Section 491

Think of this.

Everyone couldn't help but feel extremely excited.

This will be the immortal city of Daosheng Sect.

The king-level immortal city of Daosheng Sect.

if everything goes well.

Maybe it won't be long.

Dao Sheng Sect will become the fourth super power in the South China Sea Immortal Domain.

There are powerful forces in the king-level fairy city.

In the entire fairy world, that is absolutely extraordinary.

...

Chapter 385 The first step in Fairy City is to build a teleportation array

On the huge drawings, Zhang Yuhe made detailed plans.

He surrounded the entire Niulan Mountain.

Even some places on the periphery are planned to be within the scope of Fairy City.

Zhang Yuhe planned the area near the altar to be the trading area of the future fairy city.

This place will be sold to other forces and chambers of commerce to promote the development of Fairy City.

As for the current location of the Galaxy Hall.

As well as the surrounding large areas, no construction will be carried out.

But keep it as it is.

This will be the main residence of Dao Sheng Sect in Immortal City.

They will open up a large number of caves near here.

For the elders and disciples of the sect to live.

As for the other vast areas in the fairy city, they are used to accommodate outsiders.

After the fairy city was established.

There will definitely be monks from all over the place staying in the fairy city.

They will use Fairy City as their base to adventure and collect resources in the Chaos Continent.

Any fairy city wants to eventually develop.

Relying on the power of your own sect alone is naturally not enough.

It needs to attract a large number of outsiders to gradually prosper.

Just like Tiangong City.

The Nangong Immortal Clan has been building there for hundreds of millions of years.

However, the majority of monks in the entire Immortal City are actually outsiders.

The Nangong Immortal Clan's own personnel are not even one-tenth.

Only a large number of outsiders are willing to stay in Fairy City.

Only then will the fairy city prosper.

For this reason, Zhang Yuhe marked out a broad area on the planning map.

These areas will be rented or sold in the future and provided to outsiders for their stay.

As for the defense of Fairy City.

Zhang Yuhe didn't, he put in too much effort.

According to his plan, the walls of the fairy city are only about a hundred feet high.

Such a city wall would be considered in the fairy world.

Totally worth mentioning.

Some tall Chaos Beasts can even step over with just a light kick.

This is not Zhang Yuhe, who does not want to build the city wall tall and towering.

It's just completely unnecessary.

The defense of the fairy city has never relied on the city wall.

Nor does it rely on defensive formations.

Facing the impact of the Chaos Beast.

No matter how tall the city wall is, no matter how top-notch the defensive formation is, it is difficult to have much effect.

The Chaos Beast is tall and has amazing attack power.

The walls and formations that could block the monks could not block the Chaos Beast.

Want to defend against the impact of the Chaos Beast.

The most important strength still relies on the monks who sit in the fairy city.

If the monk is not strong enough.

No matter how big or spectacular the fairy city is.

No matter how well the defense facilities are built, it is all in vain.

It is precisely because of this.

Zhang Yuhe didn't put too much effort into this aspect.

As long as he's here.

There is no need to think about the defense of the fairy city.

If one day, he is gone.

Then he doesn't need to worry about this fairy city anymore.

Everyone looked at the fairy city plan in front of them and couldn't help but talk about it.

After a while.

Zhang Yuhe stretched out his hand to signal, and everyone immediately became quiet.

Zhang Yuhe said slowly.

"The construction of Fairy City is a big project, and it will definitely not be enough for us alone."

"To this end, I will start building a teleportation array near the altar."

"As long as the teleportation array is built, the sect disciples from the Ji'an sea area can be teleported directly."

"But we need to prepare in advance."

"The number of disciples of the Dao Sheng Sect is still a bit too small. We may need to recruit some people in the Ji'an sea area to help build the fairy city."

Speaking of which.

Zhang Yuhe turned to Xie Mingyuan and said.

"Thank you, Palace Master, you are responsible for this matter."

"After the meeting, you immediately return to the Ji'an sea area to assist the company's leader who is staying behind and recruit the manpower as soon as possible."

"Yes, Sect Master."

Xie Mingyuan stood up, raised his hands and responded.

He is the deputy director of Daodian, and Daodian should be responsible for this matter.

Zhang Yuhe turned his head, looked at Yu Liwei beside him, and then said slowly.

"Master Yu, you are responsible for arranging the disciples of the temple to do a good job of security outside the fairy city."

"As long as there is a Chaos Beast approaching, we will eliminate it immediately."

"So as not to interfere with the construction of the fairy city."

"If you encounter a Chaos Beast that you can't deal with, send a warning in time and I will rush over."

"Yes, Sect Master."

Yu Li stood up slightly and responded.

Since the three major forces in the Ji'an sea area merged to form the new Dao Sheng Sect.

Zhang Yuhe established various halls within the sect.

Among them, the Temple is the strongest, but has the least sense of existence.

The master of the temple went on a killing spree.

However, the Daosheng Sect has been nestled in the waters of Ji'an for a long time.

There is absolutely no target for attack.

No one came looking for trouble, and they had no plans to expand.

Even if there is one or two actions occasionally.

It was all solved by Zhang Yuhe.

This made Yu Liwei, the master of the temple, feel very embarrassed for a while.

However, now the Daosheng Sect has begun to gain a foothold in the Chaos Continent.

Then the power of their temple will also be gradually revealed to the world.

After all, the Chaos Continent is so big.

Once the Daosheng Sect gains a foothold here, there will be many emergencies that need to be faced.

Section 492

These things are impossible and Zhang Yuhe needs to come forward.

With the power of their temple, they can solve it.

After all, Yu Liwei is also a Taiyi Immortal Lord now.

In the South China Sea Immortal Realm, he is considered a powerful person.

After Zhang Yuhe arranged various tasks, everyone dispersed one after another.

One after another they invested in the construction of the fairy city.

After a while.

Zhang Yuhe came to the altar.

Although they have completely occupied the territory of Niulan Mountain.

But this altar of chaos beast has not been demolished yet.

Saw Zhang Yuhe arriving.

Several disciples who stayed nearby immediately stepped forward and shouted respectfully.

"Meet the sect master."

Zhang Yuhe nodded lightly.

He looked up and looked around, then quickly jumped into the air.

He slapped his palm towards the altar.

Boom.

This altar that stood tall in Niulan Mountain for countless years disappeared into thin air.

Follow the magic formula and pinch it.

