### Section 511

These rays of light are manifested by Xuantian's delimiting talisman.

Not even a shake.

have to say.

Xuantian's delimiting talisman is indeed awesome enough.

Ignore all distractions.

Let Long Yuanguang and Ao Lie be like this in Liuhetian.

They can all walk on level ground.

Those terrifying Dao rhymes and the headache-inducing space cracks.

It didn't cause them any trouble at all.

Feel the power of Xuantian's delimiting talisman.

Long Yuanguang couldn't help feeling slightly happy.

He and Ao Lie immediately increased their speed and flew towards the depths of Liuhetian.

They did not know the specific location of the sealed land.

After all, countless years have passed since the great war.

Even the two of them are considered ancient Daluo Immortal Kings.

I have never experienced that war.

They did not know the specific location of the passage.

I can only find it slowly.

The area of Liuhetian is indeed quite large.

They need to hurry up.

After all, no matter how strong the Xuantian Boundary Talisman is.

It was just a talisman, and it had a time limit.

Once the continuous effect of the Xuantian Delimiter disappears.

Then they have to rely entirely on their own strength to continue searching in Liuhetian.

Long Yuanguang couldn't take out the second Xuantian delimiting talisman.

In fact.

Such an extremely precious fairy talisman.

With Long Yuanguang himself, there is absolutely no way to do it.

This time it was because they were cooperating with the Chaos Beasts in Helan Mountain.

He Lan Ruobei sent someone to send him two immortal talismans.

One attack and one defense.

The defensive talisman is this one, the Xuantian Boundary Delimiting Talisman.

As for the other attack talisman.

It may be needed when the space channel is opened later.

The duration of Xuantian's delimiting talisman is only half a quarter of an hour.

That is to say.

They have to find the sealing place of the space passage within half a quarter of an hour.

Long Yuanguang and Ao Lie flew quickly all the way, searching quickly all over Liuhetian.

Sudden.

A dazzling light rose into the sky in the distance.

See this situation.

Long Yuanguang couldn't help but be overjoyed.

He excitedly said to Ao Lie next to him.

"Brother Ao, over there."

"Let's go over and have a look."

The two quickly changed direction and flew towards the light in the distance.

After a while.

A super huge formation appeared in front of them.

Various runes flashed on the formation platform.

Even after countless years, these runes are still there, flowing slowly.

A dazzling beam of light rose from the center of the formation.

The beam of light exuded terrible pressure, blocking out the sun and soaring into the sky.

Long Yuanguang looked up into the sky.

He muttered to himself.

"The direction the light beam is pointing should be the space channel, right?"

"Just try and you will find out."

Ao Lie next to him nodded and responded lightly.

I saw him wave his right hand.

A black spear appeared in his hand.

Ao Lie stretched out his hand and pointed.

The spear turned into a long black dragon and rushed towards the formation in the distance.

Boom...

The long black dragon and the dazzling beam of light collided fiercely in an instant.

Long Yuanguang looked up into the sky.

As the light beam shook violently.

A black crack loomed in the void.

no doubt.

The place pointed by this dazzling light pillar is exactly where the space passage is.

It's just that the space channel is blocked by the light pillar.

In normal times, I really can't tell.

They want to open space channels.

We must destroy the formation in front of us.

Just let the light pillar above the array disappear.

Only then will that space channel be fully revealed.

Ao Lie took back his spear, turned to Long Yuanguang and asked.

"What date did you and Helan Ruobei agree on?"

It is not that easy to open this space channel.

The seal arranged by Tianxing Daozu is indeed somewhat mysterious.

Attacks need to be launched from both sides of the channel at the same time.

Only then can the space channel be completely opened.

If they were the only ones attacking here.

Even if the formation is completely destroyed.

It may not be possible to open this space channel.

According to the result of the discussion between Long Yuanguang and Helan Ruobei.

Contributed by Helan Ruobei.

They will be at the appointed time.

Both sides launched an attack together, and then completely opened the passage.

Long Yuanguang looked at the sky and said with a smile.

"It's now."

"According to the agreement I made with Venerable Helan."

"As long as we launch an attack here, Helan Mountain will be able to detect it immediately."

"Now at the other end of the passage, the Helan Mountain tribe must have assembled a large army, waiting for us to take action."

Speaking of which.

Long Yuanguang paused for a moment.

He looked back at Ao Lie, and then continued to speak.

"Your attack just now has shaken the passage seal."

"I think the people over at Helan Mountain must have noticed it."

Hear Long Yuanguang's words.

Ao Lie nodded slightly.

he asked again.

Section 512

"Then what should we do now? Continue to attack this sealing formation?"

"This formation set up by Tianxing Daozu is very extraordinary."

"I just tried it."

"Even if we both attack at the same time, it is estimated that it will be difficult to completely destroy this formation."

Relative to Ao Lie's worries.

Long Yuanguang didn't care at all.

If they can't open this seal by their own strength.

That doesn't matter either.

He also has a trump card.

That was the fifth-level immortal talisman sent by Helan Ruobei.

There are two fifth-level immortal talismans in total.

These two immortal talismans were both written by Xuantian Daozu.

One attack and one defense.

He has already used the defensive Xuantian delimiting talisman.

The effect is very good.

There is one attack talisman left.

Xuantian Daozu is extremely powerful, especially in the Tao of Talisman.

It is far beyond ordinary people's imagination.

Only in the later war.

Unfortunately, he fell into the hands of the Chaos Beast.

This is why Helan Ruobei was able to obtain the talisman of Xuantian Daozu.

Because in that battle, Xuantian Daozu died at the hands of the Chaos Beast in Helan Mountain.

Although the Taoist ancestor among the monks is powerful.

But the Chaos Beast relies on its numerical advantage.

in all previous wars.

They have never suffered a loss.

After the death of Xuantian Daozu.

The things on his body naturally fell into the hands of the Chaos Beast in Helan Mountain.

The monk's items are completely useless to the Chaos Beast.

