Galaxy Wandering Dragon Body Technique.

The body seems to blend into the void, moving forward quickly.

Now unless you are traveling a very long distance.

Otherwise, Zhang Yuhe would generally stop using flying boats.

The speed of the flying boat is far not as fast as his Galaxy Wandering Dragon Movement Technique.

Although activating this escape technique with all his strength will bring him great consumption.

But what does it matter?

At present, the waters of Ji'an are peaceful, and there is no need to fight with others.

It doesn't hurt to consume some immortal energy.

Half a day later.

A stream of light passed from a distance and quickly flew into Dao Sheng Sect.

Zhang Yuhe's current figure.

Landed at the top of Daosheng Peak.

When he came to the meeting hall.

I saw Lian Zhengyu and Song Heguang already waiting inside.

He quickly stepped forward and offered greetings.

"I've met the sect leader, Senior Brother Song."

Saw Zhang Yuhe arriving.

Lian Zhengyu and Song Heguang stood up quickly.

"Junior Brother Zhang, you are very fast. You are here so quickly."

"Hey, aren't you afraid that the two senior brothers will wait for a long time?"

After the three people sat down.

Lian Zhengyu said solemnly.

"Three days ago, the Nangong Immortal Clan officially issued a recruitment order. Our Dao Sheng Sect needs to send a Golden Immortal monk and fifty True Immortal disciples to the Chaos Continent to await deployment."

Zhang Yuhe sat next to him and listened silently, and he asked curiously.

"What about the Nine Immortals Sect and the Ten Thousand Beasts Sect? Have they received the recruitment order?"

Lian Zhengyu nodded and continued.

"Due to the destruction of the Ouyang family and the Qian family, the Nine Immortals Sect and the Qian family have to bear more pressure."

"I just communicated with them."

"Nine Immortals Sect and Ten Thousand Beasts Sect each need to send two Golden Immortal monks, plus a hundred True Immortal disciples."

Zhang Yuhe nodded silently.

Judging from paper strength.

The Nine Immortals Sect and the Ten Thousand Beasts Sect are much stronger than their Dao Sheng Sect.

There are nine Golden Immortal monks in the Nine Immortals Sect and thousands of True Immortal disciples.

The Ten Thousand Beasts Sect is similar, with seven Golden Immortal monks.

They dispatched two Golden Immortal monks each, and there was not much pressure.

Recruitment orders from the Nangong Immortal Clan are generally not too excessive.

The subordinate forces will not be mobilized.

To prevent an unsustainable situation from occurring if an accident occurs.

Lian Zhengyu continued.

"In addition to our three major forces, the Nangong Immortal Clan has also issued a recruitment order."

"Recruit casual cultivators from the Ji'an sea area and go to the Chaos Continent to deal with the impact of the beast tide."

"Let's discuss it and see who is more suitable."

Song Heguang, who was sitting next to him, stood up immediately and said.

"Sect Master, it's better for me to go."

"You need to stay in charge of the sect and you won't be able to leave for a while."

"Junior Brother Zhang has just broken through to the Golden Immortal, so he is not suitable to go to the Chaos Continent."

"The power of the Chaos Beast is no joke."

Lian Zhengyu looked at Zhang Yuhe, as if asking for his opinion.

Zhang Yuhe stood up and said slowly.

"I'd better go."

"I have been in the Immortal Realm for more than 20,000 years, and I have long wanted to experience the magic of the Chaos Continent."

"Junior Brother Zhang..."

Song Heguang quickly spoke to dissuade him.

But Zhang Yuhe waved his hand, and then said slowly.

"Don't worry, I'm not an impulsive person."

"If nothing can be done, just teleport away as soon as possible."

All major fairy cities in the Chaos Continent will be connected by teleportation arrays.

Under normal circumstances, even if the city is breached, the monks can escape through the teleportation array.

Of course.

If the beast tide comes suddenly and is extremely violent.

Even if there is a teleportation array, it will be useless.

There are so many monks in the city that there is no need to rush away.

despite this.

Zhang Yuhe is not worried either.

With his current strength.

If you fully activate the magical power of Hunyuan Guiyi.

Even if you can't defeat Taiyi Xian, you can still escape with your life.

he thought.

There will never be a chaotic beast whose strength exceeds that of Taiyi Immortal, and it will target him.

If that really happened, it would be a joke.

...

## Chapter 191 Gathering at the Market

Zhang Yuhe rejected Song Heguang's kindness.

