

## Top talent 361

Section 361

In order to protect this community.

The Blue Star monk had put in a lot of effort.

Otherwise.

This community with a concrete structure must have turned into ashes long ago.

Zhang Yuhe stood in mid-air and watched silently.

The community is still there, but the old friends are long gone.

Two hundred thousand passed.

If you don't become an immortal, it's all in vain.

The first batch of players who entered Yu Fantian back then had already passed away.

Oh, no.

There is one person alive.

That is Wang Guofeng.

Wang Guofeng successfully ascended to the immortal world and was now a golden immortal monk.

...

In the center of the Blue Star Continent, a super giant city stands on the top of the mountains.

This is Kunlun Fairy City.

Kunlun City Alliance Meeting Hall.

Wang Luoming sat quietly at the top.

Below him, there were dozens of fusion monks sitting.

At this time, everyone's faces showed excitement.

"Old Ancestor Zhang is back. I wonder if he will come to Blue Star?"

"Do I need to say this? I will definitely come to Blue Star."

"But Old Ancestor Zhang only came down as an incarnation, and there is no game system. How did he come to Blue Star?"

"You are really a frog in the well."

"Old Ancestor Zhang is an immortal. Are the immortal's methods beyond what you and I can imagine?"

"I believe that even if there is no game system, he can still find a way to return to Blue Star."

"Before, I saw the immortal appearance of Patriarch Zhang in Dao Sheng Sect. It was really fascinating."

"I hope it's okay and I can see him again."

"Don't worry, even if Patriarch Zhang doesn't come to Blue Star, we can still go to Galaxy Holy Land to listen to the sermon."

"Didn't the ancestor say it? He will preach at the Galaxy Holy Land in a month."

"When we go to the Galaxy Holy Land, we can naturally meet Patriarch Zhang again."

"That's right."

...

A group of people in the hall kept discussing in a low voice.

Wang Luoming sat quietly at the top.

After Zhang Yuhe left Dao Sheng Sect.

He immediately logged off and returned to Blue Star.

Not only that.

He also notified all the league's top leaders to discuss matters offline together.

Wang Luoming knows.

Zhang Yuhe will definitely return to Blue Star.

This is the place where he was born and raised, it would be strange not to come back.

As for how Zhang Yuhe came back.

This is what he should consider.

Ancestor Zhang is a real immortal.

Is this problem a problem that can stun others?

Looking at the main hall, everyone was discussing quietly.

Wang Luoming reached out and pressed it, then said with a smile.

"I believe you all already know about Patriarch Zhang's return."

"I have only one purpose in convening everyone for discussion this time."

"Then I hope you will restrain your own people."

"Don't cause anything to happen when Patriarch Zhang comes back."

"I know that you have all been cultivating for thousands of years and have many children in your family."

"There must be some dandies among them."

"In normal times, everyone turns a blind eye."

"As long as it doesn't go too far, I won't pursue it."

"But it's different now."

"Now that Old Ancestor Zhang is back, if someone bumps into Old Ancestor Zhang's gun."

"It's a trivial matter for you to die yourself, but don't implicate the rest of us."

"Yes, Alliance Leader, please rest assured."

Hearing Wang Luoming's words, everyone couldn't help but feel shocked.

Although the overall atmosphere of Blue Star is indeed not bad.

In normal times, everyone will also restrain their own family members not to do some rubbish things.

But they have been practicing for tens of thousands of years, and their families have a large population.

It is inevitable that there will be residue.

Even if they want to clean it up, they may not be able to do it.

In normal times, that would be okay.

If you find one, clean it up.

But not now.

In case someone bumps into Old Ancestor Zhang's gun.

If he, the old man, is disappointed with the current Blue Star.

Wouldn't that be a big problem?

They also hope that Patriarch Zhang can leave some immortal inheritance to Blue Star.

In case someone angers Old Ancestor Zhang.

As soon as the old man was unhappy, he walked away directly.

That's really nonsense.

Everyone was thinking secretly.

You must restrain your clansmen after you return.

For those guys who are usually very jumpy, they will be banned and locked up.

Don't let these guys affect Old Ancestor Zhang's mood.

...

Chapter 298 My ancestor is the leader of the alliance

Zhang Yuhe stopped and walked along the way and slowly arrived at Kunlun City.

At this time, Kunlun City has undergone earth-shaking changes compared to before.

The original Kunlun City was only five thousand miles in radius.

At that time, it was indeed a huge city.

After all, the area of the previous Blue Star was too small.

Even if the entire Blue Star was built into a city, it wouldn't be much bigger.

As the area of the Blue Star continues to expand and expand.

Under the auspices of the Cultivation Alliance.

The Blue Star monks have vigorously updated and transformed Kunlun Fairy City.

They centered on the original Kunlun City.

On the periphery, a huge city was rebuilt.

Today's Kunlun Fairy City is divided into inner and outer cities.

The inner city is still the same as before.

But the outer city was huge and expanded hundreds of times.

Looking at such a huge fairy city in front of him, Zhang Yuhe couldn't help but be a little surprised.

Now the area of Kunlun Fairy City is even larger than Yu Fantian's Zhongzhou City.

You know.

Section 362

Zhongzhou City is Yu Fantian's number one immortal city.

That is to say.

The current Kunlun Fairy City is larger than any other city in Yu Fantian.

"Blue Star people are still creative."

Zhang Yuhe was walking on the streets of Immortal City, feeling silently in his heart.

It's been a long journey.

He has a general understanding of today's Blue Star and its two hundred thousand years of experience.

According to calculations in recent years.

The area of Blue Star now exceeds 8 million miles in radius.

As for the population of the entire Blue Star, it has already exceeded one trillion.

Not only that.

The number of monks in Blue Star has also increased rapidly.

According to statistics from the Immortal Cultivation Alliance.

There are currently more than 60 billion monks on Blue Star.

Compared with before.

It can be said to be explosive growth.

Compared to Yu Fantian.

The proportion of monks in Blue Star is higher, and the overall cultivation level of the monks is much stronger.

After all, they have the blessing of game functions.

In terms of cultivation speed, compared with Yu Fantian's natives, they will definitely have a big advantage.

During these two hundred thousand years.

The development of Blue Star, as a whole.

It was pretty smooth sailing, and basically there was no big crisis.

But there was an accident.

About ten thousand years after Wang Guofeng ascended.

On the eastern ocean, two powerful monsters suddenly appeared.

According to the Blue Star Alliance.

They were two monster beasts at the peak of the ninth level, equivalent to the state of Mahayana perfection.