But Daozu's stuff is unusual after all.

Those chaotic beasts are usually collected.

This time in order to open the passage and enter the South China Sea Immortal Realm.

Helan Ruobei sent someone to send two fifth-level immortal talismans to Long Yuanguang.

Long Yuanguang still didn't believe it.

After using the immortal talisman of Xuantian Daozu.

Will he be unable to do anything about this unguarded formation?

After all, this formation is just a dead thing.

It's not like Tianxing Taoist Ancestor is here to preside over it personally.

They are unreasonable and will not be able to open the channel.

Think of this.

Long Yuanguang responded lightly.

"Don't worry, let's wait for the reaction from the other side of the channel."

"As long as the Helan Mountain side discovers that we are attacking the passage seal."

"They'll attack immediately."

"When we arrive, we will attack from both sides together and completely open this space channel."

"Okay, then just wait."

Ao Lie nodded slightly.

...

Chapter 399 Helan Ruobei's expectations

Riftwind Valley is located deep in the Chaos Continent.

In a strict sense.

This is not the territory of the Helan Mountain tribe.

There was originally a fourth-level Chaos Beast tribe here.

It was only after I discovered a passage into the South China Sea Immortal Realm here.

Helan Mountain took over this place.

As for the tribes that were originally here, they naturally had no choice but to move to other places.

At this time, around the Rift Valley, there were densely packed figures of Chaos Beasts.

The dark chaos beast could not be seen to the side at a glance.

Helan Ruobei stood quietly on a tall mountain peak.

around it.

There are also several Chaos Beasts, which also exude a violent and terrifying aura.

These are also supreme level chaos beasts.

In order to be able to enter the South China Sea Immortal Domain.

Helan Ruobei mobilized four noble-level chaos beasts from the tribe.

This is already the limit of Helan Mountain's high-end combat power that can be assembled.

Although in the entire Helan Mountain tribe, there are more than twenty respect-level chaos beasts.

But their territory spans the vast area of Chaos Continent.

Every place is needed and guarded by Chaos Beasts.

In addition, the Sea of Origin also requires senior-level Chaos Beasts to stay behind.

in a short period of time.

The high-end combat power they can mobilize is really not that much.

Helan Ruobei stood quietly on the top of the mountain.

It looked towards the Rift Valley in the distance.

I saw a dazzling beam of light rising into the sky in the valley.

That's where the passage is.

It was here that they entered the South China Sea Immortal Realm.

It's just that the Tianxing Daozu showed his power later.

In addition, Helan Mountain happened to be in conflict with other Chaos Beast tribes.

They had no choice but to withdraw from the South China Sea Immortal Domain.

after this.

Tianxing Daozu arranged a powerful seal near the passage.

The seal passes through the passage.

From the Immortal Domain of the South China Sea, it shines all the way to the depths of the Chaos Continent.

have to say.

Tianxing Daozu's attainments in formations are indeed extremely terrifying.

Helan Ruobei once tried to crack it many times.

Eventually it was discovered.

On their own.

It will never be possible to open this space channel again.

Unless there is someone in the South China Sea Immortal Territory who will cooperate.

under normal circumstances.

This is of course impossible.

The South China Sea Fairyland is the territory of human monks.

Humans and Chaos Beasts are everlasting enemies.

And they invaded the South China Sea Immortal Territory.

It is to sacrifice all the monks there to the Supreme True God.

In this situation.

How could there be any human monks willing to cooperate with Helan Mountain?

Isn't this equivalent to letting human monks walk onto the altar and devote themselves to the Supreme True God?

Section 513

This is almost impossible.

Moreover, the South China Sea Immortal Realm is located behind the monks.

They also cannot send out Chaos Beasts to bypass the human fairy city.

Kill directly to the South China Sea Immortal Domain, and then open the space channel.

If the Helan Mountain tribe really had this ability.

Then what is the use of space channels?

Just kill him and that will be the end of it, right?

Why go to all that trouble?

This is almost a dead end.

The passage cannot be opened on the Chaos Continent.

As for the South China Sea Immortal Territory, it is impossible for anyone to cooperate.

That is to say.

After being sealed by the Heavenly Dao Ancestor.

This space passage is completely abandoned.

It can no longer function.

However, Helan Ruobei did not give up.

It's very patient.

Been waiting for the opportunity.

It knows.

The human heart is complex.

Maybe someone will cooperate with this seemingly impossible thing.

in the long years.

Helan Ruobei has been looking for opportunities.

It will release the bait whenever the opportunity arises.

No matter if he takes the bait or not.

Anyway, it won't lose anything by setting the bait.

really.

Hard work pays off.

Let it wait until Long Yuanguang.

hundreds of millions of years ago.

Helan Ruobei accidentally met Long Yuanguang and Ao Lie in Chaos Continent.

But it did not bring these two people directly to sacrifice.

And he let them go.

Just two Daluo Immortal Kings.

Even if you take it for sacrifice.

It was not of much help to Helan Ruobei.

He let Long Yuanguang and Ao Lie go and promised many benefits.

Especially Daluo Immortal King, the original thing that he dreams of.

Helan Ruobei promised to these two people, one piece at a time.

As long as these two people can cooperate to open the space channel in Liuhetian.

It can give the original thing.

Anyway, it's just empty talk.

Helan Ruobei opened his mouth and came.

Even if it regrets it, who can do anything to it?

Don't tell me yet.

Originally, he thought this was just a casual move.

I guess it won't have much effect.

After all, in the long history.

Helan Ruobei has already deployed many such idle chess pieces.

In the end, there was no news.

However, one hundred thousand years ago.

Long Yuanguang actually used the communication tool it gave to contact him.

This surprised Helan Ruobei.

To ensure the success of the plan.

It also sent someone to give Long Yuanguang two precious fifth-level immortal talismans.

To know.

Although the fifth-level immortal talisman is a monk's thing, it has no effect on the chaos beast.

But still very precious.

After all, this is an item left behind by Daozu.

to be honest.