Countless sword lights spurted out.

The sword light cut rapidly around the altar.

A huge high platform was soon cut out.

Zhang Yuhe walked around the high platform.

Then he nodded with satisfaction.

I saw him wave his right hand.

Various formation components were quickly covered on the entire high platform.

In order to arrange the teleportation array, these were the components he had refined in advance.

Various parts are automatically spliced on the high platform and quickly integrated into one.

Zhang Yuhe stretched out his right hand and quickly carved in the void.

Rune patterns flashed quickly in the void.

I don't know how much time has passed.

As the last rune pattern was carved.

Zhang Yuhe quickly used the magic formula.

A dazzling beam of light rose into the sky.

After a while, the light pillar slowly disappeared.

Just at this time.

Xie Mingyuan flew over from a distance.

Originally, he planned to run to Tiangong City first and then teleport back to the Ji'an sea area.

But I thought of Zhang Yuhe, who was setting up the teleportation array.

Just come and take a look.

when he came here.

It was so good that a beam of light shot into the sky.

Xie Mingyuan immediately asked Zhang Yuhe.

"Sect Master, the teleportation array has been set up?"

"It should be fine."

Zhang Yuhe nodded lightly.

"I just calculated that this teleportation array can completely communicate to Ji'anfang City."

"Sect Master, let me give it a try?"

"Can."

Zhang Yuhe was very confident in the formation he had arranged.

Even if it's not tested.

He knows it too.

There is no problem at all with the teleportation array that I arranged.

Xie Mingyuan didn't have any doubts.

After so many years of understanding.

He had long been full of admiration for Zhang Yuhe, his former junior brother.

It has been proven countless times.

As long as Zhang Yuhe takes action, there is no problem that cannot be solved.

Xie Mingyuan walked onto the teleportation array.

Zhang Yuhe glanced at it, and then quickly used the magic formula.

With a flash of dazzling light.

Xie Mingyuan's figure disappeared from the teleportation array in an instant.

...

Chapter 386 Start refining the fairy ship

After arranging the teleportation array, Zhang Yuhe returned to the Galaxy Hall.

As for the subsequent construction work on the teleportation array, someone will naturally handle it.

He only needs to set up the formation and confirm that the teleportation array can operate effectively.

After returning to the Galaxy Hall.

Zhang Yuhe soon came to a valley.

I saw a strange seven-star fairy pond, exuding various mysterious auras.

In the center of the Immortal Pond, a golden long stick stood quietly like Optimus Prime.

This is exactly the place that is the innate treasure gathering place for spirits.

Zhang Yuhe used the Galaxy Hall to completely cover this treasure place.

And also made a change.

Integrate this treasure place with the Galaxy Hall.

Looking at the long golden stick in front of him, Zhang Yuhe's heart moved.

I saw him wave his right hand.

The nine fairy swords slowly flew out

"go."

Zhang Yuhe stretched out his hand and pointed.

The fairy sword turned slightly and floated quietly over the fairy pond.

Zhang Yuhe thought.

This innate spiritual treasure land can allow the innate treasure to gradually evolve and improve.

It can even eventually be promoted to the level of innate Taoist tools.

Then his natal magic weapon will be placed in the fairy pond.

Can it also be promoted?

After all, Zhang Yuhe's Nine Heavens Hunyuan Sword now also incorporates innate spiritual materials.

It is considered a semi-innate treasure.

If this strange fairy pond can use the Nine Heavens Hunyuan Sword.

If it is also promoted to the level of innate Taoist tools, it will be awesome.

Zhang Yuhe didn't know if this was possible.

But it doesn't hurt to try.

that's all.

In the center of the Immortal Pond stands a long golden stick.

The nine fairy swords slowly circulated around the golden stick.

Zhang Yuhe waved his right hand again.

Piles of various precious fairy minerals and fairy materials were quickly thrown into the fairy pond.

These fairy mines and fairy materials all start at least at the fourth level of fairy grade.

All of them can be used as core materials to create the best immortal weapons.

Section 493

Take out any piece of these precious materials at will.

Those Da Luo Immortal Kings will fight to break their heads.

However, Zhang Yuhe threw everything into the fairy pond like throwing away garbage.

Because in his opinion.

Ordinary fairy weapons are actually just like that.

There's nothing too outstanding about it.

At most, it can improve part of the monk's strength.

For him, it doesn't do much.

But the innate treasure is completely different.

Any innate treasure is far more powerful than an immortal weapon of the same level.

Whether it's the Nine Heavens Flying Spirit Stick or his natal fairy sword.

If it can be upgraded to one level.

No matter how big the investment is, it is still worth it.

Moreover.

He also has no shortage of various fairy mines and fairy materials.

By sweeping up the Niulan Mountain tribe.

Zhang Yuhe harvested a huge amount of resources.

There are naturally many kinds of fairy mines and fairy materials.

And it's near Niulan Mountain.

An extremely large fourth-level mineral vein was also discovered.

As long as Dao Shengzong is serious about mining.

You can continuously obtain the fourth-level fairy ore.

That being the case.

Zhang Yuhe is just the one who has nothing to be reluctant to part with.

Have money and be willful.

After looking around the fairy pond for a while.

Zhang Yuhe soon arrived at a weapon refining hall.

Now the construction of Fairy City has begun to get on the right track.

The rest of the process just needs to be done step by step.

He doesn't have to worry about it.

The heads of the various halls of the Daosheng Sect will naturally arrange things well.

Zhang Yuhe sat cross-legged in the weapon refining hall.

He took out a jade slip and examined it carefully while pondering it carefully.

The contents of the jade slips record the refining blueprints for the Earth-level Immortal Ship.

This jade slip was brought out by him from the Taixu Secret Realm.

It had been on him for a long time.

It's just that Zhang Yuhe's cultivation was not enough before, and then various things delayed him.

So I never took the time to turn the drawings into physical objects.

But now all work is on track.

Zhang Yuhe finally had time to start refining the fairy ship.

After a while.

Zhang Yuhe put the jade slip aside, thoughtfully in his heart.

"So that's it."

Fairy ships are different from flying boats.

The flying boat can only be regarded as a means of transportation.

The fairy ship is a powerful combat weapon.

Any kind of fairy ship.

Even the lowest-level Huang-level fairy ships have powerful combat capabilities.

