Section 251

There are still more than 30 Chaos Beasts in the Golden Immortal Realm left.

And these Chaos Beasts are like rabbits now.

They are imprisoned in place by Zhang Yuhe's powerful law power and cannot move.

Now they just need to rush over.

Then use their most powerful attack ability to kill the target.

There is no need to consider that they will be injured by the counterattack of the Chaos Beast.

All the Chaos Beasts were fixed in place by Zhang Yuhe.

Everyone does not need to worry about their own safety.

Just deal damage madly.

Such an opportunity is something that everyone dare not think about at ordinary times.

Everyone rushed forward, and all kinds of magical weapons instantly overwhelmed the Chaos Beasts on the scene.

Even those True Immortal disciples, they were not willing to be outdone.

They rushed over together.

Attacked the Chaos Beast madly.

You know.

The remaining Chaos Beasts, even the weakest one.

It starts at four stars.

They are all comparable to the Golden Immortal Realm.

Under normal circumstances.

They are True Immortal disciples.

Once they encounter a four-star chaos beast, they are almost dead.

However, now they still have a chance.

They can deal a few damages to these powerful chaos beasts.

The wonders of the world.

It is hard to believe.

This also reflects the strength of Zhang Yuhe from the side.

Thinking of this.

Everyone's awe of Zhang Yuhe can't help but increase a little.

...

Chapter 217 Beaten to death with sticks

As the shadows of the sticks continued to fall.

At this time, Sha Liumang had been beaten like a dead dog, dying.

Zhang Yuhe kept swinging the Nine Heavens Flying Spirit Stick.

Another stick fell.

Finally, Sha Liumang let out an unwilling roar and fell to the ground.

Zhang Yuhe turned around and looked around.

I saw that everyone was surrounding the chaos beasts in the Golden Immortal Realm and attacking them crazily.

All the four-star chaos beasts had basically been beaten to death by them.

Only a few five-star and six-star Chaos Beasts were left at the scene.

Zhang Yuhe took a look.

He also decisively joined the team to grab heads.

Oh, no.

It shouldn't be said to grab heads.

These Chaos Beasts were originally suppressed by him.

It was only natural for Zhang Yuhe to take action and pick up his spoils.

With Zhang Yuhe's joining.

Those five-star Chaos Beasts can be solved with one stick.

As for the six-star Chaos Beasts.

In his hands, they are not much stronger.

It's nothing more than hitting one more stick.

Soon.

The Chaos Beasts outside Yingyue City were cleared out by everyone.

Many cultivators who didn't grab heads were all depressed.

Such a large-scale beast tide.

Many cultivators actually got nothing.

It's unbelievable.

If this were in the past.

As long as you can survive until the end of the beast tide.

Everyone will have some gains.

However.

Obviously, they had nothing to do with this beast tide.

Zhang Yuhe alone.

He killed all the Chaos Beasts in the whole beast tide.

Of course.

The depression in his heart was only a momentary thing.

Being able to survive the beast tide safely.

This is the happiest thing for everyone.

Zhang Yuhe quickly flashed his body and collected the spoils on the ground.

After a beast tide.

He harvested a large number of crystal cores.

He also harvested a lot of Chaos Beast corpses above four stars.

And there was also a mutated six-star Chaos Beast.

With these gains.

His trip to the Chaos Continent was finally not in vain.

...

After a while, everyone gathered on the city wall.

Compared with the previous beast tide.

This beast tide in Yingyue City did not last for half a quarter of an hour in total.

In the past, when facing the beast tide.

Everyone could only rely on the defense formation of the fairy city to find a way to repel the Chaos Beast.

Normally.

As long as the number of Chaos Beasts destroyed is sufficient.

Those Chaos Beast leaders from various tribes could not bear the heavy losses.

They would naturally retreat.

But this would require a long fight before they could achieve it.

A beast tide would last for three to five days at the shortest.

Sometimes, it could even last for half a month.

However.

The beast tide in Yingyue City.

It ended very quickly at an incredible speed.

There was not even a Chaos Beast left outside the city.

Isn't it solved?

This was the fastest beast tide that everyone had ever experienced.

A group of Golden Immortal cultivators cheered loudly while standing on the city wall.

Long Xingxiu shouted happily.

"It's so satisfying, so satisfying."

"Since I broke through to the Golden Immortal, I have experienced at least dozens of beast tides."

"There has never been a time that was as satisfying as this time, haha."

Qin Chengzhi, who was standing next to him, also responded happily.

Section 252

"Who said it wasn't? I originally thought that we had to fight the Chaos Beast to the death."

"In the end, I just killed the target."

"And I also picked up a dead rabbit. This time, it was not in vain, hehe."

Qin Chengzhi's words were like poking a hornet's nest.

Everyone responded.

"You acted too quickly. I used up all the immortal talismans in the bottom of the box."

"In the end, I didn't even get a Chaos Beast."

"You talk as if I got it."

"That's right. There are only more than 30 Chaos Beasts in the Golden Immortal Realm in total. There are not enough to share."

"Hey, you guys are really too fast. Don't even know to leave some for me."

"No more to say. After I go back this time, I must find a way to practice a powerful burst magic."

"Otherwise, if I encounter it again next time, I'm afraid I still can't get a head with this opportunity to kill the target."

"Just be content. It's very good to be able to survive the beast tide safely."

"If it weren't for the great power of Fellow Daoist Zhang, I I'm afraid that more than half of them will die."

"Yes, the power of the mutant six-star chaos beast is far beyond the Golden Immortal cultivators of the same level, and only Taiyi Immortal Lord can defeat it."

"By the way, do you know what kind of magical power is that sword formation of Fellow Daoist Zhang?"

"I have never heard of any sword formation that has such a terrifying suppression ability."

"What is there to guess?"

"Magic power is not important, the key is the law."

"I guess Fellow Daoist Zhang has already comprehended the Supreme Law to the realm of minor success."

"Otherwise, it would be impossible to imprison all these chaos beasts at the same time."

"Hey, that's the Supreme Law."

At this point, everyone's faces couldn't help but show admiration.

Being able to comprehend a Supreme Law, and comprehend the Supreme Law to the realm of minor success when he was in the Golden Immortal Realm.

Such progress is rare even among the Supreme Tianjiao in the past.

