

Top talent 341

Section 341

Although this possibility is almost slim.

But even if there was only a small chance, he was willing to give it a try.

The two continued to discuss some details.

Long Yuanguang flew away.

These things are very trivial.

They must prepare well.

The space passage is located in Liuhetian, which is extremely dangerous.

Even the two of them are top-notch Daluo Immortal Kings.

There is no way to guarantee your own safety in Liuhetian.

To open the seal of the space channel, Long Yuanguang still needs to make a lot of preparations.

He would first use the horns to contact He Ruobei to determine the time to open the channel.

Moreover, he had to prepare various means to save his life and break the formation.

These are not things that can be solved in a short while.

despite this.

Ao Lie and Long Yuanguang were not too anxious.

Just set the goal.

Then work in this direction.

They never thought about turning back.

Just do it and that's it.

In order to achieve one's own goals, no matter the flood.

...

Chapter 284 Reaching Cooperation

Long Yuanguang flew quickly all the way.

When he came to a desert island, he stopped immediately.

The powerful spiritual consciousness of the peak Great Luo Immortal King was fully deployed.

His spiritual consciousness spans tens of millions of miles, and the situation on the surrounding sea surface is all present in his perception.

"This is it."

Long Yuanguang murmured to himself.

Although he has made up his mind to open the space channel of Liuhetian.

But this kind of thing must not be done rashly.

First of all, you have to communicate with the Chaos Beast.

Determine the approximate time.

Then if both sides act at the same time, it is possible to open the space channel.

Long Yuanguang's consciousness scanned the sea surface and confirmed that there was no one else around.

He quickly landed on the desert island.

I saw him wave his right hand, and countless sword lights flashed quickly.

In the center of the desert island, an empty flat land was cleared.

Streams of light kept throwing out from Long Yuanguang's hands.

He took out various materials that he had prepared and began to arrange them on the desert island.

After a while.

A huge temporary formation slowly appeared.

Long Yuanguang took out a strange black horn and placed it solemnly in the center of the array.

This black horn was exactly the communication tool that He Ruobei gave him.

In the immortal world, monks generally use immortal mirrors to communicate with each other.

However, the Immortal Mirror has a fatal flaw.

That is, the distance that can be communicated is limited.

Because the scope of the fairy world is really too big.

It is simply impossible for the Immortal Mirror to support the monks in transmitting messages throughout the Immortal World.

In fact.

Take the South China Sea Fairyland as an example.

Even the best teleportation mirror can only, at best, support monks in transmitting messages within the same sea area.

Once out of range, the other party will not be able to receive information.

As for longer-distance communication tools, there are almost none in the entire fairy world.

The horn that He Ruobei handed to Long Yuanguang was, in a strict sense.

It is not a simple communication tool, but a summoning prop.

With the cooperation of the corresponding array.

Through this black horn, He Ruobei's shadow can be summoned to come.

After placing the horns on the formation platform, Long Yuanguang quickly activated the magic formula.

After a while.

A huge shadow slowly appeared in the sky.

He Ruobei's current figure.

He looked at Long Yuanguang in the distance and said with a smile.

"You finally figured it out and are willing to cooperate with us in Helan Mountain?"

Seeing He Ruobei's shadow appear, Long Yuanguang took a deep breath and said slowly.

"Yes, senior. I wonder if the original promise made by senior is still valid?"

"Hahaha, of course it works. As long as you can open the space channel of Liuhetian, I will let you enter the sea of origin."

He Ruobei responded with a laugh.

In fact, he didn't expect the random chess piece he had arranged at the beginning.

He actually contacted him.

in endless years.

He had met people like Long Yuanguang many times.

There are people from all fairy realms.

On the Chaos Continent, I met some lonely monks by chance, as long as they were relatively strong.

He Ruobei usually agrees to conditions and then lets the other person leave.

When his strength reaches his level, ordinary sacrifices have no effect on him.

If He Ruobei wanted to go further, he would have to capture Dao Ancestor and offer him as a sacrifice.

It's just that the number of Dao Ancestors in the immortal world is limited, and each of them is powerful.

He really doesn't have that ability.

So He Ruobei thought.

Since he couldn't defeat Dao Ancestor, he might as well find a way to directly invade the monk's territory.

As the Chaos Beast's territory becomes larger and larger, the monk's territory will naturally become smaller and smaller.

The living space of those Tao ancestors will also become smaller.

In that case.

Maybe he will have a chance to capture one or two Taoist ancestors.

Even if you can't catch Dao Ancestor, it doesn't matter.

As long as you invade the monk's territory, there will be countless sacrifices.

By offering sacrifices to the Supreme True God, the overall strength of the Helan Mountain tribe can be greatly improved.

This is a sure-fire deal.

Just countless years passed.

None of the cold ones arranged by He Ruobei responded.

I have to say.

It is indeed difficult for cultivators and Chaos Beasts to cooperate.

Even if he said it in a grandiose way, no one would believe it.

Unexpectedly, Long Yuanguang would contact him this time.

This surprised He Ruobei.

Letting the other party enter the Sea of Origin is naturally no problem.

He promised not to take action.

Of course.

As the holy land of Chaos Beasts, the Sea of Origin is not decided by Helanshan's family.

Section 342

The twelve major chaos beast tribes jointly guard the sea of origin.

He Ruobei could only guarantee that the people from Helan Mountain would not take action.

As for the chaos beasts of the other eleven tribes, he has no control over them.

If Long Yuanguang can do it under the noses of other tribes.

If he travels to the Origin Sea and finds the origin object, he will be considered lucky.

hey-hey.

He Ruobei smiled and thought silently in his heart.

After hearing He Ruobei's promise, Long Yuanguang didn't know if it was true.

But at this time, he no longer wanted to look back.

Regardless of whether he can enter the sea of origin or not, he must find a way to open the space channel.

Invite the chaotic beasts from Helan Mountain in.

In order to eliminate the pressure brought by Wanshan Immortal King.

He can no longer care about so much.

If you can take this opportunity, enter the sea of origin and find the original thing.

That is naturally the best.

Even if there was nothing, he would still be willing to cooperate with He Ruobei.

Long Yuanguang thought silently in his heart.

He had no other choice.

No matter what the outcome is, he will give it a try.

Thinking of this, Long Yuanguang asked straight to the point.

"I wonder when seniors think it's appropriate for us to open the passage?"

If you want to open the space channel, you need to do both at the same time.

The immortal formation arranged by Tianxing Daozu was very unique.

The internal and external formations echo each other.

If you only attack the formation on one side, the formation on the other side will be sealed.

will become stronger and stronger.

Only by doing both sides at the same time can the effect of breaking the seal be achieved.

