Section 531

After doing all this.

Zhang Yuhe soon arrived at the teleportation hall.

At this time, Lu Yunfei was leading five hundred Golden Immortal elders and thousands of True Immortal disciples.

Wait in the teleportation hall.

As for the remaining disciples, they stayed with Yu Liwei to guard the fairy city.

Zhang Yuhe waved his right hand.

"Set off."

With a flash of dazzling light.

They soon returned to Ji'anfang City.

Zhang Yuhe sacrificed the fairy ship Galaxy.

Taking everyone with him, he turned into a stream of light and quickly flew towards the direction of the sect.

After returning to the sect.

Zhang Yuhe learned more latest news from Lian Zhengyu.

Several sea areas near the Wanshan Sea Area have been attacked by Chaos Beasts.

Among them, Biyun Sect and Hongyue Sect were directly attacked by Chaos Beasts.

The remaining disciples of these two major forces were almost completely wiped out.

No one could escape.

Fortunately, they were prepared in advance.

Those disciples with weak cultivation were teleported to Chaos Continent in advance.

Just the main forces within those sects.

Including Taiyi Immortal Lord and most of the Golden Immortal elders, they were all captured by the Chaos Beasts in Helan Mountain.

foreseeable.

These two major sects are finished.

Although they still have a large number of remaining disciples.

Moreover, in the Chaos Continent, there is also a monarch-level fairy city.

But there is no core strength sitting there.

These two sects are destined to decline soon.

Due to the invasion of chaos beasts in Helan Mountain.

The distribution of forces in the South China Sea Immortal Territory will inevitably be reshuffled.

But these have nothing to do with Zhang Yuhe.

He had never thought about letting Dao Sheng Sect expand outward.

Because it's completely unnecessary.

It is enough that the Daosheng Sect occupies the Ji'an sea area.

After Zhang Yuhe returned to the sect.

The entire Dao Sheng Sect quickly took action.

Under the leadership of Elder Jinxian.

A large number of disciples went to various places in the Ji'an sea area.

Zhang Yuhe had no hope of letting others deal with the chaotic beasts in Helan Mountain.

Because this is simply not realistic.

According to the news from Wanxian Sect.

Among the chaotic beasts that invaded Helan Mountain, the weakest were all four-star or above.

His strength is completely comparable to that of a Golden Immortal monk.

the most important is.

There are many Chaos Beasts.

Relying on the elders and disciples of Dao Sheng Sect is almost the same as giving for free.

Zhang Yuhe asked the elders and disciples to go to various places in the Ji'an sea area.

Mainly to serve as a warning.

Once traces of the Chaos Beast are discovered, it is best to respond promptly.

They need to put the cordon far enough away.

In this case.

Only Zhang Yuhe can provide support to various places according to the specific situation.

...

Chapter 411 Take the initiative

Time passed slowly.

Chaos beasts swept everywhere.

Wherever it passes, not a blade of grass grows.

As long as it is a person with cultivation.

Even the weakest Qi Refining Cultivator and the Chaos Beast of Helan Mountain will not be spared.

The monks are like cattle and sheep, being captured and harvested by the chaos beasts.

Everywhere in the sea, chaos beasts invaded.

The great forces in each sea area are completely unable to stop the momentum of the Chaos Beast.

Those big forces that had existed for countless years were quickly destroyed one by one.

The entire South China Sea Fairyland seemed to be in doom.

Even the super power, Chaotian Palace.

It was also attacked by the Chaos Beasts of Helan Mountain.

But it is different from Wanxianmen.

Chaotian Immortal King does not have the courage of Wanshan Immortal King.

The Chaos Beast in Helan Mountain has not yet reached Chaotian Sea Area.

He evacuated all the disciples within the sect to the Chaos Continent.

As for the ordinary monks in the Chaotian Sea, he was powerless.

There are countless monks in the entire sea area.

Even if the teleportation array is running continuously.

It is impossible to teleport all the monks away.

not to mention.

The fairy city in Chaos Continent cannot accommodate so many people.

The great forces in various places abandoned their old nests that they had occupied for countless years.

They moved to the Chaos Continent one after another to avoid the edge of the Chaos Beast.

Except for Wanxianmen.

The other major forces hardly have any courage to face the chaos beasts in Helan Mountain.

It is different from other forces.

Although the sect's headquarters of Wanxian Sect was attacked by the Chaos Beast immediately.

But Wanxianmen still did not retreat.

Under the leadership of Wanshan Immortal King.

With a Xuan-level immortal ship, they have been in various parts of the Wanshan Sea.

Attack the scattered Chaos Beasts.

Don't tell me yet.

The effect is very good.

Because there is no drag from the sect's residence.

Wanshan Immortal King can control the immortal ship and attack freely.

The Chaos Beasts in Helan Mountain cannot stay together forever.

They want to disperse to various places to capture those monks who are scattered.

The situation in Wanshan Sea Area changed from offensive to defensive in an instant.

Transform into a Chaos Beast and defend everywhere.

But the Immortal King of Wanshan attacked everywhere.

I have a Xuan-level immortal ship in hand.

Coupled with the tyrannical and terrifying strength of the Wanshan Immortal King.

The Chaos Beasts in Helan Mountain were completely helpless against him.

Unless the supreme Chaos Beast takes action.

Otherwise.

Section 532

The Immortal King of Wanshan is unstoppable.

Groups of Chaos Beasts were killed by the Immortal King Wanshan and his men.

They even rescued many monks who were captured by Chaos Beasts.

Unfortunately.

There are too many chaos beasts in Helan Mountain.

The brave attack of Wanshan Immortal King did not have much impact on the entire situation.

A huge number of Chaos Beasts are still advancing steadily towards various sea areas.

A large number of monks were captured by Chaos Beasts.

Then, they were continuously transported to the Chaos Continent through the space channels.

As news from various places continued to reach Zhang Yuhe's ears.

He was also a little unable to sit still.

The support led by Immortal King Liuyue has not moved yet.

Zhang Yuhe once worked with some Taiyi Immortal Lords from other forces.

Communicated.

According to them.

It will take at least several years to wait for the support of Immortal King Liuyue.

This is not only because the various fairy realms are far apart.

Those supporting forces, even with the help of the teleportation array.

It also takes a long time to reach the South China Sea Immortal Domain.

more importantly.

It is impossible for Immortal King Liuyue to forcefully mobilize the power of various immortal realms.

