Section 231

That's why.

He specially arranged a five-star Chaos Beast to investigate the movements of the monks in front.

But he didn't expect it.

The action hasn't started yet, but the Chaos Beast he sent out has died.

Thinking of this.

The humanoid Chaos Beast took out a black bell and shook it twice.

Several Chaos Beasts with strong auras appeared in the valley in an instant.

"I wonder what the Lord Priest has to say?"

The humanoid Chaos Beast is the priest of the Liuyuan tribe, Liu Chang.

Chaos Beasts not only have their own civilization, but also have their own way of cultivation.

Their way of cultivation is to capture monks and use them to sacrifice to the Supreme True God.

So as to achieve the purpose of continuous evolution and mutation.

Every time a Chaos Beast evolves, it will grow one star.

If a mutation occurs during the evolution process, then the strength will be stronger.

And the first step of the Chaos Beast's mutation is to get rid of the beast body and become a human form.

Liu Yi is not only the priest of Liuyuan tribe, but also the first mutated Chaos Beast in the tribe.

This makes other Chaos Beasts in the tribe worship him very much.

Looking at several powerful Chaos Beasts in front of him.

Liuyuan said solemnly.

"Xi Jiu is dead, maybe there are powerful monks active near our tribe."

"Pass the order and let everyone strengthen their vigilance."

"Yes, Lord Priest."

After walking out of the valley, several tall Chaos Beasts let out a series of howls.

The howls came one after another and continued to spread far away.

Chaos Beasts do not have immortal mirrors.

But they have their own unique way of communication.

After a while.

All Chaos Beasts within a radius of millions of miles received the news.

They quickly returned and approached the center of the tribe.

...

Zhang Yuhe and Yu Liwei quickly shuttled through the wilderness all the way.

However, for some reason.

As they went deeper, they found fewer Chaos Beasts.

In the past two days.

They didn't even encounter an ordinary one-star Chaos Beast.

Zhang Yuhe felt something was wrong, and he slowly stopped.

Yu Liwei was stunned and turned to ask him.

"Is there anything unusual?"

Zhang Yuhe shook his head and said.

"No."

"Don't you think it's strange?"

"We haven't encountered Chaos Beasts in the past two days."

"This is too unreasonable."

"Normally, the closer to the center of the tribe, the more Chaos Beasts there should be."

Hearing this, Yu Liwei frowned.

She also felt something was wrong, but she couldn't tell why.

It wasn't until Zhang Yuhe talked about it that she understood.

They didn't encounter Chaos Beasts in the wilderness, and this was the biggest problem.

Thinking of this, she couldn't help but feel nervous.

Could it be that the Chaos Beasts were preparing to do something big?

For example, the Chaos Beasts were concentrating their strength.

Are they preparing to launch a beast tide to attack the city immediately?

Yu Liwei turned to Zhang Yuhe and asked.

"How about we return to Yingyue City first?"

"The situation is unclear now, and it's too dangerous to go deeper."

She thought.

When encountering danger, returning to the city as soon as possible is definitely the most correct choice.

Because the city not only has strong defense.

But there is also a teleportation array.

Once the situation is not right, you can run away immediately.

...

Chapter 203 Treasure Hunt

Hearing Yu Liwei's suggestion, Zhang Yuhe couldn't help but hesitate.

Going back directly is of course a good choice.

No matter what the Chaos Beast is doing.

As long as they return to Yingyue City.

Everyone will stick together in the city, and safety is naturally guaranteed.

Although every time a beast tide breaks out, there will be a fairy city that is breached.

But the fairy city that is breached is only a minority after all.

As long as they are careful.

At least they can evacuate through the teleportation array.

No one will be stupid enough to play tricks with the Chaos Beast and live and die with the city.

But Zhang Yuhe thought.

He couldn't just kill a few monsters and go back.

To be honest, he was very interested in the Chaos Beast Tribe in front of him.

Ordinary people say that the phoenix will not land in a place without treasures.

In fact, the Chaos Beast is the same.

As long as there is a Chaos Beast Tribe, there will generally be some good things.

After leaving the city.

He has been thinking about whether he can find an opportunity to get into the Chaos Beast Tribe.

If he can get something that helps to improve his strength, he will be rich.

According to the information provided by Nangong Youxi.

The Chaos Beast Tribe in front of them is called Liuyuan Tribe.

There are about a dozen Golden Immortal Realm Chaos Beasts.

The highest level among them is a six-star Chaos Beast.

In Zhang Yuhe's opinion.

This Chaos Beast Tribe of strength should not pose much threat to him.

Even if it is a head-on attack.

He can also capture this Chaos Beast Tribe.

More importantly.

There are no other powerful Chaos Beasts within a radius of tens of millions of miles.

In other words, as long as he moves fast enough.

It is entirely possible to get some benefits from the Liuyuan tribe and then go back.

Thinking of this, Zhang Yuhe turned around and said to Yu Liwei.

"Don't rush to go back, I plan to go to Liuyuan tribe to have a look."

"I heard that there are usually some natural treasures in the Chaos Beast Tribe that are beneficial to cultivators."

"I want to go over and look for some good stuff."

Hearing this, Yu Liwei was stunned.

She almost thought she had heard it wrong.

Section 232

Go directly into the Chaos Beast Tribe to find treasures?

In the Chaos Continent, there are many cultivators who have this idea.

But only a few can find treasures and escape successfully.

Chaos Beasts are not easy to mess with.

If they encounter Chaos Beasts outside, they can still run away if they can't beat them.

But once they go deep into the Chaos Beast Tribe.

That's like entering a wolf's den.

Even the smallest tribe has hundreds or thousands of Chaos Beasts.

Once they are surrounded, they can't even run away.

Thinking of this.

She persuaded anxiously.

"You have to think clearly, this is not a joke."

"Once we are discovered, we will face a large number of Chaos Beasts besieging us."

"If we encounter a seven-star Chaos Beast, we will be dead."

Zhang Yuhe thought for a while before speaking slowly.

"It's impossible for a seven-star chaos beast to exist."

"This place is not far from Yingyue City."

"If there is a seven-star chaos beast in the Liuyuan tribe."

"Then Yingyue City is probably no longer in existence."

"As for the chaos beasts below seven stars, there is no need to worry at all."

"With our strength, we can kill them even if there are more of them."

Yu Liwei was silent.

She also felt that what Zhang Yuhe said made sense.

It is indeed impossible for the Liuyuan tribe to have a seven-star chaos beast.

If it is just a chaos beast in the Golden Immortal Realm.

With Zhang Yuhe's powerful strength, he can completely deal with it.

Even if he can't beat it, he still has a chance to kill it.

Besides.

She also brought five mid-grade immortal-killing cannons.

Before this, she also specially collected a large number of chaos beast crystal cores.

Enough to support these immortal-killing cannons for a long time.

In case of emergency.

Just use the mid-grade immortal-killing cannon to blast a bloody path.

The Chaos Beast Tribe must have treasures.

She knew this, of course.

Thinking that she had been in the late stage of the Golden Immortal for millions of years.

