

## Top talent 351

Section 351

Don't dare to do it again.

Following Feng Xiaotian, he changed the rules of Dao Sheng Sect for recruiting disciples.

A large number of Blue Star players, like the natives of Yu Fantian, have the opportunity to join the Dao Sheng Sect.

There are even people who have cultivated to the state of Mahayana.

In fact.

He had heard Wang Guofeng say it as early as when he was in the fairy world.

The qualifications of Blue Star players seem to be better overall than those of Yu Fantian's natives.

The inheritance of Mahayana monks has never been interrupted.

Just among them.

Except for Wang Guofeng, no one finally embarked on the road to ascension.

In fact, this is normal.

Even though he left a lot of legacy behind.

But it is not that easy to train an ascended monk in the lower realm.

An ordinary monk.

I want to go from refining energy to ascension.

In addition to strong talent, it also requires some chance and luck.

Looking at the tens of thousands of elders and disciples in front of him, Zhang Yuhe nodded with satisfaction.

The development of Daosheng Sect was better than he imagined.

If only he could provide some more help.

Maybe it will develop better in the future.

Thinking of this, Zhang Yuhe said with a smile.

"I plan to preach at the Galaxy Holy Land in three years. If you are interested, you can go and listen."

boom.....

As soon as Zhang Yuhe finished speaking, the scene instantly became a sensation.

The immortal preached, what an opportunity it was.

Even if you understand just a little bit, you will benefit a lot.

Everyone shouted excitedly in unison.

"Thank you, ancestor."

...

Zhang Yuhe waved his hand and told everyone to disperse.

After a while.

He came to Galaxy Peak.

This is the dojo where he once practiced.

Zhang Yuhe stood on the top of the mountain and looked around.

Not far from Galaxy Peak, there is another peak of the same size.

That's Li Tian's training cave.

Back then, the two of them were promoted to sect elders at the same time, and they lived side by side for thousands of years.

Today, Li Tian has already ascended to the fairy world.

He even broke through to the Golden Immortal Realm.

Not only that.

Even Wang Guofeng, who once lived and practiced at the foot of Galaxy Peak Mountain, is now a Golden Immortal monk.

The wonders of the world are indeed endlessly memorable.

Zhang Yuhe walked quietly on the Milky Way Peak.

Li Qingyang and a Mahayana elder followed slowly behind.

This Mahayana elder is somewhat special.

Because his appearance is somewhat similar to Wang Guofeng.

So Zhang Yuhe asked him to stay with him.

Suddenly Zhang Yuhe turned around and asked him.

"May I have your name."

I heard Zhang Yuhe ask.

The Mahayana elder immediately responded excitedly.

"Disciple Wang Luoming has met the ancestor."

Zhang Yuhe nodded, and then continued to ask lightly.

"Who are you, Wang Guofeng?"

Wang Luoming was stunned for a moment, and then responded respectfully.

"He is the ancestor of the disciple family."

He had seen the legends about his family's ancestors many times in the ancestral books.

Since there has been no turmoil in Blue Star, all the classics are well preserved.

There are basically detailed records about the allusions of that year.

According to what the scriptures say.

Back then, the ancestors of their Wang family were fortunate enough to follow Patriarch Zhang.

Because of the care of Patriarch Zhang.

Only then did he finally ascend to the fairy world.

Wang Luoming was extremely excited when he heard Zhang Yuhe suddenly ask about his origin.

He knew that his ancestor was related to this ancestor Zhang.

He also knew something about Wang Guofeng's current situation.

It's no better now than it was then.

Nowadays, the Dao Sheng Sect in the Immortal Realm is extremely rich and no longer needs to be as frugal as before.

The communication array connecting the two worlds is always open, making communication convenient.

He even used the communication array to communicate with Wang Guofeng in the fairy world.

According to the family ancestor.

The old Ancestor Zhang in front of him is also a great figure in the immortal world.

Wang Luoming thought.

If this Old Ancestor Zhang could take care of him, he would be able to take care of him.

Then wouldn't it be possible for him to ascend?

However, Wang Luoming just thought about it and did not dare to show it.

Li Qingyang next to him heard the conversation between the two and felt extremely envious.

Others have good ancestors.

He was so envious.

Ever since Patriarch Zhang came to the sect, he has not cared about any affairs.

Now he pays so much attention to Wang Luoming.

How could he not be envious of this?

The ancestors of the Wang family, hugging a big thick leg, are still blessed to be descendants of 200,000 years.

It can be seen from this.

This Patriarch Zhang is obviously a passionate person.

Maybe Old Ancestor Zhang will leave some good things for them.

After all, Dao Sheng Sect is the place where Patriarch Zhang attained enlightenment.

Think of this.

Li Qingyang felt inexplicably excited.

Zhang Yuhe ignored the thoughts of the two people behind him.

He just walked quietly on the Milky Way Peak, looking for memories and bits and pieces of the past.

After his ascension.

Galaxy Peak was sealed and no longer assigned.

Except for the occasional disciple who would come over to clean up, no one came here anymore.

Galaxy Peak today is basically the same as when he left.

Two hundred thousand years of vicissitudes of life.

The Yinhe Peak can still be kept in its original state.

I have to say.

The descendants of Daosheng Sect are really thoughtful.

His efforts are worthwhile.

Section 352

...

Chapter 291 Change the world

Zhang Yuhe stood at the top of Galaxy Peak, silently comprehending everything around him.

Suddenly he muttered to himself.

"Yu Fantian's spiritual energy is still too thin."

Compared to the fairy world.

Yu Fantian's spiritual energy not only lacked the slightest hint of ethereal fairy spirit.

And the richness is also very different.

This is also the mountain gate of Dao Sheng Sect, and it is almost the place with the richest spiritual energy in the entire Yu Fantian world.

despite this.

Zhang Yuhe still felt that the aura here was a bit lacking.

"Fortunately, I was prepared."

When you transform into the lower realm, you can bring things with you.

Otherwise.

The first volume of the Hunyuan Scripture will no longer appear on the ninth floor of the Scripture Building.

This is something Lu Yunfei brought down from the fairy world.

Zhang Yuhe finally came down.

Naturally, he would not come empty-handed.

Very well prepared.

There are many ways to improve the aura of a world.

He planned to use the simplest method.

That is the buried spirit stone.

And it's still a buried fairy spirit stone.

Just bury a large number of fairy stones deep into the earth's veins.

Yu Fantian's spiritual energy concentration will naturally increase slowly.