Because he wanted to visit Chaos Continent.

After breaking through to the Golden Wonderland, he should also go out for a walk.

It has been so many years since I came to the fairy world.

Zhang Yuhe has always been nesting in the waters of Ji'an.

He is almost becoming a cultivating otaku.

This cannot continue.

Although his qualifications are incredible.

Even without the assistance of other resources, the cultivation speed will not be much slower.

But the path to spiritual cultivation is essentially a matter of struggle.

If you have been staying in Ji'an waters.

Maybe not many years.

The sharpness in his body was probably worn out a long time ago.

And because of the cultivation of the Hunyuan Heavenly Scripture.

He will need a lot of Chaos Beast Crystal Cores later.

Section 216

Whether it is the opening of the Yuanying or the promotion of the natal magic weapon, the Chaos Beast Crystal Core is needed.

And what is needed later are all high-level crystal cores.

Crystal cores above seven stars cannot be found in the Ji'an Sea.

In the future, he wants to develop further.

He must go to the Chaos Continent.

In this case, why not go earlier?

Anyway, with his current strength.

He should be able to protect himself.

He doesn't have to worry about his own safety.

Because Zhang Yuhe insisted, Lian Zhengyu and Song Heguang no longer objected.

They also knew.

In terms of strength.

Zhang Yuhe can leave them behind by several streets.

Except for some concerns that Zhang Yuhe lacks experience.

They are not worried about other things.

In fact.

Every 100,000 years or so, a wave of beasts will erupt in the Chaos Continent.

It is also common for the Nangong Immortal Clan to issue a conscription order.

But there are rarely major accidents.

Every time everyone is summoned to the Chaos Continent.

Except for the True Immortal disciples, who often die, the Golden Immortal cultivators can almost always come back alive.

It is precisely because of this that they do not have to worry about Zhang Yuhe's safety.

If even he cannot come back.

Then it does not matter who goes.

The three continued to discuss some other details, and then they dispersed.

Zhang Yuhe did not return to Yinhe Island, but stayed at Daosheng Peak.

Lian Zhengyu quickly summoned disciples from all over to return.

According to the Nangong Immortal Clan's call for conscription, in addition to sending a Golden Immortal.

They also need to send fifty True Immortal disciples.

Fortunately, in the past ten thousand years, Daosheng Sect has developed rapidly, and the number of True Immortal disciples has increased significantly.

Otherwise, it would be impossible to cope with this call for conscription.

Half a month later.

All fifty True Immortal disciples have been assembled.

Zhang Yuhe stood on the flying boat, glanced at everyone, and nodded with satisfaction.

True Immortal disciples going to Chaos Continent must have a certain ability to save their lives.

Or have outstanding cultivation, reaching the middle stage of True Immortal or above.

Or have special magical powers, and can escape and save their lives when facing a crisis.

Of course.

It is better to cultivate the immortal body.

As long as you cultivate the immortal body, even if it is just the initial stage of the immortal body.

Then basically, you can save your life in front of the Chaos Beast of the same level.

However, the resources in the Ji'an Sea are scarce, and there are not many people who can cultivate the immortal body.

Zhang Yuhe looked at them one by one, and found that only Xie Mingyuan and Feng Xiaotian were the initial stage of the immortal body.

The remaining 48 disciples, none of them have cultivated the immortal body.

It can only be said that the Ji'an Sea is indeed too small.

It is very difficult for cultivators to make every step here.

It has only been more than a hundred years since Feng Xiaotian ascended to heaven.

After hearing the call for the Nangong Immortal Clan, he also signed up.

Zhang Yuhe did not stop him.

In his opinion, cultivators should be like this.

Go forward bravely and fear no difficulties.

And with him taking care of them, I believe there will be no problems.

Zhang Yuhe swept his eyes over the crowd.

He waved his right hand and shouted loudly.

"Let's go."

Fifty True Immortal disciples quickly boarded the flying boat and found their own positions to settle down.

They had to go to the Tiangong Sea first.

Then they would be directly teleported to the Chaos Continent through the teleportation array of the Nangong Immortal Clan.

The distance from here to the Tiangong Sea is very far.

Even if a Golden Immortal cultivator could control a flying boat, it would take several years.

The Nangong Immortal Clan gave them a call to gather in the Tiangong Sea in ten years.

There was still plenty of time.

During this period, the disciples could practice and communicate on the flying boat.

