

Top talent 391

Section 391

And everyone knows it.

Zhang Yuhe refined the immortal weapons very quickly.

The last time he refined 10,000 pieces of thunder-absorbing pillars, it only took a hundred years.

This is still the weapon refining hall of the Daosheng Sect, with only a hundred weapon refining furnaces.

If there are enough stoves.

They even suspected that Zhang Yuhe's refining speed could be much faster.

Although no one understands it.

Why are others so careful throughout the process when refining immortal weapons?

Don't dare be distracted in the slightest.

But Zhang Yuhe can operate hundreds of refining furnaces at the same time.

The key is the refining process, there are no mistakes yet.

It's just magical.

This time it was even more excessive.

Zhang Yuhe asked them to expand the weapon refining hall in advance.

The number of weapon refining cauldrons in the main hall was increased from one hundred to one thousand.

obviously.

Zhang Yuhe is planning.

Use a thousand refining furnaces to start working at the same time to refine the lightning absorbing pillars together.

Such an outrageous approach was simply unheard of for them.

But everyone is used to it.

Zhang Yuhe's rebellion did not happen in a day or two.

Since the destruction of the Ouyang family.

They, the veteran Golden Immortal monks, have already realized this.

Zhang Yuhe, a peerless genius, cannot be viewed with ordinary people's eyes.

Compared to Zhang Yuhe, he went through various cross-level challenges and killed Taiyi Immortal Lord and Seven-Star Chaos Beast.

Everyone even feels a little bit.

Zhang Yuhe also used a thousand refining furnaces to start refining lightning pillars.

It doesn't seem to be anything that is unacceptable.

After all, Zhang Yuhe is so outrageous.

Not that much different.

Accept it silently, mortal.

They were already used to it.

Everyone is waiting here, also wanting to take a look.

How long will it take for Zhang Yuhe to refine the 100,000 thunder-absorbing pillars?

Seeing Zhang Yuhe coming out, everyone was stunned for a moment.

Then Lian Zhengyu immediately stepped forward and asked respectfully.

"Sect Master, do you need us to do anything else?"

He did not expect that Zhang Yuhe had already completed refining the thunder-absorbing pillar.

After all, it has only been a hundred years.

Those are one hundred thousand middle-grade immortal weapons.

It can't take a hundred years for Zhang Yuhe to complete all the refining.

If that's the case.

Zhang Yuhe is not a monster, but a super pervert.

Because this is simply not something that humans can do.

Not even an immortal.

Seeing everyone waiting outside the weapon refining hall, Zhang Yuhe couldn't help but be stunned.

He thought silently in his heart.

What kind of trouble are these people going to make?

Even good people don't practice cultivation.

What are you doing waiting here?

Those present were all Jinxian bosses.

Do you still like to watch the fun?

Faced with Lian Zhengyu's question, Zhang Yuhe did not answer directly.

But he asked in confusion.

"What are you doing here? Did something happen?"

Hearing this, Lian Zhengyu hurriedly waved his hand and responded.

"No, nothing big happened recently."

"It's just that everyone knows that the sect leader is refining the thunder-absorbing pillar, so they all come here to wait for the results."

Hearing this, Zhang Yuhe was speechless.

What's there to wait for?

If it's done, he will definitely notify you.

These people are simply too idle.

No wonder after practicing for so many years, I am still wandering in the Golden Fairyland.

You don't work hard in cultivation.

Think of this.

Zhang Yuhe couldn't help but shake his head.

He said calmly.

"The lightning absorbing pillar has been refined."

"It just so happens that you are all here, let's go to Galaxy Island together."

Hearing Zhang Yuhe's words.

Everyone at the scene was completely stunned.

...

Chapter 319 Heavenly Tribulation Peak

Hearing that Zhang Yuhe had already finished refining all 100,000 thunder-absorbing pillars.

Everyone was shocked and completely speechless.

What kind of perversion is this to be able to do this?

To know.

Those are one hundred thousand middle-grade immortal weapons.

It's one hundred thousand pieces, not ten pieces, nor ten thousand pieces.

They just couldn't imagine it.

How does Zhang Yuhe operate?

Only in such a short period of time.

One hundred thousand thunder-absorbing pillars were refined and completed.

Replace it with an ordinary second-level immortal weapon master.

Even if it is just refining, a lightning-absorbing pillar at the level of a mid-grade immortal weapon.

I'm afraid it will take more than ten years.

And this still doesn't take into account the problem of failure.

If it fails continuously.

Maybe a hundred years.

The average immortal weapon master can probably only refine a lightning-absorbing pillar.

However, Zhang Yuhe actually used 100,000 thunder-absorbing pillars to do it directly.

And it just took a hundred years.

Everyone is completely unable to understand how Zhang Yuhe did it.

Even if it's assembly line mass production, it's not that fast.

It's incredible.

However, Zhang Yuhe didn't explain much to them.

Some things can't be explained clearly.

Even if he said it, others wouldn't understand.

It's like a scumbag who can never understand why a top student can play and still get perfect scores.

Section 392

The gap in talent cannot be made up by any means.

Zhang Yuhe didn't want to explain.

He took one step forward, turned into a stream of light, and quickly disappeared into the distance.

See Zhang Yuhe walking away.

Only then did everyone react, and they did not continue to struggle.

In fact, there is nothing to worry about.

Since the lord of the clan has said so.

The thunder absorbing pillar has been refined.

That's it.

How is it done?

Does this still matter?

Not important at all.

Now the most important thing is.

Take a look at these thunder-absorbing pillars and the tribulation formation they have set up.

Is it really possible to achieve the desired effect?

If it can be like what Zhang Yuhe said before.

Then their Dao Sheng Sect can be regarded as the first of its kind in the South China Sea Immortal Domain.

Becoming the first company to build a tribulation-transmitting formation that can be used by Golden Immortal monks when they break through the Taiyi realm.

Such an unprecedented initiative.

Not only can it enhance the strength of Dao Sheng Sect.

And it will also greatly enhance the influence of Dao Sheng Sect in the South China Sea Immortal Domain.

If it is really possible, build an ideal tribulation formation.

So you can imagine.

How many Golden Immortal monks will come to Dao Sheng Sect for help in the future.

After all, no one wants to be killed by a catastrophe.

not to mention.

Once you break through and become Taiyi Immortal Lord, you will have endless longevity.

Who can resist such temptation?

As for whether a big tree will attract wind?

Will others covet the Daosheng Sect's Tribulation-Transcending Formation?

Can Dao Sheng Sect be able to hold on to this great tribulation formation?

Don't worry about this at all.

Because after the formation was successfully constructed.

Zhang Yuhe must be the first to use it.

Once Zhang Yuhe successfully broke through and became Taiyi Immortal Lord.

Then who do they need to be afraid of?

