Section 271

He couldn't defeat the Seven-Star Chaos Beast.

With his current strength, he might be able to survive a few moves.

But it is certain that the Seven-Star Chaos Beast cannot be defeated.

for him.

Anything that cannot be killed is classified as unbeatable.

Of course.

Although he couldn't defeat the Seven-Star Chaos Beast.

But just relying on the Seven-Star Chaos Beast, don't even think about how you can defeat him.

Looking at the seven-star Chaos Beast running quickly in the distance.

Zhang Yuhe simply chose to ignore it.

He used all his strength to activate the Galaxy Wandering Dragon Body Technique.

If I can't beat you, can't I run away?

Zhang Yuhe quickly flashed his figure and moved forward through the void.

The seven-star Chaos Beast chasing after him.

Can't even touch the corners of his clothes.

He roared in anger.

Zhang Yuhe curled his lips and ignored him.

Then continue the previous operation.

As he moved forward quickly, he looked for the monks who had been taken away.

Whenever I see a Chaos Beast with a monk tied to it.

He quickly deployed the Nine Heavens Hunyuan Sword Formation, instantly clearing away the chaos beasts.

Then take all the rescued monks into the Wanling Diagram space.

He didn't even bother to listen to these people's words of thanks.

Although these monks abducted by the Chaos Beasts are basically elite disciples of the Ten Thousand Immortals Sect.

For people like him who come from Ji'an sea area and such a remote place.

Every one of these people is a real big shot.

However, he even saved one of Taiyi Immortal Lord just now.

Zhang Yuhe had no feelings for these Golden Immortal disciples of the Ten Thousand Immortals Sect.

He has always adhered to a principle.

less talking, more working.

Just do it and that's it.

As more and more monks were rescued, more and more monks were rescued.

The Chaos Beasts on the scene became more and more violent.

The Niulanshan tribe tried every means.

It was not easy to break through two monarch-level immortal cities.

Capture these high-quality sacrifices.

Now it was actually intercepted and snatched back.

How could the Chaos Beast not be anxious?

Especially Zhang Yuhe, his appearance was particularly conspicuous in this action.

A large number of seven-star chaos beasts were almost driven crazy by him.

The number of seven-star chaotic beasts chasing behind Zhang Yuhe has grown from one to more than twenty now.

They think.

Even if you kid runs fast.

We can't catch you.

But as long as it can interfere with your actions, it's okay.

Zhang Yuhe was not allowed to rescue the abducted monks.

Even if they achieve their purpose.

As for the low-level Chaos Beasts that he wiped out, these high-level Chaos Beasts didn't care.

What they care more about are those precious sacrifices.

However, the end result is that.

Zhang Yuhe was like lightning, moving quickly through the wilderness.

Rescued a monk who was kidnapped.

And those seven-star chaos beasts could only follow him and eat ashes.

Roar.....

Countless chaos beasts roared unwillingly.

at this time.

A chaotic beast with a more powerful aura appeared behind Zhang Yuhe.

"Grass."

Zhang Yuhe looked back and couldn't help but curse.

This is too much.

"Even the eight-star chaos beast is chasing me?"

"It's not necessary."

"I'm just a little middle-stage Golden Immortal."

"Sending out a few seven-star chaos beasts is already a great honor."

"How can it still happen? An eight-star chaos beast appears."

The eight-star chaos beast is as fast as lightning.

Even if Zhang Yuhe uses all his strength to activate the Galaxy Wandering Dragon Movement Technique, he still won't have much speed advantage.

Every time he deployed his sword array, he had not yet harvested the chaos beasts and rescued the abducted monks.

The eight-star chaos beast quickly chased after him.

Faced with this situation.

Zhang Yuhe had no choice but to give up and continue to use the Galaxy Wandering Dragon Movement Technique to find the next target.

Under the interference of the Eight-Star Chaos Beast.

His operational efficiency was greatly affected.

However, because of him, a large number of high-level chaos beasts were contained.

This makes the other monks in Tiangong City face much less pressure.

Everyone fought bravely among the chaos beasts.

One by one, the monks who were kidnapped were slowly rescued.

despite this.

Compared to the huge team of Chaos Beasts.

Their actions, at best, could only be considered as touching a small corner.

In order to prevent it, Chaos Beast carried out similar rescue operations.

They had already dispersed the kidnapped monks among the huge team.

Unless all the chaos beasts are wiped out.

Otherwise, don't even think about saving everyone.

Of course that's impossible.

Unless there is Da Luo Immortal King leading the team.

Otherwise, how could such a huge team of Chaos Beasts be wiped out completely?

...

At the forefront of the battlefield.

Nangong Tianming and Cheng Yuanshan worked closely together to face more than twenty high-level chaos beasts.

The two of them showed no fear.

Both of them can be regarded as the top Taiyi Immortal Lords in the South China Sea Immortal Domain.

As long as you are not facing a king-level chaos beast.

The general Chaos Beast team cannot help them.

Even under the continuous attacks of three high-grade immortal-killing cannons.

Nangong Tianming also killed an eight-star chaos beast.

at this time.

Cheng Yuanshan glanced at the Immortal Mirror and his face suddenly changed.

Nangong Tianming suddenly felt something was wrong.

Could it be that something strange had happened again?

Section 272

He asked with a slight frown.

"Brother Cheng, what happened?"

Cheng Yuanshan responded anxiously.

"I just received news that there are two king-level chaos beasts coming here."

"Brother Nangong Dao, we must retreat quickly.

"Otherwise, we may collide with the king beast."

Hearing this, Nangong Tianming's expression couldn't help but change drastically.

"Didn't you say that all the king-level chaos beasts have been restrained by the Immortal King?"

Damn it, it's so unreliable.

Isn't this a scam?

He was really going to be hit by a king-level chaos beast.

None of the hundreds of them could survive.

Cheng Yuanshan explained sheepishly.

"Those two king beasts have been injured by the Immortal King Ancestor. They just panicked and ran away in our direction."

"Brother Nangong Dao, please rest assured, Immortal King Wanshan is chasing after you."

Hearing this, Nangong Tianming still frowned.

Where can these two chaotic beasts escape?

He just wanted to come to them.

Although there is an Immortal King chasing behind.

But he still didn't dare to be careless.

Even if it was an injured king-level chaos beast, he and Cheng Yuanshan couldn't defeat it.

Once a Chaos Beast evolves above Nine Stars, its strength will undergo a qualitative change.

What's more, there are not one but two king-level chaos beasts fleeing here.

A few slaps might kill them.

Think of this.

Nangong Tianming shouted loudly towards the monks on the battlefield.

"There is an attack from the king beast. Everyone must return to Tiangong City quickly."