Regarding this information, it was originally provided by He Ruobei.

He Ruobei thought for a while, then responded slowly.

"Let's set it in a hundred thousand years."

Currently, their Helan Mountain tribe is in conflict with other tribes.

For a while, he really couldn't spare any manpower.

Naturally, there cannot be peace among the various tribes of Chaos Beasts.

They will also conflict with each other for various reasons.

So He Ruobei decided to set the time one hundred thousand years later.

After they solve the problem, they can then consider invading the South China Sea Immortal Territory.

And he also wanted to observe and see if Long Yuanguang was playing any tricks.

Just in case they entered the South China Sea Immortal Realm, there would be a group of Dao Ancestor Emperors squatting outside.

That's nonsense.

It's better to keep things steady.

More haste less speed.

As a chaotic beast that has lived for countless years.

He Ruobei has the patience.

...

Chapter 284 The Great Perfection of the Golden Immortal

Long Yuanguang, the Daluo Immortal King of the human race, and He Ruobei, the revered chaos beast, each had their own evil intentions.

However, their goals are surprisingly consistent.

That is to open the space channel located in Liuhetian.

Suddenly, He Ruobei asked Long Yuanguang.

"Are you confident about opening the space channel?"

"Old Ghost Tianxing's accomplishments in formations are indeed extraordinary."

"The fifth-level immortal formation he has set up is far from comparable to ordinary immortal formations. Are you sure?"

Although Long Yuanguang was willing to cooperate, He Ruobei was still a little worried.

After all, this time is indeed an excellent opportunity.

He didn't want to.

In the end, there was a fuss for a long time, until one hundred thousand years later.

Long Yuanguang was unable to open the space channel.

If that's the case.

That's nonsense.

After hearing He Ruobei's words, Long Yuanguang fell into deep thought.

He didn't dare to say he was sure.

Although he was a Daluo Immortal King at the peak level many years ago.

It is only one step away from the realm of Tao Ancestor.

But just this step is a huge difference.

He was very clear about the power of Emperor Daozu.

Moreover, Tianxing Dao Ancestor is not comparable to ordinary Dao Ancestors.

Tianxing Daozu is good at formations.

The fairy formations arranged at random are extremely powerful.

not to mention.

The formation that sealed the Liuhetian space channel was deliberately arranged by Tianxing Daozu.

Its power would definitely be beyond his imagination.

Long Yuanguang really didn't have much confidence. He felt that he would be able to open the space channel.

Originally, he had planned to take advantage of this period of time to prepare more ways to break the formation.

Then, by joining forces with Ao Lie, there may be a chance to open the passage.

Seeing Long Yuanguang was silent.

He Ruobei said slowly.

"Let's do this. Come to Chaos Continent and I'll have someone send you something."

"With these things, we should be more confident."

The Helan Mountain tribe has a long tradition.

It can even be said that it is one of the oldest forces in the immortal world.

In rumors.

When the fairy world first opened, there were already chaos beasts.

The Helan Mountain tribe is one of the earliest chaos beast tribes.

In the endless history, they have fought against many Tao ancestors.

He even killed Daozu.

The tribe has accumulated a lot of items used by monks.

Although the Chaos Beast itself cannot use these things.

But it still remains.

Among them are the immortal talismans drawn by Taozu and various Taoist utensils.

Anyway, the Helan Mountain tribe doesn't need it themselves, so it can give some to Long Yuanguang.

In order to smoothly open the space channel.

Hearing He Ruobei's words, Long Yuanguang couldn't help but be overjoyed.

He felt as if he was being taken seriously.

It doesn't actually matter what He Ruobei gave him.

The important thing is that He Ruobei values this operation.

That would explain that after the passage was opened, he went to the Sea of Origin.

Maybe it really is settled.

Thinking of this, Long Yuanguang said excitedly.

"Thank you, senior."

Section 343

He Ruobei nodded, and then said with a smile.

"Let's stop here today. The psychic horn can only be used three times."

"If there is nothing important, don't call me casually."

After saying this, He Ruobei's figure slowly dissipated in the air.

The empty deserted island immediately returned to silence.

Long Yuanguang waved his right hand.

He put away the array platform on the ground.

Then he soared into the air and slapped the deserted island with one palm.

The entire deserted island was instantly smashed to pieces.

The original traces of the array on the island were wiped out completely.

Long Yuanguang pondered for a while.

He soon stood up, turned into a stream of light, and flew away.

He also had to rush to the Chaos Continent, go to the agreed place, and get the items given by He Ruobei.

In addition, he had to make some other preparations.

Anyway, the agreed time with He Ruobei was set 100,000 years later.

He was not in a hurry.

...

Time passed slowly.

Fifty thousand years passed in a flash.

Zhang Yuhe walked out of the cave hall.

At this time, the aura on his body was already the great perfection of the Golden Immortal.

After fifty thousand years of cultivation, he finally reached the end of the Golden Immortal.

At this time, he did not feel the existence of a bottleneck.

In other words.

As long as he wanted, he could break through to the Taiyi realm at any time.

But he did not do so.

The heavenly tribulation to be faced by breaking through the Taiyi Immortal was definitely extraordinary.

The tribulation platform on the Galaxy Island was obviously not enough to support him to pass the Taiyi Immortal tribulation.

In order to safely pass the heavenly tribulation, he must continue to deduce and improve the Renshui Thunder Absorption Array.

It must be said that this will be a big project.

The current Renshui Thunder Absorption Array has been deduced to the first level of the Immortal Grade.

Zhang Yuhe estimated.

If he wants to safely pass the heavenly tribulation, he may need to deduce the Renshui Thunder Absorption Array to the second level of the Immortal Grade.

The first-grade Renshui lightning absorption array of the immortal grade requires 10,081 lower-grade immortal-grade lightning absorption pillars to be set up.

So what kind of lightning absorption pillars are needed for the second-grade Renshui lightning absorption array of the immortal grade?

How many are needed?

Zhang Yuhe really has no idea in his heart.

"Take your time, it will be solved."

This matter cannot be rushed.

It is indeed not that easy to break through Taiyi Xian.

Otherwise.

There are so many Jinxian cultivators in the South Sea Immortal Realm, but the number of Taiyi Xianjun is less than one in ten thousand.

There are many obstacles to the advancement of Jinxian cultivators.

The most difficult level is the heavenly tribulation after the breakthrough.

There is no tribulation platform for Jinxian cultivators to break through in the entire South Sea Immortal Realm.

None.

Even the three super powers do not have such a high-level tribulation platform.

Taiyi Xian is the most important level on the road to immortality.

As long as you pass this level, you can truly live forever.

Taiyi Xianjun has an infinite lifespan.

