

Top talent 311

Section 311

Go wherever you want.

Go into the library.

Looking at the vast sea of jade slips and classics in front of him, Zhang Yuhe was stunned.

He muttered to himself.

"Isn't this too exaggerated?"

...

Chapter 260 The Supreme Law's magical power is complete

Looking at the vast sea of jade slips and classics in the library, Zhang Yuhe was completely stunned.

Countless classics are recorded in various forms, neatly placed on bookshelves everywhere.

Among them, jade slips account for the vast majority.

There are also some techniques or magical inheritance recorded on animal skins.

There are also some inheritances that are inscribed on tall stone tablets.

Not only that.

Zhang Yuhe even saw a large number of paper books.

"The inheritance of a super power is indeed extraordinary."

Looking at the countless classics in front of him, Zhang Yuhe couldn't help but sigh silently.

Who could have imagined.

The Taixu Sect, which had such a powerful foundation, would actually collapse.

Things in the world are so unpredictable.

"Let's take a look slowly first."

Zhang Yuhe calmed down, picked up a jade slip, and slowly checked the contents on it.

There is still about half a year until the secret realm is closed.

He planned not to go anywhere for the remaining six months.

Just stay in the library and read all these classics first.

Although he has the Hunyuan Heavenly Scripture in hand, he does not lack skills.

In Zhang Yuhe's view.

No technique in the immortal world can compare to the Hunyuan Heavenly Scripture.

But he doesn't lack skills, he lacks supernatural powers.

This is not to say that he is dissatisfied with his current magical powers.

He just wants to find some special magical powers to understand other supreme laws.

Almost one hundred thousand years have passed since he ascended to the immortal world.

He understood the three supreme laws very early.

However, there has been no clue about the other six supreme laws.

no way.

The foundation of Dao Sheng Sect is still too weak.

There is simply no way to provide him with a medium to understand the Supreme Law.

Since the Dao Sheng Sect does not have the skills and magical powers to understand the Supreme Law.

There are no corresponding fairy weapons or special items.

If Zhang Yuhe wants to continue to understand other supreme laws, he must find other media.

After refining Taixu Palace.

The first thing he thought of was the library.

Here is a collection of classics accumulated by the Taixu Sect over countless years.

There must be some special magical powers or techniques that can be used as a medium to understand the Supreme Law.

Time passed slowly.

this day.

After reading the contents on a jade slip, Zhang Yuhe couldn't help but be pleasantly surprised.

"Haha, this magical power should allow me to understand another supreme law."

The jade slip records a special magical power called the Soul-Destroying Finger.

This magical power is extremely powerful.

Once used, it can instantly annihilate the enemy's soul and kill people invisibly.

However, Zhang Yuhe was more interested in the laws and charm contained in this magical power.

Destroying the soul refers to this magical power, which points directly to the avenue of the soul.

As long as he learns this magical power, he will definitely be able to understand the law of the soul from it.

Thinking of this, Zhang Yuhe couldn't help but feel overjoyed.

A supreme law has finally been established.

Of course.

The conditions for practicing the soul-destroying magical power are also extremely demanding.

Not only the magical power itself is difficult to understand.

Moreover, the monks themselves are required to have a powerful soul far beyond that of ordinary people.

Even if such magical powers were released, it is estimated that only a few people would be able to successfully cultivate them.

However, Zhang Yuhe was not worried about this.

I saw him put away the jade slip in his hand.

Then he stretched out his finger and pointed it out slowly.

A black light visible to the naked eye flashed past, emitting strong soul fluctuations.

It is the Soul-Destroying Finger.

In just a few moments, he successfully cultivated this disciple's incomprehensible magical power.

His incredible understanding is indeed no joke.

Any magical power can be learned after just one glance.

No need to worry about it at all.

After trying a few times.

Zhang Yuhe nodded with satisfaction.

He has completely mastered the magical power of soul-destroying finger.

As for understanding the power of the law from it, don't worry for now.

The power of the law is not that easy for him to comprehend.

Even if his understanding is off the charts, it will still take him hundreds or thousands of years.

Zhang Yuhe plans.

After he leaves the secret realm, he returns to the Ji'an sea area and slowly realizes it.

Finding a soul-killing finger made him full of expectations for the remaining jade slips.

He has only read a small corner of the entire library of classics.

If you read them all.

Maybe I can still find a few more special magical powers.

The Golden Immortal monk can master the power of six laws at the same time, and the Taiyi Immortal can master nine.

At present, Zhang Yuhe has only comprehended the three supreme laws.

With his current state, he can still comprehend three more supreme laws.

If you break through to the Taiyi realm.

Then he can understand all nine supreme laws.

"If we could find all the remaining magical powers, that would be perfect."

Zhang Yuhe thought silently as he continued to pick up a jade slip and began to examine it slowly.

After three months.

He finally read through all the books in the library.

It must be said that the inheritance of Taixu Sect is indeed extremely powerful.

The precious books of skills are simply numerous.

There are as many as five skills that can be cultivated to the level of Daluo Immortal.

There are even more than a hundred skills that can be cultivated to the level of Taiyi Immortal.

The most precious skill is called Taixu Immortal Scripture.

Taixu Immortal Scripture directly points to the realm of Daozu.

It is one of the most powerful skills in the fairy world.

Not only that.

Zhang Yuhe also saw many secrets of enlightenment in the library.

Section 312

Among them, there is a secret called Tianxu Kaiqiao Technique, which can allow cultivators to open nine orifices.

In addition, there are six secrets that can open eight orifices.

As for the secrets below seven orifices, there are countless.

He was too lazy to pay too much attention.

Zhang Yuhe thought.

With these techniques and secrets of opening orifices, Daosheng Sect just needs to develop slowly.

Sooner or later, Taiyi Immortals will appear, and even Daluo Immortals may appear.

Even without him.

Daosheng Sect can also develop into a major force in the future.

Of course.

What makes Zhang Yuhe happy the most is.

He has found all the subsequent law media.

Taixu Sect is indeed a super power.

All the magical powers about the nine supreme laws can be found in the library.

Some are even repeated.

For some supreme laws, he found multiple magical powers at the same time, and he can understand them.

"I don't have to worry about comprehending the laws anymore."

Looking at the jade slips and books in front of him, Zhang Yuhe sighed silently.

He once asked Long Xingxiu to help him collect relevant law media.

However, tens of thousands of years have passed, but there is no harvest.

These precious magical powers will never be circulated in the outside world.

There is no place to buy them if you want to.

But in the library of Taixu Palace, everything is available.

The foundation of the superpower is indeed extremely exaggerated.

It is completely beyond his imagination.

With these magical books.

Zhang Yuhe only needs to spend thousands of years to comprehend three more supreme laws.

After he breaks through to Taiyi Immortal.

