Chapter 291

Long Aotian was not unaware of the Wu brothers' advice.

As a peerless genius of the Divine Beast Sect.

He really didn't need to take the risk.

But in the secret realm of Taixu, there is something he must get.

For this thing, no matter how big the risk is, it is worth it.

Many years ago.

After Long Aotian killed a young monk who didn't like it.

He found a jade slip on the young monk.

By looking at the contents on the jade slips.

Only then did Long Aotian know.

It turned out that the ancestor of a young monk he killed was actually an Immortal King of Taixu Sect.

more importantly.

In the jade slips, he saw a key piece of information.

According to the jade slips.

Immortal King Taixu once obtained an original object deep in the Chaos Continent.

It's just that he hasn't had time to refine the original thing.

We encountered a fierce tide of beasts.

As a result, Taixu Immortal City was attacked by Chaos Beasts.

Even Immortal King Taixu himself eventually fell in that battle.

Long Aotian guessed that the original thing should still be in the Taixu Secret Realm.

As long as he finds it, the cave of Taixu Immortal King.

It is possible to obtain the original thing.

Think of this.

Long Aotian's heart was filled with heat.

That is the original thing.

It is the key to practicing Taoism.

In the fairy world, those who can practice Taoism are all top-notch figures.

According to rumors, Taoism is the prerequisite for achieving the realm of Tao Ancestor.

Only by cultivating a Taoist skill.

Only then can we have the opportunity to break through from the Great Luo Immortal King to the realm of Dao Ancestor.

If you want to practice Taoism, you must meet three basic conditions.

The first thing is to understand the law to the state of perfection.

The second is the need for Taoist cultivation methods.

The inheritance of Taoism is indeed very precious. Even their Divine Beast Sect does not currently have such inheritance.

Whether it is the perfection of laws or the inheritance of Taoism, it is not something that ordinary people can possess.

If you want the law to be perfect, you must at least have cultivation in the Daluo realm.

As for the inheritance of Taoism, you can only have a chance to obtain it by looking for those Taoist ancestors.

But relatively speaking.

Although these two conditions are difficult.

But Long Aotian is confident that he will be able to do it in the future.

He possesses the Holy Body of Heaven, and his cultivation speed is countless times faster than that of ordinary people.

In addition, there is the protection of the Divine Beast Sect.

After cultivating to the Daluo realm, there will definitely be no problems.

As for obtaining Taoist cultivation methods from Taoist ancestors.

Long Aotian also has connections.

Very few people know.

In fact, behind the Divine Beast Sect stands a demon clan Taoist ancestor.

The guardian beast of the Divine Beast Sect was originally the legitimate son of a certain Taoist ancestor of the demon clan.

During an experience in , this legitimate son of the demon clan's Taoist ancestor met Long Yuanguang.

The two later jointly established the Divine Beast Sect in the South China Sea Immortal Domain.

If you take it seriously.

The Divine Beast Sect can be considered as half a demon clan sect.

It is precisely because of this relationship that exists.

Only then could Long Yuanguang obtain a Nine-turn Flying Dragon Pill from Dao Ancestor.

Although the first two conditions are not easy.

But Long Aotian still has a way to solve it.

I just want to practice Taoism.

There is another most critical condition.

That is the need to consume an original thing to open the origin of the avenue.

However, the difficulty of obtaining the original thing is enough to deter everyone.

Because there is no such thing in the outside world.

In the entire fairy world, there is only one place that produces original things.

That is the deepest part of Chaos Continent.

The original sea.

Only in the ocean of origin can one have the opportunity to find the original thing.

However, the sea of origin is the holy place for all chaos beasts.

According to the legend of the Chaos Beast.

The sea of origin is the birthplace of the Chaos Supreme.

The twelve major chaos beast tribes built a huge altar there.

Enshrined above are the relics of the Chaos Supreme.

Every large tribe will send out at least one supreme-level chaos beast.

Guarding the sea of origin all year round.

As for the king-level chaos beasts, there are too many to count.

A place like the Origin Sea.

Even if Dao Ancestor passed by.

Once discovered by the Chaos Beast.

It is difficult for them to escape safely, and they are very likely to perish.

As for the past of Daluo Immortal King, he was almost dead but not alive.

I don't know what kind of opportunity Taixu Immortal King had to bring out an original object.

For this original thing.

Long Aotian is determined to win.

Since activating the Holy Body of Heaven, he has set his goal at the top of the fairy world.

That is the state of achieving Taoism.

In Long Aotian's view.

If he wants to become a Taoist, the only difficulty is the original thing.

As long as you do this, everything else won't be a problem.

It's nothing more than slowly polishing your cultivation over a long period of time.

Therefore, after seeing the contents on the jade slips.

He had been preparing for this.

If it wasn't for this matter, he would have broken through to the Taiyi realm long ago.

How could we wait until now?

...

Time passed slowly.

Five days later.

The vortex channel in the sky finally began to stabilize.

Wu Tian turned around and said to a Golden Immortal monk behind him.

"You go in first."

"yes."

Although the Taixu Secret Realm has been opened countless times.

But Wu Tianyi is still afraid that something unexpected will happen.

Section 292

So first arrange for a Golden Immortal monk to explore the way ahead.

Under the gaze of everyone.

The Golden Immortal monk quickly rushed into the whirlpool channel and quickly disappeared.

Seeing this situation, everyone couldn't help but look happy.

Apparently, the vortex passes fine.

It can carry the Golden Immortal monk into the secret realm of Taixu.

Wu Tianyi said respectfully to Long Aotian.

"Young Master, you can go in."

"Um."

Long Aotian nodded, then rose into the sky and flew into the passage in the sky instantly.

Immediately afterwards, the six thousand Golden Immortal monks from the Divine Beast Sect began to enter the passage one after another.

Wait until they are all inside.

Cheng Yuanshan said to Zhang Yuhe and others.

"You guys can go in too."

"Remember, this passage only lasts for one year."

"Once you feel the power of space repulsion, you must choose it immediately."

"Otherwise, you will be trapped in the secret realm and never be able to get out."

Everyone nodded in response.

Everyone has already understood some common sense issues about Taixu Secret Realm.

Unless you commit suicide.

Otherwise, no one would choose to stay in Taixu Secret Realm by force.

Because countless experiences have shown.

Those who chose to stay all died in the end.

After the secret realm is closed, it will wander through the cracks in the void again.

The terrifying power of space is enough to cut any Golden Immortal monk into pieces.

After Cheng Yuanshan finished speaking.

The golden immortal monks from Wanxian Sect and Chaotian Palace began to enter the passage one after another.

Zhang Yuhe rose into the air and quickly stepped into the passage.

...

Chapter 246 Immortal Lord's Cave

Zhang Yuhe stepped into the whirlpool passage.

Following a transformation in time and space, a strange place soon appeared.

He looked around vigilantly.

