

## Top talent 461

### Section 461

But outside of the South China Sea Fairyland, basically no one knows about him.

Just like Immortal King Liuyue, she didn't know Zhang Yuhe existed.

Immortal King Wanshan nodded.

"There is a supreme genius who comes from a small sect. His name is Zhang Yuhe. He has just been promoted to the Taiyi realm in less than 30,000 years."

"I didn't pay much attention to it before."

"I didn't expect that this supreme genius would be so powerful."

"Based on the message just sent."

"Zhang Yuhe relied on a powerful sword array to wipe out all the chaos beasts in Mingsha Ridge."

Having said this, Immortal King Wanshan paused for a moment.

He knew about Immortal King Liuyue, but he might not know much about the distribution of Chaos Beasts nearby.

So Immortal King Wanshan added.

"The strength of Mingsha Ridge is not weak. There are at least hundreds of chaos beasts with seven stars or above."

Upon hearing this, Immortal King Liuyue opened his mouth into an O shape.

She felt a little weird.

So fierce?

As soon as he was promoted to Taiyi Immortal Lord, he could sweep hundreds of Taiyi realm chaos beasts.

to be honest.

Liuyue Immortal King is one of the oldest immortal kings in the immortal world.

She has seen a few of the supreme geniuses.

But she had never heard of such a fierce Supreme Prodigy.

You must get to know him if you have the chance.

...

Chapter 365 Taoism

Through the narration of Wanshan Immortal King.

Immortal King Liuyue was very curious about Zhang Yuhe.

Although the supreme genius is rare.

But in the endless history.

She has also seen many supreme geniuses.

The strength of these supreme geniuses ranges from strong to weak.

The weak ones can only dominate among monks of the same level, while the strong ones can challenge across levels.

And it's a cross-border challenge.

For example, some powerful and powerful Supreme Prodigies, when Taiyi Immortal Lord reaches perfection.

You can challenge Immortal King Tailuo.

But someone like Zhang Yuhe.

As soon as he was promoted to Taiyi Realm, he could sweep away hundreds of Chaos Beasts with seven stars or above.

This kind of strength is no longer inferior to the ordinary Da Luo Immortal King.

As soon as he was promoted to Taiyi Immortal Lord, he had the combat power of Daluo Immortal King.

She had never heard of such a supreme genius.

She also didn't know if the message from Immortal King Wanshan might be wrong.

How could such a heaven-defying person exist?

After this incident is over, I hope to meet this new supreme genius.

Immortal King Liuyue thought silently in his heart.

Just at this time.

The clouds in the distant sky seemed to be suddenly shattered by some invisible force.

Waves of tyrannical momentum rose into the sky among the mountains.

See this amazing momentum.

Immortal King Wanshan said calmly.

"The king beast of Niulan Mountain is here."

Everyone was shocked.

Although everyone is full of confidence in this operation.

After all, they had a trump card.

That is the Liuyue Immortal King.

The Chaos Beasts in Niulan Mountain do not know the existence of Immortal King Liuyue.

But looking at the momentum soaring into the sky in the distance, everyone was still a little nervous.

Don't overturn the car.

Everyone was thinking silently in their hearts.

Immortal King Wanshan looked into the distance intently.

After a while.

He said solemnly.

"All the king-level chaos beasts in Niulan Mountain are dispatched."

Everyone couldn't help but be surprised when they heard this.

Chaotian Immortal King asked worriedly.

"Are all the twenty-four king-level chaos beasts here?"

Immortal King Wanshan nodded.

Now those Chaos Beasts are still far away from them.

He could only see so far with the help of special magical powers.

After hearing the confirmation from Immortal King Wanshan, everyone couldn't help but want to retreat.

This seems a little different from what I originally thought.

Everyone was thinking about it at first.

Even the king-level chaos beasts in Niulan Mountain came out to support.

It's probably impossible, there will be too many.

Even in the most ideal situation, it may be divided into two or three batches.

If that's the case.

They can happily beat those king-level chaos beasts to death in batches.

But now the king-level chaos beast in Niulan Mountain doesn't play according to the routine at all.

They came out in full force.

Don't you even want your old home?

Are the Chaos Beasts in Niulan Mountain not worried about having their homes stolen by them?

No matter what the Chaos Beast in Niulan Mountain thinks.

Anyway, that's the result.

Now they're all here together.

How to do this?

The difference in quantity is too great.

But the Chaos Beasts didn't kill a few, but they themselves were killed here.

That would be a big deal.

Think of this.

Immortal King Chaotian asked Immortal King Wanshan seriously.

"Wan Shan, what should we do now? Do we still want to continue with the original plan?"

He really has no bottom.

Chaotian Immortal King does not have the same confidence as Wanshan Immortal King.

Although he is also the veteran Da Luo Immortal King.

But his cultivation level is only in the middle stage of Daluo Immortal.

It shouldn't be a big problem to deal with two or three king beasts of six colors or less.

If the quantity is greater.

Then it probably won't work.

the most important is.

Except for him.

The remaining Immortal King Taiping, Immortal King Xinghui and Immortal King Yongning were left.

They are all just in the early stage of Daluoxian.

Section 462

At most, they can only deal with a few king beasts of three colors or less.

If you calculate it this way.

There are at least fifteen more king-level chaos beasts left.

Can Wanshan Immortal King and Liuyue Immortal King handle so many chaos beasts?

Chaotian Immortal King expressed some doubts.

He thought to himself.

If that doesn't work, then let's withdraw together.

Now those king beasts are still far away from them.

It's too late to retreat now.

Immortal King Wanshan pondered for a while, but he did not answer directly, but asked Immortal King Liuyue next to him.

"Fairy, what do you think? Can the original plan still go ahead?"

to be honest.

Although the current situation is very different from the original plan.

But Immortal King Wanshan didn't want to give up.

It was hard to prepare for such a big operation.

If you give up halfway.

Then next time, they want to prepare for a similar action.

But it's not that easy.

the most important is.

This time, Immortal King Liuyue was invited to help.

They won't have the chance to ask for such powerful help next time.

Now he is facing the Immortal King, and he wants to retreat.

Then we can only listen to the opinion of Immortal King Liuyue.

Immortal King Wanshan understands.

As long as Immortal King Liuyue supports it, this plan can continue.