It's difficult to get started with the Supreme Law.

If you want to go further, it will be even more difficult.

Thinking of Zhang Yuhe, he had just broken through to the Golden Immortal Realm not long ago.

He had already comprehended the Supreme Law to the state of minor success.

Everyone couldn't imagine it at all.

What kind of comprehension talent does it take to achieve this?

...

Zhang Yuhe quickly cleaned up the battlefield and collected the crystal cores on the ground.

Soon he returned to the city wall.

Seeing Zhang Yuhe coming.

Everyone shouted respectfully in unison.

"Meet Fellow Daoist Zhang."

After seeing the strength displayed by Zhang Yuhe.

Even the most arrogant people.

Now they dare not be presumptuous.

What a joke.

This is a man who can kill a six-star chaos beast with two sticks.

Even the mutant six-star chaos could not jump a few times and also died in Zhang Yuhe's messy stick.

In everyone's opinion.

Such a powerful strength has long been out of the Golden Immortal category.

Zhang Yuhe has not reached it except in terms of realm.

If we only talk about strength.

They are not much worse than those ordinary Taiyi Immortal Lords.

Seeing everyone greeted politely.

Zhang Yuhe also smiled and nodded to everyone.

After some politeness.

He came to Nangong Youxi and asked slowly.

"Nangong Fairy, I wonder what the situation is like in other fairy cities now. Do we need to go there to support?"

Zhang Yuhe thought.

Now the Chaos Beasts here have been wiped out completely.

Then there is no need for everyone to stay in Yingcheng Yuegan.

You can go to other cities to help.

Even if people need to stay behind, so many people are used, right?

Of course.

He mainly wants to go out and kill more Chaos Beasts.

After all, beast tides are not common.

You can only encounter such a thing every 100,000 years.

At ordinary times.

How can he have the opportunity to kill Chaos Beasts so easily.

Aren't you afraid of being targeted by those big guys?

Nangong Youxi took out a fairy mirror and quickly checked it for a while.

Then he said slowly.

"The current situation is still normal, and no immortal city has fallen yet."

"I have just explained the situation in Yingyue City to the ancestor."

"The ancestor asked us to stay in Yingyue City temporarily to prevent the Chaos Beast from making a surprise attack."

"The beast tide has just begun, so we must not be careless."

Zhang Yuhe nodded and said nothing more.

...

Chapter 218 Sweeping the surrounding tribes

Originally, Zhang Yuhe was thinking.

Since the beast tide here has been solved by him.

Then can we go to other immortal cities for support.

After all, they stay here.

There is nothing to do.

But Nangong Youxi disagreed.

Then he had no choice.

After all, he was just an outsider who came to apply for a job.

This is the territory of the Nangong Immortal Clan.

Specific arrangements.

He naturally had to listen to Nangong Youxi.

And Nangong Youxi also made sense.

The Chaos Beasts are extremely cunning.

They have done things like making a surprise attack before.

It is normal for the Nangong Immortal Clan to be cautious.

Of course.

The most important thing is that the other Immortal Cities have not encountered any crisis at present.

They have not reached the point where they need support.

If you can still hold on, it is better to stay still than to move.

Zhang Yuhe stood on the city wall, looking at the wilderness in the distance.

He felt a little bored.

Now the Chaos Continent is in chaos.

He couldn't concentrate on cultivation.

But just waiting like this is not a good idea.

At this time, Zhang Yuhe suddenly remembered.

Section 253

Not far from Yingyue City, aren't there three small Chaos Beast tribes?

Originally there were four tribes.

Among them, the Liuyuan tribe had already been wiped out by him.

So now there are only three chaos beast tribes left.

Those Chaos Beasts that attacked the city before. .

They should all come from those three small tribes.

Now these chaos beasts have also been wiped out.

Doesn't this mean.

Those three small tribes are now in a state of weakness.

If he kills him at this time.

We should be able to wipe out all three tribes.

Think of this.

Zhang Yuhe turned to Nangong Youxi and said.

"Fairy Nangong, I will go out first and contact you through the Immortal Mirror if you have any questions."

After saying this, he made a stream of light and disappeared in front of everyone in an instant.

Seeing this situation, everyone couldn't help but look at each other.

Everyone naturally knows what Zhang Yuhe is going to do.

The three small tribes on the periphery now look like three delicate beauties.

Everyone wants to push over.

However, that also requires strength.

No matter how weak these three tribes are.

That's not something that ordinary Golden Immortal monks can provoke.

Even when launching the beast tide.

Each Chaos Beast tribe will still leave enough defensive power.

But that's just for ordinary Golden Immortal monks.

People like Zhang Yuhe.

Even these three small tribes, in their heyday, were unable to resist.

Let alone now.

I saw Zhang Yuhe leaving gracefully.

Apart from envy, everyone had no other thoughts.

Zhang Yuhe used all his strength to activate the Galaxy Wandering Dragon Movement Technique and flew forward quickly.

Previously, a large amount of Yunyuan Immortal Fruit was obtained from the Liuyuan tribe.

His cultivation level was directly promoted to the middle stage of Golden Immortal.

So Zhang Yuhe was thinking about it.

Will the other three small tribes also have good things?

Think of this.

He couldn't help but speed up his flight again.

Such a good opportunity should not be missed.

Wait until the beast tide passes.

Chaos Beast will definitely adjust its defense as well.

Then he thought again, it would not be that easy to wipe out these three tribes.

...

Flying snake tribe.

A thick snake-like chaos beast was standing on the altar with an expectant look.

The sacrificial ceremony held once every 100,000 years is an opportunity for small tribes like them to rise.

If they can catch enough sacrifices, maybe they will become the Flying Snake Tribe.

You can take the opportunity to move to a higher level.

Sudden.

Nine magnificent sword lights fell quickly on the periphery.

The serpentine Chaos Beast quickly rose into the air.

Two huge eyes, like two big red lanterns.

It looked into the distance with a cold expression.

Because it has not mutated during the previous evolutionary processes.

Therefore, it is impossible to transform into a human form, and it is impossible to speak.

Roar.....

An invasion of monks was discovered.

The snake-like chaos beast let out a thundering roar.

A large number of Chaos Beasts rushed out from the wilderness.

However, before they could make further moves.

Endless sword light quickly swept across the world.