The first time you enter the Taixu Secret Realm is also the most dangerous time.

Because everyone does not appear in a fixed location after entering.

But randomly.

Some unlucky ones might just happen to fall next to a high-level Chaos Beast when they first came in.

As soon as you enter, you will be caught in the chase of Chaos Beasts.

There are even worse ones.

As soon as he entered, he was enveloped by the killing array of the secret realm.

Killed instantly by the killing array.

But overall.

After everyone enters the Taixu Secret Realm, they usually appear in a relatively normal position.

Otherwise, not many people would dare to come to this place.

Of course.

There will also be some lucky ones.

When I first came in, I landed directly somewhere, in the cave of a high-level monk.

That is to say.

They don't need to go out and take risks anymore.

As long as you are not greedy.

After plundering the resources in the cave, just slowly wait for the secret realm to close.

Zhang Yuhe looked around, seeing that the buildings, pavilions and pavilions were well arranged, and the layout of the landscape was extremely particular.

You can tell at first glance that this place was once a monk's cave.

more importantly.

Follow his gaze and look into the distance.

A faint curtain of light was seen, covering a radius of dozens of miles.

In other words, this place is still under the protection of the formation.

After quickly investigating the surrounding situation.

Zhang Yuhe couldn't help but smile.

"It turns out that I am also a lucky person."

It is clear.

This is a cave that has not been discovered yet.

The formation in the cave is working well.

This shows that after the beast tide that year.

No one has ever been here again.

Zhang Yuhe quickly moved around and searched around.

He looked in the right direction and first came to the location of the medicine garden.

Only a light blue light curtain was seen, covering many surrounding mountains.

Seeing such a situation, Zhang Yuhe couldn't help but frown slightly.

Without finding it, Dongfu controlled Zhongqi.

Everywhere he goes, he must first break the formation inside.

This is a bit laborious.

"Let's try it first."

Think of this.

Zhang Yuhe stretched out his right hand.

A golden long stick appeared in his hand, exuding frightening pressure.

Use innate treasures at the level of mid-grade immortal weapons to break the formation.

It shouldn't be too difficult.

Unless this is the cave of Immortal King Taiyi.

However, Zhang Yuhe had already checked around.

Although he has not found the core of this cave yet.

But through the layout of the cave, we can also get a general idea.

This should be the cave of a Taiyi Immortal Lord.

The formation arranged by Taiyi Immortal Lord should not be able to block a few attacks from the Nine Heavens Flying Spirit Stick.

Think of this.

Zhang Yuhe picked up the long stick in his hand and smashed it towards the light curtain he was looking at.

Boom...

The light blue light curtain emits violent fluctuations.

After a round of attempts.

Zhang Yuhe then saw the endurance limit of this defensive formation.

The defensive formation in this medicine garden is indeed very good.

Don't be afraid that it is the formation arranged by the Immortal Lord.

Come over instead of an ordinary Golden Immortal monk.

Maybe there aren't many ways to use this formation.

But in Zhang Yuhe's hands.

This formation won't last long.

He continued to swing the long stick in his hand, and the stick shadows in the sky fell crazily towards the light curtain.

Click...

After a while.

Section 293

The light blue light curtain was smashed into tiny cracks by him.

See this situation.

Zhang Yuhe did not stop.

Instead, he continued to wave the Nine Heavens Flying Spirit Stick in his hand.

Another moment passed.

Under his continuous bombardment, the light curtain exploded.

Without the protection of the formation, the situation in the medicine garden was completely presented to Zhang Yuhe.

I saw a few fairy medicines with strong aura growing sparsely in the entire medicine garden.

As for the other elixirs and herbs, they have long since withered.

After all, countless years have passed.

Common elixirs and fairy grasses also have growth limits.

After growing to its limit.

If it has not been collected, it will slowly wither.

despite this.

There was no trace of frustration on Zhang Yuhe's face.

Because the remaining fairy medicine plants in the medicine garden are all extremely precious.

He quickly flashed through the medicine garden and transplanted the elixir into the Wanling Diagram space.

Qi Yanyun Immortal Grass, Jiuzhi Exquisite Fruit...

Not many elixirs survive in the medicine garden.

But all of them are high-quality products, and the growth period of the elixir has reached a very scary level.

Zhang Yuhe took a closer look and found that these elixirs were at least hundreds of millions of years old.

Among them, there are five plants of Qi Yan Yun Immortal Grass and only one plant of Jiuzhi Linglong Fruit.

But there are three fruits on it.

The Seven Flames Yunling Immortal Grass is the main medicine for refining the Seven Flames Yunling Spirit Pill.

Back then, he exchanged a large amount of Qiyan Yunling Pill from Cheng Yuanshan.

This elixir can speed up the cultivation speed of the Golden Immortal monk.

As for Jiuzhi Linglong Fruit, it is even more precious.

The Nine Orifice Exquisite Fruit can be combined with the Nine Star Chaos Beast Crystal Core to refine the Nine Orifice Exquisite Elixir.

This kind of elixir can help monks who have perfected the Golden Immortal to break through to the Taiyi realm.

Has excellent results.

If he releases these three Jiuzhi Exquisite Fruits.

Those golden immortal monks will definitely have their heads snatched away.

...

After collecting the elixir and fruit, Zhang Yuhe happily rushed to the next target.

Although the Qiyanyun Immortal Grass and Jiuzhi Exquisite Fruit did not have much effect on him.

But no one would despise such a precious thing.

If you don't use it yourself, you can exchange it with others.

Besides, Dao Sheng Sect now has so many Golden Immortal monks.

If you can find the corresponding prescription.

He can completely refine these elixirs into elixirs.

Then the overall strength of Dao Sheng Sect will definitely improve qualitatively in the future.

After walking out of the medicine garden.

Zhang Yuhe searched quickly in various halls.

I just didn't find too many good things.

In the alchemy hall, he only found a third-grade immortal cauldron.

As for the imaginary elixir, not a single one was found.

I want the owner of this cave to go out to fight against the beast tide.

All the finished elixirs have been taken away.

The Weapon Refining Hall was even more empty.

He didn't even find a cauldron.

He didn't know that he was taken away in advance by the owner of the cave.

The owner of this cave has no talent for refining weapons at all.

Maybe they don't have a cauldron at all.

This weapon refining hall may be just a decoration.

He searched the hall several times in a row, but found nothing good again.

But Zhang Yuhe was not discouraged.

It's already pretty good if you can find a few precious elixirs.

After all, not every monk's cave can find good things.

Just like where he had been.

When you leave, you will definitely clean up.

If there are descendants, find the cultivation cave where he once stayed.

You will be very disappointed.

He might even yell loudly.

【stingy person】

...

Chapter 247 Dan Fang, Nine Star Chaos Beast

After searching everywhere.

Zhang Yuhe soon reached the highest peak in the middle of the cave.

