

## Top talent 561

Section 561

The Earth-class Immortal Ship itself is a powerful weapon.

Even if the Chaos Cannon on it is not activated.

The Immortal Ship itself can break through the void.

Facing such a terrible weapon.

Helan Yufeng actually dared to block the Immortal Ship directly.

If it doesn't die, who will die.

Helan Bieye was speechless.

Why don't you think of other ways to delay it?

Do you have to go forward and die?

As for those Chaos Beast armies, there is nothing to say.

The King-class Chaos Beasts can't stop Zhang Yuhe.

Facing Zhang Yuhe's Nine Heavens Hunyuan Sword Formation, those Chaos Beast armies.

How can they survive?

Naturally, they will be wiped out.

The Chaos Beasts that can finally escape may not exceed tens of thousands.

They can basically be ignored.

Thinking of this.

Helan Bieye couldn't help but slapped angrily.

He smashed a tall mountain in front of him into powder.

He gritted his teeth and muttered to himself.

"Dao Sheng Zong, Zhang Yuhe."

"Just wait for me, Helan Mountain will not let you go."

After a long time.

Helan Bieye took a deep breath and slowly calmed down his anger.

Now it needs to consider how to deal with the current situation.

Generally speaking.

At present, the actions of the Helan Mountain tribe in the South Sea Fairyland are relatively smooth.

Except that they fell a few times because of Zhang Yuhe.

The Chaos Beast armies in other directions did not encounter much resistance.

A large number of cultivators were captured by them and are being transported back to the Chaos Continent.

Even the Wanshan Immortal King who has been making trouble everywhere has not made any moves recently.

Helan Bieye has drawn king-level Chaos Beasts from various troops to support the Wanshan Sea Area.

More than 500 king beasts have been patrolling all over the Wanshan Sea Area for a long time.

Let the Wanshan Immortal King never find a chance to attack again.

In recent times.

The Wanshan Immortal King has completely disappeared.

Helan Bieye thought.

The Immortal King of Wanshan should have gone to other seas, or simply retreated to the Chaos Continent.

No matter where the Immortal King of Wanshan went.

At least in the recent period, he did not cause any trouble to them.

The situation was originally very good.

If the current situation continues to develop like this.

Maybe in a few decades.

They can completely sweep away the entire South Sea Immortal Domain.

All the sacrifices can be safely transported back to the Chaos Continent.

If that really happens.

Then the strength of their Helan Mountain tribe will inevitably increase rapidly.

Even Helan Bieye himself.

There is a great chance that he can take the opportunity to be promoted to a supreme Chaos Beast.

However, Zhang Yuhe woke him up completely with one stick.

The 50 million Chaos Beast army was completely wiped out.

If it happens a few more times.

Then these Chaos Beast armies that entered the South Sea Immortal Domain.

Wouldn't they be wiped out by Zhang Yuhe alone?

“We must think of a way?”

Helan Bieye muttered to himself silently in his heart.

...

Jiuli Sea, Jiuli Island.

Because the Ji'an Sea has relaxed the entry requirements for monks.

A large number of monks from the Jiuli Sea have flocked to Jiuli Island.

They want to escape to the Ji'an Sea through the teleportation array on the island.

Although.

Facing the invasion of the Helan Mountain Tribe, the Ji'an Sea may not be a safe place.

As the Chaos Beast Army rolls forward.

Maybe it won't be long.

They will advance to the Ji'an Sea.

But for now.

The Ji'an Sea is their only way out.

Even if this way out is also short-lived.

Everyone did not hesitate.

Because the Liufeng Sea next door has been swept away by the Chaos Beast.

It has completely become a dead area.

There is not even a living person in the entire sea.

Recently, everyone has been looking at the distant Liufeng Sea with fear.

They are afraid that the Chaos Beast Army over there will rush into the Jiuli Sea.

But what makes them feel strange is

Now, a long time has passed.

After sweeping the Liufeng Sea Area.

The Chaos Beast Army there did not advance to the Jiuli Sea Area.

This made everyone feel very strange.

Did the Chaos Beast Army turn around and go to other sea areas?

Or things have taken a turn for the better, and a powerful force has intervened in the South Sea Fairyland.

Have the Chaos Beast Army withdrawn?

Although the Chaos Beast Army has not entered the Jiuli Sea Area.

But everyone is not lucky.

Everyone wants to escape from the Chaos Beasts as soon as possible.

The Jiuli Sea Area is too dangerous.

It is possible to face the invasion of Chaos Beasts at any time.

A large number of cultivators gathered in Jiuli Island.

Everyone looked at the magnificent building in the center of Jiuli Island.

That is where the teleportation array is located.

Countless cultivators lined up outside the teleportation hall in an orderly manner.

Whether it is the high-ranking Golden Immortal cultivators or the ordinary cultivators below the True Immortals.

All they could do was line up obediently.

No one dared to complain.

Because in the teleportation hall, disciples of the Daosheng Sect were maintaining order.

Anyone who complained would be turned away.

Those who dared to cause trouble were all killed.

Compared to the declining Jiuli Sea Area.

The Daosheng Sect in the Ji'an Sea Area was a mountain that they could only look up to.

Section 562

The Dao Sheng Sect not only has many disciples, but also has nearly a thousand Jinxian elders.

the most important is.

Daosheng Sect also has three Taiyi Immortal Lords in charge.

In particular, the reputation of the Galaxy Immortal Lord has spread throughout the entire South China Sea Immortal Territory.

All the monks in Jiuli Sea Area understand.

The Dao Sheng Sect was something they couldn't afford to offend.

not to mention.

They still have to go through the teleportation array to take refuge in the waters of Ji'an.

In this situation.

Who else dares to act wild here?

Everyone could only obey the Dao Sheng Sect's arrangements and wait in line outside the teleportation hall.

Anyway, the army of Chaos Beasts in Flowing Wind Sea has not come over yet.

They still have enough time to evacuate.

The order at the scene was cautious.

Countless monks layer upon layer spread over the entire Jiuli Island.

Waiting to walk towards the bright road of life.

...

Chapter 431 Prosperous Ji'an Sea Area

Li Tian stands in the sky above the teleportation hall.

Looking at the crowd of people outside, he couldn't help but feel a little worried.

There are so many monks in the entire Jiuli Sea Area.

Just such a teleportation array.

How long will it take?

Only then can all the monks be evacuated.

After receiving the summons from Zhang Yuhe.

Lu Yunfei immediately arranged for Li Tian.

Let him lead the sect disciples to teleport to Jiuli Island and assist the monks here to evacuate to the Ji'an sea area.

However, as time passed slowly.

Li Tian discovered.

The number of monks coming to Jiuli Island has not decreased.