Think of this.

Zhang Yuhe looked towards the small lake in front of him.

I saw him wave his right hand.

A sword light streaked across the sky and struck directly on the lake.

The lake surface was split into two, and the water in the lake was instantly evaporated by the sword light.

A huge ravine suddenly appeared in front of the three people.

A large amount of magma spewed out of the ravine.

Zhang Yuhe stretched out his hand and pressed it.

The magma that was about to burst out was instantly pushed back to the depths of the earth's veins.

Li Qingyang and Wang Luoming, who were standing behind them, saw Zhang Yuhe suddenly take action.

They couldn't help but were shocked.

They thought to themselves.

Could it be that Patriarch Zhang has something wrong with him?

That's why he took action with anger and destroyed the lake in front of him.

The two quietly took a few steps back, fearing that Old Ancestor Zhang would be angry.

Seeing that the original lake had turned into a ravine, the two of them couldn't help but be speechless.

Ancestor Zhang is still fierce.

They all know it.

What came to the lower realm this time was just an incarnation of Patriarch Zhang.

Cultivation is only in the Mahayana realm.

However, Patriarch Zhang casually struck out a sword light, which had such a terrifying effect.

It's terrible.

Are all the great powers in the immortal world so powerful?

While the two of them were still thinking about it.

Zhang Yuhe waved his right hand.

Countless immortal spirit stones, like raindrops, quickly fell towards the ravine just created.

Seeing such a situation, Li Qingyang and Wang Luoming were simply stunned.

Feeling the aura emanating from the fairy spirit stone, they couldn't help but be intoxicated.

It's just that they're all weird.

Why did Patriarch Zhang fill these precious fairy stones into the earth veins?

Wouldn't it be better to use it directly for cultivation?

Zhang Yuhe did not pay attention to the thoughts of Li Qingyang and Wang Luoming.

A large number of fairy stones continued to fall.

After a while.

Zhang Yuhe just stopped.

He directly filled the ravine with one billion fairy spirit stones.

So many fairy stones.

Even if it were placed in the fairy world, it would still be a huge amount of money.

But Zhang Yuhe didn't think it mattered.

He had too many fairy stones to count.

When he was in Chaos Continent, he killed so many Chaos beasts.

Even immortal monks, he killed a lot.

He even killed two Great Immortal Lords.

A mere fairy stone is nothing.

not to mention.

In the Taixu Secret Realm, he obtained the inheritance of the entire Taixu Sect.

Among them, the number of immortal spirit stones is even more exaggerated.

There are really too many to use up.

There is simply no way to use it up.

So this time when I incarnated into the lower realm, I brought a large number of fairy stones with me.

Zhang Yuhe had already thought about it.

Use these fairy stones to build Yu Fantian and Lan Xing into a holy land for cultivating immortals.

So many fairy stones were buried in the earth's veins by him.

From now on, it will be difficult to imagine whether Yu Fantian's aura will be strong or not.

Fill the huge ravine with a large number of fairy stones.

Zhang Yuhe rose into the air and reached out to quickly draw nearby.

These fairy stones were buried here, so he naturally had to take some protective measures.

Otherwise.

What if there are unworthy descendants of Dao Sheng Sect in the future.

Dig out these immortal spirit stones.

Then isn't it all in vain?

Zhang Yuhe would naturally not let others take advantage of such a loophole.

Following his fingers, he kept carving in the void.

Formations one after another formed continuously.

The formation pattern slowly pressed down.

Below the gully, strong seals were formed.

After the formation pattern is carved.

Zhang Yuhe slapped it with one palm.

The vast ravine in front of us began to slowly close and turned into a huge pit.

Zhang Yuhe glanced towards the bottom of the pit.

I always feel that something is wrong.

He quickly pressed the magic formula.

Suddenly, a gap seemed to open above the nine heavens.

The rain fell in torrents.

Section 353

The rainwater was trapped in a very small area and quickly gathered towards the bottom of the pit.

After a while.

The rain stopped and the clouds disappeared.

At the foot of Galaxy Peak Mountain, a small lake was re-formed.

Immortal power.

Moving mountains and seas, calling for wind and rain, just taking it easy.

It's simply not too easy.

Seeing the situation in front of him, Zhang Yuhe nodded with satisfaction.

He turned back to Li Qingyang and said.

"I have buried some fairy spirit stones below. I hope that I can improve the intensity of Yu Fantian's spiritual energy in the future."

"You have to remind others not to take advantage of these fairy stones."

"I'm here, setting up the sealing circle."

"These sealing arrays have certain attack capabilities."

"If you die down there, don't blame me for not warning you."

Upon hearing this, Li Qingyang responded respectfully.

"Ancestor, please rest assured, I will designate this place as a forbidden area for the sect, and no one will come here in the future."

Only now did he understand Zhang Yuhe's purpose of doing this just now.

This Patriarch Zhang is really courageous.

He actually wanted to completely change the entire spiritual energy pattern of Yu Fantian.

Can it really be done?

It might work.

Thinking of how many fairy stones had been filled in the ravine just now.

Li Qingyang should feel that it shouldn't be a big problem.

So many fairy stones are accumulated under the earth veins.

It will inevitably slowly change Yu Fantian's spiritual energy pattern.

Such a generous act.

It is not too much to say that the world has changed.

However, Li Qingyang felt that it was still a bit of a pity.

Those fairy spirit stones just now are obviously not comparable to Yu Fantian's spirit stones.

These fairy stones exude the spirit of fairy.

Even from a distance, he couldn't help but feel intoxicated.

A breath of it made him feel soothed.

If it were used for cultivation, wouldn't it take off directly?

Such a precious good thing was just filled into the earth's veins.

What a pity.

It would be great to use it directly for practice.

Li Qingyang thinks.

A fairy stone like that would cost 1,800 yuan.

It is estimated that it can allow a Mahayana monk to directly break through a small realm.

If all these immortal spirit stones were put into the Tao Sheng Sect's treasure house.

So how many Mahayana monks will the Dao Sheng Sect cultivate?

Although he felt pity in his heart, Li Qingyang did not show it.

He knew Zhang Yuhe's purpose of doing this.

For a great power in the immortal world like Old Ancestor Zhang.

It is nothing to cultivate Mahayana monks in a short period of time.

Only by allowing Yu Fantian's immortal way to continue to prosper and develop.

That's the long-lasting way.

Li Qingyang thought in his heart.

Ancestor Zhang's purpose is obviously to allow Yu Fantian to continue to prosper.

