

## Top talent 49

### Chapter 49

Around the Horned Demon, countless vines rose out of thin air, trapping the Horned Demon tightly.

Sixth-level talisman paper, Yimu Trapping Talisman.

This kind of talisman paper has only one function, which is to temporarily restrict the target.

Taking advantage of the moment when the Horned Demon was trapped, Zhang Yuhe pinched the magic formula, and the Nine Heavens Mixed Origin Sword Formation quickly narrowed the range.

The entire sword formation was compressed within a radius of ten feet around the Horned Demon.

The dense invisible sword energy, like a violent ocean, swept violently towards the Horned Demon.

"Ah..."

The Horned Demon swung his fist and broke the Teng Teng that trapped him with one punch.

However, he swung his fist again and punched the outer sword formation.

Boom...

The black fist shadow instantly fell on the sword formation light curtain, and the light curtain caused a violent shaking.

After a while, it returned to normal.

The Horned Demon punched with all his strength, but did not break through the Nine Heavens Mixed Sword Formation.

Seeing this situation, Zhang Yuhe's tense nerves finally relaxed.

He stared at the horned demon in the sword formation and said fiercely.

"You are dead."

The horned demon was completely trapped by the sword formation and was seriously injured. His strength was no longer what it used to be.

Now the horned demon could not break the sword formation even with his full strength, so he could only die.

Zhang Yuhe kept pinching the magic formula, and the sword shadows became more and more dense. A large amount of invisible sword energy quickly cut into the body of the horned demon.

Despite this, the horned demon was still struggling to death. He was unwilling to die like this.

No one wanted to die, and the horned demon was the same.

The horned demon kept swinging his fists and bombarding the light curtain of the sword formation.

However, no matter how the horned demon struggled, the Nine Heavens Hunyuan Sword Formation remained motionless.

As the injury became more and more serious, the horned demon's fists became more and more weak.

"Ah..."

Suddenly, the dense invisible sword energy cut through the tough body of the horned demon.

The horned demon only had time to let out a scream, and then it was cut into ashes by the dense sword energy.

Only a pair of strange black long horns were left at the scene.

Seeing the horned demon dead, Zhang Yuhe breathed a sigh of relief.

Today was really a bit scary.

How could he know that there would be a horned demon in the Refining Void Realm in this Jingkong City.

Originally, he thought that the one with the highest cultivation level on the other side was Mingyue Fei of Fengxin Tower.

He never thought that the demon on the altar was actually a super BOSS.

Almost got into trouble.

It was Lu Mingfang's fault that he was unreliable.

He had clearly reported the situation of Jingkong truthfully, but Lu Mingfang did not arrange for stronger support.

Although Li Tian's strength was not bad, it was not enough to face the horned demon in the Refining Void Realm.

Zhang Yuhe had no experience in this area and didn't know what kind of hidden power the other side would have.

But it was definitely not the first time that Daosheng Sect had dealt with a similar situation.

I think they should have experience.

Too unreliable, almost pitted him to death.

Fortunately, the Nine Heavens Hunyuan Sword Formation was really powerful, otherwise, he and Li Tian would really be in trouble.

Zhang Yuhe waved his hand and put away the two long horns on the ground.

Although he didn't know what the two long horns were used for.

But it was obvious that they were good things.

The horned demon turned into ashes, but the two long horns were safe and sound.

Apart from anything else, the hardness of the two long horns was not comparable to that of ordinary materials.

Keeping them for refining in the future should have a good effect.

Putting away the long horns, Zhang Yuhe pinched the magic formula, and nine flying swords quickly fell to the periphery of Jingkong City.

Although the horned demon was dead, the passage was not closed.

At this time, there were still a large number of demons pouring in from the passage.

The flying sword fell, and the Nine Heavens Hunyuan Sword Formation rose again, and the boundless sword energy quickly swept through Jingkong City.

The sword energy was like cutting wheat, quickly cutting into pieces the demons who had just come from the passage.

The highest cultivation of these demons was only the Nascent Soul Realm, not as powerful as the horned demon.

Any invisible sword energy that passed by could cut down a large area.

But these demons are also strange.

Although they are here to die, they still keep pouring in from the passage.

It's as if there are dogs chasing them in the demon world, and Yu Fantian has money to pick up.

Even if they come here to die, these demons are still fearless.

"The demons are really scary."

Seeing these demons fearless, Zhang Yuhe couldn't help but shudder.

Who wouldn't be afraid of seeing those who don't care about their lives?

Not to mention that this is an entire race.

The entire race is not afraid of death, how terrible is this?

After a while, Li Tian dragged his weak body back.

Zhang Yuhe asked with concern.

"Big Brother, are you okay?"

"Not bad."

Li Tian replied weakly, no longer arrogant as before.

It's really hard to be arrogant.

Li Tian glanced around and didn't see any trace of the horned demon, so he asked excitedly.

"Junior Brother Zhang, is that horned demon dead?"

"Yes, deader than dead."

Zhang Yuhe answered with a smile, looking a little excited.

How could he not be happy?

This was his first real fight, and he killed a demon in the Refining Void Realm.

It was definitely something to be proud of to kill an enemy across a major realm in the first attack.

...

## Chapter 50 The Origin of the Hunyuan Heavenly Scripture

Zhang Yuhe casually controlled the sword formation to wipe out the city demons that entered the mirror space, while looking up at the vortex in the air.

"Will this passage always be there?"

Looking at the passage in the air, he had a headache as the demons kept pouring in.

Although these demons were not strong, it was not a big deal if they kept coming.

They couldn't just keep Jingkong City guarding this passage, right?

It would be better to find a way to close the passage.

Obviously, this touched on Zhang Yuhe's blind spot in knowledge.

He really didn't know much about this kind of passage that runs through the two worlds.

But Li Tian should know about this, right?

Thinking of this, Zhang Yuhe asked Li Tian next to him.

"Big Brother, is there no way to close this passage?"

Li Tian was about to answer.

Suddenly, a faint voice came from a distance.

"Don't worry, the temporary passage opened by the Tiangang Breaking Realm Array can only last for half an hour, and the passage will automatically close later."

Zhang Yuhe looked in the direction where the voice came from.

I saw the void fluctuating in the distance, and a white-robed figure slowly emerged from the void.

It was the elder of the Daosheng Sect, Lu Mingfang.

"Disciple Li Tian greets Elder Lu."

"Disciple Zhang Yuhe..."

Seeing Lu Mingfang appear, Zhang Yuhe couldn't help but wonder, did this old man just arrive, or had he been here for a long time?