Instead, it became more and more.

The monks from the entire Jiuli Sea Area are all rushing towards this side.

Relying on this only teleportation array.

How is it possible to evacuate all the monks from the entire sea area?

What should we do if the Chaos Beast army comes to kill us?

He couldn't leave behind the monks all around him and just return to the Ji'an sea area.

Although these monks from Jiuli Sea Area have nothing to do with him.

But think of this.

Li Tian still couldn't bear it.

It's a pity that his strength is limited.

Even if he wanted to save, he saved everyone.

Even though the teleportation array on the island is running continuously.

But the monks who can really pass through the teleportation array and safely evacuate to the sea area of Ji'an.

It is estimated that even half of it may not be possible.

Li Tian raised his head and looked towards the distant flowing wind sea area.

He muttered to himself.

"I hope the army of Chaos Beasts over there won't come too fast."

According to the news from the sect.

The army of Chaos Beasts has already wiped out the entire Liufeng Sea area.

Almost all the monks who once lived there were captured by the Chaos Beasts.

Those mortals without cultivation were also killed by the Chaos Beasts.

The entire Liufeng Sea Area has long become an extremity.

The sect once reminded him.

It is estimated that the army of chaos beasts in Liufeng Sea will soon enter Jiuli Sea.

Let him be as prepared as possible.

Once he found that something was wrong, he immediately led the sect disciples and retreated to the Ji'an sea area.

Staring at the distant sky, I felt deeply helpless.

Just at this time.

A stream of light streaked across the distant sky.

The huge Galaxy Fairy Ship soon appeared in the sky above the Teleportation Hall.

Saw Zhang Yuhe arriving.

Li Tian's face was filled with surprise.

He immediately stepped forward and shouted respectfully.

"metropolitan."

Zhang Yuhe nodded lightly.

He glanced around.

Seeing the monks all over the sky, I felt a little overwhelmed.

He wanted to evacuate all the monks in the Jiuli Sea Area to the Ji'an Sea Area.

It's really a big problem.

Fortunately, there is no longer an army of Chaos Beasts nearby.

They still have time to slowly organize their forces to retreat.

Li Tian raised his head and looked into the distance, and asked Zhang Yuhe with a worried expression.

"Sect Master, what's the situation outside now? How long can we hold on here?"

Hear this.

Zhang Yuhe responded with a smile.

"Don't worry, it's okay for now. I have wiped out the army of Chaos Beasts nearby."

"For the time being, it shouldn't be possible for another Chaos Beast to come and interfere with your evacuation."

Li Tian's mouth opened slightly, and he was too shocked to speak.

Zhang Yuhe went out to hunt chaos beasts, but Li Tian didn't know about it.

Only Lu Yunfei and Wang Guofeng, who was responsible for providing intelligence, knew about this matter.

Li Tian didn't expect it at all.

This sect leader of his own had actually wiped out all the surrounding Chaos Beast army.

No wonder it took so long.

He didn't even see the army of Chaos Beasts from the Liufeng Sea enter the Jiuli Sea.

It was really hard for him to imagine.

How powerful is this lord of our clan?

Able to wipe out so many chaos beasts.

In fact, he had already received the news.

The army of Chaos Beasts gathered in the Flowing Wind Sea is at least tens of millions in size.

With so many Chaos Beasts, can the Sect Master really kill them all by himself?

This is too terrible.

Li Tian really couldn't believe it.

Zhang Yuhe seemed to see Li Tian's thoughts.

he said with a smile.

"Don't worry, at least there won't be any more Chaos Beasts coming to interfere with your evacuation recently."

After saying this.

Zhang Yuhe stepped onto the teleportation array.

With a flash of light, he disappeared from the hall in an instant.

He walked out of the teleportation hall in Ji'an Market.

Section 563

Looking at the streets, the scene was a bit too prosperous.

Zhang Yuhe was a little surprised.

Because the monks from various seas were constantly teleporting to the Ji'an Sea.

This made the number of monks in the Ji'an Sea expand rapidly.

A large number of monks poured into the Ji'an Sea.

It brought an unusually exaggerated prosperity to the immortal path in the Ji'an Sea.

In fact, this was exactly what Zhang Yuhe was aiming for.

Otherwise.

He didn't have to lead the monks from other seas into the Ji'an Sea.

He could just do the same as other remote seas.

Close the teleportation array to prevent the monks from the outer seas from entering.

But Zhang Yuhe didn't do that.

The teleportation array in Ji'an Market has been operating normally.

Even the teleportation array leading to the Galaxy Fairy City has not been closed.

As long as those monks are willing to pay a high teleportation fee.

Dao Shengzong can teleport them to the Galaxy Fairy City.

There is the Chaos Continent.

Compared to the current South China Sea Fairyland.

The Chaos Continent is simply a blessed land of happiness and peace.

But it costs money.

Dao Sheng Zong naturally can't work for nothing.

Want to go to the Chaos Continent.

Yes.

Bring money.

If you don't have money, you can use other treasures to exchange.

No matter whether these cultivators finally stay in the Ji'an Sea.

Or teleport to the Galaxy Fairy City.

For Dao Sheng Zong.

This is a business that is sure to make a profit.

These cultivators teleported to the Ji'an Sea.

Naturally, they didn't come empty-handed.

They must have brought all their assets with them.

With a large number of cultivators pouring into the Ji'an Sea.

Along with it, a large number of skills and magical powers spread in the Ji'an Sea.

All kinds of strange spiritual medicines and fairy mines also appeared on the market.

This makes the entire Ji'an Sea like a holy land.

Whatever you want to find, you can buy it on the market.

The treasures that were originally hidden in the bottom of the box were also taken out for trading.

Today, the prosperity of the Ji'an Sea has surpassed that of any other place in the South China Sea.

You can say that.

As long as the invasion of the Helan Mountain tribe can be successfully repelled.

Then in the near future.

The Ji'an Sea will soon become the first holy place for cultivation in the entire South China Sea.

Although these cultivators are only temporarily staying in the Ji'an Sea.

After the Chaos Beast is repelled.

They will still return to their original hometown.

But not everyone will go back.

There will definitely be many cultivators willing to stay.

These cultivators are the foundation of the future prosperity of the Ji'an Sea.

Of course.

If the Chaos Beast of the Helan Mountain eventually invades the Ji'an Sea.

Then everything is naturally floating clouds.

But Zhang Yuhe believes.

They should be able to defend.

Let the Ji'an Sea become a pure land for cultivators.

Because just now.

He received a message from Lu Yunfei.

The support forces led by the Immortal King Liuyue are gathering in Tianxing City at this time.

It is estimated that it will not be long before we enter the South Sea Fairyland.