That's why he didn't hesitate to bury a large number of precious fairy stones directly into the earth's veins

...

## Chapter 292 Tiger Roaring Mountain Picture

Zhang Yuhe stood at the top of Galaxy Peak and looked at the small lake in front of him.

He couldn't help but think about the long future.

Along with the fairy spirit stone under the lake, fairy spirit energy slowly emitted.

Yu Fantian's cultivation environment will definitely get better and better in the future.

Maybe hundreds of thousands more years.

Yu Fantian will appear, the Yuanying is not as good as a dog, and the scene of turning into gods will appear all over the ground.

Think of this.

Zhang Yuhe couldn't help but smile.

Continue near Galaxy Peak and make a circle.

He came to Wangxian Peak next door.

This used to be Li Tian's training ground.

After ascending from the sky, Wangxian Peak has been vacant.

Stroll around Wangxian Peak.

Zhang Yuhe seemed to have seen every detail of Li Tian's cultivation back then.

This senior brother of the Daosheng Sect was once extremely arrogant.

However, after being surpassed by him, he became more low-key and diligent.

Huangtian pays off his hard work.

Li Tian finally ascended to the fairy world.

And after ascension, he still practiced diligently and reached the Golden Immortal Realm early.

Zhang Yuhe also admired this senior brother very much.

One monk wanted to go further.

Talent is important, opportunity is even more important.

But having a firm heart to seek the truth is the most important thing.

And Li Tian is such a person.

Therefore, he has always been very optimistic about Li Tian.

When he was in the fairy world, he also treated Li Tianzhao as he should.

Hope one day.

This former senior brother can also hold up a sky in the immortal world.

Take some of the pressure off of him.

After walking around Wangxian Peak.

Zhang Yuhe turned around and said to Li Qingyang.

"Let's go back to the Patriarch's Hall to talk."

"Yes, ancestor."

The three of them quickly jumped into the air and soon returned to the Patriarch's Hall.

Zhang Yuhe sat at the head of the hall.

He took out a storage bracelet, handed it to Li Qingyang, and then said.

"There are some martial arts books here, as well as various cultivation resources suitable for use by true immortals."

"You can put these things into the sutra tower and treasure house later."

Li Qingyang reached out and took the storage bracelet.

With a sweep of consciousness.

When he saw the items in the storage bracelet, he was shocked.

I saw rows of jade slips piled up in the bracelet space.

In addition, there are countless resources for cultivating immortals.

Even though he had been the leader of Daosheng Sect for so many years, he had never seen so many good things.

The most important thing was.

In the corner of the storage bracelet.

He saw a large pile of fairy stones.

Section 354

Li Qingyang took a quick glance and found the number of these fairy stones.

There are at least hundreds of millions of them.

He was still regretting it just now.

It was a bit of a waste for Zhang Laozu to bury the fairy stones underground.

It would be great if some of them could be divided for them to practice.

Now seeing these fairy stones, Li Qingyang couldn't help but be ecstatic.

With these practice resources.

At least it can sustain the consumption of Daosheng Sect for a million years.

In the future, they don't have to worry about practice resources anymore.

Thinking of this.

Li Qingyang said to Zhang Yuhe excitedly.

"Thank you, Laozu."

Zhang Yuhe gestured with his hand, and then took out another scroll.

He said lightly.

"This is a space fairy weapon, which has its own space inside. You can grow spiritual medicine or practice in it."

"Your cultivation is not enough, so you can't sacrifice this space fairy weapon."

"So I made some changes to this fairy weapon to make it a semi-open space."

Zhang Yuhe explained while slowly unfolding the scroll.

A picture of a tiger roaring over the mountains was vividly displayed.

He pointed to the left eye of the tiger on the scroll and said.

"As long as you put your mind into the left eye of the tiger, you can enter the immortal artifact space."

"If you want to think of it, just recite it in your heart."

After saying this, Zhang Yuhe handed the scroll over and said.

"Try it."

Li Qingyang took the scroll and followed Zhang Yuhe's instructions.

Put your mind into the left eye of the tiger.

The whole person disappeared in the hall in an instant.

Only a picture of a tiger roaring over the mountains was left, slowly floating in the air.

Soon, Li Qingyang walked out of the scroll space.

Looking at the scroll in front of him.

He felt very incredible.

There is such a magical treasure in the world.

Just now after entering the scroll space, he saw a huge world.

With his late Mahayana consciousness, he couldn't see how big the space inside was.

The most important thing is.

This scroll space seemed to be a real world.

It could actually accommodate living things.

There were mountains and water inside, and even some spiritual herbs and fruits were planted.

After entering the scroll space, he not only did not feel any discomfort.

Instead, he felt very comfortable.

He didn't know if it was his illusion.

He always felt that the spiritual energy in the scroll space.

It seemed to have a little more worldly charm than Yu Fantian's spiritual energy.

In fact, Li Qingyang didn't know.

Any space fairy weapon contains fairy veins.

Otherwise.

How could those fairy medicines survive in it?

The spiritual energy emitted by the fairy veins is naturally not comparable to Yu Fantian.

Even in the fairy world.

Space fairy weapons are extremely precious.

Even among the Golden Immortal cultivators, few people have space fairy weapons in their hands.

Most of the space fairy weapons are in the hands of Taiyi Immortal Lord.

However, Zhang Yuhe has quite a few.

In the Taixu Secret Realm, he opened many caves of Taiyi Immortal Lord.

And he also obtained the secret collection of the entire Taixu Sect.

This made him have more than a dozen space immortal artifacts in his hands.

There was no use for him to have so many space immortal artifacts.

One or two of these things would be enough.

More would just be decorations.

So before going to the lower world, he planned.

Simply put a space immortal artifact in Yufantian and Blue Star.

First, it would allow the lower world cultivators to plant a large number of spiritual herbs in the space immortal artifact.

To provide for everyone's cultivation.

Second, the space immortal artifact contains immortal veins.

The effect of cultivating in it is much stronger than Yufantian.

Another point is.

For the lower world cultivators.

The space immortal artifact is an excellent refuge.

If you really encounter an irresistible crisis.

As long as you hide in the immortal artifact space, no one can do anything.

With the strength of the lower world cultivators, it is impossible to force open the immortal artifact space.

Of course.

This thing has a fatal weakness when placed in the lower realm.

That is, the cultivators in the lower realm cannot refine immortal artifacts.

Therefore, if the space immortal artifact is placed in the lower realm.

