

Top talent 551

Section 551

To achieve this goal.

It's impossible for them to just sit in one place and not move.

They want to travel all over the sea.

Only then can all the sacrifices from the entire South China Sea Immortal Territory be harvested.

In order to achieve this goal.

Even if you take some risks, it's worth it.

Moreover.

Maybe it's thinking too much.

Maybe the attack on the two teams before was done by Immortal King Wanshan.

Now the commander-in-chief, Helan Bieye, has recruited king-level chaos beasts from various ministries.

Prepare to squat in the sea area of Wanshan to attack the Immortal King of Wanshan.

At this time, Immortal King Wanshan should not have time to come here to cause trouble.

to be honest.

Although Helan Yufeng felt a little uneasy in his heart.

But he really couldn't think of what could go wrong.

Immortal King Wanshan has been targeted by the commander-in-chief.

It's impossible to run here.

Moreover.

Even if the Immortal King of Ten Thousand Mountains appears, it is not afraid at all.

Helan Yufeng really wanted to meet the Immortal King of Wanshan.

With such a huge army of Chaos Beasts around.

As long as Wanshan Immortal King dares to appear in front of him.

It has confidence.

You can take down the Immortal King of Ten Thousand Mountains.

...

Zhang Yuhe hid his figure and stood quietly in the void.

Looking at the team of Chaos Beasts running wildly in the distance.

He couldn't help but be a little speechless.

It's really spectacular.

Chaos beasts fill the sky as far as the eye can see.

You can't see the edge at all.

Zhang Yuhe is also well-informed.

On the Chaos Continent.

He has also seen many large-scale Chaos Beast teams.

But like this, such a huge team of Chaos Beasts.

It was beyond his imagination.

"Is there probably 40 to 50 million Chaos Beasts?"

Since he did not dare to activate his spiritual consciousness, Zhang Yuhe was not sure.

How many Chaos Beasts are there in this huge team in front of them?

But he conservatively estimated that it must be more than tens of millions.

There should be tens of millions.

"What an exaggeration."

Seeing such an exaggerated team of Chaos Beasts in front of him, Zhang Yuhe couldn't help but marvel.

Chaos beasts filled the sky and rolled in, gradually entering the scope of the sword array.

Just at this time.

Zhang Yuhe suddenly jumped out of the void.

He quickly pressed the magic formula.

At the same time, he shouted softly.

"Get into formation."

A huge sword array light curtain quickly rose on the sea in the distance.

It's just that the team of Chaos Beasts in front of them is too huge.

Even if he has already covered the Nine Heavens Hunyuan Sword Formation.

Expand as much as possible.

Still unable to envelop the entire team of Chaos Beasts.

Not even one-tenth of the Chaos Beasts were actually trapped in the sword formation.

...

Chapter 424 We're in big trouble

I saw the sword array light curtain suddenly rising around me.

Helan Yufeng couldn't help being surprised.

It has been very careful and vigilant all the way.

However, nothing unusual was found.

The suddenly activated sword formation in front of them had obviously been ambushed by monks.

Don't give them a chance to react at all.

A large number of chaos beasts were directly trapped in the sword formation.

Helan Yufeng raised his head and looked into the distance.

I saw a human monk, exuding a powerful aura, standing over the desert island.

"Just a Taiyi Immortal Lord?"

See this situation.

Helan Yufeng couldn't help but frown slightly.

It was originally thought.

Dare to ambush them, such a huge team.

At least they are also a group of Daluo Immortal Kings, and they must be top-notch Daluo Immortal Kings.

How could a mere Taiyi Immortal Lord dare to appear in front of them openly?

Isn't it a scam?

Helan Yufeng looked around vigilantly and found no other abnormalities.

despite this.

There's nothing careless about it either.

No matter where the other party got the courage, they dared to ambush here.

They all have to break the sword formation in front of them first.

To prevent accidents.

Think of this.

Helan Yufeng roared.

"Quickly break the sword formation and capture that Taiyi Immortal."

Roar.....

Countless chaos beasts roared in unison.

The Chaos Beasts that were not trapped in the sword formation quickly turned around and ran towards Zhang Yuhe.

The chaotic beasts trapped in the sword formation quickly rushed towards the light curtain of the sword formation outside.

I want to break the sword formation quickly.

Just at this time.

Zhang Yuhe was seen using the magic formula.

The endless ocean of sword energy quickly swept towards the chaos beast in the sword array.

"No, rush out."

As the sword energy swept across.

Most of the chaos beasts trapped in the sword formation were wiped out in an instant.

Surprisingly, there were only more than a hundred king-level chaos beasts left around Helan Yufeng.

As for those Chaos Beasts below nine stars, they were directly wiped out by a round of sword light.

Not only that.

Those king-level chaos beasts are actually not having a good time either.

When the endless sword energy cuts through.

Section 552

They immediately felt that a huge divine power was coming to them.

Those king beasts below three colors were actually affected by this powerful divine power.

It was so suppressed that even movement was extremely difficult.

Only king beasts with four colors or above can rely on their own powerful strength.

Block out the invisible sword energy to keep your actions unaffected.

See this situation.

Helan Yufeng couldn't help being shocked.

What is this?

How could there be such a powerful Taiyi Immortal Lord in the world?

With just one sword formation, more than five million of them were wiped out.

Not only that.

This powerful sword formation can actually suppress king-level chaos beasts.

This is simply beyond its understanding of Taiyi Immortal Lord.

Although this sword formation was ambushed here by the opponent in advance.

But that's impossible, it would be so strong.

How could a mere Taiyi Immortal Lord exert power far beyond his own cultivation level?

Even with the help of the sword formation, it shouldn't be possible.

But at this time.

It was too late for Helan Yufeng to think too much.

It waved the spear in its hand, blocking out those weird sword auras.

On one side, he rushed towards the sword energy light curtain on the periphery.

Roar.....

Chaos beasts all over the sky roared in unison.

Quickly pounced on Zhang Yuhe in the distance.

I want to crush this Taiyi Immortal Lord, who dares to challenge the majesty of Helan Mountain, into scum.