In the entire South China Sea Immortal Territory, except for the three superpowers, there is the Da Luo Immortal King.

No other force has it.

Even among the casual cultivators, there is no Da Luo Immortal King.

That being the case.

Then don't worry at all.

Wait until Zhang Yuhe successfully breaks through to Immortal Lord Taiyi.

That must be the first person under Immortal King Tailuo.

In the South China Sea Immortal Realm, there is absolutely no fear.

As for the three superpowers, they have always been in check with each other.

As long as the Dao Sheng Sect gives a certain quota for use.

Thinking about it, they don't have the energy to cause trouble for Dao Sheng Sect.

Moreover.

Daosheng Sect is backed by Wanxian Sect.

It can be regarded as an affiliated force of Wanxian Sect.

As long as the Wanxian Sect doesn't nod, who dares to touch a hair of the Dao Sheng Sect?

Now the only problem.

That is whether Zhang Yuhe can build an ideal tribulation formation.

As for other issues, there is no need to worry at all.

Zhang Yuhe used all his strength to activate the Galaxy Wandering Dragon Movement Technique and shuttled forward quickly.

In less than half a day, he arrived at Galaxy Island.

Saw Zhang Yuhe arriving.

A group of disciples responsible for staying on the island immediately stepped forward and shouted respectfully.

"Meet the sect master."

Zhang Yuhe waved his hand.

He stood on the highest peak of Galaxy Island and looked around.

After years of expansion.

At this time, Galaxy Island has grown into a small continent with a radius of five million miles.

Logically speaking.

For such a large island, there must be a large number of people living there.

But no.

Because the Dao Sheng Sect's purpose of expanding Galaxy Island was just to give Zhang Yuhe.

Build a great formation to overcome the tribulation here.

It is not for monks to survive and reproduce here.

Zhang Yuhe quickly jumped into the air.

He stood in mid-air, overlooking the entire island.

I saw the Milky Way Island below, showing an almost perfect circle.

This is a disciple of the sect. According to his request, it was specially expanded into this shape.

When deducing the improved Renshui Thunder Absorbing Formation, he incorporated his understanding of the laws of yin and yang into it.

The island is round, which makes it easier for him to arrange the formation.

Zhang Yuhe stood quietly in the air, looking at the Galaxy Island below.

He nodded with satisfaction.

After a while.

Zhang Yuhe flew down.

He walked around the entire island and then returned to the highest peak on the island.

Because it is to build a great formation to overcome the tribulation here.

Therefore, the highest peak on Galaxy Island is also known as Tianjie Peak.

The disciples of Daosheng Sect built a vast platform on the top of Tianjie Peak.

This is where the future tribulation platform will be.

Zhang Yuhe stood on the high platform, and he was not in a hurry to take action.

Because the others are still on the way.

Lian Zhengyu and others are not as fast as him.

They wanted to rush here from the Daosheng Sect Mountain Gate.

Even flying at full strength would take at least three days.

Although the Renshui mine-absorbing array is set up, no one else's help is needed.

No one else can help.

Even if he showed the formation jade slips to everyone carefully.

They can only understand it roughly.

Know the principles and uses of this formation.

As for asking them to help set up the formation, that is absolutely impossible.

After many improvements.

Now the complexity of the Renshui Thunder Absorbing Formation has already surpassed the level of the ordinary second-order immortal formation.

Don't talk about them, the Golden Immortal monks of the Tao Sheng Sect.

Even if it were shown to those Taiyi Immortal Lords, they probably wouldn't be able to understand it.

So Zhang Yuhe could only set up the formation by himself, and the others could just watch from the side.

Section 393

despite this.

He was not in a hurry to take action.

It doesn't hurt to wait.

After all, setting up such a super formation is a rare thing.

It's also good to let other people gain insights.

Zhang Yuhe stood there, waiting for others to come over.

While silently deducing, he then arranged various details of the formation.

Three days later.

A stream of light passed from a distance.

Lian Zheng drove the flying boat and finally arrived at Galaxy Island with the chief and deputy chiefs of the Dao Sheng Sect's halls.

The flying boat landed on the high platform on the top of Tianjie Peak.

The people jumped off the flying boat and shouted respectfully in unison.

"metropolitan."

Zhang Yuhe stretched out his hand to signal, and then asked Lian Zhengyu.

"How is the relocation work around Galaxy Island going now?"

Hearing Zhang Yuhe's inquiry, Lian Zhengyu responded respectfully.

"According to the instructions of the sect master, all the people within a radius of hundreds of millions of miles have been relocated."

Zhang Yuhe nodded.

everything's ready.

Just wait until the arrangement of the Renshui Thunder Absorbing Array is completed.

He can try to break through the Taiyi realm.

He has been waiting for this day for thousands of years.

He should take a look too.

What kind of scenery is Taiyi's realm of immortality.

...

Chapter 320 The Formation Begins

Zhang Yuhe stood at the top of Tianjie Peak.

Looking at everything around him, his heart suddenly surged.

He has practiced Taoism for 200,000 years.

Now we are finally about to enter the realm of immortality.

Although a true immortal also carries the word "immortal", he can only live for a million years.

Not considered immortal.

The same is true for Jinxian.

Although the Golden Immortal has a longer lifespan, it can only live for tens of millions of years.

Whether it is the millions of years of a true immortal or the tens of millions of years of a golden immortal.

It seems extremely long, but actually it has its limits.

Once the life span is exhausted and the cultivation level fails to continue to break through.

Then I can only sit down helplessly.

In the fairy world.

Countless True Immortal and Golden Immortal monks eventually passed away due to exhaustion of life span.

It is not an empty talk that monks compete with heaven for their fate.

If you want to live a long life, you must practice hard.

Continuously break through yourself.

In order to obtain a longer life.

After the monks successfully established the foundation, they began to break away from the realm of mortals.

After that, every time you break through a major realm, your lifespan will increase exponentially.

Until the million-year lifespan of a True Immortal monk, and the tens of millions of years of a Golden Immortal monk.

But all this came to an end after breaking through to the Taiyi realm.

Once you break through and become Taiyi Immortal Lord, you will no longer have the worries of longevity.

Because Taiyi Immortal Lord has no longevity limit.

As long as he doesn't die accidentally.

Then you can live indefinitely, and even live until the day when heaven and earth are destroyed.

Zhang Yuhe stood at the top of Tianjie Peak, his thoughts gradually flying away.

After a while, he slowly came back to his senses.

He turned to Lian Zhengyu and others.

"I'm going to start setting up the formation, you guys retreat to the outside of the island for now."

"Yes, Sect Master."

Everyone bowed their hands towards Zhang Yuhe.

Then he quickly flew away from Galaxy Island.

Zhang Yuhe stood on the high platform at the top of the mountain.