Lian Zhengyu stood in the air and shouted loudly in the direction of the flying boat.

"Take care, everyone."

Zhang Yuhe nodded, then pinched the magic formula, and the flying boat turned into a stream of light and quickly disappeared in the distance.

A month later, the flying boat entered Ji'an Market.

Yu Liwei, Long Xingxiu and others came to meet them.

They had agreed before to go to the Tiangong Sea together.

It would be good to have someone to take care of them on the way.

Long Xingxiu said enthusiastically.

"I knew that this time, Fellow Daoist Zhang would definitely lead the team."

"Hello, Master Yu, Master Long."

Zhang Yuhe bowed to the two of them.

"Let's go, rest in the market for three days, and then set off together."

"Okay."

Zhang Yuhe asked the True Immortal disciples to settle down in the market.

Then he followed a group of Golden Immortal cultivators to a hall.

After everyone sat down, he observed silently.

The Nine Immortal Sect was led by Yu Liwei himself, and another Golden Immortal cultivator was named Qin Chengzhi.

He was also a veteran Golden Immortal cultivator, currently in the middle stage of Golden Immortal.

The Ten Thousand Beast Sect was similar.

The Sect Master Long Xingxiu led the team, and Yang Tongfang was also in the middle stage of Golden Immortal.

It can be said that they were very powerful.

Every time the Nangong Immortal Clan issued a call for conscription, the major forces would send out their strongest lineups.

Not only because they had stronger ability to save their lives and could bring people back safely.

More importantly, people with stronger strength were more likely to achieve results in the beast tide.

You know, Chaos Beasts are full of treasures.

Every time you kill a Chaos Beast, you can not only get a resource.

But the Nangong Immortal Clan will also give you extra rewards.

Such an opportunity will naturally not be missed.

If it weren't for the fear of unexpected situations.

Everyone even wants to go out in full force.

Of course, this is just a joke.

Everyone has not forgotten the lesson of Lu Yunfei.

At the beginning, there were more than a dozen Golden Immortal cultivators in the Daosheng Sect.

As a result, after a great catastrophe of immortals falling, only Lian Zhengyu and Song Heguang were left.

Fortunately, these two people did not go to the Chaos Continent at the beginning.

Otherwise, it would be a problem whether the Daosheng Sect still exists.

In addition to the three forces, there were two independent Golden Immortal cultivators present.

Section 217

Zhang Yuhe had seen these two people at the Golden Immortal Celebration.

They are Xu Chengde, a middle-stage Golden Immortal.

Zhuo Zhiming, an early-stage Golden Immortal.

In the Ji'an Sea, the strength of the independent cultivators should not be underestimated.

There are more than ten Golden Immortal cultivators among the independent cultivators alone.

However, no one can tell whether these people are still alive.

Some independent cultivators have not shown up for many years, and no one knows whether they are in seclusion.

Or have they gone to other seas.

Of course, it is also possible that they accidentally fell in a dangerous place.

After greeting each other, everyone sat down in the hall.

They began to discuss the news about the beast tide.

...

## Chapter 192 The Five Immortal Lords of Jiuli

Everyone talked loudly in the hall.

Facing the future beast tide, everyone was both excited and looking forward to it.

But there was no fear.

After all, everyone present was a Golden Immortal cultivator.

As long as you are not too reckless, or there is a big accident.

Outside of the general situation, it is not a big problem to save your life.

At this time, Zhuo Zhiming, a casual cultivator and a Golden Immortal who was sitting next to him, said with a slightly expectant look.

"If we can kill a few Golden Immortal Realm Chaos Beasts in this beast tide, we will be rich."

Long Xingxiu said with a smile.

"Fellow Daoist Zhuo is thinking too much."

"Among us, except for Sect Master Yu and Fellow Daoist Zhang, who have the opportunity to kill Golden Immortal Realm Chaos Beasts alone, others can't even kill Golden Immortal Realm Chaos Beasts."

"Even if we can escape from a Golden Immortal Realm Chaos Beast alone, it will be enough to brag about for half a lifetime."

Others also echoed.

Another casual cultivator, Golden Immortal Xu Chengde, nodded in response.

"Master Long is right. I have been to Chaos Continent dozens of times, and I have encountered Chaos Beasts in the Golden Immortal Realm alone many times."

"But I have never killed one. The defense of Chaos Beasts is too strong."

"Even a mid-grade immortal weapon cannot break the defense of Chaos Beasts in the Golden Immortal Realm."