Looking at the chaos beasts all over the sky, they were rushing towards him quickly.

The sword array light curtain in the distance was bombarded by a large number of chaos beasts from inside and outside.

It will soon become unbearable.

Zhang Yuhe did not bother.

I saw him offering an immortal weapon in the form of a pagoda.

Collect all the corpses of the chaos beasts that were wiped out by the sword light.

Then he reached out and made a move.

A huge fairy ship immediately appeared in the void.

Zhang Yuhe jumped onto the fairy ship.

Nine streaks of light in the distance quickly flew backwards and disappeared into his sleeves.

The huge sword formation disappeared in an instant.

Zhang Yuhe calmly collected the corpses of the Chaos Beasts on the ground.

Then take back the natal immortal weapon.

Then he drove the fairy ship, broke through the void, and disappeared into the distance in an instant.

The only thing left at the scene was the thundering roar of the Chaos Beast.

Helan Yufeng ran with all his strength.

Looking at the direction in which the fairy ship disappeared in the distance, it slowly stopped.

It knows.

With their speed, it was impossible to catch up with each other.

The speed of that fairy ship was unimaginable.

It's not something they can catch up with.

He Lanyu looked into the distance with a gloomy face, and murmured to himself.

"Who is this?"

"When did such a heaven-defying Immortal Lord Taiyi appear in this immortal world?"

The strength Zhang Yuhe showed was completely beyond his knowledge of Taiyi Immortal Lord.

Helan Yufeng thought back silently.

That's right.

That was a Taiyi Immortal Lord.

It is not the Daluo Immortal King who hides his aura.

But the problem is.

How could there be such a powerful Taiyi Immortal Lord in the world?

This is a bit inconsistent with common sense.

besides.

It also couldn't understand the fairy ship just now.

How could the speed of the fairy ship be so fast?

In just the blink of an eye, it disappeared before their eyes.

Even if they want to chase, they can't catch up.

"Is it an earth-level fairy ship?"

Helan Yufeng thought silently.

There are many types of fairy ships.

The more common fairy ship is the yellow-level fairy ship.

Generally, the stronger Taiyi Immortal Lord will have a yellow-level immortal ship.

Further up, there is the Xuan-level fairy ship.

Xuan level immortal ships are rare.

Even the top Daluo Immortal King may not be able to produce a Xuan-level Immortal Ship.

As far as it knows.

In the entire South China Sea Fairyland.

Only Wanshan Immortal King has a Xuan-level immortal ship.

And in a strict sense.

The immortal ship of Wanshan Immortal King is not truly complete.

Because the immortal cannon on the fairy ship is not fully equipped.

despite this.

Wanshan Immortal King can still do it, relying on the Xuan-level immortal ship, under the siege of many chaotic beasts.

Fight your way out and rush out.

As for those above the Xuan level, they are Earth level immortal ships.

Earth-level fairy ships are extremely precious.

Even those Tao Ancestor Holy Lands couldn't get much.

"Will it be an earth-level fairy ship?"

Looking in the direction where Zhang Yuhe disappeared.

Helan Yufeng muttered silently to himself.

If it is an earth-level fairy ship.

Then they will be in big trouble.

The earth-level fairy ships not only have strong defensive capabilities, but can also shuttle and fly in the void.

The speed was extremely fast.

Unless the supreme Chaos Beast takes action.

Otherwise.

No matter how many Chaos Beasts there are, they can't stop an Earth-level fairy ship.

more importantly.

The earth-level fairy ships will definitely be equipped with chaos cannons.

Think of this.

Helan Yufeng couldn't help but feel a chill in his heart.

It knows the power of the Chaos Cannon better than anyone else.

If the opponent has enough crystal nuclei in his hand.

Even the nine-color king beast will be blasted to death.

"Did Helan Xuefeng be killed by the chaos cannon on this fairy ship?"

Section 553

Helan Yufeng felt that it seemed to have guessed the key to the problem.

No wonder the two huge Chaos Beast teams disappeared silently.

The opponent can set up a powerful sword formation, and there is also a terrifyingly powerful Earth-level fairy ship.

Ordinary Chaos Beast teams naturally cannot stop it.

As long as the opponent has enough King Beast crystal cores.

There is no problem at all to kill a few King-level Chaos Beasts.

"I'm afraid there will be big troubles in this harvesting operation."

Helan Yufeng muttered to himself silently.

It knows.

They are in trouble this time.

And it's a big trouble.

...

Chapter 425 Adjustment of Deployment

Helan Yufeng stared at the sky, his heart filled with infinite sorrow.

I don't know when such a heaven-defying Taiyi Immortal Lord appeared in the South China Sea Fairyland.

What should they do next?

It's difficult.

At this time.

The hundreds of King-level Chaos Beasts behind them also caught up at this time.

Looking at their originally huge team, it seemed that someone had dug out a piece of it in the middle with a knife.

Everyone felt inexplicably heartbroken and fearful.

In just a blink of an eye.

Nearly five million Chaos Beasts were wiped out.

How terrifying is this?

Should they continue to move forward?

What if the other party attacks again.

How should they deal with it.

Thinking of this.

The King-level Chaos Beasts couldn't help but feel a little powerless.

Although they are powerful.

Hundreds of King-level Chaos Beasts gathered together.

This is an extremely powerful force.

With such power.

It can almost flatten most of the fairyland in the fairy world.

However, facing a Taiyi Immortal Lord who came out of nowhere.

They were completely powerless.

It's not that they can't beat him.

But they can't catch up at all.

The other party has an Earth-level Immortal Ship.

It can break through the void and shuttle.

How can they chase?

What makes them feel even more uncomfortable is.

That Taiyi Immortal Lord not only runs very fast.

And the killing power is also extremely terrifying.

One set of sword formations.

It wiped out their nearly five million troops.

You know.

These Chaos Beasts that entered the South Sea Fairyland are the elite forces of the Helan Tribe.

They can only watch the other side.

Wipe out their elite forces and then leave.

If the other side comes a few more times.

Then their huge team will be killed by the other side?

Without the huge Chaos Army as a backup.

Only these king beasts are left, and they can't do anything.

