Section 24

"That's it."

After reading the contents in the jade slips, Zhang Yuhe had some enlightenment.

No wonder the immortal in the picture seems to be motionless, but appears in different places.

This is not teleportation, but an extremely fast speed that can deceive people's perception.

"This wave is not a loss."

He was very satisfied with this escape technique.

After reading it, Zhang Yuhe returned the jade slip to the old man with a long beard.

"Senior, I've finished reading."

"After reading this, why don't you leave quickly."

The old man handed the jade identity tag back to him, and then said impatiently.

Zhang Yuhe bowed his hands to the old man, then turned into a stream of light and flew into the distance.

After he left, the old man quickly took out a jade tablet, reached out and pointed at the jade tablet, and then spoke.

"Old Ghost Lu, do you still remember the boy who entered the inner door with the token before?"

In a certain hall deep inside the sect, Elder Lu, who was practicing, suddenly felt something.

He took out the jade tag and looked at it.

"Hey, what did Old Ghost Fang say about that boy? It can't be that that boy thinks his handwriting is ugly."

Elder Lu stretched out his hand and said.

"Remember, what's wrong, Old Ghost Fang? Did that guy say your handwriting is ugly again? Haha, I'm not telling you, just don't show it to embarrass yourself with your ugly handwriting."

"Nonsense, I haven't written anything in a hundred years."

"Oh? Then why did you suddenly mention that kid again?"

"Do you know what state that kid is in now?"

"It should be the Golden Core realm, or foundation building. Hey, I'm having a headache over this matter. With his weak cultivation, I don't even know where to arrange for him to guard."

"Weak? Haha, you will be surprised when you see him."

"Uh, what does this mean?"

"Guess, hehe."

...

The long-bearded old man cut off the communication directly, looking slightly proud.

"Old ghost Lu, you may have misjudged me sometimes. Such a defiant seedling was not accepted as his direct disciple by him in the first place, hehe."

After being proud, the long-bearded old man fell into deep thought again.

Why is this kid's cultivation speed so ridiculously fast?

Even for spiritual monks, it would take at least hundreds of years to cultivate to the state of becoming a god.

It only took this kid a hundred years to not only break through to the realm of God Transformation, but also practice to the late stage of God Transformation.

"Is it because of the Hunyuan Heavenly Scripture that he successfully practiced the Hunyuan Heavenly Scripture?"

"Is this technique passed down from the immortal world so powerful?"

The long-bearded old man looked up at the ninth floor of the tower.

...

Zhang Yuhe was unaware of the conversation between the long-bearded old man and Elder Lu.

As soon as he returned to Galaxy Peak, he immediately came to the training platform in the pavilion and silently recalled the content of the Tianhuang Flying Immortal Technique in the jade slips.

Suddenly, he stood up and appeared outside the pavilion.

"Try this magical flying technique. How fast is it?"

Zhang Yuhe flew up and stood in the sky above the Milky Way Peak, looking as graceful as a fairy.

As he exerted all his strength on the Heavenly Flying Immortal Technique, he seemed to be standing motionless on the top of the mountain, but in fact he had already flown back to the lake at the foot of the mountain.

"Niubi."

The effect of using the Heavenly Flying Immortal Technique with all his strength made him extremely satisfied.

With this escape technique, let alone a monk of the same level, he is confident that he can escape even if he encounters a Void Refining monk who is a level higher than him.

100 meritorious deeds in exchange for such an awesome escape technique, this time the profit will be huge.

Chapter 24 The Guardian of Yunzhong Mansion

Seeing the long-bearded old man cutting off the communication, Elder Lu put away the jade token and fell into deep thought.

"What does Mr. Fang mean by this?"

"First I asked Zhang Yuhe about his cultivation level, and then he said that I would be shocked when I saw it."

"Has that kid already broken through to the realm of Nascent Soul?"

"impossible."

