Chapter 195 Refining the inferior Immortal-Destroying Cannon

Looking at the ore in his hand, it exudes a scorching breath, and there are a few starlight flashes on the surface of the ore.

It is the Nine Flame Star Crystal without a doubt.

Zhang Yuhe couldn't help but be overjoyed.

The Nine Flame Star Crystal is the core material for refining the middle-grade Immortal-Destroying Cannon.

Although many other materials are needed, as long as there is the Nine Flame Star Crystal.

Other materials are easy to collect.

The only problem now is that he doesn't have the blueprint for refining the middle-grade Immortal-Destroying Cannon.

But there is no rush, the blueprint will be found sooner or later.

The Nine Flame Star Crystal in his hand is not small, at least enough to refine three middle-grade Immortal-Destroying Cannons.

Of course.

Here it is said that it will only work if all the refining is successful.

The refining process of the Immortal-Destroying Cannon is extremely complicated, and the failure rate is very high.

But that is for other people.

For him, there is no such problem as failure.

Looking at the Nine Flame Star Crystal in his hand.

Zhang Yuhe considered where to find the blueprint for refining the middle-grade Spiritual Immortal-Destroying Cannon.

The Tiangong Market is huge, and there are many large merchants across the sea.

You should be able to buy blueprints here.

"Forget it, let's get a few low-grade Immortal-Destroying Cannons to play with first, and then go to the market later."

Zhang Yuhe got up and went to the refining room next to him.

He waved his right hand, and a huge four-legged square tripod appeared in front of him.

As various materials were continuously put into the tripod.

Zhang Yuhe pinched the magic formula, and the hot flames ignited from under the tripod.

The Immortal-Destroying Cannon is composed of several parts.

In other words, he needs to refine several parts at the same time and finally fuse them together.

If any part has a problem.

The whole refining result will fail.

Zhang Yuhe didn't worry about these.

While watching the changes in the tripod, he silently comprehended the law of power.

Half a year later.

A mini cannon appeared in his hand.

Zhang Yuhe cast a magic formula.

The cannon instantly grew larger and turned into a majestic Immortal-Destroying Cannon.

"Not bad, not bad."

Looking at the Immortal-Destroying Cannon in front of him, Zhang Yuhe was quite happy.

Although it was only a low-grade Immortal-Destroying Cannon, it was very difficult to deal with the Chaos Beast in the Golden Immortal Realm.

But it is better to have it than not.

Putting away the Immortal-Destroying Cannon, Zhang Yuhe continued to return to the weapon refining room.

Two years later.

All five low-grade Immortal-Destroying Cannons were refined.

He fixed all these Immortal-Destroying Cannons on the flying boat.

When facing the enemy in the future.

He no longer needs to wave the Nine Heavens Flying Spirit Stick to knock on other people's heads.

Just a law confinement, and then fire the cannon and it's done.

Although the low-grade Immortal-Destroying Cannon is a little bit worse.

But as long as the immortal body has not been cultivated to the small success realm.

Even if facing a Golden Immortal cultivator, five cannons firing at the same time can still kill him.

Zhang Yuhe did not test the power of these Immortal-Destroying Cannons.

Every time this thing fires, it consumes a Chaos Beast crystal core.

There is no need to waste it.

He turned back to the cave, ready to pack up and go to the market.

Suddenly his expression changed.

A fairy mirror appeared in his hand.

He cast a spell, and after seeing the content of the message on it, he couldn't help but think.

"The Nangong Immortal Clan will prepare the lightning absorption column. Is it ready?"

Nangong Youxi just sent a message.

Ask him to meet at the Tiangong Palace in the market when he is free to discuss the arrangement of the tribulation platform.

"Go and have a look, solve the problem as soon as possible, and get the Jiulang Yunling Immortal Pill."

Thinking of this, Zhang Yuhe turned into a stream of light and flew quickly towards the center of the market.

After a while.

A palace suspended in the air appeared in front of him.

Tiangong Palace.

This is the core of the Nangong Immortal Clan in the market.

Nangong Youxi personally greeted him outside the palace.

The two entered the hall.

Nangong Youxi spoke directly.

"According to the instructions of Fellow Daoist Zhang, we have prepared all 10,081 lightning-absorbing pillars."

"Do you have time now? Come with me to set up the Tribulation Platform?"

"Sure."

Zhang Yuhe nodded in response.

He also wanted to solve the problem as soon as possible and get the Nine Lang Yunling Immortal Pill.

According to the previous agreement.

After the Tribulation Platform is set up, the Nangong Immortal Clan will give him the Nine Lang Yunling Immortal Pill.

"Then shall we set off now?"

"Okay."

Nangong Youxi waved his hand.

A huge flying boat was suspended in the air.

The two stepped onto the flying boat and flew quickly into the distance.

Nangong Youxi said.

"According to the instructions of the Tianming Patriarch, the Tribulation Platform will be set up near Tiangong Island."

"It will take about half a month to fly from here."

Zhang Yuhe nodded.

The flying boat quickly passed over the sea.

From time to time, the figures of cultivators flying by can be seen on the road.

Compared to the Ji'an Sea Area.

The Tiangong Sea is much more prosperous.

The cultivation atmosphere here is more prosperous, and there are more cultivators.

You can occasionally see Golden Immortal cultivators on the road.

This is completely unimaginable in the Ji'an Sea.

You know.

In the Ji'an Sea, every Golden Immortal cultivator is a patriarch.

It is easy to see no human figure.

Half a month later.

The flying boat landed on a deserted island.

In the center of the deserted island, there is a huge platform.

A team of blue-clothed disciples saw the two men coming and shouted respectfully in unison.

"Meetings, Patriarch Youxi."

Nangong Youxi nodded in response, then turned to Zhang Yuhe and asked.

"What do you think of this place, fellow Daoist? Can we set up a tribulation platform?"

Section 222

"If that doesn't work, we can find another island."

The Nangong Immortal Clan is huge and they occupy countless islands.

The reason why I chose this place to build a tribulation platform.

Just considering that this place is closer to their family residence.

It is not only convenient for management, but also convenient for future disciples to overcome tribulations.

Zhang Yuhe glanced around and nodded.

"No need to change, just stay here."

There are no other additional requirements for deploying the Renshui mine-absorbing array except for abundant water source power.

There is sea everywhere here, so there is no problem.

Nangong Youxi nodded, and then handed over a storage bracelet.

"10,081 lightning-absorbing pillars, all of them are here. I'm sorry for you, Fellow Daoist Zhang."

Zhang Yuhe took the storage bracelet, glanced at it with his consciousness, and then spoke.

"Then I'll start."

After finishing speaking, he waved his right hand.

One by one, the lightning-absorbing pillars quickly fell into the distance.

He quickly rose into the air and stretched out his hand to carve patterns in the void.

Time passed slowly.

After the last formation pattern is carved.

He quickly used the magic formula.

A light blue light curtain slowly rose, covering the entire desert island.

After everything is done.

Zhang Yuhe took a deep breath, took out a jade slip and handed it over and said.

"This is a control technique. You can tell by just looking at it."

Nangong Youxi took the jade slip and examined it carefully, tried to control the formation, and confirmed that it was correct.

She turned around and said to Zhang Yuhe.