He can even comprehend all nine supreme laws.

How amazing that would be.

Thinking of this.

A smile appeared on Zhang Yuhe's face.

.....

Chapter 261 Immortal King Cave

After reading all the books, Zhang Yuhe slowly walked out of the library.

As for the jade slips and books inside, he didn't take any of them away.

Anyway, the whole space is his territory.

It doesn't matter where they are placed.

As long as he has read them, it's fine.

Zhang Yuhe planned.

After returning to the Ji'an Sea Area.

He will pick out some of them and enrich the Sutra Building and Book Building of the sect.

Of course.

He will definitely not take out those iconic skills and magical powers of the Taixu Sect for the time being.

His current strength is still a little too weak.

Once people know.

He has obtained the entire inheritance of the Taixu Sect, I'm afraid he will be remembered by others.

Zhang Yuhe doesn't like trouble.

Let's stay for a while.

Wait until he is strong enough.

Then take out all these books, there will be no problem.

Anyway, for the cultivators of the Daosheng Sect.

Just taking out some books from the library is enough for them to study and use.

Zhang Yuhe walked out of the library, and he flashed quickly, passing through the buildings in the space.

This place used to be the mountain gate station of Taixu Sect in the Immortal City.

A large number of disciples and elders lived here.

And the disciples and elders who were able to open caves in Taixu Palace.

They must have been the core figures of the year.

These people were either highly cultivated or talented, and all of them were influential figures of the year.

However, Zhang Yuhe did not value these.

But he knew.

These people must be wealthy, and there should be a lot of good things left in the caves.

Two months later.

Zhang Yuhe searched quickly along the way, and slowly found most of the caves in the entire space.

He was dazzled by all kinds of precious immortal cultivation resources.

There were really too many.

He even had some doubts.

Is his current wealth richer than that of ordinary Daluo Immortals?

The feeling of getting rich overnight really makes people feel very happy.

This day.

Zhang Yuhe came to a magnificent hall.

Lingyun Immortal Mansion.

Looking at the four characters carved on the stone tablet outside the hall.

He knew.

This is where the Taixu Immortal King's cave was in the fairy city.

Zhang Yuhe waved his right hand.

The door of the cave slowly opened.

"I don't know if the Taixu Immortal King left any good things."

Zhang Yuhe thought silently while walking into the cave.

He didn't have too much expectation for the Taixu Immortal King's cave.

After more than two months of searching, his wealth was already extremely rich.

He had harvested a lot of good things that he had never seen or even heard of before.

It can be said that.

At this time, Zhang Yuhe had nothing to lack.

As long as he was given enough time.

With the resources he had plundered from this space.

Even if he practiced lying down, he could break through to the Daluo Immortal.

There was really no demand.

So, whether he could find good things in the Taixu Immortal King's cave.

Zhang Yuhe didn't care too much.

If a poor person picks up 100 yuan, he will think about picking up another 100 yuan. How wonderful it would be.

But a billionaire would not be moved even if he earned a few more billion yuan.

This is probably how Zhang Yuhe felt at this moment.

He is already rich.

No matter how precious the resources are, he will not be excited.

So, facing the Immortal King Cave Mansion that he had been looking forward to, he didn't have much expectation.

Zhang Yuhe ran here.

It was just a routine matter.

After refining the Taixu Palace.

Section 313

He must at least cover the entire space.

All cave buildings should be cleaned.

Sweeping sweeps.

Enter the main hall.

The first thing that caught his sight was a huge map.

"Hey, this is the map of Chaos Continent."

Looking at the map in front of him, Zhang Yuhe couldn't help but become interested.

Of course, this map is obviously not very complete.

The Chaos Continent is vast and boundless.

There are even rumors.

All the fairy realms in the entire fairy world combined are not half as big as Chaos Continent.

To know.

There are countless fairy realms in the fairy world.

There are probably hundreds of places like the South China Sea Immortal Territory.

As for those small fairy realms, there are countless them.

No matter how powerful Immortal King Taixu is, he cannot travel throughout the Chaos Continent.

Not to mention the Immortal King, even the Dao Ancestor was terrifyingly unable to draw a complete map of the Chaos Continent.

So the map in the hall is actually just a corner of the Chaos Continent.

The distribution of fairy cities in the Chaos Continent belonging to the South China Sea Fairyland and surrounding fairyland.

Zhang Yuhe looked up.

I saw the location of the fairy city marked on the map.

Among them, there are seventy-two king-level immortal cities and as many as tens of thousands of monarch-level immortal cities.

In the middle of all the fairy cities is also marked a bright point of light.

There is a heaven-level fairy city.

Tianxing City.

Tianxing City has Tianxing Taoist Ancestor sitting in charge.

Including the Nanhai Immortal Territory, dozens of surrounding Immortal Territories are all dependent on Tianxing City.

If there is no Tianxing Daozu to deter the Chaos Beast.

The major forces in the South China Sea Immortal Territory simply cannot gain a foothold in the Chaos Continent.

Don't say anything else.

They may not be able to deal with just one Niulanshan tribe.

To know.

Niulanshan is not the most powerful existence among all the chaos beast tribes.

There are twelve major tribes on it.

Each one has a supreme Chaos Beast, and there is more than one.

That is equivalent to the existence of Dao Ancestor.

Just a single noble-level Chaos Beast can easily destroy all the fairy cities in the South China Sea Fairyland.

It is precisely because of the presence of Tianxing Dao Ancestor that these chaotic beasts do not dare to be too presumptuous.

Only then can we develop and develop in the Chaos Continent.

"Perhaps one day, I can also build a celestial city to protect dozens of celestial realms in the celestial world."

Zhang Yuhe looked at the map in front of him and thought silently in his heart.

He looked at the map for a long time before slowly shifting his gaze to other places.

The cave of Immortal King Taixu was much simpler than he imagined.

There are neither towers, pavilions, mountains, rivers or lakes here.

It's just an independent hall.

Apart from the huge map, there is only one tall training platform.

Other places are deserted.

You can tell.

Immortal King Taixu is a true ascetic.

No wonder he was so famous in the South China Sea Immortal Domain back then.

There is no chance for anyone with great strength.

No matter how outstanding the talent is, or how powerful the opportunity is.

If you can't meditate and practice hard.

It is destined not to go too far.

Looking at the situation in the hall, Zhang Yuhe reminded himself secretly.

Don't forget your original intention.

The path to immortality is long.

Once you relax, it's hard to get back on track.

Zhang Yuhe came to the side hall.

I saw a row of shelves on both sides of the side hall.

On the shelf on the left, there are several jade slips placed neatly.

As for the shelf on the right, there are two powerful fairy weapons.

A fairy sword and a mirror.

The surface of the immortal weapon emits astonishing spiritual pressure.