I saw him wave his right hand.

One after another, shining pillars flew out of his sleeves.

Falling quickly towards the edge of Galaxy Island.

The 100,081 lightning-absorbing pillars present a mysterious layout.

They stand on the periphery of Galaxy Island.

All lightning-absorbing pillars are at the middle-grade immortal level.

Any one of them can be taken out and used as a normal fairy weapon.

And the power is definitely not bad.

Because these lightning-absorbing pillars are not only the base for setting up the Renshui mine-absorbing array.

It is also a true fairy weapon.

You can say that.

Even if the Dao Sheng Sect falls one day.

Just these thunder-absorbing pillars are also a huge wealth.

One hundred thousand pieces of middle-grade immortal weapons are no joke.

Looking at the entire South China Sea Immortal Territory, there is really no force that can take advantage of it.

Even those three superpowers.

It is impossible to take out so many middle-grade immortal weapons all at once.

As the lightning-absorbing pillar falls.

Zhang Yuhe quickly jumped into the air.

He stood in mid-air, confirming the location of the lightning-absorbing pillars one by one.

After many improvements, the Renshui mine-absorbing array has become more and more complex.

Even the position of each lightning-absorbing pillar has been accurately calculated.

Don't deviate even a little bit.

Once a certain lightning-absorbing pillar is placed somewhere wrong.

Then the actual effect of the entire formation will be greatly affected.

It is even possible that the formation cannot even be activated.

After confirming that the location of the lightning-absorbing pillar is correct.

Zhang Yuhe took a deep breath.

He slowly raised his right hand and began to draw quickly in the void.

If we say, those 100081 lightning-absorbing pillars are the base of the Renshui thunder-absorbing array.

There are no such mine-absorbing pillars.

Then the entire formation is out of the question.

But relatively speaking.

How to connect these lightning-absorbing pillars together perfectly.

This is the essence of the entire formation.

Zhang Yuhe was deducing the improved formation.

Redesigned, a complete set of formation patterns.

These formations are extremely complex and exquisite.

You can say that.

Section 394

Even if he reveals the complete formation method to the public.

There are not many people in the entire fairy world.

It can perfectly replicate a similar Renshui thunder absorbing array.

Not even Daluo Immortal King.

Because Zhang Yuhe's understanding of the great avenue is integrated into these formations.

Incorporated into various supreme laws.

This is his own formation pattern.

Even if he spreads the entire formation in front of others.

No one can arrange it according to the gourd painting.

Because no one can draw the same formation pattern.

This is Zhang Yuhe's great law, and others cannot learn it.

Time passed slowly.

Zhang Yuhe stood tall over Galaxy Island, carving non-stop with his hands.

This is a big project.

I want to connect 100081 lightning-absorbing pillars together perfectly.

It's not that easy.

This requires a lot of support.

Moreover, these formation patterns are different and have their own functions.

I want to complete all these formation patterns.

It not only requires consumption, but also a huge amount of mental power.

It is also very time consuming.

As Zhang Yuhe quickly portrayed.

Formation patterns continued to flash from his hands.

The formation patterns gradually connected the auras of the thunder-absorbing pillars together.

Beyond the Galaxy Island.

Lian Zhengyu and the heads of various halls were standing quietly in the distance.

Looking at the sky above Tianjie Peak, various formation patterns flashed from time to time.

Everyone was extremely excited.

As one of the golden immortal bosses, they naturally know some formation techniques as well.

Not to mention he is proficient in formations.

But at least it's okay to see it clearly.

When they saw formations flashing over Galaxy Island.

Everyone understands.

Zhang Yuhe's improvement of the Renshui mine-absorbing array was successful.

At least the idea is right.

Because the formation patterns carved by Zhang Yuhe can perfectly connect the surrounding lightning-absorbing pillars together.

That means that this formation can definitely be activated.

Although the actual effect is hard to say.

After all, it has not been tested in actual combat.

Only when the Golden Immortal monk successfully withstood the Taiyi Heavenly Tribulation with the help of this formation.

Only then can we know how effective the improved formation is at weakening the Heavenly Tribulation.

But everyone Zhang Yuhe has confidence.

Because before that, Zhang Yuhe had successfully deployed the Renshui Thunder Absorbing Formation.

Although the previous formation was only enough for True Immortal monks to use.

But this also shows Zhang Yuhe's talent in the formation method.

Everyone believes it too.

Zhang Yuhe can also succeed this time.

I don't know when it started.

Everyone has a mysterious trust in Zhang Yuhe.

They believe it.

As long as Zhang Yuhe wants to do something, he can definitely do it.

Those who don't believe it have already been swept into the dustbin of history.

Time passed slowly.

Zhang Yuhe stood tall over Galaxy Island, drawing rapidly with his hands.

Countless formation patterns flashed from his hands.

I don't know how much time passed.

When the last formation pattern is finished.

Zhang Yuhe finally breathed a sigh of relief.

He made a silent calculation.

In order to carve these formations, it took him half a year.

This past six months.

The movements of his hands never stopped.

After a long period of hard work, all the formation patterns were finally finished.

Zhang Yuhe stood in the air and looked around.

He muttered to himself.

"Finally done. Now let me see how effective the improved Renshui Thunder Absorbing Array is."

Follow the magic formula in your hand.

Zhang Yuhe shouted together.

"Get into formation."

...

Chapter 321 Banned for Hundreds of Miles

As Zhang Yuhe moved the magic formula, a light blue light curtain slowly rose over Galaxy Island.

The blue light curtain is like a super giant bowl, completely turning the entire Galaxy Island upside down.

Compared with the Renshui thunder absorbing array he had deployed before.

The formation light screen in front of him obviously had a touch of agility.

Black and white yin and yang runes flowed slowly on the blue light screen.

In order to improve the Renshui Thunder Absorbing Formation and weaken the effect of the Heavenly Tribulation.

Zhang Yuhe integrated the laws of yin and yang into the formation.

These runes are the embodiment of the power of law.

In order to do this.

Zhang Yuhe really put in a lot of effort.

Otherwise.

There is no need to work so hard to improve the Renshui mine-absorbing array.

There is no need for so many lightning-absorbing pillars.

According to Zhang Yuhe's estimate.

As long as half of the thunder-absorbing pillars should be able to help him survive the Taiyi Heavenly Tribulation.

despite this.

When Zhang Yuhe was deducing the formation, he still tried his best to be as perfect as possible.

Because this is not only safer.

It can guarantee that he will be safe when going through the tribulation.

more importantly.

This is a bold attempt.

Integrating the power of law into the formation can not only increase the power of the formation.

The same can be done to improve his understanding of the law.

It will be of great help to him in the future to understand the laws and even the Dao.

It is precisely because of this.