"To kill Chaos Beasts in the Golden Immortal Realm, either multiple Golden Immortals cooperate or rely on Immortal-killing Cannons."

"It's a pity that mid-grade Immortal-killing Cannons are too rare."

"Yes, Chaos Beasts in the Golden Immortal Realm are indeed a bit difficult to kill."

"But we can start with Chaos Beasts in the True Immortal Realm and get some benefits, hehe."

"That's right, we just need to kill some Chaos Beasts in the True Immortal Realm."

Time passed quickly in a heated discussion.

...

Three days later.

Four huge flying boats flew out of the market quickly.

Xu Chengde and Zhuo Zhiming shared a flying boat.

It is obvious that they have an old friendship.

In addition.

There are also a large number of True Immortal Realm independent cultivators who set off with Xu Chengde's flying boat.

Zhang Yuhe took a rough look.

There are actually more than 200 True Immortals among the independent cultivators.

He Xingfa and Mu Juanjuan were also among them.

It is more difficult for independent cultivators to practice than for disciples of the sect.

Moreover, they are alone and have no worries.

Therefore, every time the Nangong Immortal Clan issues a recruitment order.

There will be a large number of independent cultivators who will apply to go.

For them, the beast tide is more of an opportunity to fight.

If they can kill a few chaos beasts, the resources they get in exchange will be enough for them to practice for a long time.

...

While driving the flying boat, Zhang Yuhe silently practiced the law of power.

He has already comprehended the law of time to the realm of minor success.

But the law of power and the law of space are still far away.

The law trees corresponding to these two laws are currently less than three inches high.

It will take a lot of time to practice these two laws to the realm of minor success.

At their current flying speed.

It takes at least three or four years to go from Ji'an City to Tiangong Sea.

During this time.

Zhang Yuhe plans to improve the law of power.

Among the three supreme laws he currently masters.

Although the law of power does not seem to be very prominent and a bit bland.

Actually, it is not.

In Zhang Yuhe's opinion, his main attack ability still depends on the law of power.

Although the law of time and the law of space are mysterious.

However, these two laws are mainly reflected in the ability to control and escape.

At least for now.

The real violent output still depends on the law of power.

If the law of power can be improved to the realm of minor success.

Then facing the chaos beast in the Golden Immortal Realm, maybe one stick can be knocked to death.

Of course.

Zhang Yuhe is just thinking about it.

It is not that simple to improve the law.

It is estimated that it will not be possible to improve the law of power to the realm of minor success without a thousand or eight hundred years.

But he thought.

It is also good to be able to improve it more.

...

Time passed slowly.

Four flying boats quickly passed across the sky.

Whether they were Golden Immortal cultivators or True Immortal disciples, everyone stayed on their own flying boats, practicing silently.

The road to cultivation is long and endless.

No one would waste time for no reason.

Three years later, the flying boat was almost approaching the Tiangong Sea.

"Huh?"

Zhang Yuhe suddenly opened his eyes and waved his right hand.

A magnificent sword light crossed the sky and violently slashed towards the empty sea in the distance.

The other people on the other three flying boats were immediately awakened from their practice.

Long Xingxiu soared into the sky, and his spiritual sense spread out to cover the sea area of hundreds of thousands of miles.

Everyone knew.

Zhang Yuhe would definitely not attack without reason.

The reason why they had to travel together was that they were worried about being ambushed by evil cultivators.

Others also spread their spiritual senses, but did not find anything unusual.

Everyone couldn't help but frowned slightly, and looked at Zhang Yuhe.

Long Xingxiu turned around and asked him.

"Fellow Daoist Zhang, did you find anything unusual?"

Zhang Yuhe did not answer.

Instead, he looked into the distance with a cold gaze and said in a faint tone.

Section 218

"Do you still want me to ask you to come out?"

After saying this, he quickly soared into the air, and the Nine Heavens Flying Spirit Stick appeared in his hand.

Zhang Yuhe waved the Nine Heavens Flying Spirit Stick and smashed it down on the sea.

Boom...

The golden stick shadow smashed into the sea, and a deafening roar broke out.

An invisible barrier was instantly shattered into pieces.

Several figures finally appeared.

Seeing these figures, Long Xingxiu couldn't help but exclaimed.

"Li Jiuyue, how could it be you?"

Everyone looked solemn, and they all sacrificed their immortal weapons and secretly guarded.

Li Jiuyue came from the Jiuli Sect.