I saw a magnificent hall sitting on the top of the mountain.

In front of the main hall, there stands a tall stone tablet.

Engraved on the stone tablet are three vigorous and powerful characters.

【Qianyuan Mansion】

"Is this the cave of Immortal Qianyuan?"

Seeing the stone tablet in front of the main hall, Zhang Yuhe thought silently.

Before entering the Taixu Secret Realm, he carefully learned about the situation of the Taixu Sect back then.

According to classic records.

Immortal Lord Qianyuan is a powerful Taiyi monk.

Not only that.

Immortal Lord Qianyuan is also famous for his alchemy skills and is able to refine a variety of precious third-grade elixirs.

"The hall in front of you should be where Immortal Qianyuan practices. I hope you can find some practical elixir recipes, right?"

Looking at the main hall in front of him, Zhang Yuhe thought silently in his heart.

He had not found any elixir recipe in the alchemy hall before.

This made him slightly disappointed.

Immortal Lord Qianyuan is famous for his alchemy skills, so I hope he won't clean up too much.

At least some inheritance must be left behind.

Think of this.

Zhang Yuhe walked quickly to the door of the hall.

He swung the Nine Heavens Flying Spirit Stick and blasted the door open with one blow.

After entering the main hall.

The first thing that came into view was a fairy sword with flashing light, which was solemnly placed on the shelf.

"High-grade immortal weapon?"

Zhang Yuhe stepped forward quickly, took the fairy sword in his hand and inspected it.

Feel the pressure emanating from the fairy sword.

He muttered to himself.

"It is indeed a top-grade immortal weapon."

Zhang Yuhe was very surprised to find a high-grade immortal weapon.

Originally he thought.

When Immortal Lord Qianyuan goes out to fight against the beast tide, he will definitely bring all the immortal weapons with him.

Unexpectedly, he would still be able to leave behind a high-grade fairy sword.

Section 294

Zhang Yuhe held the immortal sword and silently recalled the information about Qianyuan Immortal Lord.

According to the records in the classics, Qianyuan Immortal Lord's natal magic weapon is a pair of Haoyue Golden Crystal Rings.

He is not good at using immortal swords.

This immortal sword may be an accidental acquisition of Qianyuan Immortal Lord.

It is not the immortal weapon he used.

That's why it was left here.

After the immortal sword was put away.

Zhang Yuhe was full of expectations for other items in the hall.

Since Qianyuan Immortal Lord could leave a immortal sword.

Then he might leave some other things.

Thinking of this.

Zhang Yuhe's eyes quickly swept through the hall.

After making sure that nothing was left out.

He quickly came to the side hall next to him.

I saw a tall bookshelf full of various jade slips.

Seeing this, Zhang Yuhe couldn't help but be overjoyed.

Jade slips are the inheritance of cultivators.

These jade slips left by Qianyuan Immortal Lord should record his own inheritance.

Zhang Yuhe came to the bookshelf, picked up the jade slips on it, and slowly checked them one by one.

"Haha, there are indeed pill recipes."

After a careful inspection.

Zhang Yuhe found that the contents recorded in these jade slips were all-encompassing.

There were skills and magical powers.

There were also Qianyuan Immortal Lord's cultivation experience, pill refining experience, etc.

But what he cared about most was.

There were three jade slips, each recording a pill recipe.

There were pill recipes for Qiyan Yunling Pill and Jiuqiao Linglong Pill.

As for the last jade slip, it recorded a pill recipe to assist the cultivation of the immortal body.

It was called Tianyuan Holy Spirit Pill.

This immortal pill was made with 80 million years of Tianyuan Holy Spirit Immortal Grass as the main ingredient, supplemented by the Nine-Star Chaos Beast Crystal Core.

After Taiyi Immortal Lord cultivated his immortal body to a small success.

Only one Tianyuan Holy Spirit Pill was needed to have the opportunity to break through the immortal body to the state of great success.

Such an immortal pill was absolutely unimaginable in its preciousness.

However, the materials for refining Tianyuan Holy Spirit Pill are also very difficult to obtain.

Needless to say, the Nine-Star Chaos Beast Crystal Core.

In the Taiyi Realm, there are not many people who can kill the Nine-Star Chaos Beast.

If you want to obtain the Nine-Star Crystal Core, you can only exchange it with the Daluo Immortal King.

Compared with the Nine-Star Crystal Core.

Even more difficult to find is the Tianyuan Holy Spirit Immortal Grass.

This kind of immortal medicine has long been extinct in the South Sea Immortal Realm.

It is simply impossible to find it.

Unless you enter the depths of the Chaos Continent.

Otherwise, it is difficult to find it elsewhere.

Even if Taiyi Immortal Lord wants to cultivate it himself, it is extremely difficult.

Not to mention that the growth conditions of Tianyuan Holy Spirit Grass are extremely harsh.

The 80 million years of medicinal age alone is enough to discourage people.

Even if Taiyi Immortal Lord has an infinite lifespan, it is probably difficult to wait for 80 million years.

...

Zhang Yuhe put away all the jade slips on the bookshelf.

It is still too early for him to achieve the Great Perfection of the Immortal Body.

If you want to cultivate your immortal body to the state of great success, you must at least have the cultivation of Taiyi Immortal.

There is no rush for the time being.

Wait until he breaks through to Taiyi Immortal.

Anyway, I have the recipe in hand.

I can slowly collect the materials later.

After making sure that there is nothing missing, Zhang Yuhe walked out of the cave hall.

He stood on the top of Qianyuan Peak and carefully checked the situation outside.

According to the experience left by people who entered the Taixu Secret Realm in the past.

There are usually chaos beasts around the caves in the secret realm.

The higher the level of the cave, the higher the level of the chaos beasts that appear.

Qianyuan Immortal Lord is in the late Taiyi Realm.

There is a high probability that a nine-star chaos beast will appear near his cave.

There will be at least an eight-star chaos beast.

So Zhang Yuhe did not dare to go out rashly.

If he accidentally hits a nine-star chaos beast directly, it will be troublesome.

Although he is very confident in his own strength.

Even if he faces a nine-star chaos beast, he has the confidence to escape.

But wouldn't it be better if there were less trouble?

Why bother to make things uncomfortable?

Zhang Yuhe let the mountain peak and carefully check the outside of the cave.

Due to the suppression of the formation.

The spiritual consciousness of the cultivators will be greatly limited in the Taixu Secret Realm.

Even for the Golden Immortal cultivators, the range of their spiritual consciousness here will not exceed a hundred miles.

In fact.

In the Taixu Secret Realm, the spiritual consciousness is not as good as looking directly with the eyes, which is more practical.

Even if you have not practiced the corresponding spiritual eyes.

As long as there is nothing blocking it.

Golden Immortal cultivators can see the situation hundreds of miles away.

If you have practiced special spiritual eyes.

The situation thousands of miles away can also be seen clearly.

