

Top talent 571

Section 571

No one dared to underestimate him.

Those who could cultivate to the Daluo realm were not fools.

They could understand such a simple truth.

Even if Zhang Yuhe used other means.

His real combat power would definitely not be inferior to that of the Daluo Immortal King.

Perhaps he could even be on par with the top Daluo Immortal King.

For such a peerless genius.

No one would put on the airs of an Immortal King.

Everyone came up and greeted him warmly.

...

Chapter 437 Gathered together

Liuyue Island, Daluo Palace.

Nearly 300 Daluo Immortal Kings gathered together.

Among them, the five Immortal Kings from the South Sea Immortal Domain have all arrived.

For this counterattack plan, Chaotian Immortal King and Yongning Immortal King.

Also arrived in the Ji'an Sea through the teleportation array.

After the Immortal Kings gathered, they soon began to discuss the current situation in the Daluo Palace on Liuyue Island.

And future combat plans.

Immortal King Liuyue sat at the head of the crowd. She turned to Immortal King Wanshan next to her and said.

"Wanshan, everyone is here. Tell us about your plan."

"Okay."

Immortal King Wanshan stood up.

He waved his right hand.

A huge map of the South China Sea Immortal Realm slowly appeared in front of everyone.

Except for this small area near the Ji'an Sea.

The rest of the map was all blood red.

This means.

Those places have been completely wiped out by the Chaos Beasts of Helan Mountain.

There is not even a living person.

Immortal King Wanshan pointed to the map and said to everyone in a heavy voice.

"I think everyone is very clear about the current situation in the South Sea Immortal Realm."

"You can say that."

"If it weren't for the fact that Sect Master Zhang showed his divine power and swept away tens of millions of Chaos Beasts."

"Then we might have to hold this meeting in the Immortal City of Chaos Continent."

"Now we only have this small piece of pure land near the Ji'an Sea."

"Other places have completely fallen."

Hearing the words of the Wanshan Immortal King, everyone was silent.

They knew how big a fairyland was.

The entire South Sea Immortal Realm had almost completely fallen.

This can be said to be a terrible catastrophe.

I don't know how many cultivators have died because of this catastrophe.

Everyone was silent for a while.

Suddenly, a white-clothed fairy king slowly asked the Wanshan Immortal King.

"Wanshan, there is no need to talk about the rest. Everyone knows the situation very well."

"Every time the Chaos Beast attacks the rear of the cultivators, it will cause a terrible disaster."

"Now we are all gathered together to reverse this situation."

"Tell me about your plan."

"If the plan is feasible, then we will act immediately and fight the Chaos Beast in Helan Mountain first."

Zhang Yuhe turned his head and glanced at the White-robed Immortal King.

After the simple exchange just now.

He also knew all the nearly 300 Immortal Kings at the scene.

This White-robed Immortal King is named Wei Tianfeng and comes from Tianfeng Immortal Domain.

Different from Nanhai Immortal Domain.

The Nanhai Immortal Domain used to be three super powers coexisting.

But Tianfeng Immortal Domain has always had only one super power since its history.

That is Tianfeng Sect.

As the founder, Tianfeng Immortal King has a very long history.

He is one of the oldest Immortal Kings in the Immortal Realm, just like Liuyue Immortal King.

His strength is also extremely terrifying.

The longer a cultivator lives, the more outstanding his skills will be.

Among the nearly 300 immortal kings in the hall.

Wei Tianfeng is definitely one of the best.

So his support is even more important to the South Sea Immortal Realm.

Wanshan Immortal King nodded gently.

He continued to speak.

"According to the latest intelligence."

"The Chaos Beasts of Helan Mountain have basically cleared all parts of the South Sea Immortal Realm."

"Just three days ago, they all gathered in the Wanshan Sea."

"Now they are organizing forces to transport the abducted cultivators to the Chaos Continent through the space channel."

At this point.

Wanshan Immortal King paused for a moment.

He looked around and said with a heavy heart.

"So many cultivators have been abducted by the Chaos Beasts of Helan Mountain. We can't just sit back and do nothing."

"If we let them transport these cultivators back to the Chaos Continent smoothly."

"I'm afraid that before long, the Helan Mountain Tribe may give birth to a few more Supreme Chaos Beasts."

"This is a result that none of us want to see."

"So I discussed it with Fairy Liuyue."

"We must cut off the space channel of Liuhetian as soon as possible."

"We must not let the Helan Mountain Tribe transport these abducted cultivators back smoothly."

"Otherwise, once the Helan Mountain Tribe successfully sacrifices all these abducted cultivators."

"Then we will face greater pressure in the Chaos Continent in the future."

"So we plan not to wait for the follow-up forces to arrive."

"With just our three hundred people, we will go directly to Liuhetian and eliminate the Chaos Beasts there."

"Then seal the space channel to completely cut off the connection between the Chaos Beasts and the Helan Mountain Tribe."

As soon as the Immortal King Wanshan finished speaking.

Everyone at the scene was talking.

"Isn't this too dangerous?"

"There are at least thousands of king-level Chaos Beasts gathered near the Wanshan Sea."

"And there are hundreds of millions of Chaos Beasts helping us."

"Once the space channel is cut off, it means that a decisive battle will break out between us and the Chaos Beasts."

"With less than 300 of us, can we defeat so many Chaos Beasts?"

"Yes, and there will definitely be a large number of Chaos Beasts left on the other side of the channel."

"Once they attack from both sides, it will be even more difficult for us to deal with it."

"I think we should be more cautious first?"

"Wait until the armies of the subsequent fairy realms all enter the South China Sea Fairyland."

"We will gradually advance and consume the power of the Chaos Beasts step by step."

"Then in one fell swoop, drive the Chaos Beasts out of the South China Sea Fairyland."

"Yes, we should think of a safe plan. This plan is too risky."

Everyone was talking about it.

Section 572

Almost no one supports the plan of Immortal King Wanshan.

Because of this plan, it is for everyone.

It's just too dangerous.

Once surrounded by an army of Chaos Beasts.

There are less than 300 of them, and it is very likely that they will never return.

Although they are all veteran Daluo Immortal Kings.

Everyone is extremely confident in their own strength.