At that time, Wang Guofeng had already ascended and left.

The Immortal Cultivation Alliance only has one great commander, unable to compete with these two powerful monsters.

The monsters ravaged the land, killing them all the way to the Kunlun Fairy City.

at this critical moment.

The leader of the Immortal Cultivation Alliance at that time activated the formation arranged by Zhang Yuhe.

The formation was destroyed in all directions.

In an instant, the terrifying sword energy swept across the world.

The creatures within hundreds of thousands of miles were instantly cut into ashes by the boundless sword energy.

Those two powerful demonic beasts were completely powerless against the formation of annihilation from all directions.

It was cut into pieces directly.

However, a large number of Blue Star residents were also killed in this disaster.

Although the Immortal Cultivation Alliance evacuated the surrounding residents in advance.

However, the scope of the great formation of annihilation in all directions is really too large.

They came in no hurry and evacuated everyone.

Moreover, after this formation is activated, it will not distinguish between friends and foes.

As long as they are within the coverage of the formation, both humans and animals will be destroyed.

A large number of residents did not die from the rampage of the monsters, but died under the formation.

This made the then leader of the Immortal Cultivation Alliance feel very regretful.

But there was nothing he could do.

If the formation is not activated.

Not only Kunlun Fairy City may be difficult to preserve.

Even the entire Blue Star will always be shrouded in the ravages of monsters.

In order to destroy the monster, he had to do it as a last resort.

despite this.

The leader of the alliance at that time still couldn't pass this test in his own mind.

It didn't take long before he passed away in depression.

Zhang Yuhe strolled on the streets of Kunlun City.

He was not surprised by the crisis that had occurred in Blue Star.

As Blue Star continues to expand, the spiritual energy continues to recover.

Monsters everywhere will naturally grow rapidly.

Especially those monsters in the sea are an uncontrollable factor.

It is entirely possible for a few giant monsters to appear occasionally.

Otherwise.

At the beginning, Zhang Yuhe would not have prepared various countermeasures in Kunlun City.

Fortunately, with the help of the formation he left behind, the Blue Star monk survived that crisis.

Relatively speaking,

This crisis on Blue Star is nothing.

Yu Fantian also had two demon invasions.

As for the occasional monster crisis, I don't know how many times it has happened.

Overall, Blue Star is pretty good.

Bah...

Just as Zhang Yuhe was walking quietly on the street.

Suddenly there was a wave of fighting in the distance.

This surprised him greatly.

"Anyone still dares to take action in Kunlun Fairy City? This shouldn't be done, right?"

Whether in the Immortal Realm or Yu Fantian, it is almost a default rule that martial arts fighting is prohibited in the city.

Because there are many monks in the city and various buildings are densely distributed.

Once a monk takes action, it is easy to hurt innocent people.

Zhang Yuhe believes it.

Kunlun Fairy City will definitely follow this rule.

Otherwise, everything would have been in chaos long ago.

Then here comes the problem.

Where does such a bold guy come from?

Aren't you afraid of being suppressed by the Immortal Cultivation Alliance?

Zhang Yuhe looked into the distance.

I saw a suave young man in white, holding a magic sword.

Standing opposite him were a middle-aged monk and a beautiful young woman.

The cultivation level of the young master in white is not too high.

It's just the early stage of Golden Elixir.

The middle-aged monk was in the late stage of Jindan.

As for that beautiful young woman, she should have just started on the path of cultivation and was only in the Qi Refining realm.

The middle-aged monk protected the woman behind him and said with a gloomy expression.

"Wang Erhe, how dare you take action in the fairy city?"

The young man in white responded arrogantly.

"Haha, what am I afraid of? My ancestor is the leader of the alliance, and the entire Kunlun City belongs to my family."

"Let alone a fight, what can I do even if I kill you?"

"He Yadong, if you know what's good for you, hand over your daughter. This young master likes your daughter, which is the blessing of your family for eight lifetimes."

Hearing the young master in white being so arrogant, He Yadong was almost shaking with anger.

If he hadn't been in the fairy city, he would have killed this arrogant guy with a sword.

But he didn't dare.

This is Kunlun Fairy City, and Wang Erhe is the direct descendant of the leader of the Xiuxian Alliance.

Once Wang Erhe is killed, he and his daughter will not be able to escape.

Section 363

"Hmph, a guy like you is worthy of my daughter? Don't even think about it."

He Yadong snorted coldly.

He didn't dare to kill Wang Erhe, but he wasn't too afraid either.

In terms of strength, he could be several blocks away from Wang Erhe.

If I can't beat you to death, why can't I delay you for a while?

Wang Erhe relies on his family's backing.

Otherwise.

He can kill a piece of trash like this with one sword strike.

In this public place.

He wanted to see if the Immortal Cultivation Alliance would blatantly protect Wang Erhe.

When the law enforcement team arrives, there will naturally be an explanation for this matter.

Kunlun City belongs to all the Blue Star monks, not his Wang family.

Zhang Yuhe stood in the distance, looking at everything in front of him with interest.

He didn't interfere, but quietly became a member of the public.

He wanted to see it too.

How will the Immortal Cultivation Alliance handle this matter?

...

## Chapter 299 Blue Law Enforcement Team

As more and more people gathered to watch, the three people at the scene just stared at each other angrily.

He didn't do anything again.

Wang Erhe attacked several times in succession, but was easily blocked by He Yadong.

The strength gap between the two sides is obvious.

If not for fear of retaliation afterwards.

He Yadong had already beaten him to pieces.

A good man never suffers immediate losses.

Wang Erhe also understood.

But he had no intention of giving up.

Wang Erhe thought to himself.

If you can't defeat it yourself, you can still use other methods.

With their royal family status.

A casual cultivator like He Yadong who has no foundation is not at his mercy.

Looking at the beautiful woman in the distance, Wang Erhe couldn't help but reveal a look of longing on his face.

to be honest.

He was not thinking about this woman's beauty.

As the legitimate son of the Wang family, it didn't matter what kind of woman he wanted.

As long as you give money, you can find any beautiful woman.

But the woman in front of me is really special.

Otherwise, he would not directly grab it.

Wang Erhe learned about it by accident.

He Yadong's daughter, He Yueyue, activated the body of Taiyin after entering Yu Fantian.

This is a special constitution.

A woman with a Taiyin body not only cultivates herself extremely quickly.

And he is also an excellent double monk.

Wang Erhe looked forward to it.

Once he combines with He Yueyue, his cultivation speed will also be greatly improved.

Maybe in the future, like our ancestors, we will successfully ascend to the fairy world.