As the formula moved.

A faint purple light suddenly shot out from Zhang Yuhe's eyes.

Immortal magical power: Glazed Immortal Pupil.

This is a special spiritual eyes magical power.

As long as he activated this pupil technique, he could greatly increase his vision, and he could also see some hidden things.

Considering the special situation of Taixu Secret Realm.

As early as when he got the quota.

He specially practiced this pupil technique.

As his eyes swept over.

The situation within ten thousand miles around was all presented in Zhang Yuhe's vision.

"Hey, there really is a nine-star chaos beast."

Soon, he saw a tall figure in the southeast direction.

It was about three thousand miles away from Qianyuan Peak.

Fortunately, he didn't rush out rashly just now.

Otherwise.

It is possible that he would have directly bumped into this nine-star chaos beast.

After confirming that there were no other chaos beasts around.

Zhang Yuhe took off into the air and flew quickly towards the northwest.

He was not interested in playing a game of chase with the nine-star chaos beast.

As long as he saw the traces of the chaos beast, he would avoid it.

Section 295

There is no need to be stubborn.

...

Chapter 248 Exploration and Progress

Zhang Yuhe avoided the Nine-Star Chaos Beast and flew forward quickly.

However, he didn't fly far before he collided head-on with another Chaos Beast.

"Fuck, where do so many Chaos Beasts come from in this place?"

Seeing a tall Chaos Beast on the opposite side rushing towards him quickly.

Zhang Yuhe was very speechless.

No wonder the death rate of the Golden Immortal cultivators who entered before was so high.

Damn, you can encounter Chaos Beasts almost every few steps.

How can you find treasures in this way?

Of course.

It was mainly because of him, who was too arrogant just now.

Others usually walk on the ground after entering the Taixu Secret Realm.

Cautiously groping forward.

How many people can fly in the air as swaggeringly as he did just now?

Looking at the Chaos Beast rushing towards him.

This time, Zhang Yuhe did not choose to avoid it.

Because this time it was not a nine-star chaos beast, but a seven-star one.

The seven-star chaos beast was not qualified for him to avoid and take a detour.

Besides, he wanted to try to see how strong he was now after 50,000 years of training.

Zhang Yuhe stopped.

He stretched out his right hand.

The golden Nine Heavens Flying Spirit Stick fell into his hand.

Zhang Yuhe used all his strength to activate the Galaxy Dragon Body Technique, and his body flashed quickly.

At the same time, he waved the long stick in his hand and rushed directly towards the chaos beast on the opposite side.

The Nine Heavens Flying Spirit Stick turned into a golden stick shadow all over the sky, and it quickly enveloped the chaos beast.

The golden stick shadow carried a terrifying pressure and fell directly on the chaos beast.

Boom...

With a loud noise.

This huge seven-star chaos beast was smashed hundreds of miles away by him.

The surrounding mountain buildings were instantly trampled into powder.

Roar...

The chaos beast also roared to the sky, and its eyes were full of fear.

When it saw a Golden Immortal cultivator, it thought it could kill him with one slap.

However, the result of the first collision surprised it.

The opponent's golden long stick carried a terrifying pressure, which made it completely powerless to resist.

It was knocked away by one stick.

Not only that.

After retreating hundreds of miles, this seven-star chaos beast vomited blood violently.

Because the chaos beast is huge.

The blood spit out was as exaggerated as rain.

Seeing that he had seriously injured the chaos beast with one stick.

Zhang Yuhe showed a satisfied smile on his face.

After 50,000 years of cultivation, his strength has indeed improved greatly.

During the last beast tide.

Even if he used all his strength, he could not kill a seven-star chaos beast.

Unless he opened the magical power of Hunyuan Guiyi.

Otherwise.

He had no way to deal with the seven-star chaos beast.

He could only avoid and escape.

But 50,000 years have passed.

Not only did he improve his cultivation to the late Golden Immortal.

Moreover, he had comprehended all three supreme laws to the state of minor success.

In addition, the Nine Heavens Flying Stick had been promoted to the level of a mid-grade immortal weapon.

Now the Seven-Star Chaos Beast was nothing in front of him.

After being hit by Zhang Yuhe with a stick.

The Seven-Star Chaos Beast let out a thunderous roar, then turned around and ran away.

"Fuck, this is so cowardly."

Seeing this situation, Zhang Yuhe was stunned.

"It's a Seven-Star Chaos Beast after all, don't you want to fight for it?"

"Facing a Golden Immortal cultivator like me, you are going to run away, don't you want to save face?"

It's a pity that this Chaos Beast didn't know Zhang Yuhe's inner thoughts.

Otherwise.

It would definitely complain silently.

"I was hit by your stick and was seriously injured. If I don't run now, am I going to die?"

Seeing the Chaos Beast turn around and run away.

A trace of fierceness flashed in Zhang Yuhe's eyes, and he muttered to himself.

"Isn't it too late to run now?"

"It's better to be honest and leave the body and the crystal core behind."

He used the Galaxy Dragon Body Technique with all his strength, and his body teleported in the void, and soon caught up.

The golden stick shadows in the sky once again enveloped the Seven-Star Chaos Beast.

Roar...

Seeing that it was caught up again.

This Chaos Beast also knew.

If it doesn't beat Zhang Yuhe back, it won't be able to run again.

It swung a pair of huge hammers and smashed towards Zhang Yuhe fiercely.

However, Zhang Yuhe was like lightning, his figure flashing and shuttling quickly.

The Chaos Beast simply couldn't lock his figure.

Its swift hammers would miss every time.

In the end, it could only helplessly smash huge pits on the ground.

Zhang Yuhe swung the long stick in his hand.

The golden stick shadows in the sky kept falling towards the Chaos Beast.

After a while, this powerful Seven-Star Chaos Beast soon lost its breath.

Zhang Yuhe collected the corpse of the Chaos Beast on the ground and quickly left the scene.

The noise just now was a bit loud, so don't attract other Chaos Beasts.

...

Far away from Zhang Yuhe.

Nangong Youxi, with a brocade-like fairy weapon on her head, lay carefully behind a huge rock.

When she saw a tall figure in the distance running away.

She couldn't help but breathe a sigh of relief.

"The Taixu Secret Realm is really scary. I just came in and was almost hit by the Seven-Star Chaos Beast."

Seeing the Chaos Beast in the distance.

Nangong Youxi took out a beast skin map and carefully compared the direction.

Then he looked at the direction and quietly groped forward.

...

In a ruined building complex, Qian Mingshi punched out.

Then he cursed and complained.

"It turns out that this is just a cave of a Golden Immortal disciple. It took me so much effort to break the formation."

Section 296

"In the end, I didn't get any benefits at all. This person is too deceitful. It's really annoying."

Qian Mingshi looked in one direction, and then continued to move forward cautiously.