But confidence does not mean that they are willing to take this risk.

Everyone is an old monster who has been alive for countless years.

Highlight the word "steady" at the forefront.

They are not willing to do things like this with high risks and low returns.

even though.

Let the Chaos Beast transport the abducted monks back to the Chaos Continent smoothly.

It will indeed be disadvantageous for everyone.

There are so many monks in the entire Immortal Realm that they are beyond counting.

Once so many monks were successfully sacrificed by the Helan tribe.

The strength of the Helan Mountain tribe is bound to grow rapidly.

But what does it matter?

Even if the Helan Mountain tribe really gave birth to a few supreme-level chaos beasts.

Isn't that what the Dao Ancestor Emperors are standing in front of?

They only need to guard their fairy city and slowly develop resources in the Chaos Continent.

As for the twelve major tribes in the Origin Sea.

It's really far away from everyone.

Even if you want to deal with it, you are powerless.

Just leave important matters like this to Emperor Daozu to worry about.

They only need to repel all the chaos beasts that enter the South China Sea Immortal Realm.

As for time.

It's okay to make it longer.

And the longer it drags on.

The Chaos Beast's desire to fight will definitely decrease.

Because all the monks in the South China Sea Immortal Domain were kidnapped by them.

Why are those Chaos Beasts still here?

Maybe there won't be any effort from everyone.

Chaos beasts that invade the South China Sea Immortal Domain will retreat on their own.

if so.

Wouldn't that make everyone happy?

Don't look at these people, they all came in response to Immortal King Liuyue's call.

The slogans were also shouted loudly.

But it's really not that easy to let them take risks.

Unless Immortal King Wanshan can let them know.

There is no danger in this trip.

Otherwise.

They clearly don't want to move their butts.

Wouldn't it be better to sit back and wait for victory?

Why take the risk?

How difficult it is for everyone to cultivate to the current state.

Moreover, the Immortal King has a worry-free lifespan.

Wouldn't it be better to just give it a try?

Why go to such lengths?

As for those monks from the South China Sea Immortal Realm who were kidnapped by the Chaos Beasts.

They basically don't want to pay attention.

Compared to Daluo Immortal King.

Ordinary monks will die no matter how many times they die.

That doesn't have much impact.

If it weren't for the fact that Chaos Beasts can evolve and advance by sacrificing monks.

Everyone may not even bother to talk.

Sit back and wait for the chaos beasts in Helan Mountain to recede on their own.

Even if they are on a Zongcheng mission.

Chapter 438 It seems like we can have a wave?

He heard everyone talking, but no one supported his plan.

Immortal King Wanshan couldn't help but his face darkened.

When Zhang Yuhe found him and talked about this plan.

Immortal King Wanshan very much agrees.

He immediately contacted Immortal King Liuyue.

It is hoped that the support force led by Immortal King Liuyue can enter the South China Sea Immortal Territory as soon as possible.

Even if the follow-up forces are assembled, it will take quite a while to be assembled.

Then you can also lead the group of top Daluo Immortals to enter the South China Sea Immortal Domain in advance.

Then everyone works together to cut off the space channel of Liuhetian.

Wanshan Immortal King believes it.

It is not difficult to do this.

Although the chaos beasts in Helan Mountain are indeed more numerous and more powerful.

But what does it matter.

These top Daluo Immortal Kings.

If they were all gathered together, it would be an extremely terrifying force.

It is completely possible to move freely in the army of Chaos Beasts.

No matter how strong the Chaos Beast in Helan Mountain is.

Is it possible to keep all of them?

This is impossible.

There are three hundred Da Luo Immortal Kings, and they are all top powers from various immortal realms.

As long as no noble-level chaos beasts appear.

There is no danger at all.

despite this.

After he revealed all the plans.

No one responded.

This made the Ten Thousand Immortal King feel very depressed.

Zhang Yuhe sat silently next to him, his expression indifferent.

He was not surprised at all by the crowd's opposition.

After all, no one is willing to do anything that is not beneficial.

What's more, you have to take risks.

Zhang Yuhe knew it a long time ago.

It is not that easy to convince these people to agree to their plan.

Unless these people can understand.

According to their plan, no one was in any danger.

This is not a fight against the wind.

Instead, we are fighting against the wind.

It's killing a dog.

Only in this way will those Daluo Immortal Kings agree to their plan.

Zhang Yuhe is fully confident about this plan.

Because he also has a super trump card.

Section 573

That is the magical power of Hunyuan Guiyi.

When he was sweeping across the Chaos Beast army before.

He would rather let go of the hundreds of king-level chaos beasts than use this trump card.

Just to stay until now.

The cooling time of Hunyuan Guiyi's magical power is really too long.

After each use, it needs to cool down for a hundred years.

Unless you are facing danger or having a decisive battle with a Chaos Beast.

Otherwise.

He won't use this trump card easily.

If this plan can be implemented smoothly.

There were nearly three hundred Daluo Immortal Kings around to help.

He can completely activate the Hunyuan Guiyi magical power and wipe out most of the chaos beasts that enter the South China Sea Immortal Domain.

After he exploded with all his strength, even those king-level chaos beasts couldn't stop him.

It's just that this thing cannot be said in person.

Does he want to tell others?

I also have a trump card that can instantly unleash ten times my strength.

Can you kill the Nine Color King Beast?

Even if he said this, others wouldn't believe it.

After all, he is still in the early stage of Great Yi Immortal.

To be able to kill the nine-color king beast head-on.

Who will believe him?

No matter how amazing his previous record was.

Others will only regard him as a madman.

So, how to get everyone to agree to their plan.

This is indeed a difficult question.

If he were left alone, he would go to Liuhetian alone.

He was also reluctant.

Although after opening the magical power of Hunyuan Guiyi.

He is confident that he can wipe out most of the chaos beasts.

However, the number of Chaos Beasts from the Helan Mountain Tribe that entered the South China Sea Immortal Realm was really too many.

Even if most of them are wiped out.

There won't be much left.

If not all the king-level chaos beasts were killed.

When the effect of Hunyuan's magical power disappears.

He might be in danger.

Even if he runs away in a fairy ship.