It is precisely because of this.

Even if Wang Erhe knew that taking action in Kunlun Fairy City would cause a lot of trouble.

But he couldn't care less.

no way.

Because He Yadong and his daughter usually never leave the city at all.

They stayed in Kunlun City during the day and entered Yu Fantian to practice at night.

This made Wang Erhe unable to find any other opportunities to make a move.

Although he had also used various means to coerce and induce He Yadong.

But that old guy doesn't do this at all.

I just saw He Yueyue walking alone in the city.

Wang Erhe couldn't help but take action, preparing to snatch the person away directly.

he thought.

When the rice was cooked, He Yadong couldn't help but disagree.

But what he didn't expect was.

He Yadong is nearby.

He was just about to take action when He Yadong stopped him.

it's good now.

I didn't eat the meat, and I got a lot of trouble.

Fortunately, he is the legitimate son of the Wang family.

Even if the law enforcement team comes, they can't do anything to him.

...

Zhang Yuhe stood in the distance, silently looking at the work in front of him.

Through the conversation between the two people and the words of the people around them.

He finally saw it.

This Wang Erhe should be Wang Guofeng, a descendant of who knows how many generations.

The current leader of the Immortal Cultivation Alliance is Wang Luoming.

People from the Wang family are still in charge.

With such a strong backing, no wonder Wang Erhe dares to be so arrogant.

See what is happening before your eyes.

Zhang Yuhe was not disappointed or angry.

The Wang family has developed in Blue Star for so many years, and there have been some unscrupulous descendants.

It's not a strange thing.

There are nine types of dragons, each of which is different.

With so many people in the Wang family, it is inevitable that there will be some garbage.

It's not surprising that there are people who violate laws and disciplines.

The key is to see how they handle it.

As long as you are not deliberately covering up, this is not a problem.

at this time.

Several streaks of light passed quickly from a distance.

A majestic shout came from a distance.

"Who dares to take action in Kunlun Fairy City?"

After a while.

Five monks in blue quickly fell down among the crowd.

The blue-clad law enforcement team of the Immortal Cultivation Alliance is all composed of Nascent Soul cultivators.

Wang Erhe couldn't help but be overjoyed when he saw the leader of the law enforcement team.

He quickly stepped forward and shouted respectfully.

"Third uncle."

This person is also a monk of the Wang family, named Wang Jingjiu.

The ancestor just passed down an order yesterday, asking them to strictly manage the family's children.

Don't let anything happen at this time.

After receiving the news that there was a fight in the city, he immediately led his people over.

However, after seeing Wang Erhe, Wang Jingjiu couldn't help but frown slightly.

Whatever you are afraid of will come to you.

Section 364

How could someone from the Wang family be involved?

Maybe it's Wang Erhe who is bullying others by taking advantage of his power.

If that's the case, it would be a big problem.

"It must be dealt with as soon as possible."

Thinking of this.

Wang Jingjiu glanced at the three people and asked sternly.

"Tell me, what happened, who started it first?"

He Yadong stepped forward and said respectfully.

"I am He Yadong, meet you, senior."

He pointed at Wang Erhe and said hatefully.

"This man coveted my daughter's beauty and kept harassing her."

"My daughter refused many times, but this man still pestered her."

"What's more hateful is that he wanted to rob her when I was not around just now."

"If I hadn't just come back, the consequences would be unimaginable."

After listening to He Yadong's narration, Wang Jingjiu's face was extremely gloomy.

Shame on you.

It's been 200,000 years since the Milky Way calendar, and it still happens that people rob women.

More importantly.

The person who did this is still from their Wang family.

Damn it.

If you want a woman, you can go to a brothel to find one.

We are all cultivators, can't we control our own flesh?

It's just stupid.

In broad daylight, in public, he can actually do such a thing.

This Wang Erhe, is his head probably stuck in the door?

"It's not that he is wronged, is it?"

Thinking of this.

Wang Jingjiu's expression eased a little, and then he asked Wang Erhe indifferently.

"You also tell me, what's going on."

Seeing Wang Jingjiu's expression, Wang Erhe was stunned.

This distant uncle of his family didn't seem to have the intention to protect him.

But he was still not too worried.

Could he punish his family members?

He still said with a grin.

"Uncle San, it's nothing serious."

"It's just that Yueyue and I are in love and want to become a double cultivation partner."

"But my father-in-law disagreed, and there was some friction between the two sides."

"We didn't really fight, and it didn't violate the rules of Kunlun Fairy City."

"You're talking nonsense."

"Who wants to become a double cultivation partner with you?"

Hearing Wang Erhe's nonsense, He Yueyue, who had been silent, couldn't help but curse in shame and anger.

Wang Jingjiu's face was cold.

This nephew is hopeless.

There were obvious signs of fighting at the scene, but he still said it was friction.

Does he think he is blind?

And in public, there are so many people watching.

Even if he quibbles, what's the use.

Originally, he thought that Wang Erhe might have been wronged.

Now it seems.

His distant nephew is just a brainless idiot.

He is completely hopeless.

The fighting in the city plus the rape of women will take at least a hundred years to suppress the Fairy Prison.

At this time, another four law enforcement officers came over from a distance.

They had just asked other monks at the scene and learned about the general process of the incident in detail.

The four law enforcement team members whispered to Wang Jingjiu about the process of the incident.

...

## Chapter 300 Disposal

After listening to the narration of the four law enforcement team members, Wang Jingjiu's face was extremely gloomy.

According to the law enforcement team members, they asked the people around.

Wang Erhe was not harassing He Ya's father and daughter for the first time, but had been entangled for a while.

Even if He Yadong kept refusing, Wang Erhe still stared at him.

Until today.

Wang Erhe didn't know if he had eaten a leopard's courage, but actually robbed people in the street in the city.

Such bad behavior is really hopeless.

Not to mention that it is a special period now, the ancestor has just issued an order to strictly rectify the family atmosphere.

Even in normal times.

If such a bad thing happens, it must be dealt with severely.

Otherwise.

How can it convince the public.

Thinking of this.

Wang Jingjiu turned around and said to Wang Erhe in a stern voice.

"At this point, why don't you tell the truth? Do you have to walk through the Heart-Searching Array?"

Hearing this, Wang Erhe finally panicked.

Can you just go to the Heart-Searching Array casually?

Once you go to the Heart-Searching Array, I'm afraid that even the things he did when he peed and got muddy when he was a child will be asked.

But he didn't understand.

Why did Third Uncle always keep harping on this little thing.

He just chopped a few swords casually, and didn't kill anyone, so there's no need to be so serious.