It is the ultimate goal pursued by the cultivators.

It is precisely because of this.

So this level will be more difficult.

Countless talented geniuses eventually fell at this step.

Although Zhang Yuhe is confident.

He even feels.

With his current strength, the Nine Heavens Hunyuan Sword Formation, plus the help of the six supreme laws.

He should have a certain degree of confidence to survive the heavenly tribulation.

Yes.

In these 50,000 years of cultivation.

Zhang Yuhe not only improved his cultivation to the Golden Immortal Great Perfection.

And he also comprehended the three supreme laws, and comprehended all three laws to the state of minor success.

Now he has mastered the law of power, the law of time, the law of space, the law of soul, the law of yin and yang, and the law of cause and effect.

And all these six laws have reached the state of minor success.

Even without the help of other means.

Relying only on these six supreme laws, the strength he can exert will be extremely terrifying.

What's more.

On the Galaxy Island, there is also a first-level immortal Renshui lightning absorption formation, which can provide some help.

There are so many powerful means.

Zhang Yuhe thought.

He should still have some confidence in overcoming the Taiyi Immortal Heavenly Tribulation.

Despite this.

He still did not have any idea of taking risks.

Based on his previous experience of overcoming the tribulation.

Every time he broke through, the heavenly tribulation he received would far exceed that of ordinary cultivators.

Who knows when he breaks through the Taiyi Immortal.

How abnormal will the heavenly tribulation be?

What if he can't survive it, wouldn't it be nonsense?

There is no regret medicine for overcoming the tribulation.

Once the heavenly tribulation comes, you can only endure it.

If you can't survive it, you can only wait for death.

Zhang Yuhe doesn't want to take risks.

Even if he is 90% sure, he has to wait first.

Unless the Renshui Thunder Absorption Array has been deduced to the point where it can no longer be improved.

Now the Renshui Thunder Absorption Array still has room for further improvement.

So Zhang Yuhe is not in a hurry.

Take your time.

Go to Yufantian first.

Go to Blue Star by the way.

Look at how big the Blue Star has become now.

Look at Kunlun Fairy City, is it as magnificent and spectacular as he imagined.

...

Chapter 285 Going to Yufantian

Zhang Yuhe took out the Immortal Mirror and sent a message.

He took off into the air and flew quickly into the distance.

After a while.

He came to the sky above a rather large island.

Looking from the sky.

He saw two huge battle platforms standing on the left and right sides of the island.

Section 344

This is exactly the Ascension Island of Daosheng Sect.

The array platform on the left side of the island is an Ascension Platform that has been built for many years.

The array platform on the right side is a newly built Breaking World Array in recent years.

If Zhang Yuhe wants to go to Yufantian, he must use the Breaking World Array.

As early as 50,000 years ago, he told Lian Zhengyu to arrange for people to build this array.

In order to ensure the precise positioning of Yufantian's specific location.

After everyone discussed.

It was finally decided to build the Breaking World Array near the Ascension Platform.

After all, the cultivators of Yufantian can reach the fairyland through the Ascension Platform.

Then it will be relatively easy for them to locate Yufantian's position from here.

Zhang Yuhe flew down.

At this time, Wang Guofeng and a group of disciples were waiting near the Breaking World Array.

Seeing Zhang Yuhe coming.

Everyone immediately stepped forward and shouted respectfully in unison.

"Meet the Sect Master."

Zhang Yuhe extended his hand to signal, and then asked Wang Guofeng.

"There is no problem with the world-breaking formation, right?"

"No problem, please rest assured, Sect Master. We have conducted many tests and ensure that we can descend to Yufantian smoothly."

Looking at Zhang Yuhe in front of him, Wang Guofeng's face was full of reverence.

Speaking of which, Wang Guofeng is one of the luckiest disciples in Daosheng Sect.

Because Zhang Yuhe suddenly rose and brought a lot of resources to Daosheng Sect.

After Wang Guofeng ascended to the fairyland, he never had to worry about resources.

The Daosheng Sect has opened up the supply of resources needed for their cultivation.

It has been less than 100,000 years since Wang Guofeng ascended, but he has already broken through to the Golden Immortal Realm.

If it were in the past.

Such a cultivation speed is completely regarded as a peerless genius in the entire Ji'an Sea.

However, with the supply of massive resources from Daosheng Sect.

Disciples like Wang Guofeng, who only have ninth-grade spiritual roots, can also make rapid progress in their cultivation.

They have immortal pills to accelerate their cultivation, and they also have immortal pills to assist in breaking through bottlenecks.

Even when breaking through the Golden Immortal Realm, there is no need to worry about the heavenly tribulation.

The tribulation platform built by Zhang Yuhe is enough to support them and easily pass the heavenly tribulation.

So in less than 100,000 years, Wang Guofeng broke through to the Golden Immortal Realm.

Such a cultivation speed is not even much slower than Zhang Yuhe at the beginning.

After all, when Zhang Yuhe just ascended.

Dao Shengzong could hardly provide him with much help.

He did not have immortal pills to accelerate cultivation, and could only rely on his own talent.

To achieve such a cultivation effect.

And there are many people like Wang Guofeng in Dao Shengzong.

Many True Immortal disciples, with the help of the resources provided by the sect, easily broke through to the Golden Immortal Realm.

At present, the number of Golden Immortal elders in Dao Shengzong has exceeded 200.

Except that there is no Taiyi Immortal Lord sitting in.

With the current strength of Dao Shengzong, it can be said to be a major force.

However, compared with the old Golden Immortal elders in the past.

These newly promoted Golden Immortal elders have only improved their cultivation.

Basically, they have no outstanding performance in the comprehension of the law.

Most of these newly promoted Golden Immortal Elders have just comprehended an ordinary law.

In terms of comprehension of the law.

They are not even as good as the old True Immortal disciples in the past.

There is nothing they can do about it.

The resources provided by the sect can help them improve their cultivation quickly.

But in terms of comprehension of the law, it really can't help much.

The comprehension of the law depends on everyone's comprehension.

If the comprehension is not enough.

Even if the Taoist ancestors take action, they can't let a person quickly master a law.

In the fairy world.

There are very few things that can improve comprehension.

Rumor has it.

There is a pearl enlightenment tree in the fairy world, which bears some enlightenment fruits.

As long as you eat an enlightenment fruit, you can permanently improve the comprehension of the cultivator.

But the enlightenment fruit tree has long been a spiritual object, and its whereabouts are uncertain.

Every tens of millions of years, the enlightenment fruit tree will occasionally appear in the sight of the cultivator.

The fairy world is so big.

If you want to encounter the Enlightenment Fruit Tree, you need incredible luck.