It will always be ownerless.

If it is not properly guarded.

If it is stolen by an unscrupulous person, it will really be impossible to find it back.

Thinking of this.

Zhang Yuhe said to Li Qingyang solemnly.

"You must protect this thing carefully, and treat it as the inheritance of the leader of the Daosheng Sect in the future."

"Yes, ancestor."

Li Qingyang obviously understood what Zhang Yuhe wanted to express.

An immortal artifact that cannot recognize its owner is easily targeted by people with unscrupulous intentions.

It must be carefully guarded.

If it is stolen, he will have no place to cry.

Li Qingyang plans.

In the future, a set of strict procedures will be specially set up to control the use of this space immortal artifact.

And this thing must never leave his sight.

Before he ascends to heaven, he will pass on this space artifact to the next sect leader.

...

## Chapter 293: Invincible Foundation

Looking at the scroll in his hand, Li Qingyang was extremely excited.

This is the real foundation.

Mastering this space fairy weapon is equivalent to mastering an extra world.

And this is a world with stronger spiritual energy quality and concentration than the outside world.

No matter how great the dangers of Daosheng Sect are in the future.

As long as this tiger roaring mountain map is still there, they will definitely rise again.

Just relying on this space fairy weapon.

## Section 355

It is absolutely possible to extend the life of Dao Sheng Sect in times of crisis.

not to mention.

Even in normal times.

This space fairy weapon can also provide them with huge help.

Whether it is planting spiritual grass or spiritual fruit.

It is better to arrange for elite disciples and elders to practice here.

Compared with the outside world, the Immortal Weapon Space has unparalleled advantages.

Looking at the scroll in his hand, Li Qingyang couldn't help yearning for the fairy world even more.

he thought.

Ancestor Zhang randomly took out an immortal weapon, and it had such a magical effect.

So how many good things are there in the fairy world?

"We must practice hard and strive to ascend to the fairy world as soon as possible."

Li Qingyang is currently in the late Mahayana stage, and is only one step away from the state of perfection.

But this last step is not that easy.

If you practice normally, it may take nearly ten thousand years.

Of course.

If all kinds of resources are sufficient, the cultivation speed can be even faster.

Zhang Yuhe stood up and slowly came to the front of the hall.

This is the Patriarch's Hall.

In front of the main hall, a sculpture of Lu Yunfei was erected.

Zhang Yuhe took three sticks of incense from the table.

Light it and offer incense.

Lu Yunfei has been missing for many years and no one knows where he is trapped.

After so many years, there has been no movement at all.

He even had some guesses.

Maybe Lu Yunfei encountered an incredible opportunity somewhere in the Chaos Continent.

Otherwise.

Lu Yunfei's soul lamp couldn't always be on.

He once asked Lian Zhengyu.

Lu Yunfei had been practicing for more than nine million years before he disappeared.

Millions of years have passed since his disappearance.

If you calculate it this way.

Lu Yunfei's lifespan has already exceeded tens of millions of years.

That is to say, the life span of the Golden Immortal monk has been exceeded.

Zhang Yuhe thought.

Lu Yunfei should have broken through to the Taiyi realm.

Otherwise.

He must be, he has already passed away.

"Master Patriarch, you'd better come back early."

"Otherwise, I'm afraid you will be embarrassed when I break through to Taiyi Immortal."

Zhang Yuhe complained silently in his heart.

After so many years, he had almost forgotten the existence of Lu Yunfei, the founder.

It was really hard for him to imagine.

How could a person be missing for such a long time?

Isn't it possible to get even the slightest bit of news out?

What the hell are you trapped in?

Think of this.

Zhang Yuhe was a little helpless.

He also wanted to help Lu Yunfei get out of trouble.

However, after so many years, he didn't even know where Lu Yunfei had gone.

Even if he wanted to help, there was no way he could do it.

For this patriarch.

Everyone in Dao Sheng Sect is very considerate.

As long as there is a chance.

They will ask people for information.

But so many years have passed.

They were stunned and didn't get any information.

There are countless secret realms in the Chaos Continent.

It's hard to tell where Lu Yunfei is trapped.

Of course.

To say that he is trapped in a secret realm is just everyone's guess.

Maybe Lu Yunfei is enjoying himself somewhere at this time.

Not only that.

By the way, he also broke through to the Taiyi realm.

"You're not staying in a holy land for cultivation and don't want to come back."

"This Patriarch seems a bit irresponsible."

Zhang Yuhe complained silently.

He looked up at Lu Yunfei's sculpture and slowly took two steps back.

Suddenly he waved his right hand.

Countless sword lights spurted out from around him.

He stretched out his hand a little, and the sword light slowly solidified.

Slowly turned into a small golden sword.

Zhang Yuhe took out a formation plate and reached out to quickly draw.

After a while.

The golden sword slowly landed in the center of the array.

Zhang Yuhe gently placed the array plate in the middle of the table in front of the sculpture.

Then he took out a jade slip, handed it to Li Qingyang and said.

"I compressed a magical power into the formation disk on the table."

"What is recorded in the jade slip is the method to activate this array disk."

"As long as the magical power on the array is activated, with the Dao Sheng Sect's mountain gate as the center, all living creatures within a million miles will be destroyed."

"However, the magical power on the formation disk can only be used once, and it will be gone after it is used up."

"Don't easily activate the magical powers on the formation disk until the family is in danger of being destroyed."

He used the power of the Supreme Law to compress the Nine Heavens Hunyuan Sword Formation onto this formation disk.

As long as the array disk is activated, the Nine Heavens Hunyuan Sword Formation on it will be released instantly.

At that time, the sword energy swept across the world.

There is absolutely no opponent in this Yu Mortian.

No matter how powerful a Mahayana monk is, he cannot block any sword light.

For the Yufan Tiandao Holy Sect.

This formation disk contains the Nine Heavens Hunyuan Sword Formation, which is a kind of invincible foundation.

Zhang Yuhe thought.

With the existence of this magical power, it should be able to help Dao Sheng Sect eliminate a crisis.

Li Qingyang reached out to take the jade slip and responded excitedly.

"Thank you, ancestor."

He didn't know how powerful the magical power contained in this formation disk was.

But from just now, Patriarch Zhang, the sword light emerged all over his body.

You can see it.

No one should be able to block this magical power.

At least in Yu Fantian, that's the case.

The sword light just now really scared him.

Li Qingyang felt.

Section 356

Those dense sword lights can cut him into ashes at any time.