The Helan Mountain Tribe is not particularly strong among the twelve major tribes in the Origin Sea.

In their long history, they have only killed Xuantian Daozu, the Daozu Emperor among the monks.

Therefore, although the immortal talismans left by Xuantian Daozu had no practical effect on them.

But it still has a lot of commemorative significance.

under normal circumstances.

It was naturally impossible for Helan Ruobei to give away such a thing easily.

But in order to be able to smoothly open the space channel and let them enter the South China Sea Immortal Domain.

It doesn't matter anymore.

As long as they, the Helan Mountain Tribe, can enter the South China Sea Immortal Territory.

All the monks in the entire Immortal Realm were sacrificed to the Supreme True God.

Then the strength of their Helan Mountain tribe will inevitably reach a higher level.

Don't say anything else.

With so many sacrifices in the entire Immortal Realm, at least the Helan Mountain Tribe can add a few more respected Chaos Beasts.

This is a rare opportunity in millions of years.

Naturally, Helan Ruobei would not let it go.

So, after contacting Long Yuanguang.

It immediately started preparing.

It first gave Long Yuanguang two precious immortal talismans.

Then slowly mobilize the power of the entire tribe.

The South China Sea Immortal Territory is vast, and the strength of the monks cannot be underestimated.

If you are not well prepared.

Then when they go there, they are not harvesting sacrifices, but giving away heads.

to this end.

Helan Ruobei mobilized a large number of chaos beasts.

Among them, there are four supreme-level chaos beasts.

This is a powerful force.

If it goes well and enters the South China Sea Immortal Realm.

Helan Ruobei believed it.

Even if Tianxing Daozu comes forward.

It may not be possible to stop it.

Anyway, they are not trying to occupy the territory of the South China Sea Immortal Domain.

After a wave of harvest, they will naturally leave.

He will not fight with the Heavenly Dao Ancestor in the South China Sea Immortal Domain for a long time.

There is only one Tianxing Daozu.

How many chaos beasts can he stop?

Wait until the chaos beasts in Helan Mountain spread throughout the South China Sea Immortal Territory.

Tianxing Daozu could only be caught blind.

Nothing can be done.

As the appointed day gets closer and closer.

Helan Ruobei looked towards the Rift Valley quietly.

Section 514

Sudden.

The pillar of light in the distant valley suddenly shook a few times.

A black crack in the void was revealed from the light pillar.

See this situation.

Helan Ruobei couldn't help but be overjoyed.

It muttered to itself.

"finally come."

...

Chapter 400 The frightened Long Yuanguang

When I saw the light pillar in the valley, it suddenly shook twice.

Helan Ruobei knew it.

Long Yuanguang and Ao Lie finally arrived at Liuhetian as promised.

It was precisely because they were on the opposite side that they attacked the seal set by Tianxing Daozu.

This light pillar soaring into the sky is shaking.

"Now let's see if this seal can be opened smoothly."

Think of this.

Helan Ruobei took a deep breath.

I saw it raise its hand and punch, quickly hitting the light beam in the valley.

Boom...

A loud noise quickly spread through the silent valley.

Smoke and dust rose from the valley.

The beam of light soaring into the sky shook violently again.

South China Sea Fairyland, Liuhetian.

Long Yuanguang and Ao Lie quietly looked at the formation in the distance.

Sudden.

The light pillar shrouding the formation shook violently.

See this situation.

Long Yuanguang knew it.

The Chaos Beast on the opposite side of Helan Mountain is also ready.

Think of this.

He turned back to Ao Lie and said.

"Brother Ao, let's get started. I hope we won't use the immortal talisman, and it's possible to open this seal."

The fifth-level immortal talisman is extremely precious.

This is a powerful weapon that can threaten Dao Ancestor.

If possible.

Of course Long Yuanguang didn't want to use it.

Keeping the immortal talisman on your body is equivalent to having one more super trump card.

Of course.

If it really doesn't work.

Then there is no other way.

You still have to use it.

to him.

Open the seal in front of you and lead the chaotic beasts from Helan Mountain into the South China Sea Immortal Realm.

That's the first priority.

This can not only solve the threat of Wanshan Immortal King.

And they still have a chance to obtain the original thing from Helan Ruobei.

As long as you can get the original thing.

Then in the long future, they will have one more chance to be promoted to Dao Ancestor.

Daozu is the ceiling of the immortal world.

Almost invincible.

Being promoted to Tao Ancestor is the ultimate dream of all immortal monks.

Long Yuanguang is naturally no exception.

He has been practicing Taoism for countless years.

He considers himself to be as talented as anyone else.

It's just that the opportunity is slightly worse.

In order to get a chance to be promoted to Dao Ancestor.

He is willing to pay any price.

As for saying.

The Chaos Beast of Helan Mountain entered the South China Sea Immortal Realm.

What will be the consequences?

Long Yuanguang no longer cared about this.

A dead Taoist friend is not a poor Taoist.

As long as he can get the benefits.

The life and death of others has nothing to do with him.

Even if they were other monks from the Divine Beast Sect, he didn't want to pay attention to them anymore.

To remain secretive.

Only he and Ao Lie knew about this operation.

They didn't inform anyone.

In fact, it was in Long Yuanguang's heart.

The Divine Beast Sect has been abandoned by him.

They had already planned it.

Wait until you get the original thing.

They went away to other places.

In addition, find another fairyland to practice.

Anyway, the fairy world is so big, with countless fairy realms.

Just change to a fairyland.

No one knows anymore what they did in the South China Sea Immortal Realm.

If some day in the future.

They were lucky enough to break through and become the Daozu Emperor.

Who dares to mention their past?

Long Yuanguang and Ao Lie looked at each other.

The two of them each sacrificed their immortal weapons and quickly blasted towards the sealing array in the distance.

On the other side of the passage.

Helan Ruobei kept pumping his fists.

Under simultaneous attack from both sides.

The dazzling light beam began to shake violently.