It still requires careful communication and coordination.

After all, for other immortal realms.

The life and death of the South China Sea Immortal Domain has absolutely nothing to do with them.

Why do people fight for the South China Sea Immortal Territory?

Such a useless thing.

No one will do it.

Immortal King Liuyue persuaded all the immortal regions, and then concentrated on the South China Sea Immortal Region.

This all takes a long time.

Zhang Yuhe felt that he could not wait any longer.

If we really want to wait until the Chaos Beast reaches the Ji'an sea area.

He may not be able to stop it.

There are too many chaos beasts entering the South China Sea Immortal Realm.

They are overwhelming and countless.

Even if he unfolds his sword formation, he may not be able to protect the sect's safety.

more importantly.

Zhang Yuhe felt that such a passive defense did not seem to be a good idea.

Immortal King Wanshan's actions of attacking everywhere gave him new ideas.

Instead of just waiting for the Chaos Beast to come to your door.

He might as well attack in advance.

Keep the invading chaos beasts out of the Ji'an sea area.

There's just a problem here.

After such a long period of investigation.

The Dao Sheng Sect still hasn't found out.

From which direction will the Chaos Beast invade the Ji'an sea area?

This gave Zhang Yuhe a headache.

Even if he wants to intercept early.

There has to be a direction, right?

"No matter, take advantage of the fact that Ji'an sea area is still safe now."

"I'll go to other places first to eliminate the Chaos Beasts."

Zhang Yuhe made a decision silently.

No matter which direction the chaotic beasts from Helan Mountain will invade the Ji'an sea area.

As long as he kills enough Chaos Beasts, he can naturally reduce the pressure in the future.

As for where to go to eliminate the Chaos Beasts.

That would be too simple.

Nearly half of the entire South China Sea Immortal Territory has fallen.

If he teleports to the nearby sea area, he will definitely encounter a large group of Chaos Beasts.

Moreover.

He can also use the Intelligence Hall to get intelligence support from major forces in various sea areas in the future.

Grasp the movements of some Chaos Beasts, and then intercept and eliminate them.

Think of this.

Zhang Yuhe immediately stood up and found Lu Yunfei.

After the two of them sat down in the small pavilion.

He said to Lu Yunfei.

"Palace Master Lu, it's not a problem for us to sit and guard the sect like this."

"I plan to take the initiative and go out to eliminate the Chaos Beasts."

"The defense within the sect will be left to you for the time being."

Hearing Zhang Yuhe's words.

Lu Yunfei couldn't help but be stunned.

despite this.

He didn't say anything.

In fact, everyone understands it.

If you wait for a large group of Chaos Beasts to invade the Ji'an sea area.

The Tao Sheng Sect's mountain gate station may not be able to be defended.

Even the powerful Ten Thousand Immortals and Chaotian Palace were attacked by Chaos Beasts.

Why can their Dao Sheng Sect be able to defend it?

This is impossible.

It's just too dangerous for Zhang Yuhe to attack rashly alone.

Think of this.

Lu Yunfei persuaded seriously.

"Sect Master, there are Chaos Beasts everywhere now."

"And these Chaos Beasts are extremely powerful."

"According to the information we have received so far, the number of king-level chaos beasts that have entered the South China Sea Immortal Domain alone may have exceeded thousands."

"If you attack alone, what should you do if you are attacked by a king-level chaos beast?"

He knew that Zhang Yuhe was powerful and had an Earth-level immortal ship at his disposal.

Normally.

No matter how dangerous the situation is, he should be able to fight his way out.

But don't be afraid of ten thousand, just be afraid of the unexpected.

Although Lu Yunfei had just returned not long ago.

But he is very clear.

Daosheng Sect cannot live without Zhang Yuhe.

Once Zhang Yuhe had an accident.

Then the Dao Sheng Sect can probably only be like before.

Continue to huddle in the waters of Ji'an.

And this is without considering the chaos beast crisis this time.

Facing the invasion of chaos beasts in Helan Mountain.

If there is no Zhang Yuhe in charge.

I'm afraid it will be difficult for the Dao Sheng Sect to survive this crisis.

Just because of these thoughts.

Lu Yunfei persuaded seriously.

Section 533

I hope Zhang Yuhe will not take risks.

If it really doesn't work.

They can also learn from other major forces.

Directly abandon the sect's headquarters and temporarily move the sect's disciples to the Chaos Continent.

Wait until Immortal King Liuyue leads the support from various immortal regions and arrives at the South China Sea Immortal Region.

Everyone will come back to regain the lost territory and rebuild the sect.

...

Chapter 412 Jiuli Chaos

Faced with Lu Yunfei's persuasion.

Zhang Yuhe responded calmly.

"As long as no noble-level Chaos Beasts appear, there will basically be no danger."

"That's it."

"Ask the disciples of the sect to spread the cordon as far away as possible."

"Once you find a Chaos Beast approaching the Ji'an sea area, send me a message immediately."

"I'll come back as soon as possible."

"All right."

Since Zhang Yuhe insisted, Lu Yunfei stopped trying to persuade him.

After all, sitting guarding the sect is really not an option.

Taking the initiative may not necessarily break the situation.

But at least you can kill more Chaos Beasts.

Although the number of chaotic beasts that have entered the South China Sea Immortal Domain is too numerous to count.

But as long as someone takes the lead.

Just like the Wanshan Immortal King, he constantly intercepted and killed Chaos Beasts.

Let's all kill slowly together.

No matter how many chaos beasts there are in Helan Mountain.

Sooner or later, one day, everyone will kill them all.

Unfortunately.

In the entire South China Sea Immortal Domain, there is only one Immortal King of Ten Thousand Mountains.

Others do not have the strength of the Immortal King of Ten Thousand Mountains, nor the courage of the Immortal King of Ten Thousand Mountains.

Now Zhang Yuhe wants to imitate the Immortal King of Wanshan.

Go to various places to intercept and kill Chaos Beasts.

This is indeed a way.

As for the Shanmen station in Ji'an waters.

In fact, there is nothing to worry about.

I really want to be killed by the chaos beast.

He took his sect disciples and retreated to Chaos Continent.

As a last resort, this is the retreat chosen by all the major forces.

After the two discussed for a while.

Zhang Yuhe then piloted the immortal ship and flew out of the Daoshengzong Mountain Gate.

As he flew, he silently sorted out the recently obtained information in his mind.

According to the information given by the Information Hall.

