

Top talent 501

Section 501

Lu Yunfei finally approached the Niulanshan area.

As he approached the Niulanshan area.

From time to time, he could see the figures of monks around.

More importantly.

The clothes on these monks were obviously the white robes of the Daosheng Sect.

"Are these people all disciples of the Daosheng Sect?"

Seeing this situation.

Lu Yunfei was puzzled.

When did the Daosheng Sect become so powerful?

There are actually a large number of disciples active in the Chaos Continent.

This is unlikely, right?

Although he was full of doubts.

Lu Yunfei did not step forward to ask.

To be honest.

He was a little embarrassed now.

His ancestor had not appeared for a million years.

These disciples of the Daosheng Sect did not know him.

Lu Yunfei continued to fly towards the direction of Niulanshan with all kinds of doubts.

After a while.

A magnificent fairy city appeared before his eyes.

Near the fairy city, there were still a large number of monks who were constantly busy.

Lu Yunfei could see it.

This is a newly built fairy city.

But this fairy city is so magnificent, I'm afraid it's not a king-level fairy city.

When did a new super power appear in the South China Sea Fairyland?

"No."

Lu Yunfei reacted quickly.

Because those busy monks were all wearing the white robes of the Taoist Saint Sect.

"This..."

Seeing this situation.

Lu Yunfei was stunned?

It can't be the Taoist Saint Sect building a fairy city here, right?

This is impossible.

In the entire South China Sea Fairyland.

The Taoist Saint Sect is just a small, inconspicuous force.

Even if he is now promoted to Taiyi Immortal Lord.

In the entire South China Sea Fairyland, it can't be considered too strong.

At most, it can only be regarded as a tail among the big forces.

"Did any super power take a fancy to the Taoist Saint Sect during the years I was away?"

Lu Yunfei was full of doubts.

Seeing the busy figures of the Taoist Saint Sect disciples in the fairy city.

He even had some doubts.

Is there a Daluo Immortal King who lives in Daosheng Sect.

Leading Daosheng Sect to develop.

Otherwise.

He really can't imagine.

Where does Daosheng Sect get the strength to build such a magnificent fairy city.

And.

Wasn't this the territory of the Niulanshan tribe?

What about those Chaos Beasts.

Who has such a great ability to wipe out the Chaos Beasts in the entire Niulanshan?

An ordinary Daluo Immortal King shouldn't be able to do it, right?

If that's the case.

The three super powers in the South Sea Immortal Realm would have flattened Niulanshan long ago.

How could they stay until now?

"Forget it, I'm too lazy to think about it if I can't figure it out. Let's ask Liwei later?"

Lu Yunfei was not too worried.

Because Yu Liwei said before.

Daosheng Sect is doing well now.

If that's the case, there must be no problem.

Maybe he over-thinks.

Maybe Daosheng Sect itself has given birth to a super powerful person.

Well, this possibility can basically be ignored.

Lu Yunfei thought while looking at the fairy city in the distance.

He did not go directly into the city.

Because there were some disciples walking around the periphery of the fairy city, on guard.

If he flew directly over.

It would be a bit embarrassing if it caused any misunderstanding.

Thinking of this.

Lu Yunfei took out the Immortal Mirror.

After casting a spell.

He took a deep breath and then said slowly.

"I have arrived near Niulan Mountain, southeast of the fairy city."

Yu Liwei stood quietly on the top of the mountain.

Suddenly her expression moved.

She took out the Immortal Mirror.

After casting a spell.

Seeing the information on it.

She immediately said excitedly.

"I will come right over."

After putting away the Immortal Mirror.

Yu Liwei turned into a stream of light and flew quickly towards the southeast.

...

Chapter 392 Ancestor

Yu Liwei soared into the air and quickly passed over the fairy city.

After a while.

On the distant mountain peak, a figure in white appeared in front of her.

Yu Liwei flew down.

She walked over silently and said softly.

"You're back."

"Yeah."

Lu Yunfei looked at Yu Liwei, his heart full of guilt, and he responded softly.

Two people who hadn't seen each other for a million years.

All the thoughts and expectations in his heart were integrated into these two short sentences.

At this time.

Lu Yunfei suddenly discovered.

At this time, the aura emanating from Yu Liwei was already Taiyi Realm.

This shocked him very much.

How could this be possible?

Section 502

He knew about Yu Liwei's talent.

It was indeed very good.

But in the fairy world.

There were countless talented cultivators.

But few of them could finally be promoted to the Taiyi realm.

Not to mention that the Ji'an Sea was located in a remote area.

Even for those big forces, or even super forces.

It was not so easy to cultivate a Taiyi Immortal.

At this level.

Personal talent was no longer particularly important.

To be promoted to Taiyi Immortal Lord, you needed opportunity.

It required an opportunity that defied the heavens.

Those spiritual objects and immortal pills that could help break through the bottleneck.

It was almost not accessible to ordinary Jinxian cultivators.

What's more.

There was also the Taiyi Heavenly Tribulation, a huge obstacle.

Lu Yunfei could hardly imagine how Yu Liwei did it.

A million years ago.

Yu Liwei was only in the late Jinxian stage.

It only took a million years.

She crossed the two huge thresholds of Golden Immortal Perfection and Taiyi Immortal in succession.

Lu Yunfei couldn't believe it at all.

What kind of heaven-defying opportunity could make her break through so quickly?

Thinking of this.

He asked excitedly.

"Liwei, your cultivation..."

Yu Liwei was stunned for a while.

Thinking of her current cultivation, she smiled slightly, and then said softly.

"These are long stories, let's go back and talk slowly."

"Okay."

After a while.

The two came to Rumeng Peak.

After sitting down in the pavilion on the top of the mountain.

Yu Liwei said softly.

"Two hundred thousand years ago, the sect master ascended from the lower realm..."

Lu Yunfei sat quietly beside him, listening to Yu Liwei's narration, and was completely stunned.

He didn't expect it at all.

In the years he was trapped, Daosheng Sect would actually have such a big change.

The five major forces in the Ji'an Sea area have long become history.

Now there is only one Daosheng Sect left.

What made him even more unbelievable was that

The current strength of Daosheng Sect is already ridiculously strong.

There are 100,000 True Immortal disciples and hundreds of Golden Immortal elders in the sect.

There is a tendency to become the fourth largest super power in the South Sea Immortal Realm.

