### Section 26

Zhang Yuhe nodded.

"Is Senior Brother Ming here?"

"The guardian envoy of Ming Dynasty is in the mansion."

The former garrison envoy of Yunzhong Mansion was called Mingfu Qian. They have not yet completed the handover. Strictly speaking, the other party is still the garrison envoy here.

"Lead the way."

Under the leadership of the golden-armored monks, Zhang Yuhe quickly reached the top of the mountain.

I saw a magnificent mansion standing quietly on the top of the mountain. On the plaque on top of the gate of the mansion, the words "Yunzhong Guards Palace" were solemnly written.

At this time, a fat young monk walked out of the house.

"Ah, is this junior brother the new guard envoy? I have been waiting for you for a long time."

"I've met Senior Brother Ming."

Zhang Yuhe cupped his hands and shouted.

"Junior brother, please come in quickly. I will introduce you to the situation of Yunzhong Mansion."

Before Ming Fu, he enthusiastically pulled Zhang Yuhe through the gate and walked into the mansion.

The two sat down in the inner hall, and several beautiful maids soon appeared and served tea and fruit desserts.

After Ming Fu waved the maid out, he smiled and asked Zhang Yuhe.

"Junior brother looks a little unfamiliar, I don't know how to call him."

Zhang Yuhe immediately replied politely.

"Junior brother Zhang Yuhe just entered the inner sect a hundred years ago."

"A hundred years ago, Zhang Yuhe..."

Before paying, he tapped his fingers lightly on the table, as if he was remembering something.

Suddenly he suddenly remembered.

"You are the junior brother who joined the sect with a token a hundred years ago."

"It's my little brother."

Zhang Yuhe replied with some embarrassment.

He found that although these people didn't know him, they all knew his name.

It can only be said that compared to other inner disciples, his origin is indeed a bit too special.

## Chapter 26 The five major forces in Yunzhong Mansion

Hearing that Zhang Yuhe was the junior disciple who joined the inner sect through a token a hundred years ago, Mingfu couldn't help but be secretly surprised.

To be able to be arranged by the elders to serve as the guardian of Yunzhong Mansion, one must have at least reached the realm of Nascent Soul.

Without the support of one's own strength, it is definitely not possible to rely solely on the guardian's cards. Then why not make people fool like fools?

"Did it only take him a hundred years to break through from Qi refining to the Nascent Soul realm?"

"impossible."

Before paying, he quietly released his spiritual consciousness and silently checked Zhang Yuhe's aura.

This detection didn't matter, he couldn't sense Zhang Yuhe's breath at all.

I couldn't help but be shocked before I paid.

"Has he already broken through to the state of becoming a god?"

"Absolutely impossible."

He shook his head secretly before paying.

It takes a hundred years to cultivate to become a god? Even the reincarnation of a true immortal cannot do it.

Looking at Zhang Yuhe opposite, holding a teacup and quietly drinking tea, I felt a little itchy before paying the bill.

He really wanted to know what kind of cultivation Zhang Yuhe was at this time, but obviously he couldn't ask this kind of thing face to face.

"I don't know what the current situation is like in Yunzhong Mansion. I would like to ask my senior brother to introduce it to me."

After taking a sip of tea, Zhang Yuhe asked humbly.

If he wants to stay in Yunzhong Mansion for a long time in the future, of course he needs to understand the situation here first.

I have stayed here for decades before Mingfu. I think I should know a lot of information. It will be easier to inquire more about it in the future.

And this is also the normal procedure for the handover of a guard envoy. Of course, whether others are willing to tell you the truth is up to you.

He pondered for a while before paying, and then he spoke.

"Not to mention the two-star or lower powers, there are five three-star powers in Yunzhong City, namely Qian's, Sun's, Li's, He's, and Fengxin Tower."

"Among them, the Qian family and the Sun family have a good relationship with the governor's office. They have family members who are practicing in the outer sect of Daosheng Sect. They should be trustworthy."

"As for the Li family and the He family, these two families have been rooted in Yunzhong Mansion for tens of thousands of years. Their influence spreads across dozens of cities in Yunzhong Mansion. Their strength should not be underestimated. However, they are relatively peaceful and have always wanted to arrange for their family members to join the Taoist family. Holy Sect, it just hasn't been successful."

"By the way, the ancestor of the He family heard that hundreds of years ago, he was already the Nascent Soul Dzogchen. Now I don't know whether he has sat down or has broken through to the realm of god transformation. Junior brother needs to pay attention to it."

