

## Top talent 40

### Section 40

However, he quickly returned to his arrogant look. He had already said the big words, and now it was too late to take them back.

Li Tian said calmly with a stern expression.

"Junior brother, plunder the formation for me, and leave these rubbish of the Demon God Cult to me to deal with."

After saying this, Li Tian waved his hand and punched towards Jingkong City.

boom.....

The huge flaming fist shadow, with its scorching light, instantly destroyed the surrounding warning formations.

Not only that, the shadow of the flame fist spanned a thousand miles and struck directly on the top of Jingkong City.

A huge light curtain rose from Jingkong City and enveloped the entire city.

Nine huge python shadows appeared on the light screen and circulated slowly.

The shadow of the flaming fist hit the light screen, only causing ripples.

Jingkong City was safe and sound, and Li Tian's powerful punch had no actual effect.

"Nine Python Forbidden Spirit Array."

Seeing the formation of Jingkong City rising, Zhang Yuhe couldn't help but feel stunned.

He knew this formation. It was a seventh-level formation with extremely strong defensive power.

Not to mention ordinary god-transformation cultivators, if they don't know the secrets, even if they are Void Refining cultivators, they won't be able to break through this formation easily.

He can break this formation, but it will take time and cannot be interfered with too much.

After Li Tian tried a punch, he naturally saw some tricks.

On his own, even if he attacks continuously for half a month, he may not be able to break the formation of Jingkong City.

If we really have to wait until then, the cucumber dishes will be cold.

"I didn't expect that this time the Demon God Cult would arrange such a powerful defensive formation in advance."

Li Tian looked solemn. He glanced in the direction of Jingkong City, then turned to Zhang Yuhe and tried to ask.

"Junior brother, do you know this formation?"

Zhang Yuhe nodded and replied solemnly.

"This is the Nine Python Forbidden Spirit Formation."

Hearing this, Li Tian was stunned.

Originally, he had some guesses, although he was not proficient in battle tactics.

But after all, he has been practicing for nearly a thousand years, and he still has some knowledge.

"Nine Python Forbidden Spirit Array? This is a bit difficult to handle."

Li Tian muttered to himself.

Regarding this formation, Dao Shengzong left a corresponding introduction, which he had seen in the library.

Knowing that this formation is extremely defensive, it will take a lot of time to break through it.

Obviously, what they lack now is time.

However, Li Tian soon thought that since Zhang Yuhe knew this formation, he might know how to break it.

Think of this. Li Tian asked somewhat eagerly.

"Junior brother, do you know how to break the formation?"

Zhang Yuhe nodded.

"I know, but it will take some time."

Li Tian couldn't help but be overjoyed, he almost thought something was going to go wrong this time.

After all, the city was filled with darkness and fog, and it was obvious that the Demon God Sect had begun to activate the Tiangang Boundary Breaking Formation.

Now even if they wanted to rescue Dao Shengzong, it would be too late.

Dao Sheng Sect is so far away, even if there is a teleportation array, the elders of the sect will not be able to catch up in a short time.

Now they can only rely on the two of them to stop the Demon God Cult's attempt.

Li Tian said excitedly.

"Junior brother, please break the formation, I will deal with the scum of the Demon God Sect."

At this time, there were already several streams of light flying from the direction of Jingkong City.

"Okay, senior brother, be careful, I will break the formation first."

Zhang Yuhe glanced at the streamer in the distance and didn't say any more nonsense. It was important to break the formation first.

He quickly swept aside, and at the same time waved his right hand, formation flags flew around Jingkong City.

The Nine Python Forbidden Spirit Formation is extremely difficult. If you want to break this formation, you can only rely on brute force and slowly consume it.

But they obviously don't have the time.

So Zhang Yuhe changed his mind.

Use the formation to break the formation.

He can set up a powerful attack formation around Jingkong City, and then use the power of the formation to break through the Nine Python Forbidden Spirit Formation.

But in this way, he not only needs to keep setting up the formation, but also maintains the operation of the formation.