A dark space passage has mostly been exposed.

But Helan Ruobei knew.

This is not enough.

Half a space passage is the same as nothing.

Only when the seal is completely opened.

Only this space channel has value.

Helan Ruobei waved his fist rapidly, his expression extremely cold.

However, this beam of light manifested by the formation seems to have extremely strong vitality.

No matter how hard it bombarded, the beam of light never completely disappeared.

Helan Ruobei understood.

This is the opponent's attack ability, which is too weak.

The seal carefully arranged by Tianxing Daozu cannot be broken except by the power of Daozu level.

Although Long Yuanguang and Ao Lie are both top-notch Da Luo Immortal Kings.

Section 515

But no matter how powerful the Great Luo Immortal King is, there is still an unimaginable gap between him and Dao Ancestor.

It is precisely because of this.

Helan Ruobei only had the skills, so he asked someone to give Long Yuanguang two fifth-level immortal talismans.

It was precisely the hope that Long Yuanguang could use the immortal talisman to completely open the passage seal.

However, so far, the seal remains.

Although the sealing light pillar has mostly disappeared.

But this space channel is still not fully opened.

obviously.

Long Yuanguang did not use the attack talisman.

Helan Ruobei said to himself bitterly while waving his fist.

"Damn human scum."

Helan Ruobei knew Long Yuanguang's thoughts very well.

Worry about not keeping its promise.

I want to keep the immortal talisman to save my life.

Think of this.

Helan Ruobei was a little depressed.

Long Yuanguang is on the other side of the passage.

Before the seal is opened.

It can't do anything to the other party.

But it believes.

Sooner or later, Long Yuanguang will use the immortal talisman.

As long as he still wants the original thing.

You have to cooperate with the Helan Mountain tribe to open this damn seal.

Think of this.

Helan Ruobei's hand movements did not stop for a moment.

On the other side of the passage.

Long Yuanguang took back the immortal weapon.

Looking at the formation in the distance, he couldn't help but frown slightly.

After the previous attempt.

Even though he and Ao Lie had tried their best.

Still can't completely open this seal.

Although the sealed light pillar on the formation platform looks a little shaky.

But it has been stubbornly blocking the passage in the void.

See this situation.

Long Yuanguang had no choice but to take out a golden talisman again.

Look at the talisman in your hand.

He hesitated for a long time before sighing and saying.

"Pity."

He originally wanted to keep this immortal talisman to save his life in the future.

Now it seems that I can't keep it.

Unless the seal is opened, all his ideas will be empty talk.

Ao Lie next to him saw that Long Yuanguang was still hesitating.

He couldn't help but said anxiously.

"Brother Long, what are you waiting for?"

"The Immortal Talisman is just a dead thing. Once it is used, it is used up."

"Opening the passage seal is what we need to do most right now."

"Otherwise, where can we find the original thing with just the two of us?"

Helan Ruobei is their hope.

It is their hope to obtain the original thing.

It is their hope to be promoted to Dao Ancestor.

Although this hope is still somewhat slim, there is even a lot of uncertainty.

But even if there is only a slight possibility.

Do it at all costs.

They can even abandon the great Divine Beast Sect.

Why should you care, it's just a fairy charm.

As long as they can open the seal and bring in the chaotic beasts from Helan Mountain.

Then he got the original thing from Helan Ruobei.

To achieve this goal, they are willing to give up everything.

Long Yuanguang gritted his teeth.

All he saw was a flick of his fingers.

The immortal talisman turned into a golden light and shot towards the sealing formation in the distance.

Boom...

A loud noise spread.

The dazzling light rises in the sky of Liuhe,

The light shone in the sky, almost lighting up half of the South China Sea Fairyland.

Long Yuanguang looked towards the formation in the distance.

I saw that the formation in the distance had completely disappeared.

But what shocked them was.

An illusory figure slowly appeared at the original position of the array.

When I saw this figure.

Long Yuanguang couldn't help shouting in horror.

"Tianxing Daozu, why are you here?"

...

## Chapter 401 Run quickly

Seeing the shadow on the formation platform, Long Yuanguang was completely frightened.

He has met Tianxing Daozu many times.

I have also seen the terrifying power of Tianxing Daozu.

Now he and Ao Lie had just destroyed the seal.

They saw Tianxing Daozu himself appearing in front of them.

Is there anything more terrifying than this?

Long Yuanguang almost immediately wanted to run away.

However, his legs were trembling completely uncontrollably.

The whole person was immediately frightened and stunned.

He didn't even dare to move.

Just at this time.

Ao Lie beside him said in a deep voice.

"Brother Long, don't be nervous yet, this is not Tianxing Dao himself."

"It should be the manifestation of a ray of spiritual power he left here before?"

Hearing Ao Lie's words.

Only then did Long Yuanguang react.

He looked intently at the shadow in the distance.

It turns out that this is indeed the case.

Then he breathed a sigh of relief.

He was really frightened just now.

The reputation of Tianxing Taoist Ancestor is really too great.

An ordinary shadow almost scared him to death.

In fact, it is easy to distinguish between spiritual ghosts and real people.

You can see it if you pay a little attention.

However, the moment he saw the shadow, his mind went blank.

Section 516

Didn't pay attention to see.

Ao Lie is more calm.

After Ao Lie's reminder.

Only then did Long Yuanguang feel relieved.

despite this.

He was still a little worried and looked at the black hole in the void.

At this time, all the sealing formations have been opened by them.

A huge void passage was completely displayed in front of the two of them.

But at this time, the passage was still filled with all kinds of powerful chaotic auras.

That is to say.

The Chaos Beasts on the opposite side of Helan Mountain can't get through yet.

Still have to wait for a while.

Wait until the chaotic atmosphere in the passage gradually calms down.

This space channel is truly stable.

before it can be used normally.

Only the Chaos Beast on the opposite side can survive.

The problem is that the movement just now was too loud.

Long Yuanguang was worried.

Will someone find something unusual here soon?

