

## Top talent 541

### Section 541

There are even two nine-star chaos beasts among them.

Ever since he broke out of the sect's headquarters.

Under the leadership of Wanshan Immortal King, they have been attacking Chaos Beast teams everywhere.

However, they only dare to attack those small teams.

Once you encounter a powerful team of Chaos Beasts.

Immortal King Wanshan will be able to control the immortal ship and run away immediately with the advantage of speed.

Those chaotic beasts generally don't dare to pursue them too closely.

Even ordinary king-level chaos beasts are worried that the Immortal King of Wanshan will fight them tooth and nail.

If you really want to chase too closely.

If Wanshan Immortal King becomes ruthless, he will fight back.

The average king-level chaos beast is really a bit unbearable.

So during this time.

Immortal King Wanshan and his sect disciples have been happily hunting chaos beasts.

It was not specifically targeted by the Helan Mountain tribe.

After all, there is the Immortal King of Ten Thousand Mountains sitting in charge.

There are a small number of king-level chaos beasts that dare not come to provoke them.

If there are more than one.

Immortal King Wanshan will speed up and run away again.

Faced with such a slippery and prickly loach.

The Chaos Beast in Helan Mountain really doesn't have much to do.

Basically just let it go.

In addition to asking the scattered Chaos Beast teams to avoid them.

The Chaos Beasts in Wanshan Sea did not make any targeted response.

Kill them as they please.

Anyway, the Helan Mountain tribe has a huge number of chaos beasts.

Even Wanshan Immortal King and his companions kill hundreds of chaos beasts every day.

So what?

It has no impact on the entire situation at all.

However, what Wanshan Immortal King didn't know was.

A huge black pot was already pressing down on him.

Helanbieye, who was in charge of the South China Sea Immortal Territory, actually wiped out Zhang Yuhe's actions to eliminate the Chaos Beast.

Marked on his head.

Prepare to dispatch a large number of king-level chaos beasts to chase him to death.

If Immortal King Wanshan knew this news.

Will definitely scream and hold the grass.

What the hell.

He and his sect disciples have been active in the Wanshan Sea Area.

He didn't go far at all.

How could even the blame for Flowing Wind Sea Territory be dumped on his head.

This is so fucking mindless.

He is just an Immortal King, not a Taoist ancestor.

Even the Daozu Emperor couldn't do it, shuttling back and forth between two such distant sea areas.

Of course.

Whether Wanshan Immortal King knows this is actually not important.

Anyway, Helanbieye has been identified.

That's what he did.

Moreover, there were hundreds of king-level chaos beasts surrounding them.

Prepare to fight him to the death.

...

Zhang Yuhe flew quickly and gradually moved away from the Liufeng Sea area.

He intercepted and killed millions of Chaos Beasts here.

There should be no large group of Chaos Beasts near the entire Liufeng Sea area.

There are only a few left, scattered in various places, and the scattered teams of monks are being captured.

For these scattered chaos beasts.

Zhang Yuhe was completely uninterested.

If you can't kill hundreds of chaos beasts in one wave, what's the point?

If you want to do it, do it big.

If he couldn't get a big one, he might as well rest for a while.

Zhang Yuhe flew quickly all the way, and he pointed his target at the sea area of the river source next to him.

According to the information provided by Wang Guofeng.

There is a huge team of Chaos Beasts that are rapidly advancing towards the Heyuan Sea.

After receiving the news.

Zhang Yuhe quickly ran towards the source of the river without thinking.

The previous wave in Liufeng Sea Really made him happy.

Harvesting millions of Chaos Beasts at once would be a huge harvest.

Moreover, none of the chaotic beasts that enter the South China Sea Immortal Realm are weak.

The weakest ones are all four stars or above, which is equivalent to the golden fairyland among monks.

The corpses of these chaos beasts.

Each one is a precious treasure.

Although Zhang Yuhe does not lack training resources.

But if you can do a little more, who would dislike it.

Moreover.

He also wanted to give it to the future, when he would break through the Great Luo Immortal and overcome the tribulation.

Make more preparations.

Collect some first, and save the corpses of chaos beasts with seven stars or above.

It will definitely come in handy when refining the thunder absorbing pillar in the future.

Even if we can't get it this time, there are millions of corpses of Taiyi Realm Chaos Beasts.

That doesn't matter much.

If you can get it for 100,000 to 80,000 yuan, that's fine.

Not too little for him.

Anyway, he is still far away from the Great Luo Immortal King.

Take it easy.

Take advantage of this opportunity to collect some corpses of Chaos Beasts with seven stars or above.

Over time and over time.

It shouldn't be too difficult to collect millions of corpses of Taiyi Realm Chaos Beasts.

Zhang Yuhe came to the sea area of Heyuan.

A few days later.

Looking at the huge team of Chaos Beasts in the distance.

Zhang Yuhe couldn't help but frown slightly.

He muttered to himself.

"This Chaos Beast team seems a bit strong. I'm afraid it's a bit difficult to handle."

The team of Chaos Beasts in front of them was much stronger than the team in Flowing Wind Sea.

Not only are there more Chaos Beasts.

The key is.

In this team of Chaos Beasts.

Zhang Yuhe felt six powerful auras.

There are three auras among them, which are better than the king-level chaos beast that he killed last time.

Much stronger.

This means.

In this Chaos Beast team, there are six King-level Chaos Beasts.

Section 542

Among them are three king-level chaos beasts that have evolved more than four times.

Zhang Yuhe thought.

He might not be able to handle king beasts with more than four colors.

Unless he is willing, he can directly activate the magical power of Hunyuan Guiyi.

Explode with all your strength.

Otherwise.

It was basically impossible for him to kill three king beasts of four or more colors.

It's just that the cooling time of Chaos's magical power is too long.

After opening it once.

It will take another hundred years before it can be used again.

Zhang Yuhe didn't want to use his ultimate move.

Because this is not only his strongest weapon.

It is also his life-saving trump card.

Such a life-saving trump card.

He doesn't use it lightly.

What if you encounter danger next time and Hunyuan Guiyi's magical power is cooling down.

That's a big deal.

It must be steady.

despite this.

Neither did Zhang Yuhe, who wanted to let go of the team of Chaos Beasts in front of him.

He really can't beat the Chaos Beasts with four stars or above.

But he can fire.

The chaos cannon on the Galaxy Immortal Ship is not a vegetarian.

