Section 29

The hidden strength of Fengxin Tower is completely beyond everyone's imagination.

Seeing that everyone has arrived, Mingyue Fei, who was sitting at the top, elegantly took out a portrait and said slowly.

"Take a look, this is the new garrison commander. When you act in the future, be careful to avoid him and don't bump into him."

Everyone took the portrait in turn to check it. When it was passed to the last woman in the green skirt, she only heard her exclaim softly.

"Hey, how could it be him?"

Hearing the green skirt woman's exclamation, the four people beside her, including Mingyue Fei at the top, turned their eyes to the green skirt woman.

"Lue'e, have you seen this person?"

Mingyue Fei asked curiously.

The inner disciples of Daosheng Sect, before they were appointed as garrisons, mostly stayed in the mountain gate to practice, and it was difficult for outsiders to know their identities.

Mingyue Fei was a little surprised that the green skirt woman actually knew the new garrison commander.

However, the green skirt woman was in charge of the external affairs in Fengxin Tower, and she had more contacts than other people.

It is possible that she had seen Zhang Yuhe somewhere.

At present, they urgently need to know more information about the garrison commander to facilitate their actions later.

Hearing that the woman in green skirt had seen Zhang Yuhe, Concubine Mingyue couldn't help but ask.

The woman in green skirt recalled seriously for a while, and slowly shook her head and said.

"I have never seen this person, but I have seen his portrait before."

The words of the woman in green skirt made the other five people present even more strange.

If she had seen Zhang Yuhe before, it would be possible. Maybe Zhang Yuhe had been to Yunzhong City before.

But seeing the portrait, that would be too strange.

Who would have a portrait of Zhang Yuhe?

Concubine Mingyue hurriedly asked her.

"Where have you seen his portrait?"

The woman in green skirt sorted out her thoughts and said slowly.

"About a hundred years ago, Wu Wei, the head of the Wu family in Feiyun City, came to Fengxin Tower with this person's portrait."

"Wu family in Feiyun City?"

Concubine Mingyue frowned and thought silently.

To be honest, there are too many forces in the Yufantian world. She really has no impression of the almost insignificant forces like the Wu family of Feiyun City.

"Why did the Wu family of Feiyun City look for this person?"

The woman in green skirt thought for a while and said.

"If I am not mistaken, it should be revenge. I asked someone to inquire about this matter later. At that time, Wu Wei's sixth son died suddenly and unexpectedly. Then he took the portrait of this person and chased to Yunzhong City. I think he was killed by this garrison envoy."

Concubine Mingyue was silent for a while, then her eyes swept over the five people below, and asked in a slightly serious voice.

"Is the Wu family of Feiyun City involved with us?"

Hearing that the new garrison envoy had a grudge against the Wu family of Feiyun City, Concubine Mingyue was a little worried.

Fengxin Tower's forces are all over Yunzhong Prefecture, and they have also developed many secret agents in various places.

If the Wu family is involved with them, they must be cut off quickly.

What if Zhang Yuhe went to the Wu family to seek revenge, and then followed the clues to find Fengxin Tower, affecting the major events they were doing, that would be troublesome.

A scarred man stood up and replied.

"Master, we have a hidden player who is serving as a worshiper in the Wu family of Feiyun City."

"Get rid of Wu as soon as possible, and don't leave any clues."

Hearing that Wu was really involved with Fengxin Tower, Concubine Mingyue ordered without hesitation to make it disappear as a whole.

The five people below looked at each other, they felt that the master of the building seemed to be a little bit wrong today.

It's just a hidden player, and that hidden player doesn't know the details of Fengxin Tower.

Is it necessary to eliminate the entire Wu family? Will it be an exaggeration?

If you really don't feel at ease, wouldn't it be enough to recall the hidden player, or to deal with him secretly?

Why do you have to deal with the entire Wu family? Isn't this a bit too much?