Zhang Yuhe only puts a lot of thought into deducing the formation.

Integrate the laws you have mastered into the formation.

Now it seems that he is successful.

Section 395

Although the improved Renshui mine-absorbing array has not been tested in actual combat.

But just look at the yin and yang runes shining on the formation light screen.

Zhang Yuhe knew it.

The power of this formation is definitely not bad.

It will definitely allow him to easily survive the Taiyi Heavenly Tribulation.

With the existence of this improved version of Renshui mine-absorbing array.

Zhang Yuhe no longer has to worry about breaking through the tribulation.

Looking at the smart blue light curtain above Galaxy Island, he murmured to himself.

"Now that everything is ready, it's time to break through."

He has been waiting for this day for thousands of years.

When I broke through the big realm before.

He has never prepared for such a long time to deal with a catastrophe like this time.

Although before every breakthrough, he would also improve the Renshui Thunder Absorbing Formation.

It's just an improvement from before, not too difficult.

It didn't take much time either.

It took so long to prepare this time.

And the improved version of the Renshui Thunder Absorbing Array is so extraordinary.

There should be no problem.

While Zhang Yuhe was still deep in thought.

Several streaks of light quickly passed by in the distance.

Lian Zhengyu and others quickly landed on the high platform at the top of the Heavenly Tribulation Peak.

Everyone shouted in unison.

"Sect Master, is the formation ready?"

"Um."

Zhang Yuhe nodded lightly.

In fact, everyone can know it without him having to say it.

As long as you are not blind, you can see the magnificent formation light curtain on Galaxy Island at this time.

The light blue light curtain is thick with a hint of agility.

Even the most ignorant person can see it.

This formation must be extremely extraordinary.

Everyone's faces showed excitement.

The Renshui mine-absorbing array was successfully constructed.

That means that Zhang Yuhe can prepare to break through to the Taiyi realm.

For the general Golden Immortal Perfection.

If you want to break through to Taiyi Immortal, you need to break through the realm bottleneck first.

The bottlenecks of the big realm are extremely solid.

This is even more true for the Golden Immortal monks who broke through the bottleneck of Taiyi Immortal.

Because this is a qualitative change.

Without the assistance of special spiritual objects, it would be difficult for anyone to break through on their own.

But for Zhang Yuhe, no one had ever worried.

No one would think so.

Zhang Yuhe will be stuck by the bottleneck.

In everyone's opinion.

A peerless genius like Zhang Yuhe.

His biggest enemy is the mysterious Heavenly Dao.

As long as you can overcome the test of heaven.

Breakthroughs are just a small problem.

Everyone is even looking forward to it, once Zhang Yuhe breaks through to the Taiyi realm.

That will be the end. There is no history of Taiyi Immortal Lord in the Ji'an sea area.

If Dao Sheng Sect had Taiyi Immortal Lord in charge.

Then they will definitely feel more confident when walking outside in the future.

In the fairyland of the South China Sea.

Any force that has Immortal Lord Taiyi in charge can be considered a major force.

Regardless of the cultivation level of other people within the force.

As long as there is a Taiyi Immortal Lord sitting in charge, no one dares to look down upon him.

Because Taiyi Immortal Lord not only has strong combat power, but also has unlimited lifespan.

No one is willing to offend an immortal being like Taiyi Immortal Lord.

Looking at the formation light curtain in the sky, everyone was extremely excited.

After a while.

Lian Zhengyu asked Zhang Yuhe.

"Sect Master, what preparations do you still need to make?"

Zhang Yuhe glanced around, and then said calmly.

"There should be no need to make any preparations. After I rest for a while, I can start to make a breakthrough."

As soon as he finished speaking, he suddenly seemed to remember something again.

Zhang Yuhe turned around and said to everyone.

"By the way, when I make a breakthrough, I can't be disturbed by others."

"You immediately mobilize the disciples of the sect and seal the area with a radius of hundreds of millions of miles with Galaxy Island as the center."

"Don't let anyone come over."

"Yes, Sect Master, we will make arrangements right away."

Hearing Zhang Yuhe's words, everyone was shocked and immediately responded in unison.

Then it turned into a stream of light and left.

In fact, everyone knows it.

When the monk breaks through, he cannot be disturbed.

This is common sense.

But before this, no one thought of this.

Because Galaxy Island is located in the center of Ji'an sea area.

Originally everyone thought.

With the current influence of Dao Sheng Sect, no one would come here to seek death.

But Zhang Yuhe was right to be concerned.

Don't be afraid of ten thousand, just be afraid of what happens.

It is indeed necessary to take precautions beforehand.

Just in case Zhang Yuhe breaks through.

If someone with blind eyes happens to break in, wouldn't it be a big trouble?

Following Zhang Yuhe's order.

Dao Sheng Sect once again mobilized all its members.

Not only the True Immortal disciples and Golden Immortal elders within the sect were all mobilized to the vicinity of Galaxy Island.

Even those disciples under the True Immortal were mobilized.

There are millions of people in the entire sect, hundreds of millions of miles away from Galaxy Island.

A wide cordon was laid out.

Due to the scope of the ban, it is really a bit too big.

From time to time, monks would approach the Dao Sheng Sect's cordon while passing by.

But once someone gets close.

will be persuaded to leave.

Dao Shengzong's behavior is very puzzling.

There was even speculation.

Maybe the Dao Sheng Sect discovered some kind of ancient ruins at the center of the ban.

We are digging for treasure at this time.

Despite this.

Most of the monks still listened to the advice of the disciples of Daosheng Sect.

They obediently took a detour and left.

Section 396

The arms cannot twist the thighs.

Even if they were curious, they would not dare to challenge the authority of Dao Sheng Sect.

Of course.

There are also some stubborn guys who don't take Tao Sheng Sect seriously.

For this kind of person.

Daosheng Sect disciples will not show mercy.

If you insist on forcing your way in, you will have no choice but to be beaten to death.

Today's Daosheng Sect is the sky in the Ji'an sea area.

If you dare to disrespect God, isn't that just asking for death?

Although these Daosheng Sect disciples did not know the purpose of blocking Galaxy Island.

But everyone is faithfully executing the sect's orders.

They usually enjoy the benefits brought by the sect.

When it's their turn to contribute, everyone will naturally work extra hard.

A rare opportunity to perform.

No one will miss it.

Many disciples even think about it.

It would be nice to have more tough guys.

It just gives them a chance to show off.

...

Chapter 322 Spiritual Energy Frenzy

The news that the Dao Sheng Sect had sealed off the area around Galaxy Island soon spread in the Ji'an waters.

Everyone was very puzzled by this and couldn't help but discuss it.

Ji'anfang City.

Two monks were in a teahouse, discussing something in a low voice.