"Fellow Daoist Zhang, I want someone to try the effect of this tribulation platform. Is it possible?"

Hearing this, Zhang Yuhe couldn't help but be stunned.

How to try this thing?

Do you want people to come here to escape the tribulation?

Where can I find someone here who just needs to break through the Golden Immortal and lead to the catastrophe?

But it doesn't seem like he needs to worry about it.

Thinking of this, Zhang Yuhe nodded.

"Fairy, please help yourself. After the Tribulation Platform is built, it will be your property."

Nangong Youxi smiled slightly, then stretched out his hand and shouted to a disciple.

"Yuyuan, come here for a moment."

...

Chapter 196 Nangong Tianming

A blue disciple came out of the team and asked Nangong Youxi respectfully.

"What is your order from Ancestor Youxi?"

Seeing this man coming out, Zhang Yuhe was simply speechless.

He really didn't notice it just now.

It turns out that there is a true immortal Dzogchen among this team of disciples in blue.

Nangong Youxi must have made up his mind a long time ago.

After he has arranged the tribulation platform, he will have people break through the Golden Immortal to test the effect.

It has to be said that the Nangong Immortal Clan is really a big family.

It was such a coincidence.

There happened to be a disciple of the True Immortal Dzogchen.

It is worthy of being a powerful force under the command of Immortal Lord Taiyi.

Zhang Yuhe complained silently in his heart.

But he didn't say anything.

It's normal for people to want to test the effect of the Tribulation Platform.

After all, it is for this tribulation platform.

The Nangong Immortal Clan also spent a lot of effort and even took out a Jiulang Yunling Immortal Pill.

If you don't test it, people may be a little worried.

Nangong Youxi took out an elixir, handed it to the disciple in blue and said.

"This is the Dual Realm Breaking Elixir. With this elixir, you should not have much of a problem breaking through the Golden Immortal Realm."

"Just try it here?"

After finishing speaking, she pointed to the Tribulation Platform.

Yuan Nangong looked at the elixir in his hand and couldn't help but feel ecstatic.

The elixir that can assist in breaking through the Golden Immortal Realm is also very precious to the Nangong Immortal Clan.

If you don't make a big contribution, it's not easy to apply for one.

But he quickly remembered.

I haven't prepared anything.

He had just arrived at True Immortal Dzogchen not long ago.

Not ready for a breakthrough.

What if you are struck by a catastrophe?

Nangong Youxi said with a smile.

"Don't worry, with the help of this tribulation platform, it won't be a problem for you to survive the tribulation."

After finishing speaking, Nangong Youxi handed him two defensive artifacts again.

Hearing this, Nangong Yuyuan was heartbroken and walked directly to the tribulation platform.

The opportunity to break through the Golden Immortal is hard to find.

Now there are elixirs to assist breakthroughs, as well as defensive weapons.

Plus this unknown tribulation platform.

If so, he wouldn't even dare to take the risk.

I want to wait for such an opportunity in the future, but I don't know when it will be.

Everyone quickly took off into the air and flew hundreds of miles away from the island.

Half a month later.

Suddenly the situation changed, and the dark clouds in the sky quickly gathered in the direction of the Tribulation Platform.

Immediately afterwards, thunder struck down continuously.

However, after passing through the light blue light curtain.

The power of thunder and lightning was greatly weakened.

Nangong Yuyuan just activated a low-grade defensive magical weapon and easily withstood the catastrophe.

After half a day, the dark clouds dispersed.

Everyone returned to the tribulation stage again.

I saw Nangong Yuyu exuding a strong aura.

It is already a golden fairyland.

Saw Nangong Youxi arriving.

He immediately said excitedly.

"Thank you, Ancestor Youxi."

Nangong Youxi waved her hand, and she took a closer look at Nangong Yuyu's condition.

I saw no harm on him.

The surroundings of the Tribulation Platform were not damaged by the Heavenly Tribulation.

Seeing this situation.

Nangong Youxi couldn't help but sigh.

"The Tribulation Platform arranged by Fellow Daoist Zhang is indeed extraordinary."

Nangong Youxi discovered.

Compared with the original Tribulation Platform of their family.

The Tribulation Platform arranged by Zhang Yuhe uses endless water energy as its source of power.

Not only does it not have any additional consumption, but it also has a very good effect on weakening the Heavenly Tribulation.

Section 223

It is simply the most perfect escape platform.

She turned her right hand, took out an exquisite jade box, handed it over and said.

"This is the Jiulangyunling elixir. Thank you for your help, fellow Taoist Zhang."

"Fair trade, fairies don't have to be polite."

Zhang Yuhe opened the jade box and saw a crystal clear elixir that exuded a mysterious aura.

He couldn't help but feel overjoyed.

With this Nine Lang Yunling Immortal Pill, he can cultivate his immortal body to a small level of success.

This is really good stuff.

Good things that you can't even buy with fairy stones.

Zhang Yuhe put away the jade box and was about to say goodbye and return to Fangshi.

Then he suddenly realized.

At some point, a middle-aged man in blue suddenly appeared next to him.

The middle-aged man in blue has a restrained aura, and his level of cultivation is completely invisible.

This surprised Zhang Yuhe.

To know.

He is currently in the Golden Immortal Realm, and there are not many people who can make him blind to his cultivation level.

Could it be that this middle-aged man in blue is a Taiyi Immortal Lord?

I saw the middle-aged man in blue appear.

The Nangong Immortal Clan monks present all shouted respectfully in unison.

"Meet Ancestor Tianming."

Zhang Yuhe understood now, and he quickly shouted respectfully.

"Meet the Immortal Lord Tianming."

"Everyone, get up."

Nangong Tianming extended his hand to everyone.

Looking at the tribulation platform in front of him, he sighed.

"Yes, it is truly a perfect platform for overcoming tribulations."

“I didn’t expect that the small sea area of Ji’an is full of talented people.”

"First there was Lu Yunfei, and now there is you, the supreme genius."

Nangong Tianming suddenly turned around and asked Zhang Yuhe.

"By the way, is there any news about Lu Yunfei now?"

Zhang Yuhe shook his head first, and then replied respectfully.

"Senior Brother Lu's soul lamp is safe for the time being, but there has been no news. I don't know if it is trapped in a dangerous place in Chaos Continent."

Nangong Tianming nodded.

"There are countless dangerous places in the Chaos Continent, and there are both dangers and opportunities."

"Perhaps when Lu Yunfei appears next time, he will already be Taiyi Immortal, right?"

After saying this, he disappeared from everyone's eyes.

Zhang Yuhe didn't even find out how Nangong Tianming left.

Thinking of this, he couldn't help but feel a chill in his heart.

Originally he thought.

As long as you activate the magical power of Hunyuan Guiyi, you will not be afraid of the threat of Taiyi Immortal.

Now it seems that he is overthinking.

If all Taiyi Immortal Lords were as powerful as Nangong Tianming.

Even if he activates the magical power of Hunyuan Guiyi, he can't defeat him.

If he can escape, he is considered lucky.

In fact, it's normal to think about it.

Taiyi Immortal Lord has unlimited longevity.

Every Taiyi Immortal Lord is an old monster who has been practicing for hundreds of millions of years.