Even without anyone controlling him, it still made him a little breathless.

"Is this the ultimate immortal weapon? Is it really so powerful?"

Looking at the two immortal weapons on the shelf, Zhang Yuhe thought silently.

"Hey, what is that?"

...

Chapter 262 Blueprints of the Earth-level Immortal Ship and the Heavenly Palm Vase

Zhang Yuhe suddenly discovered.

Between the two top-quality immortal artifacts, there is also an exquisite jade box.

"What is this?"

When he saw the jade box, he felt particularly strange.

Immortal King Taixu placed this jade box together with the top-quality immortal weapons.

The things inside are obviously very unusual.

It is at least an item of equal value, and may even be more precious than a top-quality immortal weapon.

Zhang Yuhe stepped forward quickly and gently opened the jade box.

I saw a strange piece of wood lying quietly in the jade box.

"what is this?"

Looking at the half piece of wood in front of him, Zhang Yuhe was completely confused.

He unfolded his consciousness and looked at the wood carefully.

Not for a moment did I see why.

No matter how you look at it, this is just an ordinary piece of wood.

Although he couldn't tell which type of tree in the fairy world this piece of wood came from.

But there was no spiritual pressure emitting from the surface of the wood at all.

No matter how you look at it, it doesn't look like a valuable thing. It is no different from ordinary ordinary wood.

"Forget it, put it away first."

Zhang Yuhe looked at it carefully for a long time, but could not figure out the origin of this piece of wood.

But he knows.

Taixu Immortal King placed this piece of wood so solemnly together with the top-quality immortal weapon.

Clearly not an ordinary thing.

Maybe it was because of his limited knowledge that he couldn't recognize the wood.

There are so many good things in the fairy world that no one dares to say that he knows everything.

Even the Daozu Emperor dares not say that he can recognize all the good things in the fairy world.

After putting away the jade box and two top-grade fairy artifacts, he quickly came to the shelf on the left.

On this shelf, there are three jade slips in total.

"Let's take a look at what is recorded on these jade slips."

Zhang Yuhe believed.

Section 314

Taixu Immortal King specially placed these three jade slips in the side hall of the cave.

The contents recorded on them should be very unusual.

Perhaps some extremely precious inherited magical powers, or elixir recipes or something like that.

Zhang Yuhe picked up a jade slip and began to slowly check the contents on it.

"It turned out to be the refining drawings of the earth-level immortal warship."

After seeing the contents on the jade slip, Zhang Yuhe's face could not help but show joy.

Immortal warships are divided into four levels: heaven, earth, black, and yellow.

Like the immortal warships he had seen before, whether it was Nangong Tianming or Cheng Yuanshan.

They were only the lowest yellow-level immortal warships.

And this jade slip actually recorded the refining drawings of the earth-level immortal warship.

The power of immortal warships of different levels varies greatly.

After the yellow-level immortal warship is equipped with a top-grade immortal-killing cannon, it can kill seven- and eight-star chaos beasts.

And the black-level immortal warship can easily suppress the nine-star chaos beast.

There is even a chance to kill the nine-star chaos beast.

After the fairy ship reaches the earth level, it is a huge leap.

Even if facing a king-level chaos beast, it can be killed.

You know.

The king-level chaos beast is equivalent to the existence of the Great Luo Immortal King.

With a fairy ship, the Great Luo Immortal King can be killed.

The power of the earth-level fairy ship can be seen from this.

Of course.

The higher the level of the fairy ship, the more difficult it is to refine.

At the same time, the required materials are more precious.

He took a rough look at the requirements for materials on the jade slip, which is simply exaggerated.

Even if he harvested various precious materials in the Taixu Palace.

He still couldn't collect all the materials for the earth-level fairy ship.

Ordinary materials are easy to say.

The key is that a core material is needed to refine the earth-level fairy ship.

It is called Shattered Sky Immortal Crystal.

He has only seen the introduction of this material in the classics and has never seen the real thing.

In fact.

Taixu Sect did not find Shattered Sky Immortal Crystal back then.

Otherwise.

He would not have seen it, but just a blueprint.

It is possible that it is a complete earth-class fairy ship.

Zhang Yuhe solemnly put away the jade slip.

Although he does not have the materials to refine the earth-class fairy ship for the time being.

But this blueprint is still extremely precious.

Zhang Yuhe believes.

As long as the blueprint is there, the Broken Sky Fairy Crystal will be found sooner or later.

And he thought of a place where the Broken Sky Fairy Crystal may exist.

That is the Boundless Sea of Yufantian.

On both sides of the Liuyun Corridor of Yufantian, there is the Boundless Sea on one side and the Broken Moon Void on the other.

Among them, the Boundless Sea is full of space cracks, which is very consistent with the appearance law of Broken Sky Fairy Crystal.

It just so happens that Zhang Yuhe is preparing to find time to go to Yufantian in the future.

When he goes to Wuya to take a look, he will know whether there is Broken Sky Fairy Crystal there.

As for the space cracks inside, he doesn't care at all.

With the space law he controls now.

The space cracks in the Boundless Sea are obviously not difficult for him.

Even if he just sends an incarnation to the lower world, he can still exert the power of the law.

Enough to deal with the space cracks in the lower world.

After putting away the fairy ship blueprint, Zhang Yuhe picked up the second jade slip to check.

He was very much looking forward to the contents of the jade slip.

It was obviously not an ordinary item that could be placed here so solemnly by Taixu Immortal King.

The first jade slip was proof.

Sure enough, when Zhang Yuhe read the contents of the second jade slip.

He couldn't help but show a shocked expression on his face.

He muttered to himself.

"How could there be such a heaven-defying thing."

The second jade slip recorded the refining blueprint of a top-grade fairy weapon.

Top-grade fairy weapons were obviously nothing in the eyes of Taixu Immortal King.

Even Zhang Yuhe now has dozens of top-grade fairy weapons on his body.

He really doesn't like ordinary top-grade fairy weapons.

But the top-grade fairy weapon refining blueprint recorded in this jade slip is extremely special.

This is a refining blueprint of a time fairy weapon.

It is called the Palm of Heaven Bottle.

According to the blueprint.

Although the Heaven-Holding Bottle is only a top-grade immortal tool, it has extremely powerful magical effects.

Because this immortal tool can automatically generate a kind of Nine Heavens Immortal Dew.

Using the Nine Heavens Immortal Dew to water the spiritual medicine can greatly speed up the growth of the spiritual medicine.

How amazing it is that the immortal tool can give birth to spiritual medicine.

If he refines the Heaven-Holding Bottle.

Then the Holy Sect will no longer have to worry about spiritual medicine.

As long as the corresponding seeds or seedlings are found, the spiritual medicine can be quickly ripened.

Zhang Yuhe even has some doubts.

