Section 47

Li Tian had tried it before, punching Jingkong City's defense, which was completely scratching his itch.

It can't be beaten at all.

However, if Zhang Yuhe wanted to take action, he did not object, and Li Tian also punched Jingkong.

He felt that Zhang Yuhe was right on one point.

It would also be good to speed things up a bit, and solve the problem early to avoid unnecessary complications.

boom.....

Li Tian punched the light curtain on Jingkong City, but Zhang Yuhe ignored it.

When the nine flying swords were in place, he quickly activated the magic formula.

"Sword formation, start."

A large sword light suddenly lit up outside Jingkong City. The sword light turned into invisible sword energy and quickly swept towards the light curtain.

"this....."

Seeing such a scene, Li Tian was completely shocked.

"What kind of magical power is this? It's too strong."

How could the sword array arranged by the cultivator become so large?

The entire Jingkong City was actually enveloped in the sword array.

The Jiutian Hunyuan Sword Formation integrates offense and defense. As for the control range of the sword formation?

It can be said that there is no upper limit.

As long as Zhang Yuhe has enough magic power and is within the control of his spiritual consciousness, it will be fine.

Jingkong City is not a big city, and with his divine consciousness in the late stages of becoming a god, he can completely cover it.

As for the power of speaking, there is no need to worry.

Zhang Yuhe's Dantian, which is like a sea, is enough for consumption.

Of course.

The larger the range of the sword array, the attack intensity of the invisible sword energy will naturally decrease accordingly.

But it does not matter.

No matter how low it is, there is still a large amount of invisible sword energy sweeping towards the light curtain on Jingkong City.

Seeing the effect of the sword formation, Li Tian put away his fists and stepped aside in embarrassment.

It's a bit embarrassing.

Compared to Zhang Yuhe, he felt like he was a younger brother.

His attacks were indeed in vain, but the invisible sword energy swept out by the sword formation controlled by Zhang Yuhe had a remarkable effect.

As the invisible sword energy continued to sweep across the light screen, Jingkong City's defensive formation was finally about to be unable to hold up.

boom.....

After a bolt of lightning struck, the light curtain above Jingkong City exploded instantly.

Without the defensive formation, the scene in the city was completely revealed to the two of them.

I saw that the city was filled with boundless demonic energy and pungent blood energy.

Zhang Yuhe frowned slightly and looked up at the sky. A huge vortex had appeared in the sky.

On the other side of the vortex, you can even vaguely see countless demonic shadows surging.

"Has the passage been opened?"

Zhang Yuhe had never seen such a scene before, and he was about to ask Li Tian.

However, when he turned around, he realized that Li Tian had already waved his fist and pounced towards the horned demon on the altar.

"Elder brother is so brave."

Zhang Yuhe praised silently.

But he hadn't finished praising him yet. Almost instantly, Li Tian was like a broken sack, beaten by the horned demon until he vomited blood and flew away.

Li Tian, who kept retreating, did not forget to remind him.

"Junior brother, be careful, this is a demon from the Void Refining Realm."

"Hold the grass."

Zhang Yuhe was shocked, how could a demon from the Void Refining Realm appear?

The realm of refining the void is a huge threshold for monks. The monks who can cultivate to the realm of refining the void can be said to be only one in a billion.

Compared to the cultivators of the Transformation of Gods, the power of the Void Refining Realm is completely unimaginable.

Otherwise, why in Daosheng Sect, once you reach the Void Refining Realm, you can automatically become a sect elder.

Because the strength gap between the two cannot be calculated at all.

Normally, a monk in the Void Refining Realm, even if he faced ten transformed gods at the same time, it would be like beating his son. He could be hung up and beaten.

There are only two of them here, and both of them only have the cultivation level of God Transformation.

How to fight this.

But Zhang Yuhe did not run away.

Although the demons in the Void Refining Realm are definitely very strong, he has already set up a large formation here.

There is not only the Nine Heavens Hunyuan Sword Formation, but also the Guishui Thunder Formation.

With these two formations, they are fully capable of fighting.

And even if you want to run away now, you may not be able to escape, even if you use the Heavenly Flying Immortal Technique to escape very fast.

But facing the horned demon in the Void Refining Realm, it might not be possible to outrun him.

In this case, it's better to just do it directly.

Chapter 48 The channel opens

The Void-Refining Horned Demon on the altar, after knocking Li Tian away with one punch, looked at the whirlpool channel in the sky that was gradually stabilizing, and kept laughing wildly.

"Hahaha, the passage is finally open, warriors of the demon clan, come here, this is our paradise."

"Zhuo, so arrogant."

Zhang Yuhe couldn't bear it at all.

He could finally see that although the passage between the two realms had been opened, it was also slowly becoming more stable.

But it hasn't really formed yet, and the demons on the opposite side can't get through it yet.

The most important thing is that the horned demon on the altar still holds a formation disk in his hand and is constantly using magic formulas.

In other words, this horned demon cannot move for the time being.

Just a dead target.

If you don't do it now, then when will you wait?

Zhang Yuhe quickly pressed the magic formula, and the invisible sword energy filled the sky and swept away towards the horned demon on the altar.

At the same time, he did not forget to pull the Guishui to draw the thunder formation, and lightning bolts quickly struck down on the Horned Demon.

The horned devil stood on the altar, exuding violent demonic energy.

At this time, Li Tian had already arrived at Zhang Yuhe's side, but his face was pale.

Obviously, the blow from the Horned Demon just now made him feel very uncomfortable.

The horned demon stood on the altar, bearing the attacks of invisible sword energy and lightning.

The demon energy around him was completely split by lightning and sword energy, and some shallow blood marks were also cut on his body.

The demons are originally strong in the flesh, and the horned demons are the best among them.

Not to mention that this is a horned demon in the realm of refining emptiness.

The horned demon withstood a large amount of invisible sword energy and continuous thunder and lightning attacks, but he did not suffer much damage.

"Is this a fucking Iron King Kong?"

Zhang Yuhe complained silently, but his hands did not stop at all.

If the horned demon is not seriously injured now while it cannot move, how can we fight it later?

It is so difficult to hit a dead target. If the horned demon moves, then they will have no way to survive?

Li Tian, who was standing next to him, also released a flying sword of Tongtian Lingbao and slashed at the horned demon.

"Bug, you are looking for death."

The horned demon on the altar was completely angry.

He turned his head to look at the two people, then threw a punch, and the huge fist shadow leaped across the sky and rushed towards the two people.

However, the invisible sword energy aroused by the Nine Heavens Hunyuan Sword Formation blocked the way.

The huge fist shadow shattered the invisible sword energy piece by piece, and when it was half the distance away from them, it slowly dissipated.

Seeing this situation, Zhang Yuhe couldn't help but laugh.

"That's it?"

The Horned Demon in the Refining Void Realm is just like this.

"Hold on tightly, while the passage is not open yet, kill this Horned Demon directly."

After throwing a punch, the Horned Demon on the altar also knew that he could not do anything to the two people for the time being.

Unless he was willing to step down from the altar.

But in that case, his idea of opening the passage would be completely shattered.

Before the passage was stable, he had to withstand the attacks of the two people.