Yu Liwei was a little moved.

If she could get some natural treasures in the Liuyuan tribe to improve her cultivation.

Let herself break through to the Great Perfection of the Golden Immortal.

Then it seems worth taking some risks.

Thinking of this.

Yu Liwei took a deep breath and said slowly.

"Then let's go and take a look."

"But you must be careful and try not to let the Chaos Beast notice."

"The purpose of our trip is just to search for treasures."

"Okay."

Zhang Yuhe agreed.

In fact.

Even if Yu Liwei was unwilling to take risks.

He had to go and take a look alone.

As for whether the Chaos Beast would be alarmed, only God knew.

If there were no treasures in the Liuyuan tribe that were particularly attractive to him, it would be easy to say.

It's nothing more than coming quietly and leaving quietly.

But once he found a treasure that made him excited.

Then he would definitely take action.

The Chaos Beast is not a fool.

The location with natural treasures will definitely be closely guarded.

They want to steal the treasures quietly.

That's just dreaming.

Don't even think about it.

After making the decision.

The two of them quietly moved towards the direction of Liuyuan Tribe.

As they approached the center of the tribe, the number of Chaos Beasts around them increased.

Various Chaos Beasts wandered in the wilderness in an orderly manner.

Among them, he found six or seven Chaos Beasts above four stars.

It can be seen.

At this time, the Liuyuan Tribe, for some reason, was already on high alert.

However, Zhang Yuhe didn't take it to heart.

Although there were many Chaos Beasts, they would not pose a threat to him.

If he wasn't worried that there would be high-level Chaos Beasts coming to support him.

He could completely destroy the entire Liuyuan Tribe.

It would just take more time.

Of course.

If it wasn't necessary, Zhang Yuhe would naturally not do this.

Chaos Beasts, like cultivators, have a strict organizational system.

Although the Liuyuan tribe is not strong, they have backers.

If they provoke the other party's backers, it will be a bad ending.

There is Niulan Mountain, which is billions of miles away, and Mingsha Ridge, which is close.

Among them, the Niulan Mountain tribe has many king-level chaos beasts, which is the existence that overwhelms the entire South Sea Fairyland.

Mingsha Ridge is a nine-star tribe with nine-star chaos beasts.

The most important thing is that Mingsha Ridge is not too far from the Liuyuan tribe.

It may only take half a day for a nine-star chaos beast to run at full speed.

If it is not necessary, Zhang Yuhe does not want to do it.

He is afraid of attracting the nine-star chaos beasts in Mingsha Ridge.

Of course.

If there are natural treasures in the Liuyuan tribe that make him excited.

That is another matter.

In the final analysis, it is just one sentence.

It is not that he cannot take risks.

It depends on whether it is worth it.

As he keeps going deeper, there are more and more chaos beasts around.

Zhang Yuhe and Yu Liwei carefully explored the Liuyuan tribe.

They walked through the wilderness valleys one after another, but did not find anything special.

However, neither of them had the intention of giving up.

There must be good things, but they just haven't found them yet.

The entire Liuyuan tribe covers an area of millions of miles.

They couldn't use their spiritual sense to search extensively.

We can only search slowly from mountain to mountain.

But Zhang Yuhe is not in a hurry.

Good food is worth waiting for.

Section 233

As long as there is a treasure here, he will find it sooner or later.

...

Chapter 204 Yunyuan Immortal Fruit

Zhang Yuhe and Yu Liwei slowly searched and advanced in the Liuyuan tribe.

Because he was worried about being discovered by the Chaos Beast.

They didn't dare to use their spiritual consciousness to investigate.

You can only rely on your eyesight and search slowly everywhere.

When they came to a hidden valley.

Zhang Yuhe suddenly stretched out his hand to signal, and the two of them quickly stopped and looked around vigilantly.

I saw clouds and mist lingering in the valley, and spiritual energy rising.

There was silence all around.

Several powerful auras came out from the valley.

Yu Liwei quickly took out a mirror-shaped fairy weapon.

Glazed fixing mirror.

This is a special magical weapon.

Can replace divine consciousness.

Explore the distance without being detected.

In the past, every time they encountered a place where Chaos Beasts were densely packed, they were unable to search deeply.

It was Yu Liwei who used the glass fixing mirror to check the surrounding situation.

Make sure there are no treasures before leaving.

But the glass fixing mirror also has obvious flaws.

That is, the efficiency is too slow, and only a small area can be explored at a time.

The valley in front of us is quite large.

If you want to find out everything, it will take a little more effort.

But they are in no hurry.

Since we are here to hunt for treasures, we naturally cannot miss any place.

What if the real treasure is here.

The two quietly flew up a towering tree.

As Yu Liwei played a magic spell.

The scene in the valley slowly appeared on the glass fixing mirror.

They looked at each other slowly.

Suddenly, Yu Liwei let out an exclamation.

"Mutated six-star chaos beast."

Zhang Yuhe stared at the glass fixing mirror.

I saw a tall figure sitting cross-legged on an altar in the middle of the valley.

"Humanoid Chaos Beast?"

See this situation.

Zhang Yuhe couldn't help but frown.

A Chaos Beast that can transform into a human form must have mutated.

Once a Chaos Beast successfully mutates, its strength will be greatly improved.

A normal six-star chaos beast.

He didn't take it too seriously.

It's just a stronger defense.

Knock a few more sticks, and you can still beat him to death.

But the mutated six-star chaos beast is not so easy to deal with.

Zhang Yuhe didn't have much confidence either.

Without turning on the magical power of Hunyuan Guiyi.

He really wasn't sure he could handle this big guy.

It's just that the beast tide hasn't started yet, and Hunyuan has returned to his magical power.

It is his last life-saving trump card.

When there is no major crisis.

Zhang Yuhe had no intention of using this trump card.

After using the Hunyuan Guiyi magical power, it needs to cool down for a hundred years.

What if we encounter danger again within this hundred years?

Wouldn't that be completely dull?

Originally, he thought it was a chaotic beast from the Liuyuan tribe.

The strongest one is only six stars.

It seems that Nangong Youxi's information is wrong.

The glazed fixing mirror slowly revealed the scene in the valley.

In addition to the mutated humanoid Chaos Beast, there are three six-star Chaos Beasts nearby.

In addition to the other four-star or above Chaos Beasts they had discovered on the road before.

There are at least twenty Golden Fairy Realm Chaos Beasts in the entire Liuyuan tribe.

This is a very powerful force.

Zhang Yuhe even felt that.

Once the beast tide comes.

If the Liuyuan tribe mobilizes in full force, they can completely defeat Yingyue City.

not to mention.

This tribe is not the only one that exists near Yingyue City.

There are Chaos Beast tribes in each of the four directions of the fairy city.

He was a little skeptical.

How did the Nangong Immortal Clan defend the city in the past?

Will the Chaos Beasts hold back every time a beast tide breaks out?

Not going all out to attack the city?

But thinking about it carefully, it seems possible.

Chaos beasts are not mindless monsters.

Each Chaos Beast tribe is equivalent to a major force among the monks.

They will also keep a hand.