Is the content described in this jade slip true?

Because the statement on the jade slip is indeed too exaggerated.

However, when he saw the materials needed to refine the Heaven-Holding Bottle.

Zhang Yuhe couldn't help but understand a little.

To refine the Heaven-Holding Bottle, a precious material called the Years Immortal Crystal is needed.

The Years Immortal Crystal contains the Dao rhyme of time, and its preciousness is completely beyond the imagination of ordinary people.

This precious material is almost invisible in the entire immortal world.

Zhang Yuhe looked at the contents of the jade slip and thought for a moment.

"Isn't it that the Broken Moon Void in the Flowing Cloud Corridor is because of the Immortal Crystal of Time?"

"It seems that I really need to find a time to go back to Yufantian as soon as possible."

Zhang Yuhe had never expected it.

Among the three jade slips collected by Taixu Immortal King, there are actually two that are related to Yufantian.

Things in the world are indeed mysterious and unpredictable.

...

Chapter 263 The Origin

After putting away the blueprint of the Heaven-Holding Bottle.

Zhang Yuhe looked at the third jade slip with expectation.

"What will be recorded in this jade slip? Isn't it also some kind of blueprint?"

In the first two jade slips.

The first one recorded the refining blueprint of the Earth-level Immortal Ship, and the second one recorded the refining blueprint of the Heaven-Holding Bottle.

There is no doubt.

These two things are extremely powerful and precious.

Although these two blueprints cannot be used by him for the time being.

Now he not only does not have the right materials, but also his cultivation level is not enough.

Section 315

Whether it is an immortal ship or a high-grade immortal weapon, it requires a third-grade immortal weapon master to refine it.

If you want to become a third-level immortal weapon master, your cultivation level must at least reach that of Taiyi Immortal.

Now he is still in the Golden Wonderland, so obviously he can't do it.

But Zhang Yuhe believed it.

in the near future.

These two drawings will definitely play a huge role.

Cultivation realm is not a problem at all.

With the large amount of resources he had harvested in Taixu Palace.

Zhang Yuhe made a rough estimate.

It only takes a hundred thousand years at most.

He can definitely break through to the Taiyi realm.

By that time.

As long as all the materials are collected, the Earth-level Immortal Ship and Palm-Heaven Bottle can be refined.

"I don't know what is recorded on the third jade slip."

Looking at the third jade slip on the shelf.

Zhang Yuhe was full of expectations.

It feels like his mood now is like opening a blind box.

And every time one is opened, there will be a big prize.

It's simply not a good feeling to feel like this.

Now all that's left is the last blind box.

I hope to be able to open a king bomb.

Zhang Yuhe thought silently in his heart.

He picked up the third jade slip and began to read the contents on it.

However, as soon as he took a second look, his brows couldn't help but frown slightly.

Compared with the previous two jade slips.

The content on the third jade slip was completely unremarkable.

It seems to record some of the adventures of Immortal King Taixu on the Chaos Continent.

"How could the jade slips recording such content be kept here by Immortal King Taixu with such solemnity? It should not be done at all."

Looking at the jade slip in his hand, Zhang Yuhe was thoughtful.

"It can't be Immortal King Taixu who discovered something amazing somewhere in the Chaos Continent, right?"

"That's why he recorded his adventures on the jade slips."

Think of this.

Zhang Yuhe picked up the jade slip again and continued to read the contents on it.

When he finished reading all the above content, his face couldn't help but reveal a look of ecstasy.

He quickly took out the jade box that contained half of the wood and murmured to himself.

"Is this piece of wood an original thing?"

Looking at the half piece of wood in the jade box, Zhang Yuhe's face showed a completely unbelievable expression.

Is something so precious in origin but so ordinary in appearance?

Zhang Yuhe couldn't believe this was true.

After learning the complete Hunyuan Scripture, he knew the name of the original thing.

But it's just that I know the name.

As for the original thing, where did it come from and what exactly does it look like.

He was completely clueless.

In addition to recording methods of cultivation and secrets of enlightenment, the Hunyuan Heavenly Scripture is recorded.

A powerful Taoist technique was also recorded.

According to the records in the Hunyuan Scripture.

If you want to successfully practice Taoism, you not only need to understand the laws to perfection.

Moreover, one thing of origin is needed to open the origin of the avenue.

However, there is no specific information about the origin of things in the Hunyuan Heavenly Scripture.

After so many years in the fairy world.

Zhang Yuhe also tried various methods to find information about the original object.

The result was nothing.

There was no record of the original thing in the classics he had access to before.

He also asked other monks about it.

But no one knows the information about the original thing.

The other Golden Immortal monks have never even heard of the name of the original thing.

They simply don't know that there is such a thing as the original thing.

According to the records on the jade slips.

In order to practice Taoism, Immortal King Taixu prepares himself for future attacks on the realm of Tao Ancestors.

So I ventured deep into the Chaos Continent.

After going through all kinds of dangers, he finally reached the sea of origin.

And Immortal King Taixu is very lucky.

Not only did he successfully avoid the Chaos Beast guarding the Sea of Origin.

And it went smoothly, finding the original thing.

Unfortunately.

When he returned, he unexpectedly encountered a supreme Chaos Beast.

Even though he tried every means, he was still seriously injured by the noble Chaos Beast.

That noble-level chaotic beast chased Taixu Immortal King all the way, and even entered the territory of the monks.

If Tianxing Daozu hadn't taken action to repel the Chaos Beast.

Maybe Immortal King Taixu died on the spot.

Although I was lucky enough to save a life.

But the injury was too serious.

In the following beast tide, Taixu Immortal King was completely unable to display his strength.

So much so that the fairy city was attacked by the Chaos Beast.

However, there is no record in the jade slips about the cause of that beast tide.

One can't help but know whether the Divine Beast Sect is causing trouble.

But in the South China Sea Fairyland.

This statement has been circulating for a long time.

Moreover, after the collapse of Taixu Sect, the one who benefited the most was indeed the Divine Beast Sect.

When the Taixu Sect was still there, it was not the turn of the Divine Beast Sect to become king and dominate.

Wait until the Taixu Sect is destroyed.

The Divine Beast Sect began to dominate the South China Sea Immortal Territory, creating a situation that no one could control.

If not for the rise of Immortal King Wanshan later.

I don't know what the current South China Sea Immortal Territory will look like.

But these things have nothing to do with Zhang Yuhe.

No matter how arrogant the Divine Beast Sect is, as long as they don't provoke him, it's fine.

Now he is just a small shrimp in the Golden Immortal Realm, and the Divine Beast Sect will not set its sights on him.

The only thing to worry about is that Long Aotian has been suppressed and sealed by him.

After the secret realm is closed.

I don't know what kind of reaction the Divine Beast Sect will make.