If only the monks from the South China Sea Immortal Domain discovered something unusual.

Then he wasn't too worried.

Even if the Immortal King of Wanshan comes, Long Yuanguang will not be afraid.

After all, he is with Ao Lie now.

No matter how powerful Wanshan Immortal King is, he can't do anything to the two of them.

The key is Tianxing Daozu, will he know about the changes here?

Long Yuanguang was mainly worried about this.

Looking at the spiritual shadow in the distance.

He felt a little panicked.

Although this spiritual shadow has no strength at all.

But why did Tianxing Daozu place a spiritual shadow here?

Is it to monitor the sealing formation here?

That is to say.

Their action of opening the seal just now was discovered by Tianxing Daozu?

The more Long Yuanguang thought about it, the more frightened he became.

But the Chaos Beast on the other side of the passage has not come over yet.

Helan Ruobei has not yet fulfilled his previous promise.

They haven't gotten the original thing yet.

Just leave now.

Long Yuanguang was really unwilling.

"No, I'm still waiting. Once I get the original thing, I will leave the South China Sea Immortal Territory immediately."

Long Yuanguang was really unwilling and ran away directly.

He gave up a lot for this operation.

Even the entire Divine Beast Sect was abandoned by him.

If you still can't get it, the original thing.

All his previous efforts were in vain.

Just as Long Yuanguang was still considering whether to run away immediately.

The shadow of Tian Xingdao suddenly turned to look at them.

and shouted angrily.

"You are so brave, how dare you collude with the Chaos Beasts to bring disaster to the Immortal Realm."

"Those who collude with the Chaos Beasts will be exterminated."

The phantom of the Heavenly Dao Ancestor appeared after he finished speaking.

Suddenly he stretched out his right hand and pointed one finger at Long Yuanguang and Ao Lie.

I saw the phantom suddenly speaking and raising his hand to attack.

Long Yuanguang and Ao Lie were frightened.

Although the shadow of Tianxing Daozu does not seem to have any strength.

But Daozu's magical powers were completely unimaginable to them.

What if they saw it wrong.

Seeing the phantom, he raised his hand and pointed a finger.

Long Yuanguang immediately took out a shield and blocked it in front of him.

However, it took a while.

He didn't feel any discomfort.

Long Yuanguang looked into the distance.

Only the phantom of Tianxing Daozu has disappeared.

Seeing this situation, he couldn't help but let out a long sigh of relief.

"It's really scary. It turns out it's just a trick."

In his opinion.

This phantom does not have any strength.

Just after he raised his hand and clicked twice, it completely dissipated.

It had shocked him just now.

Now it seems that he may have thought too much.

Just at this time.

Ao Lie, who was next to him, suddenly shouted in horror.

"I was planted with a soul tracking mark by Tianxing Daozu."

Hear Ao Lie shouting.

Long Yuanguang immediately calmed down and checked the depths of his soul sea.

really.

Deep in his soul, at some point, a strange black mark suddenly appeared.

As the Great Luo Immortal King, Long Yuanguang certainly knew what this black mark was for.

Although the phantom just now did not have any strength.

It cannot bring any substantial harm to them.

But Tianxing Daozu is obviously not an ordinary person.

It actually passed through a spiritual shadow.

It can plant tracking marks deep in their souls.

Long Yuanguang tried to use secret methods to get rid of the mark deep in the soul sea.

However, after using a variety of secret methods continuously.

That black mark is still firmly nailed into the depths of the soul sea.

It's like dog skin plaster, it can't be removed at all.

See this situation.

Long Yuanguang's face was gloomy.

Imprinted with the soul by Tianxing Taoist Ancestor.

This means.

No matter where they run.

They will all be found by Tianxing Daozu.

more importantly.

Tianxing Daozu must have discovered the anomaly here.

Maybe at this time.

Tianxing Daozu is coming quickly.

Maybe it won't be long.

They will be blocked here by Tianxing Daozu.

Although the Heavenly Star Immortal Realm is an endless distance away from Liuhetian.

Section 517

Even Emperor Dao Ancestor wants to fly here from the Tianxing Immortal Domain.

I'm afraid it will take hundreds of years.

But Tianxing Daozu does not need to fly by himself.

Because there are teleportation arrays everywhere.

He only needs to teleport from Tianxing City to Ten Thousand Immortals City.

Then just teleport from Wanxian City to Wanshan Sea Area.

As for the remaining distance, for Emperor Daozu.

It doesn't take much time.

Think of this.

Long Yuanguang immediately shouted loudly.

"Brother Ao, let's leave quickly, we can't stay here any longer."

"Leave now? We haven't gotten the original thing yet."

Although Ao Lie also knew that their situation was very dangerous now.

It is very likely that he will be blocked by Tianxing Daozu.

Once the Heavenly Star Dao Ancestor appeared in front of them.

They had absolutely no chance of survival.

Tianxing Daozu can turn them into scum with just one slap.

And he certainly won't show mercy.

The collusion of monks with Chaos Beasts is taboo in the entire fairy world.

Anyone who touches this point will have no chance of survival.

Unless no one notices it.

Yet it's obvious.

Their actions have been discovered.

And he was still discovered by Tianxing Daozu.

Ao Lie is naturally very clear about the degree of danger involved.

But he was still a little unwilling.

This time is their best chance to get the original thing.

If you missed this time.

Could it be that they could go to Helan Ruobei again in the future?

Seeing that Ao Lie was still hesitating, Long Yuanguang shouted anxiously.

"Brother Ao, what are you still thinking about?"

"If you can't get the original thing this time, you will have a chance next time."

"If we are blocked by Tianxing Daozu, we will be completely dead."

"Okay, let's quickly find the nearest teleportation array and leave the South China Sea Fairyland."

Hear Long Yuanguang's urging.

Ao Lie didn't think much more about it.

It is indeed more important to save one's life now.

If you are still confused.

Maybe Tianxing Taoist Ancestor has already arrived.

...