These chaotic beasts were immediately suppressed to the ground by the terrifying sword light and unable to move.

After several rounds of sword light.

There were only two or three kittens, big and small, left in the entire Flying Snake tribe.

Those low-level chaos beasts were instantly cut into pieces by the invisible sword energy.

Zhang Yuhe waved the Nine Heavens Flying Spirit Stick.

With a few sticks, the entire tribe was quickly wiped out.

A small tribe like this, without mutated Chaos Beasts.

In front of him, it was like paper.

Not worth mentioning at all.

After quickly putting away the crystal cores and corpses on the ground.

Zhang Yuhe mobilized his spiritual consciousness with all his strength, covering hundreds of thousands of miles.

Search every inch of the place carefully.

If we say that the last time we were in the Liuyuan tribe, we were secretly hunting for treasure.

So this time, it was a blatant robbery.

It can stimulate the consciousness without restraint.

"Hey, here."

Under the shroud of spiritual consciousness, Zhang Yuhe soon discovered an anomaly.

He quickly rose into the air,

But when he arrived at the place, he couldn't help but shake his head.

"It turns out to be just a ground spirit fruit tree."

See the fruit trees in front of you.

Zhang Yuhe was slightly disappointed.

But it soon returned to normal.

After all, things like Yunyuan Immortal Fruit cannot be encountered every time.

If he can meet it once, he is lucky.

And the Earth Spirit Fruit Tree is also pretty good.

Although he can't use it himself.

But it can be kept for the descendants of the sect.

Zhang Yuhe presented the Ten Thousand Spirits Map, transplanted the Earth Spirit Fruit Tree, and quickly rushed to the next target.

However.

After sweeping two tribes in succession.

But each one made him feel more disappointed.

The second tribe.

Apart from contributing some crystal nuclei and corpses to him, there are no other good things.

exactly.

There are good things, but he can't take them away.

Under this tribe, there is a second-level immortal mineral vein.

Things like mineral veins require a lot of manpower to be dug slowly.

Zhang Yuhe was completely uninterested.

For the time being, he has no plans to build a fairy city in the Chaos Continent.

Section 254

And even if you want to build a fairy city.

He also looked down upon this second-level immortal grade mineral vein.

At least we have to find one, third-level immortal grade mineral vein.

He looked down upon ordinary Acropolis.

Zhang Yuhe plans.

If you want to build a fairy city.

Then take one step and build a monarch-level fairy city directly.

But with his current strength.

A little bit worse.

He didn't want to be like Lu Yunfei.

Finally got it, and the fairy city was conquered by the Chaos Beast.

Therefore, according to Zhang Yuhe's plan.

Let's cultivate peacefully for another hundred thousand years.

By the time of the next beast wave, he should be able to reach Golden Immortal Dzigchen.

At least it can reach the late Golden Immortal stage

By that time, he should be strong enough to protect a monarch-level fairy city.

Zhang Yuhe flew quickly and soon arrived at the third Chaos Beast tribe.

He activated the Nine Heavens Hunyuan Sword Formation, several rounds of sword light and a few sticks.

Just wipe out this tribe.

Chaos beasts below six stars were like little sheep in front of him.

I can't help but beat him.

After putting away the items on the ground.

Zhang Yuhe mobilized his consciousness with all his strength and swept around.

However, after a while, he didn't find anything special.

Not only did they not find any valuable treasures of heaven and earth.

There isn't even a single vein of immortal minerals here.

"Is this a poor tribe? Has nothing?"

Thinking of this, he couldn't help but shake his head.

After all, it is normal for monks to have poor ghosts and chaos beasts to have poor ghosts.

After many rounds of spiritual consciousness.

He found nothing.

Maybe there really isn't anything good in this small tribe.

After repeated investigations.

After Zhang Yuhe determined that there was nothing good here.

Prepare to return to Yingyue City.

After all, we are still in the period of beast tide.

It seemed inappropriate for him to wander outside alone.

Return to Yingyue City early and see if you can, or go to other fairy cities to help.

"Hey, what is that?"

...

Chapter 219 Innate Spiritual Material

Just when Zhang Yuhe was about to leave.

He suddenly realized.

In front of the altar of this small tribe stands a huge stone.

On the surface.

This is just an ordinary stone.

It's just that it's a little bigger.

However, Zhang Yuhe did not find this huge stone when he opened his consciousness just now.

Something so obvious.

In his consciousness, he didn't even find it.

If it weren't for him, when preparing to go back.

If you glanced this way inadvertently.

It is really possible to ignore this huge boulder.

"I'm afraid there's something weird here."

Zhang Yuhe flashed his body and quickly came to the boulder.

He closed his eyes slightly, opened his consciousness again, and carefully examined the surrounding situation.

This time he paid special attention to the boulder in front of him.

However.

Even if the boulder is right in front of you.

But under his spiritual observation, there was an empty space in front of him.

Within the scope of his consciousness, this boulder did not exist at all.

This made Zhang Yuhe feel very surprised.

"What the hell is this?"

"You can actually completely avoid the detection of divine consciousness?"

He stretched out his palm and slowly pressed it on the boulder.

It feels exactly the same as an ordinary stone.

Such a big stone.

Visible and tangible.

It's just that the spiritual consciousness can't find it.

What a hell.

Zhang Yuhe gently waved his palm and slapped it on the boulder in front of him.

Click...

The boulder was like a spider web, instantly covered with tiny cracks.

Seeing this situation, Zhang Yuhe was very speechless.

Originally he thought.

What a treasure this stone is.

As a result, it cracked with just a light pat.

What the hell.

It can't really be just an ordinary stone.

Think of this.

Zhang Yuhe slapped his palm again.

This time he put a little more force into it.

Boom...

With a loud bang.

This strange stone was smashed into pieces by him.

Wait until the smoke clears.

I saw a sharp-edged crystal lying quietly among the rubble.

The surface of the crystal is unrealistic.

It doesn't look like anything special.

But when he saw this crystal stone, Zhang Yuhe couldn't help but be ecstatic.

Because he has already recognized the origin of this crystal stone.

This is an innate thing.

To be precise.

It is an innate spiritual material.

It is different from the Nine Heavens Flying Spirit Stick.

The Nine Heavens Flying Spirit Stick is a treasure of heaven and earth that has already been formed.