And all of this was brought by Zhang Yuhe.

It has only been 200,000 years since Zhang Yuhe ascended to the Immortal Realm.

He has cultivated all the way to the Taiyi Realm.

Such a cultivation speed is simply a legend.

What's more terrifying is that.

Not only does Zhang Yuhe cultivate fast himself.

But he can also lead Daosheng Sect to develop rapidly.

He has developed Daosheng Sect from an inconspicuous small force to a super force that has established a king-level immortal city in the Chaos Continent.

Hearing the legend of Zhang Yuhe, the new leader of Daosheng Sect, narrated by Yu Liwei.

Lu Yunfei couldn't help but feel excited.

He really wanted to meet this legendary figure.

Thinking of this.

Lu Yunfei said.

"I wonder where this leader Zhang is now. Can I go and visit him?"

Yu Liwei said with a smile.

"There's no rush now. The sect master is in seclusion. It's not convenient for us to disturb him."

"In a few decades, it will be the Fairy City Festival. The sect master will show up at that time."

"Okay."

Lu Yunfei didn't force it.

It's really inconvenient to disturb a cultivator in seclusion.

If someone disturbs him when he is inspired.

Maybe all his efforts will be wasted.

...

Time passed slowly.

Zhang Yuhe waved his right hand.

Pushed open the lid of the four-legged square tripod in front of him.

A mini cannon slowly appeared in the square tripod.

Seeing this.

Zhang Yuhe couldn't help but let out a long sigh of relief.

"Finally it's done."

After continuous refining, he has refined twelve top-grade immortal-destroying cannons.

The red cloud immortal jade mined by Daosheng Sect over the years has also been consumed.

But it's enough for the time being.

The four walls of Yinhe Immortal City.

On each wall, three top-grade immortal-destroying cannons are placed.

Enough to deal with possible threats.

As for the middle-grade and lower-grade immortal-killing cannons.

Zhang Yuhe did not make them.

He did not need to make these things.

Dao Sheng Zong did not lack immortal-level weapon refiners.

Let others refine the middle-grade and lower-grade immortal-killing cannons.

Although others were slower in refining and had a lower success rate.

But it did not matter.

Take your time.

Dao Sheng Zong was now rich and powerful.

Failure in refining was nothing more than the loss of some materials.

Dao Sheng Zong could still withstand such a small loss.

Zhang Yuhe was the leader of Dao Sheng Zong, not the nanny of Dao Sheng Zong.

He did not need to do everything.

...

The upper-grade immortal-killing cannon was refined.

Zhang Yuhe packed up his things and walked out of the weapon refining hall.

Suddenly he frowned and looked in the direction of Rumeng Peak.

Zhang Yuhe felt that there was an aura of Taiyi Immortal Lord in Yinhe Xiancheng.

"Is anyone coming to visit?"

"It's still a while before the Fairy City Celebration, so no one should come so early, right?"

Section 503

"Forget it, let's go take a look."

Think of this.

Zhang Yuhe jumped into the air and flew quickly towards Rumeng Peak.

Saw Zhang Yuhe coming.

Yu Liwei stood up immediately and shouted respectfully.

"I've met the sect master."

Although their cultivation levels are not much different, they are both in the early stage of Taiyi Immortal.

But every time she saw Zhang Yuhe, Yu Liwei would be very respectful.

This is not because of Zhang Yuhe's status as the sect leader, but because of his heartfelt respect.

Yu Liwei knew it very well.

Without Zhang Yuhe, she would not have been promoted to Taiyi Immortal Realm.

Maybe at this time.

She may already be there, silently waiting to die.

Zhang Yuhe nodded lightly. He looked at Lu Yunfei next to him, his expression couldn't help but be startled.

He naturally knew Lu Yunfei, the ancestor of the Dao Sheng Sect.

Although I have never met.

But as early as Yu Fantian's time.

Zhang Yuhe has seen the statue of Lu Yunfei before.

At this time, Zhang Yuhe was a little confused when he saw Lu Yunfei himself.

But he quickly reacted and immediately stepped forward and shouted respectfully.

"Disciple Zhang Yuhe, pay homage to our ancestor."

Zhang Yuhe is where he is today because of Lu Yunfei's favor.

If it weren't for Lu Yunfei, the Taoism would be passed down to Yu Fantian.

Where would he be today?

Not to mention, there are also the two stone tablets left by Lu Yunfei.

These two stone tablets recording the Hunyuan Scripture were of great help to Zhang Yuhe.

Without this technique, his strength would have been at least half as good.

It is precisely because of the Hunyuan Heavenly Scripture that Zhang Yuhe has such strong immortal power now.

Only then can those powerful magical powers and immortal weapons be freely displayed.

Rely on the Nine Heavens Hunyuan Sword Formation included in the Hunyuan Heavenly Scripture.

Zhang Yuhe could defeat powerful enemies time and time again.

Even Zhang Yuhe was a little skeptical.

The game "Yufantian" may have been created by Lu Yunfei.

If that's the case.

Then he owed Lu Yunfei a huge debt.

If the game "Yufantian" did not come to Blue Star.

Now, he doesn't know how many reincarnations he has experienced.

How could he still be the current Galaxy Immortal Lord?

So, after seeing Lu Yunfei.

Zhang Yuhe immediately called out his ancestor respectfully.

This is his true ancestor who preached and taught.

...

Chapter 393 Adding the Patriarch Hall

Seeing Zhang Yuhe being so respectful.

Lu Yunfei said with a smile.

"Sect Master, you don't have to be polite. Those who are successful in cultivating Taoism will come first."

"Now that our cultivation levels are not much different, we should be worthy of being equal to our peers."

"Okay, Brother Lu."

Zhang Yuhe didn't hesitate.

It's just a title, don't take it too seriously.

The three of them sat down in the pavilion.

Zhang Yuhe asked Lu Yunfei.

"How come I don't know when Brother Lu came back?"

Lu Yunfei said with a smile.

"It's been decades."

"But I have always stayed here at Rumeng Peak and have never gone out, so no one knows about it for the time being."

Zhang Yuhe turned to look at Yu Liwei and said with a hint of complaint in his tone.

"Master Yu, why didn't you tell me earlier?"

"The return of the ancestor is a huge event for Dao Sheng Sect. How can it be so secretive and silent."