As for whether you can pick the Enlightenment Fruit, it depends on your personal chance.

As for the legend of the Enlightenment Fruit Tree.

Zhang Yuhe just listened to it.

This kind of thing cannot be forced.

And he himself doesn't seem to need it.

He has a burst of understanding and has no worries in this regard.

As for the other people in the Daosheng Sect, he can only provide various cultivation resources.

In terms of law comprehension, he really has no way.

Unless he can dig up the Enlightenment Fruit Tree.

But that is obviously impossible.

...

Under the leadership of Wang Guofeng, Zhang Yuhe slowly walked up to the Breaking Realm Array.

Standing in the center of the array platform, Wang Guofeng took out a formation plate and handed it over and said.

"Master, this is the control array plate."

Zhang Yuhe took the array plate and took a look.

The Breaking Realm Array is only a first-level immortal array. Although it is large in scale, it is not very complicated.

At least for Zhang Yuhe, this is the case.

He picked up the array plate and took a look at it, and roughly understood the operating principle of this array.

Wang Guofeng and others had already built the world-breaking array.

As long as the world-breaking stone is filled into the array plate, the array can be activated.

Zhang Yuhe flipped his right hand.

A crystal clear crystal appeared in his hand.

Break the Boundary Stone.

This kind of thing is extremely rare even in the fairy world.

Even if you look for it deliberately, it is not easy to find it.

Fortunately, the Break the Boundary Stone.

The only function is to open a temporary passage to the lower world.

Besides that, it has no other use.

The cultivators in the fairy world are generally not very interested in the things in the lower world.

So not many people will deliberately collect the Break the Boundary Stone.

So the Break the Boundary Stone can only be regarded as scarce, not particularly precious.

After all, this thing can neither be used to improve cultivation nor to refine fairy tools.

Why do they want this thing?

Zhang Yuhe filled the Break the Boundary Stone into the groove in the array plate.

As the spell was pinched.

The surrounding space suddenly began to fluctuate violently.

After a while.

Section 345

A dark passage appeared in front of everyone.

Zhang Yuhe's mind moved.

A figure suddenly appeared in front of everyone.

The new figure looked exactly like Zhang Yuhe.

It was just that the aura on his body was only at the Great Perfection of Mahayana, and he had not even reached the realm of the True Immortal.

This was Zhang Yuhe's incarnation.

With his current cultivation of the Great Perfection of the Golden Immortal, he transformed into an incarnation.

It was two realms lower than his own cultivation.

But this was just right.

The cultivators in the Immortal Realm wanted to descend to the lower realm.

The highest cultivation level could not exceed the realm of the True Immortal.

This was a constraint from some supreme rules.

It was said that even the Daozu Emperor could not go to the lower realm in person.

The incarnation glanced at everyone.

Then he stepped into the space passage in front of him.

It soon disappeared in front of everyone.

...

Chapter 286 Return to Yunzhong City

Zhang Yuhe stood on the array platform, watching the space passage in front of him slowly close.

He silently sensed the state of the incarnation.

Since he was crossing the realms of immortals and mortals, although he could sense the existence of the incarnation.

But he was not very clear about the specific situation of the incarnation at present.

Only after the incarnation dissipated, he would know the specific process.

After sensing silently for a while.

Knowing that the incarnation was safe and sound at present, it should have arrived at Yufantian smoothly.

Zhang Yuhe turned around and said to Wang Guofeng.

"I'll go back first, and leave one person here to guard it in the future."

"Yes, Sect Master."

Wang Guofeng responded respectfully.

After explaining some things.

Zhang Yuhe quickly soared into the air and disappeared into the distance as a stream of light.

The matter of returning to Yufantian can only be left to the incarnation.

He can't go down by himself.

And he doesn't need to stay here to guard.

It's completely unnecessary.

Because the incarnation in the lower realm will not return by the same route.

The temporary passage opened by the Breaking Realm Formation can only support the incarnation to go to the lower realm.

It can't allow the incarnation to continue to return along the passage.

As far as Zhang Yuhe knows.

If you want to return to the fairyland from Yufantian, you have to take the path of ascension.

But the incarnation cannot practice, so naturally it cannot attract the ascension tribulation.

In other words.

After the incarnation goes down, it will never come back.

But Zhang Yuhe is not worried.

He just asked the incarnation to go to Yufantian to do some things, and then go to Blue Star by the way.

After the things are done.

The incarnation will automatically dissipate.

When the incarnation dissipates, the information will return to the main body.

In that way.

He can know everything that the incarnation has experienced in Yufantian and Blue Star.

...

Yufantian.

Tianxing Sea on the east side of the continent.

In a sea area where few people go.

A huge black vortex suddenly appeared above the sea.

Zhang Yuhe (incarnation) walked out of the space channel.

At this time, his head was still a little dizzy.

Although the two-world channel opened by the world-breaking formation can support the cultivators to go down to the world.

But when traveling in the channel, you need to face various strong space pressures at all times.

This feeling is really uncomfortable.

This is Zhang Yuhe, who has already comprehended the space law to a small level.

Otherwise.

He even doubted whether he would get lost in the endless void.

It is really hard to imagine how Lu Yunfei's incarnation arrived at Yufantian smoothly before.

Zhang Yuhe looked around.

After a while.

He muttered to himself.

"Is this Tianxinghai?"

He had been to this place before.

When the demons invaded Yufantian, he and Feng Xiaotian led people to counterattack.

Finally, they entered the demons' territory, Cangyun Realm, from the space channel of Tianxinghai.

Now 200,000 years have passed.

The past is still vivid.

"Let's take a look around first, and then go to Daosheng Sect."

Zhang Yuhe thought silently in his heart.

This time when he returned to Yufantian, he had a few things to deal with.

First, he planned to come back to see the place where he had practiced and fought.

Now he has reached the Great Perfection of Golden Immortal, and is only one step away from Taiyi Immortal.

Once he breaks through to Taiyi Immortal.

Then for a long time in the future, he will not be able to come back.

Even the incarnation will not work.

After breaking through to Taiyi Immortal, the strength of the incarnation will be correspondingly improved to the realm of True Immortal.

The temporary passage opened by the Breaking Realm Array cannot support the True Immortal cultivators to go to the lower world.

He wants to take a look at his past before he breaks through.

Secondly, he wants to bring a batch of resources to Yufantian.

Although the Daosheng Sect in the lower world now spans Yufantian and Cangyun Realm.

There is no shortage of resources for the time being.

But Zhang Yuhe knows.

The larger the territory and the more disciples in the sect, the greater the consumption.

As time goes by.

Even if there are more resources, they will slowly be consumed.

He wants to provide some sustainable development resources for the Daosheng Sect in the lower world.