Thinking of this.

He immediately said anxiously.

"Third Uncle, things are not what you think. I really want to become a dual cultivation partner with Yueyue."

"You don't know, Yueyue's situation is a little special..."

"Enough."

Hearing Wang Erhe still chattering there, and the more he talked, the more outrageous it became.

Wang Jingjiu immediately interrupted him.

Not only that.

He also swung a palm and directly suppressed Wang Erhe in place, unable to move.

We can't let this idiot continue talking.

What if he says something outrageous again.

How can the Wang family save face?

What else is he saying, that woman is a little special?

Is her special a reason for you to rob her?

What kind of logic is this?

Can I rob her just because I see she is very rich?

No matter what Wang Erhe thought at the time.

It doesn't matter now.

The matter is obvious.

Wang Erhe attacked in the street and raped a woman. These two things have basically been determined.

As for his damn brain, how did it work at that time?

Section 365

So what does it matter?

Once something has been done, you have to bear the consequences.

Wang Jingjiu took action, suppressed Wang Erhe, and then said to everyone at the scene.

"Wang Erhe raped civilian girls and did so in the street, which seriously violated the Blue Star monk code."

"The law enforcement team is holding him now."

"In three days, the Alliance Law Enforcement Hall will hold a public trial at Galaxy Square. Everyone is welcome to attend."

"If Wang Erhe is found to have committed other illegal acts, everyone is welcome to testify on the spot."

"good."

There was thunderous applause.

Blue Star has been able to develop steadily until now without any major troubles.

It depends on fairness and justice.

There are not bad people.

But as long as there are bad people, they will be punished accordingly.

Thus.

Naturally, everyone will unite as one.

After the scene calmed down, Wang Jingjiu turned around and said to He Yadong and his daughter.

"There will be a public trial in three days. I hope you can take the time to come."

"Please rest assured, the Immortal Cultivation Alliance will never protect any bad person."

"Even if he is the legitimate son of the Wang family, as long as he breaks the rules, he will still be punished."

"Thank you, senior, for upholding justice."

He Yadong bowed respectfully to Wang Jingjiu.

Although he also knows that the Immortal Cultivation Alliance usually acts very fairly.

But Wang Erhe is not an ordinary person after all.

His identity as the legitimate son of the Wang family made him a little worried.

Now it seems that he was worried too much.

Just hold a public trial meeting.

Everything is done under the sun, so there is no need to worry about anyone doing anything wrong.

Even if Wang Erhe survives this time, he will still have to shed a layer of skin.

It was no longer possible to harass his precious daughter.

The law enforcement team escorted Wang Erhe away, and the onlookers at the scene also began to disperse.

He Yadong took He Yueyue and walked quickly towards his residence in the city.

Zhang Yuhe stood in the distance, thoughtful in his heart.

The Blue Star Immortal Cultivation Alliance has a fair and just operating mechanism.

This operating mechanism is said to have been used by Wang Guofeng before he ascended.

It was gradually formed after convening elders from all walks of life and after a long period of argumentation and research.

Its purpose is to protect the weak and allow Blue Star to have a relatively fair and just environment.

As long as someone breaks the rules, they must be punished accordingly.

In order to achieve the purpose of fairness and justice.

He also specially established a public trial system.

The public trial will be held at Galaxy Square, and everyone can attend it.

Everything is done under the sun, so there is no need to worry about someone covering up and doing evil things.

Looking at the handling results of the law enforcement team, Zhang Yuhe couldn't help but smile with relief on his face.

It has to be said that Wang Guofeng is indeed quite capable when it comes to management affairs.

Even though it has been more than 100,000 years since he ascended.

But the systems and rules he left behind are still functioning normally today.

The people are gone, but the policy continues.

This is indeed a great skill.

It seems that in the future, Wang Guofeng will have to do more things in the Taoist Sect of the Immortal Realm.

Make the best use of things and make the best use of people's talents.

Such talent cannot be wasted.

Zhang Yuhe stood there and glanced at the direction in which He Yadong and his daughter were leaving.

Then he followed slowly.

With his eyesight, he can naturally see it.

This He Yueyue is indeed a bit special.

The Taiyin Holy Body is very unusual.

I don't know why the father and daughter were so careless.

He actually let others know that He Yueyue was pregnant with the Taiyin Holy Body.

After he activated the Hunyuan Dao Body, he had been practicing hard.

Never told anyone.

Even now, others only know that his talent is extraordinary.

As for what kind of defying method it is, no one knows.

Because Zhang Yuhe has never told anyone about it.

He Yueyue's Taiyin Holy Body actually let Wang Erhe know about it.

This is obviously a big trouble.

The Immortal Cultivation Alliance can handle one Wang Erhe, but there is no guarantee that there won't be others.

Let's have another idea for He Yueyue.

In the eyes of others, the Taiyin Holy Body has not grown up.

That is an excellent cauldron.

There will definitely be other people who will try to take advantage of her in the future.

"Hey, let me help you."

He Yadong took He Yueyue back to a small house.

With his cultivation in the late stage of Jindan.

In Kunlun Fairy City, naturally everything will not be lost.

He still has some industry.

This house is He Yadong's residence in Immortal City.

After returning to the house.

He Yadong sighed and said.

"Fortunately, this time the law enforcement team was able to report it to the public, otherwise we would have been in a lot of trouble."

"It's all my fault that I was lax in my words and leaked your special physique."

"That's why it caused so much trouble."

"After you go offline from now on, try to stay in the house to practice and don't go out again."

"Yes, father."

He Yueyue was also a little scared.

She shuddered at the thought of the consequences if she was kidnapped by Wang Erhe.

...

## Chapter 301 He Yueyue

Zhang Yuhe came outside a house and walked in slowly.

Although the private residences in Kunlun Fairy City are protected by corresponding formations.

But these crude formations naturally couldn't stop him.

He Yadong was carefully instructing He Yueyue.

Suddenly he found that a figure appeared behind him without knowing when.

This surprised him.

He Yadong pulled He Yueyue over, and while being cautious, he looked at the person.

Zhang Yuhe smiled at the father and daughter, and he didn't say anything.

He Yadong looked at Zhang Yuhe, and the more he looked at him, the more familiar he felt, but he just couldn't remember where he had seen him.

Suddenly he seemed to remember something.

In the Galaxy Plaza, there stood a tall sculpture.

This person looked exactly like the sculpture.

Could this person be Zhang Laozu?

Section 366

Recently, the news of Zhang Laozu's return has been spreading like wildfire.

He Yadong naturally knew about it.