Yu Liwei looked at Lu Yunfei next to her and said with tenderness on her face.

"As long as Yunfei can come back safely, you don't have to worry about those red tapes."

Hear this.

Zhang Yuhe quickly waved his hand and said.

"How can that be possible? Brother Lu can successfully return to the sect. For the Dao Sheng Sect, this is a big deal."

"At least let those sect disciples come and pay homage to the Patriarch."

Speaking of which.

Zhang Yuhe stood up immediately.

I saw him wave his right hand.

A golden seal rose into the sky.

The golden seal flashed with dazzling light, like the Milky Way covering the sky.

It quickly enveloped the sky over the Galaxy Fairy City.

See this situation.

Everyone in the fairy city couldn't help but stop what they were doing.

This is the sect master's token of communication.

Everyone thought that something big had happened in the fairy city.

Could it be that a beast tide broke out?

At this time.

Zhang Yuhe's voice quickly spread throughout the Galaxy Fairy City.

"All elders and disciples of Daosheng Sect, gather at the Patriarch Hall immediately."

The Milky Way covers the sky, and the sound lingers for a long time.

Hear the call of the master.

There are hundreds of thousands of Dao Sheng Sect disciples in the city, regardless of their level of cultivation.

He immediately put down what he was doing and quickly flew towards the Patriarch's Hall.

The Patriarch Hall is located on the left side of the Galaxy Hall.

As the Daosheng Sect, the core buildings in the Immortal City were naturally the first batch to be built.

Including the disciples under the True Immortal, there are nearly a million people in the Dao Sheng Sect.

In order to build a fairy city.

Zhang Yuhe transferred most of the disciples within the sect to Chaos Continent.

At this time, hundreds of thousands of disciples had gathered in the square outside the Patriarch's Hall.

Everyone was whispering, not knowing what happened.

Just at this time.

Three streams of light flashed across the sky.

Zhang Yuhe and the others landed in front of the gate of the Patriarch's Hall.

Saw Zhang Yuhe arriving.

Everyone shouted respectfully in unison.

"Meet the sect master."

Zhang Yuhe waved his hand.

Just at this time.

Everyone was surprised to see Lu Yunfei next to the sect leader.

Section 504

Some old people from Daosheng Sect quickly recognized Lu Yunfei.

Everyone shouted excitedly.

"Ancestor, you are finally back."

The scene was filled with excitement.

Those who had never seen Lu Yunfei reacted quickly.

Although they have never met Lu Yunfei himself.

But when entering Daosheng Sect.

Everyone must worship the ancestor.

Everyone has seen the statue of Lu Yunfei.

I saw the statue of the ancestor who had never appeared before finally appeared in front of me.

Everyone was very excited.

Especially those golden immortal elders.

They could feel the powerful pressure emanating from Lu Yunfei.

obviously.

This patriarch, whom he had not seen for many years, had been promoted to the Taiyi realm.

Dao Sheng Sect has another Immortal Lord Taiyi.

This is definitely a huge happy event.

After a while.

Zhang Yuhe stretched out his hand and pressed down, and the scene finally became quiet.

Zhang Yuhe said with a smile.

"Everyone must know by now that this is the founder of our Dao Sheng Sect."

"Now that the ancestor has returned, the Immortal City has been established, and double happiness is coming."

"This is a great thing, and it may indicate that our Dao Sheng Sect will move towards endless glory from now on."

"good."

Zhang Yuhe just finished speaking.

There was a commotion at the scene.

The old people from the Dao Sheng Sect also stepped forward to say hello to Lu Yunfei.

to be honest.

Lu Yunfei has been missing for millions of years.

In the entire sect, there are really not many people who have seen him before.

Not many acquaintances.

Except for a few golden immortal elders.

It was also the first time for everyone else to see Lu Yunfei in person.

With Lu Yunfei's return, Galaxy Fairy City was filled with joy.

Zhang Yuhe also announced that he would reform the Dao Sheng Sect's institutions.

In addition to the original palaces.

Add another ancestor hall.

From now on, as long as someone within the sect breaks through to Taiyi Immortal Lord.

He will automatically enter the Patriarch Hall and be ranked as the Patriarch of the sect.

Of course.

Currently, there are only two people in the Ancestral Hall, Yu Liwei and Lu Yunfei.

Zhang Yuhe, the sect leader, would naturally not be included in this list.

In addition, considering the importance of the temple, it cannot be without experts.

Therefore, the temple is still managed by Yu Liwei.

As for the specific affairs of the temple, Li Tian and Feng Xiaotian, the two deputy temple masters, are in charge.

Wait until everyone disperses.

Lu Yunfei said to Zhang Yuhe.

"Sect Master, Liwei and I want to go back to the sea area of Ji'an."

"I haven't been back for so many years. I want to go back to my hometown and see if there are any changes."

"It's okay. You can go back. I'm here in Immortal City and nothing will happen."

Looking at Lu Yunfei and Lu Yunfei in the distance, Zhang Yuhe was thoughtful.

He had communicated with Lu Yunfei just now.

The game "Yufantian" was indeed created by Lu Yunfei.

He obtained the relics of a Daluo Immortal King on the ancient battlefield.

Not only can he be promoted to Taiyi Immortal Lord through this.

And he also found a special formation.

Because I was trapped for too long.

Lu Yunfei had nothing to do.

That formation was arranged.

Through the traction of the formation, people from the surrounding small world can be pulled into Yu Fantian.

What Lu Yunfei didn't expect was just that.

Zhang Yuhe is actually one of them.

When I first heard this information.

Lu Yunfei was completely stunned.

He just had nothing to do and wanted to help the Dao Sheng Sect and bring in some new blood.

Who could have imagined that a peerless genius like Zhang Yuhe would be introduced to the path of cultivating immortality.

"Maybe this is God's will."

Zhang Yuhe thought silently in his heart.

Although Lu Yunfei did not bring out the formation.

Just put it on the ancient battlefield and let it run on its own.

Without anyone to maintain it.

Maybe not many years.

That formation may be abandoned.

That is to say.

The game that comes to Blue Star may stop at any time.

From now on, Blue Star people will no longer be able to use games to enter the world of Yu Fantian.

Zhang Yuhe is not worried about this.

Over the years, Blue Star monks have continued to ascend to the immortal world.

Through the news they brought.

Zhang Yuhe learned.