Those remaining chaos beasts will definitely chase them to the Ji'an sea area.

This is not the result Zhang Yuhe wants to see.

He wanted to finish his work in one battle.

Kill all the chaos beasts with one hammer blow.

Just trying to get this far.

This requires help from others.

Just at this time.

Wei Tianfeng stood up and asked slowly to the Immortal King Wanshan.

"Wanshan, how many king-level chaos beasts are left on the Liuhetian side?"

"No more than two hundred."

They already had a clear grasp of the information about the Chaos Beast.

After all, from the time Long Yuanguang opened the channel until now.

Several years have passed.

during this time.

Daosheng Sect has already reorganized its intelligence forces.

Completely grasp the whereabouts of the Chaos Beast.

Wei Tianfeng nodded.

"Even if there are two hundred king beasts, that's not a lot."

"With the strength of us people, we can completely eliminate them."

"By the way, how far are the other Chaos Beast armies from Liuhetian?"

"Once a war breaks out, how long will it take for them to come with support?"

Immortal King Wanshan thought for a while, and then responded slowly.

"Currently, most of the chaos beasts in Helan Mountain are concentrated near the Wanxian Sect's headquarters."

"It's not too far from Liuhetian."

"If a king-level chaos beast runs at full speed, it will only take half a quarter of an hour at most to reach Liuhetian."

Although Wanshan Immortal King made everyone agree with his plan.

But he didn't want to lie.

Instead, tell Wei Tianfeng the truth as it is.

Half an hour is indeed not too long.

There are at least a hundred king-level chaos beasts staying near the passage.

It was obviously impossible for them to wipe out all these chaos beasts within half a quarter of an hour.

That is to say.

Once you choose to do it.

They might face an all-out war with the Chaos Beasts.

He is responsible for everyone's safety.

So I can only tell the truth.

Wei Tianfeng nodded.

He thought quietly for a while, and then said slowly.

"I think this plan still has some feasibility."

"The power of the chaos beasts in Helan Mountain is far stronger than ours."

"No matter what plan we adopt, we will inevitably have to fight a battle with the Chaos Beast in the end."

"In that case, why don't we test it first?"

"Even if it cannot be completely cut off, the space channel of Liuhetian."

"As long as we can kill more king-level chaos beasts, it will also reduce a lot of pressure in the future."

"As for the army of Chaos Beasts in the Wanshan Sea, we don't need to pay attention at all."

"As soon as they come for support, we will retreat immediately."

"With the strength of us people, it's not that easy for the army of Chaos Beasts to surround us."

"We want to get out, it's not a problem at all."

Wei Tianfeng just finished speaking.

Some people nodded silently, and some whispered softly.

to be honest.

As long as they're fast in and out.

It is indeed impossible for those Chaos Beasts to surround them.

Everyone is the old Da Luo Immortal King.

As long as they are not surrounded by an army of Chaos Beasts, they can escape at any time.

It's really not dangerous at all.

Moreover, they could just eat the king-level chaos beasts on the Liuhetian side.

If all those hundreds of king beasts could be killed.

for them.

That was also a big gain.

In normal times.

They wanted to kill a king-level chaos beast, but they couldn't find an opportunity.

After all, those king-level chaos beasts usually stayed in groups in the tribe.

This time was indeed an opportunity.

Section 574

Not only can it interfere with Chaos Beasts, it can also use space channels.

And it's okay to take the opportunity to weaken the strength of the Chaos Beast.

the most important is.

Everyone can still get some benefits.

King-level chaos beast, whether it is a corpse or a crystal core.

Those are very precious.

Everyone was thinking silently in their hearts.

It seems like we can do something about it?

...

Chapter 439 Let's go!

With Wei Tianfeng's support, everyone's thoughts finally changed.

It doesn't hurt to have a wave.

It seems like there might still be some money to be made.

Just at this time.

Immortal King Liuyue, who had been silent, finally stood up.

She said calmly.

"I support Wanshan's plan."

"We must not let the Chaos Beasts transport the abducted monks back to Helan Mountain smoothly."

"You may not know that for nearly ten billion years, new supreme-level chaos beasts have been born in the twelve major chaos beast tribes."

"As for our monks, there is no Great Luo Immortal King who has successfully been promoted to Dao Ancestor."

"With the strength of the Chaos Beast, it becomes stronger and stronger."

"The pressure on those Dao Ancestor Emperors is increasing now."

"If this continues."

"Then the next time a war breaks out, the outcome will be difficult to predict."

"So this time, we must not let the Helan Mountain tribe succeed."

"We cannot let the Helan Mountain tribe's strength continue to increase."

"For those monks who were kidnapped, if we can save them, we will do our best to save them."

"If we really can't save him, we can't let the Chaos Beast take him away."

Hear this.

Everyone looked silent.

The meaning behind Liuyue Immortal King's words was already very obvious.

That is.

If they can't, rescue the monks who were kidnapped.

Then I would rather kill him.

Chaos beasts are difficult to kill.

But for the Da Luo Immortal King present.

Killing some ordinary monks is not too easy.

The monks who were kidnapped could not reach the Golden Fairy Realm.

Daluo Immortal King can wipe out a large area with one move of his magical power.

There is actually only one meaning in Liuyue Immortal King's words.

It doesn't matter what the future of the South China Sea Fairyland will be.

What matters is.

The Chaos Beast cannot be allowed to continue to grow stronger.

They cannot let the Chaos Beasts take these abducted monks to the Chaos Continent.

We cannot allow the Helan Mountain Tribe to give birth to a new supreme-level Chaos Beast because of this matter.

Immortal King Liuyue paused for a while.

She glanced at everyone, smiled and said.

"As for safety issues, you don't have to worry at all."

"For this operation, I brought over the Starlight fairy ship from the Holy Land."

"With the power of the Starlight Fairy Ship, no matter how many and powerful the Chaos Beasts are, we are not afraid of being surrounded."

Immortal King Liuyue just finished speaking.

Everyone couldn't help but show excitement.

"The Starlight Immortal Ship? If I remember correctly, it is an Earth-level Immortal Ship."

"Yes, during the war more than 10 billion years ago, I saw the Starlight fairy ship in the Celestial Star Fairy Domain."