This is not only because Liuyue Immortal King comes from the Heavenly Star Immortal Realm.

She is the eldest disciple of Tianxing Taozu.

The identity is very unusual.

more importantly.

Immortal King Liuyue has amazing strength, and she has experienced a long time.

In the history of the fairy world, there have been many battles between monks and chaos beasts.

Liuyue Immortal King also participated.

It can be said that the experience is quite rich.

He also has a much better grasp of the situation than these people.

As long as Liuyue Immortal King believes that the original plan can continue.

That can bring strong confidence to everyone.

Therefore, the opinion of Immortal King Liuyue is very important.

Even Wanshan Immortal King himself felt a little unsure.

He also wanted to hear the opinion of Immortal King Liuyue.

There was silence at this time.

Everyone turned their attention to Immortal King Liuyue.

Immortal King Liuyue raised his head and looked into the distance, and then said lightly.

"It doesn't matter, it's just a few dozen king beasts."

"I'll use Taoist magic first to trap all those chaotic beasts later."

"Then everyone attacks separately."

Speaking of which.

Immortal King Liuyue paused for a moment, and her eyes scanned the crowd.

Then he said solemnly.

"Remember, my magic can only be used once."

"Once the effects of the Taoism disappear, we may have to face the siege of the Chaos Beasts."

After hearing the words of Immortal King Liuyue, everyone's hearts were filled with envy.

That's Taoism.

Unexpectedly, Immortal King Liuyue actually mastered a Taoist technique.

But it's normal to think about it.

As the eldest disciple of Tianxing Taoist Ancestor, Liuyue Immortal King naturally has no shortage of Taoist skills.

And Tianxing Daozu will definitely help her get the original thing.

In fact, even if there is no Tianxing Dao Ancestor as a backer.

Immortal King Liuyue has been practicing for a long time.

It is indeed not a strange thing that she has mastered a Taoist technique.

With the words of Immortal King Liuyue, everyone reacted to this action.

Then he was full of confidence.

There is a Liuyue Immortal King who masters Taoism, so what do they have to fear?

Such a great opportunity.

If I don't do it, I'll be sorry for them for taking such a long time to prepare.

Everyone continued to discuss and wait for the details of the battle.

Then he looked quietly into the distance.

Waiting for the arrival of the Chaos Beast.

...

Chapter 366 Heaven and Earth

Niu Man led a group of king-level chaos beasts and ran forward quickly.

He just received the news.

Mingsha Ridge has been conquered by human monks.

What's even scarier is.

The entire Mingsha Ridge's high-level chaos beasts, in a short period of time.

They were wiped out by human monks.

In Niu Man's opinion.

This must be the work of Daluo Immortal King, and it may not be the same one.

Maybe there were multiple Da Luo Immortal Kings taking action at the same time.

Otherwise.

Even if there are more Taiyi Immortal Lords, it is impossible for them to do so in such a short period of time.

Just kill all the high-level chaos beasts in Mingsha Ridge.

The Great Luo Immortal King personally went out and attacked the third-level tribe, which was a rare thing.

Niu Man ran fast while thinking silently in his heart.

Wait until this matter is over.

It must be given to the human monks to see a little bit of color.

Since the human race's Great Luo Immortal King can raid their third-level tribes.

Then these king beasts can also attack the human race's emperor-level fairy city.

Although the fairy cities of human monks are all connected by teleportation arrays.

It is very convenient to support each other.

But as long as they attack quickly, they can still win.

"It seems that the last time we conquered the Ten Thousand Immortals Gate and the two Sovereign Immortal Cities, we didn't teach them enough lessons."

"I must do it harder next time."

Niu Man thought fiercely.

As they gradually approached Fengling Valley.

Niu Lin, who was next to him, suddenly spoke.

"High Priest, Fengling Valley is the only way for us to go to support."

"Will those human Da Luo Immortal Kings ambush here?"

Niu Man raised his head and glanced at Fengling Valley in the distance, and then said confidently.

"Don't worry, how can the human cultivators have the energy to set up an ambush now?"

Section 463

"I guess they are cleaning up our peripheral tribes right now, right?"

"We need to speed things up."

"Otherwise, wait until we pass."

"I'm afraid not a single one of those peripheral tribes will be left."

Wanshan Immortal King used a special immortal weapon to completely hide their figures.

Unless you go very close.

Otherwise.

Even the king-level chaos beasts found their traces very easily.

Of course.

Originally Niu Man would not be so careless.

It's just that it just received the news from Mingsha Ridge.

The chaos beasts in Mingsha Ridge were wiped out by Zhang Yuhe in a short period of time.

This caused Niu Man to make a serious mistake in his judgment.

It thought that the human race's Great Luo Immortal King had appeared on the periphery.

So it didn't care at all about the Fengling Valley in front of it.

There are only a few Daluo Immortal Kings in Wanxian Sect and Chaotian Palace.

Since there is Da Luo Immortal King appearing in the periphery.

Naturally, there won't be any more Da Luo Immortal King ambushing here.

Just those Daluo Immortal Kings, how dare they split their ways and intercept them?

Niu Man thought to himself.

The human race's Great Luo Immortal King cannot be so brainless.

Think of this.

It shouted loudly to the surrounding king beasts.

"Go forward quickly and support Mingyue Mountain first."

"Yes, High Priest."

Under the leadership of Niu Man.

Twenty-four king-level chaos beasts quickly rushed into the Wind Spirit Valley.

There is a strange fairy mirror on the head of Wanshan Immortal King.

The fairy mirror shed a faint light, completely hiding their figures.

I saw twenty-four king-level chaos beasts rushing into the Wind Spirit Valley together.

Wanshan Immortal King turned his head and glanced at Liuyue Immortal King next to him.

In today's battle, Immortal King Liuyue is the protagonist.

among their group.

Immortal King Liuyue is not only the strongest.

And she also mastered a special Taoist technique.

This time, if they want to severely damage the Niulan Mountain tribe, they must rely on the Taoist skills of Immortal King Liuyue.

Looking at the Chaos Beast running quickly in the distance.

Immortal King Liuyue gently pinched the magic formula.

I saw a sky-covering light curtain that instantly enveloped the entire Fengling Valley.

The light curtain enveloped the six of them, as well as the Chaos Beasts in Niulan Mountain.