Zhang Yuhe stood quietly in the center of the hall.

The affairs of the Daosheng Sect have come to an end for the time being.

He basically did everything he could do.

He left countless resources and trump cards for Dao Sheng Sect.

He even left behind a precious space artifact.

If one day, the Yufan Tiandao Holy Sect is still destroyed.

Then we can only say that it is destiny and there is nothing we can do about it.

He has done enough.

You can't let an avatar go and stay in the lower world as a nanny.

He's not that bored yet.

"After finishing the work, it's time to walk around."

Think of this.

Zhang Yuhe took out two jade boxes and said solemnly to Li Qingyang.

"You have to put these two jade boxes away carefully."

"After you ascend to the fairy world, give the things to me."

These two jade boxes contain the Sky-Shattering Immortal Crystal and the Time Immortal Crystal respectively.

This time, the one in the lower realm is just an incarnation.

He could only come down, but not go back.

Therefore, these two things can only be given to Yu Fantian's people to help him carry them.

Fortunately, the Yufan Tiandao Holy Sect is developing very well now.

There are twelve Mahayana monks.

Among them, the one with the highest cultivation level is Li Qingyang.

He is already in the late stage of Mahayana.

If nothing else happens.

It is estimated that in a few thousand years, Li Qingyang will be able to survive the great catastrophe and ascend to the fairy world.

Just help him take it up when the time comes.

Anyway, after ascending from Yu Fantian, he will only land in the territory of Tao Sheng Sect in the Immortal Realm.

He is not afraid of any accidents.

...

## Chapter 294 The Galaxy Patriarch's Monument of Creation Merit of Ping Mo

Li Qingyang respectfully reached out and took the jade box, and responded solemnly.

"Ancestor, please rest assured, my disciple will definitely bring the jade box safely to the immortal world."

Although he didn't know what was contained in these two jade boxes.

But he knows.

Old Ancestor Zhang handed the things over to him so solemnly.

Then he risked his life.

We must also bring the things inside safely to the fairy world.

In fact, Li Qingyang also had some speculations in his mind.

He felt that Patriarch Zhang had descended into the realm this time.

Maybe it's for the things in the jade box.

Otherwise.

How could a powerful person in the immortal world go to the lower world with so much effort?

It can't really be that you came back to remember the past, right?

To know.

It is not that easy to go from the immortal world to Yu Fantian.

Otherwise.

In the more than one million year history of Daosheng Sect.

Why has no one from the sect seniors in the upper realm ever come down?

Li Qingyang knows.

These two jade boxes must be very important to Patriarch Zhang.

If he could bring these two jade boxes safely to the immortal world.

It must be a great achievement.

Then his future life in the sect in the Immortal Realm will definitely be much better.

Thinking of this, Li Qingyang was extremely excited.

Just when Li Qingyang was still thinking about various things.

Zhang Yuhe slowly walked to the door of the hall, he smiled and said to the two of them.

"I'm leaving first. See you in the Galaxy Holy Land in three years."

After saying this, he rose into the sky and turned into a stream of light and disappeared into the distance.

Watching Zhang Yuhe go away.

Li Qingyang and Wang Luoming stood outside the hall and bowed respectfully.

After a while.

Li Qingyang turned around and said to Wang Luoming.

"Junior Brother Wang, we need to prepare well."

"Three years later, Patriarch Zhang will give a public sermon at the Galaxy Holy Land."

"After the news spreads, countless monks will definitely go there."

"We have to prepare well."

"Otherwise, if something goes wrong, we can't afford it."

"The sect master is right, you need to prepare well."

Wang Luoming nodded.

...

There is news that Patriarch Zhang of the Taoist Sect will give a public sermon at the Galaxy Holy Land in three years.

Like a strong wind, it spread across the entire continent in an instant.

Some low-level monks had never heard of Zhang Yuhe's name, so they asked those around them.

"Who is Patriarch Zhang? Among the twelve Mahayana Patriarchs of the Dao Sheng Sect, there is no Patriarch named Zhang."

"Zhou Cao, I usually ask you to read more books. If you don't read, you just go to the check list and fool around."

"Even Ancestor Zhang doesn't know."

"Do you know about the demon invasion two hundred thousand years ago?"

"I know, aren't they the demons from the Cangyun Realm? They are all dead now."

"I know you still ask."

"Don't you know who repelled the invading demons and took over the Cangyun Realm?"

"Zhou Cao, are you talking about the Patriarch Zhang who has already ascended to the Immortal Realm?"

"Otherwise, who do you think it is?"

"It's impossible. Didn't Old Ancestor Zhang ascend to the immortal world? How could he return to Yu Fantian?"

"I do not know then."

"But since the news has come from the Dao Sheng Sect, it must be true."

"That's right. Then I have to hurry over and listen to Patriarch Zhang's sermon. You must not miss this opportunity."

"If we go too late, I'm afraid we won't be able to find a place to stand in Nuo Da or even the Milky Way Holy Land."

"Yes, you should go there in advance."

"Let's go, shall we go together?"

"Go together."

...

Zhang Yuhe flew quickly all the way.

He passed through the cities of various prefectures and soon arrived at the Tianxing Sea.

Zhang Yuhe stood in the air.

Looking at a huge city in the distance, countless memories instantly rose from his mind.

This was originally a deserted island.

After the demons opened the passage, they built a welcoming city here.

At the beginning, Wu Yuemin, in order to find out the news.

Section 357

Near here, I accidentally fell into the siege of the demon clan.

In the end, in order to avoid being searched for his soul by the demons, Wu Yuemin directly and heroically exploded himself.

When Zhang Yuhe followed Feng Xiaotian and counterattacked here.

Only one piece of identity jade plaque belonging to Wu Yuemin was found.

Beyond that, nothing remains.

Zhang Yuhe looked into the distance.

The channel connecting the two worlds has not been closed.

It has been operating normally and has become a fixed channel.

In order to facilitate the exchanges between monks from the two worlds.

The Dao Sheng Sect built a huge city at each end of the passage.

They are Yufan Immortal City and Cangyun Immortal City.

Just pay a certain fee.

A monk can travel back and forth between the two realms of immortality at will.

"Go to Cangyun Realm and have a look."

Zhang Yuhe changed his appearance and flew towards the passage.

After paying a thousand spiritual stones.

He came to Cangyun Realm smoothly.

After leaving Cangyun City, he flew quickly.

After a while, he landed in a wilderness.