Now he has five king beast crystal nuclei in his hand.

Can activate the Chaos Cannon five times.

You can definitely do it.

Use the Chaos Cannon on the fairy ship to kill the three Chaos Beasts of four or more colors.

The remaining chaos beasts are completely worth mentioning.

Relying on the sword array and the Nine Heavens Flying Spirit Stick.

He can handle it.

After making up your mind.

Zhang Yuhe drove the immortal ship and rushed directly towards the huge team of Chaos Beasts in the distance.

Chaos beasts filled the sky, rolling forward.

Just at this time.

A tall chaos beast in the team suddenly raised its head and looked into the distance.

This is a seven-color king beast.

Helan Mountain Altar Guard Captain, Helan Xuefeng.

In normal times.

It has been guarding the surroundings of the Helan Mountain Altar.

Belonging to the Helan tribe, a real elite force.

This time for the purpose of invading the South China Sea Fairyland.

The high priest Helan Ruobei also transferred it.

Looking at the stream of light in the distance, it is rushing towards the team at high speed.

Helan Xuefeng's eyes were slightly misty.

It muttered to itself.

"You are really looking for death. A mere Taiyi Immortal Lord dares to challenge the powerful altar guard."

...

Chapter 418 Helan Xuefeng's anger

Helan Xuefeng looked at the fairy ships in the distance that were approaching quickly.

His expression was cold.

it thought to itself.

Is the little Immortal Lord Taiyi relying on an immortal ship?

Do you just want to challenge them, such a powerful team of Chaos Beasts?

See this situation.

Helan Xuefeng couldn't help but think of the Immortal King of Wanshan.

Back when they were here, when they first entered the South China Sea Immortal Domain.

The first battle was fought against the Wanxian Sect.

No idea.

Wanshan Immortal King relied on an immortal ship and actually forced his way out.

Now there was actually another fairy ship, rushing towards them quickly.

Moreover, there is only one Immortal Lord Taiyi on the Immortal Ship.

Still the early Taiyi Immortal Lord.

This is completely ignoring them, such a powerful team of Chaos Beasts.

Think of this.

Helan Xuefeng became even more angry.

As early as a few days ago.

News came from Commander Helan Bieye.

It is said that the Immortal King of Wanshan led the disciples of Wanxian Sect to intercept and kill millions of chaos beasts.

Chaos beasts everywhere are now trying their best to find traces of the Immortal King of Wanshan.

The great commander, Helan Bieye, has gathered hundreds of king-level chaos beasts.

As long as they find traces of Wanshan Immortal King, they will immediately pursue him.

Although the monk in the distance also controls an immortal ship.

But Helan Xuefeng can clearly see it.

This is not the Immortal King of Ten Thousand Mountains.

Because Immortal King Wanshan does not act alone.

Instead, he took the entire sect's disciples to control the fairy ship together.

There was only one monk on the fairy ship in the distance.

the most important is.

This monk's cultivation level is actually only at the early stage of Taiyi Immortal.

He was not the Immortal King of Wanshan, but he actually had the courage to collide with the powerful Helan Mountain troops.

It was simply impatient to live.

I don't know where this monk got his confidence.

Helan Xuefeng thought silently.

Could it be that the actions of Wanshan Immortal King stimulated other monks in the South China Sea Immortal Domain?

Let other monks also feel that as long as they control the fairy ship, there is nothing they can do?

"You're really looking for death."

Think of this.

Helan Xuefeng said to the two king-level chaos beasts beside him.

"Go and capture the monk on the fairy ship."

"Remember, you have to live. After all, it can be considered a pretty good sacrifice."

"Yes, Captain."

Two king-level chaos beasts came out in response.

They jumped up at the same time, preparing to break away from the team and rush towards the fairy ship in the distance.

Zhang Yuhe stood at the front of the fairy ship.

While he was driving the fairy ship to approach at high speed, he was silently observing the team of Chaos Beasts in the distance.

When he saw two king-level chaos beasts, they were about to break away from the team and rush towards him.

Zhang Yuhe no longer hesitated.

I saw him wave his right hand.

The nine fairy swords flew out quickly and fell towards the sea in the distance.

## Section 543

A magnificent sword energy curtain slowly rose on the sea.

The sword energy curtain enveloped the huge chaos beast team.

"No, this is the sword formation of the cultivators. Break the sword formation and rush out."

Seeing the sword formation curtain rising.

Helan Xuefeng immediately felt bad.

It is not like other chaos beasts, which have no brains at all.

Although the cultivators on the fairy ship are only in the early stage of Taiyi Immortal.

It is not worth mentioning at all.

Maybe just send out a few seven-star chaos beasts, and you can kill the opponent.

Despite this.

Helan Xuefeng did not take it lightly.

As soon as he found the fairy ship.

It sent out two powerful king-level chaos beasts to catch the opponent.

What it didn't expect was that.

They haven't started to act yet.

The Taiyi Immortal on the fairy ship actually unfolded such a huge sword formation.

Encircled them all.

Although for a moment, it couldn't judge how powerful this sword formation was.

But Helan Xuefeng thought.

No matter how powerful this sword formation is.

They must rush out first.

Even if this sword formation is just a flower stand.

It doesn't want its team to fall into a possible crisis.

As the captain of the altar guard.

Caution and meticulousness are the most important qualities of Helan Xuefeng.

With its order.

The Chaos Beasts on the periphery of the team quickly pounced on the distant sword formation light curtain.

Because of Helan Xuefeng, this shrewd king beast led the team.

This huge Chaos Beast team really reacted very quickly.

It was completely different from the Chaos Beast team in Liufeng Sea.

"Humph, just a dying struggle."

Seeing this situation, Zhang Yuhe couldn't help but snorted coldly.

Although these Chaos Beasts did react quickly.

But he didn't care at all.

Can they be faster than my sword formation?

As the spell was pinched.

The invisible sword energy in the sky, carrying the terrifying divine power, quickly swept across the sky and the earth.

A large number of Chaos Beasts fell to the ground silently in an instant.

Facing the powerful Nine Heavens Primordial Sword Formation.

Those Chaos Beasts below six stars had no resistance at all.

Even these Chaos Beasts had good defense.

After the sword energy swept through.

It could not quickly cut through the solid shells of these Chaos Beasts.

However, the invisible sword energy was integrated with the powerful power of the Supreme Law.