Immortal King Wanshan looked at the light curtain in front of him, thoughtfully in his heart.

It was also the first time for him to see others perform Taoist magic.

Moreover, the Taoist technique of Liuyue Immortal King is somewhat special.

Generally speaking, Taoism emphasizes violence.

But the Taoist technique of Liuyue Immortal King seems to be a control-type magical power.

And it's a very large range of control.

Wanshan Immortal King turned his head and looked outside the light curtain.

Although he could clearly see the situation outside.

But in perception.

He could clearly feel it.

They seem to be in an independent time and space now.

It was as if they had escaped from the fairy world at this time.

This feeling is very magical.

As Immortal King Liuyue moved his magic skills, their originally hidden figures naturally emerged.

When the light curtain shrouded down.

Niu Man immediately stopped.

It looked up into the distance and said through gritted teeth.

"Taoism, Heaven and Earth, Immortal King Liuyue, why are you here?"

Saw Immortal King Liuyue appearing.

Niu Man knew that they were going to be in big trouble today.

These people are different from Wanshan Immortal King.

Immortal King Liuyue lived for a long time.

In previous battles between monks and chaotic beasts, Niu Man had seen the power of Immortal King Liuyue.

Especially her Taoist skills are really weird.

The Taoist art of Qiankun Tiandi can separate an independent battlefield.

As long as the effects of Taoism are still there, people who are in an independent space should not think about leaving.

No matter how powerful the king-level chaos beast is, it cannot break the seal of the universe.

Unless the person who performs Taoism is killed.

Even more troublesome is that.

Within Qiankun Heaven and Earth, many small battlefields can also be divided.

That is to say.

Although it looks like there are only six Daluo Immortal Kings from the opposite side.

But on their side of Niulan Mountain, there are twenty king-level chaos beasts.

But these chaotic beasts have been divided into multiple independent spaces.

On the opposite side, under the leadership of Immortal King Liuyue, they can be dealt with in batches.

Of course.

The divided space inside Qiankun Heaven and Earth is not as solid as the outer light curtain.

There is still a chance for them to get in touch.

But this takes time.

Niu Man knows.

The other party will definitely not, give them enough time.

Wait until they have completely connected with each other.

It is estimated that there will only be a few chaos beasts left.

So they are most important now.

You have to compete with the opponent for time.

Just get in touch as soon as possible.

They can still compete with each other.

Think of this.

Niu Man roared loudly.

"Let's open up the space around us and connect with other people as soon as possible."

At this time, there were only four king-level chaos beasts left around Niu Man.

However, these chaotic beasts are the core existence of Niulan Mountain.

Each one is powerful.

Among them, Niu Lin, like it, is also a nine-color king-level chaos beast.

There are also two eight-color chaos beasts and one seven-color chaos beast.

The Chaos Beasts in this independent space are the essence of the entire Niulan Tribe.

As long as they attack with all their strength.

They should be able to quickly establish a connection with the nearby space.

Following Niu Man's order.

Five powerful Chaos Beasts waved their companion weapons.

Section 464

Crazy bombardment, invisible space barriers around.

Suddenly, the void shook, and the colors of the heaven and earth changed.

...

Chapter 367 Is there a suitable mineral vein?

When the Immortal King Liuyue shrouded the universe with one move.

The king beasts of Niulan Mountain fell into chaos in an instant.

They are not like cattle.

Niu Man has seen the Taoist art of Qiankun Tiandi before.

Know the mystery.

But I have never seen any other king-level chaos beasts.

They suddenly found themselves separated into a special independent space.

Although they can see each other, they can't walk past each other.

Can't communicate either.

They are like swarms of flies, held in glass bottles one by one.

Only the four king beasts next to him could hear the roar of the oxman.

As for the other king-level chaos beasts, they had no idea what Niu Man was talking about.

But when they saw Niu Man struggling to attack the surrounding space barriers.

Only then did they react.

Although they don't know what these sudden space barriers are.

But there is definitely nothing wrong with following the high priest.

Think of this.

The remaining king-level chaos beasts also began to blast towards the surrounding space barriers frantically.

Unfortunately.

Their efforts are destined to be in vain.

Although the internal divided space of Qiankun Heaven and Earth can be broken.

But that also depends on who is going to fight.

Niu Man, with four high-level king beasts, does have a chance to open up the divided space.

But other chaos beasts don't have such abilities.

not to mention.

Wanshan Immortal King and others will not give them a chance.

Seeing the universe of heaven and earth, all the chaotic beasts in Niulan Mountain have been shrouded and divided.

Immortal King Liuyue offered a golden spear.

She waved the spear with her right hand, and then said calmly to everyone.

"Follow me and try to kill more king beasts before the effects of the Taoism disappear."

Immortal King Liuyue looked at the Chaos Beast in the distance.

The twenty-four king-level chaos beasts in Niulan Mountain are now divided into seven independent spaces.

They are just some chaotic beasts in independent spaces, with varying strengths and weaknesses.

Some spaces trapped five Chaos Beasts, while others only trapped three Chaos Beasts.

After all, these chaotic beasts were running.

The distance between them is not neatly fixed either.

Immortal King Liuyue looked at an independent space where three Chaos Beasts were trapped.

There were many king-level chaos beasts at the scene.

Naturally, they have to go from easy to difficult.

Let's deal with the easy-to-kill Chaos Beast first.

Think of this.

The spear in Liuyue Immortal King's hand swiped.

An invisible space barrier was opened in an instant.

She performs her own Taoist skills, so naturally she won't block her steps.

The three trapped king-level chaos beasts suddenly felt a wider world.

They rushed out quickly.

However, they haven't been happy yet.

What greeted them was a violent storm of attacks.

Immortal King Liuyue spotted a five-color king-level chaos beast, pierced the void with his spear, and killed it quickly.

The Ten Thousand Immortal King swung his two hammers, and the shadow of the hammer shattered the sky, and he rushed directly towards a four-color king beast.

The last remaining two-color king beast fell into the siege of the four Chaotian Immortal Kings.

The six Daluo Immortal Kings of the human race faced three king-level chaos beasts.

It was a complete crushing game.

Spears, hammers, shadows, and all kinds of magical weapons rushed towards him crazily.

Almost immediately after the battle.

These three unlucky king-level chaos beasts were struck with horrific scars.