The Taixu Secret Realm is huge, and countless monks once lived here.

Can you find an opportunity?

In addition to strength, luck is also important.

For ordinary Golden Immortal disciples like this, the cultivation caves they stayed in usually didn't have too many good things.

If you are unlucky and meet a meticulous Jinxian disciple in Dongfu.

Maybe they had already cleaned up the cave when they left.

The result will be like Qian Mingshi.

The boss spent all his efforts to break the formation, but he couldn't get even the slightest benefit.

And this is the normal state for everyone to explore the secret realm.

After all, so many people enter the secret realm.

In the end, there are only a few people who can really find great opportunities.

despite this.

We still won't give up easily.

After all, in the secret realm, there may still be opportunities.

Even if there is only a slight possibility.

Everyone will work hard to explore and find.

The road to immortality is extremely difficult.

Golden Wonderland is just one of the stages.

If you don't break through to the realm of Taiyi, you can't say you will live forever.

Although they are qualified, the Golden Immortal monks who enter the Taixu Secret Realm are all outstanding figures of the major forces.

But they themselves know it.

If there is no special opportunity.

Maybe the Golden Fairyland is the end of my immortal path.

So no matter how dangerous it is, everyone must move forward.

This is a disaster on their path to immortality, but it is also an opportunity to change their destiny.

...

Chapter 249 Searching the Secret Realm

In a place far away from Zhang Yuhe.

A golden flying boat flew across the sky quickly.

Long Aotian kept adjusting his direction while comparing the map.

Compared to other monks, they only dare to explore and advance cautiously in the secret realm.

Long Aotian was much more arrogant.

He directly controlled the flying boat and ran rampant in the sky.

He didn't pay any attention to dangers such as chaos beasts and formations in the secret realm.

Suddenly, countless dense sword lights shot into the sky around him.

The sword light drew like a long river and quickly struck Long Aotian.

"Hmph, another formation."

Seeing such a situation, Long Aotian couldn't help but snorted.

I saw him take out a delicate hammer.

The surface of the hammer shone with mysterious runes.

A middle-grade immortal weapon, a formation-breaking hammer.

With the continuous injection of immortal power.

The formation-breaking hammer turned into a stream of light and struck somewhere in the void rapidly.

Only a clicking sound was heard in the distance.

The dense river of sword energy disappeared into nothingness in an instant.

The formation-breaking hammer is designed to break various formations.

Although this is just a middle-grade immortal weapon.

But as long as the level of the formation does not exceed the third-level immortal level, it can be easily broken.

It would be an understatement to say that such a formation-breaking weapon is a divine weapon.

It's a pity that the materials for refining the formation-breaking hammer have long since disappeared in the fairy world.

There are only a few existing formation-breaking hammers.

Perhaps the only thing left in the entire South China Sea Immortal Domain is the one held by Long Aotian.

This is where Long Aotian's confidence lies.

As long as he has the Formation Breaking Hammer in hand, he is not afraid of most of the formations in Taixu Secret Realm.

As for other dangers, he had already prepared measures to deal with them.

He is determined to get the original things left by Immortal King Taixu.

at this time.

A disciple of Chaotian Palace appeared in the forest not far away.

When he saw the golden flying boat in the sky, he couldn't help but be surprised.

"If I go, how can I meet this madman?"

This disciple of Chaotian Palace sighed secretly in his heart that he was unlucky, and then quickly turned around and ran away.

When outside, Long Aotian has always acted unscrupulously.

This is certainly true in the secret realm.

Who knows if this madman can kill people randomly.

Anyway, just avoid some.

The disciple of Chaotian Palace was thinking silently in his heart as he ran away quickly.

Long Aotian stood on the flying boat and saw the Chaotian Palace disciples running away in the distance.

There was a trace of sarcasm in his eyes.

I saw him wave his right hand.

Three thick gun barrels protruded from the front end of the flying boat.

Boom...

With a flash of hot light.

Three rays of rainbow light shot straight at the Chaotian Palace disciple, instantly beating him to ashes.

If anyone saw this, they would be shocked.

Because Long Aotian actually brought in three high-grade immortal-killing cannons.

To know.

A big force like the Nangong Immortal Clan.

After hundreds of millions of years of accumulation, I have only accumulated three high-grade immortal-killing cannons.

Even for those big forces, every top-grade immortal-killing cannon is as powerful as a treasure.

It is not easy to take it out and use it.

Not to mention, he was taken to the Taixu Secret Realm, a dangerous place like this.

However, there were actually three high-grade immortal-killing cannons on Long Aotian's flying boat.

It can only be said that this peerless genius of the Divine Beast Sect is indeed arrogant.

Three cannons killed the disciples of Chaotian Palace.

For Long Aotian, it seemed like he had just done a trivial thing.

He adjusted the direction and flew the flying boat quickly into the distance.

Because of its age.

No one knows the location of Taixu Immortal King's cave.

Long Aotian could only choose a few key locations and search slowly one by one.

Anyway, there was enough time.

After the secret realm was opened, it could last for a whole year.

For others, a year was too little time.

It might not take a year to break a third-level immortal formation.

But for Long Aotian.

Time was enough.

Although the Taixu Secret Realm was very large and many places were full of dangers.

But he was not afraid at all.

Chapter 297

After rushing all the way, they found the cave of Taixu Immortal King.

There shouldn't be much of a problem.

...

Time passed slowly.

Half a year later.

Zhang Yuhe stood in front of a blue light curtain.

At his feet lay the corpse of a huge chaos beast.

In the past six months, he has searched half of the secret realm and found countless monk caves of various levels.

Among them, he found more than ten caves of Immortal Taiyi alone.

But next to every cave, there are Chaos Beasts.

In order to open the formation of the cave, he had to lure the Chaos Beast away first every time.

Of course.

If you encounter a Chaos Beast below seven stars, you will kill it directly.

As for the eight-star and nine-star chaos beasts.

Then he has no choice.

Without activating the magical power of Hunyuan Guiyi, he couldn't beat the eight-star chaos beast.

However, with the Galaxy Wandering Dragon Body Technique, there is no problem at all in luring the Chaos Beast away.

After killing a seven-star chaos beast again.

Zhang Yuhe swung the Nine Heavens Flying Spirit Stick and quickly bombarded the formation in front of him.

He has done this kind of thing countless times.

The third-level immortal formation arranged by Taiyi Immortal Lord is indeed a bit troublesome.

But that's just trouble.

With his current powerful strength, it only takes him half a day to break the third-order immortal formation in front of him.

after one day.

After Zhang Yuhe finished searching the cave, he quickly flew away into the distance.

In the past six months, he has obtained a lot of good things.

They are already a little numb.

There are all kinds of immortal tools, materials, elixirs, elixirs, blueprints, magical powers and cultivation experiences.

Among them, he found more than ten high-grade immortal weapons alone, and there were even countless middle-grade and low-grade immortal weapons.