"The fairy ship moves freely among the chaotic beasts, and is unstoppable."

"The power of the Earth-level Immortal Ship is really amazing."

"That would be great. With the help of the Starlight Immortal Ship, we don't have to worry about being surrounded by an army of Chaos Beasts."

"As long as there are no respected Chaos Beasts."

"No matter how strong the Chaos Beast army is, we can still kill them."

"Yes, that is an Earth-level fairy ship."

"The chaos cannon above only has enough crystal cores. One shot can kill a king beast."

"Those king-level chaos beasts don't dare to get close at all."

After hearing the words of Immortal King Liuyue, everyone couldn't help but be extremely excited.

The Earth-level Immortal Ship is a great weapon.

Although they are all old monsters who have been practicing for countless years.

It can be regarded as the top power in the fairy world.

But none of them can take out the Earth-level Immortal Ship.

Even the most powerful Tianfeng Immortal King has never built an earth-level immortal ship.

under normal circumstances.

Except for the Taoist Holy Land.

It is basically impossible for others to get an earth-level immortal ship.

Because the core materials for refining the fairy ship are really difficult to obtain.

Something like the Sky Shattering Immortal Crystal.

Even if it's just in front of everyone.

They don't necessarily have the ability to get it.

Only Emperor Daozu can ignore the shattered void.

Thereby obtaining the Sky Shattering Immortal Crystal.

The reason why Zhang Yuhe was able to obtain the Shattering Sky Immortal Crystal from Yu Fantian's Liuyun Corridor.

That's because he had already mastered the laws of space at that time.

It is protected by the power of space laws.

He can walk freely in the broken void.

Otherwise.

He could only look at it and sigh.

Seeing that everyone no longer objected.

Liuyue Immortal King waved his robe sleeves, and then said calmly.

"In that case, let's leave without further delay."

"Go directly to Liuhetian and cut off the space channel."

After saying this.

Immortal King Liuyue flew out of the hall.

The Dudala Immortal King who was present had nothing to prepare.

After reaching a consensus of opinion.

You can set off directly.

Standing outside the Daluo Palace.

Immortal King Liuyue waved his right hand.

A huge immortal ship soon floated quietly in the air.

The entire immortal ship was white, emitting little starlight.

The powerful pressure was rampant.

Everyone followed him out of the hall.

Looking at the huge immortal ship in front of them.

Section 575

Everyone couldn't help but look envious.

Immortal King Liuyue flew onto the immortal ship.

Others also jumped into the air and quickly landed on the front of the fairy ship.

Wanshan Immortal King did not move.

He turned to look at Zhang Yuhe.

seems to be asking.

What are you hiding, kid?

Don't you also have an earth-level immortal ship?

Why don't you take it out quickly?

It's all come to this time.

Do you still think that you can't hide it?

Zhang Yuhe had no intention of hiding his stupidity.

to be honest.

With his current strength.

There is absolutely no need to hide your clumsiness.

If Emperor Daozu doesn't come out, who can do anything to get him?

If you have strength, you must show it.

No one will ever look down on people who are always on their own.

Only those with strength will be respected by everyone.

Think of this.

Zhang Yuhe waved his right hand.

A huge fairy ship slowly appeared in front of everyone.

The frightening coercion spreads around.

At the top of the fairy ship.

A broad flag fluttering in the wind.

It says on the flag.

【Galaxy】 two big characters.

See this situation.

Everyone at the scene couldn't help but be stunned.

at the beginning.

They saw that Zhang Yuhe and others did not board the Starlight with them.

It's all a little strange.

However, when Zhang Yuhe took out the Galaxy Fairy Ship.

Everyone was completely stunned.

The powerful power of the fairy ship is not concealed at all.

They can tell at a glance.

This is an earth-level fairy ship.

Even the flag on the top of the fairy ship is a top-grade fairy weapon.

Where did this rich man come from?

Everyone looked at Zhang Yuhe with expressions of disbelief.

His expression was full of confusion.

Do you have a Taoist ancestor?

Otherwise.

Did you ever get this fairy ship?

Can you help me get one too?

Wei Tianfeng asked Zhang Yuhe in shock.

"Sect Leader Zhang, are you an Earth-level immortal ship?"

Zhang Yuhe responded with a smile.

"Yes, I got this fairy ship by chance."

"It comes in handy at times like this."

Immortal King Liuyue next to him also looked at Zhang Yuhe with a surprised expression.

She knows the preciousness of the Earth-level Immortal Ship better than anyone else.

Even in their Heavenly Star Holy Land, there are only two earth-level immortal ships.

Unless a war breaks out.

Otherwise.

These two earth-level immortal ships will not be used easily.

And Zhang Yuhe is just a Taiyi Immortal Lord who has just been promoted.

He was actually able to get it, an earth-level immortal ship.

This made her couldn't help but doubt Zhang Yuhe's origins.

Did you really ascend from the lower world?

I'm afraid he's not the illegitimate son of some Taoist emperor, right?

However, it is obviously not convenient to ask about this kind of thing.

Immortal King Liuyue suppressed the curiosity in his heart.

She took a deep breath, and then said solemnly to everyone.

"Let's set off, level the sky and cut off the space channels."

"yes."

The two huge fairy ships turned into streams of light and flew quickly towards Ji'anfang City in the distance.

They have to pass through the teleportation array in Fangshi and teleport to Jiuli Sea Area first.

Then from the Jiuli Sea Area, he directly attacked Liuhetian.

...

Chapter 440 Misjudgment

Two streams of light quickly passed through the sky above Fangshi, and soon fell outside the teleportation hall.

At this time, the teleportation array in Ji'anfang City is constantly operating.

The support forces from each fairyland pass through this teleportation array.

Entering the waters of Ji'an continuously.

In order to completely expel the invading Chaos Beasts from the South China Sea Immortal Domain.

Immortal King Liuyue mobilized a large number of monks from various immortal realms.

Except for the Daluo Immortal King on the immortal ship.

Taiyi Immortal Lords from various immortal realms, and even Golden Immortal monks, are also arriving one after another.

But as for this operation.

Those people are not needed for the time being.