Chapter 402 Dao Ancestor arrives in person

Long Yuanguang and Ao Lie did not hesitate any longer.

They quickly rushed outside.

Although they now no longer have the Xuantian Boundary Delimiting Immortal Talisman.

Liuhetian is densely covered with void cracks and incomprehensible residual Taoist rhyme.

But here comes the time.

They obviously couldn't care less about this.

Compared to Tianxing Daozu himself.

These dangers in Liuhetian are nothing at all.

Long Yuanguang and Ao Lie each carried a defensive fairy weapon.

He quickly rushed outside.

In fact, they have another option.

That is to continue near the passage and wait for the chaos beast from Helan Mountain to come over.

As long as Helan Ruobei brings a large number of chaos beasts into the South China Sea Immortal Domain.

Then Tianxing Daozu would probably not care about them.

But neither Long Yuanguang nor Ao Lie dared to gamble.

Just in case they bet wrong.

Tianxing Taoist Ancestor had to rush over before the Chaos Beasts from Helan Mountain.

Then how can they survive?

Long Yuanguang didn't dare to gamble.

Although the original thing has infinite temptation for him.

But no matter how great the temptation is, it is not as important as your own life.

As for them, they were imprinted with souls.

Will he be found by Tianxing Daozu again in the future?

Long Yuanguang and Ao Lie were not very worried about this issue.

In fact.

before this operation.

They had already thought of a way out.

Regardless of whether he can or not, he can get the original thing from Helan Ruobei.

After the action is over.

They will leave the South China Sea Immortal Territory and go to the distant Black Dragon Immortal Territory.

The Black Dragon Fairyland is the territory of the demon clan, and the Black Dragon Dao Ancestor is in charge.

Ao Lie is a direct descendant of the Black Dragon Ancestor.

As long as they can escape to the Black Dragon Immortal Realm.

Presumably Tianxing Taoist Ancestor was also helpless.

The harmony between the human race and the demon race is not as harmonious as imagined.

Just figured this out.

Long Yuanguang and Ao Lie quickly rushed outside Liuhetian without any hesitation.

They set up a temporary teleportation array in advance on the desert island outside.

As long as you run over there, you can teleport away from the South China Sea Immortal Realm.

Then convert the teleportation array a few more times.

You can temporarily escape from the pursuit of Tianxing Daozu.

...

Chaos Continent, Tianxing City.

In a quiet manor.

Tianxing Daozu danced wildly with ink.

A landscape painting quickly appeared on the paper.

The landscape in the painting seems to have come alive.

The trees are growing and the river is flowing slowly.

A gentle breeze blew.

The trees in the painting sway gently.

As graceful as real.

"The artistic conception is still a bit off."

Although the landscape in the painting is no different from reality.

But Tianxing Daozu was still a little dissatisfied.

What's fake is fake.

Nothing is true.

He uses formation to enter painting and painting to enter Tao.

But the things drawn cannot be used as real objects.

Section 518

Think of this.

Tianxing Daozu couldn't help but murmured to himself.

"Maybe only when you reach the realm of the Supreme True God can you truly create all things."

There is a legend that has been circulating in the fairy world.

Chaos beasts are not a naturally occurring creature.

Rather, it was created by the Supreme True God.

Chaos beasts capture monks for sacrifice, which is actually accumulating power for the Supreme True God.

Perhaps this is a cultivation method of the Supreme True God.

Perhaps the Supreme True God had already been seriously injured.

The Chaos Beast Sacrifice was a way for him to recover from his injuries.

Tianxing Daozu has never seen the Supreme True God.

In fact.

No one in the immortal world has ever seen the Supreme True God.

But he knows.

The Supreme God does exist.

Because from the depths of the sea of origin, a powerful aura that far exceeds that of Tao Ancestor will occasionally be emitted.

This is a realm above Tao Ancestor.

Tiandao Daozu put down the wolf hair in his hand and couldn't help but feel a little yearning in his heart.

In the eyes of ordinary people.

The power of Dao Ancestor is invincible in the immortal world.

There should be no more pursuits.

But for those Daozu emperors.

This is just the beginning.

They have just come into contact with the power of the avenue.

Or.

They had just half stepped onto the threshold of the avenue.

However, they don't know how to continue to improve the power of the avenue.

In the fairy world.

There is no way forward for them.

The pinnacle of the immortal world only reaches the realm of Tao Ancestor.

The realm of Tao Ancestor is the ceiling of the fairy world.

As for how to practice further.

Is there a higher world?

They were also a little unclear.

Maybe the only way is in the sea of origin.

It is in the hands of the Supreme God.

They can only kill the Supreme God.

Only then can it be possible to find the path of cultivation above the Tao Ancestor.

Think of this.

Tianxing Daozu couldn't help but shake his head.

They can't even deal with the Chaos Beast.

Not to mention the Supreme True God.

The Heavenly Dao Ancestor stood quietly in the manor.

Suddenly his expression changed.

I saw him wave his right hand.

A clear picture slowly appeared in front of me.

in the picture.

Long Yuanguang took out the immortal talisman and completely destroyed the sealing array.

See this situation.

Tianxing Daozu couldn't help but said angrily.

"What a courage."

He immediately flashed his figure and disappeared from the manor in an instant.

After continuous transformation of the teleportation array.

Tianxing Daozu soon arrived at Wanshan Sea Area.

He stood in the teleportation hall of Wanshanfang City.

A terrifying aura spread over the entire sea area.

Almost all the monks in the city, regardless of their level of cultivation, were pressed to the ground.

The terrifying consciousness of Tianxing Daozu swept across the entire world in an instant.

He quickly locked onto the traces of Long Yuanguang and the two of them.

"snort."

Tianxing Daozu couldn't help but snorted coldly.

There is a tracking mark on it.

Even if these two people fled to the ends of the earth.

He can catch up too.

As for the space channel.

Tianxing Daozu ignored it for the time being.

Because he has sensed it.

Five extremely powerful auras have appeared over there.