Nowadays, Blue Star's development is not inferior to that of Yu Fantian.

Even if the game doesn't exist.

Rely on Blue Star's local resources and strength.

It is also possible to give birth to ascended monks.

Moreover.

Control the formation of the game "Yufantian".

As long as Zhang Yuhe is willing, spend more time.

He can also make something similar.

After all, he is now a powerful Taiyi Immortal Lord.

In the eyes of ordinary people, he is considered a powerful person.

There is absolutely no difficulty in creating a formation that affects mortals.

But he didn't want to do it.

Let Blue Star develop independently.

Zhang Yuhe raised his head and looked at the sky, thinking silently in his heart.

...

Chapter 394 Fairy City Celebration

Ten years later.

Zhang Yuhe stood outside the Galaxy Hall.

A large number of monks have gathered around.

Section 505

In addition to the elders and disciples of the Daosheng Sect, there are also countless representatives from various forces in the South China Sea Immortal Domain.

Today is the celebration day for the official founding of Galaxy Fairy City.

It was under the arrangement of Zhang Yuhe.

The Dao Sheng Sect sent invitations to every force in the South China Sea Immortal Domain.

Just because Zhang Yuhe is so famous now.

These people are naturally embarrassed not to come.

Even though there are many forces, they have never dealt with Dao Sheng Sect before.

Today, representatives are still sent to participate in the Daosheng Sect's Fairy City celebration.

For those small forces.

This is a perfect opportunity for a hug.

If you can hug Dao Shengzong's lap.

Just a little bit of food from the Dao Sheng Sect would be enough for them to eat until they are full.

For those big forces.

They are far more knowledgeable.

Although they don't need to hold Dao Shengzong's lap.

But there is definitely no harm in being on good terms with the Dao Sheng Sect.

In the last war.

Zhang Yuhe's cultivation has already shocked everyone.

A more powerful Taiyi Immortal Lord than Daluo Immortal King.

No one dares to underestimate it.

more importantly.

Galaxy Fairy City is located deep in the Chaos Continent.

It can be said that it is at the forefront of the immortal cities in the South China Sea Immortal Domain.

If a beast wave breaks out.

Galaxy Fairy City must be the first to bear the brunt.

Although Niulan Mountain has been destroyed now.

There seems to be no threat from the beast tide for the time being.

But everyone understands.

This is only temporary.

With the power of the monks, it continues to develop towards the Chaos Continent.

Sooner or later, a large-scale conflict will break out between them and the Chaos Beasts.

When they came into contact with the fourth-level Chaos Beast tribe again.

The possibility of an outbreak of beast tides in the future will be inevitable.

Everyone also wants to take the opportunity to see it.

Can Dao Sheng Sect's Galaxy Immortal City be able to withstand the impact of the beast tide in the future?

This is very important for their development plan in Chaos Continent.

The current location of Galaxy Fairy City is between other fairy cities in the South China Sea Fairyland.

Still separated by a very long distance.

In the middle section, there is a vast area.

If the Dao Sheng Sect has enough strength, it can block the impact of the beast tide.

Then other forces can naturally take the opportunity to move forward.

Exploit the resources in these areas.

If someone helps them, block the tide of beasts in front.

If they move forward to develop mineral veins and build fairy cities, they don't need to invest too much defensive power.

Zhang Yuhe naturally understands what other people think.

But he didn't care.

He dared to build the Galaxy Immortal City in Niulan Mountain.

Naturally, I am confident that I can stop the beast tide.

to be honest.

As long as the supreme Chaos Beast doesn't attack.

Even if there is a large-scale beast tide, he will not take it seriously.

Even several level four chaos beast tribes launched attacks at the same time.

He won't even take it to heart.

Blessed by the formation of Immortal City.

Zhang Yuhe is completely confident that he can fight any king-level chaos beast.

Moreover, the monks in the South China Sea Immortal Domain have not yet come into contact with other fourth-level tribes.

There is no need to consider the issue of beast tides for the time being.

As time goes by, his strength will increase rapidly.

Maybe in a few million years.

He can even bulldoze a level four tribe by himself.

Streams of light passed by in the distance.

Representatives of various forces arrived one after another.

However, Zhang Yuhe does not need to personally receive these people.

The Dao Sheng Sect has naturally already arranged for the reception staff to correspond one by one.

Suddenly a stream of light flashed across the sky quickly.

Qian Yuanjiang's voice came from a distance.

"Brother Zhang, congratulations to your Dao Sheng Sect for establishing the Immortal City."

After a while.

A huge fairy ship appeared above the Galaxy Hall.

Qian Yuanjiang put away the fairy ship and jumped down.

Zhang Yuhe immediately stepped forward and said with a smile.

"Brother Qian is welcome to Galaxy Fairy City. Brother Qian is here to invite you."

Zhang Yuhe welcomed Qian Yuanjiang into the main hall.

Time passed slowly.

Except for the Divine Beast Sect, almost all the major and minor forces in the South China Sea Immortal Territory are here.

In fact, Zhang Yuhe also asked people to distribute invitations to the Divine Beast Sect.

But so far, no one has come.

Zhang Yuhe estimated.

Long Yuanguang should have guessed that Long Aotian's matter might be related to him.

If we say, when I left Taixu Secret Realm.

Not to mention Zhang Yuhe, he is particularly dazzling.

Long Yuanguang may not pay attention to him.

So after the last war.

Long Yuanguang couldn't stop paying attention to him.

After all, a Taiyi Immortal who can withstand the attack of the Nine Color King Beast.

It's simply a legend.

Reminiscent of the fact that Zhang Yuhe also entered the Taixu Secret Realm with Long Aotian.

But later, Long Aotian did not return safely.

Even without any evidence.

Naturally, Long Yuanguang would also cast doubtful eyes on Zhang Yuhe.

Now Zhang Yuhe's strength is comparable to that of Da Luo Immortal King.

So what kind of strength would it be when you were in the secret realm?

Once Long Aotian encounters him, he will obviously not be able to survive.

Unfortunately.

Although Long Yuanguang had doubts in his heart.

There was nothing he could do.

Because Zhang Yuhe has grown up now.

Even the Divine Beast Sect wants to deal with Zhang Yuhe.

Don't dare to do it easily.

not to mention.

Section 506

Long Yuanguang now has more important plans.

He had already contacted Helan Ruobei and wanted to open the passage to Liuhetian.