Of course.

These are all by the way.

The most important purpose of Zhang Yuhe's return to Yufantian this time is naturally for Shattered Moon Void and Endless Sea.

Those two Jedi places in the Flowing Cloud Corridor may have what he needs.

When he was in the Taixu Secret Realm.

I have found the blueprints for refining the Earth-class Immortal Ship and the Heaven-controlling Bottle.

To refine the Earth-class Immortal Ship, you need something called the Sky-breaking Immortal Crystal.

Section 346

This kind of precious material is extremely rare even in the fairy world.

Anyway, Zhang Yuhe has never heard of anyone having such a thing.

The Heaven-Holding Bottle is a time-based fairy weapon.

After it is successfully refined, the fairy weapon will automatically generate the Nine Heavens Fairy Dew.

Using the Nine Heavens Fairy Dew to water the spiritual grass can greatly increase the growth rate of the spiritual grass.

This is an extremely heaven-defying fairy weapon.

It's a pity.

To refine this fairy weapon, you need a material called the Years Fairy Crystal.

He had never even heard of this material before.

If it wasn't for the time when he was in Yufantian.

He saw the strange vision of the Broken Moon Void in the Flowing Cloud Corridor.

He might not believe that there is such a material in the world.

"I hope I can find these two treasures smoothly?"

Zhang Yuhe thought silently in his heart.

"Let's take a look around first."

He quickly took off and flew towards the distance.

Zhang Yuhe used all his strength to activate the Galaxy Dragon Body Skill and quickly shuttled through the void.

With the perfect cultivation of the incarnation of Mahayana, coupled with the laws of space and powerful body skills.

The vast Yufantian was not too big under his feet.

Compared with the fairyland.

The area of the entire Yufantian world may not be even one-tenth of the Ji'an Sea.

Zhang Yuhe flew quickly all the way and soon appeared above a city.

Yunzhong City.

He had been a garrison commander here for decades.

His first battle took place in Jingkong City not far away.

Zhang Yuhe stood in the air, overlooking the city below, and a little wave rose in his heart.

"Go down and take a look."

Zhang Yuhe restrained his breath and landed silently in Yunzhong City.

Although there was a forbidden air formation above Yunzhong City.

But for Zhang Yuhe.

This kind of shallow formation was completely a decoration.

Strolling on the streets of Yunzhong City.

Watching people coming and going around.

Zhang Yuhe walked and observed silently.

He found that the strength of the cultivators in Yunzhong City today is completely different from that in the past.

At that time, most of the cultivators in Yunzhong City were at the Qi Refining and Foundation Building stages.

Jindan cultivators were considered the backbone of Yunzhong City.

However, he now found that Jindan cultivators were everywhere on the streets.

Through divine sense observation.

He even found many Huashen cultivators in Yunzhong City.

Seeing this situation.

Zhang Yuhe couldn't help but smile.

From a corner of Yunzhong City, you can know.

Now Yu Fantian's way of cultivating immortals is indeed very prosperous.

"Go to other places to have a look."

After Zhang Yuhe turned around in Yunzhong City, he left quietly.

No one knew.

The world-famous Zhang Laozu once returned here.

Come quietly, leave quietly.

...

Chapter 287 Shattered Sky Immortal Crystal

Zhang Yuhe left Yunzhong City and soon came to the sky above a large lake.

Thunder Lake.

Oh, that's not right.

Now this place should be called the Milky Way Sea, the Milky Way Holy Land.

This is where he passed the tribulation when he was in Yufantian.

Zhang Yuhe once broke through to the realm of refining emptiness, fusion, and Mahayana here.

It was also from here that he finally passed the great heavenly tribulation and ascended to the immortal world.

After he ascended.

Feng Xiaotian built this place into a holy place for Yufantian.

Whether or not they are disciples of Daosheng Sect.

As long as they are cultivators in Yufantian, they can come here to admire the holy relics left by Zhang Laozu.

Zhang Yuhe stood above the lake, watching the streams of light passing by from time to time.

A large number of cultivators, with a pious mood, landed on the island in the middle of the lake.

In the center of the island, there stands a tall sculpture of an immortal.

The immortal is dressed in a white robe, carrying an immortal sword, and looking up at the sky with his eyes piercing.

It seems that he will fly away with the wind at any time.

It is unknown who created this sculpture.

The image of Zhang Yuhe is portrayed very vividly.

After a large number of cultivators landed on the island, they all stood quietly in the distance.

They looked at the sculptures solemnly, and seemed to be muttering something.

Zhang Yuhe found it very interesting, and he listened carefully.

"I have been trapped in the Golden Core Realm for hundreds of years. Please bless me to break through smoothly."

"My Taoist partner is about to give birth. Please bless me so that my newborn boy can have good spiritual roots."

...

Zhang Yuhe stood in the air, listening to the cultivators' silent prayers.

He was a little speechless.

"It's really dizzy, can I still be so broad-minded? It's too much to ask me to give birth to a son."

Although he thought so, Zhang Yuhe was very happy in his heart.

It can be seen from the pious attitude of the cultivators.

The cultivators of Yu Fantian are indeed full of infinite respect for him.

After a lifetime of cultivation, he can have such achievements, which makes countless people believe and admire him.

What else is he dissatisfied with?

Thinking of this.

Zhang Yuhe took out a few fairy stones and crushed them casually.

Then he waved his right hand.

The fairy stones, with huge spiritual energy, quietly scattered to the center of the island.

The monks who were praying suddenly felt the huge spiritual energy coming, and they couldn't help but be overjoyed.

One of the monks even broke through the bottleneck directly.

"Hahaha, I made a breakthrough. Ancestor Zhang appeared."

"Thank you, ancestor."

Seeing the excited expressions of the monks, Zhang Yuhe felt very comfortable.

He looked around.

I saw 108 tall Optimus Pillars standing on the outside of the island.

This is the lightning-absorbing pillar left behind after he survived the great catastrophe.

Over the past two hundred thousand years.

Countless monks have relied on this Renshui thunder-absorbing formation to survive one catastrophe after another.

There are even many monks who have achieved Mahayana perfection and take advantage of this formation.

He successfully survived the great catastrophe and finally ascended to the fairy world.

Section 347

Currently, there are more than ten monks who have ascended from Yu Fantian to the Immortal Realm.

With the help of the blessing left by Zhang Yuhe.

The number of monks that Yu Fantian has ascended within 200,000 years is actually four to five times more than the previous one million years.

When one person attains enlightenment, the Chicken Tai ascends to heaven, that's probably it.

Zhang Yuhe stood above Thunder Lake, looked at it silently for a while, and then flew away.

He didn't communicate with anyone, just looked around quietly.