We can't let them, these noble king-level Chaos Beasts.

Go and capture the sacrifices themselves.

Even if they are willing to put down their status and capture the sacrifices themselves.

They can't catch much.

If you want to capture a large number of sacrifices, you still have to rely on the huge Chaos Beast team.

In other words.

They must ensure that their huge team will not lose a large number of people.

Otherwise.

They could do nothing but go home.

At this time.

An eight-colored king beast came forward and asked Helan Yufeng.

"Commander, what should we do next?"

"Should we continue to move forward?"

"The Taiyi Immortal Lord just now must be in front, waiting for us to pass."

Helan Yufeng was silent.

Of course it knew.

Zhang Yuhe must be waiting in front.

As long as they continue to move forward, they will definitely be attacked.

But what can they do?

Even if they run back now, the other party will probably catch up.

Do they have to let them all stay where they are?

This is obviously not possible.

Besides.

Capturing the sacrifice is the ultimate goal of their action this time.

Everything they do is centered around this goal.

If they stay where they are, how can they capture the sacrifice?

Can they wait for the sacrifice to come to them?

Helan Yufeng understands.

No matter how big the difficulties are.

Sweep across the South Sea Immortal Realm, harvest the sacrifices from various seas, and transport them back to the Chaos Continent.

This goal cannot be shaken.

Besides, they are just encountering some troubles now.

It is far from time to give up.

After all, everyone can see the opponent's strength.

It is far worse than them.

Except for the terrifying sword formation and the speed advantage of the earth-level fairy ship.

In other aspects, it is not worth mentioning at all.

They can send out a few king-level chaos beasts to kill the opponent.

The premise is that the opponent does not run.

Helan Yufeng thought.

As long as they take precautions, they should be able to ensure that their team will not be attacked again.

Thinking of this.

Helan Yufeng said lightly.

"Keep moving forward. Capturing the sacrifice is a task assigned by the tribe. We can't give up halfway."

"As for the Taiyi Immortal Lord just now?"

Section 554

"As long as we take precautions seriously, the other party should not be able to gain any advantage."

Soon, Helan Yufeng adjusted the deployment.

It deployed the king beasts of four colors and above on the periphery of the team.

Protect the safety of the entire team.

From the situation just now.

The other party has no way to take the four-color king beast.

As long as they expand the scope of vigilance, the safety of the team should be guaranteed.

With Helan Yufeng's order.

The huge chaos beast team continued to roll forward and advance towards the Jiuli Sea.

At the same time.

Helan Yufeng also sent a warning message to Helan Bieye, far away in the Wanshan Sea.

Now everything is clear.

The two teams that disappeared before were not done by Wanshan Immortal King.

It was this unknown Taiyi Immortal Lord.

Wanshan Sea.

Helan Bieye stood quietly above the base of Wanxianmen.

After receiving the message from Helan Yufeng.

It was very shocked.

"So that's it."

It muttered to itself silently in its heart.

Before that.

Helan Bieye had always regarded the Immortal King of Wanshan as their biggest enemy in the South Sea Immortal Domain.

Now it seems that he was wrong.

It turned out that in this South Sea Immortal Domain, there was a more terrifying existence than the Immortal King of Wanshan.

Although the opponent was only a Taiyi Immortal Lord.

But he had a strong killing power.

And there was also a ground-level immortal ship.

They basically had no chance to catch up with the opponent.

Relying on the speed advantage of the immortal ship.

The opponent was completely invincible.

They couldn't catch up with the Xuan-level immortal ship of the Immortal King of Wanshan.

Not to mention the ground-level immortal ship.

"Fortunately, it was only a Taiyi Immortal Lord. If it was a Daluo Immortal King, it would be even more troublesome."

Helan Bieye secretly rejoiced.

The opponent only had the cultivation of Taiyi Immortal.

Even if the combat power was against the sky, he didn't dare to confront the king-level chaos beast head-on.

This was their advantage.

This time, their Helan Mountain tribe had a total of thousands of king-level chaos beasts that entered the South Sea Immortal Domain.

Helan Bieye thought.

With this advantage.

Although they can't do anything to each other.

But if they want to continue to capture the sacrifice, they should still be able to do it.

A Taiyi Immortal who can only sneak around can't become a big force.

"Daosheng Sect, Zhang Yuhe, hum."

Helan Bieye snorted coldly.

Through the message from Helan Yufeng.

It already knows that the Taiyi Immortal who sneaked up is Zhang Yuhe.

The reason is very simple.

That terrible sword formation is Zhang Yuhe's signature magical power.

As long as you pay a little attention, you can find information about this.

"Let Helan Yufeng deal with him."

"After the Daosheng Sect's nest is flattened, see where he can run to."

Thinking of this.

Helan Bieye immediately sent a message to Helan Yufeng.

Let it not care about the loss.

Advance all the way to the Ji'an Sea.

Helan Bieye thought.

After the Daosheng Sect's mountain gate in the Ji'an Sea is flattened.

Without a way out, Zhang Yuhe would be much less of a threat.

Maybe he would even retreat to the Chaos Continent.

In that case,

their actions to capture the sacrifice would no longer be disturbed.

...

Chapter 426: Head-on Charge

Zhang Yuhe glanced at the seven-color king-level Chaos Beast in the distance.

He quickly turned around and left with the fairy ship.

After a wave of sneak attacks.

He did not leave too far.

Instead, he slowly hung behind.

He was sure to defeat this Chaos Beast team.

One round wiped out five million Chaos Beasts.

At most, only ten rounds of sword formation were needed.

This huge Chaos Beast team could be basically wiped out.

As for those king-level Chaos Beasts, he had no interest at all.

Unless the Chaos Cannon on the fairy ship was activated.

Otherwise.

If he wanted to kill a king-level Chaos Beast,

even the weakest one-color king beast.

He would have to spend a lot of time.

And in this team.

There are hundreds of king-level chaos beasts in total.

They will not give him a chance to fight one-on-one.

Zhang Yuhe hangs behind the team.

Whenever he wants to sneak over.

He will find a king-level chaos beast with four colors or more blocking the periphery of the team.

