### Section 42

Who would have thought that within a short time, Zhang Yuhe would have deployed such a sharp formation.

Not only were Concubine Ming Yue and others surprised, but Li Tian was also very surprised when he saw the scene in front of him.

He never expected that Zhang Yuhe's formation skills would be so high.

Setting up a formation is not just about having formation plates or formation flags. Those kind of fool-like small formations usually only have an effect on individuals.

A large-scale formation like the one deployed by Zhang Yuhe must require a master who is extremely proficient in formations to deploy it.

Seeing the streaks of lightning striking the light curtain of Jingkong City one after another, Concubine Ming Yue and others couldn't help but become anxious.

Once the defensive formation of Jingkong City is broken, Zhang Yuhe can completely control these lightning strikes and strike them directly on the altar in the city.

When that time comes, all their previous assumptions will become the moon in the water and the flower in the mirror.

Thinking of this, Concubine Mingyue shouted to the others.

"I'm here to contain Li Tian. You find an opportunity to rush over and kill that kid, or destroy the formation first. At least you won't be able to control the formation to attack Jingkong City with peace of mind."

After Concubine Mingyue finished speaking, she took out a sparkling knife.

The middle grade Heaven-reaching Spiritual Treasure, the God-cutting Sword.

Concubine Ming Yue kneaded the magic formula with her hands, and poured all the magic power into the knife crazily.

"go."

The God-Slaying Sword instantly expanded countless times and turned into a huge long knife, slashing straight towards Li Tian across the sky.

Feeling the huge spiritual pressure in the sword light, Li Tian was stunned, and he quickly took out a shining shield to face the sword light.

Fei Yanli Fire Shield.

This is also a mid-grade spiritual treasure, a life-saving trump card at the bottom of Li Tianyao's box.

Under normal circumstances, the god-transforming monks can only use low-grade Tongtian spirit treasures at most.

A middle-grade heaven-reaching spiritual treasure requires at least a monk in the Void Refining Realm to activate it.

However, Li Tian and Concubine Mingyue are not ordinary people. They either have special skills or powerful talents.

Although the consumption is huge, they can still forcefully activate the middle-grade Tongtian Lingbao.

boom.....

The sword light struck the shield in an instant, leaving a shallow scratch on the shield.

After the flash of inspiration, the shield returned to normal.

Facing the attack of the middle-grade Tongtian Lingbao, Li Tian was still protected by the middle-grade Lingbao, but he was still knocked back hundreds of miles by this blow.

When the others saw Li Tian being repelled by Concubine Mingyue, they quickly turned their heads to kill Zhang Yuhe.

"Damn, this is too weak."

Zhang Yuhe was concentrating on controlling the formation to attack Jingkong City when he saw six god-transforming monks rushing towards him.

Countless words of maimaipi came to his mind.

This senior brother is too unreliable. I leave all the promises to you so that I can set up the formation with peace of mind.

What the hell, out of a total of seven people, six came to me.

Of course, he also knew that Li Tian had tried his best.

How do you say that?

Don't blame the national army for its incompetence...

Seeing the six god-transformation monks rushing toward him, Zhang Yuhe waved his right hand, and nine flying swords shining with various auras instantly appeared around him and slowly circulated.

The natal magic weapon, Jiutian Hunyuan Sword.

There are nine flying swords in total, all of which are low-grade Tongtian spirit treasures.

Every time he breaks through the realm, Zhang Yuhe will upgrade the Nine Heavens Hunyuan Formation.

With his current level of cultivation, at best he can only refine a low-grade Heaven-reaching Spiritual Treasure.

He used to think that as a god-transformation monk, having a low-grade Heaven-reaching Spiritual Treasure would be enough for him.

Zhang Yuhe pinched the magic formula, and the flying sword rotated rapidly, and soon a dense sword shadow light curtain formed around him.

It's not that he doesn't want to draw lightning to attack these six god-transforming monks.