But he never expected to see Zhang Laozu himself in his own home.

Thinking of this.

He Yadong asked with a trembling voice.

"Are you Zhang Laozu?"

Zhang Yuhe smiled and nodded.

Seeing Zhang Yuhe's expression.

He Yadong immediately pulled He Yueyue beside him and said hurriedly.

"Yueyue, come and pay respect to the ancestor together."

He Yueyue was stunned, and then the two shouted respectfully in unison.

"Greetings to the ancestor."

Zhang Yuhe gestured with his hand, and then said with a smile.

"I saw what happened just now, you are too careless."

"How could such an important matter as the Taiyin Holy Body be known to others?"

Hearing this, He Yadong couldn't help but feel embarrassed.

When He Yueyue activated the Taiyin Holy Body, he was a little too proud.

As a result, when he was bragging to his friends, he accidentally let it slip.

Afterwards, he also knew the importance of this matter.

He kept telling his friend to keep it a secret and not to leak it out.

However, his friend was obviously not a reliable person.

Not long after, Wang Erhe came to the door.

As for his friend, he had disappeared long ago.

I don't know if it was because he did something wrong, so he hid and dared not see anyone.

Or was he silenced by Wang Erhe.

Anyway, he never found that friend again.

After listening to He Yadong's narration, Zhang Yuhe understood roughly.

He can only blame himself for this matter.

First, he was not careful about his mouth and said nonsense everywhere, and second, he made friends carelessly.

Fortunately, they live in Blue Star.

If it were other immortal cultivation worlds, He Yueyue at this time.

I guess those old monsters would have been captured by those old monsters and used as a cauldron.

Blue Star has a stable system.

And they can also enter Yufantian to practice.

In Yufantian, everyone does not have to worry about safety issues.

Anyway, you can be resurrected after death.

If she is forced into a corner, she can choose to commit suicide and go offline.

I can only say that He Yueyue's reincarnation position is good.

It is her destiny to have the Taiyin Holy Body, and it is her blessing to be born on Blue Star.

Zhang Yuhe glanced at He Yueyue, then stretched out his hand and pointed.

A faint halo slowly rose from He Yueyue's body.

Seeing this situation, Zhang Yuhe nodded gently.

"Yes, it is indeed the Taiyin Holy Body."

To be honest.

He has seen many spiritual bodies, but he has never seen many holy bodies.

The only one he has seen is Long Aotian.

I heard that the boy has the Cangtian Holy Body.

But now it is all in the past.

Long Aotian was suppressed by him in the Taixu Secret Realm to wait for death.

It is impossible to come out alive again.

The talent of the holy body is far from comparable to the spiritual body.

Any holy body cultivator not only has a very fast cultivation speed, but also usually has a strong combat power.

As long as they don't die midway, Saint Body cultivators can generally reach the Taiyi realm.

If the opportunity is not bad, it is not impossible to even be promoted to Daluo Immortal.

Zhang Yuhe came here specifically to confirm He Yueyue's innate physique.

Since it is Taiyin Saint Body, he naturally has to help her well.

Maybe in another 10,000 or 20,000 years, He Yueyue will be able to ascend to the fairyland.

This is also for Daosheng Sect to reserve talents in advance.

Thinking of this.

Zhang Yuhe flipped his right hand.

A golden jade slip appeared in his hand.

He stretched out his hand and flicked it, and the jade slip slowly flew towards He Yueyue.

Zhang Yuhe said with a smile.

"Here is a record of a skill called Taiyin Immortal Scripture. This skill was created by a senior in the fairyland."

"That senior is also Taiyin Saint Body, this skill should be suitable for you to practice."

Zhang Yuhe gained a lot of skills in the Taixu Secret Realm.

There are all kinds of types.

Although Taiyin Saint Body is special.

But the fairy world is vast and boundless, and the inheritance is long.

It is normal to have a technique suitable for the Taiyin Saint Body to practice.

He Yueyue reached out to take the jade slip, and she shouted excitedly.

"Thank you, ancestor."

This is a technique from the fairy world, and its preciousness can be imagined.

At present, there is no fairy world technique in the entire Blue Star.

It is rumored that the Yufantian Daosheng Sect does have a technique passed down from the fairy world.

But such precious things are not their turn.

He Yueyue has just entered Yufantian through the game system and it has not been long.

Daosheng Sect will open its mountain gate to recruit disciples every hundred years.

She has no chance to join Daosheng Sect for the time being.

The technique she is practicing now was obtained by He Yadong from somewhere else.

It is okay to practice for the time being.

However, as her cultivation level improves, these ordinary techniques are obviously not enough.

Zhang Yuhe smiled and nodded, then stretched out his hand to quickly carve.

After a while,

Several faint runes slowly merged into He Yueyue's body.

Seeing this.

He Yadong next to him was stunned.

He didn't understand what these runes were.

The same was true for He Yueyue.

She just felt that three breaths were sealed into her Dantian Qi Sea.

But when she checked again, she couldn't find any traces.

Zhang Yuhe stood up and said with a smile.

"I just put three seals in your body."

"Before you ascend to the immortal world, these seals can keep you alive three times."

"Practice well, I believe one day you will become an ascended monk."

After saying this, Zhang Yuhe left.

The father and daughter in the house looked at each other.

He Yadong was extremely excited.

He couldn't help but sigh.

His daughter is really lucky.

Section 367

It actually attracted the attention of Zhang Laozu.

Who is Zhang Laozu?

He is an existence that swept across the two worlds.

Although it has been a long time since the beginning of history.

But by looking at the classics, one can still imagine the style of Zhang Laozu back then.

Now Zhang Laozu personally passed down the immortal scriptures, and it seems that he also left some life-saving measures.

Such a heaven-defying opportunity, they dare not even dream of it.

Seeing Zhang Yuhe go away.

He Yadong took He Yueyue and bowed deeply in the direction where Zhang Yuhe left.

After a long time.

He Yadong turned around and said to He Yueyue.

"Yueyue, you must practice well in the future, and you must not live up to Zhang Laozu's expectations of you."

"Yes, father."

He Yueyue's young face showed a firm expression.

She just had a preliminary contact with the immortal way.

But she had heard of Zhang Laozu's reputation since she was a child.

He Yueyue looked at the direction where Zhang Yuhe left.

Thinking silently in her heart.

"Please rest assured, Ancestor Zhang. I will definitely work hard to cultivate."

She even looked forward to it.

After she ascended, she would see Zhang Yuhe again in the fairyland.

...

## Chapter 302: Orderly inheritance

The Immortal Cultivation Alliance issued a notice on the Skynet.