But Zhang Yuhe believes.

As long as Long Aotian's Nascent Soul has not been annihilated, it should be able to delay for a while.

And there are so many cultivators entering the secret realm.

The Divine Beast Sect should not suspect him without reason.

Zhang Yuhe thought silently while looking at the half piece of wood in the jade box.

He was very happy in his heart.

With this original thing.

That means.

There will be no more obstacles on his way to becoming the Taoist Ancestor.

As long as he practices step by step.

Section 316

Then sooner or later, he will be able to break through to the realm of Daozu.

Zhang Yuhe has this confidence.

With his extraordinary talent, plus the rich resources he has gained this time.

From then on, the path of cultivation is like walking on the road to heaven.

"This trip to Taixu Secret Realm is really not in vain."

Zhang Yuhe said to himself with emotion.

He saved Qian Yuanjiang, obtained the quota to enter the secret realm, and then suppressed Long Aotian.

Then he refined Taixu Palace and obtained this origin object.

Everything in it seems to be arranged by fate.

"Maybe it's a matter of luck."

Zhang Yuhe thought silently.

After all, when he first entered Yufantian, through the data on the game panel.

It can be seen that his luck index is indeed very good.

Lucky +10.

With such a high luck value, it seems reasonable for him to have such a harvest now.

...

Chapter 264 Arrangements and Layouts

After a careful search, confirming that there is nothing missing.

Zhang Yuhe walked out of the cave of Taixu Immortal King with a smile on his face.

This trip to the secret realm was indeed a big profit.

Not to mention the other various precious resources, he was able to find an original object.

It was simply a super surprise.

"Let's go out first."

Zhang Yuhe pinched the magic formula in his hand, and the whole person instantly appeared outside the Taixu Palace.

He just waved his right hand.

The Taixu Palace quickly shrank and turned into a mini palace, falling into his sleeves.

"First, take care of Long Aotian's Nascent Soul, and then slowly close the secret realm."

Zhang Yuhe stood on the mountain and thought silently.

In order to prevent being discovered by the Divine Beast Sect.

He only broke Long Aotian's physical body, and the Nascent Soul was still well sealed and preserved.

Even the disciples of a small sect would leave a soul lamp in the sect.

A super power like the Divine Beast Sect.

Long Aotian must have a soul lamp left in the sect.

As long as the soul lamp goes out, the Divine Beast Sect will immediately know that Long Aotian is dead.

If Long Yuanguang knew that his only son died in the Taixu Secret Realm.

Who knows what this man will do?

What if he goes crazy outside the Secret Realm, who can stop him?

And in addition to the soul lamp, maybe the Divine Beast Sect is on Long Aotian.

Other protective measures have been arranged.

This is completely possible.

There are countless means in the fairy world.

He dare not guarantee whether the Divine Beast Sect has arranged any special tracking means on Long Aotian.

So Zhang Yuhe has been very cautious about Long Aotian's Nascent Soul.

He must not let him die.

Not only can he not crush Long Aotian's Nascent Soul to death.

And he has to protect it as much as possible.

If it can be delayed for millions of years, it will be even better.

It's just because of the special nature of the Secret Realm.

After the Secret Realm is closed.

It is difficult for the cultivators who explore the Secret Realm to continue to survive in the Secret Realm for a long time.

I heard that it was because of the space crack.

Of course.

There may also be other unknown reasons.

But for Zhang Yuhe,

No matter what the reason is.

He had to find a way to make Long Aotian's Nascent Soul live longer.

Zhang Yuhe flashed and soon came to a deep valley.

He took out a few array plates and began to arrange them around.

Not long after.

A huge array platform was arranged by him.

Zhang Yuhe took out a jade box.

He waved his right hand and the jade box slowly opened.

Long Aotian's Nascent Soul was lying peacefully inside.

Zhang Yuhe muttered to himself.

"Very good, let's use this as your burial place. I hope you like it."

After saying this, he closed the jade box.

Then he reached out and carved the array pattern on the surface of the jade box.

Although Long Aotian's Nascent Soul had been sealed and imprisoned by him a long time ago.

No matter how you look at it, he has no power to turn the tide.

But just in case.

Zhang Yuhe deliberately added a special array pattern on the surface of the jade box.

Once Long Aotian's Nascent Soul has any abnormality.

This newly added array pattern will explode immediately.

Directly blow up Long Aotian's Nascent Soul to death.

He doesn't want the Divine Beast Sect to know Long Aotian's specific situation.

But he doesn't want Long Aotian to run away from the secret realm.

After everything is done.

Zhang Yuhe waved his right hand, and the jade box slowly fell on the array platform.

He quickly soared into the air and stretched out his hand to draw in the air.

After a while.

As Zhang Yuhe pinched the magic formula, a faint light curtain slowly rose on the array platform.

Seeing that the light curtain completely wrapped the jade box on the array platform.

Zhang Yuhe nodded with satisfaction.

In addition to sealing and imprisoning, this array light curtain plays a more protective role.

He integrated the laws of space into these array patterns.

Once a space crack appears, the power of the law will automatically unfold.

Protect the jade box on the array platform and the Nascent Soul in the jade box.

Zhang Yuhe is really worried that Long Aotian will die too quickly.

That's why I specially arranged this protective formation for him.

As for how long this formation can protect Long Aotian?

Only God knows.

"I hope it can last for a while longer."

Zhang Yuhe thought silently.

Although he set up many protective measures, Long Aotian's fate was already determined.

That is, he must die, and he will definitely die here.

The purpose of all he did was just to delay the time.

Zhang Yuhe quickly soared into the air.

He just waved his right hand.

A sword light flashed quickly, instantly flattening several surrounding peaks.

Section 317

He waved his right hand again.

The severed mountain peaks fell quickly, directly filling the entire valley.

Zhang Yuhe looked around carefully for a while.

I still feel a little too satisfied.

He stretched out his hand and slapped it until the entire valley was completely flattened.

Then he nodded with satisfaction.

"Perfect. Even if someone finds this place, they will never think of it."

"Under this flat ground, lies a peerless talent from the Divine Beast Sect."

After doing all this.

Zhang Yuhe was nearby and randomly found a mountain peak to open a cave.

Then while practicing, he quietly waited for the secret realm to close.

As for continuing to go out and look for opportunities?

At this time, he had no idea at all.

A person must be content.

He has already received enough benefits from this trip to Taixu Secret Realm.

Just stop being greedy.

Just be honest and wait for the secret realm to close.

It won't take too long anyway.

Zhang Yuhe made a rough estimate.

If what Cheng Yuanshan said back then was correct.

Then in another month at most, Taixu Secret Realm will be closed.

He can go out then.

Time passed slowly.

Outside the secret realm.

Qian Yuanjiang raised his head and looked at the vortex channel in mid-air.