The most important thing is that the people in Jingkong City cannot be allowed to destroy the formation he has set up.

Things look simple, but in practice, they are extremely difficult.

However, Zhang Yuhe had no other choice but to quickly set up the formation while observing the battle situation on Li Tian's side.

...

When the light curtain of Jingkong City rose, Concubine Ming Yue and others in the city couldn't help but be shocked.

"Someone is here so soon?"

"How could the news from Dao Sheng Sect be so fast? The channel has not been opened yet, and there is no vision coming out."

"Go out and have a look."

"Those who are transformed into gods or above will follow me out of the city to intercept the enemy. The others will guard the altar so that no one can disturb Lord Black Horn."

Faced with the sudden attack, Concubine Ming Yue was a little surprised, but she responded quickly.

The enemy must be intercepted outside the city. Once the enemy enters the city, a melee breaks out inside the city.

The fluctuations caused by the war will seriously interfere with the Horned Demon Clan's clan law on the altar.

In that case, their idea of opening a passage between the two worlds would be in vain.

Fortunately, Jingkong City had already deployed a powerful defensive formation.

Concubine Mingyue was confident that as long as the Dao Sheng Sect did not send out elders above the combined level, they would not be able to quickly break through the defensive formation of Jingkong City.

There are not many elders above the combined level of Dao Sheng Sect, and each of them has important matters to attend to, and generally they will not be dispatched easily.

For Concubine Ming Yue, they just need to delay.

By dragging it until the passage between the two realms opens, her goal will be achieved.

When the time comes, she slaps her butt and leaves, and Dao Shengzong won't even be able to catch her shadow.

As for what the He and Li families think, that's not her concern.

Concubine Mingyue took the ancestors of the He and Li families, plus four god-transformation monks from Fengxin Tower, and quickly flew towards Li Tian's location.

Li Tian snorted coldly when he saw the figure approaching.

"Hmph, Zhao Mingyue, it's you again, the Demon God Sect is really lingering."

...

#### Chapter 41 Zhao Mingyue's Pain Points

After leading everyone to Li Tian, Concubine Mingyue did not take action immediately.

Her beautiful face was as graceful as a peach blossom in full bloom, and she said with a giggle.

"I haven't seen you for hundreds of years. I didn't expect that the senior brother would still remember the slave family."

Hundreds of years ago, when Li Tian took up his post as the guardian envoy for the first time, he discovered traces of the Demon God Cult operating in the local area.

Later, after investigating all the way, I discovered Concubine Mingyue.

Of course, that was another Concubine Mingyue. Although they looked completely different, their auras were similar.

Monks only recognize breath, not people.

Ordinary changes in appearance do not have much effect. If you want to disguise yourself, it is best to do something with your breath.

Concubine Mingyue doesn't have any disguise, she is just an incarnation of the leader of the Demon God Sect.

There are many incarnations like her.

Seeing that Concubine Mingyue was not in a hurry to take action, Li Tian glanced at Zhang Yuhe.

He saw formation flags waving from Zhang Yuhe's hand. He probably understood Zhang Yuhe's thoughts.

He had never thought before that Zhang Yuhe was not only very fast in cultivation, but also very proficient in the art of battle.

Zhang Yuhe actually carried a large number of formation flags with him, which made Li Tian's tense nerves slowly relax.

Everyone knows the principle of using formations to break formations, but just understanding it is useless, you have to be able to do it, and you have to have something on your hands.

Now it seems that Zhang Yuhe is the kind of person who knows how to set up formations and has guys on hand.

Li Tian understood that he only needed to hold Concubine Mingyue and others back so that Zhang Yuhe could break the formation with peace of mind.

As long as the defensive formation of Jingkong City is broken, there will naturally be a way to destroy the altar in the city.

Looking at Concubine Mingyue's beautiful smile, Li Tian was also happy to talk nonsense with her.

He said to Concubine Mingyue with a somewhat disdainful expression.