After leaving Thunder Lake, Zhang Yuhe flew quickly all the way.

Every time he passed a city, he would observe it quietly.

He saw countless monks practicing hard and fighting hard.

I also saw the intrigues and cunning in the world.

No matter what situation he saw, he had no intention of intervening.

The world is so big and people's hearts are so complicated, and he can't control such things.

If that's the case, then just don't care about anything.

As long as Yu Fantian's development trend is moving in the right direction.

A few days later, Zhang Yuhe's figure appeared above a huge city.

Suppress the Demon City.

Back then, Feng Xiaotian and the monks who led Yu Fantian were here to stop the invasion of demons.

After the demon clan was destroyed, this great city still remained.

Two hundred thousand years have passed.

The current Demon Suppressing City is no longer the city it once was, used to block enemies.

Instead, it developed into a huge commercial center.

The Demon-Suppressing City is located in the middle of the Liuyun Corridor, connecting the two ends of the continent.

It has a very significant location advantage.

Under the auspices of the Daosheng Sect, countless monks were attracted to come here for gold mining and trading.

Zhang Yuhe stood above the city, observed silently for a while, and then flew away.

"Let's go do some business first? I hope I can find what I need."

After leaving the Demon Town.

He soon arrived at the edge of the endless sea.

Looking at the empty and mysterious Wuya Sea in front of him, Zhang Yuhe flicked his right hand.

A sword light quickly flew into the distance.

A large number of space cracks quickly formed in front of our eyes.

The sword light only advanced a short distance before being submerged by the endless space cracks.

"It is indeed like the strange vision emitted by the Sky-Shattering Immortal Crystal."

Not only was Zhang Yuhe not depressed when he saw the space cracks created out of thin air.

On the contrary, I was very happy.

According to the records he had seen in the classics.

Where the Shattering Sky Immortal Crystal exists, there will indeed be such anomalies.

This material is extremely overbearing.

Once the material is formally formed, it will naturally control the void within a certain range.

As long as there is an object, it invades this void.

Endless space cracks will be formed and turned into powder.

"Go in and try."

Zhang Yuhe pinched the magic formula, and an inexplicable aura spread from his body to the nearby area.

He mobilized the power of law with all his strength.

Use the laws of space to fight against the anomalies formed by the Sky-Shattering Immortal Crystal.

Although this is just an incarnation, the application of the law is actually similar to the original body.

You can also master the power of laws in the realm of Xiaocheng.

After many attempts.

Zhang Yuhe was convinced.

With the power of the laws he currently masters, he can fight against the anomalies in front of him.

He took one step into the boundless sea, and then flew forward quickly.

For countless years.

There used to be a large number of creatures that entered the Endless Sea.

But these people will soon disappear into the vast cracks in space.

No one can ever come out of the endless sea.

Even the original Lu Yunfei.

Seeing Wuyahai's vision, he just shook his head helplessly.

Zhang Yuhe flew forward quickly while unfolding his spiritual consciousness.

"Hey, it seems to be there."

After a while.

He discovered the source of the anomaly.

After continuing to fly for some time.

I saw a tall cliff appearing in front of me.

There is a strange stone embedded on the top of the cliff.

This stone is not too big, about the same size as an ordinary stone pier.

Countless inexplicable auras emanated from this stone.

Slowly blending into the surrounding void.

"Haha, it is indeed the Shattering Sky Immortal Crystal."

...

Chapter 288 Got something

Looking at the stone pier embedded in the cliff.

Zhang Yuhe recognized it at a glance, this was the Shattering Sky Immortal Crystal.

Although the appearance of Shattering Sky Immortal Crystal can be in various shapes.

But the inherent characteristics of this material are very obvious.

As long as you read the introduction in the classics, you can basically recognize it.

Zhang Yuhe flew up and quickly landed on the cliff.

I saw a flash of sword light.

Stone pillars fell off the cliff.

Zhang Yuhe took out a special jade box and put away the Shattered Sky Immortal Crystal.

The whole process seemed smooth and easy.

In fact, it was him.

If someone else had come over, they probably wouldn't be able to get the Sky Shattering Immortal Crystal.

Without mastering the laws of space.

Even Immortal Lord Taiyi dare not easily enter the place where the Shattering Sky Immortal Crystal grows.

There are space cracks everywhere here.

It's enough to make Taiyi Immortal Lord intimidated.

Most people can't get in.

Not to mention, taking away the Shattering Sky Immortal Crystal.

Zhang Yuhe put away the Shattered Sky Immortal Crystal.

When he was about to return.

Suddenly he discovered that the vision caused by the Shattering Sky Immortal Crystal had not disappeared.

He popped out a sword light.

There will still be space cracks.

"Hey, is there more than one piece of Broken Sky Immortal Crystal here?"

Thinking of this.

Zhang Yuhe used all his strength to develop his spiritual sense.

He soon discovered something unusual.

There was also a small stone where he collected the Broken Sky Immortal Crystal.

It also emitted a faint space fluctuation.

Section 348

Zhang Yuhe flew up again.

After careful confirmation.

As expected, another piece of Broken Sky Immortal Crystal was found.

But the size of this Broken Sky Immortal Crystal was too small.

It was not enough to be used to refine the Earth-level Immortal Ship.

"Forget it, just leave it here."

Looking at the slightly smaller Broken Sky Immortal Crystal in front of him, Zhang Yuhe did not intend to take it away.

Nothing can be used up.

What's more, this Broken Sky Immortal Crystal is too small to play a big role.

Just leave it here and wait for the next destined person.

After getting the Broken Sky Immortal Crystal.

Zhang Yuhe flew quickly all the way.

Soon he left the Endless Sea.

Standing above the Liuyun Corridor, looking at the Endless Sea in the distance.

He could clearly feel it.

At this time, the space fluctuations emitted by the Endless Sea were much smaller than before.

He took away the large Broken Sky Immortal Crystal.

Only a small one was left, and the space anomaly emitted was naturally much smaller.

However, despite this,

At this time, the Boundless Sea was not a place that anyone could enter.

Zhang Yuhe took a rough look.

Even if a Mahayana cultivator entered it, it was estimated that there would still be death.

So, although he took away a piece of Broken Sky Immortal Crystal.

But the Boundless Sea now.

It is still a dead end.

At least for the natives of Yufantian, this is the case.

Whoever goes there will die.

"Go to Broken Moon Void and have a look."

Zhang Yuhe urged the law of time and quickly flew towards the Broken Moon Void next to him.

After a while, he flew out of Broken Moon Void with a smile on his face.

At this time, there was an exquisite jade box in his hand.

The situation of Broken Moon Void was similar to that of the Boundless Sea.