He said with a worried expression.

"I don't know how many disciples can come out of the secret realm smoothly this time."

Hearing this, Li Chengqing next to him smiled and responded.

"Friend Daoist Qian, don't worry, everyone has his or her own opportunity."

"The Taixu Secret Realm has been opened so many times, although many disciples have fallen into the secret realm every time."

"But there are also many disciples who can find their own opportunities from the secret realm."

"With this, you can break through to the Taiyi realm."

Qian Yuanjiang nodded silently.

Of course he knows the truth.

Only this time, someone from the Qian family also entered the secret realm.

He was worried about Qian Mingshi, who took excessive risks in search of opportunities.

Although there are indeed many golden immortal monks in the Qian family.

But there are not many geniuses like Qian Mingshi.

He naturally hopes that Qian Mingshi can find an opportunity from the secret realm and come out smoothly.

It's just that there are countless dangers in the Taixu Secret Realm, so who can say for sure.

Not far from them.

Wu Tianer said worriedly to Wu Tianyi.

"Brother, I don't know if the young master has encountered any danger in the secret realm."

Wu Tianyi responded calmly.

"Don't worry, I just sent a message to the sect to inquire whether the young master's soul lamp is safe and sound."

"Besides, with the young master's strength, there is something in the secret realm that can threaten his safety."

Hearing this, Wu Tianer nodded silently.

Although that is what is said.

But as the secret realm approached closure, he always felt a little uneasy.

It seemed like something big was about to happen.

...

Chapter 265 Return

Zhang Yuhe sat cross-legged on the training platform.

As the Hunyuan Heavenly Scripture slowly circulated, the surrounding fairy spiritual energy quickly surged towards him.

The spiritual energy passes through the meridians and slowly pours into the Dantian sea.

Although there is not much time left before the secret realm is closed.

But he still did not relax his cultivation.

This is the path to immortality.

Life is endless and cultivation is endless.

Just maintain a spiritual heart at all times.

Only then can you go further on the road to immortality.

...

Time passed slowly.

I don't know how much time has passed.

Zhang Yuhe suddenly opened his eyes.

Just at that moment, he felt an inexplicable spatial repulsion.

"Is the secret realm about to be closed?"

He quickly gathered his breath, followed the force of repulsion, and instantly appeared outside the secret realm.

Zhang Yuhe looked around.

Only a single figure was seen, quickly pouring out of the space channel.

Nangong Youxi walked out of the passage with a look of joy on his face.

She glanced around, and then quickly walked to Zhang Yuhe.

Seeing Nangong Youxi coming over, Zhang Yuhe nodded gently.

It can be seen that Nangong Youxi should have made good gains in the secret realm.

Maybe he has found the elixir that can break through the Taiyi Realm.

However, Zhang Yuhe did not ask.

Everyone has his own opportunity, there is no need to ask.

To save everyone from embarrassment.

Moreover.

He doesn't have that much curiosity either.

Isn't it the elixir to break through the Taiyi realm?

He found several types of things of this type in the Taixu Secret Realm.

For example, the recipe of Jiuzhi Linglongguo and Jiuqiao Linglongdan.

These things are in the eyes of others.

Maybe a great treasure.

But in Zhang Yuhe's eyes, that's just it.

Anyway, he probably wouldn't be able to use it himself.

When he broke through the realm, he never encountered a bottleneck.

I believe that when we break through the Taiyi realm in the future, there will be no bottlenecks.

In this case, these elixirs or elixirs that assist in breakthroughs have no effect on him at all.

He collects these things.

It is entirely for the other Golden Immortal monks of Daosheng Sect.

Anyway, it was easy to do.

It didn't take much effort.

For Zhang Yuhe.

This trip to the secret realm.

The biggest reward is that special piece of wood.

That is the origin of things.

It is a key item that can assist the Great Luo Immortal King in practicing Taoism.

Section 318

If the Daluo Immortal King wants to break through the Daozu realm, he must practice Taoism successfully in advance.

So strictly speaking.

In fact, the origin object is the key item to assist the Daluo Immortal King to break through the Daozu realm.

Such things are precious, no matter how you say it.

You know.

The Daozu Emperor is the last realm on the road to immortality.

There are definitely no more than twenty Daozus known in the entire fairy world.

Zhang Yuhe believes.

If others know that he has an origin object in his hand.

It is estimated that those Daluo Immortal Kings will come and grab it regardless of their status.

But Zhang Yuhe is not worried.

Because no one will know about this matter.

Not only will no one know what opportunity he got in the secret realm.

Even the news that Taixu Immortal King brought out the origin object from the Sea of Origin.

No one should know.

In this case, does he need to worry?

There is no need at all.

Time passes slowly.

The cultivators who entered the secret realm kept pouring out of the passage.

After half a day.

All the cultivators who could come back had already walked out.

Zhang Yuhe looked around.

The number of cultivators on the scene was probably less than 6,000.

There were a total of 12,000 Golden Immortal cultivators who entered the secret realm.

Less than half of them have returned now.

On the immortal ship of the Divine Beast Sect.

The two brothers Wu Tianyi and Wu Tianer were already panicking like old dogs at this time.

It has been almost half a day since the first person walked out of the secret realm.

However, Long Aotian has not come out yet.

This made them anxious, like ants on a hot pot.

Everyone knows.

Once you can't return from the Taixu Secret Realm, what does that mean.

Whether you have fallen or are trapped in the secret realm.

The final result is actually the same.

That is, you can never come back.

Looking at the vortex channel in the air, there is already a trend of closing.

Wu Tianer asked others anxiously.

"Have you seen the young master?"

The disciples of the Divine Beast Sect on the fairy ship all shook their heads silently.

The Taixu Secret Realm is so big, how could they meet Long Aotian?

And Long Aotian is arrogant and domineering.

Not only do the cultivators from the outside world hate him.

Even the disciples of the Divine Beast Sect don't have any good feelings towards him.

Everyone hopes that the arrogant young master will die directly in the secret realm.

Long Aotian alone has so many resources.

If it weren't for the fact that he was Long Yuanguang's only son, it is estimated that other disciples would have made a fuss long ago.

Everyone is a Golden Immortal disciple of the Divine Beast Sect.

Why can Long Aotian receive so much special care?

Wu Tianer grabbed the disciples of the Divine Beast Sect who came out of the secret realm and asked them one by one.

However, the results were all similar.

Even if there were disciples who had met Long Aotian in the secret realm.

That was more than half a year ago.

It has no reference value at all.

Wu Tianyi quickly took out the Immortal Mirror and contacted the sect.

He couldn't help but breathe a sigh of relief.

According to the news sent back by the sect.

Long Aotian's soul lamp is still on.

This at least shows that Long Aotian is not dead.

But I don't know why.