It's just that when setting up the formation just now, Zhang Yuhe only considered that he should maximize the destructive power of the formation on Jingkong City.

Therefore, he compressed the attack range of Kuishui Thunder Formation to the area of Jingkong City.

It's embarrassing now.

He not only had to lead the formation to attack Jingkong City, but also had to deal with the attacks of six god-transformation monks.

"Do you really want me to fuck you twice?"

Zhang Yuhe felt a little numb.

The attack on Jingkong City cannot be stopped. Once it stops, Jingkong City's defensive array will be restored immediately.

All the previous efforts were in vain.

After releasing the Nine Heavens Hunyuan Sword, Zhang Yuhe looked at the god-transforming monks.

Among these six people, there was a man with a scar who was also in the late stage of becoming a god.

Three of the remaining five people are in the middle stage of divine transformation, and the ancestors of the He and Li families are in the early stage of divine transformation.

"It's a bit difficult."

Fortunately, the Nine Heavens Hunyuan Sword Formation integrates offense and defense. Now let's see how powerful this magical power is, right?

Although he has practiced Taoism for hundreds of years, Zhang Yuhe has never really fought with others.

This was his first time facing a monk of the same level head-on.

Six god-transformation monks came to Zhang Yuhe. They looked at the sword shadow light curtain around Zhang Yuhe and couldn't help but feel a little frightened.

But they didn't have much time to worry, because Concubine Mingyue was not certain and could hold Li Tian back forever.

Once Li Tian escapes, it will be even more troublesome.

The scarred man shouted loudly.

"I come."

He quickly took out a small, sparkling hammer and injected it with mana.

The small hammer turned into a huge hammer shadow and hit Zhang Yuhe.

## Chapter 43 Am I so powerful?

Seeing the hammer shadow falling, Zhang Yuhe felt a little panicked. He really didn't know how to handle the Nine Heavens Hunyuan Sword Formation.

This magical power is described as awesome, but what is its actual effect?

He has never really experienced it.

What if the description of the skill is a lie?

After all, many skills are exaggerated, and they are often said to have the ability to overturn the world.

Zhang Yuhe used most of his mind to control the Nine Heavens Hunyuan Sword Formation.

If he can't hold on, he will run away.

First, keep a distance, then do it.

Fortunately, his escape speed is good, and he has experienced the extreme speed of Tianhuang Feixianshu.

This is indeed a magical power suitable for running away.

Boom...

The huge hammer shadow hit the sword shadow light curtain, but the light curtain didn't even shake.

"Haha, the Nine Heavens Hunyuan Sword Formation is awesome."

Seeing that the defense effect of the Nine Heavens Hunyuan Sword Formation is as stable as Mount Tai, Zhang Yuhe is completely happy.

Damn, since there is such an awesome defense, I don't bother to pay attention to these people.

First, concentrate on pulling the lightning to attack Jingkong City.

The scarred man and the other five people were completely stunned.

You know, the small hammer in his hand is a Tongtian Lingbao.

Although it is only a low-grade one, it is also a Tongtian Lingbao, not a piece of tofu.

The Tongtian Lingbao hits with all its strength, not to mention destroying the world, but it is no problem to flatten the mountains and seas.

However, such a fierce attack, hitting Zhang Yuhe's sword shadow light curtain, did not even tremble.

What kind of defense is this.

The six people at the scene were completely dumbfounded.

"What should we do now?"

They were completely at a loss.

Originally thought that Zhang Yuhe was a soft persimmon.

Now it seems that this is a hard walnut, at least an iron turtle.

If the defense can't be broken, what's the point of playing.

"Let's go, let's find the corner of the formation and break the formation he arranged first."

The scarred face had no idea at all when facing Zhang Yuhe's turtle defense.

He thought, you are using your turtle shell to attract lightning to attack Jingkong City, aren't you?

Then we will break your formation and see how you can still attract lightning.

Scar waved his hand, and the six people quickly dispersed and flew towards Zhou Si, preparing to find the formation flags arranged by Zhang Yuhe.