Because now all the monks are gone and scattered in various battlefields.

He had no choice but to take all these people back to the fairy ship one by one.

Nangong Tianming could only try his best to hold back these high-level chaos beasts and cover everyone's retreat first.

Zhang Yuhe had just cleared away a wave of mobs and took the two abducted monks into the Wanling Diagram space.

Nangong Tianming shouted, which really startled him.

"Have even the king-level chaos beasts appeared?"

"Should we make it so big?"

...

Chapter 232 Let's get a participation award first

I heard a king-level chaos beast coming.

Zhang Yuhe was speechless.

Why did he encounter so many things when he came to Chaos Continent for the first time?

Now even the king beast has appeared.

This is too much.

To know.

In past beast tides.

As long as you have the cultivation level of the Golden Immortal Realm, you can basically guarantee your own safety.

For so many years.

The Golden Immortal monks from the Ji'an sea area are recruited to fight every time.

But I have never heard of any Golden Immortal monk falling into the beast tide.

But why did so many things happen this time?

If it weren't for his presence.

It is estimated that when they were in Yingyue City, more than half of their group would have perished.

The same is true later in Tiangong City.

The beast tide is much more violent than normal.

Could it be that this wave of beasts is an immortal calamity?

The catastrophe of immortal death is also a kind of beast tide.

But there is no fixed statement.

Generally speaking.

The monks will use that kind of beast tide that lasts for a long time and has a particularly fierce attack.

Call it the disaster of immortality.

Because in such a beast tide, a large number of immortals will die.

There will even be the death of Taiyi Immortal.

During this beast tide, two monarch-level fairy cities were attacked by chaos beasts.

There are more than twelve Taiyi Immortal Lords who have fallen or been taken away.

Except Qian Yuanjiang, who was rescued by him.

I don't know if there are other Taiyi Immortal Lords who have been rescued.

If not.

So in this beast wave.

At least eleven Immortal Lord Taiyi fell.

Although the duration of this beast tide was not too long.

But call it the disaster of immortality.

It shouldn't be too much.

Thinking of the first time he was recruited to the Chaos Continent, he encountered the disaster of Immortal Death.

Zhang Yuhe couldn't help but feel dizzy.

What bad luck.

But now, he didn't have time to think too much.

After hearing Nangong Tianming's shout.

He immediately looked at the direction and activated the Galaxy Wandering Dragon Movement Technique with all his strength.

Quickly return to Tiangong City.

Since there is a king-level chaos beast coming.

Then the remaining monks who have not been rescued can only say sorry.

The strength is limited, so we call it a day and run away.

Zhang Yuhe quickly shuttled and teleported forward, chasing the Chaos Beast behind him.

Long gone.

Don't call it an eight-star chaos beast.

Once he escapes with all his strength, not even the Nine-Star Chaos Beast will be able to catch up.

Zhang Yuhe has not yet developed other wonderful uses of the Space Law.

But when it comes to running away, he uses it extremely skillfully.

Highlight safety first.

When he just returned to Tiangong City, he heard something far behind him.

There was a faint rumbling sound.

Zhang Yuhe stood on the city wall and looked in the direction he just came from.

I saw a huge change in the sky in the distance, and the sky was filled with red light.

All kinds of terrifying auras are running rampant.

Even though the distance is so far apart.

He was also a little frightened.

"What kind of terrifying existence is this, fighting over there?"

"Is it the King Beast and the Great Luo Immortal King?"

Zhang Yuhe silently guessed.

Even from such a long distance, I can still feel such a terrifying aura.

If he were nearby.

Section 273

I'm afraid that just a little aftermath can shock him to death.

Think of this.

Zhang Yuhe couldn't help but be secretly vigilant.

I seem to be a little drifting lately.

He actually used all of Hunyuan's magical powers.

Still not stable enough.

...

After a while, other monks also returned one after another.

Nangong Tianming summoned everyone to the Tiangong Hall again.

Zhang Yuhe took a general glance.

When we set out, there were more than five hundred Golden Immortal monks.

There are still more than 400 people.

Overall, the loss is not too big.

All seven Golden Immortal monks who came out of Ji'an sea area returned safely.

The main reason is that they just launched a surprise attack this time.

And it doesn't last long either.

After the fight, he left without any sloppiness.

With the strength of the Golden Immortal monk, as long as he doesn't hit a Chaos Beast with seven stars or above.

Basically, you can protect yourself.

...

Nangong Tianming and Cheng Yuanshan were sitting at the top of the hall.

You can tell.

These two big guys were in a bad mood.

This rescue operation did not meet original expectations.

Nangong Tianming is a little better.

After all, he was just helping.

Best help I can.

If he couldn't help, he wouldn't have much loss.

Cheng Yuanshan felt uncomfortable.

Originally, he thought that after receiving help from the Nangong Immortal Clan.

It should be possible to rescue a large number of abducted disciples.

However, they had just intercepted the Chaos Beast army.

The rescue operation has just begun.

It was disturbed by the king-level chaos beast.

"I don't know if Ancestor Wanshan can rescue the remaining disciples."

Cheng Yuanshan thought silently.

But he also knew that such a chance was not great.

The target of Wanshan Immortal King is the two escaped king beasts.

People don't have time to pay attention to those Chaos Beast troops.

Even if he gives up the king beast and attacks the chaos beast army instead.

Immortal King Wanshan alone cannot save many people.

Those chaos beasts saw that they could not take away the sacrifices.

It will definitely kill people directly.

The best rescue opportunity has been missed.

Thinking of this, Cheng Yuanshan felt helpless.

He reluctantly cheered up and said to everyone.

"Thank you to everyone who participated in this operation."

"Wanxian Sect will never treat you unfairly for your efforts."

After finishing speaking.

Cheng Yuanshan waved his right hand.

A huge light curtain appeared in front of everyone's eyes.

Listed on it are a series of various elixirs, magical weapons, and various heavenly materials and earthly treasures.

A detailed exchange table is also attached, all calculations are based on four-star crystal cores.

Zhang Yuhe even saw the middle-grade immortal-killing cannon on the list.

Even the mid-grade immortal-killing cannon can be exchanged.

The heroic spirit of Wanxian Sect can be seen from this.

Cheng Yuanshan said slowly.

"As long as you participate in this operation, Wanxian Sect will reward you with a four-star Chaos Beast Crystal Core, or resources of equal value."

"Successfully rescued a True Immortal disciple, and will be rewarded with ten four-star crystal cores, or equivalent resources."

"Rescuing a Golden Immortal disciple will reward you with a seven-star crystal core, or equivalent resources."

Seeing the Wanxian Sect being so generous, everyone couldn't help but be overjoyed.

This trip was not in vain.