This makes him very uncomfortable.

The king beast leading the team this time is obviously a little smart.

Those powerful king beasts are arranged on the periphery of the team.

Then roll forward.

After reaching the target location.

The team will be dispersed to various places to capture those scattered monks.

Faced with such an arrangement.

Zhang Yuhe has no way.

In fact, he can also kill king beasts with four colors or more.

Just start the chaos cannon on the fairy ship.

But he doesn't want to waste crystal cores.

If he doesn't kill them with one shot, he will lose a lot.

At present, he has only eight king beast crystal cores.

The highest level one comes from the seven-color king beast Helan Xuefeng.

Section 555

That is to say.

As long as he wants.

You can kill the seven-color king beast with one cannon.

But Zhang Yuhe didn't have this idea.

Under the current situation.

It doesn't make much sense to kill individual king-level chaos beasts.

There were hundreds of king-level chaos beasts at the scene.

Even if he kills a few, what's the use?

In case the body is not recovered.

That is a losing business.

Zhang Yuhe is still insisting on his previous thoughts.

Don't get entangled with these king-level chaos beasts.

As long as all the chaos beasts below nine stars are wiped out.

He ran away immediately.

The seven-color king beast saw Zhang Yuhe walking away and did not pursue him.

It can't catch up with the earth-level fairy ships.

And tell the truth.

It was still a little afraid of the chaos cannon on the fairy ship.

If not there is no way.

It was also unwilling and stayed on guard outside the team.

So far though.

It has not seen Zhang Yuhe activate the chaos cannon on the fairy ship.

In the thoughts of these chaotic beasts.

Maybe Zhang Yuhe doesn't have the king beast crystal core.

But it didn't dare to gamble.

What if there is still a king beast crystal core left in Zhang Yuhe's body.

If it chases too closely.

Zhang Yuhe turned around and gave it a shot. Wouldn't that mean the game was over?

Anyway, the task given to him by Helan Yufeng was to be responsible for perimeter security.

As long as Zhang Yuhe no longer attacks the Chaos team.

It doesn't want to pay attention either.

Zhang Yuhe drove the fairy ship and quickly shook off the seven-color king beast.

He stood at the front of the fairy ship and looked at the huge team of Chaos Beasts in the distance.

I felt very helpless.

These king-level chaos beasts are really hateful.

Has always been on the outside of the team.

He had no chance at all to rush forward and launch the sword formation.

"It's a bit difficult."

See this situation.

Zhang Yuhe was a little depressed.

"Why don't you just give it a try?"

Zhang Yuhe stood at the front of the fairy ship, thinking silently in his heart.

If you want to sneak up there, there is no chance.

He wants to wipe out this team of Chaos Beasts.

Just rush hard.

The defense of the earth-level fairy ship is very strong.

Can block the attack of the king beast.

Normally.

Even if he is faced with the siege of hundreds of king-level chaos beasts, he can still kill him.

"Just do it."

Think of this.

Zhang Yuhe changed direction again and quickly rushed towards the Chaos Beast team in the distance.

He didn't want to waste any more time.

After quickly dealing with this team of Chaos Beasts, they returned to the waters of Ji'an.

The situation in the South China Sea Immortal Territory is now very clear.

The Helan Mountain tribe divided all the chaos beasts into eight teams.

As long as he gets rid of the team in front of him.

Well for a long time to come.

There will no longer be Chaos Beasts looking for trouble in the waters of Ji'an.

Roar.....

Seeing Zhang Yuhe, he rushed over again.

The seven-color king beast let out a thundering roar, and then quickly came forward.

It couldn't let Zhang Yuhe rush to the team's side.

Otherwise.

Once that terrifying sword array falls again.

It will bring a fatal blow to their team.

Hear the roar of the seven-color king beast.

Helan Yufeng quickly stopped.

It roared.

"All king-level chaos beasts, immediately move to the southwest to provide support."

After saying this.

It waved the spear in its hand and quickly jumped out of the team.

He ran straight towards Zhang Yuhe in the distance.

Helan Yufeng knew it very well.

Don't let Zhang Yuhe have any chance to get close to the Chaos Beast team.

They must intercept Zhang Yuhe from the team.

The other Chaos Beasts are still rolling forward.

Hundreds of king-level chaos beasts quickly turned around and rushed towards Zhang Yuhe.

They didn't expect to do anything to Zhang Yuhe.

After all, it has been shown in many previous attempts.

What Zhang Yuhe was driving was indeed an Earth-level immortal ship.

They can't catch up.

But in their opinion.

It doesn't matter if you can't catch up.

Just drive Zhang Yuhe away.

during the recent period.

They have done this many times.

Every time they rushed over, Zhang Yuhe could only run away.

It didn't bring any loss to them.

Although this is just a stupid way, and I feel very frustrated.

But it has to be said.

Helan Yufeng's arrangement is indeed very effective.

At least for a while.

They won't suffer any more losses.

Zhang Yuhe stands at the front of the fairy ship.

Looking at the king-level chaos beast running quickly in the distance, his expression was indifferent.

He would like to take a look.

Can these king-level chaos beasts be able to defeat the earth-level immortal ships?

Zhang Yuhe steered the fairy ship without even changing direction.

He faced hundreds of king-level chaos beasts and rushed over.

Section 556

Boom...

The Seven-Colored King Beast, who was on guard outside, was the first to come forward.

It waved the spear in its hand and swiftly bombarded the fairy ship.

The deafening roar quickly spread to the surroundings.

On the surface of the fairy ship, a faint stream of light flashed.

It directly shook away the spear of the Seven-Colored King Beast.

Zhang Yuhe stood at the front of the fairy ship.

Nine fairy swords surrounded his body and slowly flowed.

Facing the attack of the Seven-Colored King Beast, he didn't even move.

The defense of the Earth-level fairy ship is no joke.

With the Seven-Colored King Beast alone, it wants to break through the defense of the Galaxy Fairy Ship.

I'm afraid it may not be able to do it even if it is exhausted.

Zhang Yuhe took a look at the Seven-Colored King Beast that was shaken back, and he ignored it.

These king-level chaos beasts are all iron turtles.