If you live longer, you will naturally have more means.

Unless it is the newly promoted Taiyi Immortal Lord.

None of the old Taiyi Immortal Lords are simple characters.

After a while, everyone breathed a sigh of relief.

Taiyi Immortal Lord's aura is too powerful.

Even Nangong Youxi and others would feel a little uncomfortable when facing their ancestors.

Zhang Yuhe asked Nangong Youxi.

"Why did Tianming Immortal Lord come here?"

He didn't believe that Nangong Tianming came to see this tribulation platform.

Although the Tribulation Platform is important, in the eyes of Nangong Tianming, an old monster who has lived for hundreds of millions of years.

Obviously not worth mentioning.

Nangong Youxi shook his head and did not answer.

She had not been notified in advance.

Maybe Nangong Tianming just came over to take a look on a whim.

Zhang Yuhe was not too entangled.

Judging from the tone, Nangong Tianming did not mean any harm.

Moreover, he also knew about Lu Yunfei's disappearance and was obviously very concerned about it.

Zhang Yuhe thought.

Maybe Lu Yunfei had some interactions with Nangong Tianming before, it's hard to say.

After all, when Lu Yunfei established the Immortal City in the Chaos Continent, he also received the support of the Nangong Immortal Clan.

Maybe they had contact in the beginning.

...

Chapter 197 The Immortal Body is Completed

After completing the arrangement of the Tribulation Platform, Zhang Yuhe returned to Tiangongfang City.

He couldn't wait to walk into the cave and sit cross-legged on the training platform.

As a reward for setting up the tribulation platform, the Nangong Immortal Clan gave a Nine Lang Yunling elixir.

This elixir is extremely precious.

It has a very good effect on the cultivation of immortal body.

It can assist monks in cultivating the immortal body to a small level of success.

Zhang Yuhe took out the Jiulang Yunling elixir and swallowed it gently.

A warm current flowed through the whole body instantly.

That feeling is more comfortable than eating ginseng fruit.

He slowly operated the Galaxy Zhou Tian Gong, guiding the power of Jiulang Yunling's elixir to circulate rapidly throughout his body.

With the power of the elixir, Zhang Yuhe's immortal body is evolving rapidly.

A faint glow loomed on the surface of his skin.

I don't know how much time has passed.

Zhang Yuhe slowly opened his eyes.

He looked at his hands, slightly surprised in his eyes.

I saw that the skin on my hands became as white as a girl.

He waved his right hand.

A fairy sword appeared in his hand.

The fairy sword slashed across his arm, leaving only a faint white mark.

Seeing this situation, Zhang Yuhe couldn't help but smile.

At the same time, he muttered to himself.

"Finally, I have cultivated my immortal body to a small level of success."

The immortal body at the minor success stage can withstand the attack of the middle-grade immortal weapon.

This is the most effective way for the Golden Immortal cultivator to save his life.

Not only that.

When the immortal body is cultivated to the minor success stage.

His physical strength has also been greatly improved.

If combined with the law of power, the power that bursts out will be even more terrifying.

Zhang Yuhe believes.

Section 224

Now he can hit even Taiyi Immortal Lord to death with one stick.

Of course.

That also needs to be possible to photograph.

Every Taiyi Immortal Lord is an old monster who has been practicing for countless years.

The number of means is far beyond ordinary people's imagination.

I won't stand there stupidly and let him take pictures.

I want to imprison a Taiyi Immortal Lord and then beat him to death.

It's not that easy.

Despite this, Zhang Yuhe was still extremely happy.

Taiyi Xianjun is not easy to kill.

But it would be much easier to kill the Chaos Beast.

The Chaos Beast is huge and can be shot accurately.

Think of this.

Zhang Yuhe couldn't help but look forward to it.

He really wanted to run to Chaos Continent immediately and find a Chaos Beast to test his current strength.

"Don't worry, there will always be a chance."

Zhang Yuhe stood up, opened the door of the cave and walked outside.

He calmed down his breath and walked on the bustling streets of Tiangongfang City.

Previously, a piece of Nine Flame Star Crystal was seized from Li Jiuyue.

Zhang Yuhe wanted to ask around in Fangshi.

See if you can buy the refining blueprint for the mid-grade immortal-killing cannon.

As long as he has the blueprint, he can refine the middle-grade immortal-killing cannon.

However, the result left him greatly disappointed.

Zhang Yuhe asked all the major commercial buildings in Fang City, but there was no refining blueprint for the medium-grade immortal-killing cannon for sale.

In other words, something like this would never be sold in a commercial building.

According to the managers of those commercial buildings.

Such precious items as the blueprint for refining the mid-grade Immortal-killing Cannon.

Usually it only appears at large auctions or when monks are bartering.

As far as he knows.

There will be a large-scale auction in Qixing Building in Tiangongfang City recently.

But he didn't receive the invitation, so he couldn't go if he wanted to.

The Seven Star Tower spans countless immortal realms.

It is rumored that Daozu is in charge, which is not comparable to ordinary chambers of commerce.

They also have a branch in the Tiangong Sea Area.

Whenever a beast tide breaks out, the Seven Star Tower will hold an auction, attracting a large number of monks to participate.

But if you want to participate in the Qixing Tower auction, you must first get their invitation.

While he was struggling, his expression suddenly changed.

An immortal mirror appeared in his hand.

After playing a spell, Zhang Yuhe couldn't help but be overjoyed when he saw the content of the message above.

"Haha, I really can come up with whatever I want."

Yu Liwei sent a message just now.

It is said that in three days, Qixing Building will hold a large-scale auction.

Ask him if he wants to tag along.

After Zhang Yuhe replied to the message, he put away the Immortal Mirror.

As the leader of the Nine Immortals Sect, Yu Liwei is also a veteran Golden Immortal monk.

The facade is much broader than his.

It is normal for her to receive an invitation from Qixing Tower.

Three days later.

The two of them came to Qixing Tower together.

After showing their invitations, a large number of monks slowly entered the building through the gate.

Zhang Yuhe looked around.

I have only seen most of the monks who came here have Golden Immortal cultivation, and there are also True Immortal monks.

But the quantity is very rare.

Seeing such a situation, he couldn't help but sigh.

The Tiangong sea area is indeed a large sea area, far from being comparable to the Ji'an sea area.

It was just an auction, but so many Golden Immortal monks appeared.

Yu Liwei showed the invitation, and the two slowly walked into the building.

Under the guidance of the deacon disciples of the Seven Star Building, they quickly arrived at the box in the building.

To ensure the confidentiality of auction participants.

The Seven Star Building divided the entire auction into countless small boxes.

In the box, everyone can clearly see the situation on the auction stage.

But he couldn't observe the situation in other boxes.

Except for the organizer Qixing Tower.

No one will know who ultimately took away the items.

After the two of them sat down in the box.

Yu Liwei explained to him.

"The Seven Star Tower has a long history, even earlier than the history of the South China Sea Immortal Domain."

"Here we only rely on financial resources, not background strength."

"When you see something you need, just take a photo without worrying about being watched."

"Qixing Tower has an excellent reputation. I have never heard of any accidents."

Zhang Yuhe nodded.

He just likes this kind of trading.