It should be a noble-level Chaos Beast that has passed through the space passage and entered the South China Sea Immortal Realm.

Even if he rushes over now.

It is also impossible to close the space channel again in a short period of time.

Chaos beasts' invasion of the South China Sea Immortal Territory is already inevitable.

Compared to Chaos Beast.

Those two traitors made Tianxing Daozu hate him even more.

"First deal with these two scumbags, and then consider the matter of the Chaos Beast."

Think of this.

Tianxing Daozu waved his right hand.

Three giant cauldrons holding up the sky appeared in a flash, and quickly blasted out a huge vortex in the void.

Tianxing Daozu took one step forward.

He soon disappeared from Wanshanfang City.

After Tianxing Daozu disappeared.

The monks in the market slowly stood up.

Looking at the vortex in the sky that is slowly closing.

Everyone was shocked and confused.

What kind of power is this.

Only then can a channel be created directly in the void.

Several Taiyi Immortals from the Wanxian Sect who were in charge of the city quickly rose into the sky.

Looking at the vortex in the void, they couldn't help but look at each other.

Although they have never met Tianxing Daozu.

But I remembered that terrifying divine power just now.

They vaguely guessed that it was Emperor Daozu who came in person just now.

Otherwise.

How could it have such terrifying power?

It is absolutely impossible for even the top Da Luo Immortal King to be so strong.

As for which Taoist ancestor suddenly came to Wanshan Sea Area, they were a little unsure.

In the entire South China Sea Fairyland.

There are really not many people who have met Tianxing Daozu.

Even Daluo Immortal King.

Not everyone has seen Tianxing Daozu.

None of these people in Fang City have ever seen Tianxing Daozu.

Section 519

They had not even seen the portrait of Tianxing Daozu.

At this moment.

A dazzling light rose from the teleportation array again.

Wanshan Immortal King walked out of the teleportation hall.

He had just received a message.

It was suspected that Daozu had appeared in Wanshan Market.

Wanshan Immortal King did not dare to neglect it.

He immediately stopped practicing and teleported from Wanxian City in Chaos Continent.

...

Chapter 403 The Death of Long Yuanguang

Seeing the arrival of Wanshan Immortal King.

Several Taiyi Immortals sitting in the market finally breathed a sigh of relief.

They quickly stepped forward and shouted respectfully in unison.

"Greetings, Sect Master."

Wanshan Immortal King nodded.

He looked up and looked into the distance.

At this time, the vortex black hole in the void had completely healed.

But the scene still retained strong spatial fluctuations.

Wanshan Immortal King turned around and asked them.

"Tell me, what happened? Did the Great Daoist Emperor come?"

The Taiyi Immortal who led the Wanxian Market was named Lu Yuanfei.

He sorted out his thoughts and then spoke slowly.

"Report to the Sect Master."

"Just now, a senior with great power suddenly teleported to the market."

"But the senior did not stay, as if he was looking for something or someone."

"After arriving at the market, the senior used three giant tripods to blast a passage in the void, and then disappeared."

When he said this.

Lu Yuanfei's face showed awe.

This was the first time he saw the power of the Daoist Ancestor.

"Wait, three giant tripods?"

Hearing this, the Wanshan Immortal King hurriedly asked Lu Yuanfei.

"That's right, three giant tripods covered the sky and the sun, we couldn't be wrong."

Several Taiyi Immortals next to him also echoed.

"That senior is indeed, using three giant tripods that can reach the sky, and his power is extremely terrifying."

Wanshan Immortal King stood quietly in the void, muttering to himself.

"Could it be Tianxing Daozu?"

"How could Tianxing Daozu suddenly descend to the South Sea Immortal Realm?"

Compared to those old-fashioned Immortal Kings.

Wanshan Immortal King's time of cultivation is not particularly long.

He has not really seen many Daozu Great Emperors of the three races of humans, demons and monsters.

But he has seen Tianxing Daozu several times.

Not only that.

He has also seen Tianxing Daozu take action.

A long time ago, a war broke out in the Chaos Continent.

In that war.

Wanshan Immortal King once saw Tianxing Daozu use three giant tripods to form a large formation.

It overwhelmed the Venerable Chaos Beast, and its power was extremely terrifying.

Wanshan Immortal King thought.

There are not too many Daozu Great Emperors in the Immortal Realm.

The three races of humans, demons and monsters combined will not exceed fifty.

There shouldn't be other Daozu who also use three giant tripods.

But why did Tianxing Daozu suddenly descend on the South Sea Fairyland?

Did something big happen in the South Sea Fairyland?

Thinking of this.

Wanshan Immortal King immediately asked Lu Yuanfei.

"Has anything special happened in the South Sea Fairyland recently?"

"No, the South Sea Fairyland has always been very peaceful."

Lu Yuanfei answered without thinking.

But soon, he remembered another thing.

He said with some uncertainty.

"Master, if there is something special."

"Not long ago, there was a loud noise from the direction of Liuhetian, and there was also a dazzling light flashing from the direction of Liuhetian."

"The light was extremely strong, almost illuminating half of the South China Sea Fairyland."

"But I think this shouldn't be a big deal, right?"

"In Liuhetian, the Dao rhyme is chaotic, and the Dao rhyme often shines."

"It's just that today, the explosion was a little stronger."

After listening to Lu Yuanfei's narration, Wanshan Immortal King was startled.

He muttered to himself.

"Liuhetian..."

He was not as optimistic as Lu Yuanfei.

Something that could make Tianxing Daozu take action personally.

It must not be simple.

Combined with the strange phenomenon that flashed from the direction of Liuhetian before.

Wanshan Immortal King concluded.

I'm afraid there was a big problem in Liuhetian.

"Could it be that the space channel has been reopened?"

Thinking of this,

Immortal King Wanshan immediately said to Lu Yuanfei in a hurry.

"Immediately pass the order and let all the disciples who are out return to the sect."

"Also, notify the elders of the sect to immediately activate the guard formation and be on full alert."