It can be used directly as an immortal weapon.

As for innate spiritual materials, no matter how they grow, they will never grow into an artifact form.

Can only be used as materials.

Section 255

However, such materials are extremely precious.

After the innate spiritual materials are refined into the immortal weapon.

The quality of the immortal weapons will be greatly improved.

Zhang Yuhe reached out and took the crystal stone on the ground in his hand.

I was extremely excited.

With this innate thing.

The power of the Nine Heavens Hunyuan Sword can definitely be greatly improved.

The only pity is.

There is only one innate thing here.

The Nine Heavens Hunyuan Sword is a set of immortal weapons composed of nine flying swords.

This innate object can only increase the power of one of the fairy swords.

despite this.

Zhang Yuhe was still extremely excited.

It would also be nice to be able to improve one of the fairy swords.

In fact, he had long been dissatisfied with the power of the Nine Heavens Hunyuan Sword.

As a natal magic weapon.

When forming the Nine Heavens Hunyuan Sword.

In terms of defense, the performance is indeed extremely extraordinary.

However, the attack ability of the sword formation was a bit lacking.

With his current strength.

When the sword formation is activated with all its strength.

Unexpectedly, even the four-star Chaos Beast cannot be killed.

He can only rely on the power of his own laws to imprison the Chaos Beast.

However, he used the stick again to slowly beat the Chaos Beast to death.

It feels a bit LO.

For this kind of fighting method.

Zhang Yuhe has always been dissatisfied.

If you can rely on the sword formation, you can kill the chaos beast directly.

That's what you call a cool guy.

But Zhang Yuhe thought about it.

After having this innate thing.

The power of the Nine Heavens Hunyuan Sword Formation should be improved a lot.

Return to Yingyue City first.

Incorporate the innate things into the golden sword.

Even if it only improves the quality of an immortal sword.

The power of the sword array can definitely be improved a lot.

Think of this.

Zhang Yuhe turned into a stream of light and flew quickly towards Yingyue City.

Half an hour later, he appeared on top of the city.

Saw Zhang Yuhe coming back.

Everyone couldn't help but feel very strange.

Did everyone guess wrong just now?

Didn't Zhang Yuhe go to sweep away the surrounding Chaos Beast tribe?

But just going out for a walk?

Otherwise, he wouldn't have been able to come back so quickly.

How long has it just been?

Less than half a day is not enough to reach one of the tribes.

Everyone doesn't know.

After understanding the laws of space.

Once Zhang Yuhe activates the Galaxy Wandering Dragon Body Technique with all his strength, he can quickly teleport forward.

The speed is far from comparable to that of a normal Golden Immortal monk.

Others need to run a distance of ten days.

It might not even take him half a day to run back and forth.

The Law of Space plus the Galaxy Wandering Dragon Body Technique.

This gives him a huge advantage over monks of the same level in terms of speed.

Nangong Youxi asked with concern.

"What's the situation outside? Did you encounter a large group of Chaos Beasts?"

Zhang Yuhe responded with a smile.

"No, I came back directly after wiping out the three tribes."

"I didn't encounter other armies of Chaos Beasts on the road."

He continued.

"I'll go back to practice first, and I'll contact you through the Immortal Mirror if anything happens."

After finishing speaking.

Zhang Yuhe turned into a stream of light and disappeared in front of everyone.

Everyone looked at each other.

"No way, Fellow Daoist Zhang wiped out all three tribes so quickly?"

"How did he do it in such a short time?"

"The last time I went out for inspection, I flew for five or six days in order to reach the edge of the Flying Snake Tribe."

"Fellow Daoist Zhang just went out and it took less than half a day. It's not that exaggerated."

"How about you go out and take a look and see if those three tribes are still there?"

"Nonsense, who would be okay during the beast tide and run into the wilderness?"

"If we encounter an army of Chaos Beasts, wouldn't it be completely lost?"

After everyone discussed quietly for a while, they fell into silence.

Many of them were very puzzled by Zhang Yuhe's words just now.

They were not doubting Zhang Yuhe's strength.

But in their opinion.

It is impossible for Zhang Yuhe, in such a short period of time.

Just cover all three tribes.

Not even one of the tribes can escape.

Even with the help of some speed talismans, it is impossible to be so fast.

Not to mention, all the chaos beasts in the tribe must be wiped out.

However, Zhang Yuhe didn't elaborate and went back to the cave to practice.

Everyone at the scene could only rely on their own imagination.

As for whether it is true?

They have no way to confirm it.

But everyone understands.

There is no need for Zhang Yuhe to lie.

In other words, he really did it in such a short period of time.

Just ran through the three tribes.

And he also smoothly wiped out the chaos beasts in the tribe.

As for Zhang Yuhe, what means did he rely on.

In such a short period of time.

Just ran back and forth from three tribes.

Then everyone won't know.

Because this is beyond everyone's understanding.

...

Chapter 220 The Battle of Tiangong City

After returning to the cave.

Zhang Yuhe came to the weapon refining room next to him.

Section 256

The Nangong Immortal Clan treats the Golden Immortal monks like them very well.

Not only everyone has an independent courtyard covering a large area.

Moreover, the facilities in the cave are also fully equipped.

The training platform, alchemy room, weapon refining room, and even the leisure area are all neatly arranged.

In the center of the refining room stands a tall platform.

Runes flashed on the platform.

Zhang Yuhe waved his right hand.

A large four-legged cauldron instantly landed on the high platform.

He carefully took out the crystal-like innate spiritual material.

Then he waved his right hand again.

A magnificent sword slowly floated in front of him.

At the hilt of the fairy sword.

Engraved with [Galaxy.Gold], three small words.

This is exactly the metallic fairy sword in the Nine Heavens Hunyuan Sword.

The entire set of Nine Heavens Hunyuan Sword consists of nine fairy swords in total.

One handle for each of the eight attributes: gold, wood, water, fire, earth, wind, thunder, and ice.

Coupled with a Hunyuan Sword without attributes, it forms a complete set of natal magic weapons.

There is only one innate spiritual material.

That is to say.

He can only choose one of the fairy swords to improve its quality.

at the very beginning.

Zhang Yuhe originally planned to upgrade the Hunyuan Sword without attributes first.

In the whole set of natal magic weapons.