He silently felt the aura of Cangyun Realm.

Two hundred thousand years later.

At this time, there are no traces of demons in Cangyun Realm.

Back then, he set up a grand formation of yin and yang reversal of heaven and earth in the Demon God Palace.

Completely reverse the demonic energy in this world into a spiritual energy suitable for monks to survive.

After many years of management by Daoshengzong.

This world has long been built into a real world of immortal cultivation.

As for the demonic natives who originally lived in Cangyun Realm, they had long been wiped out by the monks.

Don't talk about living demons now.

Even finding a dead demon body can cause a small sensation.

Many people even forget.

This was once a demonic world.

Most of them believe that this is their own world.

As for the demons who once lived in the Cangyun Realm, if you don't read the classics.

Who will remember it?

That's how things are in the world.

The weak eat the strong.

If the demon clan had successfully occupied Yu Fantian.

Then there will definitely be no human race in Yu Fantian now.

Zhang Yuhe flew all the way and walked through various places in Cangyun Realm.

He wanted to trace the traces of his past battles.

Unfortunately, time is ruthless.

Two hundred thousand years have passed, and nothing has been left.

I only saw a sculpture of myself at the former site of the Demon Palace.

The Dao Sheng Sect rebuilt a Cangyun Palace at the old site of the Demon Palace.

Used to manage the entire Cangyun Realm.

In the square of Cangyun Palace, there stands a tall sculpture.

The appearance of the sculpture is exactly him.

It is not known when this sculpture was built.

Before he ascended anyway.

There is no such sculpture.

In front of the sculpture, there is also a tall merit monument.

It records his achievements in pacifying the demon clan and purifying the world.

Zhang Yuhe looked at the contents on the Merit Monument with great interest.

[In the year 1009527 of the Yufan Calendar, the demons invaded Yufantian. The ancestor of the Dao Sheng Sect, Galaxy, single-handedly defeated the demons. ]

[Yu Fan Calendar 1009728, the ancestor of the Galaxy counterattacked the Cangyun Realm, destroyed the Demon God Palace with thunder, and killed all the demons in this realm. ]

[In the year 1009986 of the Yu Fan Calendar, I felt that the demonic energy in the Cangyun Realm was dense, which was not conducive for the monks to stay. The ancestor of the Milky Way used his great magical power to arrange the yin and yang reversal formation of heaven and earth to completely purify the demonic energy of the Cangyun Realm into spiritual energy. ]

[From then on, the immortal path prospered and the demonic path disappeared. The common people were grateful for the contribution of the ancestors of the Galaxy in creating the world, so they set up this monument to commemorate their merits. ]

[The ancestor of the Galaxy is eternal. ]

...

Chapter 295 Breaking the space and returning to Blue Star

Looking at the merit monument in front of him, Zhang Yuhe couldn't help but smile.

It's just that the content on this merit monument is a bit exaggerated.

Putting down the demon clan is not something that he can do alone.

This was the result of gathering all the Yu Fantian monks at that time to work hard together.

Feng Xiaotian had already formed demon-suppressing armies in various places in advance before the demons invaded.

At its peak, the number of demon-suppressing armies was probably over one trillion.

It is precisely because of everyone's joint efforts.

Only then can they finally repel the demons and enter the Cangyun Realm.

Completely destroy the demon clan.

As it says on the merit monument.

Zhang Yuhe killed all the demons by himself.

This is really an exaggeration.

In a world as huge as Cangyun Realm, the number of demons living in it is more than one trillion?

How could he possibly kill them all by himself?

These demons are scattered all over the Cangyun Realm, and it is very difficult to find them, let alone kill them all.

This is simply not something that one person can do.

Even if he does nothing every day and keeps burying his head in hunting for demons to kill.

I'm afraid it will take tens of thousands of years.

He doesn't have the time.

But one thing is right.

Whether it was repelling the invasion of the demons, or later entering the Cangyun Realm and completely pacifying the demons.

Zhang Yuhe played a vital role.

Because he wiped out all the Mahayana demons and a large number of high-level demons.

Although the remaining demons are very large in number.

But there are no high-level demons sitting there.

Naturally, the monks couldn't stop Yu Fantian.

They are just lambs to be slaughtered.

The demon-suppressing army destroyed everything and fought all the way to Cangyun Realm.

Less than a thousand years.

The demons in Cangyun Realm were basically wiped out by the demon-suppressing army.

In this war with the demons.

Zhang Yuhe played a crucial role.

It is not an exaggeration to say that he turned things around with one person.

If Zhang Yuhe did not exist.

Maybe now Yu Fantian is already dominated by the demon clan.

How could there still be the current prosperity of immortality?

Although the content on the Merit Monument is a bit exaggerated, in essence, it is really correct.

For human monks.

It was indeed him who saved Yu Fantian.

Section 358

It was also him who captured and purified the Cangyun Realm.

"I don't know who erected this merit monument. It's a bit interesting."

Zhang Yuhe smiled to himself, and then slowly walked outside.

After wandering around Cangyun Realm for a few days, he returned to Yu Fantian along the passage.

Five days later, Yunzhong Mansion, Tianmang Mountain.

Zhang Yuhe stood above a wilderness and looked around.

This is the birth point where he entered Yu Fantian.

At that time, there was also a broken Taoist temple here.

It's just that so many years have passed.

The original broken Taoist temple has long disappeared in the long river of history.

No trace at all.

"Let's go here. I hope we can open a passage back to Blue Star here."

He was also a player once.

As long as you bring up the game panel, you can log off and return to Blue Star.

But now, of course, it doesn't work.

Not to mention that he is just an incarnation.

In fact, even if the real body comes, you can't use the game functions to return to Blue Star.

the reason is simple.

After he ascended to the fairy world, the game functions had left him.

There is no offline function for the game.

If he wants to return to Blue Star, he can only do it on his own.

Let's open a temporary passage back to Blue Star.

The reason why Zhang Yuhe came here.

That's because this was the birthplace where he entered Yu Fantian.

he thought to himself.

Perhaps it would be easier to locate the coordinates of Blue Star here.

For Zhang Yuhe now.

There is no problem at all in breaking through the space barrier between the two worlds.

With his current strength, especially with the blessing of the Law of Space.

The mere space barrier in the lower realm cannot block his attack.

The only trouble is.

How can he accurately locate the location of Blue Star.

If you go to the wrong place, you may even get lost in the turbulence of space.

Isn't that nonsense?

"Let's try it first."

Think of this.