At that time.

It will be a full-scale war between the cultivators and the Chaos Beasts.

Before the winner is determined.

The Chaos Beasts of Helan Mountain will no longer have the energy to organize forces to invade the Ji'an Sea.

...

## Chapter 432 News from all parties

After returning to the Galaxy Hall of Daosheng Sect.

Zhang Yuhe immediately called Lu Yunfei and Wang Guofeng.

After the three of them sat down.

Lu Yunfei asked him.

"Master, you didn't encounter any danger this time."

Zhang Yuhe nodded gently.

"Fortunately, I have the Galaxy Fairy Ship to protect me, and those Chaos Beasts can't do anything to me."

"But the strength of the Helan Mountain tribe is indeed much stronger than I imagined."

"There are hundreds of king-level Chaos Beasts in any one dispatch."

Hearing this, Lu Yunfei also said with emotion.

"Yes, the twelve Chaos Beast tribes of the Sea of Origin."

"Each tribe has existed since the birth of the fairyland."

"After a long period of evolution, the number of top Chaos Beasts accumulated in the tribe is simply too numerous to count."

"As far as I know, even the weakest tribe has more than 10,000 king-level Chaos Beasts."

"If you count the king beasts in those affiliated tribes, it's not too strange to even exceed 100,000."

Zhang Yuhe nodded.

The civilization of Chaos Beasts is much older than the civilization of the fairyland.

What's more, these twelve tribes have been circulating over the years.

And they have basically never suffered too much of a blow.

The top Chaos Beasts in the tribe will naturally increase.

This time, the Helan Mountain Tribe has entered the South China Sea Fairyland with King-level Chaos Beasts.

There are at least thousands of them.

This is just a small part of the Helan Mountain Tribe's strength.

If they go all out.

Not to mention a South China Sea Fairyland.

I am afraid that even if dozens of immortal realms around join forces, they will not be able to withstand the attack of the Helan Mountain tribe.

Fortunately, there are many Daozu emperors on the cultivator side.

The twelve major tribes of the Sea of Origin do not dare to be too presumptuous.

Otherwise.

Once the Daozu emperor fights for his life.

It is not difficult to destroy one or two tribes.

Although there are Supreme Chaos Beasts in all the major tribes.

And there are quite a lot of them.

However, the Daozu Great Emperor among the cultivators is stronger than the Supreme Chaos Beasts.

Section 564

In particular, the three tribes of humans, demons, and demons each have a top Taoist ancestor.

These three Taoist ancestors all master an innate Taoist weapon.

Ordinary noble-level chaos beasts can't even catch the blow from the innate Taoist weapon.

It is precisely because of this.

Only the monks and the chaos beasts can always maintain a balance.

Just like this time, the Helan tribe invaded the South China Sea Immortal Domain.

They only sent out five noble-level chaos beasts.

This is not because they are too big.

But they also want to guard against the Dao Ancestor Emperor from other directions.

He didn't dare to put all his strength into the South China Sea Immortal Domain.

Otherwise.

Once they all come out.

The Dao Ancestor Emperors in other directions must take away their nests.

As for the king-level chaos beast, this is even more true.

Although there are more than a thousand king-level chaos beasts entering the South China Sea Immortal Domain.

But this number is not even one-tenth of the entire Helan Mountain tribe.

More king-level chaos beasts still stay in the vast territory of the Helan Mountain tribe.

They don't dare to move out easily.

Stay and guard the house.

Thinking of the Helan Mountain tribe, such a powerful force.

Zhang Yuhe couldn't help but sigh.

He spoke slowly.

"There are so many king-level chaos beasts in Helan Mountain that we can't kill them all."

"I can only wipe out those nine-star and below chaotic beasts that are advancing towards the Ji'an sea area."

"As for those king beasts, I really can't do anything."

Lu Yunfei nodded gently at first.

Suddenly I seemed to remember something.

he asked in shock.

"Sect Master, what are you talking about? You just said that you have killed all the Chaos Beasts that want to invade the Ji'an sea area?"

Next to him, Wang Guofeng also had a look of astonishment.

He is in charge of all intelligence in various places.

He knew only too well how powerful the Chaos Beast troops were.

The army of Chaos Beasts advancing towards the Ji'an sea area numbered at least fifty million.

So many chaos beasts were killed by the sect leader alone?

This is incredible.

Zhang Yuhe nodded slightly and responded with a smile.

"About that. Even if there are some fish that slip through the net, there probably won't be many left."

"And those Chaos Beasts probably won't have any plans to attack us in a short period of time."

Lu Yunfei and Wang Guofeng looked at each other.

Almost all of them couldn't believe it was true.

If these words were not spoken by Zhang Yuhe.

They would never believe it.

It's incredible that one person wiped out the entire Chaos Beast Legion.

After a while.

Wang Guofeng said in amazement.

"No wonder I haven't heard any news about that army of Chaos Beasts in recent times."

"It turns out that they have already been killed by the sect master."

Zhang Yuhe pondered for a while.

He turned to Wang Guofeng and asked.

"How is the situation in other directions in the South China Sea Immortal Territory now?"

Wang Guofeng responded slowly.

"According to the latest news, the other seven Chaos Beast troops seem to have accelerated their actions."

"There are many more sea areas that have been exterminated by chaos beasts."

"According to my estimation, if things don't turn around again."

"In ten years at most, the entire South China Sea Immortal Territory may only be left with these dozens of sea areas southwest of us."

Zhang Yuhe turned to look at Lu Yunfei.

"Palace Master Lu, what do you say from the Ten Thousand Immortals Sect? You sent me a message before, saying that Immortal King Liuyue is gathering the forces of various immortal realms in Tianxing City."

"How long will it take for them to fully enter the South China Sea Immortal Realm to support them?"

Although the Immortal King of Wanshan has been fighting guerrillas in the waters of Wanshan, his whereabouts are somewhat uncertain and contact is difficult.

But the Ten Thousand Immortals Sect is not the only one led by the Immortal King of Ten Thousand Mountains.

They still left many sect disciples in the Ten Thousand Immortals City of Chaos Continent.

It is through the Ten Thousand Immortals City that messages are sent to all forces in the South China Sea Immortal Territory.

Only then can everyone know the news about Liuyue Immortal King.

Once Immortal King Liuyue arrived, he led the support forces from various immortal realms.

At that time, those forces that have retreated to the Chaos Continent will naturally follow them back.

The South China Sea Immortal Realm is everyone's foundation.

It is impossible for everyone to abandon the foundation of the South China Sea Immortal Domain and concentrate all development on the Chaos Continent.

If there is no South China Sea Immortal Territory, this rear area.