It is a famous evil cultivator who has risen in recent years.

Originally, the Jiuli Sect was also a major force that dominated a sea area.

It was just that 800,000 years ago, a huge catastrophe of immortals fell on the Chaos Continent on an unprecedented scale.

The two Taiyi Immortal ancestors of the Jiuli Sect all fell on the Chaos Continent.

Since then, the Jiuli Sect has weakened rapidly.

500,000 years ago, the Jiuli Sect, which had been passed down for countless years, was killed by a mysterious force.

Without the presence of Taiyi Patriarch, the Jiuli Sect was soon destroyed.

The few Jiuli Sect disciples outside became rootless.

However, what people did not expect was that.

After the sect was destroyed.

Li Jiuyue actually led several disciples to embark on the path of evil cultivation.

They are called the Five Immortal Lords of Jiuli.

They often appear in various seas and attack passing cultivators and caravans.

Due to their strong strength, they have been successful in their repeated attacks, which makes the cultivators in various seas very afraid.

No one thought that they would be targeted by the Five Immortal Lords of Jiuli when they went to the Tiangong Sea this time.

Zhang Yuhe glanced at Li Jiuyue and others.

He had heard of the name of the Five Immortal Lords of Jiuli before.

It must be said that these people are really arrogant.

Is the name of the Immortal Lord self-proclaimed?

In the fairy world.

Only Taiyi Immortals dare to call themselves Immortal Lords.

The five people in front of them, whose cultivation is only at the Golden Immortal Realm, dare to call themselves Immortal Lords.

They must be crazy.

No wonder they would embark on the path of evil cultivation.

Compared with the cautiousness of others, Zhang Yuhe looked indifferent.

Although the overall strength of the Five Immortal Lords of Jiuli was good.

All five of them were veteran Golden Immortal cultivators.

Among them, Li Jiuyue had already entered the Golden Immortal Great Perfection, and the other four also had the Golden Immortal late stage cultivation.

But Zhang Yuhe still didn't take it to heart.

The main reason was that even if they were not Taiyi Immortals, they could not stop him.

It was only because the Five Immortal Lords of Jiuli were unlucky to hit him.

...

I hate you

Chapter 193 Improved Version of the Great Wilderness Prisoner Heaven Finger

Seeing the Five Immortal Lords of Jiuli appear, everyone's hearts tightened.

Although in terms of numbers, they still had the advantage.

The three major forces plus the independent cultivators have a total of seven Golden Immortal cultivators, while the other side has only five.

But the other side has a Golden Immortal Great Perfection, and the other four are all in the late Golden Immortal stage.

Among the people in the Ji'an Sea, only Yu Liwei is in the late Golden Immortal stage.

The others are only in the middle and early Golden Immortal stages.

Everyone thought.

With such a big gap in strength, if they really fight, they will definitely not be able to win.

The Five Immortal Lords of Jiuli are notorious.

In the past few hundred thousand years, there have been dozens of Golden Immortal cultivators attacked and killed by them.

Everyone turned their brains and thought about how to break out.

Since they can't win, they can only run away.

Yu Liwei took off from the flying boat and looked at the other side with a cold expression.

She knew that this time it would definitely not end well.

The other side had been ambushing here for a long time and would definitely not let them get away easily.

Long Xingxiu stood in the air and said to Li Jiuyue.

"Daoyou Li, we have no grudges against you, why don't we go our separate ways?"

"Hahaha, grudges? Who do we Jiuli Sect have grudges against? Or were we killed by someone?"

Hearing this, Li Jiuyue couldn't help but laugh.

"This world has always been a place where the weak are preyed upon by the strong. Since you have met, just accept your fate."

After saying this, Li Jiuyue took out a black array plate.

At the same time, he quickly pinched the magic formula.

A light blue light curtain slowly rose, covering the area of hundreds of thousands of miles.

After doing all this.

Li Jiuyue shouted loudly.

"Go, kill them as soon as possible, this place is not far from the Tiangong Sea."

"Don't delay too long, let the old monster of the Nangong Immortal Clan find out, then we will be in big trouble."

After saying this, Li Jiuyue offered a black spear and quickly pounced on Yu Liwei.

In his opinion.

Among the people in the Ji'an Sea, only Yu Liwei is difficult to deal with.

As long as they are dealt with, the rest are just small shrimps, which can be destroyed with a wave of the hand.

Yu Liwei waved her right hand, and a seven-stringed harp appeared in front of her.