Taiyi Immortal Lord is able to control the immortal ship with full strength, raising it to a higher level.

Immortal ships are divided into four levels: Heaven, Earth, Xuanhuang.

Zhang Yuhe has never seen the Heavenly Immortal Ship.

He hadn't even heard of it.

Whether there are heaven-level immortal ships in the entire immortal world is a question.

Maybe there will be heaven-level immortal ships in those holy places where Tao Ancestors are seated.

It's just that this information is never easily passed on.

At least Zhang Yuhe has not been exposed to this information.

The Earth-level Immortal Ship is the kind recorded in the jade slips.

It is different from the Huang-level fairy ship.

The main combat weapon of the Huang-level immortal ship is the high-grade immortal cannon mounted on it.

With the powerful defense and speed of the fairy ship, coupled with the ferocious firepower of the top-grade fairy-killing cannon.

to attack the opponent.

The Xuan-level fairy ships are almost the same.

It's just that the defense and speed of the Xuan-level immortal ship are even more powerful.

Even ordinary king-level chaos beasts cannot damage Xuan-level immortal ships.

more importantly.

The firepower of the Xuan-level immortal ship is even stronger.

A maximum of three high-grade immortal-killing cannons can be deployed on a Huang-level immortal ship.

However, a maximum of nearly a hundred high-grade immortal-killing cannons can be deployed on the Xuan-level immortal ship.

It is simply a model of the multi-turret cult in the history of Blue Star.

Nearly a hundred high-grade immortal-killing cannons, if fired at the same time.

Even the nine-star Chaos Beast will be blasted into pieces.

Even weaker king-level chaos beasts may be seriously injured.

However, it is not that easy to refine a Xuan-level immortal ship.

Don't say anything else.

The nearly one hundred high-grade immortal-killing cannons alone were enough to put people off.

In the entire South China Sea Fairyland.

Apart from those three super powers, there should be no one left.

You can get nearly a hundred high-grade immortal-killing cannons.

Earth-level immortal ships are completely different from Huang-level and Xuan-level immortal ships.

The main attack weapon of the earth-level immortal ship is no longer the immortal cannon.

But Chaos Cannon.

Moreover, only one chaos cannon can be installed on an earth-level fairy ship.

This chaos cannon is completely integrated with the fairy ship.

The power of the Chaos Cannon is far from comparable to the Immortal Destroying Cannon.

The Chaos Cannon is driven by the King Beast Crystal Core.

One shot can seriously injure a king-level chaos beast.

Even the top nine-color king beast does not dare to withstand the bombardment of the chaos cannon head-on.

It is precisely because of the presence of the Chaos Cannon that the power of the Earth-level Immortal Ship is so terrifying.

Unfortunately.

Whether it is refining chaos cannons or refining earth-level immortal ships, it is not that easy.

Zhang Yuhe silently recalled the contents on the jade slip.

In addition to recording the refining method of the Earth-level Immortal Ship on the jade slip.

The refining blueprints of the Chaos Cannon are also recorded.

He had already found the core material for refining the earth-level immortal ship from Yu Fantian.

As for the core material for refining the Chaos Cannon, it is called Chaos Immortal Crystal.

"Chaos Immortal Crystal?"

Zhang Yuhe seemed to be thinking about something.

He moved his right hand.

A black crystal appeared in his hand.

"Is this the thing?"

Section 494

...

Chapter 387 Galaxy Immortal Ship

Looking at the black crystal in his hand, Zhang Yuhe was a little unsure.

It was the first time he heard about the material Chaos Immortal Crystal after he obtained this jade slip.

He had never heard of this material before.

According to what is said on the jade slip.

Chaos Immortal Crystal is produced near the Sea of Origin.

It is the core material for Chaos Beasts to build altars.

Every altar of Chaos Beasts will have Chaos Immortal Crystals.

However, most of the Chaos Immortal Crystals on the altar are too small due to being divided.

For monks, it is basically of little use.

Only Chaos Beast Altars of Level 4 and above will have complete Chaos Immortal Crystals.

The black crystal stone in Zhang Yuhe's hand was taken from the altar in Niulan Mountain.

When we first reached Niulan Mountain.

He immediately took off the black crystal stone from the altar.

"This should be the Chaos Immortal Crystal, right?"

Looking at the crystal in his hand, it was as black as coal and did not emit any fluctuations.

It doesn't look like a high-level fairy material at all.

Zhang Yuhe really couldn't believe it.

This thing is the core material for refining the Chaos Cannon?

Regarding the records of the Chaos Immortal Crystal, he had only seen it on this jade slip.

I haven't seen any relevant evidence in other classics.

And he had never heard other monks talk about this special immortal material.

the most important is.

If there were Chaos Immortal Crystals on the altar of every fourth-level tribe.

Then this material should not be too difficult to obtain.

At least it shouldn't be difficult for those top experts.

If that's the case.

Then chaos cannons should be everywhere.

But why, he has never been in the hands of other forces.

I have seen someone using a Chaos Cannon.

Let alone an ordinary big force.

Even among the three superpowers in the South China Sea Immortal Domain, he has never seen Chaos Cannon.

Are there any restrictions in this?

What Zhang Yuhe didn't know was.

Chaos beast tribe, when facing attack.

Once you find you can't hold on.

They will destroy the altar and will not allow the monks to obtain the Chaos Immortal Crystal.

It's just that he came too quickly before.

And the king-level chaos beast in Niulan Mountain did not stay in the tribe.

Belongs to a group of dragons without a leader.

This allowed him to easily obtain the Chaos Immortal Crystal.

"Forget it, don't worry about it. You will know after trying it according to the method on the drawing."

Think of this.

Zhang Yuhe waved his right hand.

A huge four-legged square tripod slowly fell to the high platform in front of him.

After taking out each piece of material.

Follow the magic formula and pinch it.

Hot flames ignited from below the square tripod.

Zhang Yuhe pushed open the lid of the tripod.

Put each piece of material into the square tripod in batches.

Refining an Earth-level immortal ship is a big project.

The various components need to be refined one by one and then integrated together.

Zhang Yuhe made an estimate.

I want to successfully refine the fairy ship.

It will take at least tens of thousands of years.

take it easy.

Anyway, he now has a lot of time available.

...

Time passes slowly.

Ever since Zhang Yuhe started refining the immortal ship in seclusion.

The construction work of Fairy City has been in full swing.