They will definitely not all be dispatched until they are forced to do so.

You have to leave someone to guard the house, right?

Otherwise, if the siege fails, heavy losses will occur.

Then the entire tribe may soon weaken or even disappear.

Through the glass fixing mirror, I saw how powerful the Liuyuan tribe was.

Zhang Yuhe almost wanted to run away.

The purpose of his coming here is just to hunt for treasure.

But he didn't intend to fight hard.

If something big happens, it won't end well.

No matter how fragrant the treasure is, it is not as important as life.

What's more, they haven't discovered it yet among the Liuyuan tribe.

Is there any particularly valuable treasure?

Zhang Yuhe thought.

If it really doesn't work, I might as well just go back and forget it.

The strength of these chaos beasts is a bit strong.

He didn't want to provoke him if it wasn't necessary.

Just when Zhang Yuhe was about to retreat.

Yu Liwei, who was next to her, suddenly exclaimed.

"Look, what is that?"

Zhang Yuhe quickly turned his head and looked towards the glass fixing mirror.

I saw a strange fruit tree growing in a dark corner of the valley.

The entire fruit tree was flashing with a mysterious Taoist charm.

Section 234

The fruit trees are covered with attractive fruits.

Various Taoist auras slowly flowed on the fruit.

No matter how ignorant you are.

He also knew that this fruit tree must be extremely extraordinary.

"Yun Yuan Immortal Fruit?"

When he saw this fruit tree, Zhang Yuhe couldn't help but scream in surprise.

The Yunyuan Immortal Fruit is extremely precious and can greatly increase the Immortal Energy of a Golden Immortal monk.

According to classic records.

A monk in the early stage of Golden Immortal only needs to eat one Yunyuan Immortal Fruit.

It can improve your cultivation level by 10%.

In theory.

As long as there are ten Yunyuan Immortal Fruits, a monk will be able to enter the Golden Immortal Realm for the first time.

Directly promoted to the middle stage of Golden Immortal.

Of course, if you encounter a bottleneck, you have to say something else.

Yunyuan Immortal Fruit can only improve cultivation level, but cannot resolve bottlenecks.

despite this.

Yunyuan Immortal Fruit is also a good thing that Golden Immortal monks can only dream of.

Such a thing cannot be bought no matter how much it costs.

Every time a monk eats a Yunyuan Immortal Fruit.

This is equivalent to saving tens of thousands or even hundreds of thousands of years of cultivation time.

Who would trade such a good thing?

Wouldn't it be delicious to keep for yourself?

The most important thing is that Yunyuan Immortal Fruit is extremely rare, and there is no place to look for it.

Regarding the Yunyuan Immortal Fruit, Zhang Yuhe had only seen it in classics.

He had never heard that any Golden Immortal monk had ever found the Yunyuan Immortal Fruit.

Seeing the Yunyuan Immortal Fruit in the valley through the glass fixing mirror, both of them were extremely excited.

And this is not all, there is only one Yunyuan Immortal Fruit.

Zhang Yuhe made a rough count.

The entire fruit tree was filled with forty-nine fruits.

If you can get all these Yunyuan Immortal Fruits.

Zhang Yuhe estimated that he would only need a few decades to refine the medicinal power of these fairy fruits.

You can break through to the middle stage of Golden Immortal.

In this way, he can save tens of thousands of years of cultivation time.

Now is the critical moment when the beast tide is about to arrive.

If it can break through to the middle stage of Golden Immortal.

Then his strength will definitely be greatly improved.

Facing the beast tide, they will also have a stronger ability to save their lives.

Think of this.

Zhang Yuhe secretly made up his mind.

We must get all these Yunyuan Immortal Fruits.

As for the humanoid Chaos Beast, he had long forgotten about it.

What's there to be afraid of with the six-star Chaos Beast?

Even if it is a mutated six-star chaos beast, he is fearless.

Give it a try.

A bicycle turns into a motorcycle.

...

Chapter 205 Crazy Plan

Facing the temptation of Yunyuan Immortal Fruit, no Golden Immortal monk can stop it.

Unless you have already cultivated to Dzogchen.

Only those Golden Immortal monks who don't need to improve their cultivation have no idea about the Yunyuan Immortal Fruit.

Yu Liwei looked at the picture shown in the glass fixing mirror.

His eyes were full of infinite desire.

She has stayed in the late Golden Immortal stage for nearly a million years.

It's not that she doesn't work hard enough, nor is she too talented.

But the cultivation in the Golden Immortal Realm is really too difficult.

For millions of years.

Even though Yu Liwei practices hard every day, she still has not reached the threshold of Dzogchen.

She estimated that if there were no adventures.

Perhaps it would take another million years for her to touch the edge of Dzogchen.

In case you encounter a bottleneck again.

Maybe when she passes away, she may not have the chance to break through to the Golden Immortal Dzogchen.

The opportunity is now.

In the valley in front of you, there is a Yunyuan Immortal Fruit Tree growing.

And it looks like these fruits are ripe.

Just eat a few Yunyuan Fairy Fruits.

It can save her tens or millions of years.

For a veteran Golden Immortal monk like her who has been practicing for millions of years.

Nothing is more precious than time.

If it can be more, it will take millions of years.

Maybe she would have a chance to try to attack Taiyi Immortal.

Yu Li took a deep breath, trying to calm down her excitement.

She knew that although the Yunyuan Immortal Fruit was good, it had to be taken with a life.

In the entire Liuyuan tribe, there are nearly 10,000 chaos beasts that have been discovered by them.

Among them, there are more than twenty Chaos Beasts with four stars or above.

Face this powerful force.

If she dared to rush into the valley, she would immediately be sacrificed to the True God Beast by the Chaos Beast.

If that's the case.

That's not a treasure hunting adventure, but giving heads to chaos beasts.

But she would be very unwilling to leave just like that.

Yu Li turned slightly to look at Zhang Yuhe.

She knew that with her own strength, she would definitely not be able to take advantage of these Yunyuan Immortal Fruits.

But with Zhang Yuhe, maybe we can give it a try.

[Tired of 杏? Say ㄆ 嘅立尊一 (七) (九) 玖 4 三 (一) 6 ㄅ]

Zhang Yuhe is powerful.

He can kill a five-star chaos beast with two sticks.

Even an ordinary six-star chaos beast is probably no match for Zhang Yuhe.

The only trouble is that there is another mutated six-star chaos beast in the valley.

I just don't know how long Zhang Yuhe can last in the hands of the mutated six-star chaos beast?

Yu Liwei never thought that Zhang Yuhe could kill the mutated six-star chaos beast.

Although the Supreme Prodigy is invincible at the same level.

But Zhang Yuhe had just broken through to the Golden Fairyland not long ago.

If Zhang Yuhe is in the late stage of Golden Immortal, then there is no need to worry.

He can completely crush the six-star chaos beast.

Even if it is a mutated six-star chaos beast, there will be no exception.

Yu Liwei was very entangled in her heart, but she didn't know how to say it.

...

Zhang Yuhe carefully observed the situation in the valley.

What can be confirmed now is.