This is because the Chaos Beast's defense is powerful and its vitality is also amazing.

Otherwise.

Facing the human race Da Luo Immortal King, such a powerful lineup.

These three king-level chaos beasts are likely to be killed instantly.

But that's it.

Although these three king-level chaos beasts are still struggling to support themselves.

But their ending has already been determined.

Niu Man was furiously bombarding the surrounding space barriers.

While looking indifferently towards the battlefield in the distance.

It knows.

Today they will be planted in Niulan Mountain here.

The Taoist skills of Immortal King Liuyue are indeed extremely strange.

Especially in this kind of group combat, the effect is more obvious.

Qiankun Tian completely divided them into independent battlefields.

This gives them no chance to exert their numerical advantage.

On the contrary, it was the Da Luo Immortal King of the human race, with the help of Taoism.

It can always be maintained, with more fighting less.

Niu Man understood in his heart.

Want to change this situation.

They must break the space barrier in front of them as soon as possible.

Join the surrounding Chaos Beasts.

As long as they can open up two or three independent spaces, they will have the power to fight each other.

Otherwise.

They could only look at each other helplessly and beat the surrounding Chaos Beasts to death one by one.

...

Zhang Yuhe stood above the altar in Mingsha Ridge.

The disciples of Daosheng Sect and Nangong Immortal Clan have begun to return one after another.

After this period of searching.

They have already looted Mingsha Ridge, with a radius of tens of millions of miles.

Everyone's faces were filled with excited smiles.

For the monks.

Mingsha Ridge is a treasure land that has never been developed by anyone.

They are the first intruders.

As long as their luck is not too bad, they will have some gains.

Some of them found the immortal fruit that can accelerate their cultivation.

Some found the core materials for refining immortal tools.

Some found immortal medicine that can help break through the bottleneck.

Some even found some unknown natural treasures.

Although the use of these natural treasures is not known for the time being.

Section 465

But it must be very precious.

Looking at everyone's excitement.

Zhang Yuhe didn't care.

These things are not important to him.

He didn't take it seriously.

For Zhang Yuhe.

He urgently needs to know.

Are there any precious mineral veins near Mingsha Ridge?

Are there any other precious outputs?

Is it worth developing and building a huge monarch-level fairy city here?

His purpose this time is very simple.

That is to find a place suitable for building a fairy city.

If there is no suitable resource output here, then he may have done it in vain this time.

At this time.

Yu Liwei flew over from a distance, and a faint smile also appeared on her face.

Although she has now been promoted to Taiyi Immortal Lord.

And there are not many things that can be useful to Taiyi Immortal Lord.

Each one is very precious, and it is difficult to find one at ordinary times.

But Mingsha Ridge is a place that has not been developed after all.

So she really found a fairy fruit that can accelerate the cultivation of Taiyi Immortal.

It's just that the number is too small, and only one fruit was produced.

Despite this.

She was already very happy.

With this fairy fruit, at least she can save hundreds of thousands of years of cultivation time.

Yu Liwei came to Zhang Yuhe and shouted respectfully.

"Master."

Zhang Yuhe nodded gently, and then asked expectantly.

"What resources are produced nearby? Have you investigated them clearly?"

"Have you found any precious mineral veins?"

For Zhang Yuhe.

He only cares about this.

If it doesn't work.

He still has to find a way to find the next place quickly.

Now is the war period, and the surrounding situation is in chaos.

It's his chance to fish in troubled waters.

If he misses this opportunity.

He wants to conquer another place, the third-level chaos beast tribe, but it won't be so easy.

...

Chapter 368 I'll go over and take a look.

Hearing Zhang Yuhe ask.

Yu Liwei then thought of the main purpose of their action this time.

It is to occupy a place suitable for building a fairy city.

Just now, because she was thinking about the fairy fruit, she almost forgot about it.

Yu Liwei sorted out her thoughts a little, and then slowly spoke.

"Reporting to the sect master, after our careful exploration."

"Around Mingsha Ridge, a total of one third-level mineral vein and four second-level mineral veins were found."

"As for other spiritual lands or fairy pools, there should be none nearby."

Hearing this, Zhang Yuhe nodded gently.

Although there is no other resource output, it is a bit of a pity.

But there is a third-level mineral vein, which is not bad.

In fact.

The immortal city built by the cultivators in the Chaos Continent is mainly for mining immortal mines.

As long as the quality of this third-level mineral vein is not too bad.

Then they should have no problem building an immortal city here.

Thinking of this.

Zhang Yuhe continued to ask.

"What kind of mineral veins are they, and what is the range and quality of the mineral veins?"

Yu Liwei responded.

"That third-level vein is Xuanyue Immortal Jade. It has a large range. As long as the mining volume is controlled, it can be mined continuously."

"The other four second-level veins are of average quality, and the range of the veins is very small, so there is not much mining value."

After listening to Yu Liwei's narration, Zhang Yuhe frowned slightly.

This is worse than he imagined.

Only five veins have been found near Mingsha Ridge.

And only the Xuanyue Immortal Jade vein has mining value.

This place is a bit bad.

Of course.

This is also because his requirements are too high.

Normal speaking.

As long as there is a third-level vein, and this third-level vein has the value of continuous mining.

Then this place can fully support the operation of a monarch-level immortal city.

But Zhang Yuhe thinks that this place is still too bad.

The main reason is that the immortal ore, Xuanyue Immortal Jade, is too ordinary.

Xuanyue Immortal Jade is an auxiliary material for refining top-grade immortal artifacts.

Almost all top-grade immortal artifacts require Xuanyue Immortal Jade.

This material is in great demand.

As long as there is output, it can be easily sold.

The problem is.

The output of this thing is also very large.

According to Zhang Yuhe's understanding.

In the Nanhai Immortal Realm alone, there are three Xuanyue Immortal Jade veins in the immortal cities of major forces.

This thing is too unremarkable.

It is almost the least valuable thing among the third-level immortal mines.

Thinking of this.

Zhang Yuhe couldn't help but feel helpless.

Mingsha Ridge is simply a chicken rib.

It's tasteless to eat, but it's a pity to abandon it.

"Why don't we find a new place?"

Zhang Yuhe thought silently in his heart.

Although several third-level tribes around are already being attacked by other major forces.

It's not convenient for him to intervene.

But he can go a little further.