After breaking through more than ten caves of Taiyi Immortal Lord in a row, he was dazzled by all kinds of good things.

He even found good things in some caves of Jinxian disciples.

Zhang Yuhe felt that after having these things.

Even if he practices while lying down, he can still break through to the Taiyi realm.

Even the resources to maintain Taiyi Realm cultivation are probably almost enough.

The only pity is.

So far, he has not encountered the cave of Daluo Immortal King.

Logically speaking.

At that time, there were many Daluo Immortal Kings in charge of the Taixu Sect.

They must have left caves in the Taixu Secret Realm.

I just don't know why, but he has never found it.

Maybe the caves of those Immortal Kings are in some special locations.

Zhang Yuhe took out an animal skin map, which recorded the locations he had visited.

Looking at the blank spaces on the map, he couldn't help but fall into deep thought.

Originally in order to improve search efficiency.

So whenever he saw the eight-star and nine-star chaos beasts, he would choose to avoid them.

Because he couldn't defeat these chaos beasts.

He didn't want to waste time without seeing the monk's cave.

Go and lure away these high-level chaos beasts.

now think of it.

Perhaps the cave of Daluo Immortal King is behind these chaotic beasts.

As long as these high-level chaos beasts are lured away, you may find the cave of Da Luo Immortal King.

"Go and look for it again."

Think of this.

Zhang Yuhe quickly chose a direction and flew towards the distance.

I spent half a year exploring the secret realm.

The ordinary Immortal Lord Cave Mansion no longer has much appeal to him.

Zhang Yuhe plans to do something big.

For example, first find a cave of Daluo Immortal King and try it.

...

Chapter 250 Meeting Qian Mingshi on the road

Zhang Yuhe activated the Galaxy Wandering Dragon Movement Technique and flew forward quickly.

If you occasionally encounter a low-level Chaos Beast on the road, just beat it to death with a stick.

At the same time, he has been maintaining the power of space law dozens of miles away from his body.

Thus.

If you encounter any remaining formations, you can rely on the power of the law to detect and avoid them in time.

The power of space law is more useful in the secret realm than imagined.

This is also the main reason why Zhang Yuhe can explore quickly.

Under the warning of space law.

He doesn't have to worry about accidentally touching the remaining formations in the secret realm.

"Huh?"

Just as Zhang Yuhe was flying quickly.

Suddenly waves of fighting skills came from a distance.

"Is this a battle between monks?"

In the Taixu Secret Realm, over the past six months.

Zhang Yuhe has seen too many monks fighting for opportunities.

There are even monks who are just here for a suspected cave of true immortal disciples.

Just start fighting.

Among them were the Golden Immortal monks from the Wanxian Sect and the Chaotian Palace, competing for opportunities with the disciples of the Divine Beast Sect, leading to a war.

There are also internal fights between brothers from the same sect of the three major forces.

For the sake of the opportunity in the secret realm, everyone no longer cares about the so-called brotherhood.

It's even possible that they haven't seen the real opportunity yet.

We can fight outside the cave.

Human nature is like this, Zhang Yuhe couldn't help but shake his head.

In the Taixu Secret Realm, every time he saw a conflict between monks, he would quickly pass through it.

Too lazy to take another look.

As long as you don't mess with him.

He doesn't bother to care about other people's affairs.

Zhang Yuhe was preparing to continue on his way.

He subconsciously activated his pupil technique and looked in the direction where the voice came from.

"Fuck, it seems to be Qian Mingshi."

Ten thousand miles away.

Qian Mingshi cast out a golden shield, forming a thick light curtain.

Protecting himself firmly.

At the same time, he also controlled two immortal swords and launched some counterattacks from time to time.

And opposite him.

Five disciples of the Divine Beast Sect, each controlling immortal weapons and using magical powers, constantly besieged Qian Mingshi.

However, Qian Mingshi's strength seemed to be quite good.

Even when facing the siege of five cultivators of the same level, he still fought back and forth.

At least on the surface, he has not fallen behind yet.

Section 298

Of course.

This is only temporary.

Once the time is too long, it will be hard to say.

A disciple of the Divine Beast Sect on the opposite side said loudly.

"Qian Mingshi, hand over the things honestly, and we can spare your life."

"Otherwise, your immortal road will end here."

Qian Mingshi controlled the immortal sword to fight back while his eyes were rolling around.

Prepare to find an opportunity to run away.

He snorted in response to the words of the Divine Beast Sect disciple.

"Hmph, the things are on me, come and get them if you have the ability."

"Looking for death."

The battle between the two sides became more intense in an instant.

Zhang Yuhe activated the pupil technique and looked at the situation in the distance.

He touched his chin and muttered to himself.

"For Qian Yuanjiang's sake, I will help you once?"

When he first arrived in Wanxian City, Qian Yuanjiang specifically instructed him.

Let him take care of Qian Mingshi in the Taixu Secret Realm.

However, Zhang Yuhe didn't take this too seriously at the time, and just responded casually.

Because the Taixu Secret Realm is extremely vast.

After entering, the chances of meeting each other are not great.

But he didn't think.

He could really meet Qian Mingshi.

In this case, it doesn't hurt to help.

Thinking of this.

Zhang Yuhe quickly flashed and arrived in a moment from a distance of thousands of miles.

Seeing Zhang Yuhe coming, Qian Mingshi couldn't help but be overjoyed.

He shouted loudly.

"Brother Zhang, help me."

Seeing Qian Mingshi, so exaggerated.

Zhang Yuhe was very speechless.

Didn't you fight back and forth?

It doesn't look like it's very miserable, so is there any need to ask for help so exaggeratedly.

The disciples of the Divine Beast Sect on the opposite side saw Zhang Yuhe coming, but didn't take it to heart.

Because Zhang Yuhe's cultivation is really too ordinary.

It's just the late Golden Immortal.

The weakest people who can enter the Taixu Secret Realm are all in the late Golden Immortal.

One of the Divine Beast Sect disciples said to the person next to him.

"Humph, there's one more person, just in time to kill two of them together."

Another Divine Beast Sect disciple next to him suddenly whispered.

"Brother, be careful, this person is Zhang Yuhe."

Hearing this, the other four Divine Beast Sect disciples were all stunned.

They had naturally heard of Zhang Yuhe's name.

But they didn't expect to meet Zhang Yuhe here.

While they continued to surround Qian Mingshi, they looked at Zhang Yuhe vigilantly.

The leading Divine Beast Sect disciple turned around and shouted at him.

"Zhang Yuhe, I advise you to mind your own business."

Hearing this, Zhang Yuhe couldn't help but show a playful smile on his face.

He responded lightly.

"Didn't you just say that you wanted to kill me too? How can it be considered meddling in other people's business?"

Seeing Zhang Yuhe's expression, the five Divine Beast Sect disciples quickly shrank and moved closer.