There are too many things among monks, and fists and backgrounds have to do the talking.

People like them who have no background.

There are many times when things are not convenient.

After a while.

A white-haired old man slowly landed on the auction stage.

"Welcome everyone to participate in this auction, I am Liu Yichang of Qixinglou."

"This auction has a total of 390 items, including three grand finale items. I believe everyone will not be disappointed."

"Without further ado, the auction will officially begin."

Liu Yichang took out a golden fairy sword and spoke slowly.

"The first auction item, a medium-grade immortal weapon, the Golden Scale Sword, has a starting price of five million immortal spirit stones, and each increase in price shall not be less than one million immortal spirit stones."

Seeing this situation, Zhang Yuhe was slightly surprised.

The auction at Qixing Tower was indeed high-end.

The first item is the middle-grade immortal weapon, and the final treasure behind it.

Wouldn't there be a high-grade immortal weapon?

This can't be done, right?

He has no shortage of middle-grade immortal weapons.

The last time he killed Li Jiuyue and others, he harvested eighteen middle-grade immortal weapons.

Zhang Yuhe was not interested in the Golden Scale Sword, but other cultivators were very enthusiastic.

The auction price rose rapidly.

"Five million."

"Six million."

"Eight million."

As soon as Liu Yichang finished speaking, the auction price of the Golden Scale Sword quickly rushed to 20 million fairy stones.

For a mid-grade fairy weapon.

Such a price is not low.

Despite this, it still couldn't stop the enthusiasm of the cultivators on the scene.

There is no way, not every Golden Immortal cultivator is like him.

Not only can he refine a mid-grade fairy weapon by himself.

Section 225

And there are still a lot of stocks on hand.

Some Golden Immortal cultivators don't even have a mid-grade immortal weapon.

Now you only need to spend immortal spirit stones to bid for a mid-grade immortal weapon.

Such an opportunity, everyone will naturally not miss it.

In the end, this golden scale sword was sold for 28 million immortal spirit stones.

"There are so many rich people."

Zhang Yuhe sighed silently.

...

Chapter 198 Drawings in Hand

Time passed slowly.

As the auction items appeared one by one, Zhang Yuhe was amazed.

Various types of immortal weapons, talismans, immortal pills and array plates, etc.

Among them, immortal-grade skills and magical powers have appeared many times in succession.

As for various spiritual medicines, spiritual fruits, and immortal-grade ores, they appear more frequently.

Even in the auction, a sacred earth spirit fruit appeared.

In the end, it was auctioned off by a true immortal cultivator for 200 million immortal spirit stones.

The cultivation environment in the sea area is indeed not comparable to that of a small place.

True immortals in the Ji'an Sea want to find a sacred fruit of the Earth Spirit.

It is harder than ascending to heaven.

However, in the Tiangong Sea, as long as there is a fairy stone, it can be bought.

Although the price is indeed a bit expensive.

But at least there is a way to find it.

One item after another was auctioned off.

However, Zhang Yuhe was not interested in these things, so he did not make any moves.

Instead, Yu Liwei next to him took some Chaos Beast Crystal Cores.

Her five mid-grade Immortal-Destroying Cannons.

Every time they fired, they needed to consume the Chaos Beast Crystal Cores of the Golden Immortal Realm.

They were definitely the five great gold-devouring beasts.

However, no one would dislike such gold-devouring beasts.

Zhang Yuhe sat next to them, holding up a teacup and drinking tea quietly.

The refining drawings of the mid-grade Immortal-Destroying Cannons have never appeared.

The Seven Stars Tower did not reveal what items would be in this auction.

Before the items were put on the auction table, no one knew anything.

But he was not in a hurry.

It would be best if there were drawings.

If not, it would be fine.

I'll find a chance later and go to other places to get it.

Time passed slowly.

When the 387th item was sold.

Liu Yichang on the auction stage shouted to everyone.

"The auction of the last three items will be held. I know many Taoist friends have been waiting for so long, just for these three items."

"I believe you won't be disappointed."

"Let's not waste time, and now auction the first item, a mid-grade Immortal-Destroying Cannon."

"I believe everyone knows the power of the mid-grade Immortal-Destroying Cannon."

"It can easily kill a Golden Immortal cultivator, even a Chaos Beast in the Golden Immortal Realm."

"It can't withstand a few attacks from the mid-grade Immortal-Destroying Cannon."

"The starting price of the mid-grade Immortal-Destroying Cannon is 500 million Immortal Spirit Stones, and each bid is no less than 100 million Immortal Spirit Stones."

"500 million."

"600 million."

"800 million."

"1 billion."

As soon as Liu Yichang finished speaking, the price of this mid-grade Immortal-Destroying Cannon quickly rushed to 1 billion.

Zhang Yuhe was speechless.

Is this thing so valuable?

But it is normal.

For ordinary forces.

As long as there is a middle-grade Immortal-Exterminating Cannon, it can be regarded as the foundation of the sect.

At the beginning, Daosheng Sect relied on three middle-grade Immortal-Exterminating Cannons to block the attacks of the two major families.

Such a powerful weapon.

As long as it can be bought with fairy stones, it is not expensive.

Watching the price continue to rise.

Zhang Yuhe subconsciously glanced at Yu Liwei next to him.

Yu Liwei is carrying five middle-grade Immortal-Exterminating Cannons. She is definitely a super rich woman.

But she is really brave.

She actually walked around with five middle-grade Immortal-Exterminating Cannons.

She is not afraid of being robbed.

But then again.

Unless Taiyi Immortal Lord takes action.

Otherwise, who can withstand the bombardment of five middle-grade Immortal-Exterminating Cannons?

Yu Liwei is really not afraid of normal Golden Immortal cultivators.

Can't she run away if she can't beat her?

With the threat of the middle-grade Immortal-Destroying Cannon, others simply cannot get close.

After a fierce competition, this middle-grade Immortal-Destroying Cannon was finally sold at the price of 68 Immortal Spirit Stones.

Seeing this situation, Zhang Yuhe was completely stunned.

At the beginning, he searched the Ouyang family, but only found 5 billion Immortal Spirit Stones.

In other words.

A force like the Ouyang family.

Even if you spend all your money, you can't afford a middle-grade Immortal-Destroying Cannon.

After the first finale item was auctioned, Liu Yichang took out a jade slip and shouted to everyone.

"Now auction the second finale item, the middle-grade Immortal-Destroying Cannon refining drawings."

"Without saying too much, the starting price is 500 million Immortal Spirit Stones, and each increase in price is not less than 100 million."

"500 million."

"600 million."

"700 million."

Compared with the previous middle-grade Immortal-Destroying Cannon, the competition for the drawings is obviously much less intense.

There is no way.

The finished middle-grade Immortal-Destroying Cannon can be used as soon as it is taken.

But the drawings are not.

The difficulty of refining the Immortal-Destroying Cannon is extremely high, and its core material is extremely precious.

Even if ordinary cultivators get the blueprint, they can only trade it out in the end.

It is completely useless for them to hold it in their hands.

As the price slowly climbed, Zhang Yuhe made a decisive move.

"One billion."

"This fellow Taoist bids one billion immortal spirit stones. Is there any other fellow daoist who wants to increase the price?"

Seeing the price of the drawings, there was a moment of silence.