Their operation this time needs to go straight to the Wanshan Sea.

That place is now the base camp of the Chaos Beast.

If you bring a large number of monks there.

Not only can it be of no help.

And it is possible that it will cause heavy casualties.

For these Daluo Immortal Kings who came to support.

They don't want their disciples to die in the South China Sea Immortal Realm.

They are here to support, not to die.

Downwind battles can be fought.

Forget about the headwind situation.

Wait first.

Wait until they clean up some of those king-level chaos beasts.

Then consider again and devote subsequent forces to the counterattack.

As for now.

So forget it.

Gather slowly first.

Based on the past experiences of these Da Luo Immortal Kings.

In a battle of the scale of the South China Sea Immortal Territory, the winner cannot be determined at once.

Section 576

Even if they destroyed the main force of the Chaos Beasts.

Those Chaos Beasts scattered around may need to be eliminated for a long time.

It will take thousands or tens of thousands of years.

Don't think that the South Sea Fairyland will return to peace.

...

Ten days later, Wanshan Sea.

Two streams of light quickly passed on the sea.

Zhang Yuhe stood at the front of the fairy ship and looked into the distance quietly.

As they entered the Wanshan Sea.

Chaos Beasts would appear around from time to time.

These Chaos Beasts, at least hundreds of a team.

There will be tens of thousands of them.

However, there are nearly three hundred Daluo Immortal Kings on the two fairy ships.

The Chaos Beasts they encountered on the road were easily wiped out by them.

Not even one of the messengers escaped.

They had to try their best to keep their tracks secret.

Only in this way can the effect of a surprise attack be achieved.

The Chaos Beasts near Liuhetian were wiped out in one fell swoop.

Then the passage was closed.

Of course.

In fact, everyone knows.

It is impossible to keep it completely secret.

The Chaos Beasts of Helan Mountain are not fools.

They entered the Wanshan Sea in large numbers.

It would be strange if they were not discovered by the Chaos Beasts.

For Zhang Yuhe and others.

Even if they were discovered by the Chaos Beasts, it didn't matter.

Just delay for a while.

Let them get the upper hand.

First wipe out the Chaos Beasts of Liuhetian, and then consider the next move.

With the continuous death of Chaos Beasts, Helan Bieye gradually attracted his attention.

Chaos Beasts kept dying, which was obviously abnormal.

The entire Wanshan Sea had been swept by them several times.

Even the Wanshan Immortal King was driven to the Ji'an Sea by them.

Normally.

Chaos Beasts should not be in any danger in the Wanshan Sea.

Even if a cultivator occasionally slipped through the net, he would never dare to provoke those Chaos Beasts scattered everywhere.

Now Chaos Beasts are dying continuously.

This is obviously abnormal.

Helan Bieye's first thought.

That is.

The Immortal King of Wanshan quietly returned to the Wanshan Sea Area.

He was secretly attacking teams from all over the place.

Thinking of this.

Helan Bieye couldn't help but get angry.

The Immortal King of Wanshan relied on the Xuan-level Immortal Ship in his hand and kept playing with fire.

How could it bear this.

Helan Bieye immediately gave an order.

Let all the king-level chaos beasts around gather together.

This time it will lead the team in person.

Take down the Immortal King of Wanshan in one fell swoop.

Now the Chaos Beast Army scattered in various places.

Has all gathered in the Wanshan Sea Area.

Then the King-level Chaos Beasts are naturally there too.

After a while.

Helan Bieye quickly gathered all the thousands of King-level Chaos Beasts around.

Thousands of King-level Chaos Beasts gathered at the Wanxianmen Station.

The momentum that soared into the sky shattered the clouds.

A nine-color king beast asked Helan Bieye loudly.

"Captain, are we going to launch a new attack now?"

"I can't wait any longer."

"Galaxy Immortal Lord is a small Taiyi Immortal, relying on a ground-level immortal ship to slaughter so many of our brothers."

"We will never stop until we completely wipe out the Daosheng Sect from the South China Sea Immortal Domain."

"Yes, wipe out the Ji'an Sea Area and capture Galaxy Immortal Lord."

"End this war as soon as possible."

"Everyone is waiting to transport the sacrifice back to the tribe as soon as possible and then sacrifice it to the Supreme True God."

"With such a big harvest this time, we should all be able to be promoted to the next level."

"If we are lucky, we may be promoted to the Venerable, hehe."

When Helan Bieye summoned them.

Everyone thought that they were going to launch the final offensive.

After all, the entire South China Sea Immortal Domain only has that small area in the southwest corner.

It has not been wiped out by them.

To be honest.

Such a small area is really too eye-catching.

Finish the matter as soon as possible.

They can return to the tribe as soon as possible.

Hurry up and offer the sacrifice to the Supreme True God.

This is an opportunity to increase strength.

They can't wait.

As for Zhang Yuhe's Earth-class Immortal Ship, it is indeed a bit difficult.

But they have thousands of King-class Chaos Beasts here.

No matter how strong the Earth-class Immortal Ship is.

Each of them can knock the Immortal Ship apart with a stick.

Even if they can't do anything to Zhang Yuhe.

Harvest all the sacrifices over there, and that's done.

They didn't struggle.

After all, increasing strength is more important.

Looking at the excited look of the King-class Chaos Beasts at the scene.

Helan Bieye was a little speechless.

What did they think of?

It just wanted to take these King Beasts out to encircle and suppress the Immortal King Wanshan.

Why do these King Beasts think of going to the Ji'an Sea?

What's the hurry.

There are still a lot of sacrifices here that have not been transported back to the tribe.

In Helan Bieye's plan.

They must first transport all the sacrifices in their hands back to the tribe safely.

They don't want any accidents to happen to the meat that is about to be eaten.

After this matter is done.

They will let go and clean up the rest of the place.

Eat the meat first, and then gnaw on the bones.

Section 577

Even if the support forces from other immortal realms have entered the South China Sea Immortal Region.

It is not afraid at all.

Yes.

Helanbieye has received the news.

Immortal King Liuyue led the forces from various immortal realms into the Ji'an sea area.

Such a big movement.

Of course it is impossible to hide it.

Chaos beasts also have their own intelligence system.