There were indeed immortal crystals of time, and there were also two pieces.

Zhang Yuhe took out the slightly larger piece.

As for the smaller piece, he still left it where it was.

After coming out of Broken Moon Void.

Zhang Yuhe did not leave immediately.

He stood above the Liuyun Corridor and looked at the two dead ends next to him.

However, after careful observation for a long time, he still couldn't figure out the reason.

He always felt that these two places were a little strange.

There must be something he didn't see through.

Originally, he thought that the treasures in these two places should be some kind of innate things.

But now it seems that this is obviously not the case.

Although the Broken Sky Immortal Crystal and the Time Immortal Crystal are extremely precious and are rare materials for refining weapons.

But these two materials are not innate things.

It's just why these two materials are formed here, and it seems that they can be formed continuously.

After he took out one piece, there was still one piece left there.

Maybe after countless years.

New Broken Sky Immortal Crystal and Time Immortal Crystal will be formed here again.

This is a bit abnormal.

"Is there a great artifact hidden under this Liuyun Corridor?"

"The breath emitted by the artifact derives these two precious materials?"

Zhang Yuhe stood above the Liuyun Corridor, thinking silently in his heart.

However, he turned these two places upside down.

He didn't see anything abnormal.

Let alone artifacts.

Apart from the Broken Sky Immortal Crystal and the Time Immortal Crystal, he did not see anything valuable.

"Forget it, maybe I think too much."

Zhang Yuhe searched for a long time near the Liuyun Corridor, but did not see anything special.

So he could only leave helplessly.

Whether there is really a certain artifact hidden below, it has nothing to do with him.

At least that's the case for now.

He couldn't even find it, so naturally he had no chance.

Maybe he really thought too much.

Maybe it's just because of the special environment here.

That's why the Time Immortal Crystal and the Broken Sky Immortal Crystal are continuously formed.

Zhang Yuhe didn't dwell on it for too long, but flew away directly.

After getting the Time Immortal Crystal and the Broken Sky Immortal Crystal, the purpose of his return this time.

Even if it was more than half completed.

He still had to go to the Daosheng Sect to arrange some things.

Then go to Blue Star to see.

Then this incarnation can be dissipated.

...

Yu Fantian, Daosheng Sect.

In the Patriarch Hall of Daosheng Peak.

The current sect master Li Qingyang, with a group of elders, was standing quietly outside the hall.

Thousands of elders were a huge mass.

As for the further distance, there were the inner and outer disciples of the Daosheng Sect.

As early as three days ago.

Li Qingyang received the message from the sect in the upper realm.

Ancestor Zhang had sent his incarnation to Yufantian and asked them to receive him.

After receiving the news, Li Qingyang was extremely excited.

Since the spread of the immortal civilization in Yufantian.

There are nearly twenty senior ancestors who have ascended to the immortal world.

But no one has ever been able to descend from the immortal world.

In fact, he also knew.

It must not be so easy for immortals to descend to the lower world.

Originally, Li Qingyang thought.

Anyway, Yufantian did not encounter any crisis, and did not need to ask for help from the upper realm.

He never expected that the immortals from the upper realm could descend to Yufantian.

However, just three days ago, he suddenly received the news.

This made him feel very surprised.

When immortals descend from the upper realm, any little thing they leave behind can benefit them immensely.

Even the immortals who came brought nothing with them.

It is a great opportunity to meet an immortal.

not to mention.

The immortal who came this time was Patriarch Zhang who ascended to the immortal world from Yu Fantian.

Li Qingyang knew the legend of Patriarch Zhang very well.

In the long history of Yu Fantian.

Except for Ancestor Lu who founded the Immortal Civilization.

Section 349

No one can compare with Zhang Laozu anymore.

Zhang Laozu not only turned the tide and repelled the invading demons.

But also left behind countless inheritances and resources.

Especially the Renshui Thunder Absorption Array located in the Holy Land of Galaxy.

It is precisely because of this great array.

Yufan Tian can continuously produce ascended monks.

In Li Qingyang's heart.

Zhang Laozu's achievements are even greater than those of Lu Laozu, who spread the immortal civilization.

In addition.

Zhang Laozu practiced step by step from Yufantian to ascend.

Li Qingyang thought.

Zhang Laozu must have deep feelings for Yufantian.

Maybe this time he sent his incarnation to the lower world.

It is to help them, the younger generation.

Thinking of this.

Li Qingyang was extremely excited.

...

Chapter 289 Return to Yufan Tiandao Shengzong

After receiving the message from the sect in the upper world.

Li Qingyang summoned all the elders and disciples in the sect together.

Even the inner disciples who were out on guard were all recalled.

The inner and outer disciples of the entire sect, plus the elders above the refining level.

There were more than 100,000 people, all waiting quietly outside the ancestor's hall.

Just to see the immortal face of Zhang Laozu.

However, three days passed.

They didn't even see a shadow of a person.

Everyone even suspected that there was a mistake in the communication from the immortal world.

Zhang Laozu didn't descend to Yufantian?

Did the sect master misunderstand when communicating with the immortal world?

Or.

Zhang Laozu descended in a remote corner and hasn't come yet.

Although everyone had all kinds of ideas in their minds.

But no one said it out loud.

If anyone dared to say such a thing, he would be beaten out with sticks immediately.

It was too depressing.

Everyone just waited quietly, and the whole sect was silent.

Fortunately, they were all cultivators.

They wouldn't get tired even if they stood.

Not to mention that it was only three days.

As long as they could see Zhang Laozu.

Even if they had to wait for three years, everyone would be willing.

You know.

That was a real immortal.

For them.

Zhang Laozu 200,000 years ago was the ultimate goal of their cultivation.

What's more.

Now so many years have passed, and now Zhang Laozu.

What kind of style would that be?

Who in the sect doesn't know the legend of Zhang Laozu?

Zhang Laozu practiced Taoism for only two or three thousand years, and he passed the tribulation and ascended to the immortal world.

Such a mythical figure.

If it weren't for the time interval, it wouldn't be too long.

Many relics left by Zhang Laozu still exist today.

Almost everyone couldn't believe that this was true.

There was actually such a person who defied the heavens in the world.

Now Zhang Laozu has returned to Yufantian.

It's completely a myth reappearing in the world.

How could they miss such a grand scene.

Even if they waited a little longer, what's the harm.

As long as the news is accurate.

They can wait until the end of time.

Just to see Zhang Laozu.

...

Zhang Yuhe used all his strength to activate the Galaxy Dragon Body Skill and flew forward quickly.

He did not take the teleportation array.

In the world of Yufantian.

Cities above the provincial capital are connected by teleportation arrays.

No matter where you want to go, you can arrive instantly.