He can't beat them either.

The huge team in the distance, those chaos beasts below nine stars, are soft persimmons.

They are his dishes.

The Immortal Ship continued to move forward, turning into a stream of light and rushing towards the Chaos Beast team in the distance.

...

Chapter 427 The Death God Patrolling the Sky

Roar...

Seeing the Immortal Ship passing by.

The Seven-Colored King Beast let out a thunderous roar.

Then it hurriedly chased after it from behind.

It couldn't let Zhang Yuhe rush forward any further.

It had to stop Zhang Yuhe.

Otherwise.

Once Zhang Yuhe rushed a distance further, it could launch the terrifying sword formation.

At this time.

Helan Yufeng led hundreds of King-level Chaos Beasts and had already come up.

It was seen waving its spear and rushing head-on towards the Galaxy Immortal Ship.

Seeing this situation.

Zhang Yuhe frowned slightly.

He wanted to turn around and avoid Helan Yufeng.

After all, this was a Nine-Colored King-level Chaos Beast.

The violent momentum was not comparable to other King Beasts.

It was very fierce.

However, Zhang Yuhe looked in other directions.

All the king-level chaos beasts around him have surrounded him.

If he changes direction now.

He might be surrounded.

The defense of the Galaxy Immortal Ship is definitely beyond words.

There is no problem for the Earth-level Immortal Ship to withstand the attack of the king-level chaos beasts.

But if there are too many king-level beasts surrounding him, it will be a problem.

Although the Earth-level Immortal Ship can withstand the attack of the king beasts.

But if hundreds of king-level chaos beasts attack the Galaxy Immortal Ship together.

Zhang Yuhe is not very sure.

If the Immortal Ship is damaged, it will be nonsense.

"Just rush forward, don't be surrounded."

Zhang Yuhe almost didn't think about it.

He drove the Galaxy Immortal Ship and rushed directly to Helan Yufeng.

Damn it.

Aren't you a nine-color king beast, very powerful?

I will just hit it.

The Immortal Ship rushed straight forward like a silver lightning.

Seeing this situation.

Helan Yufeng's heart trembled.

Originally, he just wanted to force Zhang Yuhe back.

But the opponent just rushed straight up.

This made him a little scared.

In the previous battle with the cultivators, Helan Yufeng had seen the power of the Earth-level Immortal Warship.

Surrounded by the chaos beasts, the Earth-level Immortal Warship can move freely.

Now the opponent rushed over like this.

This made him a little embarrassed.

Should he get out of the way first, or go straight up?

Helan Yufeng just hesitated for a moment.

Then he gritted his teeth, waved the spear in his hand, and went straight up.

There was no way.

He couldn't let Zhang Yuhe rush through this line of defense.

Because behind him.

Is a huge team of chaos beasts.

Once it didn't stop him and let Zhang Yuhe rush over.

That means.

The tragedy of the last time will be repeated immediately.

As long as Zhang Yuhe unfolds the sword formation.

That terrifying invisible sword energy could instantly harvest the lives of millions of Chaos Beasts.

Helan Yufeng had no choice.

It was the leader of this team.

It couldn't retreat.

The huge Galaxy fairy ship crossed the sky and crashed directly into Helan Yufeng.

Helan Yufeng waved the spear in his hand, trying to repel the fairy ship.

However, before his spear could hit the fairy ship.

Helan Yufeng was directly knocked away by the Galaxy fairy ship.

The speed of the earth-level fairy ship was as fast as a stream of light.

Helan Yufeng wanted to intercept it head-on.

It must be said that he thought too much.

Helan Yufeng vomited blood, and his tall body was knocked back quickly by the fairy ship.

Blood was all over the sea.

And Helan Yufeng's figure quickly disappeared in front of everyone.

No one knew where he was knocked away.

At this time, other king-level Chaos Beasts were surrounding him.

Seeing this situation.

They couldn't help but take a breath of cold air.

Even the strongest Helan Yufeng was knocked away by the fairy ship.

And judging from the situation.

Helan Yufeng should be seriously injured.

How could they dare to move forward again?

Just when these king-level chaos beasts were stunned for a while.

Zhang Yuhe had already driven the fairy ship and rushed over the chaos beast army.

Section 557

I saw him wave his right hand.

The array of nine swords quickly fell into the distance.

A huge sword energy light curtain slowly rose around the periphery.

Zhang Yuhe was driving the fairy ship while quickly using the magic formula.

The boundless sword energy swept across the world in an instant.

As the sword energy swept across the sky.

Millions of Chaos Beasts with nine stars and below quickly fell silently.

Zhang Yuhe quickly turned his sword array and enveloped the Chaos Beast next to him.

Because this team of Chaos Beasts is really too large.

Even if he deployed the sword formation with all his strength, he could only trap a small part of it.

Since there is no way to kill them all in one wave.

Then kill more waves.

Before those king-level chaos beasts could react.

See if you can kill all these Chaos Beasts below nine stars.

Zhang Yuhe quickly deployed the sword formation while piloting the fairy ship.

The boundless chaos beasts were quickly harvested by the sword energy.

Over the fairy ship.

Zhang Yuhe sacrificed a pagoda-shaped space fairy weapon.

Quickly collect the chaos beast corpses on the ground.

It only takes a moment.

Zhang Yuhe has already changed the sword formation three times in a row.

There are at least tens of millions of Chaos Beasts harvested by him.

Just at this time.

Those king-level chaos beasts finally came over.

But when I saw Zhang Yuhe transformed into the God of Death, he was rapidly harvesting the lives of the Chaos Beast.

They didn't dare to step forward at all.

Faced with Zhang Yuhe's powerful harvest.

The boundless chaos beasts were completely immersed in fear.

They rushed to the outside one after another, trying to escape the fate of being harvested.

However, it was obviously too late for them to run away at this time.

The Galaxy Fairy Ship stretches across the sky, and the sword array light curtain covers the sky and the earth.

These chaotic beasts from the Helan Mountain tribe have nowhere to escape.

Roar.....

A thundering roar came from a distance.

Helan Yufeng's figure appeared on the horizon.