They could no longer care and continued to besiege Qian Mingshi.

The leading disciple said loudly with courage.

"Don't be too arrogant, our Senior Brother Long is also in the secret realm."

"Once Senior Brother Long comes, you will be in trouble."

Qian Mingshi took the opportunity to get out, and he quickly ran behind Zhang Yuhe.

"Brother Zhang, don't listen to their nonsense, the Taixu Secret Realm is so big, and Long Aotian is still hiding in some corner."

Zhang Yuhe nodded gently.

I don't know if these disciples of the Divine Beast Sect are used to being arrogant.

At this time, they still threatened him with Long Aotian.

They really don't know how to write the word death.

What is the old saying of Lanxing.

[If you are weak but not afraid of the strong, and you are in a low position but insult your big neighbor, you can die.]

Originally, he just planned to save Qian Mingshi.

Now it seems that these disciples of the Divine Beast Sect are not good people.

It's better to die.

Thinking of this.

Zhang Yuhe stopped talking nonsense.

He just waved his right hand.

Nine immortal swords fell quickly.

A magnificent sword energy curtain was formed, encircling the five disciples of the Divine Beast Sect.

As the spell was pinched.

The boundless sword energy quickly swept the world.

The five disciples of the Divine Beast Sect didn't even have time to scream.

They were directly cut into ashes by the endless sword energy.

Seeing this, Qian Mingshi next to him was stunned.

He knew that Zhang Yuhe was very strong.

How could a person who could reverse the Seven-Star Chaos Beast not be strong?

But he didn't expect it.

Zhang Yuhe could actually be so strong.

These five disciples of the Divine Beast Sect were not ordinary Golden Immortal cultivators.

They were all elite disciples of the Divine Beast Sect.

However, in Zhang Yuhe's hands, they were like little chicks.

They all turned into ashes in the blink of an eye.

Such strength is really terrible.

Is this still a Golden Immortal cultivator?

Even an ordinary Taiyi Immortal Lord is not so strong.

Qian Mingshi thought silently while respectfully speaking to Zhang Yuhe.

"Thank you, Brother Zhang, for helping me."

Zhang Yuhe responded with a smile.

"Brother Qian, you are too polite. I believe you can get away even without my help."

...

Chapter 251 Taixu Palace

After the two exchanged pleasantries, Zhang Yuhe said goodbye to Qian Mingshi and continued to fly forward.

For him.

Saving Qian Mingshi was just a matter of convenience.

As for the five disciples of the Divine Beast Sect who were killed, they were also those people who wanted to die.

Otherwise, Zhang Yuhe really wouldn't have much interest in arguing with these people.

After all, they were all people who posed no threat to him.

There was no deliberate targeting.

Chapter 299

Looking at Zhang Yuhe's figure in the distance, Qian Mingshi stood there, his heart filled with infinite envy.

People with strength are different.

They can only grope forward cautiously in the Taixu Secret Realm.

However, Zhang Yuhe can fly in the air all the way.

Qian Mingshi can't say anything other than envy about the difference between them.

"Keep looking ahead, hoping to find a cave of Taiyi Immortal Lord."

When Zhang Yuhe's figure completely disappeared from sight.

Qian Mingshi calmed down.

He took out the map, looked at the direction, and quietly moved forward.

The Taixu Secret Realm can only be opened for one year, so he has to work harder.

...

A few days later.

Zhang Yuhe stood in the air, looking at the mountains in the distance.

At this time, a faint purple light flashed in his eyes.

Liuli Immortal Pupil.

He used all his strength to activate this pupil technique and carefully checked the situation in the distant mountains.

The last time he passed by here, he saw a nine-star chaos beast nearby.

So he just took a detour and left.

Now it seems.

Maybe there is a cave of the Great Luo Immortal King deep in these mountains.

As the purple light flashed, several tall figures appeared in his field of vision one after another.

Seeing this situation, Zhang Yuhe couldn't help but hesitate.

There are indeed chaos beasts here, and not just one or two.

In his field of vision, a total of five chaos beasts were found.

All of them are nine-star chaos beasts.

It's a bit difficult.

Zhang Yuhe thought silently.

If there were only one or two nine-star chaos beasts, he could slowly lead them away.

But now there are so many chaos beasts here, how can he deal with it?

And because of the suppression of the formation.

In the Taixu Secret Realm, they can't fully expand their spiritual consciousness.

He can only use the pupil technique to check the situation within ten thousand miles around.

If it is more than ten thousand miles away, he can't see anything.

That is to say, how many Chaos Beasts are there in the depths of these mountains.

That is still hard to say.

He saw five, but in fact there must be more than that. There should be more Chaos Beasts.

It's just that he hasn't seen them yet.

Despite this.

Zhang Yuhe didn't mean to give up.

According to past experience, the more Chaos Beasts there are, the higher their level.

That means the chance of having good things here is greater.

So many Nine-Star Chaos Beasts are guarding this endless mountain range.

Maybe deep in the mountains, there is indeed the cave of the Daluo Immortal King.

The question now is.

What should he do to safely lead all these Chaos Beasts away.

Thinking of this.

Zhang Yuhe's expression suddenly moved.

One after another, figures flashed around him quickly.

Galaxy Incarnation Technique.

Three thousand clones lined up in unison and quickly pounced on the Chaos Beasts in the distance.

Zhang Yuhe planned to test it with the clones first.

Although the strength of these incarnations is weak, they only have the cultivation of the Mahayana realm.

Facing the Nine-Star Chaos Beast, one slap will kill him.

But it doesn't matter.

Anyway, it's just an incarnation. Even if it is killed by the Chaos Beast, it will only lose some immortal energy.

Thousands of miles away, a tall humanoid Chaos Beast saw a weak figure.

It was rushing towards it quickly, and it couldn't help but get angry.

"Roar, you're looking for death."

The humanoid Chaos Beast swung its huge fist and destroyed the incarnation with one punch.

However, after an incarnation dissipated.

Immediately afterwards, another incarnation rushed over.

The Chaos Beast destroyed many incarnations in succession.

But Zhang Yuhe's incarnation kept rushing over.

This made the Chaos Beasts in the mountains very angry.

They walked out of the mountains one after another and chased out in the direction of the incarnation.

Seeing this situation, Zhang Yuhe couldn't help but be overjoyed.

He quickly hid his figure and quietly moved towards the mountains in front of him.

However, every distance, he would find the figure of the Chaos Beast.

The number of Chaos Beasts here is even greater than he imagined.

Faced with such a situation.

Zhang Yuhe could only constantly activate the incarnation technique to lead the Chaos Beasts far away.

As time passed slowly.

After he groped forward for millions of miles in the mountains.

A huge palace finally appeared in his sight.

The palace stood on the top of the mountains, spanning countless peaks.

Zhang Yuhe looked around.

Three vigorous and powerful characters were engraved on the gatehouse in front of the palace.