"Brother Dao, have you heard that the Dao Sheng Sect has sealed off the entire area hundreds of millions of miles around Galaxy Island? I don't know what they are doing?"

"I've heard it a long time ago. Last time a friend of mine passed by Galaxy Island, he was intercepted by a disciple of Dao Sheng Sect and was forced to take a detour."

"Then do you know why Dao Sheng Sect blocked Galaxy Island?"

"I don't know, how can such a thing happen in our turn? Little people like us have to worry about it."

"I'm telling you, you must not spread the word. I heard that Dao Shengzong discovered an ancient ruins near Galaxy Island, and is now organizing efforts to excavate it."

"That's nonsense. It's just a small place like our Ji'an sea area. There has never been a big figure in history. How can we find ancient ruins?"

"Even if there is, it's just an ordinary Jinxian Cave. It's not worthy of Dao Shengzong going to such great lengths to fight."

"Who knows? Maybe it was an ancient power from other immortal realms who once lived in seclusion near Galaxy Island. Now that the cave has appeared in the world, it happened to be discovered by the Dao Sheng Sect."

"You think too much, how can such a good thing happen?"

"Let me tell you, the Dao Sheng Sect discovered a large mine near Galaxy Island. They blocked the surrounding sea area in preparation for mining."

While the two were discussing in a low voice.

An old man in green clothes passed by and heard what the two said.

The man in green couldn't help but shake his head and said.

"Ignorance, don't you know where Galaxy Island is?"

Hearing the words of the old man in green, the two of them couldn't help but be stunned, and one of them responded subconsciously.

"Uh, I know, the Dao Sheng Sect's Tribulation Platform is built on Galaxy Island."

"If that's the case, then why are you saying that the Holy Sect is blocking Galaxy Island? Of course there are people who want to overcome the tribulation."

"Oh I got it."

"No, there were people from Dao Sheng Sect who went through tribulations on Galaxy Island in the past, but they have never been blocked on such a large scale."

"Who knows, maybe the people who are going through the tribulation this time are a little special?"

"Special? Is there someone who wants to break through the Taiyi Immortal and overcome the Taiyi Heavenly Tribulation?"

"Maybe."

"Impossible, absolutely impossible. How can Immortal Taiyi be so easy to break through?"

"If it were really that easy, it wouldn't be the case in the Ji'an sea area. There is no Taiyi Immortal Lord until now."

"Who knows, just wait and see, maybe there will be news after a while."

...

The Dao Sheng Sect's blockade of Galaxy Island caused quite a stir in the waters of Ji'an.

There are various speculations about this.

It's a pity that no one can guess the idea.

Because few people knew about Zhang Yuhe's preparation for a breakthrough.

Except for the heads of the various halls, even the other Golden Immortal monks from the Dao Sheng Sect did not know the specific reason.

As for outsiders, they can only guess based on thin air.

Although some people speculate that the purpose of Dao Sheng Sect's blockade of Galaxy Island may be because someone needs to overcome the tribulation.

But no one thought that Zhang Yuhe was going to break through the Taiyi realm.

Because Immortal Lord Taiyi is really too far away from the Ji'an sea area.

In the endless history of the Ji'an sea area, Immortal Lord Taiyi has never been born.

This shows how difficult it is.

Immortal Lord Taiyi is just a legend to the monks in the Ji'an sea area.

Although the current Dao Sheng Sect is indeed developing very well.

There are many golden immortals gathered in the sect.

But still no one would think about this.

Even if I have this thought occasionally, I will deny myself.

In everyone's opinion.

It only took about a hundred thousand years for the Dao Sheng Sect to rise again.

In a short period of time, I want to cultivate a Taiyi Immortal Lord.

It's completely impossible.

Perhaps in the distant future, Dao Sheng Sect may give birth to Taiyi Immortal Lord.

But it certainly won't be now.

...

Zhang Yuhe sat cross-legged on Taiyi Immortal Platform.

After setting up the Renshui Thunder Absorbing Array.

He named this high platform on Tianjie Peak Taiyi Immortal Platform.

Metaphor refers to the meaning of Taiyi Immortal Lord.

Standing on the Taiyi Immortal Platform, you point directly to the Taiyi Immortal Land.

After three months of recovery.

Zhang Yuhe finally adjusted his aura to its peak state.

He took a deep breath and slowly opened his eyes.

He muttered to himself.

"I have been preparing for so long, it is time to break through the Taiyi realm."

Thinking of this.

He slowly circulated the Hunyuan Tianjing.

The surrounding immortal spirit began to rush towards him quickly.

The spirit slowly flowed into the Dantian Sea through the meridians.

A miniature golden Yuanying stood above the Dantian Sea.

Six bright spots of light kept flashing on the surface of the Yuanying.

In the middle of these spots of light.

You can vaguely see that the saplings exude a mysterious breath.

These are the six acupoints opened by Zhang Yuhe.

And in the middle of the acupoints is the tree of law that he comprehended.

The Yuanying opened the acupoints, the supreme law.

The tree of law is hidden in the acupoints.

This is the foundation of Zhang Yuhe.

The Yuanying suddenly opened his eyes and opened his mouth slightly.

Along with a large amount of immortal spirit, it was sucked into the Yuanying body.

In the sea of Dantian, huge waves suddenly arose.

Section 397

Zhang Yuhe silently circulated the Hunyuan Scripture, and his whole person entered a state of selflessness.

At this time, within hundreds of millions of miles around Galaxy Island.

A huge wave of spiritual energy formed instantly.

A large amount of fairy spiritual energy, like a tide, quickly surged towards Galaxy Island.

The spiritual energy frenzy formed a huge vortex over Galaxy Island.

At this time, Zhang Yuhe was in the center of the whirlpool.

Lian Zhengyu and the heads of various palaces stayed quietly in the distance.

Seeing the mad surge of spiritual energy, everyone's faces couldn't help but show excitement.

Yu Li murmured to herself.

"here we go."

Hearing this, Long Xingxiu asked her excitedly.

"Dianzhu Yu, what started? Has the sect master started to break through?"

"should be."

Yu Li nodded slightly.

In fact.

She reached the Golden Immortal Consummation earlier than Zhang Yuhe.

Just because of insufficient background.

She was not sure that she could break through to the Taiyi realm.

not to mention.

Before this, she did not dare to break through easily without the assistance of the Tribulation Transcendence Formation.

If you are not sufficiently prepared.

Even if a breakthrough is achieved by luck in the end, it is still an act of seeking death.

The Taiyi Heavenly Tribulation is no joke.

In the history of the fairy world.

There have been countless talented people who have fallen to this step.

Although they succeeded in breaking through, they were unable to withstand the bombardment of the Heavenly Tribulation, and were all killed by the Heavenly Tribulation in the end.

For the former Yu Liwei.

Unless the longevity is about to be exhausted.