She plucked the strings, and the ethereal sound quickly enveloped Li Jiuyue.

"Hmph."

Li Jiuyue snorted coldly.

"Are you the only one who knows the special law?"

Waves of inexplicable aura rose from him, quickly dispelling the influence of Yu Liwei's dream law.

The war broke out instantly.

Two Jiuli Sect Golden Immortals rushed directly to Long Xingxiu and Yang Tongfang.

The remaining two rushed to Zhang Yuhe and Xu Chengde and others respectively.

"Hmph."

Facing the Golden Immortal cultivators of Jiuli Sect, Zhang Yuhe did not take them seriously at all.

Although the opponent is in the late stage of the Golden Immortal.

But so what?

The opponent is strong enough to block his stick.

Zhang Yuhe stepped on the ground with his left foot, and ripples appeared in the void, and he instantly appeared behind the Golden Immortal.

The Galaxy Dragon Body Movement, under the blessing of the Space Law, has the effect of teleportation.

The opponent was shocked.

He had never thought about why Zhang Yuhe was so fast.

However, it was too late to think about it.

He quickly offered a black shield to block behind him.

But that was all.

Zhang Yuhe swung the Nine Heavens Flying Spirit Stick and instantly blasted the black shield away.

Immediately afterwards, another stick was swung out.

Section 219

This Jinxian monk from Jiuli Sect screamed before he even had time.

In an instant, Zhang Yuhe beat him to pieces with a stick.

A mini Nascent Soul flew out from the broken body.

Zhang Yuhe slapped his right hand.

Directly patted Yuanying into gray.

The sudden change made everyone at the scene stunned.

The two sides had just started fighting, and Zhang Yuhe killed a late-stage Golden Immortal?

Li Jiuyue's eyes were splitting, and he shouted in grief and anger.

"Fifth Junior Brother..."

The other three Jinxian monks from Jiuli Sect were also shocked.

I originally thought that based on their strength. Destroy everyone in Ji'an sea area.

It's just a trivial matter.

However, this was just the beginning, and one person died on his side.

Since embarking on the path of evil cultivation, it's not like they haven't kicked a brick wall.

In the past, even if they were hit by an iron plate, they could escape unscathed.

It's never been like this.

Before they could understand what happened, one of them was killed.

When he saw Zhang Yuhe, he killed a late-stage Golden Immortal on the other side with a stick.

Everyone in the Ji'an sea area couldn't help but feel excited and ecstatic.

They know that Zhang Yuhe is very strong, and there is no weak person among the Supreme Prodigies.

But no one expected that Zhang Yuhe would be so strong.

He has just been promoted to the Golden Immortal Realm, and he can easily kill the late Golden Immortal.

This would allow him to break through to the late Golden Immortal stage.

Wouldn't it be possible to fight with Immortal Lord Taiyi for a few rounds?

...

However, Zhang Yuhe did not pay attention to other people's thoughts.

He activated the Galaxy Wandering Dragon Body Technique with all his strength, and his body merged into the void.

A Jinxian monk from Jiuli Sect was pressing Xu Chengde and Zhuo Zhiqiang to attack.

Suddenly, a huge golden stick shadow quickly struck from behind him.

This golden immortal monk has been prepared for a long time.

He quickly raised a shield and flew back quickly.

However, Zhang Yuhe was faster than him.

He knocked the shield away with a stick, then stepped on it with his left foot.

Appear behind this person again.

As the shadow of the stick falls.

In an instant, the man was reduced to ashes.

Seeing this situation, Li Jiuyue shouted in grief and anger.

"Quickly retreat."

The fight has just started, and two people on my side have died, so why bother?

Run away quickly.

They make a living by robbing anyway.

Running away when the iron is hit is the right choice.

If they continue to fight, they may all die.

But Li Jiuyue obviously thought too much.

Yu Liwei quickly plucked the strings and rushed towards the other two golden immortals of Jiuli Sect.

Li Jiuyue is too strong, and he has also comprehended a special law to the level of small success.

Her dream laws cannot affect Li Jiuyue.

Even if her flying boat carries five medium-grade immortal-killing cannons, they will not be able to work.

Without controlling the opponent, the Immortal Cannon cannot lock on to its target.

Shooting randomly will only waste the cores.

But the other two people did not understand the special laws.

Yu Liwei understood that they only needed to hold the other two people back.

As for Li Jiuyue, leave it to Zhang Yuhe to deal with.