Of course, he was deeply impressed by Zhang Yuhe, a disciple who took a token and joined the inner sect.

After all, it has been nearly 100,000 years since the Dao Sheng Sect issued the tokens, and the other tokens have long since been recovered.

The last token had not been moved for many years, and he thought it might have been lost.

When Zhang Yuhe took out the token, he was a little surprised.

But what surprised him was not Zhang Yuhe, but that the last token could still be found.

He didn't pay much attention to Zhang Yuhe.

A young man in his twenties who is in the Qi refining stage must have very ordinary qualifications. What is there to pay attention to?

Anyway, according to the rules of the sect, those who hold tokens, regardless of their talent, qualifications or origin, can be admitted to the inner sect as long as they are not the lackeys of the demon clan.

Since Zhang Yuhe can produce the token, he can just act according to the rules.

Elder Lu's name is Lu Mingfang. As the deacon elder of the Daosheng Sect, he is responsible for the management of the disciples within the sect.

He had dealt with many such matters before, and he thought he would not make mistakes.

Elder Fang suddenly mentioned Zhang Yuhe, which made him very strange.

"Did I really make a mistake? This guy is a genius in cultivation?"

"Forget it, just go and take a look and you'll find out. It's just a good time to arrange his duties."

Lu Mingfang stood up and turned into a stream of light and flew towards Galaxy Peak.

...

Galaxy Peak.

Zhang Yuhe is practicing the Heavenly Flying Immortal Technique, although his understanding is off the charts and he can understand anything at a glance.

But knowing and being proficient are two different things. For life-saving means like Tianhuang Flying Immortal Technique, it is naturally better to practice more.

Suddenly he frowned and stopped practicing the Heavenly Flying Immortal Technique.

"Why are there still people looking for me?"

Zhang Yuhe felt a little strange when he sensed someone tapping the formation outside.

He has been practicing in Daosheng Sect for hundreds of years, but he doesn't know many people at all, so no one should be looking for him.

Zhang Yuhe took out the jade token and activated the formation of Galaxy Peak, only to see Lu Mingfang hovering outside the peak.

Seeing this, he immediately flew over and shouted respectfully.

"Disciple Zhang Yuhe has met Elder Lu."

He naturally knew the elder who introduced him, and Zhang Yuhe could roughly guess Lu Mingfang's purpose.

It is estimated that he will be assigned a guard duty.

To be honest, Zhang Yuhe has no interest in going out to take up guard duties.

Although you can get twice as many merits by going out to guard than practicing within the sect, and as a representative of the Tao Sheng Sect guarding the side, it is not easy to make some money.

Despite this, he still has no interest. Going out to guard will delay his cultivation.

It's great to stay in the sect. You don't have to worry about anything and no one will disturb you. Moreover, Daosheng Sect is full of spiritual energy and is simply a holy land for cultivation.

If you go out to guard, you won't have such a good cultivation environment, and you may have to deal with some local troubles from time to time.

It's very annoying.

However, he had no choice, this was the rule of Dao Sheng Sect.

Inner disciples take turns guarding duty every hundred years, and they have to go there honestly whether they want to or not.

He enjoys the comfortable cultivation environment provided by Daosheng Sect, and naturally has to bear corresponding responsibilities.

People who are unwilling to take responsibility will not end well no matter where they are.

...

A hundred years later, when he saw Zhang Yuhe again, Lu Mingfang couldn't believe his eyes.

"Late stage of divine transformation? How is this possible?"

He sensed the aura emanating from Zhang Yuhe again.

"It is indeed the late stage of divine transformation."

"Did I misunderstand it at the beginning? This boy was not in the qi training stage, but he had already established the foundation, or even the golden elixir realm?"

Thinking of this, Lu Mingfang couldn't help but shook his head. He couldn't have been wrong at the beginning.

It is impossible for a disciple in the Qi refining stage to hide his aura in front of this great master.

So here comes the question, this guy is in the late stage of becoming a god.
