

Top talent 421

Section 421

And compared to breaking through Taiyi Immortal Lord.

No matter how precious the treasure is, what does it matter?

If the Nangong Immortal Clan could be given one more Taiyi Immortal Lord.

He is willing to pay any price.

For this reason, he came to Dao Shengzong.

I deliberately took out a top-notch treasure from the clan's treasure house.

Nangong Tianming believed it.

This treasure will definitely satisfy Zhang Yuhe.

Think of this.

Nangong Tianming asked Zhang Yuhe seriously.

"Then I'll make it clear."

He pointed at Nangong Youxi and then continued.

"I would like to borrow your sect's great tribulation formation for You Xi to use. I wonder if it is convenient."

Zhang Yuhe responded readily.

"It's no problem to borrow the formation, it's just..."

Zhang Yuhe didn't finish his words.

Nangong Tianming immediately took over and said.

"I know that your sect must have spent a huge price in building the tribulation formation."

Speaking of which.

He paused, then took out an exquisite jade box and handed it over.

"I wonder if I can give this thing to You Xi in exchange for a chance to use it?"

Zhang Yuhe was not polite either.

He reached out and took the jade box.

When the jade box is opened.

I saw a blue stone lying quietly in the jade box.

The surface of the stone exudes a faint mysterious aura.

See the blue stone in the jade box.

Zhang Yuhe couldn't help being surprised.

He turned to Nangong Tianming and asked.

"Is this an innate spiritual material?"

"It is indeed an innate spiritual material."

Nangong Tianming nodded.

The blue stone in the jade box is an innate spiritual material.

Zhang Yuhe naturally understands how precious innate spiritual materials are.

It has been so many years since I ascended to the immortal world.

He only accidentally discovered a piece during the last beast wave.

He has been integrated into the metallic fairy sword in his natal fairy weapon.

Integrating innate spiritual materials into the natal fairy weapon can not only greatly enhance the power of the natal fairy weapon.

It can also promote the growth of the natal immortal weapon on its own.

Zhang Yuhe thought.

No matter who obtains such a treasure, he will immediately integrate it into his own natal fairy weapon.

But Nangong Tianming actually kept this innate spiritual material until now.

And you even took it out and exchanged it with him for the opportunity to use the Tribulation-Transcending Formation?

Zhang Yuhe felt very puzzled by this.

Could it be that Nangong Tianming's natal immortal weapon has been integrated with innate spiritual materials?

Seeing Zhang Yuhe's confused eyes.

Nangong Tianming said helplessly.

"Many years ago, I accidentally obtained this innate spiritual material in the Chaos Continent."

"It's just that my natal immortal weapon is a bit special and is not suitable for blending into innate spiritual materials."

"That's why this piece of innate spiritual material can be kept until now, just to give it to fellow Taoist as a gift for being promoted to Immortal Lord."

Zhang Yuhe didn't know whether Nangong Tianming's words were true or false.

But it doesn't matter.

Use innate spiritual materials in exchange for a chance to use the Tribulation Array.

Of course he is willing.

Things like innate spiritual materials.

It is completely something that can be met but cannot be sought.

There is simply no place to buy it.

You can only rely on yourself and try your luck on the Chaos Continent.

It is possible to find it.

Of course.

You may also be able to get it in exchange for some particularly high-end trade fairs.

After all, each natal immortal weapon can only be integrated into one innate spiritual material.

If it has been integrated before and then obtained innate spiritual materials again.

Naturally, they will be traded.

It's just that there are fewer such opportunities.

Even if it appears at a trade fair, it will cause fierce competition.

Zhang Yuhe was a little skeptical.

Nangong Tianming's natal immortal weapon should have been integrated with innate spiritual materials.

As for what to say, it's unsuitable and other nonsense.

Zhang Yuhe would not believe it.

Innate spiritual materials have excellent versatility.

It can be integrated into any kind of fairy weapon.

But he didn't dwell on this issue.

He was not interested in asking about Nangong Tianming's secrets.

He would be satisfied if he could exchange it for an innate spiritual material.

Think of this.

Zhang Yuhe put away the jade box, then said to Nangong Tianming with a smile.

"Then I would be disrespectful."

He turned to Nangong Youxi and asked.

"I wonder when Fairy Youxi plans to use the tribulation formation?"

...

Chapter 339 Haoyang Fairy Water

Seeing Nangong Tianming and Zhang Yuhe, they finally agreed on the matter.

Nangong Youxi breathed a sigh of relief.

She has been waiting for millions of years just for this day.

Today I finally saw hope.

But in order for her to survive the catastrophe safely.

My ancestors also fought hard.

He literally took out all the coffin books.

Nangong Tianming took out such heaven-defying treasures as innate spiritual materials.

Just to give her one chance to use the Tribulation Formation.

She heard Zhang Yuhe ask her when she would need to borrow the Tribulation Formation.

Nangong Youxi took a deep breath, and then responded firmly.

"Just now."

"Now?"

Hearing this, Zhang Yuhe couldn't help but be stunned.

This is too childish.

Breaking through Taiyi Immortal Lord is no small matter.

Doesn't Nangong Youxi need to prepare a lot?

Section 422

However, I think of Nangong Youxi, who has been in the realm of Golden Immortal Perfection for a long time.

The preparations that need to be made are probably already done.

Break through the bottleneck and lead to the catastrophe.

It shouldn't be difficult for her.

Think of this.

Zhang Yuhe said with a smile.

"In that case, let's go to Galaxy Island together, where the tribulation formation is arranged."

"Okay, let's go now."

Nangong Tianming responded with a voice.

I saw him wave his right hand.

A huge fairy ship appeared in front of everyone in an instant.

After a while.

The immortal ship turned into a stream of light and quickly flew out of the Dao Sheng Sect's mountain gate.

Half a day later.

The fairy ship descends over Galaxy Island.

Saw Zhang Yuhe arriving.

The two Jinxian elders who were responsible for staying behind immediately flew forward and shouted respectfully in unison.

"I've met the sect master."

Zhang Yuhe nodded slightly, then introduced the two of them with a smile.

"This is Immortal Lord Tianming, come here and meet me."

"Meet the Immortal Lord."

After Nangong Tianming nodded, he looked around.

I saw that the huge Galaxy Island was completely deserted.

With his eyesight, he can naturally see it.

This is an island that has been artificially transformed and expanded.

It's just that he has never been here before.

I don't know what it was like here before.

But now it seems.