Among them, the Soul Law was extremely strange.

Attached to the invisible sword energy.

As long as the Chaos Beasts swept by the sword energy, they could directly attack the depths of the soul sea.

Those Chaos Beasts below six stars, how could they withstand such an attack.

Just a round of sword energy swept through.

These Chaos Beasts began to fall to the ground in large numbers.

It was almost just a moment.

On the entire sea surface.

There were only six king-level Chaos Beasts left, plus those Chaos Beasts above seven stars.

There were about ten thousand or so.

At this time, Helan Xuefeng was extremely furious.

Because it was careless for a moment.

The opponent's sword formation actually killed so many Chaos Beasts in Helan Mountain.

This is simply an unforgivable sin.

It thought hatefully in its heart.

After catching the opponent, it must tear it into pieces to relieve the hatred in its heart.

Thinking of this.

Helan Xuefeng waved the spear in his hand and roared loudly.

"Follow me."

However, as soon as Helan Xuefeng took two steps, he felt a strong pressure that instantly descended on his head.

It almost made it unable to move.

"Roar..."

Helan Xuefeng roared.

The spear in his hand waved quickly.

The spear flashed with a strange light, and instantly blocked the invisible sword energy around it.

The terrifying binding force just now was instantly broken by it.

As a seven-color king-level Chaos Beast.

Helan Xuefeng's strength is completely comparable to that of the late Daluo Immortal King.

Zhang Yuhe's Nine Heavens Hunyuan Sword Formation will also have an impact on it.

But as long as it responds with all its strength, it can still break free from the confinement and restraint of the sword formation.

Helan Xuefeng waved his spear while staring at the fairy ship in the distance and ran quickly.

Behind it.

There were two king-level chaos beasts, and they followed closely.

They were a four-color king beast and a six-color king beast.

As for the other chaos beasts on the scene, they could only struggle hard in the sea of sword energy.

With Zhang Yuhe's current strength.

Below the three-color king beasts, they could not get rid of the confinement of the sword formation at all.

At most, they could only struggle for a while.

Those three king beasts were better.

Although they had difficulty moving, they could at least move.

As for those chaos beasts below the king level.

They could only be imprisoned in place and roared in pain.

...

## Chapter 419 Chaos Cannon Fired

Zhang Yuhe stood at the front of the fairy ship.

Looking at the sword formation, Helan Xuefeng brought two powerful king-level chaos beasts.

Completely ignoring the restraining power of the sword formation, they were running towards him quickly.

Zhang Yuhe was not panicked at all.

He snorted with a bit of disdain.

"Hmph, do you really think I can't do anything to you?"

Although the Nine Heavens Chaos Sword Formation could not restrain the king beasts with more than four colors.

If these three king-level chaos beasts rushed to the edge of the sword formation.

Relying on the king-level chaos beast, it has powerful attack capabilities.

It is indeed possible to break through the sword formation.

But is this possible?

Section 544

It is impossible.

Because Zhang Yuhe will not give the other party a chance.

Since he has made up his mind to take action.

Naturally, there is a way to keep all these king-level chaos beasts.

"What is the seven-color king beast?"

"Can it block the chaos beast cannon on the fairy ship?"

Zhang Yuhe muttered to himself silently in his heart.

He just waved his right hand.

An oversized gun barrel stretched out from the front of the fairy ship.

As the spell was pinched.

A huge roar came from the fairy ship.

The sound of the cannon resounded through the sky, and the entire sea surface seemed to fall into a doomsday-like silence.

The void was blasted into a huge black hole by the chaos cannon.

The scorching light illuminated the entire sea surface into a pale white.

The light passed through the black hole and instantly hit Helan Xuefeng.

Boom...

Uh...

Facing the chaos cannon that suddenly appeared on the fairy ship.

Helan Xuefeng did not react at all.

He was directly hit by this terrifying chaos cannon.

The blazing light pierced through Helan Xuefeng.

A huge hole appeared on Helan Xuefeng's chest.

The hole was transparent from front to back, and even emitted a wisp of burnt black smoke.

Helan Xuefeng's running figure stopped instantly.

It looked down at the horrible hole on its chest.

The expression on its face was incredible.

It muttered to itself.

"Impossible, absolutely impossible, how could there be a Chaos Cannon?"

"Isn't the Chaos Cannon a standard feature of an Earth-class Fairy Ship?"

"How could this little Taiyi Immortal Lord have an Earth-class Fairy Ship?"

Helan Xuefeng was extremely unwilling.

In the Helan Mountain Tribe, it was also the honorable captain of the altar guard.

How could it die in a place like the South Sea Fairyland?

It still had many dreams to realize.

It also wanted to capture a large number of sacrifices through this operation.

Dreaming that one day, would it be able to evolve into a Venerable Chaos Beast?

However, no matter how unwilling Helan Xuefeng was, no matter how many dreams it had.

When Zhang Yuhe opened the Chaos Cannon.

All of this turned into a bubble.

Drifting away with the wind.

Helan Xuefeng's eyes widened, and the spear in his hand fell down weakly.

Then with a loud bang, he fell to the ground and left.

The power of the Chaos Cannon is extremely terrifying.

It can be said that it is the number one killing weapon in the fairy world.

It is different from the Immortal Destroying Cannon.

If the top-grade Immortal Destroying Cannon is a certain threat to the Nine-Star Chaos Beast.

Then the power of the Chaos Cannon can completely cause a fatal blow to the King-level Chaos Beast.

Depending on the crystal core that drives the Chaos Cannon.

The greatest power of the Chaos Cannon can kill the Nine-Color King Beast with one shot.

In order to get rid of Helan Xuefeng.

Zhang Yuhe used a precious Nine-Color King Beast crystal core.

Relying on the Nine-Color King Beast crystal core, the violent energy is driven.

Only in this way can it be done, and Helan Xuefeng, the powerful seven-color king beast, be killed with one shot.

From Zhang Yuhe starting the chaos cannon to Helan Xuefeng falling to the ground and dying.

It was just a blink of an eye.

The two king-level chaos beasts that were originally running wildly behind Helan Xuefeng were completely stunned.

They had never thought.

The little Taiyi Immortal Lord in front of them actually had an earth-level fairy ship.

They knew the terrible power of the chaos cannon better than anyone else.