[Taixu Palace]

Seeing this, Zhang Yuhe couldn't help but be overjoyed.

He muttered to himself.

"Finally I found it."

According to the records in the classics, the core control center of Taixu Immortal City is in this Taixu Palace.

Not only that.

Taixu Palace is also the main place for Taixu Immortal King to practice in the Immortal City.

Zhang Yuhe thought.

As long as he can enter this palace, he may be able to obtain the inheritance of Taixu Immortal King.

The inheritance of a Daluo Immortal King, how many good things would that be.

Thinking of this.

Zhang Yuhe couldn't help but get a little excited.

Despite this, he didn't rush in rashly.

Although from the surface, Zhang Yuhe didn't see the formation outside the hall.

But this is the core of the entire fairy city.

It would be strange if there was no formation guarding this place.

It was just that his cultivation was low and he couldn't see it.

The formation arranged by the Great Luo Immortal King was obviously not comparable to that of ordinary people.

And Taixu Palace, as the control center of the fairy city, must have been carefully arranged by someone.

The formation here must be terrifyingly strong.

Zhang Yuhe carefully explored the periphery of the hall for a long time.

He couldn't figure out the reason.

The treasure mountain was right in front of him, but he had no way to start, which was very uncomfortable.

Section 300

"Let's try it with the avatar first."

Thinking of this, a figure flashed and then rushed towards the main entrance of the hall.

However, when the incarnation had just approached the main hall, a hundred miles away.

A ray of sword light flew out from the hall and directly chopped the avatar into ashes.

Seeing such a situation, Zhang Yuhe couldn't help but feel a chill in his heart.

He didn't even understand.

Was that sword light just now the power of the formation, or was it actually struck by someone?

A flash of sword light flashed out of thin air, completely confusing.

Although he couldn't see the origin of the sword light.

But the power of this sword light was something he had never seen before.

Zhang Yuhe once saw Nangong Tianming attack with all his strength.

But this sword light was obviously much stronger than Nangong Tianming's strongest blow.

"Is this the Daluo Immortal King?"

Think of this.

Zhang Yuhe couldn't help but be fascinated.

A back trick arranged by an Immortal King who has been dead for countless years.

It actually has such strong power.

hard to imagine.

When Taixu Immortal King was alive, how fierce he must be.

At the same time, Zhang Yuhe's heart was even more intense.

Taixu Immortal King is so powerful.

Just leaving some good stuff behind is enough to make him take off.

"We must find a way to open the formation of the main hall and enter it."

Zhang Yuhe stood in the distance, thinking silently in his heart.

...

Chapter 252 Unlucky Long Aotian

Zhang Yuhe stood in the distance, continuously activated the incarnation technique, and kept trying around Taixu Hall.

However, no matter which direction the incarnation passes.

As long as you get close to the main hall, a sword light will fly out within a hundred miles.

After many attempts.

Zhang Yuhe finally determined that these sword lights came from a powerful formation.

Thinking of this, he couldn't help but breathed a sigh of relief.

When he saw the magnificent sword light for the first time, he thought there were still living people in the hall.

Now it seems that these sword lights are just activated by dead things.

If that's the case, it's easy to handle.

As long as it's a dead thing, he will always think of a way to deal with it.

Zhang Yuhe believes it.

No matter how powerful the formation is, if no one is in charge.

He will definitely be able to find a way to break the formation.

If that doesn't work, just use brute force and do it far away from the main hall.

The sword light flying out of the hall will only attack targets within a hundred miles.

Zhang Yuhe thought.

If he were to set up the Nine Heavens Hunyuan Sword Formation on the outside of the main hall.

Maybe this formation can be broken.

Even if the Taixu Palace's protective formation cannot be broken, the entire formation can still be activated.

What he can see now is just a corner of the Taixu Palace's protective formation.

As the core of a royal city.

The Taixu Palace's protective formation will definitely not be as simple as a few sword lights.

"Let's try it first."

Just when Zhang Yuhe was preparing to set up the Nine Heavens Hunyuan Sword Formation.

Suddenly, there was a roar in the distance.

"What's going on? Is there someone else coming?"

Zhang Yuhe quickly rose into the air and used all his strength to look into the distance with his glazed eyes.

However, the distance may be too far.

Even if he uses his pupil technique with all his strength, he can only see the red light filling the sky in the distance.

As for what the specific situation was, he couldn't see it at all.

But the roar in the distance is definitely not fake.

He is not old enough yet to have hallucinations.

But Zhang Yuhe felt very strange.

There are Nine-Star Chaos Beasts everywhere here, why would there be monks here?

This shouldn't happen at all.

The monks who can enter the Taixu Secret Realm are only in the Golden Immortal Realm.

Not to mention the Nine-Star Chaos Beast.

Even if they are just seven-star chaos beasts, these people cannot afford to offend them at all.

"Is it Long Aotian who is here?"

The first thing Zhang Yuhe thought of was Long Aotian.

Because in his opinion, other people are hiding their strength.

At most, it can be a tie with the Seven-Star Chaos Beast.

As for the Nine-Star Chaos Beast here, no one else can afford to offend it at all.

Among all the more than 10,000 Golden Immortal monks who entered the Taixu Secret Realm.

Those who can escape with their lives from the Nine-Star Chaos Beast are all Phoenixes.

Not to mention that he could directly fight with the Nine-Star Chaos Beast.

But Long Aotian is different.

As a peerless genius of the Divine Beast Sect, he is also the only son of Long Yuanguang.

It's hard to say what kind of trump cards Long Aotian will bring.

Zhang Yuhe would never look down on anyone.

Especially second-generation ancestors like Long Aotian.

Who knows what kind of killer weapon they might have on them.

Even Long Aotian can kill a nine-star chaos beast.

Zhang Yuhe wouldn't find it strange.

...

At this time, it was a hundred miles away from Taixu Palace.

Long Aotian stood on the golden flying boat.

Three high-grade immortal-killing cannons were firing continuously.

Several nine-star chaos beasts were trapped in place unable to move for some unknown reason.

I can only stand and be shot while alive.

However, the defensive capabilities of the Nine-Star Chaos Beast are indeed beyond what ordinary people can imagine.

Even in the face of the continuous bombardment of three high-grade immortal-killing cannons, the appearance of these nine-star chaos beasts was still fierce.

Still can't see any scars at all.

"Roar."

At this time, a nine-star chaos beast suddenly broke free from control and roared.

It rushed towards Long Aotian on the flying boat.

At the same time, it shouted angrily.

"Boy, you are looking for death, I will tear you into pieces, ah ah ah."

After the chaos beast enters the mutation, it can transform into a human form.

It can also speak the language of the monks and can communicate normally with the monks.

Of course.

The communication between the chaos beast and the monks is more about using fists rather than language.

Seeing the chaos beast, it rushed towards him quickly.