Liu Yichang kept shouting at everyone.

After a while, someone finally quoted the price for the other boxes.

"One billion."

"Five billion."

Section 226

Zhang Yuhe raised the price without hesitation.

He was determined to get this mid-grade immortal-killing cannon refining blueprint.

Anyway, he has no shortage of immortal spirit stones.

Seeing Zhang Yuhe's continuous bidding, Yu Liwei next to her couldn't help but be a little surprised.

But she also knew that Zhang Yuhe was very skilled in weapon refining.

After you get the blueprints, you might actually have a chance to refine a mid-grade immortal-killing cannon.

As long as you can refine a middle-grade immortal-killing cannon, you will make a lot of money.

Therefore, she just watched quietly and did not speak to dissuade him.

"One billion and a half billion times, is there any fellow Taoist who wants to increase the price?"

"Twice a billion and a half."

When Zhang Yuhe added the price to 1.5 billion immortal spirit stones.

The scene was dull, and no other monks followed suit to increase their prices.

After Liu Yichang asked everyone many times, he had no choice but to bang the hammer.

"For the third time, 1.5 billion, congratulations to this fellow Taoist for successfully acquiring the blueprint for refining the mid-grade immortal-killing cannon."

"I hope that in the near future, fellow Taoists will be able to refine the mid-grade immortal-killing cannon to enhance the monks' power against chaotic beasts."

After a while.

A girl in green clothes walked into the box holding a jade slip.

After Zhang Yuhe confirmed that the contents of the jade slip were correct, he paid the fairy spirit stone in full.

He got what he needed, but he wasn't too interested in the final item.

He just wanted to go back as soon as possible and quickly refine the middle-grade immortal-killing cannon.

He has Nine Flame Star Crystals, and other materials are easy to collect.

You can buy it in Tiangongfang City.

at this time.

Liu Yichang on the auction stage picked up a jade slip again and shouted to everyone.

"The last item in this auction, the secret of Qingyun's orifices, can open up to seven orifices."

As soon as Liu Yichang finished speaking, the scene instantly became a sensation.

In the immortal world, every Nascent Soul opening technique is extremely precious.

The secrets of more than seven orifices are rarely spread outside.

The six orifices correspond to the golden immortal monks.

The secret to opening the seven orifices also means.

Even if it reaches Taiyi Immortal, it can still be used.

Such secrets of enlightenment are rare even in the Tiangong sea area.

...

The world-weary 3junyang⑦1 ④4. eight (六)⑦ seventy

Chapter 199 Don't drift away

I saw at this auction that a secret that can open up all seven orifices actually appeared.

There was a commotion at the scene.

After a long time, it slowly became quiet.

Regardless of this secret, what kind of rare items are needed to open the acupoints.

But for everyone, this is not the most important thing.

The most important thing is to get this secret of enlightenment.

One more high-level secret to enlightenment means one more choice.

No one would dislike this kind of thing.

Many golden immortal monks are almost driven crazy in order to open the sixth orifice.

Not only are enlightenment resources rare and hard to find, but they often fail.

Everyone is thinking, if there is another secret to enlightenment.

Wouldn't it be better?

After the scene calmed down, Liu Yichang shouted loudly to everyone.

"After our testing, this secret to opening up the body has been confirmed to be complete and effective."

"If someone finds something wrong after taking pictures, they can contact Qixinglou at any time."

"The secret to Qingyun's awakening, the starting price is 10 billion immortal spirit stones, and each increase in price is no less than 1 billion."

"Ten billion."

"Twenty billion."

"Thirty billion."

Seeing the prices rising, Zhang Yuhe was completely numb.

Originally he thought.

No matter what he does, he can be considered a rich man.

After all, he copied the Ouyang family's home.

Moreover, they also killed Li Jiuyue and other fugitive criminals.

These two moves really made him extremely rich.

But when he saw the auction price of this secret of Qingyun's enlightenment.

Only then did he realize that he was really a poor man.

This is just the secret to opening the seven orifices, and it makes people so crazy.

The value of those secrets that can open eight or even nine orifices is simply unimaginable.

The Hunyuan Heavenly Scripture has its own secret of opening the orifice, which can open the tenth orifice.

If anyone knew.

I'm afraid Dao Ancestor will take action.

Think of this.

Zhang Yuhe decided secretly.

No one must know about this.

The price of Qingyun's secret to resuscitation is still rising.

It wasn't until the price climbed to 100 billion that it began to slow down.

However, there are still several monks who are fighting fiercely.

In the end, this secret of enlightenment was auctioned off by a golden immortal monk for a price of 230 billion immortal spiritual stones.

Since the box was protected by a formation, no one knew who that person was.

But it depends on Zhang Yuhe's thinking.

The person who took away the secret of Qingyun's awakening, even if he is not from the Nangong Immortal Clan, is still a powerful force with comparable strength.

the reason is simple.

More than 200 billion fairy spirit stones are indeed a bit exaggerated. It is not something that ordinary people can get.

Only those big forces, after countless years of accumulation, can obtain so many immortal spirit stones.

Zhang Yuhe believes it.

There must be better secrets in the hands of these powerful forces.

But it still doesn't hinder people from collecting.

No force can have too much of the secret of enlightenment.

Because every additional door gives the disciples one more choice.

And when collecting enlightenment resources, there are more choices.

The aftermath of the auction spread rapidly in the Tiangong Sea.

However, none of this had anything to do with Zhang Yuhe.

After the auction ended.

He bought a large amount of various materials in the market, and then returned to the house.

...

Two years later.

A huge flying boat was suspended above the house.

In front of the flying boat, eight thick gun barrels stood.

Five low-grade immortal-destroying cannons, plus three medium-grade immortal-destroying cannons.

Zhang Yuhe stood on the top of the flying boat, looking at the immortal-destroying cannons in front of him, and nodded with satisfaction.

He thought.

With such a configuration, facing an ordinary Golden Immortal Realm Chaos Beast.

It should be able to be killed with a round of artillery fire.

Section 227

After collecting all the materials, he began to refine the middle-grade immortal-killing cannon.

But this thing is indeed a bit complicated.

It took Zhang Yuhe almost two years to refine three middle-grade immortal-killing cannons.

All of them were successful at once, without any failure.

...

Zhang Yuhe put away the flying boat and continued to return to the cave to comprehend the law of power.

After this period of practice, the law tree of the law of power has almost grown to four inches high.

Although there is still a long way to go before the realm of small success.

But after all, it is still making progress, which is already very good.

Half a year later.

The Nangong Immortal Clan finally issued an assembly order.

All the summoned monks gathered at the transmission hall of Tiangong Market.

After Zhang Yuhe packed up, he soon came to the outside of the house.

I saw that the others had already arrived.

Yu Liwei waved and said.

"Let's go."

Everyone boarded the flying boat and flew quickly towards the transmission hall.

Maybe it was the difference in rules.

It is not so easy to set up a teleportation array in the fairyland.

When he was in Yufantian, Zhang Yuhe could easily set up a temporary teleportation array.

But it is not possible in the fairyland.

The space in the fairyland is more stable.

According to the general idea, setting up a teleportation array cannot break the space barrier.