Wang Erhe committed a crime in the street and tried to rob a woman, but was arrested by the law enforcement team.

A public trial will be held in Galaxy Square in three days. Everyone is welcome to attend.

A meeting room somewhere in the Alliance Hall.

Wang Luoming sat quietly at the top position, tapping the table lightly with his fingers.

Below him, Wang Jingjiu was reporting the results of the investigation.

"Ancestor, according to our detailed investigation, Wang Erhe coveted He Yueyue's special physique."

"So he kept pestering her. After the other party refused many times, he wanted to rob her."

"That's why he did it in the street."

"This is indeed true, and there is no one else who instigated or guided him."

At this time, Wang Luoming was extremely depressed.

Yesterday, he specially convened a meeting to ask the high-level monks of the alliance to properly restrain the members of each family.

Don't make trouble at this time.

If he is bumped into by Zhang Laozu, it will disappoint him.

But what Wang Luoming didn't expect was.

Other people's children are honest and quiet.

They didn't make any noise.

On the contrary, their Wang family has a fool named Wang Erhe.

He can actually do such a stupid thing as robbing people in the street.

He was speechless.

It's embarrassing.

He just wanted to hide and practice in seclusion, and didn't want to see anyone at all.

He really lost face.

Seeing Wang Luoming silent.

Wang Jingjiu in the audience said in a low voice.

"Grandmaster, this is not a big deal. We just need to handle it impartially."

"Grandmaster Zhang may not be the case. He has already arrived at Blue Star."

"Even if Grandmaster Zhang is on Blue Star right now, Blue Star is so big that he has little chance of encountering it."

"Besides, as long as we handle it impartially, even if Grandmaster Zhang really encounters us, he will praise us for being fair and will not blame us."

Hearing this, Wang Luoming's eyes lit up.

Yes.

As long as we handle things fairly, Grandmaster Zhang will not blame us.

There are bad apples everywhere.

This is not a strange thing.

It's just that their Wang family is unlucky and Wang Erhe, a fool, happened to appear.

Now they are all needed. Just handle it impartially.

Why should he bother about it.

Thinking of this.

Wang Luoming's originally serious face smiled slightly.

He smiled and praised Wang Jingjiu.

"You're right, I thought too much."

"Just do as you said, we will just pretend that there is no such thing as Zhang Laozu's return."

"Everything will be handled according to the normal rules of the Law Enforcement Hall."

"We can neither be partial nor punish excessively, just treat Wang Erhe as an ordinary cultivator."

"Also, notify the Law Enforcement Hall that I will go to the trial on the day of the public trial."

"Yes, Laozu."

Wang Jingjiu responded respectfully.

This is not a big deal, there is no need to be nervous.

Just handle it normally.

Who is Zhang Laozu?

If they deliberately manipulated it, would he not be able to see it?

It will only make people more disgusted.

After figuring this out, Wang Luoming felt very comfortable.

He asked curiously.

"What kind of special physique does He Yueyue have that makes Wang Erhe so irrational and do such an outrageous thing."

Wang Jingjiu responded solemnly.

"I heard it was the Taiyin Holy Body."

"Are you sure? Could it be a mistake?"

"It should be correct."

Hearing Wang Jingjiu's answer, Wang Luoming was greatly surprised.

Originally, he thought.

The woman who could make Wang Erhe obsessed with her must have some special charming physique.

Unexpectedly, it was the Taiyin Holy Body, which was a bit difficult to deal with.

In this case, they had to find a way to protect He Yueyue.

Otherwise.

It was hard to guarantee that there would be no other people who would come to her again.

As for Wang Luohe himself, he didn't have any idea.

He could cultivate to the Mahayana realm.

I have always understood a truth.

If you want to go far on the immortal path, you must take the right path.

Relying on crooked ways and taking shortcuts will not lead to far.

However, he understood this truth, but most cultivators may not think so.

Thinking of this.

Wang Luoming stood up and said to Wang Jingjiu solemnly.

"You ask the Law Enforcement Hall to arrange for a special post to be set up near He Yueyue's house in the future to protect the safety of her family."

"Until she has the ability to protect herself."

Section 368

"Yes, ancestor."

Wang Jingjiu responded, then turned and left the hall.

This is indeed necessary.

Otherwise.

Maybe one day, He Yueyue will be disappeared.

If that's the case.

Where does this put the face of the Immortal Cultivation Alliance?

...

Three days later.

A large number of onlookers gathered around Galaxy Square.

Everyone was very interested in the public trial meeting held by the Immortal Cultivation Alliance.

I have to say that Blue Star's security is indeed very good.

Unlike other worlds of immortality, where strength is the most important thing.

There is almost no room for the weak to survive.

But Blue Star is different.

It can be said that Blue Star spares no effort in protecting ordinary people.

Anyone who bullies the weak in Blue Star will be punished.

Even the Mahayana ancestors are no exception.

After 200,000 years of inheritance, this concept has completely penetrated into the hearts of Blue Star people.

Therefore, there are only a few public trials like this throughout the year.

Because very few people would violate the laws set by the Immortal Cultivation Alliance.

Even if everyone wants to watch the excitement, they don't have the chance.

In the center of the square, there stands a tall immortal sculpture.

The immortal carries a long sword on his back and is about to fly.

On the left side of the square, a nine-story tower stands.

Nine Heavens Gathering Spirit Tower.

Legend has it that it is with this pagoda that Blue Star can gradually generate spiritual veins.

And eventually grew into a ninth-grade spiritual vein.

On the right side of the square, there are two tall buildings.

They are the library and the scripture building respectively.

The library contains various books on common knowledge about cultivating immortals collected by Blue Star people.

The library is open to everyone.

Even mortals without spiritual roots can enter the library and view the classics inside.

Even to take care of mortals without spiritual roots.

The Immortal Cultivation Alliance specially printed some of the contents on the jade slips into books for the convenience of mortals.

Because mortals without spiritual consciousness cannot examine the jade slips.

The purpose of the Immortal Cultivation Alliance is to create an atmosphere for all people to cultivate immortality in Blue Star.

It doesn't matter if you don't have spiritual roots. You can learn some common sense about cultivating immortals first.

What if the offspring born in the future can activate the qualifications for cultivating immortals.

Wouldn't this be useful?

As for the scripture building next to it, it contains a collection of various books on exercises and magical powers.

Compared with the library, the requirements for entering the scripture building are much stricter.

Only according to each person's cultivation and contribution can he enter the Sutra Building to learn the corresponding exercises and magical powers.