There are four six-star chaos beasts in the valley, one of which is a mutated chaos beast that has transformed into a human form.

Section 235

In the entire Liuyuan tribe, within a radius of hundreds of miles, there are at least tens of thousands of Chaos Beasts.

Among them, there are more than 20 Chaos Beasts above four stars.

Once they enter the valley, they will definitely be discovered by Chaos Beasts.

It is obviously impossible to secretly pick the Yunyuan Immortal Fruit.

In other words.

If he wants to get the Yunyuan Immortal Fruit, he must get rid of these Chaos Beasts.

And he has to be fast.

If it takes too long.

He can't guarantee whether the Taiyi Realm Chaos Beasts on Mingsha Ridge will come to support.

"It takes a good plan."

Thinking of this.

Zhang Yuhe whispered to Yu Liwei.

"Let's retreat first."

Hearing this, Yu Liwei had no choice but to nod helplessly.

She thought Zhang Yuhe had given up.

But she thought, in fact, this is normal.

Facing four six-star Chaos Beasts, and a mutant six-star Chaos Beast.

No Golden Immortal cultivator has the courage to rush over.

Not to mention, there are a large number of other Chaos Beasts in the entire Liuyuan Tribe.

Once a fight breaks out here, those Chaos Beasts on the periphery will definitely swarm in.

In that case, they will need to deal with tens of thousands of Chaos Beasts at the same time.

Anyone with a clear mind will not do this.

Zhang Yuhe did not say anything.

The two of them quickly retreated to the distance along the way they came.

When they retreated to more than 300 miles away from the valley, Zhang Yuhe stopped.

He stood in mid-air and looked at the Liuyuan Tribe in the distance.

If you want to get the Yunyuan Immortal Fruit, you must get rid of all the Chaos Beasts in the Liuyuan Tribe.

Other Chaos Beasts are easy to deal with.

Even if there are more, he has the confidence to deal with it.

Only the mutant Chaos Beast is a bit troublesome.

In fact.

Zhang Yuhe felt.

If he fought alone, he was not afraid of the mutant Chaos Beast.

But those Chaos Beasts would not talk to him about martial ethics.

Once they started fighting, they would definitely rush forward.

In that case, it would be a bit difficult to deal with.

We must find a way to hold the mutant Chaos Beast for a while.

Thinking of this.

Zhang Yuhe waved his right hand, and a huge flying boat floated in the air.

On the flying boat, there stood eight huge gun barrels.

Three middle-grade immortal-destroying cannons, plus five low-grade immortal-destroying cannons.

Seeing Zhang Yuhe holding the flying boat.

Yu Liwei couldn't help but be stunned.

She thought that Zhang Yuhe had brought out the three middle-grade immortal-destroying cannons that were kept in the bottom of the box of the Daosheng Sect.

But she didn't say anything.

After the three immortal-destroying cannons were handed over to Lian Zhengyu, they were the things of the Daosheng Sect.

And it would be safer to bring the middle-grade immortal-destroying cannons.

Thinking of Zhang Yuhe, it was the first time to come to the Chaos Continent.

Lian Zhengyu was a little worried, and it was understandable that he asked him to bring the middle-grade immortal-destroying cannons.

She didn't know that these three middle-grade immortal-destroying cannons were made by Zhang Yuhe himself.

It's not the three guns in stock from Daosheng Sect.

Zhang Yuhe turned to Yu Liwei and said.

"This flying boat is temporarily under your control. Together with the Immortal-Destroying Cannon in your hand, there will be eight mid-grade Immortal-Destroying Cannons."

"After we start, you don't have to worry about anything."

"Just control these Immortal-Destroying Cannons and bombard the mutant Chaos Beast."

"You just need to hold it back for a while, and leave the rest to me."

Hearing this, Yu Liwei said helplessly.

"I'm afraid the mid-grade Immortal-Destroying Cannon can't threaten the six-star mutant Chaos Beast."

"You can't hold it back for too long."

Zhang Yuhe waved his hand in response.

"It doesn't matter, just hold it back for a while."

"Wait until I kill all the other Chaos Beasts."

"It's left alone, I don't think it can make any waves."

Hearing this, Yu Liwei couldn't help but be shocked.

It was not until this time that she finally knew Zhang Yuhe's plan.

It turns out that Zhang Yuhe was planning to kill all the Chaos Beasts in the entire Liuyuan tribe.

This idea is too crazy.

You know.

This is a large tribe with tens of thousands of Chaos Beasts.

And there are more than 20 Chaos Beasts above four stars.

How can they be killed?

Chaos Beasts are not as fragile as cultivators.

A high-level cultivator can kill a large number of low-level cultivators with one great magical power.

But this method does not work against Chaos Beasts.

Chaos Beasts are immune to most magical laws.

Even high-level cultivators find it difficult to kill Chaos Beasts in large numbers.

They have to be killed one by one slowly.

And there are so many Chaos Beasts in the Liuyuan tribe.

Yu Liwei didn't understand, where did Zhang Yuhe get the confidence to kill them all?

Chapter 206 Sword Qi Sweeping Across

Zhang Yuhe naturally knew what Yu Liwei was thinking.

But he didn't explain too much.

Instead, he said lightly.

"I can quickly deal with these Chaos Beasts, believe me."

"And if we want to get the Yunyuan Immortal Fruit, we have to take some risks."

"Okay."

Zhang Yuhe had said so much, so Yu Liwei didn't hesitate any more.

The two of them quickly reached an agreement.

They had to kill all the Chaos Beasts in the Liuyuan Tribe, and then get the Yunyuan Immortal Fruit.

Zhang Yuhe looked into the distance solemnly.

Suddenly he waved his right hand.

Nine immortal swords exuded a magnificent aura and quickly fell in all directions of the Liuyuan tribe.

The aura of the immortal swords shone in all directions, causing the chaos beasts of the entire Liuyuan tribe to stir.

At the same time.

Their figures could not be hidden.

After unfolding the Nine Heavens Hunyuan Immortal Sword, Zhang Yuhe was like a bright light in the dark night.

In the wilderness of this chaotic continent, it was particularly eye-catching.

Seeing this situation, Liu Chang, who was in the valley, quickly took off into the air.

He shouted loudly in the direction of Zhang Yuhe and the others.

Section 236

"How brave. Two little Golden Immortal monks dare to come to our Liuyuan tribe and run wild."

It turned back to the surrounding Chaos Beasts and shouted loudly.

"Young men, capture these two madmen and sacrifice them to the True God Supreme Lord later."

"Roar....."

Chaos beasts within a radius of hundreds of miles roared with excitement.

Seeing the lonely monk, they seemed to see the hope of promotion.

Living monks, in the eyes of Chaos Beasts, are the best resources.

Two Golden Immortal monks, if used for sacrifice.

Maybe just one, ordinary three-star Chaos Beast can be promoted to four-star.

How could these Chaos Beasts miss such an opportunity?

Liu Chang waved a huge meteor hammer in his hand and quickly rushed towards Zhang Yuhe.

Generally speaking, Chaos Beasts do not use weapons.