In the fairyland, only fairy array masters above the third level can set up a teleportation array.

The third-level fairy array master corresponds to Taiyi Xianjun.

As for those ultra-long teleportation arrays across the fairyland, only the fourth-level fairy array master can set them up.

There are only a few Daluo fairy kings in the entire South China Sea fairyland.

It is difficult to say whether there are fourth-level fairy array masters among them.

The preciousness of the fairyland teleportation array can be seen from this.

Only those big forces with Taiyi Xianjun in charge can build a teleportation array.

Like their Ji'an Sea Area.

For countless years, various forces have risen alternately, but no one has ever built a teleportation array.

If they want to go to other seas, they can only fly on a flying boat.

The crowd quickly passed through the market and soon arrived at the teleportation hall.

Zhang Yuhe looked up.

He saw a huge array platform standing in the center of the hall.

On the array platform were flashing various mysterious runes.

He carefully observed for a long time, but couldn't figure it out.

He hadn't reached that realm yet, even if he had a supernatural comprehension.

He still couldn't understand this array arranged by a third-level immortal array master.

Under the guidance of the Nangong Immortal Clan disciples, they stood aside and waited quietly.

From time to time, cultivators entered the hall from outside.

Everyone gathered in groups of three or five, discussing something in a low voice.

After a while.

When the people were basically all there.

Zhang Yuhe took a rough look.

He saw that there were nearly 500 Golden Immortal cultivators on the scene.

As for the True Immortal disciples, there were nearly 10,000.

Among them, almost half were Nangong Immortal Clan disciples wearing blue robes.

Others are like them, subordinate forces of the Nangong Immortal Clan.

Seeing so many people at the scene, Zhang Yuhe couldn't help but feel a little confused.

Is the Chaos Beast so fierce?

With such a powerful strength, the cultivators can only defend the Immortal City and get beaten every time?

This is just the Nangong Immortal Clan, which has such strong strength.

You know.

There are at least dozens of big forces like the Nangong Immortal Clan in the entire South China Sea Immortal Domain.

In addition, there are three super forces, each with a Daluo Immortal King in charge.

With such strong strength, every time the beast tide comes.

They can only get beaten?

Those big forces have never thought about pushing the Chaos Beast back.

This also reflects from the side how terrible the strength of the Chaos Beast is.

Thinking of this, Zhang Yuhe secretly warned himself.

Don't be arrogant.

If you are beaten to death by the Chaos Beast, it will be nonsense.

...

Chapter 200 We must build our own fairy city

Tens of thousands of cultivators were divided into small teams and stood in order in various places in the hall.

At this time, a stream of light passed from a distance.

A huge warship, emitting a terrifying pressure, flew towards this side quickly.

"Fairy ship!"

Looking at the fast-flying warship, everyone couldn't help but exclaimed in unison.

Looking at the warship in the distance, Zhang Yuhe's face couldn't help but show envy.

"This is the fairy ship."

Before this, he had only heard of the name of the fairy ship and had never seen the real thing.

If the flying boat is a means of transportation for cultivators.

Then the fairy ship is a tool for cultivators to fight.

Although the flying boat also has a powerful attack capability after the fairy-killing cannon is installed.

But compared with the fairy ship, it is really a bit too LO.

The fairy ship itself is a powerful weapon.

Even if the fairy-killing cannon is not installed, the powerful body of the fairy ship can kill the chaos beast in the golden fairyland.

The flying boat is extremely fragile.

The casual attack of the cultivator can smash the flying boat to pieces.

In terms of weapons, each immortal ship is extremely powerful.

The ordinary middle-grade immortal-killing cannon is not qualified to be placed on the immortal ship.

The top-grade immortal-killing cannon is the standard configuration of the immortal ship.

It's a pity that although the immortal ship is powerful, not everyone can own it.

Even the most common immortal warship needs a third-level immortal weapon master to refine it.

And one or two immortal weapon masters are not enough.

It takes a large number of immortal weapon masters to work together to complete the refining of an immortal warship.

As for refining immortal warships, the materials and various configurations required are not something that ordinary people can afford.

For ordinary cultivators, this kind of thing is destined to be just a look.

As far as he knows.

The entire Nangong Immortal Clan only has this immortal warship.

Whenever a beast tide breaks out, they will send out the immortal warship to support the Chaos Continent.

The immortal warship is the most powerful weapon of the Nangong Immortal Clan.

It is precisely because of the existence of the immortal warship that they can still stand firm in the beast tides again and again.

When the immortal warship approaches.

Everyone can finally see its full appearance.

Zhang Yuhe looked up.

Section 228

I saw three thick gun barrels sticking out from the front of the fairy ship.

These are three top-grade immortal-killing cannons.

As long as they are locked by these immortal cannons.

Even Immortal Lord Taiyi is subject to death but not life.

The fairy ship was like a mighty giant beast, floating quietly above the hall.

The scene was silent.

Nangong Tianming appeared from the immortal ship with a group of core disciples.

The pressure of Taiyi Immortal Lord instantly enveloped the entire place.

He glanced at everyone, and then said calmly.

"Set off."

"Yes, ancestor."

Nangong Youxi flew out of the immortal ship.

I saw her quickly pinching the magic formula.

The teleportation array in the center of the hall instantly burst into dazzling light.

Covering everyone present.

As the light dissipated, the entire teleportation hall became empty.

Chaos Continent Yingyue City.

Zhang Yuhe and others walked out of the teleportation hall.

Nangong Youxi smiled and said to everyone.

"Everyone has just arrived in Chaos Continent. Let's settle down for now and formally arrange the mission tomorrow."

"OK."

Everyone bowed their hands to Nangong Youxi and then left one after another.

Walking on the streets of the city.

Zhang Yuhe couldn't help but feel a little novel.

This is his first time coming to Chaos Continent.

It is different from the cities in the South China Sea Immortal Realm.

Yingyue City is only a few thousand miles in radius, so it is not too big, but there are a lot of monks.

In addition to a small number of Golden Immortal monks, there are also hundreds of True Immortal disciples.

There are still a large number of people below true immortals in the city.

The monks established fairy cities in the Chaos Continent and slowly flourished.

As time goes by, the population in the city will naturally increase.

Yingyue City is still just an acropolis, and it didn't take too long to build.

Like the Tiangong City they passed through before, the population was very dense.

Not inferior to those in the South China Sea Immortal Realm or those rear cities.

The fairy city established by the monks in the Chaos Continent.

Normally it is divided into four levels.

The lowest level is like Yingyue City, which is called Acropolis.

In a monarch-level immortal city, there must be Immortal Lord Taiyi sitting in charge.

In the king-level immortal city, there is the Great Luo Immortal King sitting in charge.

The top fairy city, with the powerful Tao Ancestor sitting in charge, is called the Celestial City.

The Nangong Immortal Clan has a monarch-level immortal city and dozens of acropolis in Chaos Continent.

It is with the support of these fairy cities that they can continue to collect resources.

Only the entire power of the Immortal Clan can endure for a long time.

The fairy city in Chaos Continent is not just a city.

A monk would not build a fairy city for no reason.

Every fairy city is a resource point.

Where there are no resources, those big forces have no interest in building fairy cities.

Just like under this Yingyue City, there is a vein of Yingyue Immortal Crystal.