Because this was originally a killer weapon specially developed by cultivators to deal with king-level chaos beasts.

Even the powerful Helan Xuefeng was killed by a single shot of the chaos cannon.

How dare these two king-level chaos beasts move forward?

They quickly turned around and ran wildly to the other side of the sword formation.

In the minds of these two king-level chaos beasts.

They must quickly get away from this terrible devil in front of them.

Taiyi Immortal Lord driving an earth-level fairy ship completely subverted their cognition.

This is so unreasonable.

It's simply cheating.

What's more terrifying is.

This Taiyi Immortal Lord actually has the King Beast Crystal Core that drives the Chaos Cannon.

These two King-level Chaos Beasts can no longer care about other things.

They ran all the way to the distance.

They hoped to break the sword formation and rush out by changing direction.

However, they obviously thought too much.

How could Zhang Yuhe give them another chance.

The Chaos Cannon was fired once and killed a King-level Chaos Beast.

He would not lose money in this deal.

Zhang Yuhe looked at the two King-level Chaos Beasts running wildly in the distance.

His expression was extremely indifferent.

He just waved his right hand.

The Chaos Cannon on the Immortal Ship made two consecutive earth-shaking roars.

The scorching light passed through the void and instantly hit the two Chaos Beasts.

The two powerful King-level Chaos Beasts followed Helan Xuefeng's footsteps.

Soon they fell to the ground unwillingly and left.

Seeing this situation.

Zhang Yuhe nodded with satisfaction.

This was his first time using the Chaos Cannon of the Immortal Ship.

Before this, he had even tested the power of the Chaos Cannon.

There was nothing he could do about it.

The crystal core of the King-level Chaos Beast was too precious.

Even though Zhang Yuhe was rich, he didn't dare to use the King-level Beast crystal core to test the cannon.

However, judging from the effect just now, the Chaos Cannon was indeed powerful enough.

Three King-level Beast crystal cores killed three powerful King-level Chaos Beasts.

Except for the use of nine-color crystal cores against Helan Xuefeng, there was a slight loss.

The remaining two times used four-color and six-color crystal nuclei respectively.

Just in time, two four-color and six-color king-level chaos beasts were killed.

Capital preservation, no loss.

If the corpse of the king-level Chaos Beast is included, then he has made a huge profit.

Zhang Yuhe reached out and fished it out.

The three chaos beast corpses on the ground were put away.

Section 545

As for the crystal core in the corpse, I will collect it later.

He looked up and looked into the distance.

The faces of the Chaos Beasts trapped in the sword formation were full of despair.

Even the most powerful Helan Xuefeng was killed by the Chaos Cannon.

These Chaos Beasts were completely imprisoned by the sword formation.

How could they have a chance to escape.

The remaining Chaos Beasts also began to die one after another.

After a while.

In this huge Nine Heavens Hunyuan Sword Formation.

There were only three king-level Chaos Beasts left.

Originally, Helan Mountain, this powerful team.

There were a total of six king-level Chaos Beasts.

They were the seven-color king beast Helan Xuefeng, a four-color and a six-color king beast,

and the remaining three king-level Chaos Beasts were all three-color king beasts.

Facing the powerful Nine Heavens Hunyuan Sword Formation.

These three-color king beasts could only struggle and approach the outer edge of the sword formation.

They were not willing to die.

They wanted to get close to the edge of the sword formation and then break the sword formation in one fell swoop.

Escape with a life.

What a pity.

The strength of the three-color king beast is obviously still a little bit lacking.

Facing the suppression of the Nine Heavens Hunyuan Sword Formation, their speed can't be improved at all.

More importantly.

Now Zhang Yuhe has freed his hands.

This means.

The end of these three king-level chaos beasts has gradually come.

After the test of the battle in Liufeng Sea.

Zhang Yuhe has a clear understanding of his own strength.

To deal with king beasts below three colors.

He doesn't need to use any special means.

He can slowly smash them to death with the Nine Heavens Flying Spirit Stick in his hand.

With the strength of the early Taiyi Immortal, he fought against the three-color king-level chaos beast.

Not at all.

...

Chapter 420 Helan Bieye's guess

Looking at the countless corpses of chaos beasts covering the entire sea surface.

Zhang Yuhe couldn't help but smile.

Two consecutive waves of harvest really made him a lot of money.

He had harvested more than four million Chaos Beast corpses of various levels.

More importantly.

He had harvested nearly 20,000 Chaos Beast corpses of the Taiyi Realm above the Seven Stars.

Although it was still a long way from the demand of one million.

But this was already a very good start.

There were countless Chaos Beasts from the Helan Mountain Tribe that entered the South China Sea Fairyland.

As long as he kept killing them slowly.

Maybe he could really complete half of the goal of one million Chaos Beast corpses of the Taiyi Realm.

Thinking of this.

Zhang Yuhe was a little excited.

It was still cool to come out and fight guerrilla warfare.

If he continued to stay in the sect station in the Ji'an Sea Area.

How could he have such harvests.

So.

People should be more proactive.

Proactive people are not necessarily lickens, they may also be killers.

Zhang Yuhe sacrificed a pagoda-shaped fairy weapon and collected all the Chaos Beast corpses on the sea.

After doing all this.

He then drove the fairy ship and turned into a stream of light and left.

It's done, I'll leave.

Zhang Yuhe thought.

He should try his best to hide the traces of his actions.

Don't let the Chaos Beasts of Helan Mountain discover his existence.

Otherwise.

If all those powerful King-level Chaos Beasts stare at him.

That would be a bit bad.

Once he is stared to death by the King Beasts.

How can he have a chance to kill so many people like this.

You must keep a low profile.

Only by keeping a low profile can you eat meat.

Those who are arrogant and high-profile will not only not be able to drink soup, but may also be beaten.

...

In the distant Wanshan Sea.

A fairy ship turned into a stream of light and was flying forward quickly.

Behind this fairy ship.

Hundreds of powerful King-level Chaos Beasts were chasing it frantically.

The Wanshan Immortal King stood on the fairy ship, and his brows couldn't help but frowned slightly.

He turned his head to look at the Chaos Beasts behind him.

He muttered to himself.

"Are these king beasts in Helan Mountain crazy?"

"Why have they been biting so hard during this period of time?"

Recently.

Wanshan Immortal King drove the immortal ship and took the disciples of the sect to hunt the scattered chaos beasts everywhere.