The Hunyuan Sword is the key to the Goulian Sword Formation.

But Zhang Yuhe thought about it.

His current goal is to improve the attack capability of the sword array.

Rather than the coordination ability of the entire sword formation.

so.

After much consideration.

Zhang Yuhe set the goal of improvement on the metallic fairy sword.

The gold owner kills.

Just integrate the innate spiritual materials into the metallic fairy sword.

The killing power of the entire sword array will definitely be greatly improved.

After making a decision.

Zhang Yuhe put the metallic fairy sword and innate spiritual materials into the four-legged cauldron at the same time.

Follow the magic formula and pinch it.

The scorching flame instantly ignited from the bottom of the cauldron.

Zhang Yuhe sat down cross-legged and silently observed the changes in the cauldron.

It is different from refining immortal weapons.

Refining immortal weapons takes a long time.

Even if Zhang Yuhe takes action.

It would take him nearly half a year to refine an immortal weapon.

However, it does not take much time to integrate the innate spiritual materials into the finished fairy weapon.

Generally speaking, it only takes two or three days.

It's just that the process of integrating innate spiritual materials into immortal weapons is extremely complicated. .

Must be carefully controlled and observed.

In case integration fails.

Not only the innate spiritual materials will be wasted.

Even the original fairy sword will be scrapped together.

To know.

This is his magic weapon.

Once his natal magic weapon is damaged, he himself will also suffer extreme harm.

Therefore, Zhang Yuhe did not dare to be careless at all.

He devoted all his attention and silently observed the changes in the cauldron.

...

Time passed slowly.

When the beast tide progressed, on the third day.

The battle situation in the entire area has entered a fever pitch.

Some fairy cities have insufficient defensive strength.

It has been captured by the Chaos Beast.

Most of the monks in the city escaped through the teleportation array.

But there are still many people.

Because he was being stared at by the Chaos Beast.

Even when the fairy city was breached, they could not escape.

The fate of these monks awaits.

There are only two kinds.

Or just blow yourself up and be done with it.

Or he would fight to the end, be captured by the Chaos Beast, and be used as a sacrifice.

However, the Immortal City under the Nangong Immortal Clan is still basically intact for the time being.

There is no fairy city yet, it was conquered by the Chaos Beast.

...

Outside Tiangong City.

The battle situation has reached a fever pitch.

On the four walls of Tiangong City.

A total of more than two hundred medium-grade immortal-killing cannons were firing continuously.

After each round of gunfire.

A large number of Chaos Beasts will fall.

These middle-grade immortal cannons are the accumulation of the Nangong Immortal Clan over countless years.

It is precisely through these immortal cannons.

Only then can they repel the Chaos Beasts again and again in the tide of beasts.

Even in the Great Immortal Meteor Catastrophe.

Tiangong City has never been attacked by a Chaos Beast.

However, there are so many medium-grade immortal cannons that fire continuously.

The number of crystal nuclei consumed is also an astronomical figure.

But as long as the fairy city is defended, no matter how much expenditure it takes, it will be worth it.

The Nangong Immortal Clan can fully afford such consumption.

Nangong Tianming stood on the city wall, looking at the dense tide of beasts outside the city.

He didn't take action.

In order to break through the monk's fairy city, the chaos beast will also try various methods.

For example, a war of attrition.

Compared to Chaos Beast.

The monks couldn't bear the consumption at all.

Once the immortal energy in the Dantian is exhausted, the monk's combat ability can no longer be sustained.

So, as long as the situation can be maintained.

Nangong Tianming will not take action.

He wants to keep himself at his peak.

To cope with unexpected situations that may arise at any time.

But although Nangong Tianming didn't take action.

But the Nangong Immortal Clan and the other two Taiyi Immortal Lords had no reservations.

They had already entered the beast tide and were fighting with the chaos beasts in the Taiyi Realm.

Section 257

There are three Taiyi Immortal Lords in the Nangong Immortal Clan.

Except for the oldest Nangong Tianming.

The other two Taiyi Immortal Lords are Nangong Tianxin and Nangong Tianyu.

At this time, Nangong Tianxin was holding a sparkling fairy gourd.

Follow the movements of the magic formula in his hand.

Countless sword lights shot out from the gourd.

The sword light filled the sky like raindrops, quickly striking at a tall humanoid chaos beast.

Nangong Tianyu was one against three.

Three strange orb-like artifacts surrounded him.

Whenever he activates these beads.

The three chaos beasts would immediately distance themselves and be on guard.

obviously.

The power of these three strange orbs must be extremely extraordinary.

Only then did the three Chaos Beasts from the Taiyi Realm dare not approach too closely.

But that's all they can do.

Taiyi Realm Chaos Beasts with seven stars or above are extremely powerful.

Even Taiyi Immortal Lord of the same realm would find it difficult to kill a Chaos Beast with seven stars or above.

Nangong Tianming stood on the city wall, staring at the beast tide outside the city.

So far, the beast tide has lasted for three days.

However, there are only these four Taiyi realm chaos beasts that have appeared near Tiangong City.

This is obviously something abnormal.

If he chooses to take action.

It is completely possible to keep all these four Chaos Beasts from the Taiyi Realm.

But Nangong Tianming did not do this.

He would rather watch the meat on his lips slip away than take the risk.

As far as he knows.

There are dozens of Taiyi realm chaos beasts in Mingsha Ridge alone.

Even Mingsha Ridge still needs to separate some chaos beasts to attack other fairy cities.

Then there shouldn't be so few people coming to Tiangong.

In past beast tides.

There are sometimes more than five or six Taiyi realm chaos beasts attacking Tiangong City.

Sometimes, more than ten will appear at the same time.

This time, surprisingly, only four Taiyi Realm Chaos Beasts came.

This is too abnormal.

Nangong Tianming has been keeping in touch with the nearby monarch-level fairy city.

However, in several surrounding Sovereign-level immortal cities, the scale of the beast tide is normal.

Pretty much the same as before.

Although the pressure is still great, everyone is well prepared and can still cope with it.

He was the only one in Tiangong City who seemed to be ignored by the Chaos Beast.

"Could it be that the Chaos Beast in Mingsha Ridge is harboring some bad intentions?"

"They are not plotting against Tiangong City, are they?"

Think of this.