The veins stretch for thousands of miles.

If developed in an orderly manner, mining can continue for millions of years.

Yingyue Immortal Crystal is a second-level immortal material and the core material for refining middle-grade yin-attributed immortal weapons.

The purpose of the Nangong Immortal Clan establishing the Immortal City here is to mine these Yingyue Immortal Crystals.

Other fairy cities are similar.

Within the city, there are various fairy mines, or they can produce special fairy items.

As for Tiangongjun City, I heard that there is a third-grade immortal mine.

The Nangong Immortal Clan relies on it to develop the fairy minerals and spiritual objects in these cities.

Only then can we develop steadily.

Zhang Yuhe walked on the street, looking at the fairy city in front of him, his thoughts drifting away.

"It would be great if Dao Sheng Sect could build another fairy city."

Back then, Lu Yunfei had built an acropolis attached to the Nangong Immortal Clan.

However, there were no mineral veins under the fairy city back then.

Instead, there is a special spiritual land where a certain kind of precious second-level fairy fruit can be grown.

It is because of that fairy city that it exists.

At that time, Dao Sheng Sect was able to continuously give birth to more than a dozen Golden Immortal monks.

It's just that after the fairy city was attacked by the Chaos Beast, that special spiritual place was also destroyed by the Chaos Beast.

Special spiritual fruits can no longer be planted.

So, after Lu Yunfei disappeared.

The Nangong Immortal Clan did not and continued to build the Immortal City on the same spot.

That place is now considered deserted.

A group of people from Ji'an Haiyu walked quietly on the streets.

Long Xingxiu said with emotion.

"It would be great if we also had a fairy city."

Yu Liwei, who was next to her, responded lightly.

"It's not difficult to build a fairy city, the key is to defend it."

"With our current strength, establishing a fairy city is courting death, and we simply cannot defend it."

"As long as there is a wave of beasts, the city will definitely be attacked by the chaos beasts."

Hearing this, everyone was speechless.

They naturally know the reason.

Just thinking about the remote location of Ji'an sea area, there is no high-level resource output at all.

If they want to go further, they can only develop in Chaos Continent.

But if you don't have your own fairy city.

Working in other people's fairy cities is nothing more than drinking soup.

Zhang Yuhe looked up at the sky and said lightly.

"Don't worry, there will be a day when we will be able to build our own fairy city in the Chaos Continent."

Hearing this, everyone's eyes lit up.

If someone else had said this, everyone would just think he was bragging.

But Zhang Yuhe is different.

As the supreme genius.

Zhang Yuhe is not only powerful, but also has unlimited potential.

Maybe I can really lead them to build their own fairy city in Ji'an Sea in Chaos Continent.

...

Chapter 201 The First Kill of Chaos Beast

Early the next morning, Zhang Yuhe and others came to the wall of Yingyue City.

In addition to them, there are seven Golden Immortals from Ji'an Sea.

The Nangong Immortal Clan has three other Golden Immortal cultivators in Yingyue City.

Including Nangong Youxi who is in charge of the leadership, there are a total of eleven Golden Immortal cultivators.

There are also more than 500 True Immortal disciples.

This is all their current strength to guard Yingyue City.

As for the cultivators below the True Immortal in the city, they can only do some auxiliary work.

Section 229

Whether it is to defend the city walls or go out to clean up the Chaos Beasts.

Those cultivators below the True Immortal level are completely unqualified.

Chaos Beasts are extremely powerful.

Even the weakest one-star Chaos Beast is equivalent to the early True Immortal level.

As for the real strength, it is several streets ahead of ordinary True Immortal cultivators.

Under normal circumstances, True Immortal cultivators need the cooperation of many people to deal with Chaos Beasts.

True Immortal cultivators who act alone either have cultivated an immortal body and have a certain ability to protect themselves.

Or they are looking for death.

Even True Immortal cultivators cannot ensure their own safety in front of Chaos Beasts.

Those cultivators below the True Immortal level are not even qualified to be cannon fodder.

When the beast tide really comes.

These cultivators below the True Immortal level will soon be evacuated to Tiangong City through the teleportation array.

Zhang Yuhe stood on the city wall and looked around.

I saw twelve inferior Immortal-killing cannons, with their barrels extended, pointing directly outside the city.

The Nangong Immortal Clan did not deploy mid-grade immortal-killing cannons in Yingyue City.

This is naturally not because the Nangong Immortal Clan cannot produce mid-grade immortal-killing cannons.

In fact.

The Nangong Immortal Clan has at least hundreds of mid-grade immortal-killing cannons.

It's just that they deployed all of these mid-grade immortal-killing cannons in Tiangong City.

Fortresses like Yingyue City, none of them were deployed.

In the eyes of the Nangong Immortal Clan.

When encountering a crisis, all the acropolises can be abandoned.

Only Tiangong City must be defended.

As a monarch-level city, Tiangong City is too important.

There is a third-grade immortal-level mineral vein there.

This mineral vein is the most important resource of the Nangong Immortal Clan in the Chaos Continent.

So whenever the beast tide comes.

The Nangong Immortal Clan will concentrate all the most elite forces in Tiangong City.

As for the outer acropolises, most of them are guarded by subordinate forces who have applied for it.

This is the case with Yingyue City.

There are more outsiders like Zhang Yuhe than the Nangong Immortal Clan.

A group of people stood on the city wall, discussing something in a low voice from time to time?

Zhuo Zhiming said with some expectation.

"Didn't they say there was a beast tide? Why can't we even see a Chaos Beast?"

"I really want to find a Chaos Beast to hone my magical powers."

Hearing this, Long Xingxiu curled his lips and responded.

"It's not easy to find a Chaos Beast."

"As long as you walk thousands of miles away from the city, you will definitely encounter a Chaos Beast."

Zhuo Xingxiu didn't know how to respond to Long Xingxiu's words.

There must be Chaos Beasts far away from the city.

But how could he dare to go so far.

What if he accidentally broke into the Chaos Beast tribe, wouldn't that be nonsense?

They rely on the city, and everyone can support each other.

And as long as the teleportation array is not destroyed.

There is still a way to retreat.

But in the wild, it is not so convenient.

The wilderness of the Chaos Continent has always been the world of Chaos Beasts.

Unless some superpowers take the lead and mobilize the cultivators to sweep the Chaos Beasts together.

Otherwise.

Ordinary Golden Immortal cultivators don't have the courage to leave the city and act alone.

Nangong Youxi glanced at everyone and spoke slowly.

"According to the intelligence we have obtained, several nearby small Chaos Beast tribes have some signs of stirring up trouble."

"According to past practice, once a similar situation occurs."

"In the next three to five hundred years, a beast tide will break out."

"As for the scale of the beast tide, no one can tell how big it will be."

"In order to minimize the impact of the future beast tide on the city."

"We need to clear the scattered Chaos Beasts nearby in advance."

"Let me assign the tasks now."

"True Immortal disciples stay in the city."

"From tomorrow, fellow Taoists, two people will clean up the Chaos Beasts within a radius of tens of millions of miles."

"If you find a large group of Chaos Beasts, remember to give a warning in time."

"Understood."

Everyone nodded in response.