I saw that at this time, its chest seemed to have a large dent.

A lot of blood is still flowing as if it is free of money.

It was hit by the Galaxy Fairy Ship just now.

It really hit it hard.

In other words, the chaos beast has tenacious vitality.

If it were a monk.

Even the top Daluo Immortal King.

If they were hit head-on by an Earth-level immortal ship, they would probably be killed directly.

At this time, Helan Yufeng could not care about his injuries at all.

It roared loudly at the other king-level chaos beasts.

"Hurry and arrest that man, and the whole army will be disbanded quickly."

Following Helan Yufeng's order.

The king-level chaos beast, which was originally lingering on the periphery, had no choice but to rush forward.

As for disbanding the team?

In fact, there is no need to say it.

The huge army of chaos beasts had already dispersed when Zhang Yuhe appeared.

It's just that there are so many Chaos Beasts crowded on the sea, with nowhere to escape.

Such a huge army of Chaos Beasts cannot be disbanded just by disbanding.

This has to take time.

However, Zhang Yuhe was like the god of death patrolling the sky.

How can we give them time?

It is precisely because of this.

Helan Yufeng then forced the surrounding king-level chaos beasts.

Let them rush up and drag Zhang Yuhe.

Buy enough time for the Chaos army to disband and escape.

Now Helan Yufeng didn't dare to think about anything anymore.

It didn't want to harvest the sacrifices anymore, and it had no intention of forcing Zhang Yuhe back.

Because it knows.

They simply can't do it.

Now it just hopes to buy some more time.

It allows more Chaos Beasts to escape from the scimitar of Death.

In Helan Yufeng's view.

Zhang Yuhe, the little Taiyi Immortal Lord, is the terrible god of death.

And their huge army of chaos beasts faced the harvest of death.

There was no resistance at all.

They are needed now, and the king beast in the tribe steps forward.

Buy some more time for those poor Chaos Beasts to escape.

...

Chapter 428 Bombardment of the Nine Colored King Beast

Under the forced order of Helan Yufeng.

Hundreds of king-level chaos beasts on the periphery finally plucked up the courage and pounced on him again.

Zhang Yuhe glanced into the distance.

But he ignored it.

First, try your best to sweep away all the chaos beast army in front of you.

As for those king-level chaos beasts, he really didn't have much interest.

Too hard to kill.

Unless the Chaos Cannon is activated.

Of course.

If those king-level chaos beasts must come together to die.

Then he doesn't mind, one shot for a king beast.

After all, this is not a loss-making business.

Zhang Yuhe deployed his sword formation again and quickly harvested the prey in his mind.

The army of Chaos Beasts fled in all directions.

But under his sword formation.

These chaotic beasts cannot escape too far.

Every time the sword array is deployed, millions of chaos beasts can be harvested.

The huge army of chaos beasts, after his quick harvest.

It has become sparse.

Just at this time.

Those king-level chaos beasts finally rushed forward.

They waved the accompanying weapons in their hands and continuously bombarded the Galaxy Fairy Ship.

The fairy ship erupted with violent roars and moved quickly through various violent atmospheres.

See this situation.

Zhang Yuhe couldn't help but frown.

Section 558

It doesn't seem to work this way.

The Galaxy's defense is really powerful.

But if these king-level chaos beasts continue to attack like this.

They may not be able to hold out for too long.

"Damn it, if I don't show you some color, you probably don't know how powerful the Earth-level fairy ship is."

Thinking of this.

Zhang Yuhe continued to quickly harvest the army of chaos beasts while controlling the sword formation.

While pinching the magic formula.

A thick gun barrel stretched out from the front of the fairy ship.

He waved his right hand.

A crystal core with a violent breath filled the groove of the chaos cannon.

Seeing the chaos cannon on the fairy ship.

The king-level chaos beasts who were besieging were greatly panicked.

They didn't think about it and immediately fled in all directions.

That was the chaos cannon, a unique weapon that killed king-level chaos beasts.

Although they didn't know how many king beast crystal cores Zhang Yuhe had.

But even if there was only one left.

They didn't dare to gamble with their lives.

No one wants to hit the muzzle of the gun.

Seeing these king-level chaos beasts, they began to flee everywhere.

Zhang Yuhe snorted coldly.

"Hmph, if I don't pick up a chicken to kill, you still think I'm a soft persimmon."

He looked at a three-color king-level chaos beast in the distance.

Then he waved his right hand.

Boom...

A deafening sound came from the front of the fairy ship.

The scorching light passed through the void and instantly hit the three-color king beast.

The three-color king beast fell straight to the ground without struggling for a moment.

Zhang Yuhe drove the fairy ship and rushed over quickly.

He collected the king beast corpse on the ground.

Just now, he just filled in a three-color king beast crystal core.

In other words, he could only kill the three-color king beast.

But this is enough.

His target has never been these king-level chaos beasts.

Zhang Yuhe's goal is to achieve a deterrent effect.

Let these king-level chaos beasts dare not rush forward easily.

Otherwise.

A bunch of king-level chaos beasts surrounded the Galaxy and bombarded it.

That was a bit difficult to handle.

As the cannon sounded, a three-color king beast fell to the ground.

Other king-level chaos beasts no longer dared to move forward.

Even though Helan Yufeng let out a deafening roar.

These king-level chaos beasts were still dawdling in the distance.

There was no way.

Their lives were important.

Although chaos beasts were violent and were known for their bravery and fearlessness.

But as they continued to evolve.

At the king level, they also cherished their lives.

After forcing all the surrounding king-level chaos beasts to retreat.

Zhang Yuhe continued to harvest happily.

As many as 50 million chaos beasts, after his continuous harvest.

Only a small half was left.

Roar...

Seeing this situation.

Helan Yufeng in the distance let out a deafening roar.

It endured the severe pain in its body, waving its spear, and rushed up again.

Some of the king-level Chaos Beasts around were not very obedient.

Then it could only go up by itself.

Zhang Yuhe turned his head and looked at Helan Yufeng.

At this time, Helan Yufeng's chest had already sunken a lot.

A lot of blood flowed down his chest as fast as if it was free.