The scale of this Galaxy Island is really not small.

At least millions of miles in radius.

Nangong Tianming looked into the distance.

I saw tall pillars standing on the edge of Galaxy Island.

These pillars looked familiar.

It is basically not much different from the thunder-absorbing pillars used by Zhang Yuhe to help their Nangong Immortal Clan arrange the tribulation platform.

However, the spiritual light emitted from the surface of these lightning-absorbing pillars.

Compared with their Nangong Immortal Clan, the thunder-absorbing pillar on the other side of the Tribulation Platform.

Much more powerful.

He felt it slightly.

Discover these lightning pillars in front of you.

All of them are middle-grade immortal weapons.

This surprised him very much.

Nangong Tianming made a rough count.

It was discovered that there were as many as 100,000 lightning-absorbing pillars around Galaxy Island.

This means that.

Zhang Yuhe arranged this great formation to overcome the tribulation.

He actually used one hundred thousand middle-grade immortal weapons.

"It's really a big deal."

Seeing such a situation, Nangong Tianming couldn't help but marvel.

He himself has some experience in the formation method.

for him.

It is not too difficult to set up an ordinary third-order immortal formation.

However, the tribulation-transmitting formation in front of me is only a second-level immortal formation.

He actually couldn't understand it.

The tribulation formation arranged by Zhang Yuhe was really too complicated.

It is not surprising that monks use immortal weapons as the base to arrange formations.

In fact, most people do this.

But in normal times.

Generally, everyone will only use one fairy weapon as the base of the formation.

How could he be like Zhang Yuhe?

In order to set up a large formation, more than 100,000 middle-grade immortal weapons were used at the same time.

the most important is.

How did Zhang Yuhe connect so many immortal weapons together perfectly?

The difficulty of this.

Nangong Tianming simply couldn't imagine it.

It's like trying to solve a Rubik's Cube.

The five-square Rubik's Cube and the nine-square Rubik's Cube are not at the same level of difficulty at all.

He really couldn't understand how Zhang Yuhe did it.

What kind of complicated formations are needed to connect so many immortal weapons together?

How much talent is needed to create such an exaggerated formation?

Nangong Tianming didn't dare to think about it at all.

Originally he thought.

Maybe Zhang Yuhe obtained some kind of formation inheritance from somewhere.

Only then can we continuously set up various tribulation formations.

Now it seems.

Inheritance is not the key.

Such a complex formation.

Even if it's right in front of you.

There are not many people who can arrange it.

In his opinion.

Zhang Yuhe's talent in formations may have already exceeded his own cultivation level.

He even had some doubts.

If it weren't for insufficient cultivation.

Zhang Yuhe can even set up a fifth-level immortal formation.

Looking at the tribulation formation on Galaxy Island.

Nangong Tianming was amazed by Zhang Yuhe's talent in formations.

Everyone flew and landed on Taiyi Immortal Platform.

Following Zhang Yuhe, he moved the magic formula.

A light blue light curtain slowly rose from the periphery of Galaxy Island.

A blue light curtain enveloped Galaxy Island like a Super Bowl.

Turn the entire island upside down.

After doing all this.

Zhang Yuhe smiled and said to Nangong Youxi.

"Fairy Youxi, the formation has been activated. You can welcome the calamity at any time."

Speaking of this, Zhang Yuhe paused for a while.

Then he said proudly.

"I'm not boasting."

"With the ability of this Renshui thunder-absorbing formation, it can at least weaken more than half of the power of the Heavenly Tribulation."

"Thank you, Immortal Lord Galaxy."

After Nangong Youxi finished speaking, he bowed and saluted Zhang Yuhe.

Then he slowly sat down in the middle of Taiyi Immortal Platform.

Section 423

Zhang Yuhe and Nangong Tianming looked at each other.

Soon he led everyone back.

They retreated until they were 30 million miles away from Galaxy Island.

Only then did everyone stop.

Except Zhang Yuhe and Lian Zhengyu.

Many Jinxian elders from Daosheng Sect also came nearby to observe.

Have the opportunity to watch others live and break through the process of Taiyi Immortal Lord.

Naturally, everyone will not let it go.

But this time, Dao Sheng Sect did not block the area around Galaxy Island.

Because it's completely unnecessary.

There are Nangong Tianming and Zhang Yuhe, the two Taiyi Immortal Lords.

Naturally, there is no need to worry, someone will accidentally break in and disturb Nangong Youxi's breakthrough.

Who dares to cause trouble in front of the Immortal Lord?

Isn't it like living impatiently?

Time passed slowly.

Half a month later.

Zhang Yuhe's expression suddenly changed.

He looked towards Galaxy Island in the distance.

I saw Nangong Youxi on Taiyi Immortal Platform suddenly opening his eyes.

She carefully took out a jade bottle.

A mysterious aura instantly emanated from the jade bottle.

Seeing such a situation, Zhang Yuhe couldn't help but exclaimed.

"Is this Haoyang Immortal Water?"

Nangong Tianming, who was next to him, responded with a smile.

"Yes, it is indeed Haoyang Immortal Water."

"This kid from Youxi is lucky enough to find this thing in the secret realm of Taixu."

"Otherwise, she may not be sure that she can break through the Taiyi Immortal bottleneck."

Zhang Yuhe nodded lightly.

The effect of Haoyang Immortal Water is similar to that of Jiuqiao Linglong Pill.

They are all treasures that assist Golden Immortal monks and break through the bottleneck of Taiyi Immortal.

The only difference is.

The Nine Apertures Linglong Pill is artificially refined.

The Haoyang Immortal Water is a spiritual creature naturally generated by the heaven and earth in some special places.

No processing is required.

It can have the effect of assisting monks to break through bottlenecks.

Relatively speaking,

This natural spiritual water is more popular among monks than the Nine Apertures Exquisite Pill.

Because elixirs have different effects depending on the skills of the alchemist.

If the quality of the elixir is slightly worse, the actual effect will be affected.

But this kind of spiritual creature naturally generated by heaven and earth does not have this problem.

Once this fairy water is formed.

That's the real finished product, and there won't be any difference in the effect.

Looking at the jade bottle in Nangong Youxi's hand.

Zhang Yuhe couldn't help but sigh.

He is not the only one who has great opportunities.

Others are not bad either.

Nangong Youxi can find Haoyang Immortal Water once he enters the Taixu Secret Realm.

This incredible opportunity will indeed make many people envious.

...