Those forces that retreated to the Chaos Continent will sooner or later disappear in the long river of history.

Without a steady stream of backup forces, how could one party's power continue to exist?

Lu Yunfei pondered for a while.

He spoke slowly.

"Fellow Taoist Cheng of Wanxian Sect, you just sent me a message."

"According to what he said, the powerful men from all the major immortal realms are gathering towards Tianxing City."

"However, due to the fact that Liuyue Immortal King has summoned quite a lot of high-end combat power this time."

"It will take about three years for them to get it all together."

"Three years."

Zhang Yuhe muttered silently to himself.

They could afford to wait three years.

After he wiped out an army of Chaos Beasts.

In the entire southwest of the South China Sea Immortal Territory, there was no trace of the Chaos Beast again.

Even if the chaos beast army in other places wants to turn around and invade the Ji'an sea area.

That was many years later.

In other words.

As long as the support force led by the Immortal King Liuyue can arrive on time.

Then the Ji'an Sea can successfully overcome this crisis.

Of course.

There is a big premise here.

That is, the support force led by the Immortal King Liuyue must be able to repel the invading Chaos Beasts.

But Zhang Yuhe believes.

This should not be a big problem.

The power of Helan Mountain entering the South China Sea Fairyland is basically clear.

The Immortal King Liuyue has been preparing for so long.

There is no reason that he can't defeat the invading Helan Mountain Chaos Beasts.

...

Chapter 433 The Confused Immortal King Wanshan

After Zhang Yuhe returned to Daosheng Sect.

The feat of his multiple ambushes and continuous annihilation of tens of millions of Chaos Beasts gradually spread in the South China Sea Fairyland.

After he came back.

## Section 565

The Daosheng Sect did not deliberately keep it secret.

And such a thing cannot be kept secret for a long time.

After all, in the last operation.

There were hundreds of king-level chaos beasts that were not killed by him.

And there were also some scattered chaos beasts that escaped from the chaos beast army.

As time went by.

Zhang Yuhe's continuous actions to wipe out the chaos beasts would naturally be known to others.

...

A deserted island in the Wanshan Sea.

The Wanshan Immortal King stood above the deserted island, his face full of sorrow.

Ever since the chaos beasts from the Helan Mountains invaded the South China Sea Immortal Domain.

The mountain gate station of the Wanxian Sect was immediately breached by the chaos beasts.

Although he led the sect disciples to kill out with the Xuan-level fairy ship, strong defense and speed advantages.

The overall strength of the Wanxian Sect did not suffer too much loss.

But the sect station that had been passed down for countless years was lost in his hands.

This made the Wanshan Immortal King feel very frustrated.

He thought he was quite strong.

Especially after being promoted to Daluo Immortal King.

He basically never encountered an opponent again.

Among the Daluo Immortal Kings in the entire fairy world, he can be regarded as the top.

However, this time he was beaten to a pulp by the Chaos Beasts of Helan Mountain.

At the beginning.

He also took the disciples of the sect to fight guerrilla warfare in various places in the Wanshan Sea.

There were indeed some gains.

It is estimated that there are millions of Chaos Beasts killed by them one after another.

But compared with the huge number of Chaos Beasts in the Helan Mountain Tribe.

The number of millions is almost negligible.

Their continuous attacks are not enough to have a fundamental impact on the situation in the South China Sea Immortal Territory.

More importantly.

The Helan Mountain Tribe adjusted its deployment.

A large number of King-level Chaos Beasts were transferred back to the Wanshan Sea.

This greatly restricted their actions.

In many cases.

Before they started to take action, groups of King-level Chaos Beasts.

They pounced directly.

Wanshan Immortal King had no choice but to continue running with the sect disciples.

There were even two times.

They were also ambushed by hundreds of king-level chaos beasts, causing some disciples to lose.

If he hadn't seen the opportunity quickly.

He forced the fairy ship to fight his way out.

Maybe at this time, Wanxianmen had been severely damaged by the chaos beasts.

Wanshan Immortal King looked into the distance, feeling a little confused.

Now he didn't know where to take these sect disciples.

The teleportation array in the Wanshan Sea had been destroyed at the first time.

They could no longer retreat to the Chaos Continent.

As for going to other seas?

Wanshan Immortal King didn't know where to go first.

All places were invaded by chaos beasts.

He didn't know where was the safe place.

Which seas' teleportation arrays were still operating normally.

Recently.

They have been changing positions quickly.

It has also become difficult to contact the outside world.

Wanshan Immortal King didn't know much about the outside world.

Just when the Immortal King Wanshan was still in deep thought.

A stream of light passed by from a distance.

The Immortal King Chengping appeared.

He said to the Immortal King Wanshan excitedly.

"Master, good news."

The gloomy expression of the Immortal King Wanshan disappeared, and he asked expectantly.

"Oh, what good news?"

The Immortal King Chengping nodded gently.

He said excitedly.

"Just received the news that not long ago, the Immortal Lord of the Daosheng Sect, the Galaxy, swept tens of millions of Chaos Beasts in the Liufeng Sea."

"Now there are no Chaos Beasts in the southwest."

"The seas west of the Jiuli Sea have not been invaded by Chaos Beasts."

"The most important thing is that the teleportation array in the Jiuli Sea is still well preserved."

"We can go to the Jiuli Sea first, and then teleport to the Ji'an Sea."

"Consider whether to retreat to the Chaos Continent later."

After listening to the narration of the Immortal King Chengping, the Immortal King Wanshan was completely stunned.

What's going on?

Zhang Yuhe alone wiped out tens of millions of Chaos Beasts?

He even beat the Chaos Beasts of the Helan Mountain Tribe, and they dared not move westward.

Until now.

The seas in the southwest have not been invaded by Chaos Beasts?

Is it fake?

The first thought of Wanshan Immortal King was that he didn't believe it.

How could this be possible?

He led the disciples of Wanxian Sect to attack the Chaos Beast team everywhere in the Wanshan Sea.

They did it for such a long time.

The Chaos Beasts killed by them are estimated to be just over a million.

Zhang Yuhe alone wiped out tens of millions of Chaos Beasts.

This sounds like metaphysics.

It's impossible.

He is a great Daluo Immortal King, and he also brought the disciples of the entire sect.

After a long time of fussing.

The results of the battle are not even a fraction of Zhang Yuhe's.

Impossible.

Absolutely impossible.

Wanshan Immortal King shook his head.

He looked at Chengping Immortal King with doubts.

Where did this fake news come from?

It must be a trick.

Of course, Immortal King Chengping knew that this news was too shocking.

No wonder Immortal King Wanshan didn't believe it.

But he has confirmed this repeatedly, so it must be true.