But Liu Chang is different.

After mutating, it gained an additional companion weapon.

It's this meteor hammer.

The companion weapon of the mutated Chaos Beast.

Compared with the monk's weapons of the same level, it is much stronger.

Although the meteor hammer in Liu Chang's hand has not yet reached the level of a top-grade fairy weapon.

But it is far from comparable to ordinary middle-grade immortal weapons.

The meteor hammer cut through the void and rushed towards Zhang Yuhe quickly.

Boom...

at this time.

Yu Liwei, who was standing behind Zhang Yuhe, controlled eight medium-grade immortal-killing cannons and fired decisively.

Eight rays of scorching light, like thunder, rushed straight towards Liu Chang.

"Mid-grade immortal-killing cannon?"

Liu Chang couldn't help but be shocked when he saw the middle-grade immortal-killing cannon firing.

It quickly dodged, trying to avoid the attack of the middle-grade Immortal-Destroying Cannon.

However, although it has evolved into a human form, its body is still as big as a mountain.

It was unreasonable for Yu Liwei to miss such a big target.

Eight dazzling rays of light directly bombarded Liu Chang.

The powerful impact pushed it backwards, and the mountains behind it were crushed and collapsed in large areas.

Liu Chang's huge body was hit with white spots by the middle-grade immortal-killing cannon.

But it was not substantially harmed.

Although the mid-grade Immortal-Destroying Cannon is extremely powerful.

If the Golden Immortal monk is hit by a random shot, he will be beaten to ashes.

However, Chaos Beasts are naturally physically powerful and are not easily killed.

Four-star and five-star Chaos Beasts are okay.

After a few shots, even if you don't die, you will be seriously injured.

But he wanted to use the mid-grade Immortal-Destroying Cannon to kill the six-star Chaos Beast.

That would require multiple doors to fire at the same time, and good rounds.

As for the mutated six-star Chaos Beast like Liu Chang, its physical defense capabilities have been greatly enhanced.

It is not that easy to kill them directly with the medium-grade Immortal-Destroying Cannon.

I'm afraid it will take a long time to do it.

This requires the other party to stand still.

Although the immortal cannon is very powerful, it is not omnipotent.

The war between monks and Chaos Beasts relies more on their own, powerful magical powers, fairy weapons and other means.

Just relying on the immortal cannon is definitely not enough.

After Liu Chang flew back hundreds of miles, it couldn't help but roar.

The surrounding chaos beasts quickly rushed towards Zhang Yuhe and the two of them.

Zhang Yuhe looked indifferent.

After seeing the nine swords in place.

He quickly pressed the magic formula.

A magnificent sword energy light curtain quickly formed, covering all the chaos beasts of the Liuyuan tribe.

The sword energy passed quickly, flattening the tall mountain peaks.

A large number of chaos beasts instantly became sluggish.

Zhang Yuhe added all the power of the three supreme laws to the Nine Heavens Hunyuan Sword Formation.

The invisible sword energy carried the power of law and quickly controlled the chaos beasts all over the mountain.

The sword light kept cutting across the Chaos Beast's body.

Those Chaos Beasts with three stars or below could only last for a moment.

It was directly cut into pieces by the massive invisible sword energy.

In the entire Liuyuan tribe, tens of thousands of low-level chaos beasts were wiped out in an instant.

When pitting less against many.

The Nine Heavens Hunyuan Sword Formation has never let him down, and it often works wonders.

But that's about it.

After several rounds of sword energy sweeps.

In the entire Liuyuan tribe, there are probably more than a hundred chaos beasts left.

Except for the more than twenty golden fairyland chaos beasts with four stars or above.

The rest are all three-star chaos beasts.

However, Zhang Yuhe believed that these three-star chaos beasts would be attacked by the Nine Heavens Hunyuan Sword Formation.

It can't last too long.

Seeing the tribe that he had worked so hard to manage, Zhang Yuhe was swept away in an instant.

Liu Chang roared violently.

At this point it only has one idea.

That is to tear the two golden immortal monks on the opposite side into pieces.

However, whenever it wants to rush over.

Yu Liwei will control the eight immortal cannons and drive them away.

Although the middle-grade Immortal-Destroying Cannon could not seriously injure a mutated six-star chaos beast like Liu Chang.

But relying on the middle-grade immortal-killing cannon, it has a strong impact.

It is still possible to repel it.

The remaining more than a hundred chaos beasts still stood motionless.

A large amount of invisible sword energy quickly cut across their bodies.

These Chaos Beasts were shining with various lights, trembling all over, trying to break free from the restraint of the Law of Space and Time.

Soon, a six-star Chaos Beast woke up from Zhang Yuhe's law confinement.

This Chaos Beast roared loudly, and then swung its huge fist.

It slammed violently on the sword energy light curtain.

The Supreme Law is extremely powerful.

Especially after Zhang Yuhe comprehended the Law of Time to the realm of minor success.

It is even more powerful.

However, Chaos Beasts are immune to most of the power of the magical laws.

Zhang Yuhe was able to control these Chaos Beasts for such a long time through the invisible sword energy.

It is already very good.

If it were other types of laws, it would not be possible to confine these Chaos Beasts even for a moment.

Just like Yu Liwei's dream law.

Although she also comprehended this law to the realm of minor success.

As long as the Golden Immortal cultivators of the same level have not comprehended special laws, she can control them for a moment.

But when facing Chaos Beasts, it is completely useless.

She can't even control ordinary three-star Chaos Beasts.

At most, she can only bully those one- to two-star Chaos Beasts.

How can she be like Zhang Yuhe.

Directly control so many Chaos Beasts in a large area.

Section 237

And they also include more than twenty four-star or above Golden Fairy Realm Chaos Beasts.

I saw a six-star Chaos Beast breaking free from its confinement.

Zhang Yuhe did not panic.

After all, the power of law is not invincible.

It is normal for a six-star Chaos Beast to be able to break free from the confining power of the Law of Time.

While he continued to control the sword formation, he waved the Nine Heavens Flying Spirit Stick.

He quickly rushed towards the six-star chaos beast.

He needs to deal with these chaos beasts as soon as possible.

Then deal with the mutated six-star chaos beast.

...

Chapter 207 Chaos beasts are also afraid of death

I saw a six-star chaos beast that had woken up from its confinement.

Zhang Yuhe immediately picked up his stick and threw it down.

The Nine-Tian Flying Spirit Stick carries a mighty force, just like Mount Tai pressing down on its top.

In an instant, he arrived above the head of the six-star Chaos Beast.

The shadow of the stick has not yet arrived.

The chaotic beast that was originally flying quickly was immediately hit by the overwhelming gravity carried by the Nine Heavens Flying Spirit Stick.

Pressed to the ground and unable to move.

This six-star chaotic beast let out a roar that shook the sky unwillingly, and its whole body shone with various lights.

It wants to break free from this terrifying gravity pressure as quickly as possible.

However, at this moment.

The golden stick shadow has fallen from the sky.

Boom...

With its majestic power, the Nine Heavens Flying Spirit Stick instantly blasted away the Chaos Beast.