Chapter 340 Nangong Youxi Crossing the Tribulation

Seeing the jade bottle in Nangong Youxi's hand.

Zhang Yuhe couldn't help but sigh.

You really can't underestimate anyone.

When he was in Taixu Secret Realm, he did make a lot of money.

But others were not idle either.

Zhang Yuhe thought in his heart.

Since Nangong Youxi can find Haoyang Immortal Water in the secret realm.

Then enter the secret realm together, there are so many people.

Others should and will not leave empty-handed.

There will be some gains.

Maybe there are people like Nangong Youxi.

In the Taixu Secret Realm, I found a spiritual object that could help break through the bottleneck of Taiyi Immortal.

Maybe in the future.

The South China Sea Immortal Territory will gradually appear, the new Taiyi Immortal Lord.

Of course.

It depends on whether other people are prepared enough to survive the Taiyi Heavenly Tribulation.

The Daosheng Sect's Golden Immortal elders looked at the jade bottle in Nangong Youxi's hand.

He couldn't help but show envy on his face.

They naturally know what Haoyang Immortal Water is.

For a monk with perfect golden immortality.

As long as you have a similar spiritual object in your hand.

That is equivalent to getting half a ticket to enter Taiyi Immortal Lord.

The other half of the ticket is about how to survive the catastrophe.

Yu Liwei stood in the crowd, clenching her fists gently.

She was not envious of the Haoyang Immortal Water in Nangong Youxi's hands.

Because Zhang Yuhe had already prepared the Nine Apertures Exquisite Pill for her in advance.

In terms of actual effectiveness.

The Nine Apertures Exquisite Pill is no worse than Haoyang Immortal Water.

Moreover, every elixir refined by Zhang Yuhe is of high quality.

Perhaps the actual effect of the elixir may be stronger than that of Haoyang Immortal Water.

Yu Liwei was silently grateful.

Like Nangong Youxi, a proud man from a powerful force.

They all need to venture into the secret realm of Taixu themselves.

Only then can you have a chance to obtain Haoyang Immortal Water, a spiritual object that helps break through bottlenecks.

And she didn't have to do anything.

Zhang Yuhe helped her prepare.

She didn't know how to repay this kind of kindness.

"Only by practicing hard and being promoted to Taiyi Immortal Lord as soon as possible is the best reward for the sect master."

Yu Li slightly unclenched her fists, thinking silently in her heart.

Under the gaze of everyone.

Nangong Youxi drank the Haoyang Immortal Water in the jade bottle in one gulp.

After a while.

A frightening coercion slowly radiated from her body.

The situation between heaven and earth suddenly changed.

Dark clouds rolled in from the sky.

Nangong Tianming stood on the fairy ship and looked nervously at the Milky Way Island in the distance.

He himself has personally experienced the power of Taiyi Heavenly Tribulation.

In his opinion.

The heavenly tribulation is the way of heaven, a rule to eliminate monks.

Section 424

After surviving the catastrophe, you can enter a higher realm and gain powerful power.

more importantly.

You can get more longevity.

But compared with previous catastrophes.

The power of Taiyi Heavenly Tribulation is completely incomparable.

There have been countless talented and talented people, but they all fell to this point in the end.

The Taiyi realm is a monk, the gateway to immortality.

Therefore, the catastrophe that controls this pass will be particularly powerful.

There used to be countless golden immortal monks who thought they were well prepared.

As a result, he was chopped into ashes by the catastrophe.

Looking at the direction of Galaxy Island in the distance, Nangong Tianming was really worried.

Nangong Youxi is the most talented disciple among the new generation of their family.

And the opportunities are pretty good too.

Not only did he find the Haoyang Immortal Water that broke through the bottleneck in the Taixu Secret Realm.

And just in time, Zhang Yuhe successfully arranged a formation for the Golden Immortal monks to survive the Taiyi Heavenly Tribulation.

Although in order for Nangong Youxi to be able to borrow this tribulation formation.

He paid a huge price.

But a lot of the time.

It doesn't mean that you can get what you want if you are willing to pay the price.

All this seems to be a coincidence, but it is actually a kind of chance.

"Now let's see if this formation is powerful enough."

Nangong Tianming thought silently and glanced at Zhang Yuhe quietly.

Zhang Yuhe's expression was still indifferent.

Nangong Tianming couldn't help but breathed a sigh of relief.

Since Zhang Yuhe is confident, there should be no problem for Nangong Youxi to survive the catastrophe, right?

Zhang Yuhe looked up at the sky.

He is naturally confident.

He faced such a violent disaster back then.

The Renshui thunder-absorbing array on Galaxy Island can withstand it.

The catastrophe vision triggered by Nangong Youxi was compared to what he had experienced before.

Not even one tenth.

The Renshui Thunder Absorbing Formation can at least weaken more than half of the power of the Heavenly Tribulation.

Less than half the power remains.

I believe Nangong Youxi can definitely withstand it.

Under the gaze of everyone.

A huge thunder vortex slowly formed in mid-air.

Thunderbolts, like an overwhelming mountain, quickly struck down in the direction of Galaxy Island.

But compared with the time when Zhang Yuhe crossed the tribulation.

The calamity that Nangong Youxi is facing now can only be regarded as ordinary.

There is neither a divine weapon of calamity nor a shadow of genius.

Just a normal thunder tribulation.

Purple thunder streaked through the void and soon descended on Galaxy Island.

After passing through the blue light curtain.

The originally powerful Heavenly Tribulation Thunder moved at a speed visible to the naked eye.

is being weakened by rapid traction.

See this situation.

Zhang Yuhe made a rough estimate.

After being weakened by Renshui Thunder.

The remaining power of the Heavenly Tribulation is already less than one out of ten.

Just that much power.

As long as he is a normal Golden Immortal Perfection cultivator, he can handle it.

Nangong Youxi stood on the Taiyi Immortal Platform.

She first put on a piece of fairy armor with aura of light, and then presented a golden shield.

This was the method he used to deal with natural disasters before.

Although now, she has borrowed the Dao Sheng Sect's Tribulation Array.

But she wasn't careless.

All defensive measures were still taken to the extreme.

After completing these preparations.

At this time, she was shocked to find out.

It seems a bit over the top.

The thunder passed through the blue light curtain and quickly fell on the defense supported by the shield.

However, this golden light curtain.

It only shook slightly a few times and soon regained its composure.

"Is the power of the Heavenly Tribulation so weak?"

See this situation.

