#### Chapter 38 The He Family's Dream

After giving Zhang Yuhe a detailed explanation, Lu Mingfang extended his finger again and pointed at the jade token.

On a mountain somewhere in the inner gate of the Daosheng Sect, a young man wearing a golden crown and with a stern face was sitting cross-legged on the training platform in the training cave.

Suddenly, the young man's expression changed, and an identity jade token instantly appeared in his hand.

The young man pinched the magic formula with his hand, and then sent a message to the jade token.

"Elder Lu?"

"Li Tian, it's me. Just now, Zhang Zhuhe, the garrison commander of Yunzhong Prefecture, sent a message to the sect, and found a demon in Jingkong City, where he belongs. You should go to support him quickly."

"By the way, there is another altar in Jingkong City. It is estimated that it is the Tiangang Breaking Sky Formation established by the Demon God Cult. You must destroy the formation, and don't let the Demon God Cult open the interface channel to attract the demons."

"Yes."

After putting away the identity jade token, the young man with the golden crown did not do anything to clean up, and instantly stood up and flew quickly out of the mountain gate.

After the call ended, Lu Mingfang tapped the table lightly with his fingers, muttering to himself.

"What does Zhao Mingyue want to do again? Is she planning something again?"

The Zhao Mingyue mentioned by Lu Mingfang is the leader of the Demon God Cult. Since this person founded the Demon God Cult, Dao Sheng Sect has been in trouble.

In order to deal with Zhao Mingyue, the elders of Dao Sheng Sect have made many attempts, but in the end they all returned empty-handed.

There is really no way. I don't know what kind of magical power Zhao Mingyue has cultivated, but he can actually transform into thousands of bodies.

This person travels around in his incarnation, but his real body never shows up.

Every time Dao Sheng Sect thought that they had finally found Zhao Mingyue's roots, they finally found out that they had spent a lot of effort to destroy one of his incarnations.

From then on, the elders of Dao Sheng Sect no longer acted easily, and general affairs were handled by the inner disciples.

If Zhao Mingyue's real body did not appear, the inner disciples of Dao Sheng Sect were enough to deal with it.

Thinking of Zhao Mingyue, the leader of the Demon God Cult, Lu Mingfang couldn't help but have a headache.

"What is the purpose of the Demon God Cult's operation? Although the Tiangang Breaking Realm Array can open the interface channel, the power of this array is limited. The opened channel not only has many restrictions, but can only allow low-level demons to come over, and the duration is also very short. It will not cause too much trouble to Yu Fantian. It is completely meaningless. Zhao Mingyue spent so much effort, is it just to disgust us?"

"Forget it, let Li Tian go and see first. No matter what her purpose is, just destroy her incarnation and dismantle the Tiangang Breaking Realm Array."

Lu Mingfang thought for a long time, but he didn't figure out what the Demon God Cult's intention was for this action.

However, he didn't dwell on it too much. The Daosheng Sect is powerful.

No matter what the Demon God Cult wants to do, they can just counter it as it happens, and they are not afraid of the Demon God Cult turning the tables.

As for the black altar described by Zhang Yuhe, Lu Mingfang was only slightly surprised.

Because such things have happened many times in the past 100,000 years.

At the beginning, they were shocked, thinking that the opening of the passage would allow the demons to descend in large numbers, recreating the catastrophe of 100,000 years ago.

However, they later discovered that the formation arranged by the Demon God Cult had natural defects and could not support the powerful demons to come.

In this case, Lu Mingfang did not plan to do it himself, but asked the inner disciple Li Tian to go over for support.

After the communication ended, Zhang Yuhe hid his figure and quietly observed the situation in Jingkong City through the talisman soldiers.

After a while, the middle-aged man named Sixth Uncle came to a hall.

I saw a white-haired old man sitting at the top of the hall.

"He Daofan?"

Seeing the old man in the hall, Zhang Yuhe was a little surprised.

This person is He Daofan, the ancestor of the He family, who has not appeared for hundreds of years.

Zhang Yuhe has seen the portrait of this person in the materials of the town guard.

According to Ming Fuqian's previous introduction, He Daofan had already reached the great perfection of the Nascent Soul hundreds of years ago.

It was just that He Daofan's life span was about to end, and Mingfu didn't know whether he was dead or alive.

Now it seems that He Daofan is not only alive and well, but also has a breakthrough in his cultivation. Otherwise, he would have died long ago.

Seeing the middle-aged man coming in, He Daofan said excitedly.

"Yaguang, you are here. Lord Hejiao is preparing to open the passage to welcome the arrival of the demon god army. As long as the demon god army arrives, our He family can take the opportunity to rise, and even the whole family will ascend to the demon world in the future, and everyone may become a real demon god."

