Section 41

"Zhao Mingyue, you only dare to let your avatar go outside, and you dare not show your real body?"

"Hehehe, I really dare not. It would be bad if I was caught by the old monster of your Daosheng Sect."

"Why, do you want to see my real body? After I break through to Mahayana, I will go to Daosheng Sect to see you, okay?"

"Dream on, just rely on the magical power of practicing the body to transform into thousands of bodies, don't even think about breaking through Mahayana in this life."

Hearing Li Tian's words, Mingyue Fei's face immediately became extremely gloomy.

Because this sentence hit her sore spot.

About ten thousand years ago, Zhao Mingyue accidentally obtained this magical power of external incarnation, and it was like a treasure at that time.

Because this magical power is really too powerful, it can transform into countless incarnations.

And these incarnations have certain strengths, only two realms lower than the real body.

Such a powerful magical power simply subverts the common sense of ordinary immortal cultivation.

However, what she didn't know at the time was that this incarnation magic power actually had a fatal flaw.

Practicing this incarnation magic power not only takes a lot of time.

Most importantly, each incarnation needs to be attached with part of its own soul.

Once the clone is destroyed, this part of the soul will be lost forever.

The consequence of an incomplete soul is that it will never be able to make any breakthroughs.

She didn't know this at the time, until the first incarnation was killed by the Daosheng Sect, and then she suddenly discovered the huge flaws of this magic power.

More than ten thousand years ago, Zhao Mingyue had already achieved the perfect cultivation of the body.

But more than ten thousand years later, she is still standing still, and her cultivation has not improved at all.

Zhao Mingyue had thought of various ways, but none of them could solve the problem of her incomplete soul.

From then on, Zhao Mingyue became even crazier.

She used the incarnation to stir up storms from time to time in various places in Yufantian.

Because she understood that she would never be able to solve this thorny problem by herself.

She could only hope in the demons, and only those demon gods comparable to the true immortals, could solve her problem of incomplete spirit.

She made her move again and again, just to divert the attention of the Daosheng Sect.

Once the Daosheng Sect was attracted by the incarnation, she would go out in her true body to completely open the passage connecting the two worlds and attract the arrival of the demon gods.

Although the demons who invaded 100,000 years ago were repelled by the Daosheng Sect, the passage between the two worlds was also closed by the Daosheng Sect at that time.

But the closed passage still has a chance to be opened again, and Zhao Mingyue has been looking for such an opportunity.

It's a pity that the passage at that time was located in the back mountain of the Daosheng Sect, where not only the elders of the Daosheng Sect were in charge, but also the Mahayana ancestors were guarding.

As long as she could find a way to lure away the Mahayana ancestors of the Daosheng Sect, she would have the opportunity to sneak into the back mountain and open the passage again.

The arrangement of Jingkong City this time was also for this purpose.

...

Li Tian's words just now were like a knife stabbing Mingyue Fei in the heart.

Her mind had been twisted after ten thousand years of no progress.

She looked at Li Tian with a gloomy face, and then glanced at Zhang Yuhe who was making trouble in the distance.

Concubine Mingyue had always been wary of this new garrison commander.

Because she couldn't see through this person, he seemed to be shrouded in a layer of fog.

Seeing Zhang Yuhe waving the formation flags in his hand, Concubine Mingyue couldn't help but change her face.

She pointed at Zhang Yuhe and hurriedly said to the others around her.

"Go and kill him, don't let him set up the formation. As for this senior brother of the Daosheng Sect, I will treat him well."

"Yes, owner."

The ancestors of the He and Li families, plus four spirit-transforming cultivators of Fengxin Tower, instantly soared into the air and prepared to pounce on Zhang Yuhe.

"Humph, no one wants to leave."

Li Tian was originally willing to waste time with the other party, and he was not in a hurry to take action.

Anyway, Zhang Yuhe was preparing to break the formation.

Now that he saw several Divine Transformation cultivators wanting to disturb him, he naturally wouldn't agree.

Li Tian finished speaking and slapped out with his palm.

A huge palm phantom, emitting a scorching flame aura, instantly enveloped all seven people on the opposite side.

Facing the eldest brother of Daosheng Sect, everyone did not dare to be careless at all.