Zhang Yuhe made a fist with his right hand and punched the void fiercely.

Boom...

There was a loud noise.

The void in front of him was directly smashed into a huge black hole.

Zhang Yuhe unfolded his consciousness and looked towards the other end of the black hole.

After a while.

A smile appeared on his face.

"It is indeed here."

Through his spiritual observation, he saw an endless ocean on the other side of the black hole.

the most important is.

He felt a familiar scent.

That was the aura from Blue Star, and he would definitely remember it right.

Thinking that two hundred thousand years have passed since he left Blue Star.

I don't know what Blue Star has become now.

So many years have passed.

Under the influence of the star formation in the sky, how much bigger did Blue Star become?

Zhang Yuhe was very curious about this.

After Wang Guofeng ascended to the fairy world.

I once told him.

At that time, Blue Star had grown more than ten times in size.

Now, more than 100,000 years have passed since Wang Guofeng ascended.

I don't know what Blue Star's situation is now.

When he was in Daosheng Sect before, he didn't ask Wang Luoming.

Because it's useless.

Now that he no longer has the identity of a player, he cannot communicate with players about Blue Star's information.

Even if he asked Wang Luoming, he would not get any results.

Zhang Yuhe has always felt strange about the origin of the game.

I don't know which big boss in the fairy world is busy, and he usually has nothing to do, so he came up with this thing.

The Blue Star people who have the qualifications to cultivate immortals will be brought to Yu Fantian as players.

With Zhang Yuhe's current eyesight, he could naturally see it.

The so-called game is nothing more than a certain formation.

But who in the end came up with this formation?

Then he doesn't know.

Zhang Yuhe was doubtful for a while.

The game "Yufantian" may have been acquired by Lu Yunfei.

Because Yu Fantian doesn't have many special features compared to other worlds of immortal cultivation.

In other worlds of cultivating immortals, there are no players.

Only Yu Fantian can attract players from Blue Star.

If I must say, there is something special about Yu Fantian.

That is, Lu Yunfei once came here.

"This game couldn't really have been created by Lu Yunfei, right?"

"Then he is really bored."

Zhang Yuhe thought about it while silently complaining in his heart.

Apart from Lu Yunfei, he really couldn't think of anyone who would have such leisure.

And with Lu Yunfei's strength, he can indeed do it.

Before his disappearance, Lu Yunfei was already the Golden Immortal Dzogchen.

Now after so many years, Lu Yunfei's soul lamp is still on.

This shows that he should have broken through to the Taiyi realm.

The strength of Immortal Lord Ether Yi only requires the right materials and the corresponding inheritance of formations.

It's really not that difficult to make a game that stirs up the netherworld.

Those are incredible things in the eyes of mortals.

In the eyes of Taiyi Immortal Lord, it is obviously unremarkable.

Let alone Taiyi Immortal Lord.

Even Zhang Yuhe now.

As long as he is willing to put in some effort, he can come up with a similar game.

Just see if it's necessary.

"Let's go, go back to Blue Star first."

Zhang Yuhe gathered his mood and stepped into the black hole in front of him.

After a while, he appeared on a vast sea.

Standing above the sea, the sea breeze blew slowly.

Zhang Yuhe closed his eyes slightly, feeling the familiar atmosphere around him.

He murmured to himself.

"I'm back again."

...

Section 359

Chapter 296 The Fusion of Technology and Cultivation

Zhang Yuhe stood above the sea, feeling the familiar atmosphere nearby.

He expanded his spiritual sense and looked around.

However, even if he fully expanded the power of his spiritual sense to the limit.

He still couldn't see the edge of the ocean.

This made him feel very shocked.

"No way, how big is Blue Star now?"

Before he ascended.

The equatorial circumference of Blue Star is about 40,000 kilometers, about 80,000 miles.

Maybe that means.

At that time, the straight-line distance of the surface of Blue Star was only 80,000 miles.

When he was in the God Transformation Realm.

As long as he fully expanded his spiritual sense, he could almost cover the entire Blue Star.

But now, he couldn't even see the edge of the ocean.

Even though he is now just an incarnation.

But the coverage range of his spiritual sense is at least more than a million miles.

Despite this.

He still couldn't see the edge of the ocean.

Doesn't that mean.

Now the area of Blue Star has at least increased to millions of miles.

Zhang Yuhe closed his eyes and silently felt the atmosphere around him.

He found that the concentration of spiritual energy on Blue Star was not much different from that of Yufantian.

Zhang Yuhe muttered to himself.

"Today's Blue Star has become a real world of cultivation."

He looked up at the sky.

It was late at night.

The sky was dotted with stars, shining with a faint light, and as for the moon in the sky.

It had long disappeared.

"Fuck, it won't be the Great Array of All Heavens Pulling Stars that sucked up the moon."

Thinking of this, Zhang Yuhe was a little speechless.

Looking at the stars in the sky.

Compared with 200,000 years ago.

There are obviously fewer stars in the sky today.

At this time.

Suddenly a meteor streaked across the sky and disappeared silently on the surface of Blue Star.

"So that's it."

Seeing this situation, Zhang Yuhe finally understood why Blue Star had become so big.

200,000 years have passed.

The power of the Great Array of All Heavens Pulling Stars has become stronger and stronger.

At the beginning.

This formation can only attract some dust from the universe.

But now it can pull the stars in the sky and integrate them into the land of Blue Star.

As a large number of stars merge into the land.

The area of Blue Star has been expanding rapidly.

Compared with the beginning.

Today's Blue Star has grown countless times.

No wonder he can't see the edge when he stands in the sea.

Maybe in another million years.

Maybe the entire universe will be integrated into a whole again.

At that time.

Blue Star can be said to be a real world of immortal cultivation.

And it will be more spectacular than the ordinary world of immortal cultivation.

Zhang Yuhe stood quietly above the sea, his thoughts flying far away.

I don't know what to think about.

Time passed slowly.

When the sky was bright.

He slowly opened his eyes and muttered to himself.

"Even if I don't interfere anymore, even if there is no game from now on, Blue Star will become a normal world of immortal cultivation in the future."

Thinking of this.

Zhang Yuhe felt very relieved.

"I'll add more fuel to the fire for you."

He waved his right hand.

A magnificent sword light flashed.

The sword light leaped across the sky and slashed the sea surface fiercely.

The calm sea surface instantly raised huge waves.

A bottomless gully suddenly appeared in front of him.

Zhang Yuhe waved his hand.