However, when Zhang Yuhe saw everyone stepping forward to receive the rewards.

He couldn't help but be confused.

How is this going?

When will the number of rescuers be counted?

How come he doesn't know.

In his Wanling Diagram space, there are still hundreds of Wanxian Sect disciples.

Could it be that the Wanxian Sect doesn't want these people?

There is another statue inside, Taiyi Immortal Lord.

What Zhang Yuhe didn't know was.

On the way back, everyone handed the rescued monks to Cheng Yuanshan.

On the contrary, he himself ran the fastest.

First of all, when I returned to Tiangong City, I hadn't handed over the person yet.

Because no one asked.

He doesn't know at all.

As soon as Nangong Tianming came back, he summoned everyone to the Tiangong Hall.

No one was able to have any private communication.

Zhang Yuhe looked confused.

I could only watch quietly as everyone stepped forward to receive their rewards.

He doesn't know either.

If you want it yourself, go up and get the participation award, the four-star Chaos Beast Crystal Core.

Get it first and then talk about it.

...

Chapter 233 Quota in Taixu Secret Realm

When it was Zhang Yuhe's turn.

He walked up quickly.

Cheng Yuanshan smiled, but he was actually a little confused.

Although he just rushed to Tiangong City in a hurry.

But he had heard people talk about Zhang Yuhe's mighty performance in the beast tide.

A genius who has cultivated to the middle stage of Golden Immortal and continuously killed seven-star Chaos Beasts.

Why was there no performance during the rescue operation?

When they intercepted the Chaos Beast army, everyone quickly dispersed.

Zhang Yuhe was walking alone among the Chaos Beast troops.

Not many people saw his performance.

Cheng Yuanshan and Nangong Tianming have been struggling with those high-level chaos beasts.

He has never seen Zhang Yuhe either.

After returning, everyone handed over all the rescued Wanxian Sect disciples to him.

But Zhang Yuhe didn't gain anything.

Section 274

"Perhaps this peerless genius has used explosive magical powers in the previous beast tide and has not recovered yet?"

Just as Cheng Yuanshan was still silently guessing.

Zhang Yuhe stepped forward.

He offered the Ten Thousand Spirits Map and asked with a puzzled expression.

"Yuanshan Immortal Lord, I have rescued some disciples of your sect who were abducted by the Chaos Beast. Where can I register?"

Uh.

Hearing this, Cheng Yuanshan was stunned.

Are there any missed ones?

Then he turned to great joy.

It is good to rescue one more person.

Cheng Yuanshan saw the Ten Thousand Spirits Map in Zhang Yuhe's hand and felt the spatial fluctuations in it.

He knew that this was a space fairy weapon.

For him, an old-fashioned Taiyi Immortal Lord, space fairy weapons are not rare.

Space fairy weapons are a world in themselves.

You can grow fairy grass and fairy fruits in it, and you can also collect living things.

Presumably, the rescued disciples should be placed in this space fairy weapon.

Hearing that there are disciples of the sect who have been rescued.

Cheng Yuanshan said happily.

"Did Zhang Xiaoyou rescue our disciples? Let them out quickly."

"I will record your merit and give you a reward later."

Hearing this, Zhang Yuhe nodded.

He saw him pinching the magic formula.

One after another, figures kept walking out of the Wanlingtu.

The newly appeared figures instantly filled half of the hall.

The large number of people shocked everyone in the hall.

"Junior Brother Qian, are you still alive?"

Seeing Qian Yuanjiang, he was rescued.

Cheng Yuanshan shouted happily.

At this time, Qian Yuanjiang and others were still a little confused.

After they were captured by the Chaos Beast, they were tied up by the Supreme God Chain.

All of them were weak.

Without resting for a few decades, they can't expect to recover to normal.

But it is a blessing to escape from the tiger's mouth.

Hearing Cheng Yuanshan's voice.

Qian Yuanjiang finally came to his senses.

He bowed to Cheng Yuanshan.

"Hello, Senior Brother."

Then he seemed to remember something.

He turned around and said respectfully to Zhang Yuhe.

"Thank you for saving my life, little friend. I don't know what your name is."

"I will repay you generously after I recover from my injuries."

Zhang Yuhe responded with a smile.

"You are too polite, it is natural for cultivators to rescue each other."

The other disciples of Wanxianmen who were rescued also slowly came to their senses.

They all greeted Cheng Yuanshan and thanked Zhang Yuhe continuously.

For them.

They really had a hard time walking through the gates of hell.

If it weren't for Zhang Yuhe who helped them.

Maybe they would have been sacrificed on the altar by the Chaos Beast.

After a brief exchange.

Cheng Yuanshan arranged for these disciples who were rescued by Zhang Yuhe to go down and recuperate first.

At this time, the depression in his heart had long been swept away.

Originally, I thought that not many disciples in the sect were rescued.

Now it seems that it has exceeded expectations.

After careful statistics.

There are 393 Golden Immortal disciples rescued by Zhang Yuhe.

There are 135 True Immortal disciples.

Of course, the most important thing is that Qian Yuanjiang was also rescued.

Although the Wanxian Sect is one of the three super powers in the South China Sea Immortal Domain.

But it is not easy to cultivate a Taiyi Immortal Lord.

Being able to rescue a Taiyi Immortal Lord was completely beyond his expectations.

However, for Zhang Yuhe, such a great contribution.

Cheng Yuanshan didn't know how to reward him for a while.

According to the previous agreement.

For each Golden Immortal disciple rescued, a seven-star crystal core will be rewarded.

For a True Immortal disciple rescued, a four-star crystal core will be rewarded.

As for the reward for rescuing Taiyi Immortal Lord, he didn't say it just now.

Because in his opinion.

Once Taiyi Xianjun was abducted by the Chaos Beast, it would be very difficult to rescue him.

After careful negotiation.

Zhang Yuhe first received the reward for rescuing the Golden Immortal and True Immortal disciples.

As for the reward for rescuing Qian Yuanjiang, it was exchanged for a place to enter the Taixu Secret Realm.

Taixu Secret Realm is located in the Chaos Continent.

It was originally a royal city belonging to a super power.

However, this royal city was eventually breached by the Chaos Beast.

After the city was breached.

The Daluo Immortal King guarding Taixu City drove the entire immortal city into the void crack.

From then on, every million years, Taixu City would appear in the void.

So it was called Taixu Secret Realm.

This secret realm is jointly controlled by the three super powers of the South China Sea Immortal Realm.

Taixu City once had the Daluo Immortal King sitting in it, and a large number of cultivators lived in it.

The treasures left by these cultivators are simply countless.

Every time the Taixu Secret Realm is opened, someone will rise because of obtaining a treasure in it.