Wherever Helan Yufeng passed, the sea surface turned red.

Despite this.

In order to save the remaining Chaos Beast army.

It still rushed up bravely.

Other king beasts can retreat.

But it can't.

Because it is the leader of this army.

If the Chaos Beast army is all killed by Zhang Yuhe.

Then it, Helan Yufeng, will have the face to go back.

So even if it is seriously injured.

It has to delay Zhang Yuhe and buy more time for those poor Chaos Beast army.

Now it no longer hopes to retreat with all its troops.

But even if only a small part of it escapes, that's good.

Besides.

Helan Yufeng is full of confidence in his current strength.

It is a noble nine-color king beast.

In addition to the power of the honor level.

It is the top power in the entire fairy world.

Who can kill it?

Even if Zhang Yuhe has a ground-level fairy ship.

Helan Yufeng is not afraid.

It doesn't believe that Zhang Yuhe can still take out the nine-color king beast crystal core.

As long as there is no nine-color king beast crystal core to drive.

The chaos cannon on the fairy ship is not enough to bring a fatal threat to it.

"Really looking for death."

Seeing Helan Yufeng rushing up so bravely.

Zhang Yuhe couldn't help but sigh.

But this is indeed looking for death.

Although he doesn't have the nine-color king beast crystal core on him now.

But there is still a seven-color king beast crystal core.

And Helan Yufeng is not in normal condition.

His chest is sunken, such a big piece.

Doesn't it know?

It only has half of its life left, does it still need the Nine-Colored King Beast Crystal Core?

It should be enough to use the Seven-Colored King Beast Crystal Core to drive the Chaos Cannon.

If it's not enough, then fire a few more shots.

Zhang Yuhe looked at Helan Yufeng who was running towards him.

He muttered to himself.

"Since you are so stubborn, I will give you a ride."

Section 559

Think of this.

I saw him wave his right hand.

A crystal core shining with seven colors of light filled the groove of the Chaos Cannon.

Zhang Yuhe turned around the Galaxy Fairy Ship and stared ahead with cold eyes.

Boom...

Follow the magic formula and pinch it.

A loud noise came from the fairy ship.

The scorching light opened a black hole in the void and directly bombarded Helan Yufeng's chest.

Because he was seriously injured.

This shot directly penetrated Helan Yufeng.

But it didn't fall to the ground.

Chaos beasts are very tenacious and are not easily killed.

What's more, it is also a nine-color king beast.

Roar.....

Helan Yufeng let out a thundering roar.

It feels that its life force is passing quickly.

If it doesn't run, it might die here.

It took a look and saw that there were not many Chaos Beasts left in the distance.

Then he turned around helplessly and prepared to run away.

Helan Yufeng understood.

What happened today is a foregone conclusion.

Even if it risked its life, it could not save the army of chaos beasts in front of it.

That being the case.

It's better to save your own life first.

As for saying you have no face to go back?

Compared to one's own life, what does face mean?

Think of this.

Helan Yufeng endured the severe pain in his body, quickly turned around, and prepared to run away.

Zhang Yuhe stands at the front of the fairy ship.

Seeing Helan Yufeng, he actually wanted to run away.

He couldn't help but snorted coldly.

"Huh, it's already like this. Why run away? Just stay here."

...

Chapter 429 Even if there are 50 million pigs, one person can't kill them all.

Seeing Helan Yufeng, he actually wanted to run away.

Zhang Yuhe will naturally not let it go.

This is the nine-color king-level chaos beast.

If it hadn't been a coincidence just now, he would have been seriously injured by the Galaxy Fairy Ship.

It's definitely not that easy to deal with.

I think back to when I was in Niulan Mountain.

In order to kill the high priest Niu Man.

Wanshan Immortal King and Liuyue Immortal King took a lot of effort.

If Zhang Yuhe hadn't intercepted it in front.

Maybe Niu Man might have run away back then.

Chaos beasts are full of treasures, especially the nine-color king beast.

Both fur and bones can be used to refine precious immortal weapons and elixirs.

As for the crystal core of the Nine Color King Beast, let alone that.

If there is no way.

That's something you can't buy with money.

Now Helan Yufeng only has one breath left and may die at any time.

Just like that, it still wants to escape?

How could Zhang Yuhe let it go?

I saw him wave his right hand.

A crystal core shining with six colors of light instantly filled the groove of the Chaos Cannon.

Boom...

The chaos cannon on the fairy ship once again made a loud noise.

The scorching light passed through the void and struck Helan Yufeng again.

Helan Yufeng turned around with difficulty and glanced at Zhang Yuhe in the distance.

Then he fell to the ground unwillingly and threw himself into the street.

The majestic nine-color king beast of the Helan Mountain tribe was hit by the fairy ship.

Coupled with two rounds of chaos cannon fire, he was killed immediately.

have to say.

Helan Yufeng's death was indeed a bit inexplicable.

If it doesn't seek death.

If Zhang Yuhe really takes it, there is nothing he can do.

Without the nine-color crystal core in hand, even the chaos cannon on the fairy ship.

It is also difficult to kill the Nine Color King Beast.

However, Helan Yufeng wanted to commit suicide.

As a result, he was hit by the Galaxy and seriously injured.

Then he dared to rush to Zhang Yuhe even though he was half-dead.

Meat brought to your mouth.

If you don't eat it.

Zhang Yuhe felt a little sorry for himself.

The other king-level chaos beasts around saw Helan Yufeng fall to the ground and throw themselves into the street.

He couldn't help but roar in panic.

They looked at the Galaxy Fairy Ship in the distance, as if they were seeing the scimitar of Death.

The expressions on his face were all full of fear.

Even Helan Yufeng, a powerful nine-color king beast, could be killed.

How dare they come forward again?

You wouldn't die with something like this.

There are hundreds of king-level chaos beasts, and they can't care about anything now.

They all turned around and ran away.

If it were before that.

They still suspected that Zhang Yuhe might not have the king beast crystal core in his hands.

Without the crystal core drive, the chaos cannon on the fairy ship is just a decoration.

Now they no longer dare to think so.

Zhang Yuhe fired three shots in a row.