Nangong Tianming couldn't help but felt a chill in his heart.

At every time of beast tide.

Chaos beasts will choose a monarch-level fairy city as a key target for attack.

Occasionally, there will be a monarch-level fairy city because the defensive power is insufficient.

It was finally broken by the Chaos Beast.

If the Chaos Beasts from Mingsha Ridge will target Tiangong City.

Then their situation may not be good.

Now there is war everywhere.

Even if he asks for help from other major forces, others will not be able to spare their hands.

If they want to defend Tiangong City, they can only rely on themselves.

"If it really doesn't work, then abandon the outer acropolis and concentrate all our strength to defend Tiangong City."

Nangong Tianming silently made up his mind.

Although it seems now.

There was no pressure on their defense.

Even he himself has not taken action yet.

But Nangong Tianming knew.

Maybe this is the calm before the storm.

The real war has not yet begun.

...

Chapter 221 Overturning

Southeast of Tiangong City, millions of miles away.

A group of tall figures stood in the wilderness.

Behind them, countless Chaos Beasts stood densely packed.

These chaotic beasts all exude an aura as deep as the abyss.

Shockingly, they are all four-star or above, Golden Fairy Realm Chaos Beasts.

A large number of Golden Fairy Realm Chaos Beasts, thousands in number, stood quietly in the wilderness.

A tall humanoid Chaos Beast, holding a huge hammer in his hand, stood at the front of the team.

It is none other than the High Priest of Mingsha Ridge, the Nine-Star Chaos Beast, and the Sand Demon Sky.

And the team around it is the real elite force of Mingsha Ridge.

There are thousands of Chaos Beasts in the Golden Fairy Realm, and there are more than thirty Chaos Beasts in the Taiyi Realm.

Such a powerful lineup can be thrown into any battlefield.

It is possible to turn the situation around in an instant.

However, the beast tide has lasted for three days.

But Sha Motian has always held this strongest ace in his hand.

Didn't type out.

They were staying millions of miles away from Tiangong City.

Quietly observe the entire battle situation.

Sha Motian looked in the direction of Tiangong City with a silent expression.

No one knows, what is it thinking?

At this time, a humanoid Chaos Beast standing nearby asked in a low voice towards Sand Demontian.

"High Priest, why don't we take action?"

Sha Motian asked calmly.

"What are the current conditions in other nearby cities?"

The humanoid Chaos Beast next to him quickly reported.

"Based on the latest news, the monarch-level fairy city near Tiangong City has been completely suppressed by the neighboring tribes."

"They are unable to protect themselves now, and they will definitely not be able to support Tiangong City."

Sha Motian stood aside and listened silently.

Every time there is a sacrificial ceremony, there is a back-and-forth attack and defense between the monks and the chaos beasts.

Although both sides will suffer losses, they will also gain something.

But Sha Motian was already a little tired of it.

It thinks that if it wants to do something, just play a big one.

If they can break through Tiangong City.

Then it will definitely be possible to capture a large number of sacrifices.

And the Mingsha Ridge tribe can take advantage of this opportunity to rise.

Maybe it itself can take the opportunity to break through to the realm of the king beast.

But Sha Motian also knows that Tiangong City is not that easy to fight.

Section 258

The three Taiyi Immortal Lords of the Nangong Immortal Clan, with the blessing of the city formation.

Able to display super strength.

Nangong Tianming, in particular, is the focus of Sha Motian.

Nangong Tianming was already Taiyi Immortal Lord hundreds of millions of years ago.

Even as a nine-star chaotic beast, Sand Demontian was not sure.

Can beat Nangong Tianming.

After the formation was activated in Tiangong City, it became even more unbeatable.

But this time, it's an opportunity.

This time, all the major tribes nearby mobilized in large numbers.

All other monarch-level immortal cities were suppressed to death.

If they concentrate their efforts to launch an attack at this time.

The Nangong Immortal Clan should be unable to find support.

If there is no other external support.

Sha Motian is fully confident that he can capture Tiangong City.

Think of this.

Sand Demon raised the hammer high in his hand.

he shouted with excitement.

"Warriors, rush forward together and capture Tiangong City."

"For the sake of the tribe, let us catch sacrifices as much as we can."

Roar.....

Roar.....

Sha Motian just said two short sentences.

This aroused all the emotions of the Chaos Beasts present.

Countless chaos beasts roared loudly at the same time.

It's like the Tiangong City is right at their feet.

They only need a little bit of strength to crush Tiangong City.

Sha Motian leads the way.

It waved the giant hammer in its hand and rushed towards Tiangong City quickly.

Behind it, there are more than thirty Taiyi realm chaos beasts with seven stars or above.

As for the Golden Fairy Realm Chaos Beasts further back, there are thousands of them.

Mingsha Ridge went out in force.

The majestic pressure came over Tiangong City in an instant.

"Sure enough, Soaring Heaven Palace City is coming."

Nangong Tianming stood on the tower, watching the Chaos Beast rising into the sky in the distance.

he knows.

I'm afraid I won't be able to be kind this time.

It seems that Mingsha Ridge is determined to defeat Tiangong City.

Nangong Tianming looked around and looked into the distance.

Seeing the more than thirty Taiyi Realm Chaos Beasts, he couldn't help but have a headache.

Thirty-five seven-stars and two eight-stars.

Coupled with the Nine-Star Great Priest Sha Motian, this is the full strength of Mingsha Ridge for this dispatch.

As for those Chaos Beasts below seven stars.

Nangong Tianming didn't even look at it.

He just needs to hold back all the chaotic beasts in the Taiyi Realm.

Chaos beasts below seven stars will naturally be dealt with.

In order to deal with this beast tide, the Nangong Immortal Clan recruited a large number of monks.

Although in terms of quantity, it cannot be compared with the Chaos Beast.

But still with the blessing of the formation, it will definitely not suffer much loss.

The premise is that they can hold back all these Chaos Beasts in the Taiyi Realm.

Think of this.

Nangong Tianming took out an Immortal Mirror and quickly cast a spell.

"Evacuate all the acropolis and concentrate on protecting Tiangong City."

After conveying the order.

Nangong Tianming rose into the sky and landed on a huge fairy ship in mid-air.

The Tiangong fairy ship.

This is Nangong Tianming's biggest reliance.