Thinking of this.

Immortal King Chengping took a deep breath and then said slowly.

"Master, this is definitely correct."

"We just contacted all parties through the temporary communication array."

Section 566

"This matter has spread throughout the entire South China Sea Immortal Territory."

"It can't be wrong."

Having said this, Immortal King Taiping paused for a moment.

Then he continued.

"By the way, there's one more thing."

"There is news from Ten Thousand Immortals City that support forces led by Immortal King Liuyue are gathering in Tianxing City."

"It is expected that in another three years, we will be able to enter the South China Sea Immortal Realm."

"At that time, we will integrate the forces of all parties and fight back against the Chaos Beast together."

"Sect Master, we have to make preparations early."

After repeated confirmation.

Immortal King Wanshan finally believed what Immortal King Taiping just said.

it is true.

Although it is incredible.

But Zhang Yuhe did it.

With just one person, he swept through an army of tens of millions of Chaos Beasts.

To know.

In an army of Chaos Beasts of this size, there will definitely be many King-level Chaos Beasts.

Immortal King Wanshan knows.

Zhang Yuhe's mysterious sword array is indeed a weapon for group battles.

As long as the opportunity is right.

It is entirely possible to sweep through the Chaos Beast army.

But how did he do it.

Under the noses of a large number of king-level chaos beasts.

To wipe out all the tens of millions of Chaos Beasts?

Could it be that Zhang Yuhe had wiped out all those king-level chaos beasts?

Think of this.

Immortal King Wanshan couldn't help but shake his head.

This is absolutely impossible.

A king-level chaos beast with extremely powerful strength.

Even if he wanted to kill a king-level chaos beast.

It all takes a lot of effort from the boss.

Zhang Yuhe can kill some weaker king-level chaos beasts.

That's still possible.

But in the tens of millions of chaos beasts.

The number of king-level chaos beasts is at least hundreds.

Even if Zhang Yuhe was stuck with a bug, it would be impossible to kill him with so many king-level chaos beasts.

"Forget it, let's go to Ji'an waters first, and we'll find out when we ask."

Wanshan Immortal King is no longer entangled.

He turned to Immortal King Taiping and said.

"Let everyone gather together. Let's go to Ji'an sea area to settle down first."

"Yes, Sect Master."

After a while.

The disciples of the Wanxian Sect who were scattered around and serving as guards soon returned to the deserted island.

Everyone boarded the fairy ship.

Flying quickly towards the Jiuli sea area.

...

Chapter 434 The Shock of Wanshan Immortal King

Outside the gate of Daoshengzong Mountain.

Zhang Yuhe and Lu Yunfei stood on the sea, looking quietly into the distance.

They had just received news from Li Tian.

Immortal King Wanshan has led his disciples through the teleportation array on Jiuli Island.

Teleported to Ji'an sea area.

It is estimated that it will not take long to arrive at Dao Sheng Sect.

After receiving the news.

Zhang Yuhe immediately informed Lu Yunfei and went to the sea to greet him together.

As for the other Golden Immortal elders in the sect, he did not inform them.

These are extraordinary times.

Basically, everyone from the Dao Sheng Sect to various places has been assigned to patrol and guard.

There really aren't many disciples left at the mountain gate.

And they don't need such a big card court to welcome them.

I believe that Immortal King Wanshan will not care about this.

The situation is tense everywhere now.

If it weren't for Zhang Yuhe, he would have wiped out the army of Chaos Beasts in the southwest.

Maybe at this time, the Ji'an sea area will have to start arranging retreat.

In such a tense situation.

Naturally, there is no need to pay too much attention to the matter of welcoming and sending people off.

After a while.

A stream of light streaked across the distant sky.

The huge Ten Thousand Immortals soon appeared in sight.

The Wanshan Immortal King and his disciples, hundreds of Taiyi Immortal Lords, stood silently at the front of the immortal ship.

As for the other sect disciples, he has already taken them into the Space Immortal Weapon.

There are tens of millions of disciples in the entire Wanxian Sect.

Except for those disciples who stayed in various fairy cities in Chaos Continent.

There are at least millions of disciples who have stayed in Wanshanhai area for a long time.

Naturally, there are so many disciples of the Ten Thousand Immortals Sect that cannot fit into a Xuan-level immortal ship.

Unless you find a stable place to stay.

Otherwise.

It is estimated that these disciples of the Ten Thousand Immortals Sect can only stay in the space immortal weapon.

After a while.

The fairy ship stopped in front of the two people.

Zhang Yuhe and Lu Yunfei looked at each other, then they rose into the air and landed at the front of the fairy ship.

"I have met many immortal kings."

Except for the Immortal King Wanshan.

Immortal King Taiping and Immortal King Xinghui were also on the immortal ship.

Zhang Yuhe greeted everyone one by one.

he said with a smile.

"Welcome to visit Dao Sheng Sect."

"We have prepared a cave house for all the fellow Taoists of Wanxian Sect. You can rest assured to stay here for now."

"Wait until all the chaos beasts in Helan Mountain are defeated before returning to the Wanshan Sea."

"Then it will disturb your noble sect for a while?"

Immortal King Wanshan looked at Zhang Yuhe, his heart filled with infinite emotion.

When I first saw Zhang Yuhe in Wanxian City.

He hasn't paid much attention yet.

Although the strength of the Supreme Prodigy is indeed far superior to that of monks of the same level.

But Zhang Yuhe, after all, had just been promoted to Taiyi Immortal Lord.

There is still a long way to go before they are the Great Luo Immortal Kings.

But what he didn't expect was.

Facing the invasion of chaos beasts.

Zhang Yuhe was able to sweep away tens of millions of Chaos Beasts by himself.

Section 567

On the way here.

The Immortal King Wanshan has confirmed this through information from all sides.

The prosperity of the Ji'an Sea is the best proof.

Because Zhang Yuhe wiped out the Chaos Beasts in the southwest.

There is no threat of Chaos Beasts for the time being.

A large number of cultivators poured into the Ji'an Sea.

This made the prosperity of the Immortal Dao in the Ji'an Sea rise several levels in a short period of time.

As they walked along, cultivators could be seen everywhere.

Occasionally, they could even encounter Taiyi Immortal Lord who came here to seek refuge.

This would have been unimaginable in the past.

The Ji'an Sea is located in a remote area.

Before Zhang Yuhe.

There was not even a Taiyi Immortal Lord.

Now it is so prosperous.

The Immortal King Wanshan knows.

This is a manifestation of confidence.

Everyone has confidence in Zhang Yuhe.

Believe that Zhang Yuhe can ensure the safety of the Ji'an Sea.

That's why they came to the Ji'an Sea to seek refuge.