The nearest Chaos Beast has already reached the Liufeng Sea Area.

There are five sea areas separated from Ji'an Sea Area.

At present, Liufeng Sea Area has been completely occupied.

The teleportation array over there has also been destroyed.

Zhang Yuhe set his target at Jiuli Sea Area next to Liufeng Sea Area.

There once was a Jiuli Sect in the Jiuli Sea Area.

Just millions of years ago.

Jiuli Sect has been destroyed.

At present, the Jiuli sea area is completely in disarray.

throughout the sea.

There are dozens of forces, large and small.

Some small forces even only have a few true immortal monks in charge.

Even if there are stronger forces, only the Golden Immortal monks are in charge.

The strength of the entire sea area is only slightly stronger than the previous Ji'an sea area.

However, the Jiuli Sea Area is not without its merits.

At least there is a teleportation array there.

At that time, the teleportation array left behind by Jiuli Sect was still functioning.

It is jointly controlled by several local and stronger forces.

"Let's go to Jiuli Sea Area first."

Zhang Yuhe drove the fairy ship and soon arrived in Ji'anfang City.

Through the teleportation array in Fangshi, teleport to Jiuli Sea Area.

When he walked out of the teleportation hall.

I saw dozens of Golden Immortal monks fighting in a group outside the main hall.

See this situation.

Zhang Yuhe couldn't help but frown slightly.

What the hell is this?

The Chaos Beast hasn't arrived yet.

Did your own people start the fight first?

Think of this.

"snort."

Zhang Yuhe snorted coldly.

The powerful aura of Taiyi Immortal swept across the entire Jiuli Island in an instant.

Seeing Zhang Yuhe, he displayed the terrifying power. .

Everyone was shocked and stopped immediately.

Since the destruction of Jiuli Sect, no Immortal Lord Taiyi has been born in the entire Jiuli Sea Area.

Although occasionally Taiyi Immortal Lord will pass by the Jiuli Sea with the help of the teleportation array.

But generally they don't stay.

not to mention.

Now the chaos beasts in Helan Mountain invade.

There is chaos everywhere, how could Taiyi Immortal Lord come here?

They looked at each other.

Then he quickly flew to Zhang Yuhe and asked cautiously.

"Greetings to senior, what do you call senior?"

"Dao Sheng Sect, Zhang Yuhe."

"Tell me, what's going on?"

Zhang Yuhe asked with a gloomy face.

At this time, a late-stage Golden Immortal monk came forward and said helplessly.

"I, Sun Yan, the leader of the Chiyue Sect, pay my respects to the Immortal Lord Yinhe."

"Due to the invasion of Chaos Beasts, everyone is scrambling to grab the teleportation array."

"I wanted to use the teleportation array to escape from the chaos beast's edge, so that's why the melee broke out."

"Senior made a joke."

Hearing this, Zhang Yuhe was a little puzzled.

He continued to ask.

"There is only one teleportation array, so you can discuss using it together, isn't that enough?"

"Why are you still robbing?"

Sun Yan said helplessly.

"Senior, actually this teleportation array doesn't have much effect."

"Everyone is just unwilling to accept it."

Section 534

"Since the fall of Jiuli Sect, we have lost the immortal city of Chaos Continent."

"This teleportation array can no longer be used to teleport to Chaos Continent."

"As for the immortal realm, because of the invasion of Chaos Beasts, we will not be able to teleport there for the time being."

After listening to Sun Yan's narration.

Zhang Yuhe finally understood the general idea.

Because of the loss of the immortal city of Chaos Continent.

This teleportation array on Jiuli Island can no longer be used to teleport to Chaos Continent.

Now half of the other sea areas have been conquered by Chaos Beasts.

As for the remaining sea areas, they are all in a mess.

How could they possibly accept these cultivators from Jiuli Sea Area?

For the cultivators from Jiuli Sea Area.

They can only sit there and wait for the arrival of Chaos Beasts.

Then they will be captured by Chaos and become Chaos Beasts to be used as food for promotion.

Although they can also fly away.

But among these cultivators, the highest level of cultivation is only in the late Golden Immortal stage.

Where can they run to?

There are a large number of king beasts among the Chaos Beasts.

No matter which direction they run, they will eventually be caught up by the Chaos Beast.

It is precisely because of this desperate situation.

Everyone will think of holding on to the last straw of the teleportation array.

Even if this straw has no effect.

It cannot help them escape.

Zhang Yuhe stood there and thought quietly for a while.

He took out the Immortal Mirror.

Then he cast a spell.

He glanced at everyone and said lightly.

"Okay, someone from the Daosheng Sect will come over to help you teleport to the Ji'an Sea Area."

"But for the time being, I can only help you here."

"If the Chaos Beast also invades the Ji'an Sea Area."

"I am not sure that I can protect you."

"That's it, I hope you will take care of yourself and abide by the rules of the Daosheng Sect."

After saying this.

Zhang Yuhe turned into a stream of light and disappeared in front of everyone.

"Thank you for saving my life, Yinhe Xianjun."

Looking at the direction where Zhang Yuhe was going away, everyone shouted respectfully in unison.

Everyone was delighted.

Although.

Even if they were teleported to the Ji'an Sea, they would only live a little longer.

When the Chaos Beasts of Helan Mountain invaded the Ji'an Sea,

Dao Sheng Zong would definitely not take them with him when he fled.

Despite this.

Everyone's faces still showed excitement.

Facing the current crisis.

Even if they could live one more day, it would be good.

If they continued to stay in the Jiuli Sea, they would definitely die.

The Chaos Beasts of Helan Mountain have invaded the Liufeng Sea next door.

Maybe in a few days, they will kill their way into the Jiuli Sea.

Thinking of the tragic fate after being captured by the Chaos Beasts.

Everyone was terrified.

Now there is a way to survive, in front of them.

How can everyone not be excited.

Although this way to survive also has great uncertainty.

But if they live a little longer.

Maybe there will be a turning point.

Everyone looked at the direction where Zhang Yuhe was going away.

Their hearts were filled with infinite gratitude.

...

Chapter 413: Killing in Liufeng Sea

After sending a message to Lu Yunfei, Zhang Yuhe ignored it.

Let Lu Yunfei arrange people to evacuate the cultivators in Jiuli Sea to Ji'an Sea.

This is the maximum limit he can do.

He thinks his ability is limited.

Facing such a crisis.

Even if he wants to save, he can't save too many people.