Otherwise, she would definitely not choose to break through easily.

Although Taiyi Immortal Lord, Shouyuan's endless temptation is indeed very attractive.

But if you are killed by a calamity, then everything will be in vain.

For all the golden immortals, in order to fight for a glimmer of life.

No amount of preparation is too much.

Haven't you seen that Nangong Youxi has stayed in the realm of golden immortal perfection for millions of years?

Even with the strength of the Nangong Immortal Clan, there is no way to ensure that the tribe will successfully overcome the calamity.

Not to mention other people.

Of course.

This was Yu Liwei's previous thought.

Now that there is an improved version of the Renshui Thunder Absorbing Formation, she can give it a try.

But the premise for all this is to wait for Zhang Yuhe to break through and successfully overcome the disaster.

If this Renshui Thunder Absorbing Formation cannot help Zhang Yuhe survive the Taiyi Heavenly Tribulation.

Then forget about it.

She is still honest, just stay there for a while longer.

...

Chapter 323 Breakthrough to Taiyi Immortal Lord

Looking at the huge vortex formed by the frenzy of spiritual energy above Galaxy Island.

Yu Liwei knew that Zhang Yuhe was at the beginning of a breakthrough.

She has reached perfection in Jinxian for some time.

Naturally, he has some understanding of the process of breaking through Taiyi Immortal.

Looking at the raging spiritual energy craze around him.

Yu Liwei was full of expectations.

She looked forward to Zhang Yuhe's successful breakthrough.

Because this way.

Not only from now on, Dao Sheng Sect will have Taiyi Immortal Lord in charge.

more importantly.

If Zhang Yuhe breaks through successfully.

That also pointed out the way forward for her.

To know.

Ordinary people don't have the opportunity to watch other people's breakthroughs on the spot.

Unless it's one of your own.

Otherwise.

Who would let others watch from the side when they make a breakthrough?

Aren't you afraid of others causing damage?

Observing Zhang Yuhe's breakthrough on the spot will definitely provide Yu Liwei with a lot of reference.

When she breaks through in the future, she will avoid many detours.

Yu Liwei stood in mid-air, looking at the distant Galaxy Island.

So does everyone else.

Everyone stood high in the sky and observed quietly.

But compared to Yu Liwei.

They are still a long way from the Taiyi realm.

Even Lian Zhengyu, who has the highest level of cultivation, has just broken through to the late Golden Immortal stage.

Taiyi Immortal is still too far away for them.

despite this.

Everyone is still observing silently and understanding themselves.

I want to understand some kind of opportunity by watching Zhang Yuhe's breakthrough.

at greater distances.

Countless Dao Sheng Sect disciples and Jinxian elders were vigilantly observing the surrounding situation.

Since the sect master ordered them to blockade the area around Galaxy Island.

Then they must strictly implement it.

Not even a mosquito can fly past it.

Especially in recent times.

Looking in the direction of Galaxy Island, the raging spiritual energy frenzy.

In fact, everyone already has some speculations in their minds.

Maybe it's the sect leader who is breaking through Taiyi Immortal.

Compared with other monks in the Ji'an sea area.

Daosheng Sect disciples were full of infinite admiration for Zhang Yuhe.

Even if Zhang Yuhe breaks through to Taiyi Immortal now, they won't be surprised.

With the master's peerless talent, isn't it normal to break through to Immortal Lord Taiyi?

Think of this.

Everyone worked extremely hard.

They even extended the scope of their warning a little further.

At this time, everyone had only one idea in mind.

That is, no one can be allowed to disturb the sect master's breakthrough.

...

Zhang Yuhe sat cross-legged on the Taiyi Immortal Platform with his eyes slightly closed.

A large amount of fairy spiritual energy was rushing towards him.

The spiritual energy passes through the meridians and quickly gathers in the Dantian sea.

At this time, his Dantian Sea had reached a limit.

It could no longer contain even a trace of spiritual energy.

Section 398

But above the sea of spiritual energy.

The golden Nascent Soul opened its mouth slightly.

A large amount of fairy spirit energy was inhaled into the body by Nascent Soul.

After part of the spiritual energy in the Dantian sea was absorbed by Nascent Soul.

Replenishments soon followed.

This goes on and on.

I don't know how much time has passed.

The golden Yuanying suddenly opened his eyes.

A golden glow swept across the Dantian sea.

Golden light filled the Dantian.

The entire Dantian sea seemed to be covered with golden clouds.

Just at this time.

Zhang Yuhe suddenly felt his body relax, as if he had broken through some kind of stagnation.

The originally full sea of dantian began to expand rapidly.

Zhang Yuhe looks inside the Dantian.

His Dantian Qi sea was originally countless times wider than that of an ordinary monk.

At this time, it expanded again, and it was already as far as the eye could see.

He felt that his Dantian was like an infinitely broad universe.

There seems to be no limit.

Can be infinitely large.

At this time, in the center of Dantian.

Suddenly a small island grew.

With the surge of spiritual energy.

The island slowly grew larger and gradually turned into a continent.

Dantian grows out of the mainland.

All of this is composed of fairy spirit energy.

Zhang Yuhe knows.

This is the sign of Taiyi Immortal.

After the monk broke through and became Taiyi Immortal.

In the Dantian Qi sea, land will begin to form.

These continents are naturally not entities, but a spiritual manifestation.

The spiritual continent in Dantian is the foundation of Taiyi Immortal.

In rumors.

Daozu's Dantian Qihai will even form a tendency to form a miniature world.

Of course.

It's just a trend.

Although Taozu mastered Taoism, his power was all over the world.

But Daozu is still a monk, not the Creator.

There is no real world evolving in Dantian.

Maybe there is a realm above Dao Ancestor.

Aren't Chaos Beasts offering sacrifices to the Supreme True God?

Perhaps the Supreme True God, above Tao Ancestor, can evolve the world and create all things.

Otherwise.

Why can Chaos Beasts gain power through sacrifice?

Where do these powers come from?

Zhang Yuhe thinks.

Perhaps the Supreme True God improves himself by absorbing the sacrifices contributed by Chaos Beasts.

Then some of the power is fed back to the Chaos Beast to maintain a complete closed loop.

Zhang Yuhe believes it.

He is definitely not the only one who has such speculation.

Those Dao Ancestor Emperors and even Da Luo Immortal King would also have similar speculations.

It's just where the Supreme True God comes from and what kind of strength he has.

No one knows this.

At least based on Zhang Yuhe's knowledge.

He doesn't know.

...

With the continuous influx of spiritual energy.

Huge waves arose in the sea of Zhang Yuhe's dantian.

The spiritual continent located in the center is still slowly expanding.

The aura on his body has also been rising rapidly.

I don't know how much time has passed.