"As for Feng Xin Tower, although they seem mysterious, they are actually not very strong. The owner is just a newbie to Nascent Soul."

Before paying tomorrow, I briefly talked about the major forces in Yunzhong Mansion.

Zhang Yuhe listened quietly and nodded silently.

Yu Fantian's indigenous forces have an irregular way of dividing them.

A force with Foundation Establishment monks in charge is called a one-star force, and a force with Golden Core monks in charge is called a two-star force.

The three-star forces must have Nascent Soul cultivators in charge, while the four-star forces must have god-transformation cultivators.

The highest one is the five-star force, which has Void Refining monks in charge. However, there are not many five-star forces in the entire Yufantian, and they are basically distributed in major cities.

As for the five-star upwards, there is no such thing. The Dao Sheng Sect does not allow such an awesome force to exist.

Of course, Dao Sheng Sect does not count.

It is rumored that there are Mahayana monks in Daosheng Sect. Strictly speaking, they should be considered a seven-star force.

However, Dao Sheng Sect is the maker of the rules, and a few stars are not important to them.

There are five three-star forces in Yunzhong Mansion. Even if the ancestor of the He family breaks through to the realm of god transformation, Zhang Yuhe doesn't take it to heart.

It's just that what I said before I paid was all the power on the surface.

For him, nothing on the surface is a trouble, he is just afraid that there are some hidden forces that he doesn't know about.

Thinking of this, Zhang Yuhe continued to ask.

"Senior Brother Ming, I wonder if there are any hidden forces in this Yunzhong Mansion?"

Ming paid before shaking his head and replied.

"Then I don't know, at least I haven't heard of it."

Zhang Yuhe still refused to give up and continued to ask.

"In the history of Yunzhong Mansion, can there be records of the activities of the demon clan or the demon god sect?"

"No, let's not talk about the demons. As an outsider species, the demons will emit a strong demonic aura once they appear. They can be sensed even from hundreds of miles away, and their whereabouts are almost impossible to hide."

"As for the Demon God Sect, I have been here for decades and have not received any relevant information. Even going back thousands of years, Yunzhong Mansion has no records of the Demon God Sect's activities."

Zhang Yuhe nodded to express his understanding. He just asked casually and did not take it seriously.

After all, the Demon God Sect cannot see the light of day. It is a big deal for Dao Sheng Sect to come out for activities occasionally.

Yunzhong Mansion is just a place, so it is normal that it has not appeared before.

The two chatted for a while, then stood up and said before paying.

"Let's hand over the matter first. I have to return to the sect for retreat as soon as possible. I sensed an opportunity for a breakthrough before. If I miss this opportunity, I don't know how long it will take to wait until next time."

"good."

The two quickly handed over the seal and the city's formation control center and other things.

After the matter was done, the two of them walked out of the house, released the flying boat before leaving tomorrow, and said to Zhang Yuhe.

"Junior brother, please sit here with peace of mind. I will return to the sect first."

"Goodbye, Senior Brother Ming. If you have any questions in the future, please use Jade Communication to ask Senior Brother for advice."

"Easy to say."

After Ming Fuqian finished speaking, he led a group of people onto the flying boat and left.

Mingfu Qian is not alone. As a native, he also has family influence.

When he first came to Yunzhong City to take up his post, he brought a large group of people with him, and now he naturally has to take them with him when he leaves office.

In fact, most of the disciples of Daosheng Sect's inner and outer sects came from various forces, and it was rare to be alone like Zhang Yuhe.

This is also a means for Dao Sheng Sect to contact and control various forces.

By recruiting disciples, all forces are tightly bound together.

After leaving before Mingfu, the entire garrison became empty in an instant.

Looking at the remaining two kittens, Zhang Yuhe was speechless.

How the hell is he going to do this? If there is no one to help him, then he is blind and deaf, and he has no idea of the information outside.

You can't just go around patrolling every day if you have nothing to do. Then why don't you practice?

And just by himself, no matter how diligent he is, he can't do it.

You know, Yunzhong Mansion is not just a city, it also manages hundreds of small and medium-sized cities.

It doesn't mean that as long as the city is fine, the city below is also within the scope of his supervision.

If trouble occurs in the city below, the responsibility will also fall on his head.

"We have to think of a way to get some people to help."