Nangong Youxi couldn't believe his eyes.

The promised Taiyi Heavenly Tribulation is extremely powerful and terrifying.

That's it?

But she also knew it.

The reason why the power of Heavenly Tribulation is so weak.

That's because of the blue light curtain above Galaxy Island.

If there is no interception by the Renshui mine-absorbing array.

The power of the Heavenly Tribulation will definitely not be so weak.

"But this is fine."

"In this way, I will be sure of surviving the catastrophe."

Think of this.

Nangong Youxi's mood finally relaxed.

Although she had always believed that the power of the tribulation formation arranged by Zhang Yuhe must be extraordinary.

Otherwise.

Back then, it was impossible for Zhang Yuhe to withstand the bombardment of the heavenly tribulation and successfully be promoted to Taiyi Immortal Lord.

But imagination and personal experience are two completely different things.

Only experienced it personally.

She only knew the horror of this tribulation formation.

It's simply too powerful.

Standing on the Taiyi Immortal Platform, she could not feel the pressure of the heavenly tribulation at all.

How does this look like the Taiyi Heavenly Tribulation?

When she broke through to the Void Refining Realm, she faced the first disaster.

It's not that easy.

Nangong Youxi stood on the Taiyi Immortal Platform.

There is a golden shield on his head and he is wearing Chaos Immortal Armor.

Let the thunder continue to bombard down.

It takes almost no effort to destroy the Heavenly Tribulation Thunder.

Easily keep out.

...

Chapter 341 Immortal Lord Youxi

Seeing thunder in the sky, it quickly struck Galaxy Island.

Nangong Tianming couldn't help but feel nervous.

But he soon relaxed.

Because those heavenly thunderbolts were weakened by the Renshui Thunder Absorbing Array.

Section 425

There isn't much power left.

Nangong Tianming focused his eyes and shot out two golden lights.

Golden light passed through the dark clouds in the sky.

See the situation on Galaxy Island clearly.

I saw Nangong Youxi standing on the Taiyi Immortal Platform.

He has a golden shield on his head and wears Chaos Immortal Armor.

After being weakened by Renshui's thunder-absorbing array.

The remaining power of the Heavenly Tribulation did not even shake the shield's defense.

Facing the fierce thunderstorm.

Nangong Youxi responded with ease and ease.

There is no pressure.

See this situation.

A faint smile finally appeared on Nangong Tianming's face.

he knows.

This wave is stable.

The Nangong Immortal Clan will definitely add another Taiyi Immortal Lord today.

Zhang Yuhe turned to look at Nangong Tianming, he said with a smile and cupped his hands.

"Congratulations in advance to your family for adding another Immortal Lord."

Hearing this, Nangong Tianming smiled broadly.

He still said modestly.

"Fellow Taoist, thank you very much. The catastrophe has just begun. No one can guarantee it until the last moment."

Nangong Tianming's words were naturally modest.

Even a fool can understand the current situation.

Nangong Youxi is definitely safe in this wave of tribulation.

Although the disaster has just begun.

Moreover, the Taiyi Heavenly Tribulation will last for a long time, lasting 1086 rounds.

And the further you get to the back, the greater the power of the Heavenly Tribulation will be.

The reason why many monks cannot withstand the catastrophe.

It's because the closer you get to the back, the faster and more powerful the disaster will be.

But they obviously don't have to worry about Nangong Youxi's situation.

Because at the beginning of the catastrophe.

Nangong Youxi barely used it, consuming too much immortal energy.

You can easily deal with the bombardment of the catastrophe.

This indicates that.

She can retain enough immortal energy to deal with the subsequent catastrophe.

more importantly.

The Renshui Thunder Absorbing Formation proportionally weakens the power of the Heavenly Tribulation.

No matter how powerful the subsequent catastrophe is, no matter how powerful it is.

After being weakened by the Renshui Thunder Absorbing Array.

There is also very little power left.

It does not pose much threat to Nangong Youxi.

It is precisely because I understand these things.

Nangong Tianming relaxed and chatted with Zhang Yuhe.

At this time, he couldn't help but feel a little lucky.

Fortunately, he had been waiting at Dao Sheng Sect and did not disappear in seclusion because of Zhang Yuhe.

Instead, he chose to leave.

Thinking of the innate spiritual materials that I have given.

Not only was Nangong Tianming not distressed.

On the contrary, I feel it is very worthwhile.

Could it be worth it?

For the Nangong Immortal Clan.

The role of a Taiyi Immortal Lord is far greater than that of innate spiritual materials.

The treasure is gone, but there is still a chance to get it in the future.

But Immortal Lord Taiyi is the real pillar of the family.

Taiyi Immortal Lord has unlimited longevity.

As long as there is no accident, you can permanently protect the Nangong Immortal Clan from wind and rain.

This deal is really a good deal.

Nangong Tianming looked at Galaxy Island in the distance and couldn't help but sigh.

With this great tribulation formation, the Dao Sheng Sect will inevitably embark on the Great Avenue to Heaven in the future.

With the help of such a powerful tribulation formation.

From now on, the Golden Immortal monks of the Daosheng Sect will no longer have to worry about overcoming the tribulation.

Another million years.

Maybe the Daosheng Sect will give birth to a new Taiyi Immortal Lord.

As long as Dao Sheng Sect can always control this great tribulation formation.

Then it is possible that Taiyi Immortal Lord will be born continuously.

In this South China Sea Immortal Realm, it must firmly occupy a place.

The only thing to worry about is.

Will those super powers take action to rob it because they are jealous of this tribulation formation?

But when I think of Zhang Yuhe, he has unparalleled strength.

Nangong Tianming couldn't help but laugh.

As long as Zhang Yuhe is here.

Who dares to come and take the idea of the Holy Sect?

I'm afraid that if Immortal King Daluo comes, I don't dare to say that he can suppress Zhang Yuhe stably.

As long as Zhang Yuhe can't be beaten to death, who would dare to do it easily?

Facing such peerless talent.

Once not killed.

Who can withstand Zhang Yuhe's revenge from behind?

It really made Zhang Yuhe angry.

He threw Dao Shengzong aside.

Find a place quietly by yourself, hide and practice for hundreds of millions of years.

Waiting for his return.

Who in the entire South China Sea Immortal Realm can stop him?

Today's Zhang Yuhe can definitely be said to have achieved success.

Anyone who wants to take action against him needs to think carefully before doing so.

...

Time passed slowly.