Suddenly, a powerful aura suddenly surged out of Zhang Yuhe.

A powerful aura swept across the world.

Feeling this powerful aura, Dao Sheng Sect disciples who were hundreds of millions of miles away couldn't help but feel inexplicably frightened.

Some disciples with lower cultivation levels even almost fell into the sea.

Fortunately, this powerful aura quickly disappeared after sweeping across it.

"What happened just now? There seems to be a feeling of impending disaster."

"It's so scary. Did the Great Luo Immortal King pass by just now?"

"Are you kidding? In our place, we don't even have an Immortal Lord Taiyi. How can we get an Immortal King Da Luo?"

"Do you think it's possible that the sect leader has made a breakthrough?"

"Probably."

at this time.

Lian Zhengyu's voice reached everyone's ears one after another.

"Don't panic, everyone, pay attention to the surrounding situation, and never let anyone get close to Galaxy Island."

"Yes, Palace Master."

Everyone was surprised at first, and then quickly turned to ecstasy.

Although Lian Zhengyu did not explain the reason.

But we are not fools.

It's all come to this time.

Everyone already understands.

Over there on Galaxy Island, there must be someone who is making a breakthrough.

And judging from the power just now.

This is obviously not a breakthrough to the ordinary realm.

They almost certainly are.

It must be the sect leader who has broken through to Taiyi Immortal Lord on Galaxy Island.

Think of this.

Everyone was extremely excited.

Once the sect leader breaks through to Taiyi Immortal Lord, the strength of Dao Sheng Sect will inevitably reach a new level.

As the saying goes, it's good to enjoy the shade under a big tree.

If Zhang Yuhe successfully breaks through to Taiyi Immortal Lord.

They, the disciples within the sect, can also benefit from the light.

Just at this time.

The sky suddenly changed color.

A strong wind swept across the sky, and dark clouds rolled in.

...

Chapter 324 Qingtian Ax Shadow

As Zhang Yuhe's aura rose.

In an instant, the situation suddenly changed.

On the empty sea, dark clouds suddenly filled the sky.

Section 399

The strong wind whipped up huge waves, as if they were trying to capture the entire sky.

The area covered by dark clouds began to expand rapidly.

From the beginning, it was only around Galaxy Island, but soon it spread to the entire Ji'an sea area.

Dark clouds covered the entire Ji'an sea area, as if the end was coming.

An inexplicable aura of terror lingered in everyone's hearts.

Even those who were practicing in seclusion were awakened at this time.

Some people even suffered a lot of damage because their cultivation was suddenly interrupted, causing their aura to reverse.

Countless monks walked out of the cave.

When they saw that the sky was as dark as ink, they couldn't help but feel shocked.

No one has ever seen such a vision before.

"What's going on? Is someone going through a tribulation?"

Looking at the vision in the sky, countless people silently muttered to themselves.

Everyone has seen the catastrophe.

After all, starting from the Void Refining Realm, monks will face heavenly calamity every time they break through a major realm.

However, no one has ever seen a situation like this.

They didn't see who was going through the tribulation and where they were going through the tribulation.

Everyone can only feel the aura of heavenly calamity from the terrifying pressure.

Otherwise.

They still don't understand what happened.

By contacting friends and family all over the place.

At this time, everyone was shocked to find out.

Such terrifying catastrophe visions are not limited to one place.

Instead, it has enveloped the entire Ji'an sea area.

Facing such a terrible catastrophe, the monks were so frightened that they dared not move at all.

Everyone gathered together in twos and threes and discussed quietly.

"Brother Taoist, is this a vision of heavenly calamity?"

"That's natural. The aura of Heavenly Tribulation is so strong, maybe it will gather into thunder after a while."

"Who is going through the tribulation? How come there is such a terrifying aura?"

"I don't know. I have never seen such a terrifying vision of heavenly tribulation."

"The ordinary Taiyi Heavenly Tribulation does not have such terrifying power."

"Perhaps there is a powerful person from the outer sea area who can survive the great Luo Immortal Tribulation in the Ji'an sea area."

"Impossible. How can crossing the Great Luo Immortal Tribulation be such a child's play? You will definitely find a place you are familiar with."

"Then what do you think is going on now?"

"I remembered, Dao Sheng Sect blocked Galaxy Island on a large scale some time ago?"

"Do you think it could be someone from the Dao Sheng Sect who is going through the tribulation on Galaxy Island?"

"It's impossible. Dao Sheng Sect doesn't even have Immortal Lord Taiyi. Who can cause such a terrible disaster?"

"Have you forgotten? Ancestor Lu of the Dao Saint Sect has been missing for millions of years."

"Perhaps he encountered some special adventure somewhere and made a rapid breakthrough in his cultivation."

"That's nonsense. Before Lu Yunfei disappeared, his cultivation level was only Golden Immortal Perfection."

"It has just been a million years. Even if he eats ginseng fruit every day, it is impossible for him to break through to the Great Luo Immortal King, right?"

"makes sense."

"Maybe it's an elder from Dao Sheng Sect who is breaking through Taiyi Immortal Lord, right?"

"Will the Taiyi Heavenly Tribulation have such terrifying power?"

"Who knows, I haven't seen it before."

"That's right."

"Maybe it's really Dao Sheng Sect, and someone is trying to break through Taiyi Immortal Lord."

"I hope so."

"Once the Dao Sheng Sect gives birth to Immortal Lord Taiyi, the Immortal Dao in our Ji'an sea area will inevitably usher in rapid development."

"I hope so."

...

Zhang Yuhe stood up slowly.

He looked up at the sky.

I saw dark clouds as black as ink, quickly gathering above my head.

The clouds pressed directly against the sea, making it impossible to distinguish between heaven and earth.

Seeing this situation, Zhang Yuhe's expression remained extremely indifferent.

no doubt.

This catastrophe is very strong.

It was countless times stronger than the previous catastrophes he had never survived.

It was stronger than any natural disaster he had ever seen.

It was even much more powerful than the Heavenly Tribulation he had imagined.

despite this.

Zhang Yuhe still showed no fear.

He had confidence in the Renshui thunder-absorbing array he had deployed.

After further improvements.

Today's Renshui Thunder Absorbing Formation has undergone earth-shaking changes.

After all, it was a formation composed of 100,000 mid-grade immortal weapons.

Such a huge cost is invested.

Naturally, it is impossible to say nothing.

not to mention.

Zhang Yuhe also integrated the power of the Supreme Law into the formation.

Especially the law of yin and yang has a unique effect in defense.

Zhang Yuhe believes it.

Use the improved version of the Renshui mine-absorbing array.

He survived this catastrophe without any problems at all.

No matter how powerful the Heavenly Tribulation is, there will definitely be a limit.

And the Renshui thunder-absorbing array he had just deployed.

