

Top talent 50

Section 50

It can't be such a coincidence, right?

Compared to Zhang Yuhe's puzzled expression, Li Tian next to him looked calm.

It was obvious that Li Tian knew what was going on.

Lu Mingfang glanced at the two of them, and he naturally saw Zhang Yuhe's doubts.

"I have arrived a long time ago. I wanted to see if Zhao Mingyue would show up, so I stayed aside to observe. I didn't expect that she was still as cautious as ever. Her real body never showed up, and she only let her incarnation come out to stir up trouble."

After Lu Mingfang finished speaking, he looked at Zhang Yuhe with a smile on his face and said.

"Yes, I really misjudged you at the beginning. I didn't expect that you not only have a high talent for cultivation, but also have extraordinary attainments in magical powers."

"Is your sword formation magical power from the practice you practiced?"

Lu Mingfang had been hiding beside and observing. When he saw the horned demon appear, he wanted to take action.

It turned out that he didn't need to do anything at all. Zhang Yuhe solved the horned demon in the Refining Void Realm with the Nine Heavens Hunyuan Sword Formation and the Guishui Lightning Formation.

In the world of immortal cultivation, it is not uncommon for geniuses to challenge by leaping levels.

Such geniuses appear almost every once in a while.

However, a cultivator who can kill a cultivator in the Refining Void Realm head-on with the cultivation of the God Transformation has never appeared in Yufantian.

Not to mention, the horned demon is not an ordinary Refining Void Realm, but has the cultivation of the middle stage of Refining Void.

Moreover, the strength of the demon clan is stronger than that of cultivators of the same level.

Zhang Yuhe was able to kill the horned demon, which he did not expect.

Lu Mingfang was very curious about Zhang Yuhe's sword formation.

In his impression, the Daosheng Sect did not have this magical power.

Thinking that the method Zhang Yuhe practiced was the Hunyuan Heavenly Scripture that no one had ever practiced, Lu Mingfang could not help but ask in speculation.

"Yes."

Zhang Yuhe nodded silently.

"The things left by the ancestors are indeed extraordinary."

Lu Mingfang sighed, then turned to Zhang Yuhe and asked.

"Do you know the origin of Hunyuan Tianjing?"

"I don't know."

Zhang Yuhe shook his head.

How could he know this?

For the past hundred years, he has been practicing in Yinhe Peak, and all his knowledge of cultivating immortals basically comes from the book building of Daosheng Sect.

As long as there is something not recorded in the book building, he has no way of knowing it.

Lu Mingfang glanced at Zhang Yuhe, then looked up at the sky and said slowly.

"A long time ago, Yufantian was still a wild world. About a million years ago, a powerful incarnation from the fairy world descended on Yufantian, spread the fairy civilization in this world, and established the Daosheng Sect."

"This is the founding ancestor of our Daosheng Sect."

"However, when the fairy civilization of Yufantian began to prosper, the incarnation of the ancestor left this world."

"Before leaving, the ancestor left a stone tablet in the Sutra Building, which recorded a method of cultivation."

"This method of cultivation is divided into two volumes, the lower volume is left in the fairy world sect, and the upper volume is the Hunyuan Tianjing you are practicing."

After listening to Lu Mingfang's words, Zhang Yuhe couldn't help but open his mouth wide.

Although he knew that Hunyuan Tianjing, as a fairy-grade method, was most likely from the fairy world.

But he didn't expect that the Daosheng Sect actually had such a great origin.

The Daosheng Sect was actually founded by the incarnation of a powerful person in the fairy world, and there was also a Daosheng Sect in the fairy world.

Strictly speaking, the Daosheng Sect of Yufantian can only be regarded as a branch.

No wonder Dao Sheng Zong has been able to dominate Yufantian for countless years?

The immortal world has backers, so isn't it normal to dominate Yufantian?

If you ask the immortal world for help when you encounter problems, who in Yufantian can stand it?