The others cooperated tacitly and quickly surrounded the two Jinxian monks from Jiuli Sect.

All kinds of immortal weapons and magic powers were blasted at these two people.

Li Jiuyue saw that the situation was not right.

He did not go to the rescue, but turned into a stream of light and flew quickly towards the distance.

"Huh, you just thought of running now, don't you think it's too late?"

Zhang Yuhe used all his strength to activate the Galaxy Wandering Dragon Movement Technique and quickly chased after the opponent.

It would be a fool's errand for monks of the same rank to escape with their lives under him.

After chasing for thousands of miles, Zhang Yuhe appeared from the void.

I saw his fingers gently tapping out.

A golden finger shadow appeared out of thin air.

The shadow of his fingers slowly pressed down, instantly locking Li Jiuyue in place, unable to move.

The Great Wilderness Prisons Heaven's Finger.

He has already deduced this magical power to the level of immortality.

Not only that.

Zhang Yuhe also integrated the power of the three supreme laws into this magical power.

After his improvement, the power of the Great Desolate Prisoner's Heavenly Finger became extremely terrifying.

Li Jiuyue couldn't help but become anxious when he saw the shadow of his finger falling.

He frantically activated the power of the law, trying to break free from the shadow of his fingers.

However, even though he tried his best, he still couldn't move.

The power of the three supreme laws is superimposed, and the law of time is still in the realm of small success.

It's completely possible to lock him in place.

Watching the shadow of the finger slowly press down.

Li Jiuyue's body began to crack, and then exploded into a ball of blood mist.

Not even Nascent Soul could escape.

The whole process seems slow, but it only takes a moment.

Zhang Yuhe put away the items dropped by Li Jiuyue and rushed back quickly.

...

Chapter 194 Tiangongfang City

When Zhang Yuhe returned.

I saw only five thick gun barrels on Yu Liwei's flying boat, flashing with fierce light.

In an instant, two Jinxian monks from Jiuli Sect were beaten into ashes.

See this situation.

Zhang Yuhe couldn't help but be stunned.

This is not giving him a chance.

I originally thought that we would have to wait until he came back.

Unexpectedly, only a while has passed.

Two late-stage Jinxian cultivators from the Jiuli Sect had already been eliminated by Yu Liwei and the others.

It must be said that the middle-grade Immortal-killing Cannon is really useful.

As long as it can lock the target.

That means killing gods and Buddhas.

No one can stop it below Taiyi Immortal.

Zhang Yuhe felt.

Even if it was him, once he was locked by the middle-grade Immortal-killing Cannon.

It would probably be difficult to escape.

The power of this thing.

It is really too strong.

Section 220

It made him a little greedy.

Of course.

The medium-grade Immortal-Destroying Cannon is powerful.

But the usage restrictions are not small.

After all, it is not that easy to imprison a monk of the same level.

In fact, as long as the other party can be imprisoned.

Even if you don't use the immortal cannon, you can still kill him.

It just takes a little more effort.

Seeing Zhang Yuhe return, everyone couldn't help but show awe on their faces.

Originally, everyone only heard about it, but no one actually saw him take action.

It is said that the Supreme Prodigy is very strong and invincible at the same level.

But legends and seeing it with your own eyes are completely different things.

Just now, Zhang Yuhe just swung two sticks and beat two Jinxian monks from Jiuli Sect to death.

It's as easy as swatting mosquitoes.

Zhang Yuhe's invincible figure was deeply engraved in everyone's hearts.

This made them understand how big the gap was between the same Golden Immortal monks.

It also gave them a clear understanding of the power of the Supreme Prodigy.

Yu Liwei put away the items on the ground and flew down next to Zhang Yuhe.

she asked with a smile.

"Where's Li Jiuyue? You didn't let him run away, right?"

Among all the people present, only Yu Liwei knew how powerful the Supreme Prodigy was.

Because she had seen the Supreme Prodigy take action before when she was in Chaos Continent.

Let alone a monk of the same level, even a Chaos Beast of the same level.

The Supreme Prodigy can also be easily crushed.

Even if you challenge a Chaos Beast over a higher level, you can fight back and forth.

Therefore, she is very confident in Zhang Yuhe's strength.

"Beat to death."

Zhang Yuhe responded calmly.

Long Xingxiu patrolled the surrounding area to make sure there were no more enemies.

Just fell from the sky.

He asked Yu Liwei and Zhang Yuhe.