One after another, the fierce thunder tribulations were still continuing, striking in the direction of Galaxy Island.

Yet from beginning to end.

The power of the Heavenly Tribulation has never been able to pass through the golden shield above Nangong Youxi's head.

As for the Chaos Immortal Armor on her body, it is more like a decoration.

Totally useless.

With the help of the Renshui Thunder Absorbing Formation.

She only relied on one defensive weapon to survive until now.

And there's no pressure.

Boom...

Sudden.

The tribulation vortex above Galaxy Island began to gather rapidly.

The thunder in the sky was like an overwhelming force, hitting Nangong Youxi on Taiyi Immortal Platform.

"Is this the last round of heavenly tribulation?"

Seeing this situation, Nangong Youxi muttered silently to himself.

Section 426

The process of overcoming the tribulation this time was surprisingly easy.

It made her a little uncomfortable.

She hasn't exerted much strength yet.

The Taiyi Heavenly Tribulation that once daunted her was about to end.

This tribulation was a bit inexplicable.

Thunder thundered down from the sky.

Soon the entire Galaxy Island was submerged.

Nangong Tianming stood quietly in the air, looking in the direction of Galaxy Island in the distance.

There was no worry in my heart.

Although the power of this last wave of catastrophe is indeed extremely ferocious.

In general.

Immortal Lord Taiyi, who had just broken through, could hardly withstand such a fierce bombardment of calamity.

But he still wasn't worried.

Because Nangong Youxi was at his peak at this time.

The previous continuous catastrophes did not consume her much.

the most important is.

After being weakened by the Renshui Thunder Absorbing Array.

What looks like a mighty catastrophe is actually just that.

Not much of a threat.

Nangong Youxi can definitely withstand it.

After a while.

The thunder in the distance dissipated and the sky became clear again.

Nangong Tianming rose into the sky and flew quickly towards Galaxy Island.

Zhang Yuhe smiled slightly and followed him.

When they came to Taiyi Xiantai.

Nangong Youxi slowly opened his eyes.

At this time, the aura on her body was clearly in the Taiyi realm.

Zhang Yuhe smiled and stepped forward to congratulate him.

"Congratulations to Fairy Youxi for being successfully promoted to Immortal Lord Taiyi."

Nangong Youxi slowly walked forward and thanked her sincerely.

"Youxi can be where he is today thanks to Immortal Lord Yinhe for borrowing the Tribulation Transcendence Formation."

to be honest.

Although the whole process of overcoming the tribulation seems to be extremely easy.

But she knew it very well.

If there was no Renshui Thunder Absorbing Formation to weaken the power of the Heavenly Tribulation.

She definitely couldn't withstand such a ferocious disaster.

The power of Taiyi Heavenly Tribulation was much stronger than she imagined.

Especially the duration of the catastrophe is really a bit exaggerated.

1086 consecutive rounds of bombardment.

Even if he is an iron man, he will be reduced to rubbish.

After going through his own tribulation.

She was really doubtful.

How did those Taiyi Immortal Lords survive the catastrophe in the past?

Everyone should have their own opportunities and means, right?

Otherwise.

If you rely entirely on force, you won't be able to get through it anyway.

"Hahaha, okay, okay, okay."

He felt the domineering aura emanating from Nangong Youxi.

Nangong Tianming laughed loudly and cheered repeatedly.

How many years has this been going on?

At least hundreds of millions of years ago.

Their Nangong Immortal Clan finally had someone promoted to Taiyi Immortal Lord again.

Nangong Tianming released the fairy ship, then turned to Zhang Yuhe and said.

"Fellow Daoist Zhang, You Xi has just broken through and needs to retreat to stabilize his cultivation, so we will take the first step."

"The Immortal Lord Celebration will be held for You Xi at that time. I hope fellow Taoists can take the time to attend."

After saying this, Nangong Tianming and Nangong Youxi flew onto the fairy ship.

"It's easy to say. I will definitely go to your family and ask for a drink."

Zhang Yuhe raised his hands towards the fairy ship.

After a while.

The fairy ship turned into a stream of light and quickly disappeared into the sky.

...

Chapter 342 The Seal of Reincarnation

Watch the fairy ship go away.

All the Golden Immortal elders of the Taoist Saint Sect present could not help but look envious.

Witnessing the birth of an immortal king with my own eyes.

To say I'm not envious would be a lie.

It's just that most of them themselves are not high in cultivation.

Except for a few old Jinxian elders.

The others are basically still in the early stage of Golden Immortality.

Immortal Lord Taiyi is really too far away for them.

Even Zhang Yuhe has opened up the supply of various resources.

If they want to reach the threshold of Taiyi Immortal, it will take millions of years.

As for whether they can cross that threshold in the end, it depends on everyone's fate.

Although Zhang Yuhe has prepared various resources for them.

They don't even have to worry about overcoming the tribulation anymore.

But he was promoted to Taiyi Immortal Lord. .

It is not something that can be piled up directly by relying on resources.

Personal talent and hard work, as well as opportunity and luck, are also very important.

Otherwise.

Aren't those Taoist Holy Lands filled with immortal kings?

Not really.

The proportion of immortal kings in the Dao Ancestor Holy Land is only slightly higher than in other places.

I want to successfully break through and become Taiyi Immortal Lord.

It still depends on personal accumulation.

Yu Liwei is a very good example.

Although Zhang Yuhe had already prepared the Nine Apertures Exquisite Pill for her.

And the Tribulation Transcendence Formation is right there.

She is available at any time.

despite this.

Yu Liwei didn't either, and chose to break through rashly.

She knew that her accumulation was not enough.

It still needs to settle slowly.

Yu Liwei would rather wait a little longer than fail.

Because once the breakthrough fails.

The state of mind is bound to be severely damaged.

It will be even harder to break through next time.

Zhang Yuhe glanced around and looked at everyone's envious eyes.

he said with a smile.

"Everyone, go back and practice hard."

Section 427

"Maybe everyone will have this day in the future."

After saying this, Zhang Yuhe turned into a stream of light and disappeared into the distant sky.

After returning to Daosheng Sect.

Zhang Yuhe went directly to the weapon refining hall.

He lent the Renshui Thunder Absorbing Formation to Nangong Youxi for use.

From Nangong Tianming, I got a piece of innate spiritual material.

For such a treasure, he naturally has no reason to keep it in his hands.

Instead, he plans to integrate directly into his natal immortal weapon.

Zhang Yuhe stood in the weapon refining hall.