Mingyue Fei waved her right hand, and a golden bell slowly appeared. She pinched the magic formula, and the golden bell instantly floated above Li Tian's head.

The bell quickly grew larger and enveloped Li Tian, as if to cover him inside.

Li Tian clenched his right fist and punched the bell above his head. The huge fist shadow instantly knocked the bell away.

Others also used their own methods, and one by one, shining spiritual treasures, mixed with various magical powers, attacked Li Tian.

"Hmph."

Li Tian pinched the magic formula, and a scorching wall of flames appeared, blocking all attacks outside.

At the same time, a giant axe emitting a flame aura appeared in Li Tian's hand at some point.

The lower-grade Tongtian magic treasure, Lihuo Suzaku Axe.

Li Tian pinched the magic formula, and the giant axe shone with endless flames, instantly chopped towards Li Jiangxiong, the ancestor of the Li family.

Seeing the giant axe coming, Li Jiangxiong was shocked, and he quickly took out a yellow shield to block in front of him.

The giant axe with burning flames instantly chopped on the shield.

Crack...

The shield in Li Jianghe's hand was just a top-grade magic weapon, which could not withstand the full force of the giant axe at all, and was instantly shattered by the giant axe.

After the shield was shattered, Li Jiangxiong vomited blood and flew backwards.

Li Tian's full-strength attack immediately severely injured one of the opponents, and the strength of the Taoist Master Brother was fully revealed.

Zhang Yuhe was watching the battle situation while setting up the formation.

Seeing Li Tian fighting one against seven, not at all at a disadvantage, and even seriously injuring one of the opponents, he couldn't help but sigh.

"As expected of the senior brother of Daosheng Sect, he is really good."

...

Chapter 42 The Battle Begins

Seeing Li Tian successfully holding all the opponents, Zhang Yuhe continued to concentrate on setting up the formation.

As the formation flags were waved, he quickly set up a huge formation outside Jingkong City.

Zhang Yuhe pinched the magic formula

"Set up the formation."

In an instant, the wind and clouds within a radius of thousands of miles suddenly changed.

The sky above Jingkong City was covered with dark clouds, and countless spiritual energy rushed towards this side.

The dark clouds quickly gathered to form a huge vortex, and lightning as thick as buckets was constantly generated from the vortex.

Zhang Yuhe pinched the magic formula continuously to control these lightnings and struck the sky above Jingkong City.

Boom boom...

As lightning strikes quickly, the light curtain on Jingkong City keeps shaking.

Kuishui Lightning Array.

This is a sixth-level large-scale attack array.

When normal cultivators fight, such an array is not very useful.

Because it takes a lot of time to set up the Kuishui Lightning Array.

More importantly, this array has no sealing effect.

In other words, when others see the array is turned on, they can run outside.

As long as they run out of the coverage of the array, this array is just a decoration.

But when dealing with fixed targets, Kuishui Lightning Array has a miraculous effect.

Just like now, Jingkong City is a dead target, and can only rely on the defense array to withstand it.

However, facing the Kuishui Lightning Array and the lightning that is constantly generated, Jingkong City's Nine Python Forbidden Spirit Array is estimated to not last long.

Zhang Yuhe kept pinching the magic formula, and the lightning was like a storm, quickly striking Jingkong City.

Each of these lightning attacks was much stronger than the flame fist shadow that Li Tian had before.

As for the attack frequency, these lightnings are countless times faster.

Since lightning is generated by the formation, it is not comparable to the attack of cultivators in terms of persistence and continuity.

Most importantly, the lightning generated by these formations does not consume Zhang Yuhe's mana. He only needs to replenish the formation with spirit stones from time to time.

Seeing the changing sky around them, Mingyue Fei and the others were shocked.

They just saw Zhang Yuhe messing around, and they were a little uneasy.

It was just because Li Tian was there that they couldn't take care of Zhang Yuhe for a while.

In their eyes, Li Tian, as the eldest brother of Daosheng Sect, must be much more difficult to deal with than Zhang Yuhe.

So they thought, since they couldn't spare their hands for the time being, they might as well concentrate all their efforts to deal with Li Tian first.

Once Li Tian was dealt with, Zhang Yuhe would be left alone, and they would be at their mercy.