Now the secret realm is about to close.

Why hasn't Long Aotian come out yet.

"Is he trapped in a dangerous place in the secret realm?"

Wu Tianyi thought silently while looking up at the passage in the air.

He was extremely anxious.

Once the secret realm is closed, everything will be over.

However, he can only stand here and worry.

He can't do anything.

The secret realm passage can only withstand the entry of Golden Immortal cultivators.

Not to mention the secret realm passage, it is about to close.

Even at the beginning, he didn't dare to go in.

Once the space passage collapses.

The broken space cracks can immediately cut him into slag.

Wu Tianer asked all the disciples of the Divine Beast Sect who had returned from the secret realm.

However, he did not get any useful information.

He quickly came to Wu Tianyi and asked anxiously.

"Brother, the young master has not returned yet, what should we do now?"

Wu Tianyi was silent.

What could he do?

Except for continuing to wait here, they could not do anything else.

Wu Tianyi stood silently at the front of the fairy ship.

He was thinking about the consequences of this matter.

If Long Aotian still has not returned after the secret realm is completely closed.

Then the sect leader Long Yuanguang will probably go crazy.

He can only pray silently.

I hope that before the secret realm passage is closed.

Long Aotian can return in time.

After all, Long Aotian is not dead, there is still hope to come back.

Although the hope is slim.

But that is also a kind of hope.

At this point, Wu Tianyi can only comfort himself in this way.

Otherwise.

He really doesn't know what the consequences will be.

He simply dare not think about it.

...

Chapter 266 Reporting to Long Yuanguang

The abnormality of the Divine Beast Sect was also seen by the cultivators of the Wanxian Sect and Chaotian Palace.

Looking at the two Wu brothers, who were as anxious as ants on a hot pot, everyone couldn't help but smile inexplicably.

Li Chengqing smiled and said to Cheng Yuanshan next to him.

"Brother Cheng, Long Aotian from the Divine Beast Sect seems to have not returned yet. Did he die in the secret realm?"

Section 319

Cheng Yuanshan responded calmly.

"Who knows? Long Aotian is arrogant and domineering. It is a miracle that he can survive until now."

"The Taixu Secret Realm is not like the outside world. No one will protect him there."

"There are high-level Chaos Beasts everywhere in the Secret Realm, and there are also various residual formations."

"I would not be surprised if he died in there."

Li Chengqing nodded silently in agreement.

With Long Aotian's arrogant character, everyone is just afraid of the power of the Divine Beast Sect.

They can't do anything to him.

But in the Taixu Secret Realm, it is completely different.

The highest level of cultivators who enter the Secret Realm is only the Golden Immortal Realm.

No one is afraid of anyone.

In addition.

There are still so many high-level Chaos Beasts living in the Secret Realm, and there are countless Taixu Sects.

Various formations left in the Secret Realm.

If Long Aotian is still arrogant like he is outside.

Then he is indeed very likely to encounter danger.

Even if he had many trump cards, he could not guarantee his safety.

After all, Taixu Secret Realm was once a king-level immortal city.

There are many killer moves in the secret realm.

Even to the Daluo Immortal King, there is a certain threat.

If Long Aotian runs around rashly, it is indeed possible that he will die in it.

In addition to the danger of the secret realm itself.

There are as many as 12,000 Golden Immortal cultivators who have entered the secret realm.

When they are outside, these people may not dare to provoke Long Aotian.

But in the secret realm, the emperor is far away.

As long as the strength is sufficient, the so-called identity and background are nothing but clouds.

It is entirely possible to be beaten to death.

Thinking of this.

Li Chengqing swept his eyes over the disciples of Chaotian Palace and Wanxianmen.

At that time, there were a total of 6,000 Golden Immortal disciples from the two major sects who entered the Taixu Secret Realm.

Now, less than 3,000 people have returned.

More than half of them have been lost.

However, all those who came back are real elite forces.

As long as a few people get together, they may not be afraid of Long Aotian.

"Could it be that some disciples here really killed Long Aotian?"

"If that's the case, then we're probably in big trouble next."

Thinking of this, Li Chengqing turned back and said to Cheng Yuanshan.

"Brother Cheng, if Long Aotian can't come back, the Divine Beast Sect won't be angry with us, right?"

Hearing this, Cheng Yuanshan responded indifferently.

"What are you afraid of? Just relying on the two Wu brothers, if they want to die, I don't mind sending them off."

Cheng Yuanshan didn't care about the possible actions of the Divine Beast Sect at all.

There were three Great Yi Immortal Lords from their two major sects, and he and Li Chengqing were both Great Yi Immortals.

In addition to Qian Yuanjiang, they were completely able to suppress the Wu brothers in terms of strength.

What's more, they still had two yellow-level immortal ships, while the Divine Beast Sect only had one.

As long as the Wu brothers were not mentally ill, they would not dare to take action here.

As for whether there would be any conflicts between the three super powers after returning,

That's not something they should worry about.

When that time comes, the Great Luo Immortal King will naturally deal with it.

After a while.

The vortex channel in the sky began to slowly close and soon disappeared completely.

Zhang Yuhe quietly unfolded the space law and explored the air.

He found that the surrounding space had completely returned to its original state.

He could no longer sense any abnormality.

Obviously.

The Taixu Secret Realm has been integrated into the space crack and has long been wandering somewhere.

Seeing that the space channel is completely closed, Cheng Yuanshan and others are silent.

Although Long Aotian of the Divine Beast Sect did not return until the end.

But their two major sects are not much better.

They also have more than 3,000 people who disappeared with the secret realm.

These people are the elite forces in the two major sects.

However, in order to pursue opportunities and go further on the road of immortality.

They have to enter the secret realm to take risks.

But when Cheng Yuanshan looked back at the rest of the people, he nodded with satisfaction.

The result of the opening of the Taixu Secret Realm this time was relatively normal.

The number of people lost was just over half.

Compared with the previous openings of the secret realm, this loss may be relatively good.

There was a time when the secret realm was opened, and there was an unexpected space riot in the secret realm.

The people who came out of the two major sects at the end were only a few hundred people.

Compared with Cheng Yuanshan, they were quite satisfied.

The Wu brothers looked ashen.

Now the secret realm has been completely closed, but Long Aotian still hasn't returned.

That means that Long Aotian will never come back.

Although his soul lamp is still on.

But now the Taixu Secret Realm has been completely integrated into the void.

Now no one has the ability to pull Long Aotian out of the Taixu Secret Realm.

Even if the Daozu Emperor took action, he couldn't pull a person back from the misty void.

Wu Tianer looked ashen, and he asked Wu Tianyi at a loss.

"Brother, what should we do now?"

Wu Tianyi was also very helpless.

At this point, he didn't know what to do?

After a long while, he slowly spoke.