Lure the Chaos Beasts from Helan Mountain into the South China Sea Immortal Realm.

In Long Yuanguang's view.

Compared to the revenge of killing his son, the Immortal King of Ten Thousand Mountains poses a greater threat to him.

Just lead the Chaos Beast and enter the South China Sea Immortal Realm.

With the help of the power of Chaos Beast, destroy the Ten Thousand Immortals Sect and even kill the Immortal King of Ten Thousand Mountains.

That is his main goal now.

Because the hatred between their Divine Beast Sect and the Ten Thousand Immortals Sect is too great.

If the Wanshan Immortal King is not dealt with.

Maybe wait until some day in the future.

The Wanshan Immortal King breaks through and becomes the Dao Ancestor Emperor, so Long Yuanguang will definitely die without a burial place.

So other things can be put aside completely.

Long Yuanguang didn't have time and came to trouble Zhang Yuhe.

However, he would not send anyone to attend Zhang Yuhe's invitation.

Just pretend it didn't happen.

...

The Daosheng Sect's Fairy City celebration lasted for three days.

Everyone had a lively exchange and discussion with each other.

Zhang Yuhe stood up and said with a smile.

"Thank you all fellow Taoists for coming to the Dao Sheng Sect's Fairy City celebration."

"Starting from today, Dao Sheng Sect Galaxy Immortal City is officially established."

"We welcome everyone to come to Fairy City for exchanges and cooperation in the future."

Zhang Yuhe just finished speaking.

All over the Milky Way Fairy City, lights reaching into the sky lit up.

The light shot straight into the sky, converging into a Milky Way that covered the sky.

The Milky Way stretches across the sky, shining with dazzling light.

Zhang Yuhe looked up at the sky and nodded with satisfaction.

The Milky Way above Fairy City is not a flashy thing.

This is the formation of the fairy city.

In order to increase the defense of Fairy City.

Zhang Yuhe specially designed this formation based on the trend of the surrounding land veins in Niulan Mountain.

The Milky Way Stars Formation.

This formation uses the power of the earth's veins to draw the starlight from the sky to come down.

When the formation is fully activated.

Not only can it impose a strong defensive barrier on the fairy city.

more importantly.

Under the starlight.

The strength of the monks in the city may be greatly improved.

The effect is basically similar to the Liangyi dust array commonly used in various fairy cities in Chaos Continent.

However, the Galaxy Star Array can provide a greater increase.

Under the shroud of starlight, monks can explode with stronger strength.

In order to arrange this formation.

Zhang Yuhe still took a lot of trouble.

Now I see the Milky Way covering the sky and the formation rising.

Zhang Yuhe nodded with satisfaction.

"The effect is okay."

...

Chapter 395 Refining the Yellow-level Immortal Ship

Countless guests looked at the Milky Way across the sky above Fairy City and couldn't help but be shocked.

They can all feel it.

Under the shroud of starlight, his current strength seems to have improved a lot.

Those who can come to the celebration are naturally not ordinary monks.

Their knowledge is far beyond that of ordinary people.

everybody knows.

In every fairy city in the Chaos Continent, Liangyi dust arrays are basically deployed.

This is a set of defensive immortal formations that have been tested in countless battles.

Generally speaking.

With the blessing of the Liangyi Dust Formation.

The strength of the monks in the city can probably be increased by about 10%.

But under the starlight.

Everyone found that their strength had increased by at least 20%.

What kind of formation is this that can have such a powerful effect?

Looking at the Milky Way in the sky, everyone was very shocked.

To know.

Although the Liangyi Dust Formation is just a common formation in the fairy world.

But that's also because the effect of this formation is good enough.

It has been circulating in various fairy cities in Chaos Continent for countless years.

Otherwise, it would have been replaced by other formations long ago.

The Liangyi dust formation has allowed monks to use it for so many years.

Naturally, this shows the uniqueness of this formation.

However, I don't know the origin of the Dao Sheng Sect's formation.

It is actually more effective than the Liangyi Dust Formation.

Think of this.

Everyone couldn't help but start thinking carefully.

they thought.

Can I trade the formation method from Zhang Yuhe?

if you can.

They also set up the same formation in their own fairy city.

Doesn't that mean.

Can the defense strength of the fairy city be increased by 10%?

Faced with such a huge improvement.

How could everyone not be moved?

Zhang Yuhe is not too proud of himself.

It's just a formation, as long as others can get it, it's something of equal value.

He is willing to exchange.

Although the Milky Way Star Formation was designed by Zhang Yuhe himself, he painstakingly designed it.

But he doesn't intend to keep it to himself.

Even if this formation is extended to the entire realm of monks, it doesn't matter.

And this can also enhance the overall strength of human monks in the Chaos Continent.

After all the major fairy cities have deployed the Galaxy Star Array.

When everyone faces the beast tide in the future, it will be easier to deal with it.

Why wouldn't he do such a good thing?

Of course.

There is a premise here.

He won't give it away for free.

Want the formation he designed and created?

It doesn't matter.

Get something in exchange.

Section 507

...

Time passes slowly.

The news that Dao Sheng Sect established a new royal city in Chaos Continent slowly spread in the South China Sea Immortal Territory.

Although the Dao Sheng Sect's superficial strength does not seem to be too strong.

There are only three Taiyi Immortal Lords in the entire sect.

It is not much different from the big forces in the South China Sea Immortal Domain.

But Dao Sheng Zong advocated Yuhe, which was too fierce.

A ruthless man who can withstand the Nine Color King Beast.

Who dares to treat him as an ordinary Taiyi Immortal Lord?

Anyone with any brains knows this.

Zhang Yuhe's strength is definitely no worse than the average Daluo Immortal King.

Galaxy Immortal City occupies an area of hundreds of millions of miles around Niulan Mountain.

Such a majestic giant city.

In addition, Zhang Yuhe is in charge.

It's truly a royal city.

No one will question it.

In the eyes of many monks.

The current Dao Sheng Sect can be regarded as the fourth super power in the South China Sea Immortal Domain.

Not long after the fairy city celebration.

Many true immortals among casual cultivators, and even golden immortal monks, came to Galaxy Immortal City in admiration.

Through the Daosheng Sect Economic and Trade Hall, they either purchased or rented Dongfu Villa in Galaxy Fairy City.

Plan to stay in the fairy city permanently.