On the Chaos Continent, there are not only these six third-level Chaos Beast Tribes.

It's just that the other third-level tribes are a little farther away.

Even if they are occupied and build immortal cities.

The defense pressure in the future will be greater.

After all, there are no other fairy cities around to provide cover, and they might need to face the attacks of the Chaos Beasts independently.

But in Zhang Yuhe's opinion.

These are not problems.

The defensive problem is easy to solve.

Section 466

If the beast tide is the same as before.

He doesn't have to worry at all.

As long as he is there, he can easily repel the attack of the chaos beast.

The last beast tide was known as the calamity of the immortals.

But in Zhang Yuhe's view.

In fact, it is just like that.

There are not even a few king-level chaos beasts.

A beast tide of this scale is no pressure for him at all.

Zhang Yuhe thought.

As long as there are abundant resources, it doesn't matter even if it is far away from the core area of the human race.

In his conception.

The future Daosheng Sect will sooner or later dominate one side.

Being farther away from other immortal cities can gain a broad space for development.

After repeated consideration.

Zhang Yuhe decided to find a new place.

However, Mingsha Ridge cannot be abandoned.

Keep it here and build an acropolis in the future.

After all, there is a third-level mineral vein here.

It can't be wasted.

So it was decided.

Boom...

While Zhang Yuhe was still thinking.

Suddenly, a loud noise came from a distance.

Faced with the sudden change.

Everyone took off and looked in the direction of the sound.

I saw the sky full of red in the distance, and all kinds of powerful momentum were intertwined in chaos.

Zhang Yuhe looked into the distance with concentration.

I could vaguely see a pair of majestic hammer shadows and a faint golden spear light.

Seeing this situation.

Zhang Yuhe's heart trembled.

He muttered to himself.

"Such a strong momentum, at least it's the Daluo Immortal King, right?"

Although the distance was far, he didn't know what happened over there.

But looking at the momentum that soared into the sky.

Zhang Yuhe could understand.

There should be a Daluo Immortal King fighting a chaos beast over there.

Combined with the Wanxianmen, the purpose of organizing this action.

Zhang Yuhe made a bold guess.

Maybe Wanshan Immortal King and others were intercepting the king-level chaos beast from Niulanshan over there.

I just don't know what the specific battle situation is now?

Thinking of this.

Zhang Yuhe couldn't help but be eager to try.

He really wanted to try to see what the limit of his strength was.

Could he beat a king-level chaos beast?

At this moment.

Nangong Tianming flew over from a distance.

He said solemnly.

"It was the Immortal King Wanshan."

"I've seen the Immortal King Wanshan take action before, and the shadow of the two hammers is the Immortal King Wanshan's natal immortal weapon."

"I think the Immortal King Wanshan and others are intercepting the king beast of Niulan Mountain at this time."

"I just don't know if they can stop it?"

There was a little worry in Nangong Tianming's words.

He was worried that if a few king-level chaos beasts were missed, they would be in big trouble.

He had seen the power of the king-level chaos beast.

Although Nangong Tianming thought he was quite strong.

But facing the king-level chaos beast, he couldn't even take a single move.

He could only flee in panic.

To be honest.

He was able to escape from the king-level chaos beast with his life.

It was already very good.

Now there was chaos all around.

It's hard to say whether there will be a king-level chaos beast coming here.

If that's the case.

Should they consider evacuating their disciples to the rear in advance?

Nangong Tianming turned his head to look at Zhang Yuhe, and was about to ask for his opinion.

However, he saw that Zhang Yuhe at this time was actually excited.

It seems that he wants to rush over and fight with the king-level chaos beast?

This...

Thinking of this, Nangong Tianming couldn't help but feel a little overwhelmed.

Brother, do you have to be so fierce?

You just promoted to Taiyi Immortal Lord, and you want to fight the king-level chaos beast?

This is too exaggerated.

Sure enough.

Just when Nangong Tianming was still thinking about how to speak.

Zhang Yuhe had already said excitedly.

"You should disperse and guard first, and by the way, clean up all the chaos beasts on the periphery."

"I'll go over and take a look."

As soon as he finished speaking.

He quickly turned into a stream of light and disappeared in the distance.

Leaving everyone at the scene in a mess in the wind.

...

Chapter 369: I can't help

Seeing Zhang Yuhe suddenly leave, everyone looked at each other in bewilderment.

Nangong Tianming looked at the direction where Zhang Yuhe disappeared, feeling extremely complicated.

He really admired Zhang Yuhe's courage.

It had only been a few tens of thousands of years since he was promoted to Taiyi Immortal Lord, and he dared to rush over to fight with the King-level Chaos Beast.

Nangong Tianming knew.

This was a manifestation of self-confidence.

If he was not absolutely confident in his own strength.

He would definitely not do such a thing.

Generally speaking.

In the early stage of Taiyi Immortal, the strength is only equivalent to that of a Seven-star Chaos Beast.

And the weakest King-level Chaos Beast can be comparable to that of an early Daluo Immortal King.

The gap between them is simply unimaginable.

However, Zhang Yuhe still wanted to intervene when he saw the battle in the distance.

This shows that.

Zhang Yuhe has absolute confidence in his own strength.

But it is normal to think about it.

Nangong Tianming thought of the scene when Zhang Yuhe wiped out Mingsha Ridge just now.

Section 467

That kind of terrifying strength is not inferior to that of Da Luo Immortal King.

It is even possible that it will be stronger than the ordinary Daluo Immortal King.

to be honest.

After careful consideration.

Nangong Tianming felt the same.

Zhang Yuhe is indeed qualified to participate in the battle of Da Luo Immortal King.

Looking at the direction Zhang Yuhe was going away.

Infinite envy and yearning arose in Nangong Tianming's heart.

He muttered to himself.

"Is this the supreme genius?"

"Be carefree and fearless."

"I don't know if one day I will be as free and easy as him."

But Nangong Tianming also knew.

Just think about this kind of thing.

Among monks of the same level, he is at best above average.

Like Zhang Yuhe, he has the confidence to go against all odds.

There is no hope for him in this life.

Unless there is an unexpected chance.

But Nangong Tianming has been practicing Taoism for hundreds of millions of years.

I no longer have that kind of impulse and dream in my heart.