However, if you want to enter the Taixu Secret Realm, you must first obtain a quota from the three super powers.

And due to the limitation of the formation, the cultivation level of entering cannot exceed the Golden Immortal Realm.

It will be about 50,000 years before the Taixu Secret Realm is opened again.

From the perspective of time.

In 50,000 years, Zhang Yuhe's cultivation level will naturally not exceed the Golden Immortal Realm.

Go inside and take a look, maybe there will be a chance.

Besides.

Even if we can't find the treasures left by the cultivators, we can go in and kill some Chaos Beasts.

Because the Taixu Secret Realm was thrown into the void crack by the Daluo Immortal King.

Before the secret realm was opened, it would drift around the Chaos Continent.

Chaos Beasts would often be sucked into it.

In addition, when the Immortal City fell, a large number of Chaos Beasts had already attacked the city.

There are really a lot of Chaos Beasts inside.

There are even many Nine-Star Chaos Beasts.

It is precisely because of this.

After the Taixu Secret Realm was opened many times.

The cultivators still haven't explored the entire secret realm.

Section 275

It can even be said that the discovered location is less than a small corner of the entire fairy city.

After all, the monks who can enter cannot exceed the Golden Immortal Realm.

But there is a Nine-Star Chaos Beast inside.

In addition, there are many formations in the city.

After a monk enters the secret realm of Taixu, he may face life-threatening danger every time he takes a step forward.

Every time the Taixu Secret Realm is opened, a large number of Golden Immortal monks who enter it will perish.

despite this.

Everyone is still flocking to it.

That was the place where Immortal King Daluo once stayed.

If you can obtain the inheritance of Da Luo Immortal King.

Wouldn't that be soaring into the sky?

Even if you don't find the inheritance of the Immortal King, you can find the inheritance of those Immortal Lords.

It was enough to drive the Golden Immortal monk crazy.

To know.

There were actually quite a lot of Immortal Lords in Taixu City back then.

Just get a chance to get into it.

It is entirely possible to find the inheritance of Taiyi Immortal Lord.

And there is precedent for this.

That is why.

Everyone is extremely eager for a place to enter the Taixu Secret Realm.

It's just ordinary people who want to get a quota from the three superpowers.

Basically there is no chance.

Even if it is a big force like the Nangong Immortal Clan.

It's not always possible to get a spot every time.

For Zhang Yuhe.

This is an opportunity.

Therefore, when Cheng Yuanshan proposed to use the entry quota of Taixu Secret Realm to redeem the reward.

He immediately agreed.

...

Chapter 234 The future of Ji'an waters

A rescue operation made Zhang Yuhe feel confident and gained a lot.

In this operation, he killed a large number of Chaos Beasts and obtained a large amount of crystal cores.

The key is.

The rewards given by Wanxian Sect are really too generous.

After rescuing Qian Yuanjiang, Wanxian Sect gave him a place to enter the Taixu Secret Realm.

Moreover, he also rescued more than five hundred Wanxian Sect disciples.

Follow the exchange plan given by Cheng Yuanshan.

He was able to redeem more than 300 seven-star crystal cores, plus nearly 240-star crystal cores.

Of course.

Zhang Yuhe naturally did not choose the Chaos Beast Crystal Core.

He already has a lot of this kind of stuff on his hands, and he even wants to find a big chamber of commerce to sell it in large quantities.

After carefully comparing the exchange list given by Cheng Yuanshan.

Zhang Yuhe replaced the seven-star chaos beast crystal core with a second-grade elixir.

The seven flames contain the elixir.

This is an extremely precious elixir.

It can increase the speed of cultivation in the Golden Fairy Realm.

Only the Ten Thousand Immortals Sect, a super powerful force, can offer the Seven Flames Essence Pill as a reward.

Other forces, even if they have this type of elixir in their hands, will never take it out easily.

Just like the Nangong Immortal Clan.

They should also be able to refine similar elixirs.

But Zhang Yuhe has never been seen in the market in Tiangong Sea Area.

The Nangong Immortal Clan may not even have enough people for themselves.

How could this precious elixir be allowed to spread to the outside world?

Zhang Yuhe directly exchanged all the inventory carried by Cheng Yuanshan in one breath.

There are more than a hundred bottles.

Although his cultivation speed is already very fast.

But no one would like to go faster.

So many Seven Flames Containing Spirit Pills are enough for him to cultivate to the Golden Immortal Dzogchen.

At least the remaining share.

He replaced them all with elixirs and spiritual objects to assist in cultivation in the True Immortal Realm and to break through bottlenecks.

The strength of Dao Sheng Sect is really a bit too weak.

He had to find a way to improve the overall strength of the sect.

Don't say anything else.

There should be at least a few more Golden Immortal monks.

Cultivation of immortality is not about relying on oneself alone and immersing yourself in cultivation.

Power groups are also important.

For example.

If Zhang Yuhe wants to build a fairy city in Chaos Continent.

He can't just rely on himself.

How does one build a fairy city and how does one protect it?

Moreover, with the gradual improvement of cultivation level.

The various resources Zhang Yuhe needs will also become more and more abundant.

There are many things that he simply cannot find on his own.

If the Dao Sheng Sect develops into a powerful force like the Nangong Immortal Clan or even the Ten Thousand Immortals Sect.

Then in the future, what resources he wants to collect is not a matter of words.

No need to do it yourself at all.

...

After everyone left the main hall, they temporarily settled down in Tiangong City.

Quietly waiting for the beast tide to end.

A few days later.

An astonishing news quickly spread across the Chaos Continent.

Due to being attacked by Chaos Beasts, two monarch-level fairy cities were defeated in succession.

The ancestor of Wanxian Sect, Daluo Immortal King Qian Wanshan personally took action.

After repelling the Chaos Beast.

The Immortal King of Ten Thousand Mountains chased him for hundreds of millions of miles.

Finally, at the edge of Niulan Mountain, in front of the high priest Niu Man, he killed two king-level chaos beasts in succession.

After the news came out, everyone couldn't help but be excited.

That is a king-level chaos beast.

He was actually killed two in a row.

And he was killed in front of the high priest of Niulan Mountain.

What kind of style is this?

The strength of Wanshan Immortal King shocked the world.

Everyone couldn't help but think about it.

It seems that the Chaos Beast is not that scary.

The top strength among monks can completely overwhelm a Chaos Beast.

In fact.

There has never been a lack of geniuses among the monks.

This is especially true for the top powers.

The top powers among the monks have always been stronger than the Chaos Beasts.

Section 276

It's a pity that there are too few people like Immortal King Wanshan.

Every step the monk takes is extremely difficult.

Especially the number of Taiyi Immortal Lord and above is extremely rare.

If only monks could be like Chaos Beasts.