But Zhang Yuhe was not in a hurry.

While flying quickly, he was intoxicated by the customs and customs of Yufantian.

Although he has been practicing Taoism for more than 200,000 years.

He has stayed in the fairy world for much longer than Yufantian.

But relatively speaking.

Zhang Yuhe has a deeper feeling for Yufantian.

This inexplicable feeling is even stronger than that of Blue Star.

Because this is where his dream began.

If it weren't for the game opening, he would have the opportunity to enter Yufantian to practice Taoism.

With his mortal body on Blue Star.

Now I'm afraid he has been reincarnated thousands of times.

Zhang Yuhe took a quick look and soon came to the gate of Daosheng Sect.

"Hey, where are the people?"

He looked inside the mountain gate.

The mountain gate was wide open, but no one was in sight.

"What are these people doing? Why isn't there even a disciple guarding the mountain gate?"

Zhang Yuhe felt very strange when he saw this.

"Is there another foreign invasion? Impossible?"

Zhang Yuhe thought silently in his heart, and then shook his head quickly.

He flew all the way from Tianxinghai to here, across the entire Yufantian Continent.

He didn't see anything unusual.

If there was an invasion by foreign enemies, it wouldn't be so peaceful outside.

"Maybe an important celebration is being held?"

Zhang Yuhe guessed silently.

"Let me see where everyone is?"

Zhang Yuhe stood outside the mountain gate, and his spiritual sense was fully developed, sweeping across millions of miles.

"Strange, what are they doing outside the Patriarch's Hall?"

After the spiritual sense swept through.

Zhang Yuhe was surprised to find that.

All the elders and disciples of Daosheng Sect were all gathered outside the Patriarch's Hall.

As for other places, there was not even a single person.

Section 350

Originally he thought.

What important ceremony is being held?

For example, the sect leader's succession ceremony.

However.

Through the spiritual observation just now.

All the elders and disciples of Daosheng Sect just stood quietly outside the Patriarch Hall.

It's not like, what kind of ceremony is being held?

"You're not waiting for me, are you?"

Zhang Yuhe reacted quickly.

All the elders and disciples of Daosheng Sect gathered outside the Patriarch Hall.

This posture indeed looks like it is waiting to welcome him.

"It's just that I didn't notify you in advance. How would they know?"

"Isn't there someone who talks too much and sent a message to Yu Fantian in advance?"

Think of this.

Zhang Yuhe was very speechless.

Originally, he planned to come back quietly.

Then leave something behind and leave quietly.

Now it seems that it's not enough if I don't meet these disciples and grandchildren.

Zhang Yuhe shook his head and turned into a stream of light, quickly flying towards the top of Dao Sheng Peak.

...

Li Qingyang, together with a group of elders and disciples, stood quietly outside the Patriarch's Hall.

Although three days have passed, Old Ancestor Zhang has not shown up yet.

But he was in no hurry.

Different from others.

Others may have various ideas.

But he won't.

Because he personally received the summons from the fairy world.

He heard it clearly at that time.

Patriarch Zhang has sent an incarnation to come.

This is definitely true.

Li Qingyang believed that it was impossible for the ancestors in the immortal world to joke about this matter.

As for why three days have passed, Patriarch Zhang has not been seen yet.

Actually this is not surprising.

Yu Fantian's world is not small.

Perhaps Patriarch Zhang has landed in a remote place and will be unable to make it for a while.

Perhaps Patriarch Zhang, what should Yu Fantian do now?

You have to let people finish the matter before talking about it.

When Patriarch Zhang finishes the matter, he will naturally come over.

Just wait slowly.

Li Qingyang thought.

If you act too impatient, you might be seen by Patriarch Zhang.

That would be bad.

Just when Li Qingyang was still comforting himself.

Suddenly, an elegant fairy shadow slowly fell from the sky.

Seeing such a situation, Li Qingyang couldn't help but be stunned.

He reacted quickly and immediately shouted respectfully.

"Disciple Li Qingyang, pay homage to Patriarch Zhang."

The elders and disciples outside who had been waiting for three days also shouted in unison.

"Meet Patriarch Zhang."

At this time, everyone was extremely excited.

Although Zhang Yuhe did not reveal any breath.

But everyone can see it at a glance.

This is the ancestor Zhang they admire.

It is impossible for anyone to fake that kind of elegant and immortal appearance.

Moreover.

Who dares to pretend to be their ancestor in the territory of Daosheng Sect?

Isn't that seeking death?

Look at everyone's excitement.

Zhang Yuhe smiled and stretched out his hand to signal, and said in a soft voice.

"No need to be polite."

His voice was like heavenly music, with some inexplicable aura.

It seems to contain infinite Taoist charm, making people unnaturally intoxicated.

...

Chapter 290 Descendants of Wang Guofeng

Zhang Yuhe looked around.

Two hundred thousand years have passed, and the number of Daosheng Sect's disciples has not increased much.

When he was in Yu Fantian.

Daosheng Sect has one hundred thousand outer disciples and three thousand inner disciples.

There are also hundreds of elders who are above Lianxu level.

The number of people in front of them was not much greater than before.

There are also only about 100,000 people.

However, the quality of these disciples now is far from what it was back then.

He glanced briefly.

It was discovered that there were more than 30,000 inner disciples above Nascent Soul.

As for the elders above Lianxu, there are nearly 8,000 people.

Even the number of Mahayana monks, including the sect leader Li Qingyang, has reached twelve.

Think back to the beginning.

When he first entered Dao Sheng Sect.

There are only two Mahayana ancestors, Feng Xiaotian and Wu Yuemin, in the sect.

Today, the number of Mahayana members in the Dao Sheng Sect is actually six times that of before.

It can be seen from this.

The prosperity of Yu Fantian's immortal path now is indeed far from what it was back then.

It can be regarded as reaching a peak state.

Zhang Yuhe observed silently.

I found that many of these disciples had auras that were incompatible with this world.

Obviously they are all outsiders.

Even among the twelve Mahayana monks, there were two outsiders.

Zhang Yuhe knows.

These people are all players from Blue Star.

After he ascended, Feng Xiaotian changed the rules for recruiting disciples.

In the past, when Dao Sheng Sect recruited disciples, in addition to their qualifications, they also needed to find out their origins.

This gives Blue Star players like them no chance to join Dao Sheng Sect.

Later, Feng Xiaotian completely changed this rule.

Now Daosheng Sect is recruiting disciples.

He only asks about his heart, not his origins.

There is no threat from demons.

They don't have to worry about unscrupulous people entering the sect to cause damage.

Moreover.

Even if some people are dissatisfied, after seeing the power of Dao Sheng Sect.