A loud noise erupted at the scene.

But the six-star chaos beast is indeed extraordinary.

Zhang Yuhe mobilized the Nine Heavens Flying Spirit Stick with all his strength and added the law of power.

Still failed to seriously injure this chaos beast.

But he wasn't, surprised by that.

If only Chaos Beasts were that easy to kill.

Then the monks will not be suppressed by the chaos beasts in the Chaos Continent.

Zhang Yuhe looked silent, and then hit him with another stick.

If you can't kill him with one stick, use another stick.

He believes it.

No matter how strong the six-star Chaos Beast is.

He couldn't stop the continuous bombardment of the Nine Heavens Flying Spirit Stick.

the most important is.

Under the suppression of the supreme law.

This chaotic beast had no chance to launch any counterattack.

It can only be beaten passively.

Zhang Yuhe swung the Nine Heavens Flying Spirit Stick, one stick after another.

Keep blasting quickly.

The dense stick shadows were like raindrops, quickly falling towards the Chaos Beast.

After a while.

This powerful six-star chaos beast was smashed to pieces by him.

Almost in the blink of an eye.

Zhang Yuhe took care of a powerful six-star chaos beast.

He looked back elsewhere.

Yu Li micro-controlled the eight middle-grade immortal-killing cannons and successfully held back the mutated six-star chaos beast.

As for what was left before, those three-star chaos beasts.

Under the intensive cutting of the Nine Heavens Hunyuan Sword Formation, he finally began to be unable to hold on any longer.

Dozens of three-star chaos beasts are suppressed by the Supreme Law.

There was no resistance at all, and it was cut into pieces directly.

From the time he activated the sword formation, it only took a moment.

In the entire Liuyuan tribe, all Chaos beasts below three stars.

Everything was destroyed.

There were only more than twenty four-star or above Golden Fairy Realm Chaos Beasts left on the scene.

Including the mutated Chaos Beast, there are a total of three six-star Chaos Beasts.

As for the other Chaos Beasts, they are all four or five stars.

While these chaotic beasts have not yet broken free from their confinement.

Zhang Yuhe picked up the Nine Heavens Flying Spirit Stick and moved quickly.

As the stick shadow kept falling.

Each Chaos Beast in the Golden Fairy Realm is carried by the Nine Heavens Flying Spirit Stick with powerful power.

Directly shocked to death.

at this time.

Another six-star chaos beast finally broke free from its confinement.

But it was different from the six-star chaos beast he killed before.

After breaking free from its confinement, this Chaos Beast's eyes were full of fear.

It will never be the same crazy again.

Can it not be afraid?

When he saw Zhang Yuhe, he cut a large number of chaos beasts into pieces like mowing grass.

Even those Chaos Beasts in the Golden Fairy Realm with four stars or above.

In Zhang Yuhe's hands, he couldn't survive for even half a second.

Zhang Yuhe was like swatting mosquitoes at these powerful chaotic beasts.

Easily shoot one to death.

See this situation.

This six-star chaos beast broke free from its confinement.

The first thing it thought of was not to attack Zhang Yuhe crazily.

Instead, he thought about how to escape.

Chaos beasts are not monster beasts without intelligence.

They have their own civilization, and they also have high IQs.

In particular, the IQ of these Chaos Beasts that have evolved to the Golden Fairy Realm is not lower than that of normal monks.

Facing powerful enemies, they will naturally be afraid.

After breaking free from confinement.

This six-star chaos beast showed almost no hesitation.

It quickly turned around and ran away from Zhang Yuhe.

However, under the cover of the Nine Heavens Hunyuan Sword Formation.

Where can it go?

I saw that at this time, there was actually a Chaos Beast trying to escape.

Liu Chang, who was once again blasted away by the middle-grade Immortal-Destroying Cannon, couldn't help but let out a thundering roar.

But now, it cannot protect itself.

Faced with the bombardment of eight medium-grade immortal-killing cannons, Liu Chang was not injured for the time being.

But if this continues.

No matter how strong its defense is, there will be a time when it can't hold on.

At such a critical moment, there are actually Chaos Beasts who want to escape.

This makes Liu Yuan furious.

However, at this time, it can no longer control these high-level Chaos Beasts.

When disaster strikes, everyone flees.

This truth is a normal phenomenon for any race.

Section 238

Seeing the Chaos Beast that had just broken free from its confinement, it actually turned around and ran away.

Zhang Yuhe couldn't help but be stunned.

So there is such a chaotic beast?

He thought that all chaos beasts were brave and fearless of death.

There are also people who are afraid of death.

But if you still want to run now, it's obviously too late.

Zhang Yuhe stepped on his left foot and quickly merged into the void.

Instantly appeared behind the six-star chaos beast.

He picked up the Nine Heavens Flying Spirit Stick and slammed it down.

at this time.

This chaotic beast is frantically bombarding the surrounding sword array light curtain.

It has only one belief now.

That is to break the sword formation and rush out as soon as possible.

This Chaos Beast finally understood the situation at the scene.

When Liu Chang was dragged away.

The remaining chaos beasts were completely powerless to resist.

If the sword array cannot be broken.

Their final result will only be one.

That is to be slowly beaten to death by Zhang Yuhe.

But under the cover of Zhang Yuhe's sword formation, it still wanted to escape.

This Chaos Beast obviously thinks too much.

If all the chaos breaks free from the constraints of the law at the same time, there may be some trouble.

But the same six-star Chaos Beast has strong and weak strengths.

Some chaos beasts can break free from their confinement quickly, while others are much slower.

Each of these chaos beasts took turns breaking free from their confinement.

How could Zhang Yuhe let them run away?

Under the powerful gravity of the Nine Heavens Flying Spirit Stick.

The golden stick shadow fell quickly like lightning.

This six-star chaos beast could only fall to the ground in despair.

Zhang Yuhe looked around.

Including the humanoid mutant chaos beast.

There were only two six-star chaos beasts left on the scene.

As for the other chaos beasts in the Liuyuan tribe, he has already wiped them out.

There was a Chaos Beast among them, perhaps it had just been promoted to six stars not long ago.

The strength may be a little weak.

Until now, he has not been able to break free from the confinement of his laws.

Just when Zhang Yuhe wanted to kill this chaotic beast directly.

He suddenly realized.

The humanoid Chaos Beast no longer continued to charge towards them.

Instead, they were frantically bombarding the sword energy light curtain with the firepower of eight mid-grade immortal-killing cannons.

I want to break the light barrier and rush out.

A mutated six-star chaos beast with extraordinary strength.

Under its fierce bombardment.

The sword energy light curtain supported by the Nine Heavens Hunyuan Sword Formation was already crumbling.

There seems to be some signs that it may not be able to hold on any longer.

See this situation.

Zhang Yuhe shouted loudly towards Yu Liwei.

"Leave this mutated chaos beast to me. You can deal with the other one as soon as possible."

After saying this.

He then picked up the Nine Heavens Flying Spirit Stick, quickly moved his figure, and rushed towards the mutated Chaos Beast.

...