Orderly inheritance is the foundation of Blue Star.

On the high platform of the square.

Several ordinary tables are lined up.

Lu Hao, the head of the Law Enforcement Palace, personally took charge of the trial of Wang Erhe's murder on the street and the robbery of civilian girls.

The leader of the alliance, Wang Luohe, sat in the position below Lu Hao.

In terms of status, he is the leader of the alliance.

In terms of cultivation, he is in the Mahayana realm, while Lu Hao is only in the middle stage of integration.

But in this public trial, Lu Hao, the head of the Law Enforcement Palace, was the protagonist.

Wang Luoming was just a spectator.

So this time, he could only sit at the bottom.

Everyone has long been accustomed to such an arrangement.

Zhang Yuhe restrained his aura and hid among the crowd of people watching.

He watched everything in front of him with interest.

Blue Star's institutional inheritance was much better than he imagined.

We are not afraid of social chaos, but we are afraid of lack of order.

obviously.

in maintaining social order.

Blue Star wants to get rid of all the immortal world, eight hundred streets.

With such a social order.

in the near future.

Blue Star will inevitably develop a unique civilization of cultivating immortals.

...

### Chapter 303 Public Trial Conference

After the trial and spectator seats were in place, Wang Erhe was escorted up.

At this time, Wang Erhe no longer looked as arrogant as before.

Instead, he kept his head hanging down the whole time.

Now he understands how big a mistake he made.

According to the laws of the Immortal Cultivation Alliance.

Fighting in Kunlun Fairy City is a serious crime.

Regardless of whether it is justified or not, whoever strikes first will definitely be punished.

more importantly.

Wang Erhe's motive for taking action was impure.

If he is being bullied or takes action because of personal grudges.

It is still possible that he will be given a lighter sentence.

But this is obviously not the case in his case.

Wang Erhe raped women in the street, and also used magic weapons to attack others in Kunlun Fairy City.

This is a taboo of the Blue Star Alliance.

The punishment will never be light.

Fortunately, no one was killed during the fight, and the death penalty was not a crime.

But in the Immortal Prison located under Kunlun City, he was afraid that he would have to go in and live there for a while.

And the time is not short yet.

Lu Hao, the master of the Law Enforcement Hall, was sitting in the presiding position. He glanced at Wang Erhe and then asked solemnly.

"Wang Erhe, three days ago, in Kunlun Fairy City, you robbed civilian girls on the street and actively attacked others."

"You can plead guilty to this matter."

Wang Erhe nodded silently.

It has reached the point of a public trial, so what else can he say?

Originally, he thought that his family would help him suppress the matter.

Wang Erhe thought.

Even for the sake of Lao Wang's family's face, the family should keep him alive.

The Wang family has reason to do this.

However, the facts showed that he was overthinking it.

The family has no intention of protecting him.

Didn't you see that the ancestor of the family, who is the leader of the alliance, was sitting there quietly listening?

If the Wang family was willing to protect him, it wouldn't have to go to the point of public trial.

Now that it has been put on the public trial meeting, everything is too late.

Honestly confessing the guilt can save some trouble.

Section 369

Otherwise.

When the Law Enforcement Hall activates the Heart-Questioning Formation, he will only be more embarrassed.

not to mention.

On the day of the incident, there were still so many onlookers at the scene.

Even if he wanted to quibble, it would be useless.

Hearing Wang Erhe's heartfelt confession, Lu Hao nodded gently.

Just confessing would save him some trouble.

Lu Hao stood up and said loudly to everyone in the square.

"According to common practice, at public trials, the spectators have the right to testify on the spot."

"If Wang Erhe has committed other crimes, everyone is welcome to testify on the spot."

"If there are no new crimes, I will pronounce the sentence in a quarter of an hour."

"If anyone has objections to the verdict, they can raise it on the spot."

As soon as Lu Hao finished speaking, someone in the square immediately came up with new evidence.

"My Lord, Wang Erhe once ate in a villain's shop without paying for it."

"Sir, Wang Erhe once broke a tea set in a villain's teahouse and did not pay compensation."

"grown ups....."

From time to time, people at the scene came up with new evidence.

All right.

These are all trivial matters and do not rise to the level of punishment.

It's nothing more than losing money.

At most, the compensation is doubled.

despite this.

Lu Hao still asked people to write down all these new accusations.

When I heard people constantly making new accusations against him.

Wang Erhe's face turned green.

He didn't even remember that he had done so many bad things?

And what does this mean?

I broke a tea set. Is this going to be brought to the public trial?

This is too bullying.

Why didn't he remember this at all?

What the hell.

Don't be so cruel to add insult to injury, right?

He felt that he was even more unjust than Dou E.

despite this.

Wang Erhe did not refute.

They have all fallen to this point, so it is better to say less.

Too many words are wrong.

As for these trivial things.

Then let him be.

Isn't it just losing money?

He can still afford to pay.

After a while.

No one was ever at the scene again, after new charges were filed.

Lu Hao took the assistant's record book and looked at the dozens of various crimes on it.

He couldn't help but feel a little dizzy.

There's a lot of shit going on.

However, these crimes have not yet reached the level of punishment.

despite this.

Lu Hao still picked up the manual and questioned Wang Erhe one by one.

If Wang Erhe has any objections to the accusations.

Then the Law Enforcement Palace will launch a new investigation.

Until we find out.

But Wang Erhe is very single.

He didn't dwell on these trivial matters.

Although he has long forgotten most of these things.

It may be that the people at the scene were making random remarks.

Whether he ever did any of these things is difficult to say.

despite this.

Wang Erhe still admitted all these accusations.

Now he just wants to end this damn public trial as soon as possible.

When it's time to go to immortal prison, hurry up and pronounce the sentence.

He didn't want to stay in this Galaxy Plaza for a moment longer.

Seeing Wang Erhe's good attitude in pleading guilty, Lu Hao nodded with satisfaction.

After discussing carefully with the other judges on the stage for a while.

Lu Hao stood up and announced loudly to everyone with a solemn expression.

"Brother Wang Erhe confessed to the crime of robbing women in the street and actively attacking others."

"I will now pronounce the verdict."

"Sentence Monk Wang Erhe to suppress the Immortal Prison for one hundred years without the possibility of parole during this period."

"good....."

After Lu Hao announced his verdict, the scene was filled with cheers.

Seeing Wang Erhe being punished, everyone applauded.

Everyone is more convinced of the Immortal Cultivation Alliance.

Even the legitimate son of the leader of the alliance must be punished after committing a crime.

So from now on, who will dare to commit crimes in Blue Star?