The middle-aged man is called He Yaguang, but Zhang Yuhe doesn't know this person, and there is no information about this person in the garrison.

Seeing the ancestor so excited, He Yaguang felt a little uneasy.

The matter of joining the Demon God Cult was decided by the ancestor, and he was powerless to object.

He has always been a little worried about the consequences of doing so. Can they really succeed? Can the people of the He family become demon gods?

If things are so simple, then why were the invading demons repelled by the Daosheng Sect 100,000 years ago?

The Demon God Church is not just using them, and will throw the He family out after using them?

Thinking of this, he said to He Daofan hesitantly.

"Ancestor, should we arrange for the clan members to leave first? In case this fails, it will leave a way out for the family."

"Humph, what do you know? There is no way out now. Now we can only wait for the Demon God to come and the whole family to rise up."

Hearing He Yaguang's words, He Daofan was very unhappy.

At this point, their He family has no way out.

Now we can only succeed, not fail.

Once they fail, no one in their He family will be spared.

The entire Yu Fantian belongs to the Dao Sheng Sect, where can they hide?

After a while, maybe because he felt that the tone of his words just now was not very good, He Daofan said in a soft voice again.

"Don't worry, everything is ready now, just waiting for the demon army to arrive."

"By the way, how are things arranged? Once the demon army arrives, we must quickly arrange for the family members to lead the army. We must first break through Yunzhong City, and then teleport to Hezhou City through the teleportation array in Yunzhong City. Take the whole Hezhou."

"Everything has been arranged. All the family members are already distributed throughout the city, ready to lead the demon army at any time."

"good."

Speaking of the arrival of the demon army, He Daofan returned to his excitement, and the two began to discuss the follow-up details in a low voice.

He Daofan even thought about how to rely on the demon army to make the He family become the number one force in Yu Fantian and replace it with the Dao Sheng Sect.

Hearing the ignorant words of the two men through Fu Bing, Zhang Yuhe couldn't help but shake his head.

It's really a daydream. The He family actually wants to replace the Dao Sheng Sect?

And He Daofan didn't know where he got his confidence, as if once the demons came, he could rule the entire Yu Fantian.

If that were the case, the demons would not have been repelled by the Dao Sheng Sect within one hundred thousand or ten thousand.

Besides, with him here watching, can the demons be allowed to come?

When the critical moment comes, he will definitely rush forward and destroy the altar.

He had to hold on when he had to, but that didn't mean he didn't dare to fight hard.

Just see if it's necessary.

Moreover, he has already sent a message to the sect, and the support from the Dao Sheng Sect may be arriving soon.

Once support arrives, it will be the end of the He family.

"Enjoy the last good time, your sweet dream will soon wake up."

Zhang Yuhe said to himself somewhat mockingly.

Chapter 39 I am enough alone

Zhang Yuhe hid his figure and quietly waited for the support from the sect to arrive.

As soon as support arrives, they can take action to extinguish the He family's daydream.

"Hey, someone is here again."

Suddenly, a delicate flying boat flew quickly towards Jingkong City from a distance.

Zhang Yuhe quickly took out a piece of talisman paper and patted it on himself.

Invisibility charm.

Once this special talisman is used, it will have a strong invisibility effect.

Unless you are accidentally attacked by someone, or you show up on your own initiative, otherwise, it will be difficult to be discovered.

Of course, a talisman paper with such a powerful effect would naturally have some flaws.

Not only is the invisibility talisman extremely difficult to draw, an average sixth-level talisman maker may not be able to successfully draw it dozens of times in a row.

Moreover, the materials needed to draw the invisibility talisman were extremely precious, and Zhang Yuhe did not draw a few in total.

The invisibility charm also has a big disadvantage, that is, its duration is very short, and it can only last for one minute.

Except in some special circumstances, it generally has little effect.

After all, being invisible for a minute won't accomplish much.

Despite this, Zhang Yuhe decisively used the invisibility charm because he saw the identity of the person coming.

On the flying boat coming at great speed from afar, it was Concubine Ming Yue and her party.

At this time, Concubine Mingyue's powerful aura was revealed, and she was the perfect form of divine transformation.

In addition to Concubine Mingyue, there were more than a dozen monks on the flying boat.

Among them, there are five cultivators who are transforming gods, and the rest are all Nascent Soul cultivators.

The head of the Li family, Li Jiu Ming, was among them.

"Very good, everything that should come has come, just in one pot."

Seeing Concubine Mingyue flying towards Jingkong City with a large group of people, Zhang Yuhe's heart did not waver.