Chapter 208 Enduring the battle

Seeing that all the chaos beasts in the tribe were wiped out by Zhang Yuhe.

Except for another six-star Chaos Beast that is still imprisoned by the law.

It is left alone, a polished commander.

At this time, Liu Chang's heart was as panicked as an old dog.

Originally, he thought that they were just two little Golden Immortal monks, so weren't they easy to catch?

No need to do it yourself.

The other Chaos Beasts in the tribe can definitely take down these two people.

However, the result after taking action shocked him greatly.

Zhang Yuhe's power far exceeded his imagination.

Liu Chang never thought about it.

There are actually golden immortal monks who can be so strong.

Just being strong, that's all.

These two golden immortal monks actually brought eight middle-grade immortal-killing cannons with them.

Such a powerful lineup is ridiculous compared to ordinary fairy cities.

From the beginning to now, it is only a short time.

The entire Liuyuan tribe ceased to exist.

At this time, Liu Chang no longer dared to think too much.

It was just thinking about how it could escape with its life.

If the tribe is gone, it can be rebuilt in the future.

As long as you are still alive.

It was promoted to six stars and successfully mutated, which is not an easy thing.

It didn't want to be beaten to death just like that.

Although the eight middle-grade immortal-killing cannons bombarded him continuously.

It didn't cause him much harm.

But there was no trace of pride on Liu Chang's face.

In its view, Zhang Yuhe's threat was far greater than those of the middle-grade immortal-killing cannons.

Once Zhang Yuhe is freed up.

Even if he wants to run away, he may not be able to escape.

Think of this.

Liu Chang could no longer care about the tribe he had been running for countless years.

In fact.

The entire Liuyuan tribe has long ceased to exist.

All the chaos beasts are dead, how can there be any Liuyuan tribe left?

Yanagi Yuan waved the meteor hammer in his hand, frantically attacking the sword energy light curtain on the outside, constantly bombarding it.

it thought.

As long as he breaks this sword array light barrier, he can run all the way towards Mingsha Ridge.

No matter how courageous these two human monks are.

Don't dare to chase me to Mingsha Ridge.

But Liuyuan obviously thought too much.

At this point, can Zhang Yuhe still let it escape?

This is a mutated six-star chaos beast.

The leather armor of the mutant chaos beast can be refined into the best middle-grade chaos fairy armor.

As for the crystal core of the six-star mutant chaos beast, it is even more rare.

Many precious fairy pills require the crystal core of the mutant chaos beast.

In Zhang Yuhe's eyes, Liu Chang is a moving treasure of heaven and earth.

There is no other threat now.

Naturally, he will not let this treasure of heaven and earth run away under his nose.

Section 239

Zhang Yuhe picked up the Nine Heavens Flying Spirit Stick, flashed quickly, and appeared directly behind Liu Chang.

The Nine-Tian Flying Spirit Stick quickly fell towards Liu Chang with terrifying pressure.

A sharp look flashed in Liu Chang's eyes.

Now, it just wants to escape and run away.

This Golden Immortal monk was still unwilling to give up.

This made it extremely angry.

Since the mutation.

When will it take the Golden Immortal cultivator into consideration?

However, anger alone is of no use.

The Nine Heavens Flying Spirit Stick, carrying the power of the three supreme laws, directly pressed Liu Chang to the ground, unable to move.

Roar.....

Liu Chang roared loudly, his whole body shining with five colors of light.

After the light flashed.

The power of law that was originally suppressed on it was quickly broken free.

Seeing such a situation, Zhang Yuhe couldn't help but feel a chill in his heart.

The mutated six-star chaos beast is really not that easy to deal with.

Even if he has already understood the law of time and reached the state of small success.

Still couldn't imprison this chaotic beast for too long.

Almost just for a moment.

This mutated chaos beast can break free from his control.

Despite this, Zhang Yuhe had no intention of giving up.

A six-star mutant chaos beast, although very strong.

But he also has confidence that he can beat him to death.

It's nothing more than spending more time.

Just grind it slowly.

He can also grind this chaotic beast to death.

not to mention.

Behind him, there is Yu Liwei, controlling eight middle-grade immortal-killing cannons.

After Yu Liwei dealt with the other six-star chaos beast.

Then you can aim your artillery fire at this big guy.

Combined with the mid-grade Immortal-killing Cannon.

He still didn't believe that he couldn't kill this mutated chaos beast.

Zhang Yuhe used all his strength to activate the power of the three supreme laws and attached them to the Nine Heavens Flying Spirit Stick.

The golden stick shadow, carrying majestic power, kept bombarding Liu Chang.

Whenever Yanagihara breaks free from control.

The powerful power of law will come again and still suppress it to the ground, unable to move at all.

Following Zhang Yuhe, he continued to activate the power of law.

The sea of spiritual energy in his Dantian was rapidly shrinking and becoming shallower.

But he wasn't worried.

With his Dantian Dahai which is far beyond that of ordinary monks, he can still persist for a long time.

Roar.

Faced with Zhang Yuhe's constant bombardment.

Liu Chang had no choice but to give up the idea of breaking the sword formation and breaking out.

It knows.

If Zhang Yuhe couldn't be repelled, it wouldn't even be able to escape.

Think of this.

Liu Chang waved the meteor hammer in his hand and rushed towards Zhang Yuhe quickly.

The meteor hammer cuts through the void, and its power is much stronger than that of the Nine Heavens Flying Spirit Stick.

The weapons that come with the mutated Chaos Beast are far superior to the monks' magical weapons of the same level.

not to mention.

The Nine Heavens Flying Spirit Stick in Zhang Yuhe's hand is currently only a low-grade immortal weapon.

It has not evolved into a mid-grade immortal weapon.

Every level of evolution of the innate treasure requires a huge amount of consumption.

And it also takes a long time.

Even though Zhang Yuhe invested a lot of immortal minerals and immortal materials, he still could not defeat the Nine Heavens Flying Spirit Stick.

Evolve into a mid-grade immortal weapon.

despite this.

As an innate treasure.

Even the Nine Heavens Flying Spirit Stick is only a low-grade immortal weapon at its current level.

It is still much more powerful than a regular mid-grade immortal weapon.

Facing Liu Chang's meteor hammer, Zhang Yuhe did not dare to take it head-on.

Don't say it is, the companion weapon of the mutated Chaos Beast.

Even if a mutated Chaos Beast were to hit him with bare hands, he wouldn't have the confidence to do so.

You can rely on physical strength to catch it.

Facing an ordinary six-star chaos beast.

He can also rely on the power of the Immortal Body in the Xiaocheng realm to withstand a few attacks.

But when facing the mutated Chaos Beast, it is obviously not possible.

Zhang Yuhe moved quickly.

The whole person instantly merged into the void.

Relying on the laws of space and the speed advantage of Galaxy Wandering Dragon Body Technique.

There was absolutely no need for him to go head-to-head with this mutated six-star chaos beast.

Boom...

The meteor hammer in Liu Chang's hand was smashed into nothing.

The tall peaks around were instantly smashed into ashes.