Except Zhang Yuhe, it was his first time to come to the Chaos Continent.

The others were old birds.

They already knew the routines for dealing with the beast tide.

Before the beast tide came.

Clearing the periphery in advance was just a routine operation.

After discussing some more details about the specific tasks, they dispersed.

The next day.

Several streams of light flew out of Yingyue City.

Zhang Yuhe and Yu Liwei stood on the flying boat and flew quickly to the southeast.

According to the information provided by Nangong Youxi.

There is a Chaos Beast Tribe of considerable size in the southeast of Yingyue City.

There were cultivators who found six-star Chaos Beasts in this tribe.

As for the four-star and five-star Chaos Beasts, there are at least ten or more.

A Chaos Beast Tribe of this size is a considerable threat to Yingyue City.

That is why Nangong Youxi assigned Zhang Yuhe and Yu Liwei to the same group.

If they encounter a large group of Chaos Beasts, they should be able to protect themselves and get away with their strength.

Their goal is not to clear this small Chaos Beast Tribe.

But to get as close to the edge of the tribe as possible and clear out the Chaos Beasts on the periphery.

In Nangong Youxi's opinion.

They want to clear out a tribe with more than ten Golden Immortal Chaos Beasts.

It is obviously impossible to do this relying solely on the power of Yingyue City.

She was just thinking.

Before the beast tide comes, just weaken the strength of the Chaos Beast.

After flying for half a day.

Zhang Yuhe suddenly stopped.

Yu Liwei asked in surprise.

"But did you find anything unusual?"

She just opened her consciousness to scan the surroundings and didn't find anything wrong.

But she knew that Zhang Yuhe would not stop for no reason.

He must have found something.

It's just that she didn't see it.

Despite this, Yu Liwei didn't urge him.

Instead, she looked around vigilantly.

Being cautious is the first rule for cultivators to save their lives in the Chaos Continent.

Zhang Yuhe didn't respond to Yu Liwei.

He just stretched out his right hand.

The Nine Heavens Flying Spirit Stick fell into his hand.

Section 230

He soared into the air, wielding the Nine Heavens Flying Spirit Stick, and quickly rushed towards a valley hundreds of miles away.

A lizard-type chaos beast was cautiously emerging from the valley, revealing half of its head to look outside.

At this moment.

A golden stick shadow rushed straight towards the valley.

"Roar..."

The lizard-type chaos beast realized something was wrong, and it let out a thunderous roar.

It quickly ran out of the valley.

However, it had just taken two steps.

It was covered by the stick shadows.

Boom...

Zhang Yuhe used all his strength to activate the law of power, and the Nine Heavens Flying Spirit Stick was like a force of ten thousand kilograms.

It hit the huge body of the chaos beast directly.

The lizard-type chaos beast was hit by this stick and kept flying back.

One towering mountain after another was crushed by the huge body of the chaos beast.

Zhang Yuhe quickly caught up.

While the chaos beast had not yet recovered, another stick fell.

Two consecutive sticks fell.

The Chaos Beast finally stopped moving.

The first kill.

...

Chapter 202 Liuyuan Tribe

Yu Liwei flew over quickly from behind.

She was shocked when she saw the Chaos Beast lying on the ground.

Although the Chaos Beast was dead, the terrifying aura was still there.

Judging from the aura, this was a five-star Chaos Beast.

In just a blink of an eye, Zhang Yuhe killed a five-star Chaos Beast with two sticks.

Such strength is really terrifying.

However, thinking of the supreme law that Zhang Yuhe had comprehended, she was relieved.

Every supreme genius cannot be viewed with common sense.

Normal cultivators cannot deal with Chaos Beasts of the same level at all.

But the supreme genius can challenge Chaos Beasts by leaping levels.

The gap between them is simply unimaginable.

After Zhang Yuhe waved his hand to put away the body of the Chaos Beast, he asked with some doubts.

"How could a five-star Chaos Beast appear here?"

Although.

It's not strange for Chaos Beasts to appear in the wilderness.

But this place is not far from Yingyue City.

It's still reasonable for an ordinary one-star Chaos Beast to appear.

It's too abnormal for a five-star Chaos Beast to appear.

Is the beast tide about to break out?

The lizard-shaped Chaos Beast just now was the vanguard of the beast tide?

Thinking of this.

Zhang Yuhe couldn't help but feel nervous.

Don't run into the army of Chaos Beasts.

Otherwise.

Even if he is strong, it's probably not easy to get away.

Hearing this, Yu Liwei next to him slowly spoke.

"There's nothing strange about it. Chaos Beasts are not a mess."

"They also have a strict organizational system."

"The Chaos Beast just now is probably a scout of a certain tribe."

After a pause, she continued.

"But we do need to be careful."

"A tribe that can send out five-star chaos beasts to act as forward scouts must be extraordinary."

"This means that there may be seven-star chaos beasts in this tribe."

"Even if there are no seven-star chaos beasts, there are at least mutated six-star chaos beasts."

Hearing this, Zhang Yuhe nodded.

He agreed with Yu Liwei's explanation.

If this is true, then they do need to be careful.

There is no need to talk about the seven-star chaos beast.

He would definitely not be able to beat it before the Hunyuan Guiyi magical power is activated.

Even if it is a mutated six-star chaos beast, it is not easy to deal with.

But there is a certain risk for them to go out of the city to clean up the chaos beasts.

Zhang Yuhe thought.

As long as they are careful, there should be no problem.

Thinking of this.

He said to Yu Liwei.

"Let's go to the vicinity of Liuyuan tribe first, and after cleaning up the chaos beasts outside, return to Yingyue City as soon as possible."

Liuyuan tribe is located in the southeast of Yingyue City.

It is the main target of their investigation this time.

If possible, they should try to weaken the strength of this tribe.

Otherwise.

Wait until the beast tide comes.

The chaos beasts of various tribes gather together, which will be more difficult to deal with.

Yu Liwei nodded.

Nangong Youxi arranged them in this direction.

Naturally, he hoped that they could do something.

Whether it was to find out the details of the chaos beast tribe or to weaken the strength of the chaos beast.

This was their mission.

Zhang Yuhe waved his hand and wiped out the traces of the battle nearby, and then continued to fly forward.

Because they had just encountered the chaos beast, they became more cautious.

The two of them carefully shuttled through the wilderness.

Occasionally encountering a solitary chaos beast on the road, Zhang Yuhe would take action to deal with it.

However, except for the lizard monster before, they basically encountered one-star chaos beasts.

For such a weak chicken.

Zhang Yuhe can easily kill it with a slap.

...

Thousands of miles away from them.

A tall humanoid Chaos Beast suddenly frowned.

He muttered to himself.

"Is Xijiu dead?"

As early as three hundred years ago.

Niulanshan issued an order to prepare them to launch a large-scale attack on the city of the monks.

Niulanshan is the most powerful Chaos Beast tribe within a radius of hundreds of millions of miles.

There are many king beasts.

They have long been accustomed to such orders and are happy to accept them.

It is almost a traditional ritual for Chaos Beasts to launch a siege every once in a while.

As long as the city is breached, a large number of monks can be captured.

If a large number of high-level monks can be captured and sacrificed to the Supreme True God.

Perhaps he can go further.