As long as this fairy ship is here, you can move forward and retreat freely.

No matter how many chaos beasts there are, he is not afraid at all.

"snort."

Sha Motian looked at Nangong Tianming who was standing on top of the fairy ship.

It couldn't help but let out a cold snort.

In past beast tides.

It is precisely because of the existence of this fairy ship that it has suffered so much.

But this time is different.

This time it came prepared.

Moreover, Mingsha Ridge has a tenfold numerical advantage.

It doesn't believe it.

This time Nangong Tianming can still have fun.

Think of this.

Sand Demontian raised his giant hammer high and shouted loudly towards the surrounding Chaos Beasts.

"For the Horde, attack."

Roar.....

The boundless chaos beasts rushed towards Tiangong City crazily.

The monks guarding the city retreated under the city wall.

Prepare to rely on the blessing of formations to gradually eliminate the beast tide.

"snort."

Nangong Tianming pinched the magic formula.

The fairy ship turned into a stream of light and quickly rushed towards Sand Demon Sky.

Boom...

Three thick gun barrels protruded from the front of the fairy ship.

The cannon barrel shone with fierce rainbow light and blasted directly towards the three seven-star chaos beasts.

Eight-star and nine-star chaos beasts are not that easy to kill.

So Nangong Tianming targeted those seven-star chaos beasts.

he thought.

As long as you can, kill a few seven-star chaos beasts.

Mingsha Ridge did not dare to continue the attack.

It will inevitably be withdrawn directly.

The Seven-Star Chaos Beast is no cabbage.

Mingsha Ridge cannot afford the loss.

Facing the firepower of the top-grade Immortal-Destroying Cannon, the Seven-Star Chaos Beast could not withstand it.

However.

at this time.

An eight-star chaos beast standing next to Sand Demon Sky. Suddenly he took out an oversized tippet.

The tipping bucket stretched forward and directly sucked in the rainbow light from the top-grade immortal-killing cannon.

The powerful power of the Immortal-Destroying Cannon was directly eliminated invisibly by this tip in the hands of the Chaos Beast.

See this situation.

Sha Motian couldn't help but laugh wildly.

"Hahaha, old monster Tianming, there is no threat from the high-grade immortal-killing cannon. Let's see how you die this time."

Sand Demontian swung his huge hammer and rushed towards Nangong Tianming quickly.

...

Chapter 259

Chapter 222 Support Tiangong City

Yingyue City.

Zhang Yuhe looked at the fairy sword in front of him and couldn't help but smile.

After three days of hard work.

He finally perfectly integrated the innate spiritual materials into the metallic fairy sword.

Zhang Yuhe stretched out his finger and flicked the sword blade gently.

Sounds like dragon roars kept coming from the fairy sword.

After integrating the innate spiritual materials.

This metallic fairy sword is even more sharp.

He had a premonition.

If the Nine Heavens Hunyuan Sword Formation is activated now, it will definitely kill the four-star Chaos Beast.

"It's a pity that there are no Chaos Beasts around here for me to test."

The quality of the fairy sword has just been improved.

Zhang Yuhe felt a little itchy.

I really want to find a large wave of chaos beasts to kill Ji Qi.

It's a pity that all the chaos beasts around Yingyue City have been killed by him long ago.

Even the tribal lair of the Chaos Beast has been uprooted by him.

so.

Zhang Yuhe wanted to find a large number of chaos beasts nearby to test the power of the fairy sword.

That can't find the target.

at this time.

His expression suddenly changed.

An immortal mirror appeared in his hand.

After playing a magic formula.

Nangong Youxi's voice came from the fairy mirror.

"Come quickly and gather in the teleportation hall."

"Eh? Are you going to other fairy cities to support us?"

He didn't know what happened.

But if we gather in the teleportation hall.

Maybe they need to go to other fairy cities to support them.

Anyway, just go and take a look and you will know.

Zhang Yuhe put away the Immortal Mirror and quickly turned into a stream of light, flying towards the Teleportation Hall.

When he came to the teleportation hall, he couldn't help but be shocked when he saw the situation in front of him.

I saw that the main hall was full of monks.

Not only the eleven Golden Immortal cultivators in Yingyue City are all gathered here at this time.

Not even any of the true immortal disciples were left, and they were all gathered in the main hall.

This left Zhang Yuhe completely confused.

This means going out in full force.

Even if they go to other fairy cities to support.

Don't you want Yingyue City?

He felt very puzzled.

...

See everyone present.

Nangong Youxi said solemnly.

"I just received a message from my ancestor. Mingsha Ridge is concentrating all its efforts on attacking Tiangong City."

"Ancestor Tianming ordered us to abandon all the acropolis and return to defend Tiangong City with all our strength."

Upon hearing the news, the scene exploded instantly.

How serious is the situation in Tiangong City?

Will they let them abandon all the acropolis?

Yingyue City is pretty good.

After all, they had cleared out the beast tide here three days ago.

It is completely easy to evacuate now.

But other acropolis are not so easy.

Many monks defending the Acropolis.

Maybe he was fighting with the Chaos Beast.

How could those people withdraw?

But these are not things they should care about.

Everyone is just worried.

Could it be that Tiangong City can no longer support it?

That's why they were all transferred back to support.

Just like this.

It might be over there, it's a flesh and blood mill.

despite this.

No one said anything else.

The war between monks and chaos beasts has existed for countless years.

Every monk who comes to Chaos Continent should have this awareness.

Either you gain resources in bloody battles, or you lose in them.

Nangong Youxi glanced at everyone, and then quickly used the magic formula.

A dazzling light rose from the teleportation hall.

Everyone disappeared instantly.

Tiangong City Teleportation Hall.

A disciple in blue couldn't help but be overjoyed when he saw them teleporting over.

He said loudly to Nangong Youxi.

"Ancestor Youxi, please take people to the east gate to provide support."

"There are many seven-star chaos beasts over there, and Ancestor Tianxin is almost unable to stop them."

"Come with me."

I heard the situation was critical.

Nangong Youxi didn't hesitate, she waved her hand.

He quickly led everyone and flew towards the east gate of Tiangong City.

After a while.

Everyone came to the east gate wall.

Seeing the situation in front of them, everyone was completely shocked.

I saw monks outside the city fighting with a large number of Chaos Beasts.