Zhang Yuhe appeared and struck Liu Chang down with a stick again.

One man and one beast were fighting madly.

In an instant, the world was shattered.

Zhang Yuhe waved the Nine Heavens Flying Spirit Stick and quickly pinched the magic formula.

He wanted to reduce the control range of the Nine Heavens Hunyuan Sword Formation.

The Nine Heavens Hunyuan Sword Formation is a magical power that comes with the Hunyuan Heavenly Scripture.

The theoretical control range can be infinite.

It's just that the larger the range, the control and attack capabilities will be greatly reduced.

Now the other chaos beasts are basically dead.

He doesn't have to.

The Nine Heavens Hunyuan Sword Formation will continue to cover the entire Liuyuan tribe.

By narrowing the control range of the sword array, this mutated chaos beast can be better suppressed.

...

## Chapter 209 Grinding the Chaos Beast to Death

Although Zhang Yuhe completely suppressed Liu Chang, the battle situation was still a stalemate.

no way.

The mutated six-star Chaos Beast has really strong defense capabilities.

Even the Nine Heavens Flying Spirit Stick, carrying a huge force, blasted Liu Chang back.

But it still couldn't be seriously injured.

Zhang Yuhe felt that although his strength was good, he still lacked some extreme burst damage.

Maybe he would have to think of some ways in this regard in the future.

But that was a matter for the future.

At present, he could only rely on the existing means to kill this mutant chaos beast.

While waving the Nine Heavens Flying Spirit Stick, Zhang Yuhe kept performing various magical attacks.

However, Liu Chang was like a turtle hiding in its shell.

Section 240

He really couldn't move.

Compared to Zhang Yuhe's side, it was in a glue-burning state.

Yu Liwei was very happy.

Although she had obtained five middle-grade immortal cannons a long time ago.

But she had never played so well.

The six-star chaos beast was like a fixed target, imprisoned in place by Zhang Yuhe's power of law.

Completely unable to move.

She was a little skeptical.

Could this six-star chaos beast in front of him be a parallel import?

Otherwise.

Why was he imprisoned by Zhang Yuhe's power of law for such a long time?

What kind of power of law can have such a strong confining effect?

If she remembered correctly.

The supreme law that Zhang Yuhe masters should be the law of power.

Although the law of power, relying on the strong gravity suppression, does have a good confinement effect.

But it's not that outrageous, right?

It was actually possible to imprison a six-star chaos beast for such a long time.

To know.

Zhang Yuhe's focus is still on the mutated chaos beast.

She only suppressed the Chaos Beast on her side.

despite this.

The six-star chaotic beast in front of her never broke free from the beginning to the end.

What a terrifying power of imprisonment this is?

But thinking about just now, Zhang Yuhe easily wiped out tens of thousands of chaos beasts with just a wave of his hand.

Yu Liwei felt a little relieved.

The strength of some talented people is indeed beyond her imagination.

Yu Liwei controlled eight medium-grade immortal cannons and fired continuously.

While looking at the battlefield on Zhang Yuhe's side.

Mutated Chaos Beasts are indeed very difficult to deal with.

Even Zhang Yuhe's strength has reached the point of being tyrannical.

It can still only suppress the mutated Chaos Beast, but cannot kill it in a short period of time.

"Deal with this chaos beast as soon as possible, and then go over to help."

Think of this.

Yu Li micro-controlled eight medium-grade immortal-killing cannons and fired continuously.

An ordinary six-star Chaos Beast, although its strength is pretty good.

At least it is difficult for Golden Immortal monks of the same level to break its defense.

But the middle-grade immortal-killing cannon can do it.

Under continuous bombardment.

Big holes were blasted out of this six-star chaos beast.

Yu Liwei continued to bombard for a few rounds.

This six-star chaos beast finally fell to the ground unwillingly and ran away on the street.

Very sad indeed.

Although this Chaos Beast has a rank as high as six stars, its strength should be extremely powerful.

However, from the beginning of the battle, until it fell to the ground.

It didn't move the whole time.

He just stood upright and took the shots until he was finally beaten into a sieve.

It's indeed a bit pitiful.

However, there was no sympathy on Yu Liwei's face.

Chaos beast, just kill it.

She quickly turned the gun.

Boom...

Eight medium-grade immortal-killing cannons fired fiercely at the mutated chaos beast.

Seeing Yu Liwei's support arriving, Zhang Yuhe finally breathed a sigh of relief.

This mutated chaos beast is really too tough.

He was a little skeptical.

Even if he breaks the Jiutian Feiling Stick, he may not be able to kill this big guy.

But it's fine now.

There are now eight medium-grade immortal-killing cannons for fire support.

It's hard for this big guy not to die.

Even though the medium-grade Immortal-Destroying Cannon was unable to break through the defense of the mutated Chaos Beast.

But under continuous bombardment, earthquakes can kill it.

Zhang Yuhe kept waving the Nine Heavens Flying Spirit Root.

The golden stick shadows all over the sky were like raindrops, quickly falling towards the mutated Chaos Beast.

at the same time.

The eight middle-level immortals controlled by Yu Liwei were also firing continuously.

Zhang Yuhe quickly reduced the Nine Heavens Hunyuan Sword Formation while attacking.

The dense sword energy light curtain completely suppressed the mutated chaos beast within a very small range.

"Roar....."

Liu Chang kept letting out thunderous roars.

However, no matter how loud it roars.

At this point, it's all over and there's nothing left to do.

Faced with the intensive attacks from Zhang Yuhe and Zhang Yuhe, no wounds were seen on Liu Chang's body.

But the aura it exudes is gradually weakening.

It can be seen that it can no longer support it for long at this time.

Zhang Yuhe's Nine Heavens Flying Spirit Stick, coupled with the continuous bombardment of eight middle-grade immortal-killing cannons.

The mutated Chaos Beast was directly shocked and seriously injured.

In fact.

This is also the normal operation for most monks to kill Chaos Beasts.

Chaos beasts are indeed thick-skinned.

Under normal circumstances, everyone cannot break the Chaos Beast's defense.

But being unable to break the defense does not mean that you cannot be killed.

As long as many people join forces and use their own methods, the Chaos Beast can be shocked to death.

As the golden stick shadows like raindrops continued to fall, the middle-grade immortal-killing cannon in the distance continued to spray out fiery rainbow light.

The meteor hammer in Liu Chang's hand became weaker and weaker.

At this time, it was no longer able to launch another similar counterattack.

Zhang Yuhe looked silent and kept waving the long stick in his hand.

As long as the Chaos Beast has not expired.

He won't stop.

Chaos beasts have extremely powerful vitality.

They can't be careless before they die completely.

A while passed.

Under the continuous bombardment of the two men.

Liu Chang let out a thunderous roar, and finally fell to the ground unwillingly.

Seeing this situation.

Zhang Yuhe couldn't help but breathe a sigh of relief.

It's really too tiring.

He has been practicing Taoism for tens of thousands of years.

Although the battles he has experienced are not particularly many, they are not few.

But there has never been a battle like today.

This mutant six-star chaos beast was almost worn to death by them.