A large number of disciples who stayed behind in the sect were mobilized to Chaos Continent to participate in the construction.

Not only that.

The Dao Sheng Sect is still recruiting a large number of monks in the Ji'an sea area.

Pass the teleportation array and arrive near Niulan Mountain.

These monks who were recruited were mainly engaged in the mining of fairy mines.

Near Niulan Mountain, there are many valuable mineral veins.

Although the fairy city has not yet been fully established.

But these veins will naturally not be left empty.

We also need to organize our efforts to slowly mine it and turn it into practical value.

It is naturally impossible for the Dao Sheng Sect to let its disciples mine.

The only way is to recruit monks to mine by paying generous rewards.

Yu Liwei stood on the city wall.

At this time, the construction of Fairy City has not yet been completed.

But it has begun to take shape.

Stretching along the entire perimeter of Niulan Mountain, the construction of a hundred-foot-high city wall has been basically completed.

Yu Li looked around slightly.

Watching the fairy city rise from the ground, it is majestic and spectacular.

She was filled with pride.

This is the fairy city they built with their own hands.

It is the foundation of Dao Sheng Sect in Chaos Continent.

No matter how difficult it is.

She will protect the fairy city to the death.

Just at this time.

A stream of light quickly passed from a distance.

Li Tian appeared and landed next to Yu Liwei.

He spoke.

"Reporting to the Lord of the Palace, the Chaos Beasts that harassed the Immortal City a few days ago have been wiped out by us."

"Okay, please be careful and don't let the Chaos Beast interfere with the construction of the fairy city."

"Now that the fairy city has not been built, it is when we are most vulnerable."

"Be sure to pay special attention to the movements of the Chaos Beasts around you."

"Put the guard post further away."

"If a large group of Chaos Beasts comes over, we will have enough time to respond."

"Yes, Palace Master."

Li Tian turned around and left, turning into a stream of light and leaving quickly.

Niulan Mountain is located deep in the Chaos Continent.

Although the nearby Chaos Beasts have been wiped out by them many times.

But there are still Chaos Beasts that occasionally intrude nearby.

Section 495

In order to ensure the smooth construction of the Immortal City.

Yu Liwei almost sent out all the forces of the Temple.

Formed multiple cordons outside Niulan Mountain.

But despite this.

There will still be Chaos Beasts that slip through the net and occasionally break in.

Fortunately, the levels of these Chaos Beasts are not too high.

She doesn't need to take action.

Li Tian and Feng Xiaotian can take care of it with the disciples of the Temple.

"I don't know when the Sect Master will come out of retreat. Now the Immortal City is almost built, and there is not even a shadow of a person."

Yu Liwei looked at the Galaxy Hall in the distance and muttered to herself silently in her heart.

Since the construction of the Immortal City was arranged.

Zhang Yuhe entered the Galaxy Hall for retreat.

Now tens of thousands of years have passed, and there is still no sign of coming out of retreat.

Thinking of this.

Yu Liwei was a little speechless.

This hands-off shopkeeper is really too thorough.

At this time, Zhang Yuhe was standing outside the Refining Hall.

A huge fairy ship was quietly suspended in front of him.

The surrounding void was vaguely breaking.

This fairy ship was made of the Broken Void Fairy Crystal as the core material.

It has the effect of breaking the void and can shuttle through the void.

The fairy ship was dark all over, and a thick gun barrel was emitting a terrifying pressure.

At the top of the fairy ship.

A golden flag fluttered in the wind.

It was written with two vigorous and powerful characters [Galaxy].

Looking at the fairy ship in front of him.

Zhang Yuhe couldn't help but smile.

After tens of thousands of years of hard work, he finally succeeded in refining this Galaxy Fairy Ship.

Looking at the huge gun barrel shining with cold light at the front of the fairy ship.

Zhang Yuhe had an impulse to find a Chaos Beast to test the firepower.

Of course.

He was just thinking about it.

The Chaos Cannon is amazingly powerful, but the consumption is also very outrageous.

To activate the Chaos Cannon on the fairy ship, you must use the crystal core of the King-level Chaos Beast.

Depending on the quality of the crystal core, the power of the Chaos Cannon will also be different.

Simply put.

Use a single-color king beast crystal core to activate this Chaos Cannon.

It is enough to kill a single-color Chaos King Beast.

Use a nine-color king beast crystal core to kill a nine-color king beast.

It is so amazing.

It is a pity.

The crystal core of a king-level Chaos Beast is extremely precious.

Under normal circumstances, you can't buy it even if you want to.

Zhang Yuhe only has three king beast crystal cores.

This is what he exchanged from the Immortal King Liuyue.

Such an important strategic resource.

He will naturally not use it easily.

As for the test cannon?

Forget it.

One shot will consume a king beast crystal core.

Even if Zhang Yuhe is rich.

It is a bit painful.

...

Chapter 388 The outline of the Immortal City is formed

Looking at the Immortal Ship in front of him, Zhang Yuhe was full of joy.

He flew up and stepped onto the front of the Immortal Ship.

It was impossible to test the gun.

There were not so many king beast crystal cores for him to squander.

But try the flying speed of the fairy ship and the effect of shuttling through the void.

That was still possible.

Zhang Yuhe stood in front of the fairy ship.

As the spell was pinched.

The fairy ship was like lightning, and instantly appeared over Niulan Mountain.

Under Zhang Yuhe's full urging.

The fairy ship turned into a stream of light and quickly shuttled over Niulan Mountain.

It appeared thousands of miles away in an instant.

Feeling the fairy ship, the unparalleled speed.

Zhang Yuhe was very excited.

He roughly compared it.

The speed of this fairy ship should be much faster than the speed of his Galaxy Dragon Body Skill.

"Finally, there is a decent means of travel."

Zhang Yuhe drove the fairy ship and flew freely in the sky.

In the past, when traveling long distances.

He could only use a flying boat.

The speed of the flying boat was not to mention the slow speed.

The key is that it has no face.

Think of him as Taiyi Xianjun, and the leader of a sect.

He doesn't even have a fairy ship, which is really too cheap.

And the safety of the flying boat is too poor.

When driving a flying boat, you need to be alert to the surrounding situation at all times.

If 10,000 people are attacked by someone.

Any magical power can break the flying boat apart.

But with this Galaxy Fairy Ship.

Zhang Yuhe no longer has this worry.

He can even practice in seclusion while flying quickly.