This is the fact.

Zhang Yuhe swept through tens of millions of Chaos Beasts.

Such a terrible record.

It is enough to make everyone full of confidence in him.

Until now.

Wanshan Immortal King still doesn't know how Zhang Yuhe did it.

Such a terrible Taiyi Immortal Lord.

It simply overturned his cognition.

Zhang Yuhe responded with a smile.

"You are too polite, Immortal King. It is our honor to have you come to Daosheng Sect."

He stretched out his right hand and said politely.

"Everyone follow me."

Zhang Yuhe marked out a large area on Yunfei Island for the disciples of Wanxian Sect to stay temporarily.

After a while.

Zhang Yuhe and Lu Yunfei, with three immortal kings, came to Yinhe Peak.

After everyone sat down in the pavilion.

Wanshan Immortal King said in admiration.

"I heard that Sect Master Zhang wiped out tens of millions of Chaos Beasts in Liufeng Sea."

"Such a feat is really amazing."

Zhang Yuhe responded with a smile.

"That can't be helped. The Chaos Beasts of Helan Mountain are coming fiercely."

"If their offensive is not stopped, I'm afraid that the Ji'an Sea will also be in turmoil."

"Yes, this Chaos Beast invasion is a disaster for the South Sea Fairyland."

Speaking of this.

Wanshan Immortal King paused for a while.

Then he said with some doubts.

"As far as I know, there are king beasts in the Chaos Beast Army."

"There are at least hundreds of king beasts in the tens of millions of Chaos Beast Army."

"How did Sect Master Zhang avoid those king beasts and wipe out the Chaos Beast Army?"

Although Wanshan Immortal King also knew.

It is indeed inappropriate to ask directly like this.

But he really has a lot of doubts in his heart.

Now he doesn't care too much and directly talks about his doubts in his heart.

In fact, it's not just him.

Next to Wanshan Immortal King.

Chengping Immortal King and Xinghui Immortal King looked at Zhang Yuhe.

They were also very puzzled.

As a supreme prodigy, Zhang Yuhe can sweep the same level.

This is not surprising at all.

With the help of that terrible sword formation.

Even if the Chaos Beast Army is large in number.

They can't withstand a few rounds of sword formation sweeps.

But the problem is.

There are still a large number of king beasts in the Chaos Beast Army.

Could it be that Zhang Yuhe swept those king beasts?

This is simply impossible.

Even if it is a cross-level challenge.

It is impossible for Zhang Yuhe to beat so many king-level Chaos Beasts.

That is not just one or two.

There are at least hundreds of them.

Those king beasts are not fools, and they will let Zhang Yuhe wipe out the Chaos Beast Army.

Everyone looked at Zhang Yuhe.

Zhang Yuhe slowly stood up.

He did not respond directly.

Instead, he waved his right hand.

A huge fairy ship suddenly appeared in front of everyone.

The fairy ship exuded a terrifying pressure.

Even the surrounding void had a tendency to break.

Seeing the huge fairy ship in front of them, everyone was shocked.

Wanshan Immortal King slowly stood up.

He looked at the immortal ship carefully for a while.

Then he slowly asked.

"Is this an earth-level immortal ship?"

Zhang Yuhe nodded.

He responded lightly.

"If there is no immortal ship, I would not dare to charge directly into the army of Chaos Beasts."

"So many king-level Chaos Beasts, once trapped in it, it is almost impossible to escape."

"It is precisely because of this immortal ship that I can get rid of those king-level Chaos Beasts."

"Wipe out the army of Chaos Beasts in the Liufeng Sea."

"No wonder."

"Master Zhang has such a powerful weapon in his hand, no wonder he can charge directly into the army of Chaos Beasts."

Looking at the Galaxy Immortal Ship in front of him.

Wanshan Immortal King couldn't help but show envy.

This is an earth-level immortal ship.

After countless years of accumulation, their Wanxian Sect has only refined a Xuan-level immortal ship.

And it is a semi-finished product.

The immortal-destroying cannon on it has not yet been fully equipped.

Who could have thought of it?

Zhang Yuhe actually has an Earth-class Immortal Ship.

This opportunity is truly heaven-defying.

As far as he knows.

Section 568

Even in the Tao Ancestor Holy Land.

Earth-level fairy ships are also very precious.

Being able to take out one or two ships is already very impressive.

Immortal King Wanshan even had some doubts.

Did Zhang Yuhe ever receive the inheritance from any Taoist ancestor?

Otherwise.

Where did he get such an earth-level fairy ship?

...

Chapter 435 Building Liuyue Island

Thinking of Zhang Yuhe's legendary experience.

Wanshan Immortal King is very suspicious that he may have obtained the inheritance of a certain Taoist ancestor.

Only in this way.

Only Zhang Yuhe's various unnatural actions can be explained.

Not only did he lead the Dao Sheng Sect to rise in a short period of time.

Moreover, his own cultivation speed is far faster than that of ordinary monks.

It only took Zhang Yuhe 200,000 years to break through and become Taiyi Immortal Lord.

To know.

Even the top genius in the immortal world.

It can't be done to this extent.

It took 200,000 years to cultivate to the Golden Immortal Realm.

It is also possible to rely on a large amount of resources to pile up.

But I want to break through to Taiyi Immortal Lord.

It's almost a legend.

Anyway, Wanshan Immortal King has never heard of such a heaven-defying existence in the immortal world.

The most important thing is the earth-level immortal ship in front of him.

If Zhang Yuhe had not obtained the inheritance of Dao Ancestor.

Then where did he get this earth-level immortal ship?

To say that this fairy ship was refined by Zhang Yuhe himself.

Wanshan Immortal King is a hundred people who don't believe it.

He knows best how difficult it is to refine an immortal ship.

Not to mention an earth-level fairy ship.

Even an ordinary yellow-level fairy ship is not easy to refine.

Not to mention the issue of materials.

Refining an earth-level immortal ship requires the use of a very unique core material, the Sky-Shattering Immortal Crystal.

This material is extremely difficult to find.

I am afraid that even if I search all over the fairy world, I may not be able to find it.

Moreover, the environment in which the Shattering Sky Immortal Crystal is located is also very unique.

There is a broken void all around.

Even Da Luo Immortal King would not dare to approach easily.

Only Emperor Daozu had the opportunity to obtain this material.

And in the long years of the fairy world.

There are indeed many great Daozu emperors who have fallen.

To be honest, Zhang Yuhe once received the inheritance from a certain fallen Taoist ancestor.

This is also possible.

Think of this.

Wanshan Immortal King couldn't help but be envious.

Of course.

He was just envious.

There will be no other ideas.

Not to mention Zhang Yuhe has grown up completely now.