And he can't guarantee.

He can save these people to the end.

What if the chaos beasts in Helan Mountain kill into Ji'an Sea.

And he can't stop it.

Then he can only run away with the disciples of the sect like the Immortal King Wanshan.

As for the other cultivators in Ji'an Sea, he is powerless.

He may not even be able to save the cultivators in Ji'an Sea.

Not to mention these cultivators in Jiuli Sea.

The final result can only depend on fate.

Maybe the chaos beasts in Helan Mountain did not kill in Ji'an Sea.

They were repelled by him.

Maybe Liuyue Immortal King led the support forces of various immortal realms to arrive in Nanhai Immortal Realm in advance.

Maybe there is another Daozu Emperor passing by Nanhai Immortal Realm.

He helped them to solve the chaos beasts in Helan Mountain.

Zhang Yuhe didn't want to rely on others.

He just wanted to kill more chaos beasts with his own hands.

As long as he killed enough, the chaos beasts in Helan Mountain would be scared.

Maybe these chaos beasts would never dare to step into the Ji'an Sea.

Of course.

In fact, Zhang Yuhe has another purpose.

That is purely to kill more chaos beasts and collect the corpses of chaos beasts.

Although he has just been promoted to Taiyi Immortal Lord.

There is still a long way to go before Daluo Immortal King.

But he also has to make some plans for the future tribulation.

When setting up the improved version of Renshui Thunder Absorption Array, a full 100,000 corpses of chaos beasts in the Golden Immortal Realm were consumed.

In order to collect materials, the Daosheng Sect was really busy for a long time.

Thinking that in the distant future, he would definitely need to continue to improve the Renshui Thunder Absorption Array.

Otherwise.

He would definitely not be able to survive the Daluo Heavenly Tribulation.

The second-level Renshui Thunder Absorption Array of the Immortal Grade would require 100,000 middle-grade immortal weapon-level lightning absorption pillars.

Not to mention the various auxiliary materials.

Just the corpses of the Chaos Beasts in the Golden Fairyland consumed a full 100,000.

Then how many top-grade immortal weapon-level lightning-absorbing columns will be needed for the third-level Immortal Grade Renshui Thunder Absorption Array?

How many Chaos Beast corpses are needed?

Is it possible that more than a million are needed?

Section 535

And this is still needed, the corpse of the Chaos Beast in Taiyi Realm?

Although he can also use other materials to refine the lightning absorbing pillar.

But this obviously doesn't work.

Except for the corpse of the Chaos Beast.

I want to use other materials to refine millions of pieces of lightning-absorbing pillars at the level of top-grade immortal weapons.

It's just nonsense.

I'm afraid that even if we search the entire fairy world, we may not be able to do it.

With such a large demand for materials, even the Dao Ancestor Holy Land would not be able to collect them neatly.

Relatively speaking.

The corpse of the Chaos Beast is relatively easy to deal with.

After all, there isn't much else in the fairy world.

There are just enough Chaos Beasts.

So Zhang Yuhe thought.

Take advantage of this opportunity of the Helan Mountain invasion.

A large number of chaos beasts poured into the South China Sea Immortal Domain.

Moreover, the levels of these Chaos Beasts are relatively high.

There are indeed many chaotic beasts in the Taiyi Realm.

Millions are not necessarily available.

But the number of one hundred thousand is definitely exceeded.

Take advantage of this opportunity.

He collected more corpses of Chaos Beasts from the Taiyi Realm.

In normal times,

He wanted to find so many Taiyi Realm Chaos Beasts to kill.

Not sure yet, but it can be found.

This time, the Helan Mountain Tribe came right to your doorstep.

That's not even killing more.

Accumulate some materials in advance for refining the thunder absorbing pillar in the future.

Think of this.

Zhang Yuhe couldn't help but feel a little hopeful.

This kind of opportunity to give benefits.

How could he let it go?

Originally he had planned to.

Wait for the support from Liuyue Immortal King to arrive.

Then follow them to eliminate the Chaos Beasts together.

Think about it now.

It's better to do it yourself first.

There's no danger anyway.

The Chaos Beast currently entering the South China Sea Immortal Realm.

The one with the highest strength is the Nine Color King Beast.

There is no respectable Chaos Beast.

The five noble-level chaos beasts that first came in were all pulled away by the Heavenly Star Dao Ancestor.

Now I don't know where I hit in the alien space.

Maybe it was hit, even outside the South China Sea Immortal Territory.

Although in the tribal lair of Chaos Continent.

There must be many more supreme-level chaos beasts in Helan Mountain.

But those noble-level chaos beasts couldn't get out at all.

Haven't you seen the Immortal King of Wanshan? Has he always killed so fiercely?

I didn't see any respectable Chaos Beast coming out to deal with him.

This indicates that.

Helan Mountain's top power is probably used to its limit.

It should be impossible to draw a noble-level Chaos Beast and enter the South China Sea Immortal Realm.

Otherwise.

How could the Helan Mountain Tribe let the Wanshan Immortal King keep killing people there?

It is precisely because of this.

Only Zhang Yuhe dared to come out alone to intercept the Chaos Beast team.

There is no danger, and a large number of chaos beast corpses can be harvested.

And it can also reduce the pressure on various places in the South China Sea Immortal Territory.

Why would he not do such an action that achieves multiple things with one stone?

Zhang Yuhe piloted the fairy ship and flew forward quickly.

While taking out the jade slip, he carefully looked at the map of Jiuli Sea Area.

Thanks to the effective work of the Information Hall.

The Dao Sheng Sect has already drawn and completed all the maps of various sea areas in the South China Sea Immortal Territory.

"Just go over here and take a look."

Zhang Yuhe compared the map, then changed direction and flew towards the Liufeng Sea Area.

at the same time.

He also kept in touch with Wang Guofeng through the Immortal Mirror.

The latest news collected by the Dao Sheng Sect was continuously transmitted.

Half a month later.

Zhang Yuhe stands tall over a deserted island.

This is already the Liufeng Sea area.

Based on the latest information.

The Chaos Beasts of Helan Mountain, after sweeping the Liufeng Sea area.

A force has been detached and is rushing in this direction.

Zhang Yuhe stared into the distance.

After a while.

The clouds in the distant sky began to gradually tear apart.

All kinds of powerful and chaotic auras shot straight into the sky.

It even shook all the clouds high in the sky to pieces.

An endless black line is spreading rapidly over the distant sea.