There is no need to worry about being disturbed.

With the defensive strength of the earth-level fairy ship.

Even if Taiyi Xianjun bombards with all his strength.

He can't hurt him at all.

Besides.

When others see such a mighty fairy ship, they know that it is a great man traveling.

Who dares to be presumptuous?

Zhang Yuhe drove the fairy ship and traveled happily all the way.

He looked around.

I saw that the construction of the fairy city has basically been completed.

Except for some internal buildings in the city, which are still under construction.

The outline of the entire fairy city has basically taken shape.

Seeing this.

Zhang Yuhe nodded with satisfaction.

Section 496

"It seems that the elders and disciples of the sect are quite capable."

Suddenly, Zhang Yuhe saw Yu Liwei on the city wall.

He quickly turned the fairy ship around and turned into a stream of light and flew over.

Yu Liwei stood quietly on the city wall.

Seeing a huge fairy ship flying over, I couldn't help but be startled.

She instinctively offered up Ru Mengqin, her expression full of alertness.

After seeing Zhang Yuhe on the fairy ship.

Yu Liwei was shocked.

"Where did the sect master get such a powerful fairy ship?"

As far as she knew.

Refining an immortal ship takes a long time.

It can easily take millions of years, or even longer.

the most important is.

The blueprints for refining fairy ships are basically in the hands of those big forces.

Rarely does it get out.

Although Dao Sheng Sect's current strength is not bad.

But the foundation is too weak and there is a lack of accumulation within the sect.

There is no such thing.

Could this be the immortal ship that Zhang Yuhe bought from the Wanxian Sect?

Can you also buy fairy ships?

This is impossible, right?

Yu Liwei thought quickly, but she didn't understand the key.

Wait until the fairy ship is suspended above the city wall.

Zhang Yuhe jumped out of the fairy ship.

Yu Liwei asked excitedly immediately.

"Sect Master, this fairy ship..."

"Oh, this is the fairy ship I just refined."

Zhang Yuhe responded calmly.

Hear this.

Yu Liwei was speechless.

Damn it, you are thinking that I don't know the goods, right?

Is it so easy to refine a fairy ship?

How long has it just been?

Never tell me.

You just spent ten thousand years in seclusion and built the fairy ship?

But Yu Liwei thought of it quickly.

When he was refining the thunder-absorbing pillar, Zhang Yuhe's refining speed was exaggerated.

She felt a little relieved again.

It seems really possible.

The sect leader of my family cannot be treated with common sense at all.

Things that others cannot do.

It seems very ordinary to put it here with the sect leader.

Yu Liwei looked at the fairy ship in front of her, her heart filled with envy.

As a Taiyi Immortal Lord, who doesn't want to have an immortal ship of his own?

Men like big guns and big ships, and so do women.

Encountered a siege by Chaos Beasts.

You can directly control the fairy ship to rampage and blast with cannons.

How cool it is.

Since the sect leader can refine the first fairy ship, can he refine the second one?

Wouldn't it be nice to get one for me to play with?

Zhang Yuhe seemed to see what Yu Liwei was thinking.

He said somewhat helplessly.

"not now."

"I have only refined this fairy ship. I can't find the core materials and cannot refine the second one."

Hear this.

Yu Li was slightly disappointed.

she asked tentatively.

"I wonder what the core material is for refining the fairy ship. I want to find a way to find it?"

Zhang Yuhe was speechless.

Everyone likes fairy ships.

But this thing is really difficult to handle.

Not to mention that refining takes time.

The key is that I can't find the materials.

But it doesn't seem right either.

Materials for earth-level fairy ships are hard to find.

It shouldn't be difficult to find the materials for a yellow-level fairy ship.

It is a pity that the refining blueprint of the Huang-level immortal ship.

He didn't.

I'll think of something later.

Get a fairy ship for Yu Liwei.

As the Taiyi Immortal Lord of Daosheng Sect.

It's a bit unreasonable to not have a fairy ship to support the appearance.

Think of this.

Zhang Yuhe said with a smile.

"You don't want to think about a fairy ship like this?"

"This is an earth-level fairy ship, made from the core material of Sky Shattering Fairy Crystal."

"If you want to find the Shattering Sky Immortal Crystal in the fairy world, it will be as difficult as climbing to the sky."

"But it shouldn't be too difficult to find the materials for the Huang-level immortal ship."

"One day I will find someone to buy a blueprint of a yellow-level fairy ship, and then I will get you a fairy ship too."

"Thank you, Master."

Hearing Zhang Yuhe's words, Yu Liwei was filled with joy.

In fact, she also knew.

It is indeed very difficult to get a fairy ship.

Not to mention the development of Dao Sheng Sect, it is still in its infancy.

Even an established superpower like the Ten Thousand Immortals Sect.

Immortal Lord Taiyi in his sect cannot do it either, with only one immortal ship at his disposal.

Even among superpowers, you can't get much of this thing.

Zhang Yuhe looked around, then asked Yu Liwei.

"How is the construction progress of the Fairy City now? Have you encountered any difficulties? How long will it take to complete the construction of the Fairy City?"

Hearing Zhang Yuhe, asked about the construction of the fairy city.

Yu Li said proudly.

"Reporting to the sect master, the construction of Immortal City is currently normal."

"We have encountered some minor problems, but they have been solved by us."

"It only takes a hundred years at most to build Zongcheng in the entire fairy city."

"Thank you for your hard work."

"Without hard work, it is an honor for everyone to be able to participate in the construction of the fairy city."

Hearing this, Zhang Yuhe nodded gently.

Accompanied by Yu Liwei.

Together they visited various places in Niulan Mountain.

After a while.

Section 497

Zhang Yuhe turned to Yu Liwei and said.

"You notify the heads of each hall to come to the Galaxy Hall for discussion later."

"Yes, Sect Master."

The construction of the Immortal City is about to be completed, and some subsequent work will begin to be prepared.

Zhang Yuhe plans to discuss it with everyone.

For example, things like the city establishment ceremony.

As the first Immortal City of the Daosheng Sect in the Chaos Continent.

It must be promoted.

Otherwise.

Others don't know that there is this Immortal City, and no one comes.

Then how can they develop this huge Immortal City?

Relying on such a small number of people in the Daosheng Sect.

Even if all are spread out, I am afraid that it will not cause any waves.

After the Immortal City is established, it is necessary to attract cultivators to stay here.