However, what he didn't expect was that.

There were several times when they just succeeded.

A large number of king-level chaos beasts immediately chased up.

But Wanshan Immortal King didn't care too much.

Although these king-level chaos beasts seemed to be determined to fight him.

Once they were provoked and targeted.

These king-level chaos beasts would bite them tightly.

But the speed of the Xuan-level immortal ship was fast enough.

As long as he used all his strength to drive the immortal ship.

The distance between the two sides would soon be slowly pulled away.

Every time after getting rid of the pursuit of those king beasts.

Wanshan Immortal King would take his disciples to continue hunting chaos beasts.

That's how stubborn.

Looking at the gradually fading stream of light.

A group of king-level chaos beasts had no choice but to stop.

To be honest.

They are completely fed up with this game of chasing and escaping.

They can't catch up with him, and they can't kill him even if they fight him.

Section 546

There is no point in letting them keep tracking the Wanshan Immortal King.

But they had to obey the orders of Commander-in-Chief Helanbieye.

Watch the fairy ship go away.

All the king beasts were also quite depressed.

"Let's go back first. When we find the Immortal King of Wanshan next time, we will chase after him."

"That's all it can do."

"The Immortal King of Wanshan is really courageless. He only knows how to run away. If you have the ability, stay and fight with us."

I heard the words of a certain king beast.

The other king-level chaos beasts looked at him like fools.

Are you stupid or is Wanshan Immortal King stupid?

Hundreds of king-level chaos beasts besieged one person.

It would be strange if they didn't run away.

After the pursuit failed again.

This king-level chaos beast began to return to the station.

A few days later.

An astonishing news spread among the chaos beasts in Helan Mountain.

A large team led by the altar guard captain Helan Xuefeng.

Suddenly it disappeared.

They should have been killed by the monks from the South China Sea Immortal Domain.

This made other Chaos Beasts feel a great crisis.

Even the powerful Helan Xuefeng would be killed by the monks.

So aren't other Chaos Beasts even more unsafe?

And there is.

Who killed Helan Xuefeng?

In the entire South China Sea Fairyland.

Someone who is truly powerful and can kill Helan Xuefeng.

There is only the Wanshan Immortal King.

Except for the Wanshan Immortal King and the Wanxian Sect led by him.

They really can't think of it.

What kind of power is there in the entire South China Sea Immortal Domain?

There will be such strength.

It was able to kill Helan Xuefeng and wipe out all the millions of chaos beasts.

But the problem is.

Didn't the Wanshan Immortal King always stay in the Wanshan Sea Area?

When did he go to the distant river source and sea again?

Helanbieye stood quietly, above the Ten Thousand Immortals Gate.

His face was gloomy.

just now.

Another huge team of Chaos Beasts suddenly lost contact.

Different from last time.

The last time they led the team were only two three-color king-level chaos beasts.

Among the armies entering the South China Sea Immortal Domain.

The strength of the team last time was indeed not too strong.

It is not a particularly strange thing to encounter a powerful monk and be killed by them.

But this time is different.

The leader of the team this time was Helan Xuefeng.

Helan Xuefeng is a seven-color king-level chaos beast.

The strength cannot be said to be weak.

Moreover, there are five other king-level chaos beasts in the team.

despite this.

This powerful Chaos Beast army was still completely wiped out.

This made Helan Bieye very angry.

"Who could it be? Is it the Immortal King of Wanshan?"

Helanbieye thought for a long time, but could not think of an accurate answer.

Although during this time.

It arranged for the king-level chaos beasts around it to track the Immortal King of Wanshan.

But how to say it.

In fact, the effect is not very good.

Immortal King Wanshan relied on the speed advantage of the immortal ship.

Don't bother with them at all.

As long as the king-level chaos beast appears.

The Immortal King of Wanshan will control the immortal ship and leave the following beast far behind.

Although the Heyuan sea area is far away from the Wanshan sea area.

But Helanbieye still has not ruled out the suspicion of Wanshan Immortal King.

The reason is simple.

In the entire South China Sea Fairyland.

Except for the Immortal King Wanshan.

No one will ever have such strength.

Able to kill Helan Xuefeng, plus a huge team of Chaos Beasts.

The Wanshan Immortal King has this strength, plus there are countless disciples of the Wanshan Sect.

It is not impossible to deal with a million-level Chaos Beast army.

the most important is.

Recently.

Most of the time, Wanshan Immortal King was out of their sight.

That is to say.

Wanshan Immortal King has every chance to run to the Heyuan sea area and kill a wave of people.

Then return to Wanshan Sea Area.

As for his motivation for doing this, it's easy to guess.

That is to drag the main force of the Helan Mountain tribe into the Wanshan Sea.

But he himself brings his sect disciples with him from time to time.

Relying on the speed advantage of the fairy ship, he ran to other sea areas and attacked the large forces of chaos beasts everywhere.

Think of this.

Helanbieye murmured to himself.

"If this is really the case, then Immortal King Wanshan is too insidious."

"But I won't let you succeed again."

Losing two huge teams in a row made Helanbieye quite heartbroken.

But when it comes to breaking your muscles and bones, that's not the case.

In the entire Helan Mountain tribe, there are hundreds of millions of chaotic beasts that have entered the South China Sea Immortal Realm.

This only resulted in a loss of several million, which was enough to affect their plans.

...

## Chapter 421 Changes in Situation

Helanbieye stands quietly, and Wanshan Gate stands in the sky.

It still focused its suspicious eyes on Immortal King Wanshan.

the reason is simple.

Except for the Wanshan Immortal King and the Wanxian Sect.

In the entire South China Sea Fairyland.

There is no one else with such strong strength.

It can wipe out Helan Xuefeng and the millions of huge chaos beasts in one fell swoop.

You can't always tell.

## Section 547

Is there really a Daozu Emperor descending to the South Sea Immortal Realm?

Helan Bieye has already ruled out this possibility.

If there really is a Daozu Emperor descending to the South Sea Immortal Realm,

How can they be so carefree and harvest sacrifices everywhere?

With the means of the Daozu Emperor,

I am afraid that these Chaos Beasts that entered the South Sea Immortal Realm from the Helan Mountain Tribe,

would have been wiped out long ago.

Of course.

In fact, there is another possibility.

That is, the support forces from other immortal realms have entered the South Sea Immortal Realm.