See this situation.

Zhang Yuhe muttered to himself.

"I finally got what I've been waiting for."

Although the number of chaos beasts in Helan Mountain is huge. But the area of the South China Sea Immortal Territory is really too vast.

After being dispersed throughout the Immortal Realm.

He wanted to intercept a team of Chaos Beasts accurately.

It's really not easy.

It must be supported by an accurate intelligence system.

Otherwise.

All he could do was run around blindly in various sea areas.

Not many chaos beasts can be killed.

After the Helan Mountain tribe invaded the South China Sea Immortal Domain.

The work of the Daosheng Sect Information Hall also failed for a time.

It is difficult to provide accurate intelligence.

But before he left.

Wang Guofeng was specially told to resume the work of the Intelligence Hall as soon as possible.

No matter what the cost, we must find out clearly the movements of each Chaos Beast team.

Especially those teams of Chaos Beasts near the sea area of Ji'an.

We must keep track of their movements.

during this time.

Wang Guofeng may use resources to purchase the latest information from monks in various sea areas.

Section 536

Or provide a safety promise to guide the monks to the Ji'an Sea Area, or even to the Galaxy Fairy City for refuge.

So that the monks in various sea areas can provide more reliable information to the Daosheng Sect.

Not to mention.

Wang Guofeng's efficiency is indeed good.

Didn't this allow him to wait for a Chaos Beast team?

Otherwise.

He is looking for a needle in a haystack alone.

In addition to being able to attack and kill some scattered Chaos Beast teams.

It is difficult to have a big harvest.

...

Chapter 414 This is unscientific!

Zhang Yuhe looked at the endless Chaos Beasts in the distance, running fast.

His expression was silent.

There are many Chaos Beasts, and their strength is not weak.

There are two auras among them, which are very strong.

It should be a King-level Chaos Beast.

It's just that it is not known for the time being, what color of King Beast it is.

According to Zhang Yuhe's idea.

He doesn't want to collide with the King-level Chaos Beast.

It's not that he can't beat it, but it's hard to kill it.

If it is a king beast with three colors or less, it is easy to say.

If you spend more time, you should be able to kill it.

If it is a king beast with four colors or more.

Then he may really not be able to kill it.

The king-level chaos beast is not only fierce in attack, but also super strong in defense.

It is very difficult to deal with.

As the number of evolutions increases, the more colors the king beast has, the more difficult it is to deal with.

Despite this.

Zhang Yuhe did not care too much.

If he can't kill the king beast, then he will kill all the other chaos beasts.

Countless chaos beasts are running towards this side quickly.

Zhang Yuhe took a rough look.

In addition to the king-level chaos beast leading the team.

There are countless chaos beasts of various levels.

The entire chaos beast team must be more than one million.

Most of the chaos beasts are three to six stars, equivalent to the strength of Golden Immortal cultivators.

The rest are above seven stars, comparable to Taiyi Immortal Lord among cultivators.

"Come on, they're all my favorites."

Looking at the Chaos Beasts running quickly in the distance, Zhang Yuhe's face showed no fear.

On the contrary, he was a little excited.

After waiting for so long, he finally got a Chaos Beast team.

How could he not be excited?

At this time, the Chaos Beasts in the distance also saw Zhang Yuhe standing above the deserted island.

However, these Chaos Beasts did not make any changes.

But they continued to rush over in the original direction.

Although Zhang Yuhe's Taiyi realm aura was fully revealed.

A powerful and terrifying aura.

But in the eyes of these Chaos Beasts.

The Taiyi Immortal is just a slightly stronger ant.

It's not worth them to make any response.

Just crush it and it's done.

After all, in this huge Chaos Beast team.

Not to mention the two King Beasts.

There are also a large number of Chaos Beasts above seven stars.

Each one is equivalent to the Taiyi Immortal Lord of the human race.

Maybe they are still thinking.

Just send out a few seven-star chaos beasts.

They can blast the ants in front of them into slag.

Looking at the chaos beasts in the sky, getting closer and closer, sweeping over quickly.

Zhang Yuhe finally moved.

He waved his right hand.

Nine immortal swords turned into streams of light and quickly fell into the distance.

As the spell was pinched.

A huge sword array light curtain quickly rose in the distance.

All the rushing chaos beasts were encircled in it.

Seeing the sword array fall.

The leading king-level chaos beast didn't care too much.

It said lightly.

"Rush over, slap the ant to death, and then continue on the road."

"Get to Jiuli Sea as soon as possible and transport the sacrifices there back to the tribe."

In the eyes of the chaos beasts.

All the cultivators in the entire South Sea Immortal Realm are their sacrifices.

They only need to drive these sacrifices back to the tribe like driving cattle and sheep.

As for the strength of the cultivators, or the resistance of the cultivators.

They didn't take it to heart at all.

Whether they resist or not.

A sacrifice is a sacrifice.

This is an unchangeable fate.

The ancient and powerful Helan Mountain tribe came out to harvest some sacrifices.

Isn't this a normal thing?

Maybe in the hearts of these Chaos Beasts.

They are still hoping that the cultivators of the South Sea Fairyland will resist more fiercely.

The more the cultivators resist, the more excited they are.

After all, this is also possible, let them have some fun.

Zhang Yuhe stared into the distance.

Seeing the Chaos Beast, he did not make any response.

Not only did he not change direction.

He even ignored the existence of the sword formation.

Still maintained the original speed, rolling forward quickly.

The arrogance is simply outrageous.

"Humph."

Seeing this situation.

Zhang Yuhe couldn't help but snorted coldly.

He muttered to himself.

"Since you are so anxious to die, let me send you on your way."

Zhang Yuhe turned his spell.

Boundless sword energy rose from the light curtain.

The sword energy brought with it a huge pressure, sweeping across the sky and earth in an instant.

It was almost just a blink of an eye.

Section 537

The Chaos Beasts below six stars were wiped out in an instant.

"Not good."

Until this time.

The two king-level Chaos Beasts leading the team finally reacted.

The inconspicuous Taiyi Immortal in front of them was not an ant.

They were each a man-eating tiger.

Just a round of sword energy swept through.

They wiped out all the millions of elite Chaos Beasts in Helan Mountain.

How terrible is this?

Although the remaining Chaos Beasts have not died yet.

But it seems that they can't hold on for too long.

The Chaos Beasts above seven stars.

Were imprisoned in place, roaring in pain.