This is indeed necessary to promote it.

...

Chapter 389 Lu Yunfei escapes from trouble

Inside the Galaxy Hall.

Except for a few heads who are outside and are responsible for patrol and guard tasks.

The heads of all parties gathered together again.

After ten thousand years of construction, the fairy city has taken shape.

Thinking of the fairy city that they personally participated in building, everyone couldn't help but feel infinite pride in their hearts.

After a while.

Zhang Yuhe walked into the hall.

Everyone stood up quickly and shouted respectfully.

"Meet the master."

Zhang Yuhe waved his hand and said to everyone with a smile.

"Everyone has worked hard during this period."

"No."

After everyone took their seats.

Zhang Yuhe went straight to the point.

"With everyone's joint efforts, the fairy city has now been built."

"The next step is to consider how to attract other cultivators to develop in our fairy city."

"Our Daosheng Sect has a shallow foundation and no affiliated forces."

"If we rely on ourselves alone, I'm afraid this huge fairy city will eventually become a wasteland."

"Without anyone coming, the fairy city cannot develop."

"So we have to increase publicity efforts and rent out the caves and houses in the city at a lower price."

"As long as there are cultivators who are willing to settle down and take risks in the fairy city, we can provide various preferential services."

Speaking of this.

Zhang Yuhe paused for a moment.

He turned his head to look at Long Xingxiu, and then said seriously.

"Master Long, you are responsible for this matter. You must prepare a detailed preferential clause."

"Yes, Master."

Long Xingxiu immediately stood up and responded.

Zhang Yuhe continued.

"According to the current construction progress, it is estimated that the fairy city will be fully built in a few decades."

"Now we can start and inform the forces in the South Sea Fairyland."

"The Daosheng Sect will hold a celebration in a hundred years to celebrate the establishment of the fairy city."

"Please note that no matter how big or small the force is, even if it is a small force with only true immortals, an invitation must be sent out."

"We must invite friends to make the Daosheng Sect famous."

"As long as the sect's reputation is thoroughly established, there will be no worries about not coming to our fairy city."

Zhang Yuhe turned to Wang Guofeng and said.

"Master Wang, you are responsible for this matter, and the Economic and Trade Hall will assist."

"Yes, Master."

Wang Guofeng and Long Xingxiu immediately stood up and responded.

"That's about it, everyone go and do your own things?"

Zhang Yuhe waved his hand and asked everyone to leave.

At this time.

Yu Liwei stood up and asked.

"Master, I wonder what the name of our fairy city should be called?"

Zhang Yuhe spoke without thinking.

"Yinhe, this is Yinhe Xiancheng from now on."

"Good."

Everyone praised in unison.

Although they didn't know what kind of meaning Zhang Yuhe meant by Yinhe.

But these two words themselves are already very loud.

And Zhang Yuhe's Taoist name is Yinhe Xianjun.

It is also a routine operation for major forces to name the immortal city after the name of the sect master.

It's not worth being surprised.

After everyone left.

Zhang Yuhe came to the weapon refining hall again.

This time he planned to refine some top-grade immortal-destroying cannons first.

In Yinhe Xiancheng, there is a red cloud fairy jade vein.

This is the core material for refining top-grade immortal-destroying cannons.

After years of mining, some red cloud fairy jade has been stored temporarily.

Considering the high-end combat power of Daosheng Sect now, it is still a little bit lacking.

It is still very necessary to refine some top-grade immortal-destroying cannons first.

Anyway, he also has the blueprints for refining top-grade immortal-destroying cannons.

When he was in Taixu Secret Realm.

He almost plundered all the assets of the entire Taixu Sect.

Taixu Sect was once a super power.

Naturally, there would be the drawings of the top-grade Immortal-Destroying Cannon.

There are materials and drawings.

For him, it would only take some time to make some top-grade Immortal-Destroying Cannon.

Zhang Yuhe took out the materials and immersed himself in the refining silently.

...

After the meeting.

The construction of the Galaxy Fairy City is still proceeding step by step.

Long Xingxiu summoned the disciples of the Economic and Trade Hall and began to carefully prepare the investment promotion plan.

Wang Guofeng arranged the disciples of the Intelligence Hall to count the various forces in the South China Sea Fairyland.

According to Zhang Yuhe's idea.

As long as there is a well-known force, they will send an invitation.

This seems simple.

But it is not easy to do.

The South Sea Immortal Territory is vast and boundless, with countless forces of all kinds.

In addition to those major forces, there are countless small sects and families.

Even the original Ji'an Sea Area had five major forces.

This does not include the family forces without true immortals.

The forces in other seas are compared to the Ji'an Sea Area.

Section 498

Just more, not less.

Except for the sea areas where those big forces are located.

There are many forces distributed in most sea areas.

Wang Guofeng must first find out the basic situation of these forces.

However, it is easy to arrange people to go out and distribute invitations.

Otherwise.

If the people who go out to hand out invitations are not equal, it will be embarrassing for everyone.

While the Dao Sheng Sect was still busy building the Immortal City.

Deep in the distant chaotic continent.

Lu Yunfei looked at the bloody thunder in front of him, which was almost completely dissipated.

Seeing this situation, he was filled with surprise.

As early as millions of years ago.

He was trapped in this ancient battlefield.

These bloody thunders in front of me are the manifestation of a tyrannical Taoist technique.

Even after countless years.

These bloody thunders still have powerful power.

Even now, he has already been promoted to Taiyi Immortal Lord.

Still dare not touch these bloody thunders.

Lu Yunfei guessed.

These bloody thunders should be a certain Dao Ancestor Emperor.

After the battle with the Chaos Beast, the Tao Yun remained.

The power of Emperor Daozu is extremely powerful.

It was far beyond Lu Yunfei's imagination.

Fortunately, after experiencing it for a long time.

These bloody thunders are finally about to disappear.

After all, no matter how powerful the divine channel technique is, it cannot stop the invasion of time.

Lu Yunfei walked into the cave.

A huge immortal formation stood quietly in front of him.

Look at the big formation in front of you.

Lu Yunfei murmured to himself.

"It's a pity that this Ten Thousand Realms Huntian Formation cannot be moved after it is deployed."

When I was trapped in the ancient battlefield.

Lu Yunfei found the relics of a Da Luo Immortal King.

In addition to various precious resources, he also discovered the Ten Thousand Realms Huntian Formation.