The number of Chaos Beasts was far beyond their imagination.

There are thousands of Chaos Beasts in the Golden Immortal Realm with four stars or above.

As for the low-level chaos beasts below three stars, the number is over one million.

The number of monks in Tiangong City is not even one-tenth of the Chaos Beasts.

What's more, there are more than thirty Chaos Beasts from the Taiyi Realm in the distance.

There are only three Taiyi Immortal Lords from the Nangong Immortal Clan.

The huge numerical gap made the Nangong Immortal Clan tired to deal with it.

Nangong Tianming was leaning against the fairy ship, wearing a black fairy armor.

With a jade plate-shaped fairy weapon, more than ten Taiyi realm chaotic beasts were all restrained nearby.

Among them were a nine-star and two eight-star chaos beasts.

Nangong Tianxin and Nangong Tianyu also showed their strength and tried their best to hold back the remaining Taiyi realm chaos beasts.

However.

Because the number of Chaos Beasts is too much.

Even if they tried their best, they couldn't contain all the Taiyi Realm Chaos Beasts.

Occasionally, a Seven-Star Chaos Beast would be missed.

These high-level Chaos Beasts, once they were free.

Section 260

Will cause great harm to other cultivators.

Seeing the critical situation.

Nangong Youxi said nothing and jumped off the city wall to kill.

Other cultivators did not hesitate at all.

Everyone jumped off the city wall to support the Taoists who were fighting outside the city.

It was just because the number of Chaos Beasts was too many.

The hundreds of people who came to support from Yingyue City were soon overwhelmed by a large number of Chaos Beasts.

Xie Mingyuan activated an immortal sword, and he had just slashed a few swords.

Suddenly, a Chaos Beast appeared from nowhere and appeared directly behind him. .

He quickly activated the power of the immortal body.

The Chaos Beast struck him fiercely.

Xie Mingyuan flew back hundreds of miles before slowly stabilizing his body.

He was not injured.

"Fortunately, I have cultivated an immortal body."

"Otherwise, the previous blow would have been over."

He took a deep breath and continued to rush into the beast tide.

After the formation of the immortal body, it is difficult for the Chaos Beasts below three stars to seriously injure him with one blow.

In this case.

Then there is no need to worry, just let go and fight hard.

As long as he does not provoke those Chaos Beasts above four stars, he will be safe.

And Xie Mingyuan thought.

If he does not seize the time and kill a few more Chaos Beasts.

He is afraid that he will have no chance later.

He still remembers.

Three days ago in Yingyue City.

Ancestor Zhang used a sword formation to wipe out all the low-level Chaos Beasts.

It made these True Immortal disciples have nothing to do.

This time, we must speed up.

Otherwise.

Once Ancestor Zhang takes action.

They can only stare blankly again.

Thinking of this.

Xie Mingyuan deliberately glanced at the city wall.

At this time, Zhang Yuhe was standing on the city wall and had not made a move.

...

Chapter 223 Go big and do it.

Zhang Yuhe stood quietly on the city wall.

He was not in a hurry to take action.

In his opinion.

Although there were indeed quite a few Chaos Beasts outside Tiangong City.

But as long as he was willing.

Once he used all his strength to activate the Nine Heavens Primordial Sword Formation.

These Chaos Beasts would not take much effort to kill.

Chaos Beasts below three stars.

No matter how many there were, they could be killed with a flick of the hand.

Even Chaos Beasts in the Golden Immortal Realm above four stars were not difficult to deal with.

The only trouble was how to deal with those Chaos Beasts in the Taiyi Realm.

Now outside Tiangong City.

In addition to more than a million low-level Chaos Beasts, there were also thousands of Chaos Beasts in the Golden Immortal Realm.

More importantly, there were more than 30 Chaos Beasts above seven stars.

These high-level Chaos Beasts were not easy to deal with.

Zhang Yuhe thought.

What if he just activated the sword formation and a few Seven-star Chaos Beasts came to kill him.

Wouldn't that be very annoying?

Under normal circumstances.

He would definitely not be able to beat the Seven-star Chaos Beast.

If there were multiple Chaos Beasts at the same time, it might be a bit dangerous.

Then the problem came.

Once he activated the Nine Heavens Primordial Sword Formation.

He would definitely become a thorn in the eyes of the Chaos Beasts.

What if the three Taiyi Immortal Lords of the Nangong Immortal Clan.

Failed to hold back all those high-level Chaos Beasts.

Those Seven-Star Chaos Beasts would come to him like crazy?

He could still deal with one or two.

If there were too many Seven-Star Chaos Beasts,

he really couldn't handle them.

He might get beaten up.

It was because of these considerations that he didn't rush to take action.

Zhang Yuhe stood quietly on the city wall, looking at the tragic battlefield in the distance.

He muttered to himself.

"Why not just open the Primordial Return to Oneness magical power and do a big one?"

With his current cultivation level of the middle stage of the Golden Immortal.

Once the Primordial Return to Oneness magical power is opened.

It is estimated that his strength can be raised to the level of the Golden Immortal Great Perfection.

Maybe he could even kill the Seven-Star Chaos Beast.

But if that were the case.

For the next period of time, he would not be able to go out and wander.

Without the Hunyuan Guiyi magical power,

Zhang Yuhe felt completely insecure.

"Let's do it."

After hesitating for a while, he quickly made up his mind.

Just start to do it.

The beast tide has continued to this day, and it has been the third day.

Normally, it is almost over.

There shouldn't be any more dangerous things in the future.

It is not a waste to use Hunyuan Guiyi now.

Thinking of this.

Zhang Yuhe did not hold back any more, and he quickly activated the Hunyuan Guiyi magical power.

At this time, the aura on his body suddenly rose rapidly, until after the Golden Immortal Great Perfection.

It slowly stopped.

The cultivators who were fighting with the Chaos Beast saw Zhang Yuhe suddenly burst out with a powerful aura.

They were all shocked.

Among these people, except Xie Mingyuan, who had seen him use this magical power.

No one else had seen it.

They had never heard of the magical power of instantly improving two small realms.

It was just in everyone's opinion.

Now there are countless Chaos Beasts outside the city.

Even if Zhang Yuhe improves his strength to the Great Perfection of the Golden Immortal, it will not have much effect.

It cannot ultimately change the situation of the battle.