But they couldn't even move.

"Quick, break this damn sword formation and rush out together."

The two king-level Chaos Beasts knew that the situation was very bad at this time.

If they didn't kill it as soon as possible.

Then their huge team might be completely wiped out.

However, no matter how much they roared, it was meaningless.

Those Chaos Beasts above seven stars.

Except for struggling helplessly and roaring wildly.

They couldn't do anything at all.

They couldn't even move.

Zhang Yuhe completely integrated the nine supreme laws into the sword formation.

The powerful power of the law.

Directly imprisoned all these Chaos Beasts in place.

They couldn't move at all.

Not only those Chaos Beasts above seven stars were imprisoned by the sword formation and couldn't move.

Even the two king-level Chaos Beasts themselves felt the huge pressure brought by the sword formation.

They wanted to rush out of the sword formation quickly.

But they found that.

Every step they took required a lot of strength.

Although these invisible sword qi couldn't break their defense.

But the inexplicable power carried in the sword qi.

It was like there were tens of thousands of heavy mountains pressing on their heads.

The huge imprisonment force kept pressing down on them.

Not only that.

These invisible sword qi also carry strange spiritual power.

They can directly hit the depths of the soul sea.

This makes them feel very painful.

As king-level chaos beasts, every step they take is extremely difficult.

Not to mention other chaos beasts.

"Roar..."

The two king-level chaos beasts kept roaring.

They waved their spears in their hands, trying to cut off the invisible sword qi around them.

They thought in their hearts.

As long as these damn sword qi are cut off outside.

Then they can quickly rush to the edge of the sword formation.

With the powerful attack power of king-level chaos beasts.

They can definitely break through the sword formation light curtain.

Kill the damn monk outside.

It's just that their ideas are good.

But they are completely powerless.

They are just three-color king beasts.

Facing endless sword qi, they can't do it at all.

Completely cut off these sword qi outside.

Even if they try their best.

The spears in their hands dance into a group of gun shadows.

There is still a small amount of sword energy.

It can break through the gun shadows in the sky and cut them.

As long as a sword energy falls on them.

The inexplicable power carried in the sword energy.

It can suppress them in place.

Every time they want to move forward, it is extremely difficult.

Seeing the surrounding Chaos Beasts, they fall down quickly.

After the Chaos Beasts below six stars are wiped out by a round of sword energy.

Those seven-star Chaos Beasts will soon be unable to support.

One by one, the seven-star Chaos Beasts roared and then suddenly fell silently.

Seeing this situation.

The two king-level Chaos Beasts felt cold in their hearts.

"Are they going to die here too?"

They are powerful king beasts.

How could they die at the hands of Taiyi Immortal Lord of the human race?

This is unscientific.

...

Chapter 415 Double Killing of King-level Chaos Beasts

Zhang Yuhe stood above the deserted island, constantly pinching the magic formula in his hands.

Controlling the sword formation to shrink rapidly.

He did not use the Soul-Destroying Finger to finish off the enemy like he did last time.

Because it was totally unnecessary.

After integrating all the innate spiritual materials into the nine immortal swords.

Now the power of the Nine Heavens Primordial Sword Formation is no longer comparable to what it was before.

Even with the power of the sword formation alone.

It can also kill the Nine-Star Chaos Beast.

And it doesn't take too much effort.

He doesn't need to use other magical powers to finish off the enemy.

As the spell was pinched.

The Nine Heavens Primordial Sword Formation was shrinking rapidly towards the center.

The power of the sword formation was still gradually increasing.

After the powerful Chaos Beasts roared unwillingly,

they could only fall down helplessly.

Starting with the Seven-Star Chaos Beast.

Then slowly, the Eight-Star Chaos Beasts gradually couldn't resist the crushing of the invisible sword energy.

After a while.

With the last Nine-Star Chaos Beast falling to the ground.

On the entire sea surface.

There were only two three-color king beasts left alive.

These two king-level chaos beasts are like having mountains above their heads, but their feet are stuck in a quagmire.

Section 538

Struggling hard in the sword formation.

The seemingly extremely powerful king beast Chaos Beast.

After falling into Zhang Yuhe's sword formation.

It's just like a soft-footed shrimp, without any threat.

"Try it and see if you can kill these two king-level chaos beasts."

See this situation.

Zhang Yuhe muttered to himself.

I saw him wave his right hand.

A long golden stick appeared in his hand.

The whole body of the long stick was shining with golden light, and it exuded an inexplicable powerful aura.

The most innate treasure, the Nine Heavens Flying Spirit Stick.

After being nourished by the Seven Star Immortal Pond.

The Nine Heavens Flying Spirit Stick has been promoted to the level of a top-grade immortal weapon.

The power is completely different from before.

Zhang Yuhe held a long golden stick in his hand and looked at the two three-color king beasts that were struggling in the distance.

He couldn't help but feel a little excited.

This is a king-level chaos beast.

He hasn't killed yet.

Such a great opportunity today.

Just in time for him to encounter two three-color king beasts that were not too strong.

Let's see if we can beat him to death.

Think of this.

Zhang Yuhe jumped into the air and quickly rushed towards the two king beasts in the sword formation.

At this time, these two king-level chaos beasts were still struggling.

Although they are trapped in the sword formation.

Moreover, a large amount of invisible sword energy is still cutting into the body.

Make them suffer endlessly.

despite this.

These two king-level chaos beasts didn't think they would die.

They are powerful king-level chaos beasts.

Has unparalleled defense power.

Not to mention the one in front of me, the little Immortal Taiyi.

Even if they face the powerful Daluo Immortal King, they will not necessarily suffer.

"Roar."

Seeing the Taiyi Immortal Lord in front of him.

How dare you rush in front of them.

The two king-level chaos beasts let out thunderous roars at the same time.

"snort."

Zhang Yuhe snorted coldly.

Just a death struggle.

He was sure to kill these two king-level chaos beasts today.

If you can't kill him with the Nine Heavens Flying Spirit Stick.

Then activate the chaos cannon on the fairy ship.

Directly bombard with Chaos Cannon.

The greatest power of the Chaos Cannon can kill the Nine Color King Beast.

There is no problem at all in dealing with these two three-color king-level chaos beasts in front of us.

It's just that he doesn't want to waste the crystal core.

The Chaos Beast on the Immortal Ship moves every time.

It only needs to consume one, king-level chaos beast crystal core.