After years of operation, this formation has attracted many outside monks.

By entering Yufantian to practice, and then ascending to the fairy world.

According to the corresponding spatial position.

These ascended monks should have all landed on the Dao Sheng Sect's ascension platform.

"I just don't know, what is the situation of Dao Sheng Sect now?"

"With Liwei taking care of you, I think everything will be fine, right?"

Lu Yunfei thought silently in his heart.

In fact, he also knows.

Although Yu Liwei's strength is good, it should be more than enough to suppress the Ji'an sea area.

But when he was trapped.

Yu Liwei has been practicing for nearly nine million years.

If there is no special opportunity.

Now Yu Liwei's life may be short.

Think of this.

Lu Yunfei felt a sense of urgency.

He wanted to leave this situation as soon as possible and spend the remaining time with Yu Liwei.

Lu Yunfei glanced at the large formation in front of him.

He didn't hesitate anymore.

He rushed out directly from where Blood Thunder disappeared.

Just stay here with this big formation in front of you.

As for this formation, how long can it continue to operate without anyone watching over it?

Then it just depends on God's will.

For Lu Yunfei.

The most important thing now is,

We must return to Ji'an waters as soon as possible.

He can leave everything else aside.

Lu Yunfei thought.

He, Taiyi Immortal Lord, is in charge.

The traction effect of this formation is not that important.

Isn't it just to attract some fresh blood to join Dao Sheng Sect?

As long as he can return to Dao Sheng Sect.

These are just minor obstacles.

If there is someone in the immortal world who is a peerless genius, he will be willing to join the Tao Sheng Sect.

Lu Yunfei is full of confidence.

Taiyi Immortal Lord's strength is the source of his confidence.

...

Chapter 390 Lu Yunfei's doubts

Lu Yunfei passed through the disappearing bloody thunder and flew quickly.

Through a crack in the void, I saw the light outside.

He didn't hesitate.

He rushed out directly from the crack in the void.

After a while.

Lu Yunfei landed on a tall mountain peak.

Feel the familiar atmosphere around you.

He couldn't help but look up to the sky and roar.

"Hahaha, I, Lao Lu, am finally back."

Look at the familiar topography around you.

Lu Yunfei could easily tell that this was Chaos Continent.

It was no longer the ancient battlefield that had trapped him for millions of years.

"Well, where exactly is this place?"

The ancient battlefield is floating in the cracks of the void, its position erratic.

The position he is in now is the same as when he escaped into the ancient battlefield.

Definitely not in the same place.

Lu Yunfei couldn't tell for a moment.

Where is he now?

But he wasn't worried.

With his current level of cultivation as Taiyi Immortal.

As long as you are not deliberately seeking death, act with caution.

No matter where he is in Chaos Continent, he can come and go as he pleases.

As long as he determines the location, he can return to the area controlled by the monks.

Lu Yunfei flew quickly along the way, passing through the distribution of the surrounding chaos beast tribes.

He soon knew his current approximate location.

"It's still a bit far from Tiangong City."

After confirming his approximate location.

Lu Yunfei stopped in mid-air.

Section 499

Looking at the distant direction of Tiangong City, he couldn't help but fall into deep thought.

He made a rough estimate.

If flying at full speed all the way.

It may take more than ten years before he has a chance to return to the area controlled by the monks.

But he couldn't do that.

He is currently located deep in the Chaos Continent.

There are a large number of Chaos Beasts around, and there are also some powerful Chaos Beast tribes.

Although Lu Yunfei is quite confident in his own strength.

But he is not arrogant enough to think that he can fly freely in the Chaos Continent.

Encountered a large group of Chaos Beasts and a tribe of Chaos Beasts.

He would definitely have to take a detour.

In this case.

His return to the area controlled by the human race will be greatly delayed.

It may take forty to fifty years, or even longer.

"I don't know how Liwei is doing now?"

Thinking of Yu Liwei, Lu Yunfei couldn't help but feel a little sad.

Now he has been promoted to Taiyi Immortal Lord.

Has unlimited lifespan.

But he didn't know that Yu Liwei had also been promoted to Taiyi Immortal.

In Lu Yunfei's opinion.

When they separated.

Yu Liwei is only in the late stage of Jinxian.

Now millions of years have passed.

Even Yu Liwei had some big adventures.

At most, you can cultivate to the perfection of Golden Immortal.

As for breaking through Taiyi Immortal Lord, that is simply impossible.

The threshold for Taiyi Realm is extremely high.

If there is no incredible chance and a certain amount of luck.

Even he himself would not be able to cross this threshold.

But Lu Yunfei knew.

Although I was lucky enough to break through successfully.

But she wanted to help Yu Liwei and was promoted to Taiyi Immortal Lord.

There's nothing you can do about it.

It has been almost tens of millions of years since Yu Liwei practiced Taoism.

If you can't break through for a long time.

Shouyuan must not be able to sustain it for long.

Think of this.

Lu Yunfei felt deeply powerless.

His life span is infinite, but the one he loves is about to pass away.

How could he not feel uncomfortable?

"I don't know if I can contact Liwei here?"

Think of this.

Lu Yunfei took out the Immortal Mirror.

When I was trapped.

He has tried countless times to use the Immortal Mirror to communicate with the outside world.

However, there was no response.

In the ancient battlefield, all kinds of chaotic Tao Yun crisscrossed each other.

Seriously interferes with information transmission.

"Although it's far away from here, it should be possible to send messages, right?"

Think of this.

Lu Yunfei took a deep breath.

After casting a spell, he held the Immortal Mirror and waited silently.

...

The Milky Way Fairy City is like a dream peak.

After the meeting, Yu Liwei returned to her mountain cave in the city.

Although the fairy city is not yet fully constructed Zongcheng.

But the Daosheng Sect disciples live in the mountain cave.

Naturally, it has been opened up long ago.

Yu Liwei returned to the cave, calmed down and practiced silently.

The construction of Fairy City has come to an end, and she doesn't have to keep an eye on it.

Li Tian and Feng Xiaotian, the two deputy palace masters, can handle ordinary trivial matters.

Just when Yu Liwei was immersed in cultivation.

Suddenly her expression changed.

An immortal mirror appeared in his hand.

After playing a magic formula.

See the message on the Immortal Mirror.

She couldn't help but be stunned.

"Did you come back?"