A dragon Yuanguang appeared in the South China Sea Immortal Domain.

So it is not strange for the Helan Mountain tribe to plant a few secrets in other fairy lands.

The king beast looked at the chaos at the scene.

Helanbieye said loudly.

"Everyone, please stop here. This time we are not going to Ji'an waters."

"Recently, I sensed that a large number of Chaos Beasts died in the Wanshan Sea."

"I suspect that the Wanshan Immortal King secretly entered the Wanshan Sea Area."

"So I decided to concentrate all my strength and make sure to take him down this time."

"We must not let him escape again."

"What? Wanshan Immortal King still dares to come?"

"Where is he? Come together and destroy him."

"We must catch him this time. Daluo Immortal Perfection, that is the top sacrifice."

Hearing Helan Bieye's words, all the king-level chaos beasts present could not help but become furious.

In their view.

Immortal King Wanshan is looking for death.

Is there really nothing they can do if there is a Xuan-level immortal ship?

This time we must capture the Immortal King of Wanshan.

They have absolutely no idea.

The Immortal King of Wanshan was not the only one who entered the Wanshan Sea this time.

And there are nearly three hundred Daluo Immortal Kings.

Everyone comes prepared.

Not that easy to mess with.

There's really going to be a big collision.

It is still unclear who will die when the deer dies.

not to mention.

Zhang Yuhe also held a big killing move in his hand.

If these king-level chaos beasts appeared together.

He will activate the Hunyuan Guiyi magical power without hesitation.

Wipe out all these king beasts.

There are no longer these king-level chaos beasts sitting around.

The remaining Chaos Beast army, no matter how large the team is.

It's just a bunch of fish bellies.

...

Chapter 441 Rescue the Monk

The two fairy ships turned into streams of light and quickly moved across the sea.

Zhang Yuhe stood quietly at the front of the fairy ship.

Suddenly his expression changed, and he turned his head and looked to the right.

The Wanshan Immortal King next to him saw Zhang Yuhe with a strange look on his face.

He also looked around.

However, nothing unusual was found.

He couldn't help but asked with some surprise.

"Sect Leader Zhang, have you found traces of the Chaos Beast?"

Come all the way.

Every time he encounters a team of Chaos Beasts, Zhang Yuhe is the one who discovers them first.

This made Wanshan Immortal King feel a little depressed.

As a top Daluo Immortal King.

The coverage of his spiritual consciousness is actually not as good as that of Zhang Yuhe, the early stage Taiyi Immortal.

This is simply unscientific.

But this kind of thing has happened many times.

He gradually got used to it.

After all, Zhang Yuhe has done even more outrageous things before.

Therefore, the spiritual consciousness is slightly stronger than that of ordinary people.

It seems reasonable.

Zhang Yuhe responded calmly.

"There is a large team of Chaos Beasts over there, they should be escorting the abducted monks."

"Let's go over and have a look."

After saying this.

Zhang Yuhe turned the fairy ship and quickly flew towards the target in the distance.

On another fairy ship next to it.

Liuyue Immortal King and other great Luo Immortal Kings.

They were not too surprised to see Zhang Yuhe change direction.

Flying all the way.

You will often encounter teams of Chaos Beasts on the road.

In line with the principle of whoever discovers it first, he will deal with it.

They and Zhang Yuhe had already formed a tacit understanding.

Anyway, there is enough power on both fairy ships.

Can cope with all emergencies.

After all, the Chaos Beasts encountered on the road were all scattered teams.

The strongest Chaos Beast cannot exceed Nine Stars.

Liuyue Immortal King thought.

On Zhang Yuhe's immortal ship, there were three Daluo Immortal Kings from the Wanxian Sect.

Handling these small teams was no problem at all.

There is no need for them to intervene.

The Starlight fairy ship did not follow the turn, but continued to fly in the direction of Liuhetian.

...

On the distant sea.

A huge team of Chaos Beasts is running fast.

Except for a few Chaos Beasts who lead the team.

The remaining chaos beasts all transformed into beast forms.

The huge body of the Chaos Beast was like a hill, running wildly on the sea.

On the backs of these Chaos Beasts were tied a large number of monks.

These are the sacrifices captured by the Helan Mountain tribe from all over the South China Sea Immortal Territory.

Helan Mumu stood in the team.

it urged loudly.

"Hurry up and transport these sacrifices back to the tribe as soon as possible."

"After completing this mission, everyone will have the opportunity to offer sacrifices to the Supreme God and gain promotion."

"Roar....."

The surrounding Chaos Beasts roared in excitement.

Look at the monks tied up on the backs of these Chaos Beasts.

Helan Mumu couldn't help but look forward to it.

"I don't know if I can evolve into a king through this sacrifice after I return to the tribe."

Section 578

As early as many years ago.

It has evolved to nine stars.

But there is still a huge gap between the Nine-Star Chaos Beast and the King Beast.

Ordinary sacrifices are not enough to successfully promote it to a king-level chaos beast.

But Helan was thinking about it.

It should work this time.

After all, they captured a large number of sacrifices from the South China Sea Immortal Domain this time.

Even in the Helan Mountain tribe, there are many chaos beasts.

Moreover, the bulk should be given to the king beasts who are in charge.

despite this.

There will still be a lot of sacrifices that can be divided on its head.

It is enough to support a sacrifice.

Think of this.

Helan Mumu clenched his fists secretly.

"It will definitely work this time."

"It will definitely allow me to evolve successfully."

Just at this time.

Helan Mumu suddenly discovered.

A stream of light streaked across the sea in the distance.

See this situation.

It couldn't help but exclaim loudly.

"No, human monks are attacking. The team must gather quickly and ask the commander for help."

Helan Mumu's first reaction.

That is to ask for help from the commander-in-chief.

Although their team here is quite large.

There are millions of them.

But most of these chaos beasts carry sacrifices on their backs.

Not very convenient for fighting.

the most important is.

at this time.

They dare to collide head-on. The strength of the monks in the Chaos Beast team is definitely not simple.

Not long ago.

The commander-in-chief, Helan Bieye, sent a message to it.

Let it pay attention to its surroundings.

It is said that the Immortal King of Wanshan may enter the Wanshan Sea again.