A large number of masters can be evolved.

So long ago, the entire Chaos Continent was bulldozed.

Where is the tide of beasts and the catastrophe of immortal death?

The fairy world can have its current situation.

It's completely dependent on those top forces supporting it.

Because of Wanshan Immortal King, he killed two king-level chaos beasts in a row.

After a massive immortal disaster, calm was quickly restored.

The major forces began to slowly rest and reorganize the Immortal City.

Some fairy cities that were originally abandoned were gradually rebuilt.

And Zhang Yuhe and the others were monks who were temporarily recruited.

They also began to leave Chaos Continent one after another.

for them.

In the Chaos Continent, there is no fairy city of its own.

At best, it can only be regarded as a passing visitor.

Once the beast tide is over, everyone will naturally go back to their homes.

Originally, the Nangong Immortal Clan wanted to allocate an acropolis to Zhang Yuhe.

But he refused.

He felt that his current strength was still a little short of the mark.

Still unable to gain a foothold in Chaos Continent.

He didn't want to rely entirely on the Nangong Immortal Clan.

This is not to say that he thinks the Nangong Immortal Clan is unreliable.

But many things cannot be explained clearly in one sentence.

Just like Lu Yunfei back then.

He attached himself to the Nangong Immortal Clan and occupied an acropolis in Chaos Continent.

Although it also took advantage of the situation to rise, it led to a wave of development of Dao Sheng Sect.

But when the disaster of immortality comes.

The Nangong Immortal Clan couldn't care about him at all.

As a result, almost all the Tao Sheng Sect monks guarding the Immortal City were wiped out.

Even Lu Yunfei himself disappeared in the end.

So Zhang Yuhe thinks.

When you are still unable to take charge of yourself completely.

Don't mention anything about establishing a fairy city.

He will consider this issue again when he can defeat the Nine-Star Chaos Beast.

And Zhang Yuhe believes it.

This day is certainly not too far away.

Ji'an sea area.

Three huge airships flew quickly on the sea.

After the beast tide ended, everyone returned to the Tiangong sea area through the teleportation array.

Then he drove the flying boat back.

There is no teleportation array established between the Tiangong sea area and the Ji'an sea area.

For the rest of the journey, they had to fly on their own.

After several years of continuous flying, he finally returned to the waters of Ji'an.

this day.

Yu Liwei and Long Xingxiu came to Zhang Yuhe's flying boat together.

After the three guests and host sat down.

Long Xingxiu said with emotion.

"I didn't expect that this time, it would be another disaster."

"Fortunately, with Daoist friend Zhang here, our Ji'an waters did not suffer much losses this time."

"On the contrary, everyone has gained something good."

Yu Liwei was beside her and nodded again and again.

"Yes, Fellow Daoist Zhang, with his Golden Immortal cultivation, killed seven-star Chaos Beasts in a row."

"Such a deed has not happened in the South China Sea Immortal Domain for many years."

"As for our Ji'an sea area, it has never been so beautiful."

Zhang Yuhe's strength completely impressed the two leaders of the forces.

However, the compliments of these two people made Zhang Yuhe next to him feel a little embarrassed.

After all, he would be a little uncomfortable being praised in person.

The three of them sat at the front of the flying boat, drinking tea slowly while chatting about historical figures in Ji'an waters and Lu Yunfei.

Slowly we talked again about the future of Ji'an sea area.

Sudden.

Long Xingxiu turned to Zhang Yuhe and asked.

"Fellow Daoist Zhang, what do you think of the future of the Ji'an sea area?"

Zhang Yuhe thought for a while, then slowly spoke.

"The Ji'an sea area is located in a remote area, with poor resources and an incomplete heritage. It is really difficult to predict the future."

"But what the future holds is entirely in the hands of us."

"As long as we move forward bravely, we will definitely be able to create a new future."

...

Chapter 235 Unification of Ji'an Sea Area

In Zhang Yuhe's view.

Ji'an sea area needs resources but not resources, and needs inheritance but not inheritance.

How could the inheritance come from a sea area that even Immortal Lord Taiyi has never left.

It is almost impossible to develop in such a remote sea area.

But it all depends on people.

Other large sea areas also developed slowly in this way.

After hearing Zhang Yuhe's words, Long Xingxiu couldn't help but get angry.

he said excitedly.

"Young Daoist Zhang is right, the development of a sea area has never relied on resources, nor on inheritance."

"The key is to rely on people, relying on the leader."

"As long as a top-notch person appears, no matter how remote the place is."

"It will eventually grow into a holy place."

Long Xingxiu took a deep breath, and then said to Zhang Yuhe seriously.

"Fellow Daoist Zhang, Master Yu and I came here today to discuss something."

Zhang Yuhe nodded.

"If you two have anything to say, you might as well say it directly."

Of course he knew that these two people would be fine and came to him to drink tea.

Naturally, I came to discuss it with him because I had something to do.

"Let me tell you."

Yu Liwei, who was next to her, took over and continued.

"We have carefully considered and want to establish a unified force in the Ji'an sea area with Dao Sheng Sect as the main force."

"Compared with other sea areas, our Ji'an sea area has always been a mess."

"When there were many, there used to be more than ten forces at the same time. Even when there were few, there were more than four or five."

"Now, the only three of us who can be considered a significant force are left."

"So, I discussed with Sect Master Long to merge our respective sects into Dao Sheng Sect as a whole."

"What do you think?"

Hearing Yu Liwei's words, Zhang Yuhe couldn't help but be stunned.

Is there such a good thing?

Section 277

These two people, who have the position of the boss, chose to come to the Holy Sect to be his younger brother.

I'm afraid they are confused.

But he reacted quickly.

These two people are determined to cling to his thigh.

Otherwise.

Even if they want to merge the sects, they shouldn't come to him.

In Daosheng Sect, he is just an idle person and never cares about things.

Shouldn't such a big thing be discussed with Lian Zhengyu?

Thinking of this, Zhang Yuhe couldn't help but fall into deep thought.

The merger of the three major forces is indeed a good way.

He always had many ideas before, but he couldn't implement them.

There is no way, who made Daosheng Sect weak.

Including him, Daosheng Sect has only three Golden Immortal cultivators in total.

It's not enough to guard the Ji'an Sea.

Where is the energy to expand and develop outward.

If the three major forces merge.

Then the strength will be considerable.

The three major forces together have more than 20 Golden Immortal cultivators.

Such a force can never be considered too weak no matter where it is placed.

If everyone can unite, they can do a lot of things.

For example, find an opportunity to build an immortal city in Chaos Continent.

In the Immortal Realm.

Whether it is an individual cultivator or a force of various parties.

If you want to continue to develop, you must go to Chaos Continent.