That is why Helan Xuefeng and the huge Chaos Beast team were wiped out.

But so far.

Helan Bieye has not received any news that a large number of cultivators from other immortal realms have entered the South Sea Immortal Realm.

This possibility is not great.

If there really is a large number of cultivators from other immortal realms entering the South Sea Immortal Realm,

it is impossible for it not to know.

Helan Bieye is more willing to believe.

All this was done by the Immortal King Wanshan.

"We must find a way to restrict the actions of the Immortal King Wanshan."

"In addition, we should also make some changes to our plan."

Helan Bieye thought silently in his heart.

The Immortal King Wanshan is powerful and has a Xuan-level fairy ship in hand.

It is indeed difficult for them to have a chance to catch the Immortal King Wanshan.

But if they can't kill the Immortal King Wanshan, they should be able to restrict his actions, right?

In addition, the Chaos Beast armies in various places are indeed a bit too scattered.

According to the original plan.

After entering the South China Sea Immortal Domain.

They sent a troop to each sea area.

The South China Sea Immortal Domain is vast and boundless, with hundreds of large and small sea areas.

After entering the South China Sea Immortal Domain, the Chaos Beasts of Helan Mountain were dispersed into hundreds of large troops.

The number of Chaos Beasts in each troop is more than one million.

And they are all led by King-level Chaos Beasts.

Originally, Helan Bieye thought.

With such a strong strength, it is enough to sweep across the South China Sea Immortal Domain, any force.

There is no need to worry about encountering resistance from the cultivators.

However, judging from the current situation.

It is still too careless.

A million-level Chaos Beast Army, and some King-level Chaos Beasts leading the team.

It is not enough to sweep the entire South Sea Fairyland.

Although the overall strength of the South Sea Fairyland is indeed not too strong.

At least for the Helan Mountain Tribe, this is the case.

However, in the South Sea Fairyland, there is still the Wanshan Immortal King.

A few King-level Chaos Beasts, plus a million-level Chaos Beast Army.

It is not enough to fight against the Wanshan Immortal King and his Wanxianmen disciples.

These scattered Chaos Beast Armies must be integrated to a certain extent.

Helan Bieye thought.

If they gather dozens of Chaos Beast Armies together.

Then even if they encounter the Wanshan Immortal King, they will not be afraid at all.

Even if the Wanshan Immortal King is brave, he dare not challenge such a huge Chaos Beast Army, right?

Thinking of this.

Helan Bieye immediately sent an order.

It allowed large forces from various places to quickly integrate and gather.

Hundreds of originally scattered forces were integrated into eight teams.

With the Wanshan Sea as the center.

Keep a strong Chaos Beast team in each direction.

Eight huge Chaos Beast troops rolled forward all the way, sweeping all the monks they met along the way.

Not only that.

Helan Bieye also drew out some king-level Chaos Beasts from each team.

Quickly concentrated in the Wanshan Sea.

In Helan Bieye's mind.

If the Wanshan Immortal King can be solved once and for all, it would be the best.

Even if the Wanshan Immortal King cannot be killed.

It also wants to suppress the action space of the Wanshan Immortal King by mobilizing a large number of king-level Chaos Beasts.

It wants to make the Wanshan Immortal King have no chance to breathe.

Only in this way.

The Chaos Beast teams in various places of the Helanshan tribe can harvest sacrifices with peace of mind.

And these sacrifices will be safely transported back to the Chaos Continent.

Otherwise.

Every day, they are harassed by the Immortal King Wanshan and his disciples.

Everyone is so nervous that they can't work.

This will seriously affect their efficiency in harvesting sacrifices in various places.

In fact, Helan Bieye knows it very well.

Don't look at their powerful strength and invincibility in the South Sea Immortal Realm.

But that's because the cultivators from other immortal realms have not yet come to support them.

Once the support forces of various immortal realms enter the South Sea Immortal Realm.

They may need to start shrinking their forces and even prepare to go home.

There are dozens of affiliated immortal realms under Tianxing Daozu.

Some immortal realms are even more powerful than the South Sea Immortal Realm.

If a large number of cultivators from other immortal realms enter the South Sea Immortal Realm.

They may not be able to fight.

When that time comes.

No matter what their results are, they must withdraw to the Chaos Continent.

Helan Bieye knows it in his heart.

They need to speed up.

End this harvesting operation as soon as possible.

After all, this is the South Sea Fairyland, the main battlefield of the human cultivators.

If they stay here for a long time,

they will definitely not gain any advantage.

With Helan Bieye's order,

the scattered Chaos Beast troops began to gather quickly.

Dozens of teams from each direction slowly gathered together.

Gradually, eight super-large teams were formed.

In these eight Chaos Beast teams.

The number of Chaos Beasts in each team exceeded tens of millions.

The number of Chaos Beasts in some teams even reached as many as 40 to 50 million.

Not only that.

After the integration of Helan Bieye.

In these eight huge teams.

Each team had dozens or hundreds of King-level Chaos Beasts.

And they must all be led by Nine-color King-level Chaos Beasts.

Section 548

Such a powerful Chaos Beast force.

In the South China Sea Immortal Domain, he is completely invincible.

Even the Immortal King of Wanshan would never dare to provoke him.

All they need now is to roll forward and slowly harvest the sacrifices.

Then just transport these sacrifices back to Chaos Continent in an orderly manner.

In addition to these obvious changes.

Helanbieye is still secretly recruiting king-level chaos beasts to gather in the Wanshan Sea.

It is preparing to gather five hundred king-level chaos beasts and squat on the Immortal King of Ten Thousand Mountains.

if it is possible.

See if you can directly surround and kill the Wanshan Immortal King.

Even if he can't be beaten to death.

That would also severely damage Immortal King Wanshan.

Don't let him dare to come out and cause trouble easily.

Interfering with the harvesting operations of the Helan tribe.

After adjustment in Helanbieye.

The situation in the entire South China Sea Immortal Territory soon changed significantly.

Those marginal sea areas were originally in danger.

It is possible to face a large-scale invasion by Chaos Beasts at any time.

However, now the scattered teams of Chaos Beasts are all gathered together.

This gives those outer sea areas some more breathing space.

But this is all superficial.

In fact, everyone understands.

If there is no obvious turnaround.

Even in the outermost sea area, there is still no escape from the clutches of Helan Mountain.

Being invaded by an army of Chaos Beasts is inevitable.