Countless fairy stones, like raindrops, quickly fell into the gully on the seabed.

This time he buried tens of billions of fairy stones in one breath.

In order to lay a good foundation for Blue Star.

Zhang Yuhe also fought hard.

Anyway, he had a lot of fairy stones.

There was no need to be stingy.

Just do it all at once.

After throwing the fairy stones into the gully on the seabed, he quickly reached out to carve the array pattern.

In order to keep these fairy stones deep in the earth veins for a long time.

He carved dozens of seals in succession.

Make sure no one will accidentally discover these huge wealth.

After a long while, Zhang Yuhe breathed a sigh of relief.

With these fairy stones buried deep in the earth veins, the concentration of spiritual energy on Blue Star.

It will definitely reach a new level.

Maybe it won't be long.

The players are not very interested in practicing in Yufantian again.

Because the practice environment of Blue Star will sooner or later surpass Yufantian.

In addition to the difference in the speed of time.

In the future, Yufantian will no longer have other advantages compared to Blue Star.

"Let's go."

After the seal was arranged.

Zhang Yuhe soared into the air, turned into a stream of light, and quickly disappeared on the sea.

While flying quickly, he fully expanded his spiritual sense to explore the surroundings.

Now the area of Blue Star is much larger than he imagined.

He flew for a long time in a row and did not see the edge of the continent.

Not only that.

Zhang Yuhe did not even see the figure of the Blue Star cultivator on the sea.

"This shouldn't happen? Don't the monks on Blue Star come out to move around?"

Suddenly, Zhang Yuhe waved his right hand.

A sword light slashed towards the sea.

Roar...

A huge sea monster was cut in two by the sword light just after it emerged from the sea.

Section 360

Seeing the sea monster in front of him.

Zhang Yuhe was shocked.

Because this is an eighth-level monster equivalent to the fusion realm.

He muttered to himself.

"Do the monsters on Blue Star evolve so fast?"

It was only a short while ago that he encountered an eighth-level monster.

No wonder he was not on the sea surface and could not see other Blue Star cultivators.

With the strength of Blue Star players, not many people can beat eighth-level monsters.

What's more.

The eighth level is not necessarily the limit of sea monsters.

Maybe there are ninth-level monsters in the depths of the sea.

The cultivators on Blue Star at present.

The one with the highest cultivation level is probably Wang Luoming, whom he met in Daosheng Sect.

The middle stage of Mahayana.

No wonder he didn't see other cultivators.

There are such fierce monsters in the sea.

How dare ordinary Blue Star cultivators go deep into the sea.

"Forget it, let's find the continent first."

Zhang Yuhe continued to fly forward.

"Hey, there seems to be someone over there."

After flying for a while, he finally saw the figure of the monk.

Zhang Yuhe restrained his breath and quietly approached.

I saw a huge warship flying rapidly on the sea.

A light blue light curtain completely enveloped the warship.

Not far from the warship.

A huge sea monster, raising huge waves, rushed towards the warship.

Some monks on the warship used magical powers, and some used magic weapons.

Continuously attacking the sea monster.

In addition.

The warship kept shooting out red light.

The red light was powerful and made small blood holes on the surface of the sea monster.

Zhang Yuhe stood in the distance, watching the battle in front of him.

He was stunned.

After careful observation, he confirmed that this warship was not a magic weapon or a Tongtian Lingbao.

It was a technological product.

Those red lights were obviously a technological light weapon, not a fairy-killing cannon.

Only the blue light curtain covering the warship can see the shadow of the immortal cultivator.

Because it is a formation.

In other words.

These Blue Star cultivators have perfectly integrated technology and immortal cultivation.

To create such a powerful warship.

"Something."

Looking at the situation in front of him, Zhang Yuhe couldn't help but smile.

...

Chapter 297 Current Situation of Blue Star

Looking at the warship in front of him, Zhang Yuhe couldn't help but sigh.

The civilization of the people of Blue Star is really incredible. They have perfectly integrated immortal cultivation and technology.

They have walked out a unique path of immortal cultivation.

Immortal cultivation with technology?

Zhang Yuhe stood quietly in the distance and watched.

He didn't mean to take action.

Although the cultivators on the warship had the highest cultivation level of only the middle stage of the Golden Core.

And the sea monster was a fourth-level monster, equivalent to the Nascent Soul Realm.

But with the help of the warship.

They were not at all inferior.

With Zhang Yuhe's eyesight, he could naturally see it.

These people are just ordinary cultivators, not peerless geniuses.

They are not descendants of big families.

It is incredible that ordinary cultivators can challenge across levels.

If he hadn't seen it with his own eyes.

Zhang Yuhe could hardly believe that this was true.

The power of technology should not be underestimated.

As the red light on the warship kept flashing.

The sea monster's body had been beaten to pieces and was no longer able to launch a counterattack against the warship.

It became a dead fish.

Zhang Yuhe watched quietly.

He left quietly until the sea monster died.

He flew quickly all the way and finally flew over the sea and came to the land.

A stream of light passed through the sky from time to time.

Some were cultivators flying with swords, and some were mortals, driving various technological products.

Shuttled forward in the air.

Looking at the scene in front of him, Zhang Yuhe couldn't help but smile with relief on his face.

Unlike other immortal cultivation worlds.

Mortals in other immortal cultivation worlds have almost no status.

Mortals are just the bottom of society.

Sometimes the aftermath of a fight between monks may lead to the death of a large number of mortals.

But on Blue Star, this never happens.

The mortals of Blue Star also have equal status.

At least in theory.

Because at the beginning, everyone was equal.

But later, some people activated their cultivation qualifications, entered Yufantian, and became a monk.

Despite this.

The moral concept of Blue Star has never collapsed.

This is a very rare thing.

Zhang Yuhe looked at the customs and customs of Blue Star while slowly flying forward.

After a while, he arrived in Youjiang City.

Standing above the city, watching people coming and going on the streets, everything was in order.

Suddenly an ancient community came into his sight.

Compared with those ultra-modern floating buildings.

This community seems out of place.

Because this is a concrete structure community 200,000 years ago.

Looking at the community in front of him, Zhang Yuhe's thoughts flew far away.

He thought of the time when the game was just started.

The scene when he entered the game with a Tang sword.

I thought about how after I went offline, I would lie quietly on the balcony to bask in the sun.

Now two hundred thousand years have passed.

This community still exists, and the house he once lived in is also well preserved.

He even saw some traces of formations in the buildings of these communities.

It is obvious.
