Section 27

Zhang Yuhe's mind was spinning rapidly, and he was thinking about where to find someone.

Asking players for help is one way to go, but the players are not very strong now, and their highest cultivation level is only at the foundation building level. I have never heard of players at the golden elixir level.

What's more important is that players are scattered all over the place, and Yunzhong Mansion probably doesn't have many players.

It's definitely not possible to rely on players alone, you have to find some local forces to help.

...

Chapter 27 Qian Lingling

On the flying boat, he looked up at the sky before leaving, and said to himself leisurely.

"The water in Yunzhong Mansion is too deep. I hope Junior Brother Zhang can control it, right?"

An old man who looked like a butler next to him shook his head and said.

"It's hard to say. Although I can't see through the cultivation of this new guardian, his cultivation time is too short, so he won't be too strong. But the He family is full of weirdness, and there are people behind it, so I'm afraid he won't be able to control it. ah."

The aura exuding from this butler's body was stronger than before Ming Fu, and he was clearly a god-transformation monk.

When Ming Fuqian served as the garrison envoy of Yunzhong, the Ming family specially arranged for the old man to come with him to help him handle affairs.

After hearing the butler's words, Mingfu nodded, indicating that he agreed with this view.

"Forget it, don't talk about him, as long as we can get out of this muddy water."

"If we leave like this, will something happen later?"

The old man who looked like a housekeeper asked, still a little worried.

"Then it has nothing to do with us. I have said everything that needs to be said, and I also reminded him to pay attention to the He family."

The housekeeper stood aside silently and asked tentatively after a while.

"Sir, do you think the He family might be colluding with the Demon God Sect?"

Hearing this, Mingfu Qian couldn't help but be startled, and he quickly denied it.

"It's impossible. They don't have the courage to collude with the Demon God Cult. Once something happens, the whole family will be destroyed. It's impossible for the He family not to understand."

In the world of Yu Fantian, there is still room for discussion on other matters, but once you actually collude with the Demon God Sect, you will definitely die.

No matter how big a force it is, it must be uprooted. Dao Shengzong will never be lenient towards this kind of thing.

The housekeeper said leisurely.

"I hope I guessed wrong."

Feizhou arrived at the teleportation hall, and a group of them quickly teleported away.

...

Zhang Yuhe was sitting in the inner hall, tapping the table with his fingers.

There are three gangs of heroes, and he obviously cannot control the entire Yunzhong Mansion by himself.

But who to ask for help is a question worth pondering.

According to Mingfu Qian, each of the Qian family and the Sun family has children practicing in the outer sect of the Daosheng Sect, which should be fairly reliable.

As for the other three, that's not good.

Zhang Yuhe agrees with this statement. There are children in the family who are practicing in the sect, and they obviously want to blend in and generally won't cause trouble.

As for the He and Li families, it's hard to say.

According to what Mingfu said before, these two families also wanted to send disciples to join the sect, but they generally had no connections and failed.

Zhang Yuhe didn't believe this statement at all.

Although the Daosheng Sect has very high standards for recruiting disciples, normal people have absolutely no access.

However, the He and Li families, both of which have been in the family for tens of thousands of years, have never even had an outside disciple. This is very questionable.

Is it because he is not talented enough?

Totally impossible.

These two families are hugely powerful and have countless children. After so many years, it is impossible not to have any outstanding ones.

Maybe they don't want to join the Dao Sheng Sect at all, and they even want to deliberately keep a distance from the Dao Sheng Sect.

If this is the case, then the problem is huge.

Although the Dao Sheng Sect has dominated Yu Fantian for countless years, it still does things fairly.

For all parties, sending their children to join Dao Sheng Sect has only advantages and no disadvantages.

But the He and Li families were unwilling.

What does this mean?

It shows that they are doing something bad, and they have been doing it for a long time. They are afraid that the children of the family will be exposed when they enter the Daosheng Sect.

"They won't be colluding with the Demon God Cult."

Zhang Yuhe thought for a while and suddenly came to such a result, which really shocked himself.

"It seems that you really need to be more careful in the future."

Zhang Yuhe slowly recalled what Ming Fu said to him before. He always felt that there was something in Ming Fu's previous words.

Thinking about it now, maybe Ming Fu had noticed something before, but there was no substantial evidence, so he could not report it to the sect and ask the sect to send support.

He thought he couldn't afford it, so he found an excuse to leave.

What is approaching a breakthrough and the need to return to the sect for retreat.

What nonsense.

Although you need to find a place full of spiritual energy to break through to the great realm, you don't necessarily have to return to the sect.

Although the spiritual energy in the guarding mansion is not as good as that of the sect, it is not bad either, and is enough to support the Nascent Soul cultivator's breakthrough.

Otherwise, how can the inner disciples who are out on guard duty be either Nascent Souls or Transformed Gods and cultivate during their term of office?

Zhang Yuhe felt that a crisis was approaching him.

"Calm down, don't panic."

He comforted himself silently.

Suddenly, Zhang Yuhe stood up suddenly and shouted.

"Someone's coming."

A girl in green clothes quickly walked in.

"What are your orders, sir?"

Zhang Yuhe looked up and down. Although the girl in green was beautiful, her cultivation level was only at the ninth level of Qi training. What could she do with such a weak cultivation level.

What the hell, is there no one in the entire town hall?

Zhang Yuhe was silent for a while, and then asked the girl in green.

"May I have your name?"

The girl in green thought Zhang Yuhe had some special ideas, so she had to lower her head and reply.

"My name is Qian Lingling."

"Your last name is Qian? Are you related to the Qian family?"

Zhang Yuhe couldn't help but be very interested when he heard that the girl in green was Qian.

"I am from the branch of the Qian family, and was arranged by the elders to serve the adults in the mansion."

Zhang Yuhe nodded.

As expected, he is a member of the Qian family. The Qian family arranged people to the garrison, which obviously means to get close to him.

As for the purpose of getting information?

Ming Fuqian was not that stupid.

If he was not trustworthy, would he let people in?

"Have all the other people in the mansion left?"

Looking at the empty garrison, Zhang Yuhe was a little speechless.

Although he likes quietness, he has to sort out things first.

Only when things are arranged properly can he practice with peace of mind.

Otherwise, if someone comes to the door one day, he will not know.

"Most people have left with Lord Ming, but the servants in the mansion are still here."

That means there is no one left.

Those who can work have all left, and the rest are servants who serve people. What does he need these servants for?

"Forget it, let's gather all the families together to meet first."

Thinking of this, Zhang Yuhe took out his identity jade card and put it on the table.

"You hold my jade card and notify Qian, Sun, Li, He, and Fengxinlou to come to discuss matters tomorrow morning."

"Ah..."

Seeing Zhang Yuhe take out his identity jade card, Qian Lingling was stunned.

How could the identity jade card of the garrison commander be easily handed over to others?

"What? Go quickly."

The identity jade cards of the disciples of the Daosheng Sect all have a person's aura on them.

It is not very useful for others to hold them, and they cannot use the functions in them.

And the jade card also has a tracking function, so there is no need to worry about it being taken away.

Zhang Yuhe really has no one to use, so he had to let Qian Lingling run.