Cultivation as an immortal does not necessarily involve using the strong to bully the weak.

Wouldn't it be nice for everyone to peacefully cultivate immortality together?

Soon, Wang Erhe was taken away by the law enforcement team.

For the next hundred years, he could only spend his time in immortal prison.

However, with his cultivation in the Golden Core Realm, he would not die of old age in the Immortal Prison.

There is still a chance to come out.

Moreover.

The environment in the Immortal Prison is just a little worse, it doesn't mean that you can't practice.

If he can work hard.

Maybe a hundred years from now, there will be a breakthrough.

After announcing the trial results, Lu Hao raised his hand to Wang Luoming next to him.

Then he led everyone away.

throughout the trial.

Wang Luoming didn't say a word.

He was just here to listen.

As long as Lu Hao behaves fairly, he will not interrupt.

He came to listen in person just to express his attitude.

As the leader of the Immortal Cultivation Alliance, he will never protect his own people.

Everything is subject to the alliance's system.

No matter who breaks the law, the consequences are the same.

Even members of his Wang family will not make any exceptions.

Zhang Yuhe stood in the crowd and watched the entire public trial.

Because he restrained his aura and changed his appearance.

No one recognized him.

Watching the entire public trial process, Zhang Yuhe couldn't help but marvel.

Under the auspices of the Immortal Cultivation Alliance, the people of Blue Star implemented the idea of fairness and justice very thoroughly.

Section 370

Even better than before when the spiritual energy had not yet recovered.

In this era of great prosperity of immortality.

Able to do this.

I have to say, this is also a miracle.

Zhang Yuhe likes Blue Star's current atmosphere very much.

Cultivation of immortality is not just about fighting and killing.

He didn't want to fight with others if it wasn't necessary.

Wouldn't it be better if everyone cultivates immortality peacefully together?

Unfortunately.

His idea is destined to be just a luxury wish.

Except Blue Star, this special civilization.

Any other world of cultivating immortals, even the immortal world.

Whoever has the bigger fist is justified.

The fists are not strong, and the words are worse than farts.

No one will listen to you.

maybe one day.

Wait until his fist becomes big enough.

He can make the fairy world into the shape he wants.

Think of this.

Zhang Yuhe couldn't help but look forward to it.

He muttered to himself.

"I hope this day is not too far away."

...

## Chapter 304 Galaxy Secret Realm

When night falls.

Wang Luoming sat quietly in the main hall.

After settling Wang Erhe's matter, he breathed a sigh of relief.

Although this seems like a trivial matter.

But Wang Luoming takes it very seriously.

This is not only because Old Ancestor Zhang may have returned to Blue Star.

Even if there is no such thing.

He will also deal with it strictly.

Because this is related to the inheritance of the Wang family's family tradition.

Before Wang Guofeng ascended to the throne, he had set strict family rules for the Wang family.

He hopes that through these family rules, the Wang family can be passed down forever in Blue Star.

If a family wants to pass on for a long time, it not only needs to continuously cultivate talents.

More importantly, there should be no prodigal son.

most of the time.

It only takes one prodigal son to completely destroy a Wannian family.

Therefore, Wang Luoming would never be lenient when dealing with family members who made mistakes.

Just like Wang Erhe's matter, if he doesn't deal with it seriously.

Maybe the old Wang family will soon have a second or third Wang Erhe.

If that's the case.

A family with an inheritance of 200,000 yuan may suddenly collapse one day in the future.

Wang Luoming was sitting in the main hall, tapping his fingers lightly on the table.

It's past eight o'clock in the evening.

Logically speaking, it should be the time for him to enter Yu Fantian and practice.

But he didn't do that.

Recently.

He had no intention of entering Yu Fantian.

He has to be at Blue Star, waiting for Patriarch Zhang to arrive.

Wang Luoming firmly believes that Patriarch Zhang will definitely return to Blue Star.

After all, it took so much effort to finally return from the fairy world to the lower world.

Ancestor Zhang makes no sense and will not return to Blue Star.

Although he had already met Patriarch Zhang when he was in Yu Fantian.

But due to the limitations of the game system, they didn't have much communication.

Especially the inability to communicate about Blue Star.

Wang Luoming looked forward to it.

If Patriarch Zhang returns to Blue Star, he can leave some inheritance behind.

Then Blue Star's future development will be on the fast track.

Thinking of the things I saw left by Patriarch Zhang in Dao Sheng Sect.

Wang Luoming couldn't help but feel a little jealous.

Although he himself is also the Mahayana ancestor of Daosheng Sect.

He has a share of everything belonging to the Dao Sheng Sect.

But in Wang Luoming's heart.

Blue Star is his home.

Yu Fantian is just a foothold on his path.

He loves Blue Star's homeland deeply.

I hope Blue Star can grow and develop.

"Is it true that Patriarch Zhang will not return to Blue Star?"

Wang Luoming muttered silently to himself.

Some time has passed since they were separated in Dao Sheng Sect.

He has been waiting at Blue Star for several days.

However, after so many days, he did not see Patriarch Zhang appear.

Just when Wang Luoming was worried about gains and losses.

He looked up suddenly.

I found that at some point in the main hall, a figure suddenly appeared.

Wang Luoming couldn't help but be overjoyed. He immediately stood up and shouted respectfully.

"Disciple Wang Luoming, pay homage to Patriarch Zhang."

The person coming was none other than Zhang Yuhe.

After watching a wonderful public trial in Galaxy Square during the day.

He did not leave Kunlun City, but stayed in the city to understand Blue Star's unique civilization of cultivating immortals.

He waited until it got dark before he came to the door.

Zhang Yuhe stretched out his hand to signal, and then said with a smile.

"You did a great job, you have a bit of Wang Guofeng's style."

"I've been back for a few days and been moving around a lot."

"Under your governance, Blue Star is doing much better than I imagined."

Zhang Yuhe's tone was full of approval.

He likes the current Blue Star very much.

Cultivation of immortality is combined with technology, and cultivation of immortality has penetrated into the lives of ordinary people.

Let everyone have the opportunity to come into contact with cultivating immortals.

Monks compete in an orderly manner rather than in disorderly battles.

Zhang Yuhe couldn't help but yearn for such an environment of cultivating immortals.

He had to sigh.

These younger generations have managed Blue Star really well.

They are all promising people.

"Thank you for the compliment, ancestor, this is what we should do."

Hearing Zhang Yuhe's praise, Wang Luoming was extremely excited.

In the hearts of all Blue Star people, Zhang Yuhe is the idol that everyone admires.