There are large undeveloped areas near Galaxy Fairy City.

Compared with other fairy cities in Chaos Continent.

Loose cultivators use the Galaxy Fairy City as their base to venture into the Chaos Continent.

Easier to find, various precious resources.

It is conducive to the rapid improvement of cultivation level.

Except for casual cultivators.

The large and small forces in the South China Sea Immortal Territory have also purchased properties in Galaxy Immortal City.

They may set up chambers of commerce to collect various resources.

Or buy a manor so that the disciples of the sect can settle down.

Due to the excellent location.

The Galaxy Fairy City, which was established not long ago, soon showed a prosperous scene.

...

After the celebration.

Zhang Yuhe first spent three thousand years helping Yu Liwei refine a yellow-level fairy ship.

At the Fairy City celebration, he used the arrangement method of the Milky Way Star Array.

Finally, from Qian Yuanjiang of Wanxian Sect, he got a blueprint for refining a yellow-level immortal ship.

Compared to the earth-level fairy ships.

The materials needed for the Huang-level fairy ship are easier to obtain.

It's just that the refining process of the fairy ship is more time-consuming.

After Zhang Yuhe got the drawings.

I found that the above materials happened to be in the Dao Sheng Sect's treasure house.

This is just right.

There are materials and drawings.

He didn't think much about it.

Soon he was put into the project of refining the fairy ship.

After all, he had promised to help Yu Liwei build a fairy ship.

Zhang Yuhe spent three thousand years and finally successfully refined a yellow-level immortal ship.

After handing the immortal ship to Yu Liwei, he began to practice in seclusion.

As for Lu Yunfei, there is no immortal ship yet?

So what does it matter?

Anyway, Lu Yunfei and Yu Liwei are now in a couple.

It's like wearing the same pair of pants.

Why do you need so many fairy ships?

Let the two of them share a fairy ship.

After all, refining an immortal ship is also very time-consuming.

After being promoted to Taiyi Immortal Lord, Zhang Yuhe has not practiced seriously yet.

He didn't want to waste any more time.

Just practice in seclusion honestly.

Zhang Yuhe came to the Seven Star Immortal Pond.

He glanced at the Nine Heavens Spiritual Stick and the Immortal Immortal Sword in the center of the Immortal Pond.

Then he waved his right hand.

Once again, put a large amount of fairy minerals and fairy materials into the fairy pond.

After doing all this.

Zhang Yuhe sat down cross-legged on the training platform next to the Immortal Pond.

As the Hunyuan Heavenly Scripture slowly circulated, the surrounding fairy energy quickly rushed towards him.

The spiritual energy passes through the meridians and slowly gathers into the sea of dantian.

With this innate spiritual treasure land.

Zhang Yuhe clearly felt the speed of his cultivation.

It's much faster than before.

At least twice as fast.

Because the rules are irregular.

It is impossible to set up a spirit gathering array in the fairy world.

Zhang Yuhe hasn't felt this kind of super-fast cultivation effect for a long time.

despite this.

It will still take a long time for Zhang Yuhe to break through to the middle stage of Taiyi Immortal.

He made a rough estimate.

If there is no special opportunity, just practice step by step.

It will take at least a million years before he can break through to the middle stage of Taiyi Immortal.

In fact, this is already very fast.

After the monk arrived at Taiyi Immortal.

The speed of cultivation will be greatly reduced.

This is not Taiyi Immortal, the speed of refining spiritual energy is slowing down.

But after arriving at Taiyi Immortal.

Every time a monk advances to a small level, he needs a large amount of spiritual energy to fill his Dantian Qi sea.

The normal Taiyi Immortal Lord.

If they want to take a small step forward, it will take at least tens of millions, even hundreds of millions of years or more.

If Zhang Yuhe could break through to the middle stage of Taiyi Immortal within a million years.

That's already super fast.

...

Chapter 396 Long Yuanguang is in action

When Zhang Yuhe was in retreat.

The entire South China Sea Fairyland was peaceful.

Countless monks poured into Chaos Continent.

In the vast area between Galaxy Fairy City and other fairy cities.

Originally there were countless Chaos Beast tribes, large and small.

As the major forces put their energy into the Chaos Continent.

These scattered Chaos Beast tribes were quickly wiped out.

Section 508

Instead, countless fairy cities rose from the ground.

A large number of monks poured into it, constantly exploring resources.

Thousands of years later.

The major forces in the South China Sea Immortal Territory will finally open up the front line.

Fully advance to a place not far from Niulan Mountain.

As for going forward.

No one has this idea.

First of all, the current territory is already large enough.

It may take millions of years for them to digest it all.

Second, go forward from Niulan Mountain.

There are also many tribes of Chaos Beasts.

There may even be a tribe of level four Chaos Beasts.

No one wants to take any more risks.

If they offend the fourth-level tribe, they will be in big trouble.

Back then, a single Niulanshan tribe could crush the entire monks in the South China Sea Immortal Territory, making them completely unable to lift them up.

If he provokes a fourth-level Chaos Beast tribe again.

It was not easy for everyone to usher in a peaceful situation.

Wouldn't it be broken again?

As in the past, when there was a tide of beasts that happened once every 100,000 years, everyone had already had enough.

They are like leeks in the eyes of the chaos beasts in Niulan Mountain.

Every 100,000 years, they come here to harvest.

Since the destruction of Niulan Mountain.

Everyone enjoyed the rare peace.

Without the threat of the powerful Chaos Beast tribe, the overall strength of the monks in the South China Sea Immortal Realm.

is moving forward rapidly.

Many monks are in those newly developed areas.

I found various precious resources and broke through to a new level in one fell swoop.

during this time.

In the South China Sea Immortal Realm, there were even many Golden Immortal monks who were promoted to Taiyi Immortal Lord.

With the destruction of the Niulanshan tribe.

The entire South China Sea Fairyland seems to have entered a period of prosperity.

...

The sea of mythical beasts, the Black Dragon Abyss.

A stream of light quickly streaked across the sky.

Long Yuan controlled the escape light with a silent expression.

Over the past ten thousand years.

Earth-shaking changes have taken place in the South China Sea Immortal Realm.

All major forces are developing rapidly.

However, there was no movement from the Divine Beast Sect.

Everyone else is busy developing new territories in Chaos Continent.

Many elders of the Divine Beast Sect also proposed to Long Yuanguang.