Zhang Yuhe only has three king-level crystal nuclei in total.

This was what he got from Immortal King Liuyue last time.

It's not a last resort.

He didn't want to waste it.

Zhang Yuhe swung the Nine Heavens Flying Spirit Stick, and the golden stick shadow filled the sky, quickly moving towards one of the king beasts.

As for the other king beast, let's put it aside for now.

Come one by one.

Kill slowly.

Boom...

The golden stick shadow quickly fell on the king beast's head, making a loud noise.

The huge body of the king-level chaos beast was pushed back in an instant.

Not only that.

Zhang Yuhe also integrated all the power of the law into the stick shadow.

As the Nine Heavens Flying Spirit Stick fell.

The king-level chaos beast let out a painful roar.

It is different from the power of law carried by sword energy.

The sword energy is distributed over a wide area.

No matter how powerful the law is.

When cutting into the Chaos Beast.

There isn't much left.

Zhang Yuhe holds the Nine Heavens Flying Spirit Stick.

The huge power of law is continuously output.

Coupled with the innate treasure, the powerful power it carries.

That king-level chaos beast simply couldn't withstand such a terrifying attack.

The Chaos Beast was driven back with a stick.

The blood was like a downpour, covering the entire sea in an instant.

Zhang Yuhe followed closely.

The stick shadows all over the sky fell again, hitting the Chaos Beast's head repeatedly.

Faced with Zhang Yuhe's rapid attack.

This powerful king-level chaos beast has no power to parry at all.

He could only rely on his strong defense to withstand Zhang Yuhe's attack.

But just relying on such hard work.

This king-level chaos beast obviously won't be able to hold it for long.

Another king-level Chaos Zeng saw such a crisis.

It waved the spear in its hand with difficulty, trying to run over to rescue him.

However, it was trapped in the sword formation.

His movement was greatly restricted and he couldn't run fast at all.

He could only watch helplessly, watching his companions being shadowed by sticks all over the sky.

Just like swatting mosquitoes, keep swatting them away.

As the stick shadows in the sky continued to fall.

The powerful defensive capabilities of the king-level chaos beasts can hardly be used anymore.

The power of the divine soul law of Zhang Yuhe's Dacheng realm is attached to the stick shadow.

Every time he swung the stick, he hit it directly in the depths of the soul sea of the king-level chaos beast.

No matter how strong the defense of the king-level chaos beast is.

That can't prevent the sea of soul consciousness.

After a while.

The aura of the king-level chaos beast finally began to slip away.

There are already some signs of being unable to hold on.

See this situation.

Zhang Yuhe couldn't help but look happy.

Not being afraid of a king-level Chaos Beast, and killing a King-level Chaos Beast, are two different concepts.

Section 539

Through this battle.

He finally had a clearer understanding of his own strength.

He could kill the three-color king-level chaos beast.

That means.

He should be able to kill the early Daluo Immortal King.

In other words.

His strength is no longer comparable to the Daluo Immortal King.

And among the Daluo Immortal Kings, he can also be considered a stronger existence.

More importantly.

He has not yet opened the Hunyuan Guiyi magical power.

If he opens a big move.

He should be able to kill even the strongest nine-color king beast.

With such strength.

Under Daozu, Zhang Yuhe is already fearless.

After a while.

With the fall of a stick shadow.

The king-level chaos beast that he had ravaged for a long time finally fell unwillingly.

Zhang Yuhe quickly turned around.

He pounced on another king-level chaos beast.

Looking at Zhang Yuhe, carrying the golden stick shadow all over the sky, he quickly pounced on it.

The last king-level Chaos Beast was already as panicked as an old dog.

It no longer had the arrogance and arrogance of the past.

The once huge Chaos Beast team was powerful enough to sweep across countless seas.

Now there was only one Chaos Beast left.

How could it not panic?

It looked at Zhang Yuhe as if it had seen a devil.

How could there be such a terrifying Taiyi Immortal Lord in the world?

It couldn't understand it at all.

But this Chaos Beast didn't have to suffer for too long.

Because it would soon follow the footsteps of other Chaos Beasts.

Bloodstained the sea was its destined fate.

Zhang Yuhe controlled the sword formation to narrow the coverage area.

While swinging the golden long stick, it smashed down the Chaos Beast fiercely.

About half a quarter of an hour later.

This king-level Chaos Beast finally ended its painful life.

It fell to the ground unwillingly.

...

Chapter 416: Wanshan Immortal King took the blame

As the last king-level Chaos Beast fell.

On the entire sea, only Zhang Yuhe was left, the only living creature.

The Helan Mountain tribe originally had a mighty army of millions of Chaos Beasts.

All of them were wiped out by him.

The vast sea was covered with corpses of Chaos Beasts of various levels.

From four stars to nine stars, there were even two corpses of King-level Chaos Beasts.

Due to the fierce fluctuations of the war.

On the vast sea, there were even a large number of dead fish floating.

Zhang Yuhe burst out with all his strength, and the head-on collision of King-level power.

Almost all the creatures within millions of miles were killed.

Looking at the countless corpses of Chaos Beasts on the sea.

In addition to the corpses of two King-level Chaos Beasts.

There were also thousands of Chaos Beasts with more than seven stars on the scene.

Zhang Yuhe couldn't help but smile.

He muttered to himself.

"This wave of harvest is good. If we can do this kind of harvesting action hundreds of times."

"Then when we break through to the Daluo Immortal in the future, the problem of tribulation may be almost solved."

Zhang Yuhe waved his right hand.

A pagoda-shaped immortal weapon flew out and collected all the corpses of Chaos Beasts on the sea.

After doing all this.

He controlled the Galaxy Immortal Ship, turned into a stream of light, and quickly left the scene.

Killing so many Chaos Beasts in one wave.

Zhang Yuhe was worried.

Maybe the Helan tribe will launch a revenge action.

Avoid one wave first.

Otherwise.

If he is blocked by a group of King-level Chaos Beasts, it will be a trouble.

He is fighting a guerrilla war, not a head-on confrontation.

Although the Chaos Beasts in Helan Mountain can't do anything to him.

But if a large number of King-level Chaos Beasts come.

Then he has no choice.

He can only run away.

In Zhang Yuhe's plan.

He doesn't move.

Once the fight begins, he must be able to harvest a large number of Chaos Beast corpses.

It would be of no benefit to him to fight those powerful King-level Chaos Beasts head-on.

Why should he waste time?