Yu Li murmured to herself.

Soon she performed another spell.

"Yunfei, is that you? Where are you?"

At this time, Lu Yunfei was standing in mid-air.

Look at the information on the Immortal Mirror.

He took a deep breath.

He stretched out his hand towards the Immortal Mirror and said excitedly.

"I'm back. I'm still in the Chaos Continent. It will probably take a few decades before I can return to the Ji'an sea area."

"how are you now?"

Yu Liwei stared at the Immortal Mirror.

Seeing the message from Lu Yunfei, her face became excited and rosy.

After a while.

She replied softly.

"I'm okay."

Lu Yunfei's voice sounded from the Immortal Mirror again.

"Is Dao Shengzong okay?"

Thinking of being missing for so many years.

Moreover, most of the elite members of Dao Sheng Sect back then perished in the beast tide.

There are only three or two big and small cats left guarding the mountain gate of Ji'an sea area.

Lu Yunfei was really worried.

He was afraid that so many years would pass.

Dao Sheng Sect is gone.

Look at the information on the Immortal Mirror.

Yu Liwei didn't know where to start for a moment.

Daosheng Sect has undergone tremendous changes over the years.

It was so big that even she herself couldn't believe it.

How to say this?

To be honest, Lu Yunfei would probably think that she had gone crazy.

Think of this.

Yu Liwei made a spell, and then said softly.

"Dao Shengzong is fine, please come back first."

"There is no need to return to the Ji'an sea area for the time being, we are all in the Chaos Continent."

Section 500

"It's where the Niulanshan tribe used to be. You should know about it."

"Let's discuss the specific matters after we meet."

Yu Liwei didn't know how to describe the current situation of Daosheng Sect.

I can't explain a sentence or two clearly.

she thought.

Let's wait until we meet.

As long as Lu Yunfei can come back safely.

These trivial things don't matter at all.

Lu Yunfei stood in mid-air.

Looking at the information on the Immortal Mirror, I couldn't help but frown slightly.

Has there been any major turning point in these million years?

Why did Yu Liwei go to Niulan Mountain?

And he was also asked to meet there.

Of course he knew about Niulan Mountain.

This is a powerful chaos beast tribe, like a sharp sword hanging over the head of the South China Sea Immortal Realm.

The fairy city of the South China Sea Immortal Territory in the Chaos Continent has always been threatened by the Niulan Mountain tribe.

Even the beast tide that occurs every 100,000 years is initiated by the Niulanshan tribe.

Now Yu Liwei actually asked him to meet at Niulan Mountain.

Could it be that someone powerful took action and destroyed Niulan Mountain?

"Could it be the Heavenly Star Dao Ancestor?"

In Lu Yunfei's eyes.

Except for Tianxing Daozu.

He really couldn't imagine that anyone else could wipe out such a powerful tribe in Niulan Mountain.

"Forget it, you will know after we meet, it will only take a few decades."

Think of this.

Lu Yunfei put away the Immortal Mirror.

Then it turned into a stream of light and quickly flew away into the distance.

...

Chapter 391 Puzzled

Yu Liwei put away the Immortal Mirror and walked outside the cave.

She looked up and looked into the distant depths of the Chaos Continent.

According to what Lu Yunfei said just now.

It would take several decades for him to return to the waters of Ji'an.

It seems so.

Lu Yunfei's current location should be extremely far away.

Deep in the Chaos Continent, there are a large number of Chaos Beasts distributed.

Occasionally, even a noble-level Chaos Beast will appear.

She wanted to know.

Where exactly is Lu Yunfei?

Would she like to go over and pick her up?

"never mind."

Yu Liwei struggled in her heart for a while.

Still gave up on the idea.

The Chaos Continent is simply too big.

Although she and Lu Yunfei could communicate through the Immortal Mirror.

But it is difficult to locate the opponent's position.

Even if she went to pick him up, she didn't know where the appropriate place would be.

If you run out too far.

Her past doesn't mean much either.

Lu Yunfei couldn't handle the Chaos Beast, and if she added one more, it probably wouldn't make any difference.

Moreover, they could easily miss the vast Chaos Continent.

She might as well just stay in Galaxy Fairy City and wait for Lu Yunfei to come back.

Yu Liwei gave up the idea of going out to respond.

Although she also wanted to see Lu Yunfei earlier and talk about the changes over the years.

But she knew that there was little point in going out to meet him.

Although she didn't ask just now.

But after so many years, Lu Yunfei's cultivation level must have broken through to the level of Taiyi Immortal Lord.

Otherwise.

He won't survive now either.

Because Lu Yunfei's years of cultivation have already passed the life limit of a Golden Immortal monk.

Since Lu Yunfei's cultivation level is not much different from his own.

With Lu Yunfei's experience and experience, he returned safely from the Chaos Continent.

There shouldn't be much of a problem.

She really doesn't need to worry too much.

Yu Liwei stood quietly on the top of the mountain, as if she had turned into a watchful stone, and remained motionless for a long time.

She did not inform anyone else about Lu Yunfei's upcoming return.

Because there is no need.

So many years have passed.

Except maybe her.

Everyone else was already about to forget about Lu Yunfei.

How many people in the Daosheng Sect today will remember the founder of the sect?

Yu Liwei was not worried about Lu Yunfei's status in the sect after he came back.

Because of this, there is no need to think about it at all.

Lu Yunfei is a free and easy person and doesn't care about this.

As long as the Daosheng Sect develops well, it doesn't matter who is the leader.

And based on her observations.

Yu Li slightly knew.

Zhang Yuhe also doesn't care about this.

With Zhang Yuhe's unique talent.

If he wants to pursue higher power.

He could have left the Dao Sheng Sect long ago and chosen to join those super powers.

As long as Zhang Yuhe is willing.

Even those Tao Ancestor Holy Lands will open their doors to him.

People like Zhang Yuhe.

All he pursues is that ethereal avenue.

As for other things.

He certainly wouldn't care.

As long as it doesn't affect his practice.

...

Time passes slowly.

Yu Liwei has been standing quietly at the top of Rumeng Peak.

She also stopped using the Immortal Mirror to contact Lu Yunfei.

Because she knows.

Lu Yunfei is now rushing over from Chaos Continent.

If you contact me rashly.

It will only put the other party into unnecessary danger.

Thirty years later.

A stream of light quickly streaked across the mountains.

After a long flight.