We must increase our efforts to develop in the Chaos Continent.

At least they must occupy a few places, the territory of the third-level Chaos Beast Tribe.

Build more monarch-level fairy cities.

However, these suggestions were all rejected by Long Yuanguang.

In Long Yuanguang's heart.

He wished that all the major forces would devote their energy to the Chaos Continent.

In that case.

When they opened the passage to Liuhetian.

A large number of chaos beasts poured into the South China Sea Immortal Domain.

Those big forces may not even have the energy to defend their base.

"Hmph, I still want to develop the Chaos Continent. Let me destroy them all together."

Think of this.

Long Yuanguang couldn't help but snorted coldly.

After a while.

Long Yuanguang suddenly stopped and stood quietly in the air.

Just at this time.

Suddenly there was a huge wave on the sea.

A huge black dragon rose into the sky from the sea.

The black dragon turned into a middle-aged figure.

Soon he landed next to Long Yuanguang.

It was Ao Lie, the protector of the Divine Beast Sect.

Ao Lie stood beside Long Yuanguang and asked calmly.

"Have you really decided?"

Long Yuanguang took a deep breath, and then responded seriously.

"It's natural."

"Didn't we already agree last time?"

"Now the Immortal King of Ten Thousand Mountains is at the height of his power."

"Twenty thousand years ago, he relied on the power of the Heavenly Star Immortal Realm."

"He even killed all twenty-four king-level chaos beasts in Niulan Mountain."

"If we don't take action."

"Maybe in the near future, Immortal King Wanshan won't let us go either."

Listening to Long Yuanguang's words, Ao Lie's face became calm.

Of course it does.

Long Yuanguang said so much, but it was just an excuse.

In its opinion.

Long Yuanguang's main purpose.

I still want to get the original thing from Helan Ruobei.

The original things are extremely precious in the eyes of monks.

But in the eyes of the Chaos Beast, it is worthless.

Helan Mountain is located on the edge of the original sea.

For Helan Ruobei.

If you want to get a few items from the original source, it will be a no-brainer.

It's just that they want to get the original thing from Helan Ruobei.

It's not that easy.

According to the original agreement.

They must first open the space channel of Liuhetian to welcome the arrival of the chaotic beasts from the Helan Mountain tribe.

Just do this.

Only Helan Ruobei would hand over the original thing to them.

Of course.

This is just an agreement.

If Helan Ruobei breaks the contract.

There is nothing they can do.

Even if it's just a glimmer of hope.

Long Yuanguang still didn't want to give up.

In fact, Ao Lie is not like this.

It also wants the original thing.

Although it is the direct descendant of the Black Dragon Daozu.

But there are so many descendants of Black Dragon Daozu.

Where can I get it?

Section 509

Moreover.

Even the Dao Ancestor Emperor.

It is not that easy to go to the Origin Sea.

What's more, it's about finding the original thing.

Those Chaos Beasts guarding the Origin Sea are not vegetarians.

Once it is discovered that a monk has invaded.

Hundreds of noble-level chaos beasts swarmed forward.

Even Emperor Dao Zu couldn't bear it.

So Ao Lie understood in his heart.

If you want to obtain the original thing, you still have to rely on it yourself.

This time is indeed an opportunity.

As long as they can, open the space channel of Liuhetian.

It is possible to get the original thing from Helan Ruobei.

As for the South China Sea Immortal Territory, the disputes between the major forces.

It's completely uninteresting.

What is Long Yuanguang's real purpose?

For Ao Lie, it actually doesn't matter.

It comes from the Black Dragon Immortal Domain and is a descendant of the Black Dragon Taoist Ancestor.

To be precise.

Ao Lie is a demon clan.

What does the human race's disputes in the South China Sea Immortal Domain have to do with it?

As long as you can get the original thing.

Even the monks in the South China Sea Immortal Domain were all killed by the Chaos Beasts.

It won't even frown.

The three clans of humans and demons in the immortal world are said to be working together to fight against the chaos beasts side by side.

But the relationship between the three clans is not that close.

If there is no pressure from the Chaos Beast.

Perhaps the current fairy world may be a situation where three clans are competing for hegemony. It is hard to say.

Ao Lie didn't care about the life or death of the monks in the South China Sea Immortal Domain.

The chaotic beasts that led Helan Mountain came to the South China Sea Fairyland.

It has no mental burden at all.

Think of this.

Ao Lie said lightly.

"Now that you have made your decision, let's set off together."

"Get to Liuhetian as soon as possible and open the space channel as soon as possible."

"I hope nothing happens."

Hear this.

Long Yuanguang said confidently.

"Don't worry, I have been preparing for this plan for nearly a hundred thousand years."

"And the Chaos Beasts in Helan Mountain also provided us with a lot of help."

"So many years have passed since Tianxing Daozu left the seal in Liuhetian."

"It will definitely not be able to stop our coordinated attack."

"Let's go."

"good."

After the two communicated for a while.

Then it turned into two streams of light and quickly flew towards the Wanshan Sea.

...

Chapter 397 Xuantian Delimiting Talisman

In the South China Sea Fairyland, there are countless sea areas, large and small.

From so many sea areas, a vast fairyland is formed.

The size and resource output of these sea areas are greatly different.

In the entire South China Sea Fairyland.

Wanshan sea area is the largest and its resource output is also extremely rich.

It is considered one of the top sea areas.

Compared with Ji'an sea area.

The Wanshan Sea Area is at least hundreds of times larger.

The larger the sea area, the greater the resource output.

This is because of a war many years ago.

The southeastern corner of the Wanshan Sea Territory was reduced to a desperate state.

Otherwise.

The resource output of Wanshan Sea Area is even richer.

Of course.

It is precisely because this Jedi exists.

This allowed the Wanxian Sect to monopolize the entire sea area.

Otherwise.

The Divine Beast Sect has occupied this place for a long time, so how can it get the Wanxian Sect in its turn?

Speaking of which, among the three super powers in the South China Sea Immortal Domain.

Wanxianmen can only be regarded as a rising star.

Both the Divine Beast Sect and Chaotian Palace are older than the Wanxian Sect.

It was not until later that the Immortal King of Wanshan suddenly emerged.

Lead the Ten Thousand Immortals Sect and unify the entire sea area.

And he also named this sea area the Wanshan Sea Area.