Relying on the Earth-level Immortal Ship, unless Dao Ancestor takes action.

Otherwise.

No one can do anything to him.

the most important is.

Everyone has his or her own opportunities.

Wanshan Immortal King himself also had a chance.

Otherwise.

He will not suddenly rise and become the number one person in the South China Sea Immortal Realm.

He doesn't even bother to covet other people's opportunities.

Everyone continued chatting for a while.

Immortal King Wanshan suddenly turned his head and said to Zhang Yuhe.

"Sect Leader Zhang, I have communicated with Immortal King Liuyue just now."

"Their destination for entering the South China Sea Immortal Territory is probably the Ji'an Sea Territory."

"Other places have either been attacked by Chaos Beasts, or are about to be attacked."

"Only the area near Ji'an sea area should be safe for the time being and can support the arrival of Immortal King Liuyue."

"At that time, we will use the Ji'an sea area as a base to launch a counterattack against the Chaos Beasts in Helan Mountain."

"During this period of time, Sect Leader Zhang may have to make more preparations."

"The number of monks from various immortal realms who have followed Immortal King Liuyue and come to support us is extremely large."

"At least give them a place to stay."

Zhang Yuhe nodded lightly.

He responded solemnly.

"Don't worry, Immortal King, I will make people prepare."

They continued chatting for a while, after the next preparations.

The three Immortal Kings of Wanshan stood up and left.

...

Zhang Yuhe found Lian Zhengyu.

Ask him to arrange for his sect disciples to build a new large island to the east of Yunfei Island.

It is used to arrange the support forces arriving from each fairyland next.

Zhang Yuhe had even thought of a name.

The newly built island is called Liuyue Island.

To express gratitude to Immortal King Liuyue for his support to the South China Sea Immortal Territory.

soon.

Hundreds of thousands of Dao Sheng Sect disciples were dispatched together on the sea tens of billions of miles east of Yunfei.

Reclamation operations began.

In order to build new islands as quickly as possible.

The Dao Sheng Sect is even recruiting a large number of people in the Ji'an sea area.

Anyway, there are many monks in Ji'an sea area now, so there is no shortage of people at all.

Following Dao Shengzong's order.

A large number of monks flocked to Liuyue Island.

Everyone showed their magical powers and moved mountains and filled seas.

A huge island is slowly taking shape.

Time passes slowly.

Two years later.

Zhang Yuhe sat in the pavilion and listened quietly to Wang Guofeng's report on the recent news.

"Sect Master, we just received news that the Eastern Saint Sea Territory, the easternmost part of the South China Sea Immortal Territory, has been captured by the Chaos Beasts."

"So far, except for these dozens of seas to the southwest of us."

"All other sea areas have fallen."

"The Chaos Beast in Helan Mountain is changing direction."

"Their seven teams are gathering towards the Wanshan Sea Area."

Section 569

"I estimate that in a while at most, they will all be assembled."

"At that time, they will definitely attack the Ji'an waters again."

Speaking of which.

Wang Guofeng couldn't help but feel a little heavy.

Not only because of the pressure that Ji'an waters are about to face.

more importantly.

Thinking of the monks who were kidnapped by the chaos beasts.

It's hard for him to let go.

How many monks are there in the entire South China Sea Immortal Domain?

It's impossible to count them.

Billions of monks.

Being cut off by the chaotic beasts of Helan Mountain was like cutting leeks.

Harvest and capture them all, then pack them up and transport them to the Chaos Continent.

How miserable is the fate that awaits these monks?

even though.

Many monks have already passed the teleportation array in advance and retreated to the fairy city in Chaos Continent.

But this is only a small part.

Only those big forces can establish fairy cities in the Chaos Continent.

Only they have the teleportation array leading to the Chaos Continent.

For more monks from the South China Sea Immortal Realm, they have no way to go.

They can only run around.

In the end, he couldn't escape the fate of being captured by the Chaos Beast.

These captured monks, along with the army of Chaos Beasts, are gathering in the Wanshan Sea Area.

Once they arrive at Wanshan Sea.

These monks will inevitably be transported back to Chaos Continent through the space passage of Liuhetian soon.

Unless someone can advance, near the space channel.

Intercept the Chaos Beast army.

Save those poor monks.

Think of this.

Wang Guofeng couldn't help but shake his head.

This is simply not possible.

An army of hundreds of millions of chaos beasts, thousands of king-level chaos beasts.

Faced with such terrifying power.

Who can stop it?

Unless the Heavenly Star Dao Ancestor returns early.

Unfortunately.

After Tianxing Daozu dragged five supreme-level chaos beasts into the void battlefield.

There was no news again.

Wang Guofeng, on the other hand, was not worried about the safety of Tianxing Daozu.

There is no need for him to worry about this.

The Heavenly Star Dao Ancestor has been in the immortal world for countless years.

A mere five respectable Chaos Beasts should be unable to do anything to him.

Wang Guofeng was just worried.

If Tianxing Daozu comes back too late.

Then the chaos beasts in Helan Mountain will take away those monks.

Transport them all back to Chaos Continent.

For the Helan Mountain tribe.

Just complete this step.

Their goals have been achieved.

Wait until then.

Even if Immortal King Liuyue led the support force, he could repel the Chaos Beast.

What's the point anymore?

Is it just about regaining lost ground?

Everyone is gone.

Can the vast and boundless South China Sea Fairyland still be called a fairyland?

Think of this.

Wang Guofeng couldn't help but feel a little heavy.

...

## Chapter 436 Three Hundred Immortal Kings

Zhang Yuhe held the teacup and listened quietly to Wang Guofeng's report.

When he saw Wang Guofeng, he had a heavy expression on his face.

he said with a smile.

"Don't worry so much."

"There has been news from Immortal King Liuyue."

"In another half month at most, they will enter the South China Sea Fairyland in large numbers."

"When all support forces arrive, we can launch a counterattack."

"The chaotic beasts in Helan Mountain cannot reach the Ji'an sea area."

Wang Guofeng sighed, and then said helplessly.

"Sect Master, I am not worried about the safety of Ji'an waters."

"As long as the support forces from various immortal regions arrive, guarding the Ji'an sea area will naturally not be a problem."

"It's just that those monks who were kidnapped can never be rescued."

Hearing Wang Guofeng's words.

Zhang Yuhe couldn't help but fell into silence.

yes.

Except for these dozens of sea areas near Ji'an sea area.

The monks in other places were either beaten to death by Chaos Beasts.

Or be kidnapped by the Chaos Beast.

Wherever the Chaos Beast passed, everything turned into a dead place.

They didn't even let go of those mortals who didn't have any cultivation.