Killed with one shot, a three-color king beast.

Two cannons killed Helan Yufeng.

In the eyes of these king-level chaos beasts.

Zhang Yuhe is like a bottomless abyss.

It is possible to swallow them all at any time.

If they continue to charge forward, they may soon turn into a pile of cannon fodder.

Seeing the king-level chaos beasts in the distance, they all scattered and ran wildly.

Zhang Yuhe couldn't help but laugh.

Chaos beasts also cherish their lives.

to be honest.

There were so many king-level chaos beasts at the scene, and he was really helpless.

Without enough crystal cores, he wouldn't be able to kill a few of them.

Section 560

But under the threat of Chaos Cannon.

These king-level chaos beasts have completely lost the courage to fight again.

Whether it is seven-color, eight-color king beasts, or those king beasts with three colors or less.

Everyone is running away.

I want to get away from that terrible abyss as soon as possible.

Watching those king beasts flee in all directions.

Zhang Yuhe did not pursue him.

Just run away.

His target has never been these king-level chaos beasts.

Although the king-level chaos beast is extremely ferocious.

But in terms of the destructive power to the South China Sea Immortal Realm, the massive army of Chaos Beasts is much greater.

After all, the number of king beasts is limited.

No matter how powerful they are, how many people can they kill?

The entire South China Sea Immortal Territory is so big.

Even if all the king-level chaos beasts in Helan Mountain were sprinkled down.

That wouldn't make much of a splash.

Only the massive army of Chaos Beasts is the real threat to the South China Sea Immortal Domain.

An army of hundreds of millions of Chaos Beasts will be deployed in full force.

Just like locusts passing through, they will wipe out all the creatures in the South China Sea Immortal Realm.

There is no interference from those king beasts.

Zhang Yuhe once again transformed into the god of death patrolling the sky, quickly harvesting the scattered army of chaos beasts.

The sword array unfolded again and again, and a large number of chaos beasts fell down in pieces.

I don't know how much time has passed.

Zhang Yuhe finally stopped.

He glanced around.

I saw that the sea surface at this time had completely turned into blood.

As for the originally huge army of Chaos Beasts, they have long since disappeared.

Except for a few chaos beasts, who escaped in the chaos.

An army of up to 50 million Chaos Beasts were all wiped out by him.

Because there were too many Chaos Beasts killed.

The pagoda-shaped space artifact was almost too small to hold.

After making sure that there were no more scattered Chaos Beasts around.

Zhang Yuhe breathed a sigh of relief.

He was a little numb.

That's as many as 50 million Chaos Beasts.

Moreover, these chaos beasts are all the elites of the Helan tribe.

Even fifty million pigs can kill people.

What's more, these are the elite Chaos Beasts.

Zhang Yuhe glanced across the sky and murmured to himself.

"There should be nothing wrong for the time being. Let's go back first."

Think of this.

The Yinhe Fairy Ship drew an arc in the air and flew quickly towards the Jiuli Sea Area.

The Chaos Beasts from the Helan Mountain Tribe who entered the South China Sea Immortal Territory were divided into eight large armies.

Now Zhang Yuhe has wiped out all the large forces in Liufeng Sea Area.

in a short period of time.

It should be difficult for the Helan Mountain tribe to organize their forces and pose any threat to the Ji'an sea area.

As for the seven armies of chaos beasts in other directions, Zhang Yuhe ignored them.

He is just a Taiyi Immortal Lord, and it is impossible to completely solve these invading chaos beasts.

For Zhang Yuhe.

He just needs to ensure that the Ji'an sea area will not be invaded by chaos beasts.

He can't control places that are too far away.

The monks in other sea areas can only hope for their own blessings.

I hope Immortal King Liuyue can quickly lead the supporting forces and enter the South China Sea Immortal Domain.

If it comes too late.

I am afraid that the entire South China Sea Immortal Territory will become a dead land.

Helanbieye stood tall, with the Ten Thousand Immortals Gate stationed in the sky, his face extremely gloomy.

It just received the message.

The army of chaos beasts led by Helan Yufeng has been completely wiped out.

Even Helan Yufeng himself died under the Chaos Cannon.

when receiving the message.

Helanbieye could hardly believe that this was true.

How is this possible?

That is an army of fifty million Chaos Beasts.

The only enemy is Zhang Yuhe, who is just an early stage Taiyi Immortal Lord.

A Taiyi Immortal Lord could actually kill an entire army of fifty million Chaos Beasts.

And it also includes Helan Yufeng, the powerful nine-color king beast.

This is simply impossible.

Even if it's 50 million pigs.

It's impossible for Zhang Yuhe to kill them all by himself.

What's more, it's a powerful Chaos Beast.

Moreover, there are hundreds of king beasts guarding around the chaos beast army.

How did Zhang Yuhe do it?

Helanbieye couldn't believe it at all.

Could it be that the information is wrong?

However, after repeated confirmation.

Helanbieye had to accept this terrible fact.

The entire 50 million Chaos Beast army was really gone.

...

Chapter 430 Orderly Evacuation

After repeated confirmation.

Helanbieye had to believe that the 50 million Chaos Beast army was really gone.

And indeed, they were all killed by Zhang Yuhe alone.

Because there are still some fish that slipped through the net this time.

As for those king-level chaos beasts, most of them were not dead.

They sent messages to Helanbieye one after another.

By integrating information from all aspects.

Helanbieye finally understood what happened there.

Zhang Yuhe relied on the power of the earth-level immortal ship to directly charge into the chaos beast army.

Even hundreds of king-level chaos beasts struggled to intercept them.

In the end they were unsuccessful.

Helan Yufeng even stood in front of the fairy ship.

Want to stop the fairy ship.

The result was undoubtedly that he was directly hit by the fairy ship and was seriously injured.

Later, he was killed by two consecutive shots from the chaos cannon on the fairy ship.

Thinking of this.

Helan Bieye couldn't help but curse him as an idiot.

Doesn't Helan Yufeng know the power of the Earth-class Immortal Ship?

He actually dared to block the Immortal Ship directly.

Maybe he thought he didn't die fast enough.