I saw him wave his right hand.

The nine-handled fairy sword slowly appeared in front of his eyes, shining with frightening pressure.

After breaking through to Taiyi Immortal.

He immediately promoted this set of Nine Heavens Hunyuan Sword to a high-grade immortal weapon.

Zhang Yuhe reached out and took out one of the fairy swords, holding it in his hand and observing it carefully.

It is different from the other eight fairy swords.

The other eight fairy swords all shine with various attributes.

But the fairy sword in his hand seemed to be ordinary and unreal.

There wasn't any sparkle.

If it weren't for the surface of the fairy sword, it would still emit a faint spiritual pressure.

No one would treat it as a top-grade fairy sword.

Zhang Yuhe stretched out his right hand and gently touched the surface of the fairy sword.

At the hilt of this fairy sword.

Engraved with a few small characters are [Galaxy. Hunyuan].

This simple and unreal fairy sword is the core of the entire set of Nine Heavens Hunyuan Sword.

Previously, in order to improve the attack power of the sword formation.

He integrated a piece of innate spiritual material into the metallic fairy sword.

Now get another piece of innate spiritual material.

Zhang Yuhe plans to integrate the innate spiritual materials into the core Hunyuan Sword.

To enhance the agility of the entire sword formation.

Think of this.

Zhang Yuhe looked at the four-legged square tripod on the high platform.

I saw him wave his right hand.

The tripod lid slowly flew up.

He put the Hunyuan Sword and the innate spiritual materials into the four-legged square cauldron one after another.

Follow the magic formula and pinch it.

A scorching flame instantly ignited beneath the four-legged tripod.

Zhang Yuhe sat down cross-legged.

While observing the changes inside the cauldron, he took out the jade slips and inspected them silently.

Integrating innate spiritual materials into immortal weapons is not a complicated matter.

At least for him, that's the case.

So he can still find time to do other things.

This jade slip was originally obtained from the Taixu Secret Realm.

It records a special magical power called the Seal of Reincarnation.

Legend has it long ago.

There once was a powerful Daluo Immortal King in the immortal world, named the Samsara Immortal King.

The magical power of the Immortal King of Reincarnation is extremely strange.

The target can be put into reincarnation.

For example, he can transform a person into a little sheep.

It can turn the powerful Chaos Beast into a cute little white rabbit.

Then slap him to death again.

This weird magical power is the seal of reincarnation.

Of course.

Although the reincarnation seal is powerful, it is also extremely weird.

But this magical power also has great limitations.

First of all, the magical power of the Samsara Seal is extremely mysterious and complicated.

After the Immortal King of Reincarnation, no one has ever successfully cultivated this magical power.

And there is.

This magical power has many restrictions when it is displayed.

The Reincarnation Seal can put the target into reincarnation.

But this situation is only effective for people with lower cultivation than themselves.

For those with the same level of cultivation, even those with a higher level of cultivation than myself.

The reincarnation seal doesn't have this weird effect.

As long as others are on guard, they can resist the changes in reincarnation.

In this case.

There is no such weird reincarnation change.

The reincarnation seal is not much different from the ordinary seal magical power.

In general.

This magical power is a bit tasteless.

Not many people are willing to delve into this magical power.

Zhang Yuhe naturally did not learn this magical power because he was interested in the power of the Samsara Seal itself.

He wanted to understand the law of reincarnation through this magical power.

After being promoted to Taiyi Immortal.

He can understand the three supreme laws again.

The nine supreme laws of the immortal world.

He has realized six kinds.

They are the law of power, the law of time, the law of space, the law of soul, the law of cause and effect and the law of yin and yang.

The only laws that have not yet been understood are the law of reincarnation, the law of life and the law of death.

Now he is already Taiyi Immortal Lord.

Zhang Yuhe planned to comprehend all the nine supreme laws in one breath.

For now.

It is basically impossible to improve your cultivation level in a short period of time.

Taiyi Immortal's cultivation could not reach a small level even for hundreds of millions of years.

Even if his talent is incredible, that won't work.

The training after Taiyi Immortal was like this.

Those Taiyi Immortal Lords in the Immortal Realm.

Which one is not an old monster who has been cultivating for hundreds of millions of years?

When it comes to improving your cultivation, there is no shortcut for the time being.

Zhang Yuhe then focused on the rules.

to him.

It's easier to understand the law.

Even the Supreme Law is estimated to only take a few hundred years.

You can get started.

Then after spending thousands of years, maybe we can understand the rules to a small level of success, or even a great level of success.

Comprehension is Zhang Yuhe's most important golden finger.

Of course he had to take advantage of it first.

Wait until he understands all the nine supreme laws and reaches the state of great achievement.

He would like to take a look.

Can you have a head-on confrontation with Daluo Immortal King?

Although until now.

Zhang Yuhe has never really seen Da Luo Immortal King take action.

Section 428

But he knows.

If you don't activate the magical power of Hunyuan Guiyi.

He definitely couldn't beat Daluo Immortal King.

Even the weakest Daluo Immortal King.

You can also slap him to death with a few slaps.

"It would be different if all the nine supreme laws were comprehended in the realm of Dacheng."

Zhang Yuhe thought silently.

By that time.

Even if he can't defeat the Great Luo Immortal King, he should be able to protect himself.

If you activate the magical power of Hunyuan Guiyi.

Maybe he can even kill the weaker Da Luo Immortal King.

Think of this.

Zhang Yuhe took a look and saw the four-legged square seven tripod in front of him.

Then he continued to sink his mind into the jade slip.

...

Chapter 343 Yu Liwei is promoted to Taiyi Immortal

Time passes slowly.

Soon another thirty thousand years passed.

this day.

Zhang Yuhe was sitting in a small pavilion on the top of Daosheng Peak, drinking tea leisurely.

During these thirty thousand years.

He devoted almost all his time to understanding the laws.

The result made him very satisfied.

some time ago.

He finally understood the law of life and reached the state of great success.

That is to say.

Zhang Yuhe spent thirty thousand years.

Not only did he successfully understand the law of reincarnation, the law of life and the law of death, but he also promoted it to the state of great success.

Moreover, he also comprehended the other six supreme laws and reached the realm of great achievements.

All the nine supreme laws have been understood to perfection.

Zhang Yuhe is looking forward to it very much.

He wanted to find someone to try his hand at.

Look at his current strength.

Can you beat the Great Luo Immortal King?

Of course.

He just thought about it casually.