Zhang Yuhe wiped out millions of Chaos Beasts in one wave, and then quietly left.

No one knew.

Such a large Chaos Beast team disappeared silently.

Due to the invasion of Chaos Beasts, all parts of the South Sea Fairyland were in chaos.

There was no one in a remote deserted island like this.

No one would have seen the divine power that Zhang Yuhe had just burst out.

Actually, it was not right to say so.

Although the human cultivators did not know that Zhang Yuhe had easily wiped out such a large Chaos Beast team.

But the Chaos Beasts of Helan Mountain obviously knew.

When he killed the last King-level Chaos Beast.

Far away in the Wanshan Sea, the original sect station of Wanxianmen.

A Chaos Beast with a strong breath suddenly let out a thunderous roar.

This is the chief priest of the Helan Mountain Tribe, the Nine-Colored King Beast, Helan Bieye.

After Helan Ruobei and five other supreme-level Chaos Beasts were dragged into the alien space by Tianxing Daozu.

Helan Bieye is the supreme commander of the entire tribe in the South Sea Fairyland.

All the Chaos Beast teams scattered to various places are under its command.

Just now.

Helan Bieye felt that a large number of Chaos Beasts died suddenly.

Not long after.

Even two King-level Chaos Beasts died.

This made Helan Bieye very angry.

They just came here to harvest a wave of sacrifices.

How could a noble king-level Chaos Beast die in such a place.

And died so quickly.

Section 540

"Something seems wrong."

Helanbieye felt silently.

It couldn't help but feel a little stunned.

Because then it suddenly discovered.

Those dead Chaos Beasts were actually from the same team.

That is to say.

Human monks attacked the team of Chaos Beasts.

Not only that.

The human monks wiped out this huge team of chaos beasts in a short period of time.

There were so many chaos beasts, not even one escaped.

"Impossible. Where can the monks from the South China Sea Immortal Realm get such terrifying power?"

Helanbieye couldn't believe this result at all.

"Could it be that the Dao Ancestor Emperor came to the South China Sea Immortal Realm?"

Think of this.

Helanbieye couldn't help but tremble a little.

How terrifying Daozu is.

It couldn't be clearer.

If there really is a Taoist ancestor who comes to the South China Sea Immortal Realm.

Then they are the Helan Mountain tribe, these chaotic beasts that entered the South China Sea Immortal Realm.

They will inevitably face a catastrophe.

The sage of the Helan Mountain tribe could no longer draw out his strength.

Once a Dao Ancestor comes.

Who can stop it?

"No, no, it can't be Dao Ancestor."

After a while of fear.

Helanbieye quickly denied his previous thoughts.

There are only so many Taoist Emperors among the monks.

And the distances are very far.

The South China Sea Immortal Territory is the territory of Tianxing Taoist Ancestor.

If not necessary.

Other Dao Ancestors will not come here easily.

Think of this.

Helanbieye couldn't help but fell into deep thought.

Since Emperor Daozu has been excluded.

Then here comes the problem.

Where in the sea can such a powerful force come from that can destroy such a huge team of Chaos Beasts?

"Is it the Immortal King of Wanshan? He went to Liufeng Sea Area again?"

Thinking of the Wanshan Immortal King, Helan Bieye's eyes slowly revealed a fierce light.

Ever since they entered the South China Sea Fairyland.

Basically no, there was too much resistance.

The monks in the South China Sea Fairyland faced the powerful Helan Mountain tribe.

Completely left to its own devices.

Even if I try to run, I can't get very far.

In addition to the major forces, they evacuated their disciples to the Chaos Continent.

The other monks basically have no place to run.

He could only be captured helplessly and turned into a sacrifice in Helan Mountain.

There are exceptions.

That is the Immortal King of Wanshan.

Although the mountain gate of Wanxian Sect was breached by them immediately.

But the disciples of Wanxian Sect were not arrested.

But under the leadership of Wanshan Immortal King, relying on the power of the Xuan-level Immortal Ship.

Fighting all the way out of the siege.

If that's all, then that's it.

After all, it wasn't just the Wanxian Sect disciples who ran away.

Disciples of other major forces.

As long as you're not too stubborn.

You must stick to the mountain gate, and you can basically teleport and retreat in advance.

However, Immortal King Wanshan not only did not run away.

Moreover, he also led the sect disciples and relied on the power of the fairy ship to intercept and kill the scattered Chaos Beast teams.

This made Helan Bieye very angry.

But some time ago.

Wanshan Immortal King was only making small fuss.

Not too many Chaos beasts were intercepted and killed.

The tribesmen in Helan Mountain have a great cause.

In order to capture more sacrifices.

Such a small loss for them.

Nothing at all.

They're still holding up.

However, this time, millions of Chaos Beasts were lost all at once.

There are two more among them, king-level chaos beasts.

This made Helan Bieye a little hard to accept.

"Hmph, damn Immortal King Wanshan, don't let me catch you?"

Helanbieye first snorted coldly, and then shouted loudly.

"Go down with the order and do your best to find the whereabouts of Immortal King Wanshan."

"In addition, let all the nearby king-level chaos beasts gather together."

"Once you find any trace of Immortal King Wanshan, give me full pressure."

"Even if I can't catch him, I still have to keep an eye on him."

"Yes, Commander-in-Chief."

Several king-level chaos beasts around him responded loudly at the same time.

After a while.

There was a blast of horns.

From the direction of Wanxian Gate, it quickly spread to the entire South China Sea Immortal Domain.

In order to prevent Wanshan Immortal King from killing the scattered Chaos Beasts.

Helanbieye decided.

Gather all the king-level chaos beasts around and use all their strength to deal with the Immortal King of Ten Thousand Mountains.

Helanbieye thought.

Even if they can't kill the Immortal King of Wanshan, they will pursue it with all their strength.

Don't let Immortal King Wanshan have any time to breathe.

Otherwise.

Those scattered teams of Chaos Beasts.

They might all be killed by the Immortal King of Ten Thousand Mountains.

...

Chapter 417 Second interception

Wanshan Immortal King controls the immortal ship and stands quietly in the air.

On the sea below the fairy ship, hundreds of chaos beast corpses were floating.

The faces of the surrounding Wanxian Sect disciples were filled with excitement.

Just now, they intercepted and killed a small group of Chaos Beasts from Helan Mountain.

This time the harvest was good.

There were hundreds of chaos beasts, all of which were killed by them.