Zhang Yuhe used all his strength to activate the Galaxy Wandering Dragon Movement Technique, and moved forward rapidly.

At this time, the Fengling Valley battlefield is taking place.

Six Daluo Immortal Kings were fighting together with four king-level chaos beasts.

Under the shadow of Liuyue Immortal King's Taoism.

The twenty-four king beasts of Niulan Mountain are divided into seven battlefield spaces.

They had just solved the three king beasts in one space.

Currently besieging the Chaos Beasts in the second space.

With the help of Taoism.

They can maintain the situation of having more and less.

The whole process was extremely easy.

It only takes a moment.

They solved it, three king-level chaos beasts.

Such a record.

Before this, they simply didn't dare to think about it.

Disadvantages become strengths.

The headwind game turned into a tailwind game.

All this is due to the Taoist skills of Immortal King Liuyue.

Think of this.

Everyone couldn't help but feel a little envious.

Any Taoist technique has extremely terrifying effects.

Even Qiankun Tiandi, this kind of auxiliary control type of Taoist magic.

In a special battle situation like this, the effect is very obvious.

Turn the tide of battle in an instant.

Isn't this strong enough?

As for those violent Taoist techniques, they are even more terrifying.

Even with one Taoist move, the nine-color king-level chaos beast can be killed instantly.

Unfortunately, if you want to practice a Taoist skill, the threshold is too high.

Practicing Taoism requires not only understanding the laws to perfection.

And you also need an original thing to open your own avenue of origin.

In addition, Taoist cultivation methods are also needed.

These three prerequisites.

For the immortal kings in the South China Sea Immortal Domain.

It's just too far away.

In addition to the perfection of the law, they can also look forward to it.

As for the original things and the methods of Taoist cultivation, they should not think about it.

Unless there is an unexpected chance.

Otherwise.

Something like Taoism.

They are basically hopeless in this life.

Think of this.

Everyone put away their envious mood and concentrated on dealing with the Chaos Beast in front of them.

Now we just need to deal with these chaotic beasts in front of us.

Then there are only seventeen king-level chaos beasts left in Niulan Mountain.

Even if all these chaos beasts gather together, they will not be afraid.

Because the strength gap between the two sides is no longer too big.

In front of Immortal King Liuyue was a powerful six-color king-level chaos beast.

But no matter how powerful the Chaos Beast is, it is still no match for Liuyue Immortal King.

She was seen wielding a golden spear.

Whenever the spear passes by, a huge bloody hole will be pierced in the body of the six-color king beast.

Chaos beasts have strong defenses.

Immortal weapons of the same level generally have difficulty penetrating the defense of Chaos Beasts.

But the golden spear in the hands of Immortal King Liuyue is obviously very extraordinary.

The spear tip flashed with sharp light and could easily penetrate the Chaos Beast's defense.

In other words, the vitality of the Chaos Beast is strong enough.

If it were replaced by a monk of the same level.

Liuyue Immortal King can turn people into a bloody mist with one shot.

The Immortal King of Wanshan swung his double hammers, and the shadow of the hammers shattered the void, and they smashed crazily at the Chaos Beast in front of him.

The chaos beast in front of him was just a four-color king beast.

Facing the Wanshan Immortal King's double hammers, he was completely powerless to fight back.

It can only be blown away like sandbags.

It probably won't take a while.

This four-color king beast would be directly shocked to death by the crazy double hammers of Wanshan Immortal King.

to be honest.

The delicate appearance of Wanshan Immortal King really doesn't match the huge hammers.

If it is the first time to see the Immortal King of Wanshan fighting.

It must feel weird.

However, the few people present were all old monsters who had been practicing for countless years.

For Immortal King Wanshan, this unique painting style.

They were already used to it.

...

Zhang Yuhe used all his strength to activate the Galaxy Wandering Dragon Movement Technique, and quickly shuttled forward in the void.

About half an hour later, he arrived near Fengling Valley.

Seeing the battle situation in front of him, he felt very surprised.

Obviously there are only six Daluo Immortal Kings in the human race.

There are still twenty-one king-level chaos beasts in Niulan Mountain.

But the situation at the scene turned out to be six Da Luo Immortal Kings, surrounding four king-level chaos beasts and attacking fiercely.

As for the remaining Chaos Beasts, they were frantically bombarding the surrounding void barriers.

No matter how you look at this scene, it is very wrong.

"Hey, what the hell is this?"

When Zhang Yuhe flew over Fengling Valley.

Section 468

He finally discovered something unusual.

The entire Fengling Valley seemed to have been cut apart by some powerful magical power.

He stood above Fengling Valley, seemingly very close at hand.

In fact, it is as graceful as being on the horizon.

The battlefield inside seemed to be in a different world than him.

Zhang Yuhe casually popped out a sword light.

The sword light passed through Fengling Valley and appeared on the other side in an instant.

this.....

Seeing this strange scene in front of him, Zhang Yuhe couldn't help being shocked.

What kind of magical power is this.

How could he be so overbearing?

It can actually cut out a huge space completely.

The issue is.

The cut space is clearly right in front of you.

But he was completely out of reach.

See this situation.

Zhang Yuhe was very speechless.

Originally, he was thinking about whether he could come over and help.

With his strength.

At least let those Da Luo Immortal Kings share some of the pressure.

Maybe he can still find a chance to kill one or two king-level chaos beasts.

Now it seems.

It's him who thinks too much.

He simply came to see the show.

The battlefield was divided into a space that he could not touch.

He couldn't help even if he wanted to.

How to do this?

Are you really just watching the show?

Think of this.

Zhang Yuhe couldn't help feeling a little sad.

These Daluo Immortal Kings are so advanced in their play.

Don't give him a chance to show off at all.

...

Chapter 370 Go to Niulan Mountain quickly

Zhang Yuhe stood outside Qiankun Tiandi.

Looking at the six Daluo Immortal Kings, the Hammer King Beast was enjoying themselves.

He couldn't help but feel a little anxious.

Such a good opportunity to fight monsters was not available to him.

This is too much.

What a great opportunity to practice.

The king-level chaos beasts in Niulan Mountain were divided into separate spaces.

Daluo Immortal King came up to besiege him, and there was no risk at all.

Zhang Yuhe thought.

If only he had come earlier.

Is there also a chance to fight a wave of dead dogs together?

Chaos beasts are full of treasures.