It must be possible to withstand the catastrophe within this limit.

Zhang Yuhe is very confident in the formation he has arranged.

Therefore, even if the catastrophe has not yet come, the vision is like the end of the world.

He didn't have any worries either.

Nothing to worry about.

It won't be too difficult to survive this wave of catastrophe.

Zhang Yuhe thought silently while looking up at the dark clouds that were gathering rapidly in the sky.

It was different from the calamities he had experienced before.

This catastrophe came extremely slowly.

The sky had been filled with dark clouds for half an hour, but no thunder was seen.

Not only was there no thunder, but even the vortex of the heavenly tribulation that condensed thunder was not seen.

Seeing this situation, Zhang Yuhe murmured to himself.

"This heavenly tribulation seems to be a little special."

By looking through the classics, Zhang Yuhe learned about the experience of other Taiyi Immortal Lords in overcoming the tribulation.

In addition to the power of thunder, which will be extremely fierce.

Taiyi Heavenly Tribulation and Golden Immortal Heavenly Tribulation are actually no different.

However, the heavenly tribulation he faced this time was obviously not the case.

There was no heavenly tribulation vortex, so where would the thunder come from?

Just when Zhang Yuhe was very puzzled.

The dark clouds in the sky began to roll violently.

A dazzling light flashed from the sky.

The thick dark clouds were instantly split into two by this light.

At this time.

A huge axe flashed from the light.

Section 400

The giant ax shone with an icy cold light and struck straight down in the direction of Galaxy Island.

See this situation.

Zhang Yuhe couldn't help but be stunned.

What's happening here?

Where did the giant ax come from?

Aren't monks always struck by lightning when they lead to catastrophe?

Where did that exaggerated giant ax in the sky come from?

Could someone want to give him a blow with an ax while he was going through the tribulation?

No way.

If you interfere with other people's tribulation, you will also be involved.

No one would be that stupid, right?

It can't be some big boss who wants to die with him, right?

This is impossible.

Who would think so hard?

However, the huge ax shadow in the sky did not give him any more time to think about it.

I saw the giant sky-holding ax shining with cold light, splitting the dark clouds in the sky with one blow, and headed straight for Galaxy Island.

Seeing the shining power of the ax shadow, Zhang Yuhe did not dare to be careless at all.

Although at this time, he already had some guesses in his mind.

But just to be on the safe side.

He still used all his strength to activate the Nine Heavens Hunyuan Sword Formation.

Layers of sword energy light curtains, with a thick aura, firmly guarded him.

No matter what happened, let's activate the sword formation first.

As far as defense is concerned.

The Nine Heavens Hunyuan Sword Formation is always trustworthy.

...

Chapter 325: Heavenly Tribulation Transformed into Divine Weapon

With a terrifying aura, the Sky-Qing Ax Shadow split open the dark clouds in the sky and struck directly at Galaxy Island.

Zhang Yuhe was observing the changes in the sky while activating the Nine Heavens Hunyuan Sword Formation.

When the shadow of Qingtian's ax struck the sky above Galaxy Island.

The light blue light curtain flashed slightly.

The yin and yang runes circulated rapidly, and the runes were stacked on top of each other, just blocking the front of the ax shadow.

The sky-high ax struck the blue light curtain with great power in an instant.

The light curtain flashed for a while, a dazzling light.

Rune patterns exploded instantly.

After being intercepted by light curtains and runes.

Qingtian's ax shadow quickly shrank, and at the same time, the power carried by the ax shadow also declined rapidly.

After passing through the light curtain, the remaining shadow of the ax was not even one-third of its original size.

See this situation.

Zhang Yuhe breathed a sigh of relief.

Now he finally understands.

This terrifying shadow of a sky-holding ax is not a real thing, but the result of a catastrophe.

to be honest.

He had never heard of such a thing before.

Zhang Yuhe only knows.

under certain special circumstances.

During the catastrophe, the shadow of the genius will appear.

He once went through the Great Heavenly Tribulation of Ascension and the Golden Immortal Tribulation.

They have also encountered the genius phantom.

But this kind of thing has never been seen before.

He hadn't even heard of it.

There is no such record in various classics.

Could it be that the calamity he caused this time was the first of its kind in the immortal world?

It's probably unlikely.

Maybe he just doesn't know enough.

The fairy world is so vast, and there are countless talented people.

Relative to the entire fairy world.

The history of Daosheng Sect is still a bit too simple.

From the time Lu Yunfei established the sect to now.

It only takes a few million years.

The collection of classics accumulated within the sect is limited.

There are many strange things that they have no way of knowing.

Even though Zhang Yuhe obtained a large number of classics in the Taixu Secret Realm.

It records a lot of precious knowledge.

But there is still no record about the transformation of the divine weapon from the catastrophe.

Perhaps only those holy places where the Daozu Emperor was seated would have similar records.

Of course.

The most likely possibility is that the catastrophe he ushered in this time may have broken the record in the fairy world.

Perhaps this is the first time that something like a divine weapon has appeared in the fairy world.

Think of this.

Zhang Yuhe was speechless.

Because his talent is too heaven-defying, he suffers disaster every time.

It has also become more perverted.

"Fortunately, I was prepared."

Zhang Yuhe murmured to himself while activating the sword formation.

The power of Qingtian Ax Shadow is indeed very terrifying.

It may even be stronger than the top-grade immortal weapon activated by Immortal King Daluo.

But this sky-holding ax shadow is not a real magic weapon, but a form of heavenly calamity.

Since it is a catastrophe, the Renshui Thunder Absorbing Formation can be dealt with.

The fact is what Zhang Yuhe thought.

After being weakened by the formation light curtain.

The power of the giant ax weapon transformed by the calamity is only one-tenth.

It's no longer something to be afraid of.

Qingtian's ax shadow passed through the blue light screen and hit the Nine Heavens Hunyuan Sword Formation head on.

The runes on the sword array flashed, blocking the giant ax with ease.

After being weakened by Renshui's thunder-absorbing formation, the ax shadow transformed from the Heavenly Tribulation.

Not even one of the sword energy light curtains in the Nine Heavens Hunyuan Sword Formation could be penetrated.

After a while, the shadow of the ax disappeared.

The crack in the sky began to slowly heal.

Dark clouds covered the sky again, turning it into pitch black.

Zhang Yuhe raised his head and looked at the sky without any fluctuation in his heart.

It had shocked him just now.

I thought it was someone who wanted to cause trouble.

It turned out that he was overthinking.

No one is causing trouble, it's just that this disaster has a few more tricks.

That being the case.

So what else does he have to worry about?

No matter how strong the calamity is, just take it slowly.

No matter how strong the wind blows, I will remain unmoved.

Zhang Yuhe understood the situation through the shadow of the Sky-lifting Axe just now.
