Section 57

Zhang Yuhe couldn't help but sigh when he saw the attack effect of the Great Wild Prisoner Finger.

Zhang Yuhe thought that even he couldn't resist such a magical attack.

Even if the Nine Heavens Hunyuan Sword Formation was arranged in advance, it would be difficult to resist the attack of the Great Wild Prisoner Finger.

Zhang Yuhe waved his right hand and put away the demon pill.

The demon pill of the sixth-level Moon-gazing Rhino is still useful. It can be used to refine pills and can also be used as materials for refining certain spiritual treasures.

After putting away the demon pill, Zhang Yuhe looked at the blue treasure chest in the distance again.

He hadn't killed monsters for a long time, and he almost forgot his identity as a player.

When they killed monsters in Yufantian, treasure chests would drop out.

"See if there are any surprises?"

Zhang Yuhe waved his hand, and two blue treasure chests opened quickly.

Zhang Yuhe stretched out his hand and grabbed two items, and they fell into his hands.

A spirit stone and a piece of Qingyun steel.

Looking at the items in his hand, Zhang Yuhe couldn't help shaking his head.

What can a spirit stone be used for? It was an insult to him.

Qingyun Steel was slightly better, at least a sixth-level material.

But this material was not valuable and belonged to common goods.

Because Yufantian had many Qingyun Steel veins, this thing could be produced in large quantities.

"Forget it, let's go back."

Zhang Yuhe used the Tianhuang Feixian Technique and flew quickly to Yunzhong City.

As for the monsters in the depths of the Yunmang Mountains, he was not very interested.

Zhang Yuhe didn't care about the garbage that was killed by monsters.

His purpose was not to kill monsters, but just to test the effect of the Great Wilderness Prisoner Heaven Finger.

Now that the experiment is over, it is natural to go back and continue to practice in seclusion.

Only practice is Zhang Yuhe's interest.

Without practice, how can you become an immortal?

...

Chapter 57 Ten Years

After returning to the garrison, Zhang Yuhe walked into a secret room for practice.

With a wave of his right hand, five formation flags quickly flew to the surroundings of the practice platform.

Zhang Yuhe sat cross-legged on the practice platform, and then took out a formation plate and placed it nearby.

Piles of spiritual stones were placed around the formation flags and formation plates.

After doing all this.

Zhang Yuhe pinched the magic formula.

"Start the formation."

A blue light curtain slowly rose around the practice platform.

As the Five Elements Gathering Spirit Formation was opened, the surrounding spiritual energy quickly gathered.

Soon, Zhang Yuhe was surrounded by a sea of spiritual energy.

"Let's practice."

Zhang Yuhe slowly circulated the Hunyuan Heavenly Scripture, and countless spiritual energy quickly poured into his dantian.

"It's great."

Zhang Yuhe couldn't help but sigh, and the feeling of doubling the effect of practice made him a little unable to extricate himself.

...

Time passed slowly.

Yunzhong Mansion's action to eliminate the remnants of the He and Li families has never stopped.

Under the leadership of Wang Guofeng, the Qian and Sun families dispatched a large number of people.

Quickly control the dozens of cities controlled by the He and Li families.

Then check the city one by one.

As long as the cultivators belong to the He and Li families, no matter how long the relationship is, they will be killed one by one.

They all heard the orders of the garrison commander clearly.

Exterminate the clan.

What does exterminate the clan mean?

That is to leave no one alive, even if there are eight hundred generations, as long as the cultivators of the He and Li families are among the ranks of extermination.

Although the clan lands of the He and Li families have been wiped out by Zhang Yuhe.

But as the local snakes that dominate Yunzhong Prefecture, the He and Li families have been spreading for tens of thousands of years.

There are indeed many cultivators in the family.

In order to prevent anyone from escaping, Wang Guofeng even found the genealogy of the two families and followed the map.

Qian Weiguang and Sun Pengcheng also performed very hard in this matter. They not only dispatched a large number of family cultivators.

And the two of them personally led the team and took the lead in eliminating the Jindan cultivators of the He and Li families.

As for the Yuanying cultivators of the He and Li families, most of them died at the hands of the Horned Demon Clan when they were in Jingkong City.

Faced with the danger of extermination, the He and Li families launched fierce resistance in various cities.

However, all this was in vain.

Without high-level cultivators, they were completely unable to stop the attacks of Qian Weiguang and Sun Pengcheng, two Nascent Soul cultivators.

A few days later, the groups of cultivators from the He and Li families were basically wiped out.

But there were still many cultivators from the two families scattered everywhere.

Even many of the cultivators from the two families had already gone to develop outside Yunzhong Mansion.

Wang Guofeng still did not intend to let these people go. He asked Qian Weiguang and Sun Pengcheng to send people to hunt them down everywhere.

Not only that, Wang Guofeng also mobilized a large number of players to participate.

However, these players can only be regarded as his personal recruitment, not as personnel of the garrison.

Wang Guofeng divided a part of the harvest from the cleanup as a task reward for the players.

The cleanup operation lasted for a full ten years before it came to an end.

...

In a hall somewhere in the garrison.

Wang Guofeng was discussing matters with Qian Weiguang and Sun Pengcheng.

In the past ten years, Wang Guofeng often called the two together to summarize the cleanup process.

To find out if there are any remnants left.

The three of them were chatting and laughing in the hall, and the atmosphere was harmonious.

After ten years of getting along, Wang Guofeng had already become close friends with the Qian and Sun families.

With his background, he was completely at ease dealing with the aristocratic families in Yufantian.

And with the identity of the inspector appointed by Zhang Yuhe, who dared not give face in this Yunzhong Mansion?

In order to complete the orders issued by Zhang Yuhe, they naturally needed to cooperate sincerely.

Of course, more importantly, everyone has common interests.

When He and Li fell, the biggest beneficiaries were naturally the Qian and Sun families.

They took over the territories and industries of He and Li respectively, which made the development momentum of the two families go a step further.

As for Wang Guofeng, he naturally did not suffer any loss.

The three of them had already formed a tacit understanding.

The territories and industries belonged to the Qian and Sun families, but the resources and treasures were distributed by Wang Guofeng.

Of course, no one dared to touch the share that belonged to the town guard, and it was kept.

Everyone got what they needed, and everyone was happy.

Qian Weiguang asked Wang Guofeng with a smile on his face.

"Brother Wang, do you know when the town guard will come out of seclusion?"

"Yes, we haven't seen the town guard for a long time, and I don't know when we can hear his teachings."

Sun Pengcheng, who was standing aside, also quickly followed suit.

When the three of them discussed matters together, they could talk and laugh about other things at ordinary times.

But once they talked about Zhang Yuhe, the town guard, they all looked serious.

They didn't dare to show any joking expression.

They really didn't dare.

Zhang Yuhe's strength and methods made them feel in awe.

Hearing the two people asking about Zhang Yuhe, Wang Guofeng couldn't help but smile bitterly.

This question really stumped him.