Zhang Yuhe really doesn't like ordinary chaos beasts.

But the corpse and crystal core of the king-level chaos beast are extremely precious.

If you don't enter the circle of Daluo Immortal King, you won't even be able to buy it.

Some of Zhang Yuhe's future ideas will use the corpses and crystal cores of king-level chaos beasts.

Originally, he thought he could follow these Daluo Immortal Kings.

Let's see if we can get some bargains.

Now it seems that he is overthinking.

He couldn't get involved at all.

Zhang Yuhe stood outside worried.

Suddenly his expression changed.

Take out an immortal mirror.

He tried to contact Immortal King Wanshan to see if he could be let in, and then everyone could happily fight monsters together.

However, after using the magic formula many times.

There was no reaction from the Immortal Mirror.

could not be reached.

Qiankun Tiandi, as a super powerful Taoist technique, has the effect of isolating the inside and outside.

Even the information about the Immortal Mirror could not be transmitted.

Wanshan Immortal King waved his hammers wildly and glanced outside.

In fact, Zhang Yuhe can see them.

Of course they can also see Zhang Yuhe outside.

Except for the Immortal King of Wanshan.

No one else knows Zhang Yuhe.

Everyone thought.

This is a certain Taiyi Immortal Lord passing by.

Wanshan Immortal King also took out the Immortal Mirror and tried to communicate with Zhang Yuhe.

Then he realized that he couldn't be contacted at all.

He still underestimated the power of the universe.

This Taoist technique truly achieves the effect of isolating the inside and outside.

At this time, they are completely in an independent time and space.

It is equivalent to the difference between the immortal world and the immortal world.

Naturally, the message cannot be conveyed using an ordinary Immortal Mirror.

After many attempts.

Wanshan Immortal King shouted to Liuyue Immortal King in the distance.

"Fairy, that person outside is Zhang Yuhe, the supreme genius."

"Can you open a hole in Taoism and let him in to attack the Chaos Beast together?"

Immortal King Wanshan understands.

Although now it seems that they have an absolute advantage.

But how long can this advantage last?

That's still hard to say.

The Niu Man over there, with four high-level king beasts, is frantically attacking the space barrier.

The connection with the space next to it is almost established.

If you wait until Niu Man, you can open up a few more spatial connections.

Then they still have a tough battle to fight.

In fact, they are competing for time with the Chaos Beast now.

It depends on whether they kill faster or Niu Man moves faster.

If Niu Man takes the lead, he can open up connections between multiple spaces.

Then there may be some trouble later.

In fact, they can also attack Niu Man's space first.

As long as the Chaos Beasts on Niu Man's side are dealt with, the remaining Chaos Beasts will be easy to deal with.

But the problem is.

The Chaos Beasts on Niu Man's side are all extremely powerful.

Two nine-color king beasts, plus eight-color and seven-color king beasts.

This is not something they can do in a short while.

Section 469

That's why Immortal King Liuyue chose the easy first and then the difficult.

Get rid of the weak Chaos Beasts first, and then fight the tough battle.

Wanshan Immortal King thought.

If Zhang Yuhe is allowed in.

Then their attack speed will probably be faster.

After all, Zhang Yuhe was able to wipe out hundreds of Taiyi realm chaos beasts in a short period of time.

Thinking about it, he has strong explosive power.

Just right for this situation.

Immortal King Liuyue glanced outside, then slowly shook his head and said.

"It's too late. After the universe is released, it cannot be opened again."

"Otherwise, the entire space will return to its original state, and those Chaos Beasts will gather together quickly."

"So that's it."

Hear the explanation from Immortal King Liuyue.

Immortal King Wanshan had no choice but to give up.

In front of them, there is a powerful helper.

But couldn't join in.

What a pity.

Just when Wanshan Immortal King felt a little pity.

Suddenly he had an idea.

Since Zhang Yuhe can't join their battlefield, he shouldn't be idle here.

Hurry up and clean up Niulan Mountain.

There are only twenty-four king-level chaos beasts in Niulan Mountain.

And it's all here.

That means.

The Niulanshan tribe is now almost undefended.

Of course.

What I'm talking about here is being undefended.

It is only for the Da Luo Immortal King, or for those who have the combat power of the Da Luo Immortal King.

If it were Taiyi Immortal Lord.

No matter how many people pass by, it will probably be in vain.

Niulan Mountain is a powerful fourth-level Chaos Beast tribe.

Except for the king-level chaos beast.

There are even more chaos beasts at all levels.

Among them, there are dozens of nine-star chaos beasts.

As for the other seven or eight-star Chaos Beasts, they are countless.

Even if all the Taiyi Immortal Lords from the entire South China Sea Immortal Territory come together.

Facing the Chaos Beasts in Niulan Mountain, they probably had no choice but to run away.

But Immortal King Wanshan thought.

Zhang Yuhe is different.

According to previous reports, Zhang Yuhe relied on a sword formation.

It can sweep across all the Chaos Beasts in Mingsha Ridge.

To know.

Mingsha Ridge also has nine-star chaos beasts.

Since he can wipe out the chaos beasts in Mingsha Ridge.

Then it should be no problem to deal with the Chaos Beast in Niulan Mountain.

After all, there is no king beast sitting there anymore.

The more Wanshan Immortal King thought about it, the more he thought it was a good idea.

Only Zhang Yuhe can wipe out the Niulan Mountain tribe.

That would not only solve a huge threat.

And it will be of great help to their current situation.

Once the Niulanshan tribe is attacked, Niuman will definitely be able to sense it.

In that case.

These king-level chaos beasts may be shaken.

That way it would be easier for them to catch the opportunity.

But now, how does he communicate with Zhang Yuhe outside?

The two parties can see each other, but cannot communicate.

As for talking, that's even more impossible.

You can't just gesture, right?

Not to mention Zhang Yuhe, he couldn't understand the gestures.

He himself didn't know how to use gestures to express his meaning.

Suddenly, the Immortal King of Wanshan had an idea.

He swung the big hammer with his right hand.

[Go to Niulan Mountain quickly]

Several large characters slowly appeared in the void.

Wanshan Immortal King thought.

Can see each other.

However, the words could not be heard, and the message could not be transmitted.

Then I will write a few big characters so that you can always understand them.

Zhang Yuhe stood outside.