"Master Yu, Fellow Daoist Zhang, what should we do now? Should we continue to the Tiangong sea area?"

"Of course, it would be bad if we miss the recruitment order from the Nangong Immortal Clan."

Long Xingxiu nodded and flew back to his flying boat.

After an accident, everyone continued to move towards the Tiangong sea area.

On each flying boat, the True Immortal disciples were excitedly discussing the battle just now.

"Old Ancestor Zhang is really fierce. He killed two late-stage Golden Immortals with just two sticks."

"Of course. I heard that Patriarch Zhang has understood the Supreme Law and is unrivaled among monks of the same level."

"Hey, it would be great if I could also understand a supreme law."

"Just go ahead and dream. There's everything in your dreams?"

"Even in your dreams, you wouldn't dare to think like this, right?"

"You don't even have an introduction to ordinary laws, and you dare to think about the supreme laws. You really don't know how high the world is."

"Hehe, that's not certain. What if I encounter the Enlightenment Fruit Tree? As long as I pick one Enlightenment Fruit and eat it, my understanding will increase several times in an instant."

"Maybe we can understand the Supreme Law from this."

"Brother, do you really dare to think that the Enlightenment Fruit Tree is elusive and no one has encountered it for tens of millions of years, right?"

"It's a matter of chance, who can say for sure."

"All right."

...

half year later.

Everyone successfully entered the Tiangong sea area and encountered no other accidents on the way.

Ten days later, a huge market appeared in front of everyone.

Tiangongfang City.

They will stay here until all other subordinate forces of the Nangong Immortal Clan arrive.

Only then will they set off together to the Chaos Continent.

The flying boat passed through the city and landed in a manor.

At this time, a young man in blue came up quickly and shouted respectfully to everyone.

"Nangong Yuming, I've met all the seniors."

Everyone nodded in response.

Zhang Yuhe looked at the young man and saw a majestic palace embroidered on the young man's blue robe.

This is the symbol of the Nangong Immortal Clan, the core tribe.

Under the guidance of Nangong Yuming, everyone entered the manor one after another.

Long Xingxiu asked Nangong Yuming.

"This little brother, I wonder when we will leave for Chaos Continent?"

Nangong Yuna shook his head and responded.

"The ancestor hasn't given the order yet, so we don't know yet. Seniors, please feel free to settle here."

"You can also walk around the city or nearby islands as you like. When we set off, we will notify you in advance."

After everyone settled down, Nangong Yuming turned around and left.

The estate covers a very large area, and each of them has an independent house.

There are all kinds of facilities in the house, which will not affect everyone's cultivation.

Zhang Yuhe walked into his house, came to the training platform, and slowly sat down cross-legged.

He turned his right hand and three storage bracelets appeared in front of him.

This is the trophy gained from killing the Jiuli Sect monk.

Three of the five Golden Immortal monks were killed by him.

The spoils of the remaining two people were obtained by Yu Liwei.

Yu Liwei used the middle-grade immortal-killing cannon to kill two Jiuli Sect monks.

Relatively speaking, others are just soy sauce.

He didn't contribute much, so he was naturally not qualified to share the spoils.

He picked up the storage bracelet and looked at it slowly.

After sorting out all the items inside.

Zhang Yuhe couldn't help but look happy.

These people are worthy of being a robber.

All of them are extremely wealthy.

He counted more than three billion fairy stones alone, almost catching up with the Ouyang family, which had accumulated millions of years.

In addition, there are eighteen middle-grade immortal artifacts.

The number of low-grade immortal artifacts is even more exaggerated.

There are more than three hundred pieces.

There are also many jade slips of various skills and magical powers, refining materials, and spiritual herbs and medicines.

I really don't know how many cultivators these people have killed.

In addition, he found five portions of Shengyang Sand in the storage bracelet.

Shengyang Sand is the core material for refining low-grade Immortal-Destroying Cannon.

He had found the refining drawings of the low-grade Immortal-Destroying Cannon in the treasure house of the Ouyang family before.

He had also collected other auxiliary materials.

Now with these five portions of Shengyang Sand, he can start to refine the low-grade Immortal-Destroying Cannon.

Although the low-grade Immortal-Destroying Cannon is not very useful to him, it doesn't hurt to make a few to play with.

After putting away all the other items.

Zhang Yuhe took out a piece of strange ore and observed it carefully.

After a long time, he muttered to himself.

"It is indeed the Nine Flame Star Crystal."

...