The resources of the major immortal realms have long been occupied by others.

They all have owners.

Unless you rely on robbing.

Otherwise, it is difficult to obtain the resources needed for cultivation.

Only in Chaos Continent can you find various precious resources continuously.

In Chaos Continent, as long as you are strong enough.

You can go deep into the territory of Chaos Beasts and look for various resources.

But he originally thought.

The Daosheng Sect is weak.

Even if you occupy an immortal city, there is no one to manage and guard it.

But if you add the Nine Immortal Sect and the Ten Thousand Beast Sect, it seems to be enough.

As long as his strength is enough, he can suppress one side.

Others can help him share the management and protection of the fairy city.

Zhang Yuhe couldn't help but be tempted.

But after all, he is not the leader of Daosheng Sect.

This major event of merging sects.

Lian Zhengyu must make the decision.

Thinking of this.

Zhang Yuhe slowly said.

"I personally don't object to the idea of merging sects."

"It's better for everyone to develop together than to do it alone."

"But for this kind of thing, you still have to discuss it with Senior Brother Lian."

Hearing this, Yu Liwei and the others couldn't help but smile.

What they valued was Zhang Yuhe's attitude.

As long as Zhang Yuhe agreed, there would be no more resistance to this matter.

As for Lian Zhengyu.

You don't need to think about it to know that he will definitely not object.

With Daosheng Sect as the main body, merge the three major sects.

Such a good thing, Lian Zhengyu is happy, it would be strange if he would object.

Long Xingxiu said excitedly.

"Then it's settled. Let's go to Lian Daoyou to discuss this matter."

...

Ten years later.

Yu Liwei and Long Xingxiu announced at the same time that they would lead their respective sects to join Daosheng Sect.

From then on, the Ji'an Sea Area entered a unified era.

There was only one force left in the entire Ji'an Sea Area.

That was Daosheng Sect.

At the same time.

Lian Zhengyu announced his abdication and made Zhang Yuhe the leader of Daosheng Sect.

Zhang Yuhe did not act pretentiously about this.

Although he was not very interested in managing the sect.

But he knew.

The world of cultivators has always been based on strength.

Lian Zhengyu did not have enough strength.

No matter what, he could not overwhelm the heroes.

Faced with such a situation, Zhang Yuhe naturally took the lead.

A few days later.

The three major sects officially merged.

Zhang Yuhe announced the reorganization of Daosheng Sect in the Galaxy Hall.

The name of the sect remained unchanged and was still called Daosheng Sect.

Daosheng Sect was founded by Lu Yunfei.

Lu Yunfei just disappeared, he didn't die.

Maybe he will come back one day.

As a disciple of the sect, Zhang Yuhe has no problem taking over the sect.

But changing the name of the sect is a bit unreasonable.

And Zhang Yuhe also thinks.

The name of Daosheng Sect is very good.

Taking the Great Dao as the goal, following the footsteps of the saints.

This name is very meaningful.

At the same time.

Zhang Yuhe announced that he would build the Dao Temple, the Holy Temple, the Economic and Trade Temple, the Intelligence Hall, the Refining Hall, the Alchemy Hall, etc. in the sect.

Lian Zhengyu will be the master of the Dao Temple, responsible for preaching and managing the disciples of the sect.

Yu Liwei will be the master of the Holy Temple.

The Holy Temple will be responsible for war, integrating and training a group of elite forces in preparation for future development to the Chaos Continent.

Long Xingxiu will be the master of the Economic and Trade Temple, responsible for forming a caravan, expanding power outward, and collecting and trading resources.

...

After arranging things, Zhang Yuhe began to enter a state of retreat.

He didn't have to worry about the management of the sect.

He just needs to build the framework.

Everyone will do their job and slowly get on the right track.

For him.

Cultivation and improving strength are the most important things at the moment.

Without sufficient strength, everything is nothing.

He is not the only one who is like this.

Even Zhengyu, Yu Liwei and others do not have to worry about everything.

They also focus on cultivation.

Chapter 278

Any aspiring monk will not spend his time on the so-called power struggle.

For the monks.

Only strength is fundamental.

The purpose of the merger of the three major sects is not just to annex whom.

It is to integrate resources so that everyone can practice better.

Everyone has the same goal and wants to go further on the road to immortality.

...

Chapter 236 The Late Golden Immortal Stage

Zhang Yuhe walked into the cave and came to the side hall next to it.

I saw a pillar of heaven standing on the high platform in the center of the side hall.

Next to this Optimus Pillar, there are piles of various fairy minerals and fairy materials.

It is the Nine Heavens Flying Spirit Stick.

Before returning from the Chaos Continent.

He used the crystal cores on his body to buy a large amount of fairy minerals and fairy materials.

Just to cultivate the Nine Heavens Flying Spirit Stick.

At present, the Nine Heavens Flying Spirit Stick is still a low-grade immortal weapon.

Although the power is indeed impressive, it is already a bit unworthy of his strength.

I just want to upgrade an innate treasure to a higher level.

Not only does it require a lot of resources, but it also takes a long time.

despite this.

Zhang Yuhe still didn't give up.

The innate treasure has unlimited potential, not to mention the Nine Heavens Flying Spirit Stick, which is also a heavy treasure.

He used it very easily.

Facing a Chaos Beast of the same level, a stick can kill it.

If the Nine Heavens Flying Spirit Stick is upgraded to the level of a mid-grade fairy weapon.

The power will definitely be greatly improved.

When the time comes, he will be able to kill even the seven-star Chaos Beast with a few sticks.

Such a powerful treasure.

No matter how high the price is, it is still worth it.

After piling up a large amount of fairy minerals and fairy materials again.

Zhang Yuhe walked out of the side hall, came to the training platform and sat down slowly.

He took out an elixir from the jade bottle and swallowed it, then slowly circulated the Hunyuan Scripture.

At the beginning, I exchanged a large amount of Qiyao Yunling Pill from Cheng Yuanshan.

have to say.

This elixir produced by a super powerful force is indeed very effective.

Follow the movement of the exercises.

Zhang Yuhe clearly felt that his cultivation speed was faster than usual.

At least twice as fast.

To know.

Originally, his cultivation speed was already very fast.

And the Qiyao Yunling Pill can actually double the speed of cultivation.

This allowed Zhang Yuhe to once again experience the feeling of practicing on a rocket.

When I was in Yu Fantian before.

With the help of the Five Elements Spirit Gathering Formation, he can practice at super fast speeds.

Unfortunately.

Since ascending to the fairy world.

Due to the difference in rules, the Five Elements Spirit Gathering Array is completely ineffective.

It cannot achieve the effect of accelerating cultivation.