Wait until the Divine Beast Sect reacts.

It's already too late.

The Immortal King of Wanshan has grown up.

Even if the Divine Beast Sect wanted to interfere again, there was nothing they could do.

not to mention.

There is also an order from Tianxing Daozu on it.

Tianxing Daozu had already issued an order.

There must be no aggression or disputes between the major forces of the human race.

For this reason, Long Yuanguang could only look at the Immortal King of Ten Thousand Mountains.

Become stronger step by step and get bigger.

regarding this matter.

Long Yuanguang has always been extremely regretful.

I had known this would happen.

Back when Wanshan Immortal King was still very weak.

He should take action directly and strangle Immortal King Wanshan in his bud.

Unfortunately.

It's too late now.

The current Wanshan Immortal King is already extremely powerful.

It was even so powerful that it made Long Yuanguang feel deeply afraid.

"This time, we must use the hands of the Chaos Beast to let the Immortal King of Wanshan die without a burial place."

Long Yuanguang thought bitterly while flying quickly.

Liuhetian is located in the southeast corner of Wanshan Sea Area.

This was once an ancient battlefield.

Legend has it long ago.

The Chaos Beast in Helan Mountain accidentally discovered a space passage.

After many attempts.

Only then did they discover it.

Section 510

At the other end of the passage, there was a vast immortal realm of cultivators.

This discovery made the Chaos Beasts of Helan Mountain very excited.

If all the cultivators in the entire immortal realm were used for sacrifice.

How much feedback could they get from the Supreme True God?

I'm afraid it would be more than enough to give birth to a few Supreme Chaos Beasts.

It was precisely because of this.

Helan Mountain sent a large number of Chaos Beasts through the space channel to invade the South Sea Immortal Realm.

For a while.

The entire South Sea Immortal Realm was almost conquered.

At this time.

Tianxing Daozu took action.

With his powerful strength, Tianxing Daozu fought against many Supreme Chaos Beasts alone.

And he killed one of them.

Not only that.

Tianxing Daozu also mobilized a large number of high-level cultivators from other immortal realms.

To support the South Sea Immortal Realm.

After tens of thousands of years of war.

Under the leadership of Tianxing Daozu, the human cultivators drove all the chaos beasts in Helan Mountain out of the Nanhai Fairyland.

And the last battlefield of that war was located in Liuhetian.

That war was so fierce that the sky collapsed and the earth split.

So many years have passed.

Now the area near Liuhetian is still a wasteland.

Here, the Dao rhyme is everywhere, and there are space cracks everywhere.

If a cultivator accidentally breaks into here.

As long as he is not careful, he may be killed by those violent Dao rhymes.

Or he may be cut into countless pieces by those ubiquitous space cracks.

It is precisely because of this.

Liuhetian is regarded as the first wasteland in the Nanhai Fairyland.

If a cultivator enters it, there is death.

Even the Daluo Immortal King dare not break in easily.

Long Yuanguang and Ao Lie looked at Liuhetian in the distance with calm expressions.

I saw that the void in the distance often burst out with various inexplicable auras.

They knew.

This is the residual Dao rhyme.

It was the manifestation of Daozu Emperor after he released his Dao magic.

Even though countless years had passed.

These remaining Dao rhymes still had great power.

At least the two of them did not dare to touch it easily.

Even though Long Yuanguang and Ao Lie were both top-level Daluo Immortal Kings.

But in front of Daozu, they were still pitifully weak.

Even if it was a trace of Dao rhyme power left by Daozu, they could not afford to provoke it.

As for the spider-web-like space cracks around them.

That was fine.

With their strength.

As long as they were careful, they could avoid them.

Looking at Liuhetian in the distance, Ao Lie couldn't help but frown.

It looked at Long Yuanguang and asked.

"It's indeed a bit dangerous here. How can we successfully reach the place where the space channel is sealed?"

Hearing this.

Long Yuanguang said with a smile.

"It doesn't matter, we just go straight through."

In Ao Lie's surprised eyes.

Long Yuanguang took out a golden talisman.

He flicked his finger.

The talisman turned into a small golden umbrella, quietly floating above the two people's heads.

The golden umbrella cast a faint light.

It seemed to isolate everything in the outside world.

It was as if they were in a different dimension.

Seeing this situation.

Ao Lie shouted in shock.

"Xuantian Dingjie Talisman? Is this the fifth-level immortal talisman left by Xuantian Daozu?"

Long Yuanguang said lightly.

"Yes, it is indeed the Xuantian Dingjie Talisman."

"This is something that Venerable Helan sent to us."

"With this talisman, we have no problem breaking through to the sealed place."

Ao Lie sighed, and then said softly.

"It is indeed no problem."

Xuantian Daozu was once one of the top powerhouses in the immortal world.

Relying on his talent in the way of talismans.

Among the Daozu.

Xuantian Daozu is also one of the top existences.

Among the many talismans created by Xuantian Daozu.

The Xuantian Dingjie Talisman is the most famous.

This kind of talisman is called the first defensive talisman in the fairy world.

Relying on the Xuantian Boundary Talisman, it can even help the Daluo Immortal King to survive several rounds of Daozu's heavenly tribulations.

With such a powerful talisman.

They really have no problem passing through Liuhetian and entering the sealed land.

After all, they only need to deal with some residual Dao rhyme.

Instead of facing the real Daozu.

With the protective power of the Xuantian Boundary Talisman.

They can completely be free in Liuhetian, this Jedi.

Long Yuanguang glanced at the distance and said with a smile.

"Let's go, the duration of the Xuantian Boundary Talisman can only last for half a quarter of an hour."

"We must hurry up and get to the sealed land as soon as possible."

"Okay."

The two of them rushed directly to Liuhetian with a small golden umbrella floating above their heads.

...

Chapter 398 Passage Seal

Long Yuanguang and Ao Lie, holding a small golden umbrella.

Dive into Liuhetian, this daunting Jedi.

As they flew quickly all the way.

From time to time, there would be bursts of inexplicable powerful auras around.

However, under the protection of the golden umbrella transformed by the Xuantian Boundary Talisman.

These powerful auras seemed to be isolated in another world.

These powers manifested by the Dao rhyme.

When approaching the golden glow, they immediately disappeared without a trace.

As for those densely packed space cracks.

They had no effect on them at all.

When the space cracks and cuts through the golden glow.