Dao Sheng Zong should be able to contact the immortal world

Thinking of this, Zhang Yuhe asked curiously.

"Elder Lu, can we contact the sect in the immortal world?"

If we can contact the immortal world sect at any time, it would be awesome.

If you encounter problems, consult the immortal world sect, and ask for help when you encounter difficulties.

Such a thick thigh, it's so comfortable to hug.

However, when hearing Zhang Yuhe's question, Lu Mingfang's face was full of sorrow.

After a long silence, he spoke.

"Although it is difficult to contact, we can indeed contact the sect before. It's just that hundreds of years ago, I don't know what happened, and suddenly we can't contact anymore."

"I don't know if there is any accident in the immortal world sect?"

At this point, Lu Mingfang's face was even more worried.

I don't know if he is worried about the thigh being gone, or the sect in the fairy world?

Uh...

Zhang Yuhe was a little dumbfounded.

I thought it was a big thick leg, but it turned out that something happened to this big thick leg.

But Lu Mingfang's expression was too much, right?

What are you worried about in the fairy world?

Could it be that you can fly up to find out?

Actually, it is possible. As long as you cultivate to the Mahayana realm and then survive the great heavenly tribulation, you can indeed ascend to the fairy world.

Of course, for people like Lu Mingfang, surviving the tribulation and ascending is just a dream.

In the past millions of years, the number of Mahayana cultivators who have successfully ascended in Daosheng Sect is no more than five fingers.

The rest of the Mahayana cultivators basically all fell under the great heavenly tribulation.

The great heavenly tribulation that cultivators have to face when they ascend is really extraordinary.

Zhang Yuhe has seen relevant records in the book building.

According to the records, once a Mahayana cultivator triggers a great heavenly tribulation, the entire Yufantian can feel the terrifying pressure brought by the great heavenly tribulation.

How big is Yu Fantian?

I don't know how many billions of miles it is.

The whole of Yu Fantian can feel the pressure of the heavenly tribulation. How terrible must be the pressure faced by those who have overcome the tribulation?

...

Chapter 51 Thunderous Means

After listening to Lu Mingfang's words, Li Tian and Zhang Yuhe fell into deep thought.

As the senior brother of Daosheng Sect, Li Tian also knew the origin of the sect for the first time.

It turns out that there is another sect in the immortal world, but there may have been an accident recently and he has been unable to be contacted.

Seeing the two people being silent, Lu Mingfang said with a smile.

"You don't have to worry too much. Maybe there's just something wrong with the communication array. Once the Immortal World Sect repairs the communication array, we can contact you."

After finishing speaking, Lu Mingfang encouraged the two of them.

"You two are both cultivation geniuses that have been rare for hundreds of millions of years. With your talents, one day in the future you will be able to survive the great tribulation and ascend to the fairyland."

Li Tian's eyes were firm and he secretly clenched his fists.

Zhang Yuhe was indifferent.

He is not worried about overcoming the tribulation and ascending to heaven.

With his unparalleled qualifications and talents, if he can't cultivate to the Mahayana and survive the great tribulation.

Don't even think about others.

Moreover, Dao Sheng Sect has a precedent of monks ascending, so he must be able to do it too.

How do you say that?

If others can do it, I can definitely do it too.

There is absolutely nothing wrong with this sentence when it comes to Zhang Yuhe.

Half an hour later, the vortex in the sky began to slowly close.

During this period, the influx of demons never stopped.

Zhang Yuhe's control of the sword formation was so numb.

Seeing that the passage was finally closed, he couldn't help but breathe a sigh of relief.

After a while, the vortex completely disappeared and the sky returned to clarity.

The demonic energy that originally enveloped Jingkong City quickly dissipated.

"Okay, this matter is over, let's go back."

After Lu Mingfang finished speaking, he suddenly reached out and slapped the location of Jingkong City.

boom.....

As the slap was taken, smoke and dust filled the sky.