Zhang Yuhe once tried to improve the Five Elements Spirit Gathering Array to adapt to the rules of the immortal world.

However, after many attempts.

He gave up completely.

No clue at all.

Later, he also asked other monks.

The result is that there is indeed no formation in the fairy world that can speed up cultivation.

I want to increase my cultivation speed based on my original skills.

You can only rely on various resources.

The most basic thing is fairy stone.

Then there are various special elixirs.

Of course.

Some heavenly materials and earthly treasures also have similar effects.

Except for the Fairy Spirit Stone.

Anything else is extremely precious.

Zhang Yuhe has never gotten it.

Fortunately, in this beast wave.

He rescued many Wanxian Sect disciples.

Only in this way can you exchange for a large amount of Seven Flames Essence Pills.

With the blessing of these elixirs.

Zhang Yuhe believes it.

Maybe it won't take long.

He can cultivate to the late stage of Golden Immortal.

...

Time passes slowly.

Since the merger of the three major sects, Daosheng Sect has been on the fast track of development.

Zhang Yuhe brought back various elixirs from the Chaos Continent to assist the cultivation of true immortals and to break through bottlenecks.

He treated all his disciples equally.

It is the same whether they are the original disciples of the Daosheng Sect or the newly merged disciples.

All kinds of resources are completely open to supply.

With Zhang Yuhe's current strength, he can get some resources needed by the true immortal disciples.

Basically it takes no effort.

With the assistance of extensive resources.

Dao Sheng Sect slowly began to have disciples break through to the Golden Immortal Realm.

Fifty thousand years later.

Zhang Yuhe walked out of the cave.

At this time, the aura on his body was already in the late Golden Immortal stage.

Not only that.

He also took some time to understand the laws of power and space and reached the realm of small success.

The only pity is.

There is no clue yet about the other six supreme laws.

no way.

Can't find the right medium.

Nor can he comprehend the law in a vacuum.

If a monk wants to understand a law, he usually does so through his own cultivation techniques or magical powers.

Of course.

Immortal weapons or other items with the aura of corresponding laws will also work.

However, Zhang Yuhe did not have any of these things.

Although before the retreat.

He told Long Xingxiu to pay attention to news about such things.

Just haven't found it yet.

The Supreme Law is extremely mysterious, similar to magical powers, or items such as fairy weapons.

Chapter 279

It's not easy to find.

It takes a certain amount of opportunity.

But he is not in a hurry.

The three supreme laws are enough for the time being.

...

Feeling the change in his own strength, Zhang Yuhe couldn't help but smile.

"Let's go to the Galaxy Hall first to learn about the recent situation of the sect."

Before leaving the retreat.

He asked the heads of each hall to go to the Galaxy Hall to discuss matters.

Zhang Yuhe stood up and flew quickly towards the Galaxy Hall.

At this time, the heads of each hall of the Daosheng Sect were gathered together.

Seeing Zhang Yuhe coming.

Everyone stood up quickly and shouted respectfully in unison.

"Meet the sect master."

Zhang Yuhe gestured with his hand.

After everyone sat down.

He said to everyone with a smile.

"Everyone, let's talk about the recent development of the sect."

Lian Zhengyu was the first to stand up and spoke slowly.

"After 50,000 years of development, there are more than 30 million disciples in the sect."

"Among them, there are 32 Golden Immortal elders and 5,146 True Immortal disciples."

"The rest are disciples below the True Immortal level."

"In addition, in the past 50,000 years, five people have ascended to the Immortal Realm through the sect's Ascension Platform. These five people have joined the Daosheng Sect."

Zhang Yuhe nodded.

Compared to the time when the merger just started.

The number of Golden Immortal cultivators in the Daosheng Sect has increased by more than ten people.

With the help of the resources provided by the sect and the Tribulation Platform arranged by Zhang Yuhe.

Those veteran True Immortal disciples finally took a crucial step.

Promoted to the Golden Immortal Realm.

This includes Xie Mingyuan.

In the past 50,000 years in the Ji'an Sea Area, there are even more Golden Immortal cultivators than in the previous million years.

The effect of the merger of the three major sects began to slowly show up.

It is worth mentioning that.

The five disciples who joined the Daosheng Sect through the Ascension Platform were all from Yu Fantian.

Among them, Li Tian and Wang Guofeng also ascended to the fairyland and joined the Daosheng Sect.

After Wang Guofeng ascended.

Zhang Yuhe also went to talk to him about some things on Blue Star.

At present, the situation on Blue Star is developing well.

Thanks to the great formation of the stars that he arranged in Kunlun Fairy City.

The area of Blue Star has expanded more than ten times.

Although it is still not as good as Yu Fantian, the real world of cultivating immortals.

But it has already reached a preliminary scale.

And according to Wang Guofeng.

Before he ascended.

Kunlun Fairy City had already given birth to a spiritual vein, and that spiritual vein was still growing slowly.

In other words.

Even without the help of Yu Fantian.

Blue Star can develop on its own.

This is something worth celebrating.

...

Chapter 237 Nine Heavens Flying Spirit Stick Promotion

After hearing about the recent situation of Blue Star from Wang Guofeng.

Zhang Yuhe even planned.

Find time to take a trip to the lower world.

He wanted to see with his own eyes what Blue Star has become now.

It's just that it's not that easy for immortals to go to the lower world.

They need to use the corresponding formation.

The most important thing is.

Every time they go to the lower world, they need to consume a boundary-breaking stone.

The Dao Sheng Sect does not have this kind of thing at present.

However, Zhang Yuhe has asked Long Xingxiu to collect it.

Long Xingxiu is in charge of the Economic and Trade Hall.

And under the Economic and Trade Hall, the Galaxy Chamber of Commerce was established.

At present, the Galaxy Chamber of Commerce has expanded its business to several nearby sea areas.

Even in the Chaos Continent, it has opened many branches.

Through the Galaxy Chamber of Commerce in various places, the Dao Sheng Sect can collect resources more conveniently.

Although the boundary-breaking stone is rare, it is not particularly precious.

After all, people in the immortal world are not very interested in the affairs of the lower world.

The only function of the boundary-breaking stone is to serve as the core of the boundary-breaking formation.

It is used to open a temporary passage to the lower world.

Cultivators below the True Immortal can use the temporarily opened passage to go to the lower world.

Although Zhang Yuhe's original body is definitely unable to go to the lower world.

But he has an incarnation.

As long as he has not broken through to the Taiyi realm, the strength of the incarnation will not exceed that of the true immortal.

There is no problem for the clone to go down to the world.

As long as the boundary-breaking stone is obtained, the incarnation can go down.

At the beginning, Lu Yunfei descended to Yufantian through the incarnation.