Looking at the Daluo Immortal Kings, they are struggling to besiege the Chaos Beast.

He was extremely confused.

At this time he had some understanding.

It should be a certain Daluo Immortal King inside who uses super powerful magical powers.

This space was cut out, and the chaos beasts inside were divided into a small independent group.

But he didn't dare to bombard the surrounding space barriers.

Zhang Yuhe didn't know the plans of the Immortal Kings.

It would be bad if he opened the space and the chaos beast inside was released.

Actually he doesn't know.

Even if he attacks with all his strength, he can't touch the space inside.

The power of Taoism was far beyond his imagination.

"I shouldn't have anything to do here. How about I go back?"

Zhang Yuhe thought.

He couldn't get involved here, so he might as well continue with the previous plan.

Quickly find a level 3 tribe and scan it first.

After all, his main goal is to find a suitable place to build a fairy city.

Mingsha Ridge is still a bit lacking.

Zhang Yuhe was a little dissatisfied.

Just when Zhang Yuhe was still struggling.

He suddenly saw the Immortal King of Wanshan driving away the Chaos Beast with a hammer.

Then give the hammer a stroke.

Several big characters appeared in the void.

Zhang Yuhe couldn't help but be confused when he saw a few big characters in the void.

"What does it mean?"

"Let me go to Niulan Mountain alone?"

...

Chapter 371 True Strength

Zhang Yuhe was completely confused.

What does Wanshan Immortal King mean?

Let him go to the Niulanshan tribe alone?

Section 470

What are you going there for?

To die?

To know.

Niulan Mountain is a fourth-level tribe.

Who knows how many king-level chaos beasts there are in the Niulanshan tribe now.

If it's one or two, that's fine.

He dared to go over and touch it.

If there were still a group of king-level chaos beasts squatting in Niulan Mountain now.

Then if he went there alone, wouldn't he die in vain?

In fact, Zhang Yuhe didn't know how many king-level chaos beasts there were in Niulan Mountain.

He doesn't even know.

Those king-level chaos beasts have all been trapped in the universe.

Now the entire Niulanshan tribe does not even have a single king-level chaos beast.

This is an information gap.

Generally, only Daluo Immortal King knows the information about king-level chaos beasts.

A newly promoted Taiyi Immortal Lord like Zhang Yuhe has no way of knowing.

Zhang Yuhe stood there and hesitated.

He really wanted to write a few words and ask Immortal King Wanshan what they meant.

Is there something that he didn't understand properly?

Zhang Yuhe was still struggling.

The hammer in Wanshan Immortal King's right hand struck in the void again.

[All the king beasts in Niulan Mountain are here, there are no king beasts over there. ]

"Zhoucao, what else is going on?"

Seeing the writing in the void again, Zhang Yuhe almost jumped with excitement.

What the hell, is this pie in the sky?

Not even a single king-level chaos beast was left in Niulan Mountain.

Is the king-level chaos beast of Niulan Mountain so tough?

Not even your hometown?

Just act recklessly?

I heard that the high priest of the Niulanshan tribe was called Niuman.

It's really pretty cool.

I don't even want a home anymore.

They just attacked the peripheral third-level tribes.

Niu Man actually came out with all the king-level chaos beasts?

This is simply incredible.

Moreover, these king-level chaos beasts are all trapped in the space in front of them.

Is there such a good thing?

Zhang Yuhe simply couldn't believe his eyes.

Compared with Niulan Mountain.

What do these king-level chaos beasts in front of me mean?

The Niulan Mountain tribe has stood in the Chaos Continent for countless years.

I don't know how long it's been there, but no monk has broken in.

In the vast area of Niulan Mountain, there were countless treasures waiting for him to pick them up.

the most important is.

Niulan Mountain is a level four chaos beast tribe.

There must be precious mineral veins, spiritual lands, fairy ponds and other resources there.

As long as he can take it down and successfully hold it.

Let alone building a monarch-level fairy city.

Even building a royal city would probably be more than enough.

Think of this.

Zhang Yuhe never stopped again.

He used all his strength to activate the Galaxy Wandering Dragon Movement Technique and quickly shuttled towards Niulan Mountain.

This is an opportunity that is rare in millions of years and cannot be missed.

If the Dao Sheng Sect could build a fairy city in Niulan Mountain.

This will lay a solid foundation for their future development in the Chaos Continent.

Zhang Yuhe was seen walking away quickly.

Immortal King Wanshan couldn't help but want to laugh.

This kid.

When there is danger.

It's like there are nails in my butt, and I can't even move.

When I see the benefits, I run faster than anyone else.

But he didn't think much about it.

It is human nature to seek advantages and avoid disadvantages.

After all, no one is a saint.

No one wants to die.

No one is willing to do anything that is not beneficial.

And only Zhang Yuhe can defeat the Niulanshan tribe.

That's what helped them a lot.

In that case.

After Niu Man sensed the changes in the tribe.

Maybe you will make a mistake in a hurry.

Then it might be easier for them to deal with these king-level chaos beasts.

Zhang Yuhe pushed his body skills to the extreme and flew forward quickly.

As for Fengling Valley, he had long forgotten about those king-level chaos beasts.

Those king-level chaos beasts have nothing to worry about.

He had to take down Niulan Mountain quickly.

If the speed is a little slower.

In case those king-level chaos beasts are trapped, a few of them will come back.

That would be a bit difficult.

Zhang Yuhe couldn't understand the Taoist magic performed by Immortal King Liuyue.

He didn't know how long that special space would last.

Now he just knows.

We must rush to Niulan Mountain as soon as possible, and then wipe out all the chaos beasts there.

As for whether it is possible to build a fairy city there.

That still depends on the results of the Wanshan Immortal King's side.

Only Wanshan Immortal King and others killed most of those king-level chaos beasts.

Only then did he have the opportunity to establish himself in Niulan Mountain.

Otherwise.

Wait for those king-level chaos beasts to come back.

He still had to run away.

But before that.

He must at least wipe out all the chaos beasts in Niulan Mountain first.

Then loot it all.

Just do this.

This time he made a lot of money.

Of course.

If Wanshan Immortal King and others can annihilate all those king-level chaos beasts.

That would be more perfect.

Because then.

If he wants to build a fairy city in Niulan Mountain, there will be no resistance.