Didn't really take action.

Monks generally do not fight easily among themselves.

Not to mention casual discussions.

Because once the monk takes action,

It must be a killer move.

If he couldn't hold back, he would beat the person to death.

Isn't that nonsense?

Therefore, there is almost no such thing as discussion among monks.

Unless you are a high-level monk, give guidance to the low-level monks.

Once the monks of the same level take action.

It's hard to hold it back.

If a monk wants to, try the power of magical powers.

Generally, he would only find a place where there is no one around and display his magical powers to the fullest.

Use this to estimate your own strength.

But this estimate may not be accurate.

Many monks do this before they actually take action.

There is often a kind of mysterious self-confidence.

Think yourself the strongest.

Zhang Yuhe didn't feel that he was invincible.

But he thought about it.

With his current strength.

Sweeping across the Taiyi Realm should not be a big problem.

As for how big the gap is between him and Da Luo Immortal King.

That's a bit hard to say.

Before actually taking action.

All speculations are meaningless.

He wasn't interested either.

Go to Daluo Immortal King to look for it.

Even if you can defeat Da Luo Immortal King, there is no need to be so high-profile.

Keep it hidden for now.

Zhang Yuhe thought.

When you have free time, take a trip to Chaos Continent.

I want to test my strength.

You don't have to go to Daluo Immortal King.

Go to Chaos Continent and find a king-level chaos beast to try.

Then you know.

It just so happens that there is not much time left before the next beast wave.

When the time comes, use the Chaos Beast to test your strength.

Just when Zhang Yuhe was still drinking tea quietly.

A stream of light flew past in the distance.

Soon he landed at Daosheng Peak.

Yu Li appeared slightly and walked quickly towards Zhang Yuhe.

Zhang Yuhe looked up.

At this time, the aura on Yu Liwei's body was clearly in the Taiyi realm.

As early as eight thousand years ago.

Yu Liwei finally broke through the bottleneck of Taiyi Immortal and ushered in the disaster.

With the Renshui Thunder Absorbing Formation on Galaxy Island, there will be no surprises when she survives the tribulation.

Yu Liwei is lucky.

She has practiced Taoism for more than nine million years.

If there is no breakthrough.

Life span is about to be exhausted.

Of course.

This is also due to the help of Zhang Yuhe.

If there is no Zhang Yuhe, provide her with the Nine Apertures Exquisite Pill.

Plus the Renshui Thunder Absorbing Array on Galaxy Island.

The chances of her successfully breaking through were probably very slim.

In the history of Ji'an sea area, there have been many amazing and talented people.

But those people were ultimately unable to take the step beyond Taiyi Immortal.

to be honest.

Compared with those people, Yu Liwei is not too outstanding.

She could successfully be promoted to Taiyi Immortal, in addition to relying on her own accumulation.

It's all thanks to Zhang Yuhe's support.

So she is indeed lucky.

Section 429

After surviving the catastrophe, Yu Liwei was successfully promoted to Taiyi Immortal Lord.

The Daosheng Sect now has two Taiyi Immortal Lords.

Even just in terms of quantity.

In the entire South China Sea Fairyland.

The current Dao Sheng Sect can be considered to be at a medium level among the major forces.

After all, they are big and old forces like the Nangong Immortal Clan.

After hundreds of millions of years of development.

There are only three Taiyi Immortals.

Until Nangong Youxi, after being successfully promoted on Galaxy Island.

The Nangong Immortal Clan finally had the fourth Immortal Lord Taiyi appear.

Today, Daosheng Sect has two Taiyi Immortals in charge.

No matter from any aspect, it is not weak.

But just like Zhang Yuhe himself.

After Yu Liwei was promoted to Taiyi Immortal, there was no Immortal Lord celebration.

Not many people know about his successful promotion.

The Dao Sheng Sect did not even inform the Nangong Immortal Clan and Wan Xian Sect about Yu Liwei's breakthrough.

Because this is completely unnecessary.

Under the influence of Zhang Yuhe.

Although the strength of Dao Sheng Sect has been developing by leaps and bounds.

But most of the elders and disciples of the sect keep a very low profile.

Not overly showy.

So far.

No outsider knows.

The true strength of Dao Sheng Sect.

In fact.

Let alone an outsider.

Even Dao Sheng Sect's own disciples don't know the specific strength of their sect.

They just know.

There is a powerful sect leader.

Don't worry about being bullied.

Everyone just needs to practice hard.

There is no need for them to worry about other facts.

Just lie down and practice, and that's it.

Seeing Yu Liwei arriving.

Zhang Yuhe stood up quickly and said with a smile.

"Master Yu, come, sit down and drink tea."

The two of them sat down in the pavilion.

Yu Li thought for a moment, then slowly spoke.

"Sect Master, I plan to go to Chaos Continent to gain some experience."

"The Ji'an sea area is too small and there is no room for us to display it."

Hearing this, Zhang Yuhe smiled slightly.

He could understand Yu Liwei's mood.

After being promoted to Taiyi Immortal.

Yu Liwei naturally wanted to walk around.

Firstly, it is to show one's strength, and secondly, it can also communicate with other Taiyi Immortal Lords.

In order to open up the future path of cultivation.

She can't be like Zhang Yuhe.

As long as you practice silently in seclusion, you can continue to improve your cultivation.

She needs to go out and find new opportunities.

Need to communicate with other immortal kings.

The sea area in Ji'an is too small.

If you don't go out, you don't know how big the sky is.

Zhang Yuhe picked up the tea cup and took a small sip.

Then he said with a smile.

"Don't be anxious yet, just wait for a while."

"I estimate that it won't be long before the next beast wave comes."

"Then let's go to Chaos Continent together and look for opportunities to build our own fairy city."

"The sect leader plans to build a fairy city?"

Hearing Zhang Yuhe's words, Yu Liwei couldn't help but feel happy.

In fact.

With the strength of the Dao Sheng Sect, they could have established their own fairy city in the Chaos Continent long ago.

Everyone has made suggestions before.

I just don't know why, but Zhang Yuhe doesn't seem to have this idea.

In their view.

This is my lord, the sect leader.

Although his strength is amazing, he is extremely low-key.

Since Zhang Yuhe objects.

They didn't insist anymore.

Fortunately, Dao Sheng Sect is currently not short of resources.

There is really no need to rush to the Chaos Continent to develop and develop.

So many years have passed.

Yu Liwei almost forgot about this matter.

If Zhang Yuhe hadn't mentioned it today.