Only then did he spread the immortal civilization in Yufantian.

...

After Lian Zhengyu's report.

The heads of other halls also reported their work one after another.

Zhang Yuhe listened silently and nodded frequently.

In general, the Daosheng Sect is currently in a stage of rapid development.

Not only has the number of disciples in the sect increased significantly.

The overall strength is no longer comparable to that of the past.

In terms of cultivating special talents, good results have also been achieved.

The number of immortal-level alchemists and weapon refiners has increased significantly.

Not only can they supply the internal needs of the sect, but they can also refine immortal pills and immortal weapons.

Sell to the outside world through the Galaxy Chamber of Commerce.

To a large extent, it has broadened the source of income for the sect.

After listening to everyone's reports,

Zhang Yuhe said with a smile.

"Thank you for your hard work. The sect can be in its current situation thanks to your efforts."

"Master, you are too kind. This is what we should do."

Everyone responded modestly.

The growth of Daosheng Sect is naturally a good thing for everyone.

Everyone is willing to work hard for this.

After chatting about other things for a while.

Zhang Yuhe said slowly.

Chapter 280

"I plan to go to Chaos Continent recently. I'll leave the affairs of the sect to you."

"The Sect Master must be careful and don't take risks."

Hearing this, everyone was startled and reminded him.

Of course they knew what Zhang Yuhe was going to do in Chaos Continent this time.

In the beast tide 50,000 years ago.

Zhang Yuhe rescued Qian Yuanjiang, Taiyi Immortal Lord of Wanxianmen, from the hands of Chaos Beast.

For this reason, Wanxianmen gave him a place to enter Taixu Secret Realm.

Now it's not long before the secret realm opens.

Zhang Yuhe must go there in advance.

Otherwise.

If he misses the opening time, it will be nonsense.

It's just that Taixu Secret Realm is extremely dangerous.

Every time it opens in the past, a large number of Golden Immortal cultivators will fall in it.

After entering Taixu Secret Realm, the number of people who can come out smoothly has never exceeded half.

You know.

The Golden Immortal cultivators who are qualified to enter Taixu Secret Realm are all the best of the major forces.

It is far from being comparable to ordinary Golden Immortal cultivators.

Despite this, there will still be a large number of cultivators who fall in it.

Due to various reasons, there are a large number of Chaos Beasts living in the Taixu Secret Realm.

Among them, there are many Nine-Star Chaos Beasts.

When facing the Nine Chaos Beasts, Golden Immortal cultivators are basically dead.

Not only that.

There are still a large number of formations remaining in the Taixu Secret Realm.

Because it was during the war at that time.

These formations are basically in the open state.

Even after so many years.

Most of the formations in the city are still operating normally.

In fact.

Many of the Golden Immortal cultivators who fell in the Taixu Secret Realm did not die at the hands of Chaos Beasts.

But because of accidentally triggering the formation.

Killed by the power of the formation in the city.

You know.

The Taixu Secret Realm was once a royal city with the Great Luo Immortal King sitting in it.

Many formations in the city were arranged by the Great Luo Immortal King.

These formations can easily kill Golden Immortal cultivators with just a little power.

Although everyone is very confident in Zhang Yuhe's strength.

It is not an exaggeration to say that the Golden Immortal Realm is invincible.

But it is Taixu Realm after all.

Let alone the Golden Immortal Realm.

Even if Taiyi Immortal enters it, it is hard to say that he can come out safely.

Facing everyone's worries.

Zhang Yuhe said with a smile.

"You don't have to worry, I cherish my life very much and will not take risks."

Hearing this, everyone couldn't help but smile.

Although everyone felt that Zhang Yuhe was just comforting.

But it was comfortable to hear this.

At this time, Long Xingxiu took out a jade slip and handed it to Zhang Yuhe and said.

"Master, this is the information about Taixu Secret Realm that I collected through various channels. I hope it can be helpful."

Zhang Yuhe took the jade slip and said with great joy.

"Palace Master Long is thoughtful."

To be honest, he knew nothing about Taixu Secret Realm.

He only knew that there was once a royal city there.

When the Chaos Beast broke through, the Daluo Immortal King who was in charge.

The entire Immortal City was hit into the void crack.

This is what became the current Taixu Secret Realm.

As for other more news, most of them came from hearsay.

There is basically no accuracy.

He was just about to find someone to inquire about what the situation was inside.

Unexpectedly, Long Xingxiu actually prepared for him in advance.

I have to say.

This buddy is really thoughtful.

Can deal with it.

Continue to chat for a while, and after other things.

Zhang Yuhe returned to the cave.

Came to the side hall of the cave, looking at the Nine Heavens Flying Spirit Stick standing on the high platform.

A smile appeared on Zhang Yuhe's face.

After years of cultivation, after consuming a large amount of immortal ore and immortal materials.

This innate treasure has finally been promoted to the level of a mid-grade immortal weapon.

He stretched out his hand and waved.

The Nine Heavens Flying Spirit Stick quickly shrank to more than ten feet long and fell into his hands.

Feeling the faint pressure emanating from this innate treasure.

Zhang Yuhe was full of confidence.

Now he had not only broken through to the late stage of the Golden Immortal, but also comprehended the three supreme laws.

All of them had reached the state of minor success.

In addition, the Nine Heavens Flying Spirit Stick had grown into the level of a mid-grade immortal weapon.

At this time, his strength was far from what it was when he was in the Chaos Continent.

Zhang Yuhe believed.

Even without opening the Hunyuan Guiyi magical power.

He could kill the Seven-Star Chaos Beast, and it would not be very difficult.

Even facing the Eight-Star Chaos Beast, he dared to touch it.

If the Hunyuan Guiyi magical power was opened.

Maybe killing the Eight-Star Chaos Beast would not be a big problem.

Even the Nine-Star Chaos Beast could be beaten a few times.

Zhang Yuhe felt.

With his current strength, entering the Taixu Secret Realm should not be very dangerous.

If even someone with his strength could not get out of the Taixu Secret Realm safely.

Then the Taixu Secret Realm should not be a treasure-hunting secret realm.

It should be a Jedi.

Since all other Golden Immortal cultivators were able to come out alive.

Zhang Yuhe didn't think there would be any problem with him.

If others can do it, I can do it too.

There is absolutely nothing wrong with it.

...

Chapter 238: Reunion

Zhang Yuhe put away the Nine Heavens Flying Spirit Stick and walked out of the cave.

Then he took off into the air and quickly flew towards the direction of the Yinhe Market.

After the three major sects were integrated into the new Daosheng Sect.

Soon the original Ji'an Market was renamed Yinhe Market.

Because of Zhang Yuhe, he killed the seven-star chaos beast in a row in the Chaos Continent.