The five people looked at each other, and the woman in the green skirt asked Concubine Mingyue.

"Master, how strong is the new garrison commander? Do we need to be so cautious?"

Ming Yue Fei combed her hair with her left hand and looked at everyone seriously.

"It's hard to say how strong he is, and I can't see through him, but this new garrison commander is obviously a powerful character, and we must not be careless."

If Zhang Yuhe heard Ming Yue Fei's evaluation of him, he would be shocked.

He just wants a quiet environment for cultivation, how can he be so powerful.

The scarred man stood up again and said.

"In this case, I will leave tonight, and there will be no Wu family in Feiyun City tomorrow."

Everyone probably understood why the master of the building was so wrong today.

It should be that the new garrison commander was very unusual and brought her a lot of pressure.

That's why the master of the building was so cautious.

Ming Yue Fei nodded, and then warned everyone.

"Our big event is entering a critical moment, you must not relax at all."

"Yes, Master."

After everyone left, Ming Yue Fei stood up silently, muttering to herself.

"How could such a powerful garrison commander come to the small Yunzhong Prefecture? Did those old monsters of Daosheng Sect discover something?"

"It seems that we must speed up our actions."

Mingyue Fei saw at a glance that Zhang Yuhe was not easy to deal with. As for his childish tricks of hiding his incompetence, they were completely unworthy of the stage.

Not to mention her, the other four family heads must have seen it a long time ago.

...

Yunzhong Prefecture, Feiyun City.

When night fell, a figure quietly appeared in the sky above the Wu family's mansion.

I saw the black shadow wave his right hand, and the boundless black mist instantly completely enveloped the entire mansion.

After a while, the black shadow floated away.

Early the next morning, a sensational news spread in Feiyun City.

The Wu family, which has been passed down for hundreds of years, suddenly disappeared for some unknown reason.

There were no traces of fighting left at the scene, and the items in the mansion were still neatly arranged.

It's just that the entire Wu family's mansion is empty, with not a single person in sight.

Not only that, even the children of the Wu family who originally lived outside the mansion also disappeared.

Such strange news instantly detonated Feiyun City.

"Where are all the people in the Wu family? It's not like they provoked some powerful person, so the whole family ran away quietly."

"Why are you running? When your home is running, can your belongings be arranged so neatly?"

"That's strange. This person won't disappear out of thin air."

"I guess the Wu family committed something big and was conveniently wiped out by some senior."

"You deserve it. The Wu family has been arrogant in Feiyun City for many years. It would be better if they all die."

"Yes, it would be better to die."

...

Chapter 30 Skynet posts for help

Yunzhong garrison mansion, meeting hall.

Looking at the ten people standing below, Zhang Yuhe nodded with satisfaction.

The Qian and Sun families were very wise. They sent people over early in the morning, and each family had five golden elixir monks.

At first glance, these ten people are not ordinary people. They are the elite children of two families.

It seems that these two families have really put a lot of thought into it, especially the Qian family.

Qian Weiguang actually sent his son to the governor's mansion, which was a sign of loyalty.

Zhang Yuhe looked at the crowd. The leader among them was thin, with a faint sword light surrounding him.

At first glance, he looks like a successful swordsman.

This person is Qian Weiguang's son. He has Qian Zhongshu and Jindan Dzogchen cultivation. He is just a little short of a chance to break through to Nascent Soul.

Qian Weiguang can send such a person here, obviously because he wants to hug his lap.

"good."

He was very satisfied with the Qian and Sun family's sensible performance, and he didn't mind being someone else's thigh.

It is always a matter of mutual benefit, hello, me, hello everyone.

Zhang Yuhe waved his right hand, and ten gleaming flying swords slowly flew towards the crowd.

"These flying swords are considered as a meeting gift for everyone. Come and serve here. Although you don't have any money, I can't let you work in vain."

Seeing the flying sword in front of them, everyone's eyes shone with joy, and they quickly thanked him.