Seeing Immortal King Wanshan so nervous.

Lu Yuanfei couldn't help but be a little surprised.

He asked Immortal King Wanshan with some confusion.

"Master, what big thing happened?"

Immortal King Wanshan looked up at the sky.

He responded lightly.

"I hope I guessed wrong."

"Immediately follow my words and pass the order to all disciples of the sect."

After saying this.

Immortal King Wanshan quickly took off and flew towards Liuhetian.

He wanted to go there to confirm.

Is there really a problem?

If the space channel is reopened.

Then for the entire Nanhai Immortal Domain.

This will be a terrible disaster.

Although the Wanshan Immortal King had not experienced the great war long ago,

But according to the records in the classics.

Due to the invasion of the Chaos Beasts of the Helan Mountain Tribe.

The South Sea Immortal Realm at that time was almost turned into a dead land.

Section 520

Basically all the major forces that once dominated the Immortal Realm have lost their inheritance.

The major forces in the South China Sea Immortal Territory now include their three super powers.

It was only after that war that they gradually emerged and developed.

That is to say.

In that war that year.

Almost all the local monks in the entire South China Sea Immortal Domain may be dead.

The monks in the South China Sea Immortal Realm may have migrated and developed from other Immortal Realms.

If the space channel of Liuhetian is really reopened.

Then the entire South China Sea Immortal Territory will surely face a disaster.

Moreover, their Ten Thousand Immortals Sect is still the first to bear the brunt.

Who allowed that space channel.

It's in the Wanshan Immortal Realm.

Think of this.

Wanshan Immortal King mobilized his body with all his strength and flew towards Liuhetian at extremely high speed.

He was really worried.

Must go and check it out.

Long Yuanguang and Ao Lie rushed out of Liuhetian and flew into the distance quickly.

They set up a temporary teleportation array on the desert island outside in advance.

Just get to that desert island.

Then you no longer have to worry about being targeted by Tianxing Daozu.

At least for a long time, they will be safe.

After all, he followed the Chaos Beast in Helan Mountain and entered the South China Sea Immortal Realm.

Presumably Tianxing Taoist Ancestor has no intention of tracking them anymore.

Long Yuanguang was thinking silently while flying quickly.

Just at this time.

In the distant sky, a huge vortex suddenly appeared out of thin air.

A huge cauldron that held up the sky quickly flew out from the vortex.

"No, the Heavenly Dao Ancestor has already arrived."

Seeing the giant cauldron crossing the sky, Long Yuan couldn't help but exclaimed loudly.

However.

Not waiting for his reaction.

The giant cauldron holding the sky appeared in front of him instantly.

The giant cauldron carries a terrifying pressure.

He was held in place, completely unable to move.

Long Yuanguang looked at the sky in horror.

At this time, his heart was filled with endless regret.

If he had known this, why would he have contacted the Chaos Beast.

I thought he had practiced Taoism for countless years, but in the end it was all in vain.

Unfortunately, there is no medicine for regret in this world.

As the giant cauldron pressed down quickly.

Long Yuanguang was instantly crushed into a bloody mist.

Long Yuanguang, the leader of the Divine Beast Sect, has been one of the three major superpowers in the South China Sea Immortal Realm for countless years.

Then he fell under the giant cauldron of Tianxing Daozu.

...

## Chapter 404 Black Dragon Taoist

Before the ancestors of Tianxing Dao arrived, a giant cauldron holding up the sky had already killed Long Yuanguang.

The majestic Daluo Immortal King was completely vulnerable in front of Dao Ancestor.

There wasn't even a chance to escape.

Emperor Daozu serves as the ceiling of the immortal world.

Strength is an essential leap, which is completely different.

Ao Lie is flying quickly.

Seeing Long Yuanguang next to him, he died inexplicably.

He couldn't help being frightened.

It really depends on strength.

He is indeed stronger than Long Yuanguang.

But it's also very powerful.

Facing the sudden appearance of the giant cauldron, Long Yuanguang had no power to resist.

Naturally so does he.

Ao Lie knew it very well.

Rely on his own strength.

Absolutely unable to receive any attack from Tianxing Daozu.

not to mention.

The Great Heavenly Cauldron of Tianxing Daozu has appeared, but will he be far behind?

Almost at the moment Long Yuanguang fell.

The giant cauldron quickly changed direction and pressed towards Ao Lie.

See this situation.

Ao Lie knows.

If no further measures are taken.

He will soon follow in Long Yuanguang's footsteps.

Think of this.

Ao Lie quickly took out a pitch-black scale.

The scales exuded a violent aura that quickly spread around.

He muttered to himself.

"I hope the Black Dragon Ancestor can save my life."

Ao Lie gently threw out the black scales in his hand.

The scales faced the giant cauldron and collided fiercely.

Boom...

The giant cauldron flew away upside down.

The black scales turned into dots of light, quickly forming a huge black dragon shadow in the sky.

The black dragon covers the sky and stretches across the endless sky.

Just at this time.

The Heavenly Star Dao Ancestor floated out of the vortex.

He looked up at the phantom of the black dragon in the distance, as if he had no intention of continuing.

All I saw was a move with his right hand.

The giant cauldron flew back quickly.

At the same time, there were two giant cauldrons beside him to protect him.

Three giant cauldrons holding up the sky surround the Heavenly Star Dao Ancestor and suppress the endless void.

Its terrifying power even spread to the distant Wanxianfang City.

Ao Lie stood far away, not daring to move at all.

He looked up at the black dragon silhouette in the sky.

He only hoped that this Dao, the incarnation of the Black Dragon Dao Ancestor, could save his life.

Nobody knows.

As a direct descendant of the Black Dragon Dao Ancestor, Ao Lie was actually highly regarded.

But for some reasons, he had to leave the Black Dragon Immortal Realm.

Come to the South China Sea Fairyland to develop.

before leaving.

The Black Dragon Daozu once gave him a scale.

and told him.

At critical times.
