Section 51

After a while, the smoke gradually disappeared.

Zhang Yuhe looked down and saw that Jingkong City had completely disappeared.

No trace of the existence of the city could be seen at the scene, leaving only a bottomless huge pit with palm prints.

There is even spring water gushing out from the bottom of the huge pit.

"Hold the grass, this Elder Lu is so fierce."

Zhang Yuhe was secretly speechless.

Is this the strength of the Dao Sheng Sect elders?

It's really scary.

The horned devil from before probably couldn't even catch a slap, right?

After Lu Mingfang slapped his palm, Zhang Yuhe said with a calm expression on his face.

"After you go back, ask people to thoroughly investigate all the forces involved in this matter. As long as they are involved in this matter, no matter who they are, they will be exterminated."

"yes."

Zhang Yuhe was stunned and respectfully answered yes.

After Lu Mingfang finished speaking, he turned into a stream of light and disappeared into the distance with Li Tian.

They don't need to go to Yunzhong Mansion to sit in the teleportation formation. This place is located on the edge of Yunzhong Mansion.

If they go to Tiangong Mansion next door and teleport to the state city, they will be much closer.

Lu Mingfang and Li Tian will obviously no longer participate in the subsequent events.

As the guardian of this place, that is his duty.

Seeing Lu Mingfang and Li Tian far away, Zhang Yuhe did not stay any longer, but turned into a stream of light and flew towards Yunzhong City.

...

Somewhere in a secret place in Yu Fantian, a woman who looked like Concubine Mingyue was sitting quietly on the training platform.

The woman's face turned pale and she muttered to herself.

"We failed again this time and lost an incarnation. It seems we have to be more cautious in the future."

After the woman finished speaking, she closed her eyes and practiced quietly.

...

Zhang Yuhe exerted all his strength on the Heavenly Flying Immortal Technique and flew quickly all the way.

Half an hour later, he turned into a stream of light and flew into Yunzhong City.

As soon as he entered the city, Zhang Yuhe took out his identity jade token and threw it into the air.

At the same time, the magic formula was pinched, and the jade tablet quickly grew in size, emitting a dazzling light.

[Guardian Envoy of Yunzhong Mansion], six golden characters hang in the air.

The writing shines in the sky and is clearly visible to everyone in the city.

Not only that, a blue light curtain slowly rose up from the outside of the city.

The light curtain completely enveloped the entire city.

It is the defensive formation of Yunzhong City.

Once the formation is activated, the inside and outside can be isolated.

At this time, Zhang Yuhe activated all the formations in the city.

Seeing this huge change, the monks in the city quickly took to the streets.

They looked at Zhang Yuhe suspended in the air, wondering what big thing had happened.

"Why did the defensive formation in the city suddenly activate? Is there a monster attacking the city?"

"I don't know, it's probably not the case. I haven't heard any movement before."

"Who is that person? He looks very young. Why can he fly in the city?"

"You are blind, that is the new guardian envoy."

...

Zhang Yuhe glanced across the city, then stood in the air and spoke loudly.

"It has now been found out that Fengxin Tower is the secret stronghold of the Demon God Sect in Yunzhong City. In addition, the He and Li families colluded with the Demon God Sect to commit unnatural acts."

"According to the Dao Sheng Sect's order, all those involved in this matter will be exterminated."

After saying that, the nine flying swords quickly fell towards the He family's mansion.

The flying swords quickly gathered together and formed a large formation, and boundless sword energy was generated instantly.

"Master Guard, we are unjustly accused. I am just a servant of the He family and I don't know about their collusion with the Demon God Sect."

"Sir, I don't know either. Please investigate."

...

Seeing the sword light shrouding them, countless He family monks kept crying and begging for mercy.

Zhang Yuhe ignored all this.

It's too late to beg for mercy now.

Whether these people know it or not, they enjoy the benefits brought by the He family, and naturally they must also bear the consequences brought by the He family.

Zhang Yuhe pressed the magic formula, and the sword light quickly swept across the He family's mansion.

The buildings in the mansion were instantly reduced to powder, and the He family monks in the mansion were even swept into ashes by the sword light.

Most of the monks from the He family who stayed in Yunzhong City were not very strong and could not even reach the Nascent Soul realm.

All the high-level monks of the He family have already gathered in Jingkong City.

Of course, he was already dead.

After wiping out the He family, Zhang Yuhe followed suit and wiped out the Li family as well.

As for the Fengxin Building, he just took a look and there was no one there.

Ignore it for now and let the other people in the town hall investigate slowly later.

Seeing Zhang Yuhe's thunderous methods, he wiped out the He and Li families who had dominated Yunzhong Mansion for tens of thousands of years in a flash.

There was deathly silence in the city, and all the monks were as silent as a cicada, not daring to say a word.

Zhang Yuhe glanced across the city.

He knew that there must be monks from the He and Li families in the city, and there were even more outside Yunzhong City.

After all, the He and Li families have been operating in Yunzhong Mansion for tens of thousands of years, except for Yunzhong City.

They also each controlled many outlying towns.

However, there is no need for him, the guardian envoy, to do these follow-up matters himself.

He is a guard envoy who is in charge of one side, not a policeman in the yamen.

There was no need to look for them one by one, and he didn't have the energy.

He only needs to say a word, and people will naturally rush to do these things.

Zhang Yuhe stood in the air and shouted loudly.

"Qian Weiguang, where is Sun Pengcheng?"

Two figures quickly ran to Zhang Yuhe's side and replied with a trembling tone.

"Qian Weiguang has met the Governor."

"Sun Pengcheng has met the guardian envoy."

Zhang Yuhe glanced at the two of them with cold eyes and said lightly.

"Fengxin Tower is the stronghold of the Demon God Sect. The He and Li families colluded with the Demon God Sect. Do you know about this?"

When they heard this, their legs softened and they almost knelt down.

They spoke quickly.

"Replying to the Governor, I am completely unaware of this."

They were really frightened when they saw Zhang Yuhe's thunderous tactics just now.

If this is given to them, they will be labeled as colluding with the Demon God Sect.

Then their family will soon follow in the footsteps of the He and Li families.

It will disappear in the long river of history in a few minutes.

...

Chapter 52 Yunzhong Mansion Inspector Wang Guofeng

Qian Weiguang and Sun Pengcheng were completely frightened by Zhang Yuhe's words.

They don't know what happened.

Zhang Yuhe suddenly sealed off the entire city, and then used thunderous means to directly wipe out the He and Li families.

It all happened so fast.

Until now, Qian Weiguang and Sun Pengcheng are still confused.

As for what Zhang Yuhe said, Fengxin Tower is the secret stronghold of the Demon God Sect? Are the He and Li families colluding with the Demon God Cult?

To be honest, Qian Weiguang and Sun Pengcheng didn't really believe that this was true.

It's hard to say about Fengxin Tower. After all, Fengxin Tower is based in Yunzhong Mansion, but after hundreds of years, they may not know much about it.

But Qian Weiguang and Sun Pengcheng still knew everything about the He and Li families.

Several of their factions have been together in Yunzhong Mansion for tens of thousands of years.