They can't wait long.

Everyone is praying silently in their hearts.

I hope Immortal King Liuyue, with the support from all the Immortal Territories, can arrive at the South China Sea Immortal Territory as soon as possible.

...

Chapter 422 Make a big wave

Flowing wind sea area.

Zhang Yuhe stood quietly over a certain desert island.

After wiping out two huge teams of Chaos Beasts in succession.

He just kept wandering around, always ready for his next attack.

As long as there is accurate news from Wang Guofeng.

He will pounce immediately.

to be honest.

This kind of mass killing, frantically wiping out the chaos beasts.

It made him really intoxicated.

Because as long as he takes action, he will gain a lot every time.

The feeling of having it served in one pot is simply not that satisfying.

And every time, he can harvest massive chaos beast corpses and crystal cores.

Such a harvest is simply incredible.

The feeling of carrying money in a sack is not so good.

After two consecutive big harvests.

Zhang Yuhe has been waiting for news about Wang Guofeng.

However, in the next period of time.

He felt as if he had been tricked by the Chaos Beast.

Every time Wang Guofeng comes with news.

He would rush over immediately and stay in advance.

It's just that the results every time made him very disappointed.

According to Wang Guofeng's news.

Zhang Yuhe squatted on the advancing route of the Chaos Beast army in advance.

As a result, I ended up squatting lonely.

He didn't wait until the Chaos Beast army arrived.

After a few days.

Wang Guofeng just sent the latest information.

It was said that the army of Chaos Beasts he was guarding had turned around and gone to other places.

Let him miss it.

The key is.

This is not the first time something like this has happened.

But it happened multiple times in a row.

Zhang Yuhe was doubtful for a while.

Is there something wrong with Wang Guofeng's intelligence system?

Why did the Chaos Beast army turn around and run away every time he just passed by?

This is not scientific at all.

Could it be that the Chaos Beast in Helan Mountain could still monitor the communication between him and Wang Guofeng?

This is completely impossible.

Until recently.

Only then did Zhang Yuhe understand what was going on.

It turns out that the Chaos Beasts of the Helan Mountain Tribe have already adjusted their plans.

They integrate hundreds of teams together.

Reassembled into eight super large troops.

The Helan Mountain tribe is centered on the Wanshan Sea Area and faces in eight surrounding directions.

Each integrated into a huge army.

The eight armies of Chaos Beasts advanced mightily.

Only then did Zhang Yuhe react.

No wonder every time he squatted before, he always failed.

Because the army of Chaos Beasts he was squatting before did not advance in the established direction at all.

Rather, it converges and integrates in dynamics.

He squatted in a place and waited stupidly.

Of course, we can't wait for the army of Chaos Beasts.

Everyone turned around and went to join together.

How could he still wait?

Faced with the sudden adjustment of deployment by the Chaos Beast.

Zhang Yuhe really struggled for a long time.

He even thought about it.

Should we just go back to Ji'an waters?

After all, after integration.

The size of the Chaos Beast army.

It has risen from the original level of millions to the level of tens of millions.

If only the number of Chaos Beasts was increasing.

That doesn't matter anymore.

Zhang Yuhe is not afraid of anything else, but he is not afraid of large numbers.

There is the Nine Heavens Chaos Sword Formation.

No matter how many Chaos Beasts there are, it's just a matter of a few sword formations.

As long as he sets up the sword formation.

That's like sweeping leaves.

Can easily wipe out a large number of Chaos Beasts.

Section 549

But the problem is.

Now the army of chaos beasts has expanded dozens of times.

This means.

The number of king-level chaos beasts leading the team will also increase exponentially.

And in this.

There will definitely be super fierce, king-level chaos beasts.

There must be a nine-color king beast.

This is a bit difficult to do.

He couldn't handle the Nine Color King Beast.

Even if the Chaos Cannon is activated, it will be difficult to kill the Nine Color King Beast.

Zhang Yuhe now only has eight king beast crystal nuclei in total.

The Chaos Cannon can only be fired eight times.

And now he doesn't have the Nine Color King Beast Crystal Core in his hand.

It is impossible to kill the nine-color king-level chaos beast with one shot.

even though.

Using a lower-level king beast crystal core, there is a chance that the nine-color king-level chaos beast can be beaten to death.

But that requires firing many times in succession.

He doesn't have the capital.

Moreover.

Facing an army of tens of millions of Chaos Beasts.

The number of king-level chaos beasts is definitely not too small.

There may be hundreds of them.

Even if it is less.

I'm afraid there will be some, as many as dozens.

Facing so many king-level chaos beasts.

The one chaos cannon on the fairy ship is probably not enough.

Even if he had enough crystal cores, he might not be able to kill him.

"Should we continue to ambush the Chaos Beast army?"

About this question.

Zhang Yuhe thought about it for a long time.

Until two days ago.

Wang Guofeng sent him the latest news.

He just made up his mind.

There must be another wave.

Because according to Wang Guofeng's intelligence.

One of the Chaos Beast armies, after integration.

It has re-entered the Liufeng Sea Area and is advancing towards the Jiuli, Tiangong and Ji'an Sea Areas.

That is to say.

If this army of Chaos Beasts is not intercepted in advance.

Maybe it won't be long.

This large-scale chaos beast force will enter the Ji'an sea area.

I really have to wait until then.

In addition to Zhang Yuhe, he took the entire Dao Sheng Sect's disciples and retreated outside the Chaos Continent.

There is no other way.

Tens of millions of chaos beasts will flood into the Ji'an sea area.

The consequences are completely incalculable.

By that time.

He couldn't be killed at all.

Not to mention, he has to protect the sect.

That being the case.

Then he might as well intercept it in the Liufeng Sea area in advance.

Even if they can't be killed, those king-level chaos beasts.

He also wants to get rid of some of those Chaos Beasts below nine stars.

And he's OK, making multiple interceptions.

You can't kill them all at once.

You can put it in the back and kill it slowly.

After all, the Liufeng Sea Area is still a long way from the Ji'an Sea Area.

He has plenty of time and can make multiple interceptions.

After making a decision.

Zhang Yuhe returned to Liufeng Sea Area again.

Standing over a desert island.

He looked up into the distance.

I saw white clouds floating and the sky was blue.

According to Wang Guofeng's information.

It will take some time for the Chaos Beast army to arrive here.

during this time.