Make them more vigilant.

Once traces of Wanshan Immortal King are found.

Just report back immediately.

Helan thought silently.

It couldn't be that the Immortal King of Ten Thousand Mountains is here.

Then they can't beat it.

Their team is not focused on fighting.

There wasn't even a single king beast in the entire team.

How could it be possible to defeat a top-notch Great Luo Immortal like Wanshan Immortal King?

It just wants to rely on the strength of the team to hold it off for a while longer.

As long as it is dragged to the commander-in-chief, it will achieve great success.

Although Helan's mute reaction was not unpleasant.

It works almost immediately.

Organize the combat-effective Chaos Beasts in the team to defend.

At the same time, someone was sent to summon the commander-in-chief.

However, Zhang Yuhe was faster than it.

I saw him wave his right hand.

The nine fairy swords quickly fell towards the distance.

A magnificent sword energy light curtain slowly rose in the distance.

The sword energy light curtain enveloped the entire Chaos Beast team.

The Chaos Beast sent by Helan Mumu to summon him had not even taken two steps.

Just like other chaos beasts, they were trapped by the sword formation.

Follow the magic formula and pinch it.

The sword energy in the sky swept across the world.

Millions of chaos beasts were wiped out in an instant.

After the sword energy swept across.

Helan Mumu felt that a huge divine power suppressed it in place, completely unable to move.

Not only that.

The terrifying divine power carried in the sword energy can actually hit the depths of the soul sea.

The huge soul pain made it roar wildly.

But it doesn't matter, no matter how long the pain lasts.

After integrating the innate spiritual materials.

The current power of the Nine Heavens Hunyuan Sword Formation is no longer comparable to that of the original.

When I was in Niulan Mountain.

He wanted to kill the Nine-Star Chaos Beast with just the power of the sword array.

It takes a little more effort.

Sometimes, he even has to go up and hit him with a stick.

Not at all now.

After several rounds of sword energy swept through.

There was a huge team of Chaos Beasts in front of them.

It was quickly cleared out.

Even the Nine-Star Chaos Beast didn't hold on for too long.

Large areas of Chaos Beast corpses covered the entire sea surface.

A large number of monks were also carried on the corpses of these Chaos Beasts.

See this situation.

Zhang Yuhe couldn't help but frown slightly.

With the magic formula pinched again.

The invisible sword energy swept across.

Quickly cut off the ropes that bound the monks.

Countless monks rolled down from the corpse of the Chaos Beast, breathing heavily.

The ropes that bind the monks are actually not simple.

It is also the feedback from worshipping the Supreme True God.

After the monk was tied up with this rope.

All the energy will soon be absorbed by the rope.

If they want to regain their former magical powers, it will take a long time for them to cultivate.

But he can save a small life from the chaos beast.

This is already the greatest luck.

Some monks recognized Zhang Yuhe and Wanshan Immortal King standing on the immortal ship.

they shouted excitedly.

"Thank you to the Immortal Lord Galaxy for saving your life. Thank you to the Immortal King."

...

Chapter 442 Not good!

From the fall of Zhang Yuhe's fairy sword to the chaos beasts all falling to the ground.

That is just a moment.

Section 579

In such a short period of time, millions of chaos beasts were wiped out.

The powerful power of the Nine Heavens Hunyuan Sword Formation made the Immortal King Wanshan and others beside him couldn't help but marvel.

They all know that Zhang Yuhe is very powerful.

But exactly how strong it is.

They don't have intuitive feelings.

While on the road.

Zhang Yuhe also took action many times.

It's just that the number of Chaos Beast teams encountered before was not too large.

These people, no matter who takes action.

In fact, they are all the same.

Will not let the Chaos Beast run away.

But this time it's different.

The army of Chaos Beasts encountered this time numbered at least one million.

Moreover, these Chaos Beasts are also carrying a large number of monks.

Zhang Yuhe not only wiped out all the chaos beasts in an instant.

Moreover, he could also control the sword formation so as not to harm these captured monks.

This precise control alone was enough to amaze them.

As for the power of the sword array.

Although they stood nearby and watched it many times.

But still not, I can see why.

It's really hard for them to imagine.

A sword array that covers such a large area.

How could it be possible to explode with such strong power?

Even the Nine-Star Chaos Beast can be easily suppressed and killed.

This is completely illogical.

For these Da Luo Immortal Kings.

The Nine-Star Chaos Beast is indeed nothing.

As long as Wanshan Immortal King is willing.

He can also do it and kill the Nine-Star Chaos Beast with one hammer.

But he can only kill one Chaos Beast every time.

How could he be like Zhang Yuhe?

After the sword formation was deployed.

Invisible sword energy swept across the world.

All the chaos beasts were wiped out in an instant.

Such terrifying strength.

Even if they saw it with their own eyes.

I still feel it is incredible.

Although my heart is full of feelings.

But no one asked.

They all know it.

There must be a big secret hidden in Zhang Yuhe.

Maybe he once received the inheritance from Emperor Daozu.

Otherwise.

It is also impossible for Zhang Yuhe, who has practiced against the heavens all the way until now.

It's just that these things are obviously inconvenient to ask.

Wanshan Immortal King looked into the distance, and the monks on the sea could not help but frown slightly.

He turned back to Zhang Yuhe and said.

"Sect Master Zhang, what should we do with these people?"

Zhang Yuhe responded softly without even thinking about it.

"We can't just leave him here, can we take them into the space fairy weapon first?"

"After this war is over, we will bring it back to the Ji'an sea area for resettlement."

After saying this.

I saw him wave his right hand.

A picture appears instantly.

The scroll covers the sea and the sky.

Zhang Yuhe said lightly.

"I will take you into the space fairy weapon first, and then release you when you reach a safe place."

The sound was not loud, blowing across the sea like an autumn wind, and fell clearly into everyone's ears.

"Thank you, Immortal Lord."

The monks on the sea responded feebly but gratefully.

It's good to enter the space fairy weapon.

Thus.

As long as nothing happens to Zhang Yuhe, they no longer have to worry about being kidnapped by the Chaos Beast.

Zhang Yuhe unfolded the scroll and put away all the monks on the sea.