"Let's report to the sect master first and see how the sect master will deal with it?"

After saying this, he immediately took out the Immortal Mirror.

The projection of Long Yuanguang soon appeared on the Immortal Mirror.

"Report to the sect master..."

Wu Tianyi roughly recounted the course of events.

A place far away from here.

The Immortal City of Divine Beasts.

Long Yuanguang sat in a hall somewhere.

When he heard Wu Tianyi's message, he was stunned?

"Impossible, absolutely impossible, how could Aotian be trapped in the secret realm."

Thinking of his precious son, he could not return from the Taixu Secret Realm.

Long Yuanguang muttered to himself with a gloomy face.

"Someone must have framed Aotian."

Thinking of this.

He immediately sent a message to Wu Tianyi.

"Keep all the cultivators who came out of the Taixu Secret Realm, no one is allowed to leave, I will come right away."

Thinking of his precious son, he could not return from the secret realm.

Long Yuanguang was furious.

He immediately concluded that someone must have framed him.

Section 320

Otherwise.

Why can other people come out of the secret realm, but Long Aotian can't come back?

To know.

Long Aotian carries all kinds of powerful trump cards.

Even if Daluo Immortal King takes action, he may not be able to keep him.

So Long Yuanguang thinks.

It must be those Golden Immortal monks who entered the secret realm together and attacked in secret.

Otherwise, with Long Aotian's strength.

There's no reason why he won't be able to come back.

"Hmph, we must find the person who framed my son, even if we kill everyone to search for their souls, we will not hesitate."

Long Yuanguang snorted coldly.

Then he rose into the air, quickly swept out of the hall, and flew towards the distance.

...

Chapter 267 Eight Wastelands Forbidden Spirit Array

After receiving the message from Long Yuanguang.

Wu Tianyi was very confused.

Long Yuanguang asked them to keep all the disciples from Chaotian Palace and Wanxian Sect who entered the Taixu Secret Realm.

Wait for Long Yuanguang to come over and deal with it later.

But there are three Taiyi Immortals on the other side, and on my side, there are only two brothers.

As for the number of Golden Immortal disciples on both sides, they are roughly the same.

But once the two sides fight, these Golden Immortal disciples will not be able to play a big role.

Unless the two brothers can suppress the other three Taiyi Immortals.

Wu Tian muttered to himself.

"Fortunately, I made some preparations in advance."

He turned around and whispered Long Yuanguang's words to Wu Tianer next to him.

After listening to Wu Tianyi's words, Wu Tianer looked at the monks from the opposite family with a cold expression.

They want all of them to stay. When Long Yuanguang arrives, they may not be able to do it without a fight.

But Wu Tianer was not afraid.

Although the other party has Qian Yuanjiang, the Taiyi Immortal Lord, and an additional immortal ship.

But they are not prepared for anything.

As the largest force in the South China Sea Immortal Territory, the Divine Beast Sect has never been afraid of any challenge.

Even if Wanxian Sect and Chaotian Palace unite, they will not be afraid.

...

Seeing that the secret realm had been completely closed, Cheng Yuanshan turned back and said to Li Chengqing.

"Brother Li, the matter is over, let's take the first step."

Li Chengqing glanced at the Beast Sect, then raised his hands and responded.

"Let's go together so we can have someone to look after us on the way."

Although Chaotian Palace and Wanxian Sect, no matter how you look at it, they are not on the right path.

The two sides' king-level fairy cities in Chaos Continent are not in the same direction at all.

However, Long Aotian did not return, and the atmosphere in the Divine Beast Sect seemed a little abnormal.

So Li Chengqing thought that it would be safer for the two sects to leave together.

Just when Cheng Yuanshan was preparing to call all his disciples to board the immortal ship.

Wu Tianer rose into the sky and shouted towards Wanxianmen and Chaotian Palace.

"None of you are allowed to leave?"

Hearing this, everyone was in an uproar.

Zhang Yuhe's heart tightened.

It can't be the Divine Beast Sect, what has been discovered?

This shouldn't be the case.

He handled it cleanly.

No one saw him, and he beat Long Aotian to death.

He can't be a member of the Divine Beast Sect. He can pinch and calculate, right?

What if he defeated Long Aotian?

Zhang Yuhe is really not sure.

Immortal monks have a myriad of methods.

Maybe there really are people in the Divine Beast Sect who know how to calculate.

It is entirely possible to speculate that he defeated Long Aotian.

Think of this.

Zhang Yuhe glanced around quietly, ready to run away at any time.

If it really doesn't work.

He planned to directly use the Galaxy Wandering Dragon Movement Technique to run away.

Although there are two Taiyi Immortal Lords in the Divine Beast Sect.

But Zhang Yuhe believed it.

As long as he uses the Galaxy Wandering Dragon Movement Technique with all his strength, the opponent will definitely not be able to catch up.

Just in this way.

He would have to find a secret place and hide quietly for millions of years.

Otherwise.

Once the Immortal King of the Divine Beast Sect comes to visit.

I'm afraid I can't even run away.

Wu Tianer had just finished speaking.

The monks from Chaotian Palace and Wanxian Sect were instantly in an uproar.

Everyone knows that the Divine Beast Sect is extremely domineering.

But I never thought of it.

The Divine Beast Sect actually knows how to be so domineering.

The three families work together to open the secret realm of Taixu. This is an old tradition that has lasted for countless years.

In the past, every time after the secret realm was closed, everyone would go back to their homes.

Why won't people leave this time?

Everyone can vaguely guess that it must be related to Long Aotian not returning.

But Long Aotian didn't come back, what does it have to do with them?

Whenever the Taixu Secret Realm is opened, thousands of people will die.

Everyone else can die, but Long Aotian can't die, right?

There is no such truth in the world.

But everyone knows it.

There has never been any truth in the fairy world.

The fist is the biggest truth.

All the Golden Immortal disciples looked at the three Taiyi Immortal Lords who led the team.

Cheng Yuanshan stood at the front of the fairy ship and asked with a gloomy expression.

"Wu Laoer, what do you mean?"

Wu Tianer was suspended in mid-air and responded calmly.

"The young master has not returned. The newly arrived sect master issued an order that none of you are allowed to leave. Wait for the sect master to come and deal with it."

Hearing this, Cheng Yuanshan and others simply laughed angrily.

Long Yuanguang is coming over, what does it have to do with them?

That is the leader of the Divine Beast Sect, not the leader of the Wanxian Sect.

He said lightly.

"Long Yuanguang is your leader, but he can't control my Wanxian Sect."

"You are willing to wait here, that's your business."

"Now we plan to go back. If you dare to stop us, don't blame me for being rude."

After saying this, Cheng Yuanshan waved his hand and said.

"Everyone get on the fairy ship, let's go."

At this time.