He had to make some preparations.

Facing an army of tens of millions of Chaos Beasts, that is no joke.

Don't accidentally get yourself into it.

Although the Galaxy Fairy Ship's defense is amazing.

Even the nine-color king beast would have a hard time destroying the earth-level immortal ship.

But Zhang Yuhe thinks.

He had better be careful.

You can't rely on the earth-level fairy ship and go too far.

"Deploy the sword array first, and then start killing directly after the chaos beast army comes over."

Think of this.

I saw him wave his right hand.

The nine fairy swords quickly fell into the distance.

The fairy sword entered the water and slowly sank to the bottom of the sea.

Looking at the calm sea.

Zhang Yuhe nodded silently.

Wait until the Chaos Beast comes.

He can quickly activate the sword formation.

Then kill them quickly and leave.

Zhang Yuhe put away the fairy ship.

Then he took out a piece of talisman seal and patted it on his body gently.

As the immortal talisman dissipated.

His figure slowly merged into the void.

No trace is visible.

As long as he doesn't take the initiative.

No one will ever discover his existence.

The nine fairy swords sank to the bottom of the sea, and Zhang Yuhe disappeared into the void.

Start waiting silently.

He's preparing for a big one.

Killing at every level.

Until this army of tens of millions of Chaos Beasts was wiped out.

At least all those Chaos Beasts below nine stars must be wiped out.

We can't let them run out and cause harm to the Ji'an waters.

...

Section 550

## Chapter 423: Formation

Liufeng Sea.

A large-scale Chaos Beast team is advancing rapidly towards Jiuli Sea.

Behind them.

The vast Liufeng Sea has turned into a dead land.

A large number of cultivators were swept away by them.

Even the weakest Qi Refining cultivators were captured by the Chaos Beasts of Helan Mountain.

For Chaos Beasts.

Cultivators are their food for advancement to a higher level.

Chaos Beasts do not need to practice.

Their path to evolution is to capture cultivators and then sacrifice them to the Supreme True God.

As long as the sacrifices provided are sufficient and of good quality.

Then they can get feedback from the Supreme True God.

The level of strength will also enter a higher level.

Normally.

The higher the level of the sacrifice, the better the effect of the sacrifice.

But this is not absolute.

As long as the number is large enough.

Even if it is a sacrifice to a Qi Refining cultivator, it can also bring an evolutionary effect to the Chaos Beast.

It is precisely because of this.

Since the Chaos Beasts of Helan Mountain descended on the South Sea Fairyland.

Wherever they passed, it can be said that no grass grew.

Anyone with a little fluctuation in cultivation would be captured by the Chaos Beasts.

Then they would be transported back to the Chaos Continent through the space channel of the Wanshan Sea.

As for those mortals who had no cultivation.

The Chaos Beasts of Helan Mountain did not let them go.

All of them were killed by them.

Chaos Beasts and cultivators seemed to be born enemies who could not coexist.

Whenever the two sides met, they would fight to the death.

There was never any innocence.

Even mortals who were completely worthless to Chaos Beasts.

They would also kill them.

In the huge Chaos Beast team, a tall Chaos Beast.

It was running wildly while vigilantly looking around.

It was the leader of this team.

Nine-color King Chaos Beast, Helan Yufeng.

As a powerful Nine-color King Beast.

Logically speaking.

There is no Daozu in the South Sea Fairyland now.

It should be invincible.

Even if it faces the Immortal King Wanshan, it is fearless.

Even if it cannot defeat him, Helan Yufeng is confident that he can escape.

In such a situation.

It should not be so careful.

After all, besides itself.

There are more than 50 million Chaos Beasts around.

These Chaos Beasts are all the elite forces of the Helan Mountain Tribe.

Enough to sweep the entire Immortal Domain.

What's more.

There are hundreds of King-level Chaos Beasts around Helan Yufeng.

With such a powerful force surrounding it.

What else does it have to worry about.

Despite this.

Helan Yufeng is still extremely vigilant while running all the way.

It has always felt that the previous attacks on the two teams may not be that simple.

To be honest.

It does not agree with Helan Bieye's idea.

According to Helan Bieye.

The previous attacks on the two teams were the work of the Immortal King Wanshan.

But Helan Yufeng does not think so.

Let's not talk about the Immortal King Wanshan, who has been active in the Wanshan Sea.

He has no time to run to the distant Liufeng Sea to ambush.

Even if the Immortal King Wanshan is really playing the routine of making a feint to the east and attacking in the west.

He suddenly ran to the Liufeng Sea.

Helan Yufeng didn't think so.

The Immortal King Wanshan has the strength to wipe out the team led by Helan Xuefeng.

This is almost impossible.

You know.

Helan Xuefeng is not a weakling.

He is the captain of the altar guard, and he is also a seven-color king beast.

Even if he can't beat the Immortal King Wanshan, he should have a chance to escape.

What's more.

There are five other king-level chaos beasts around Helan Xuefeng.

And around them, there are millions of chaos beasts of various levels.

Where does the Immortal King Wanshan have such a strong strength to wipe out Helan Xuefeng's team?

Even if all the disciples of the Wanxian Sect are dispatched, it is impossible to achieve this level.

You know.

None of the Chaos Beasts that followed Helan Xuefeng escaped.

Is the Immortal King of Ten Thousand Mountains so powerful?

It would be fine if he could kill Helan Xuefeng.

Can he kill all the huge army of millions of Chaos Beasts?

In Helan Yufeng's opinion.

This is absolutely impossible.

"There should be other forces that have entered the South China Sea Immortal Realm."

"Or there are more powerful forces hidden in the South China Sea Immortal Realm that have never surfaced."

Helan Yufeng thought silently.

In its opinion.

Maybe the Immortal King of Ten Thousand Mountains is just a piece of red cloth placed in the open.

Deliberately used to attract their attention.

As long as they are not careful, another force will rush out and chop them.

Helan Yufeng looked around vigilantly.

It always felt that it was shrouded in a layer of fog.

Behind this layer of fog, there is a super giant crocodile hidden.

It may jump out and bite them at any time.

The huge army of Chaos Beasts continued to run forward quickly.

Although he had some doubts in his heart.

But Helan Yufeng did not make any changes.

Because this was just his guess and there was no evidence.

More importantly.

Entering the South Sea Fairyland to harvest sacrifices was their original goal.