The entire South China Sea Immortal Territory seemed to be in doom.

All that is left is this piece of pure land near the Ji'an sea area.

"Maybe we need to speed up the progress and cut off the Chaos Beast's retreat in advance."

Zhang Yuhe muttered silently to himself.

He and Wang Guofeng thought differently.

Wang Guofeng felt sad for those monks who were taken away.

I want to save those monks.

Zhang Yuhe took it into consideration.

Once the Chaos Beast is allowed to transport all the abducted monks back to the Chaos Continent.

Then the strength of the Helan Mountain tribe will inevitably grow rapidly.

There are so many monks in the entire South China Sea Immortal Domain.

If all are sacrificed successfully.

Maybe the Helan Mountain tribe will have a few more supreme-level chaos beasts.

This is not okay.

They will try their best to destroy everything that is beneficial to the Chaos Beasts.

And take this time, the war in the South China Sea Immortal Territory as an example.

If the Chaos Beast in Helan Mountain is allowed to achieve its goal.

That means it's their failure.

"I won't let you succeed."

"Even if those monks are allowed to die at the hands of our own people, we will never allow the Chaos Beasts to be transported back to the Chaos Continent."

Section 570

Zhang Yuhe muttered to himself silently.

A hint of cruelty flashed in his eyes.

They should try their best to save those monks who were abducted.

If they really can't be saved.

Even if they kill them all, they can't let the Chaos Beast take them away.

Thinking of this.

Zhang Yuhe turned to Wang Guofeng and said.

"You must always pay attention to the movements of the Chaos Army."

"After the arrival of the Immortal King Liuyue, I will convince them to take action immediately."

"Cut off the space channel of Liuhetian in advance."

"Yes, Sect Master."

Wang Guofeng's eyes lit up, and then he turned and left.

Compared with other people.

He has a mysterious confidence in Zhang Yuhe.

Because since the beginning, when he entered Yufantian.

He witnessed the miracles created by Zhang Yuhe.

All kinds of impossible things can be possible.

Maybe Zhang Yuhe can create a miracle again this time.

Even if he can't save all the abducted monks.

As long as a small number can be saved.

Then it will be a great merit for the Nanhai Immortal Realm.

Ten days later.

Zhang Yuhe and Wanshan Immortal King and others stood quietly in the teleportation hall of Ji'an Market.

After many communications and contacts.

Liuyue Immortal King has accelerated the assembly progress.

Today, she will lead the top forces of each fairyland to arrive in the South Sea Fairyland in advance.

Suddenly.

A dazzling light flashed from the teleportation array.

The figure of Liuyue Immortal King slowly appeared on the teleportation array.

Around her, there were more than 200 figures with auras like the abyss.

Obviously.

These people are Daluo Immortal Kings.

Seeing Liuyue Immortal King coming.

Wanshan Immortal King next to him immediately greeted him.

"Hello, fairy, hello, fellow Taoists."

"The South Sea Immortal Realm is in great trouble now, and I'd like to ask all of you fellow Taoists for help."

"Haha, Wanshan, I haven't seen you for so many years, why have you become so polite?"

"We all join hands to fight against the Chaos Beast, so why should we be divided?"

"Today we rescue the South Sea Immortal Realm, and maybe someday in the future, we will need your help, Wanshan."

"Yes, yes, they are all killing Chaos Beasts, and it's killing everywhere, haha."

Wanshan Immortal King greeted all the Daluo Immortal Kings at the scene one by one.

Zhang Yuhe stood behind him silently.

Except for Liuyue Immortal King, he had met him once last time in Niulan Mountain.

He didn't recognize any of the other Daluo Immortal Kings.

He hadn't even seen their portraits.

After all, these Daluo Immortal Kings were all powerful from the outer immortal realms.

The rise of the Daosheng Sect was not long ago.

It has not yet extended its tentacles to other immortal realms.

But Wanshan Immortal King is different.

He is an old Immortal King.

He had traveled in various fairy domains.

He had some friendship with the Daluo Immortal Kings of various fairy domains.

A group of Daluo Immortal Kings greeted them enthusiastically.

Zhang Yuhe, a Taiyi Immortal Lord, was sandwiched among the crowd, which seemed particularly abrupt.

At this time.

A Daluo Immortal King suddenly asked Wanshan Immortal King.

"Wanshan, I wonder who this young friend is..."

Wanshan Immortal King smiled and introduced to everyone.

"This is the leader of the Daosheng Sect, Yinhe Immortal Lord. I believe you should have heard of his name, right?"

As soon as Wanshan Immortal King finished speaking.

The scene became more lively.

"Is it the Yinhe Immortal Lord who swept through tens of millions of chaotic beasts?"

"It turned out to be Yinhe Immortal Lord. I have heard of him for a long time."

"I didn't expect that there would be a figure like Yinhe Immortal Lord in the South China Sea Immortal Domain."

"This South China Sea Immortal Domain is probably also a blessed place."

"It seems that I have to come here often in the future, hehe."

Although Zhang Yuhe's cultivation is only the initial stage of Taiyi Immortal.

Compared to the Daluo Immortal Kings, it is really not worth mentioning.

Taiyi Immortal Lord doesn't know how many of these powerful people there are.

Despite this.

No one at the scene would underestimate Zhang Yuhe.

The reason is very simple.

Zhang Yuhe's record is really terrible.

With his own strength alone, he swept through tens of millions of Chaos Beasts.

How amazing is this?

Even if it were them.

Facing tens of millions of Chaos Beasts, they would probably have to take a detour.

They definitely dared not rush in.

After all, there must be king beasts in the Chaos Beast Army.

And the number will definitely not be small.

In other words.

Zhang Yuhe wiped out tens of millions of Chaos Beasts under the eyes of a large number of king beasts.

Such a record does not seem to be true no matter how you look at it.

But none of the Daluo Immortal Kings at the scene doubted it.

After all, more than two years have passed since the incident.

Some of the details have also slowly spread.

The most important thing is.

Since the news came out.

There has been no trace of the Chaos Beasts army in the southwest of the South Sea Fairyland.

This is the most powerful proof.

It doesn't make sense that the Chaos Beasts of Helan Mountain swept across the entire South Sea Fairyland.

Why did they miss the dozens of sea areas in the southwest corner?

The reason is obvious.

It is precisely because of Zhang Yuhe's deterrence that the Chaos Beasts of Helan Mountain dare not move forward towards the Ji'an Sea Area.

A Taiyi Immortal Lord can actually deter hundreds of millions of Chaos Beasts.

Isn't this scary?

What else do you need to doubt?

No matter how low Zhang Yuhe's cultivation is.

But his fighting power is definitely real.

There is no need to doubt it at all.