Then a pagoda was sacrificed.

Collect all the corpses of Chaos Beasts that fell on the ground.

Make a small profit.

not bad.

As long as you come out, you will make money.

After getting things done.

The Yinhe fairy ship turned into a stream of light and continued to fly towards Liuhetian.

Above the Ten Thousand Immortals Gate station.

Thousands of king-level chaos beasts were scattered and standing nearby.

Since being recalled by Helanbieye.

They're always here.

According to Helanbieye's idea.

They will seize the opportunity this time and try to capture Wanshan Immortal King.

But this matter obviously cannot be rushed.

Before finding the whereabouts of Immortal King Wanshan.

They can't do anything.

After all, the sea is vast.

Even if they sprinkled thousands of king beasts, they wouldn't be able to stir up any waves.

If you want to find the whereabouts of the Immortal King of Wanshan, you have to rely on the teams of Chaos Beasts from various places.

As soon as the news comes.

They will go out immediately.

Just at this time.

Helan Bieye, standing in the middle, suddenly turned gloomy.

See this situation.

All the king beasts present could not help but feel a little strange.

Could it be that something unexpected happened again?

This shouldn't be the case.

Currently the entire South China Sea Immortal Territory.

Except for a small area in the southwest corner, everything was swept away by them.

The situation is excellent.

There shouldn't be any big accident, right?

Even if the Immortal King of Wanshan comes over, he can only sneak it out at most.

Attack some scattered small teams.

What a big deal this is.

Why be so gloomy?

A nine-color king beast next to him couldn't help but asked in surprise.

Section 580

"Commander, what happened?"

Helanbieye said gloomily.

"Just now, a team transporting sacrifices suddenly lost their senses."

"He should have been killed by a monk."

"This is impossible."

"Absolutely impossible."

"Commander, you can't sense it wrong, right?"

"We all transport the sacrifices together. Each team has a large number of Chaos Beasts."

"Who can wipe out the entire team so quickly?"

Hearing Helanbieye's words.

All the royal beasts at the scene couldn't help but jump.

They couldn't believe it, this was true.

I don't want to believe it either.

Because each team transporting sacrifices is extremely large.

There are as few as hundreds of thousands of Chaos Beasts.

There are even millions of Chaos Beasts.

How could a monk have such strength?

Being able to wipe out such a huge team in an instant.

They don't even have time to rescue.

the most important is.

The entire team disappeared, which meant that the sacrifices were definitely gone.

That's a massive amount of sacrifices.

Think of this.

All the king beasts couldn't help but become very angry.

"Isn't it the Immortal King of Wanshan again?"

"Impossible, Wanshan Immortal King does not have such strength."

"With such a huge team, the most that Immortal King Wanshan can do is break up the team."

"It is absolutely impossible to kill all the chaos beasts?"

"Who else could it be?"

All the king-level chaos beasts present were completely confused.

How could such a good team suddenly disappear?

Helanbieye guessed with a gloomy face.

"Maybe it's the Immortal Lord of the Galaxy."

"This team disappeared very suddenly, much like the previous times."

"In a short period of time, all the Chaos Beasts in the team quickly lost their senses."

"Galaxy Immortal Lord? He still dares to come to Wanshan Sea Area?"

"Commander, please give the order immediately. Let's go together and crush his Dao Sheng Sect."

"Yes, let's just destroy the Dao Sheng Sect first."

"Without the rear base, I don't see how he can still be arrogant."

The kings and beasts were furious.

However, Helan Bieye remained unmoved.

He's thinking about it.

Why did Zhang Yuhe suddenly come to Wanshan Sea Area?

Did he come here alone, and the Immortal King of Wanshan also came with him?

Or.

All the Daluo Immortal Kings from other Immortal Realms followed here?

if it is like this.

I'm afraid a war will break out soon.

Helanbieye silently analyzed the location of the recent incident.

A long arc slowly appeared in its mind.

Suddenly, Helan Bieye had an idea.

he shouted angrily.

"No, the other party is heading for the space channel."

"I'm afraid it's not just the Galaxy Immortal Lord who is here, but also the Daluo Immortal Kings from various immortal realms."

"We will set off immediately to support the space channel."

...

Chapter 443 Helan Xilin

After Helanbieye connected the locations of the accident during this period of time.

Long arcs point directly to Liuhetian.

This shocked him greatly.

It is clear.

The monks who came this time must be making big moves.

Maybe he wants to re-seal the space channel.

The last thing I want is to interfere with their movement of delivering sacrifices.

No matter which one it is, Helanbieye cannot accept it.

Needless to say about the first possibility.

Once the space passes, it is re-sealed by the monks.

Then the escape route for these chaotic beasts will be cut off.

Maybe they will never have the chance to return to the tribe.

But in Helanbieye's view.

This possibility is not high.

This space channel is very stable and has strong self-healing properties.

Even Emperor Daozu could not completely destroy the passage.

Even trying to seal the space channel is extremely difficult.

Tianxing Daozu is famous for his formation skills and is a fifth-level immortal formation master.

It's not surprising that he can seal space channels.

But now Tianxing Daozu and the respected Chaos Beast of Helan Mountain.

I don't know where I hit in the void battlefield.

It is estimated that it has already left the scope of the South China Sea Immortal Domain.

There is no Heavenly Star Dao Ancestor.

Those Daluo Immortal Kings should not have the strength to seal the space passage again.

Helanbieye thought.

The monk's purpose this time should be to interfere with them and deliver sacrifices to the tribe.

This is not okay.

They entered the South China Sea Immortal Realm just to harvest sacrifices.

Now that the sacrifices have been received, they have not been shipped back yet.

The space channel is not wide.

If you want to transport all the sacrifices back.

This will take a long time.

If disturbed by monks.

How long will it take for all the sacrifices to be delivered?

Helanbieye didn't dare to be careless at all.

It guesses.

It was definitely not the case this time. Zhang Yuhe came alone.

Maybe it guessed wrong just now.

The disappearance of the team just now was not caused by Zhang Yuhe.

It may be the result of the Daluo Immortal Kings from various immortal realms taking action together.

As early as a few days ago.

Helanbieye received the news.