It hadn't even occurred to her.

In her opinion.

Able to build his own fairy city in the Chaos Continent.

That is of course the best.

Because in this way, it will not only facilitate the collection of resources.

Moreover, disciples of the sect can also go to a wider world.

...

Chapter 344 Planning the Fairy City

After hearing about Zhang Yuhe, he finally came up with the idea of establishing a fairy city.

Yu Liwei couldn't help but feel very happy.

She always thought.

The Chaos Continent is the stage for monks to fight.

There are endless resources and various life and death tests.

Only in that environment.

Only then will the monk's strength be improved faster.

If you have been staying in the sea area of Ji'an, what future can you have?

Even in the past, when he was weak.

Yu Liwei is the same and has been wandering around in the Chaos Continent.

But later Lu Yunfei disappeared.

Ji'an Haiyu lost its backbone, so she came back to take charge.

Zhang Yuhe naturally understood.

If Dao Sheng Sect wants to develop and grow, it must go to the Chaos Continent.

Because that is the center of the entire fairy world.

Although the South China Sea Fairyland can be considered vast and boundless.

But because of the many forces.

All the territory and resources have long been divided up by the major forces.

Section 430

Even if they want to expand outward, there is no place.

Next to it is Nangong Haiyu.

They can't destroy the Nangong Immortal Clan to expand their territory, right?

If that's the case.

Then Dao Sheng Sect will probably become a rat crossing the street that everyone shouts and beats.

The fairy world has always been peaceful.

There are rarely disputes between the major forces.

Even if a dispute does arise, it usually won't be a big fight.

At best, it's a secret stumbling block.

No one dares to destroy the family openly.

There is Daozu pressing on it.

No one dares to be too presumptuous.

Accumulate strength and wipe out the chaos beasts.

This is the common goal of monks in the immortal world.

As long as you have enough strength, you can go to Chaos Continent and build a fairy city.

This is the only way for almost all forces in the immortal world to develop and grow.

As early as when I first ascended to the fairy world.

Zhang Yuhe has been looking forward to it.

He hopes that one day, he can build a fairy city of his own in the Chaos Continent.

But it is not that simple to build a fairy city in the Chaos Continent.

The Immortal City is not only a foothold for monks in the Chaos Continent.

It is also an important resource point.

If the right resources are not available.

Then even if a fairy city is established, it won't make much sense.

If the income cannot keep up with the consumption of the fairy city, then what is the use?

Is it used as a facade?

The reason why Zhang Yuhe never took action.

He just wanted to find a suitable resource point.

He really doesn't like ordinary fairy ore veins.

He wanted to find a place that could produce important resources to build a fairy city.

There must be at least a second-level immortal mineral vein, preferably a third-level immortal mineral vein.

Or it can produce other rare resources.

It's just that such a place is not easy to find.

Although the Chaos Continent is not like the South China Sea Immortal Domain.

The territory has been divided up.

Empty and unoccupied places are everywhere.

It's just that most places don't have the ability to continuously produce resources.

And those relatively safe resource points have also been occupied long ago.

If he wants to find suitable resource points, he must reach out to the Chaos Beast.

Generally speaking.

Almost every Chaos Beast Tribe has important resources in its location.

The more advanced the Chaos Beast tribe is, the richer and more precious the resources there are.

So Zhang Yuhe planned.

Find an opportunity to destroy a powerful Chaos Beast tribe.

See if there are any suitable resource points.

If it is suitable, he will build a fairy city.

Just wanting to destroy a large tribe of Chaos Beasts is not that easy.

It's not that he's not strong enough.

to be honest.

For those tribes without a king beast.

He can sweep all by himself.

For example, the Mingsha Ridge tribe appeared in the last beast wave.

There are hundreds of them in Mingsha Ridge, and the seven-star or above are equivalent to the Chaos Beasts in the Taiyi Realm.

Extremely powerful.

In past beast tides.

Just a tribe in Mingsha Ridge can suppress many monarch-level immortal cities, including Tiangong City.

despite this.

Neither did Zhang Yuhe, who took the Mingshaling tribe seriously.

As long as he wants.

You can wipe out the Mingsha Ridge tribe at any time.

But he didn't do that.

Because this is something that affects the whole body.

Once he takes action against Mingsha Ridge.

The Niulanshan tribe behind them will definitely come to support them soon.

Compared to Mingsha Ridge, the Niulan Mountain tribe was extremely powerful.

There are at least twenty king-level chaos beasts alone.

Even during the last beast tide, the Niulanshan tribe was killed by the Immortal King Wanshan, killing two level five chaos beasts.

The strength has not weakened much.

At least he definitely can't be offended.

Except for Mingsha Ridge, other tribes of the same level are similar.

There is a big backer behind him.

As for those small tribes, they were completely out of Zhang Yuhe's consideration.

Last time, he wiped out four small tribes in succession.

Apart from finding a piece of innate spiritual material, there was nothing that made his eyes shine.

Some tribes are located in locations where there is not even a first-level fairy mineral vein.

These small tribes have never been Zhang Yuhe's target.

With the current strength of Dao Sheng Sect.

Since a fairy city is to be established, it must at least be a monarch-level fairy city.

He is not interested, so he will build a few small acropolis for fun first.

How boring that is.

Based on past experiences in the fairy world.

If you want to build a monarch-level fairy city, you must destroy one of the third-level chaos beast tribes.

Depending on the strength.

The fairy world divides the Chaos Beast tribe into levels one to five.

A tribe whose strength of Chaos Beast does not exceed three stars is a first-level tribe.

Those with six stars and below are second-level tribes.

The Chaos Beast tribe whose strength does not exceed nine stars is a third-level tribe.

A tribe with a king-level chaos beast is a fourth-level tribe.

A tribe with an honorable Chaos Beast as its leader is a fifth-level tribe.

There are many nine-star chaos beasts sitting in Mingsha Ridge, which are the third-level tribes.

As for Niulan Mountain, it is a powerful fourth-level tribe.

In the past.

The Niulan Mountain Tribe can even overwhelm the entire South China Sea Immortal Territory.

Its strength can be seen from this.

If Zhang Yuhe wants to destroy a level 3 Chaos Beast tribe, he must wait for an opportunity.

He cannot do it alone.

He can only wait until the beast tide comes.

At that time, all the major forces in the South Sea Fairyland will be dispatched.

The main force of the Chaos Beast will be restrained by the major forces.

In that case.
