Section 58

In the past ten years, Wang Guofeng, like others, had not seen Zhang Yuhe.

Although after going offline, he could indeed get in touch with Zhang Yuhe.

Zhang Yuhe's contact information is available on Tianwang.

Blue Star is not a big place, so we can arrange a place with just a phone call and we can meet in minutes.

But Wang Guofeng did not do this.

He has this awareness.

As long as Zhang Yuhe didn't come looking for him, he wouldn't bother him.

There is really no suitable reason.

If nothing serious happened, he would go there to avoid arousing Zhang Yuhe's resentment.

Ten years have passed, and all the Blue Star players still don't know that the Yunzhong Mansion's Guardian Envoy is actually a player.

I have to say that Wang Guofeng is indeed a man with a good mouth.

Very reliable.

For such a long time, he has not revealed Zhang Yuhe's identity to anyone.

Wang Guofeng was about to speak.

Suddenly a stream of light passed in front of the hall.

The three of them quickly ran out of the palace.

"Is that the Lord Guard?"

Qian Weiguang asked in a low voice.

"Yes, I will definitely not admit the demeanor of Lord Guard."

Even though Zhang Yuhe had already flown far away, Sun Pengcheng still didn't forget to flatter him.

"The guard's aura seems to have become stronger again."

"That's natural. With the posture of guarding adults and gods, I guess I am about to break through to the realm of refining the void."

"Once the Lord Guard breaks through to the Void Refining Realm, he will become an elder of the Dao Sheng Sect. It will be difficult for us to see his outstanding grace."

"Yeah yeah."

Qian Weiguang and Sun Pengcheng slapped Zhang Yuhe violently.

Wang Guofeng stood nearby thoughtfully.

He couldn't sense Zhang Yuhe's aura at all.

Although Wang Guofeng's cultivation has not declined in the past ten years, he has already reached the Golden Elixir Perfection at this time.

As long as the time is right, it is possible to break through to the Nascent Soul Realm at any time.

But Zhang Yuhe was too far away for him.

The gap between the golden elixir and the transformed god cannot be calculated based on the truth.

"You're not really going to break through to the Void Refining Realm, are you?"

Wang Guofeng was a little confused.

Once Zhang Yuhe breaks through the Void Refining Realm, he will automatically be promoted to the elder of the Dao Sheng Sect.

Naturally, there is no need and he will continue to serve as the guardian of Yunzhong Mansion.

Zhang Yuhe is no longer the guardian envoy, what should he do?

At this time, Wang Guofeng was a little panicked.

The inspector has not enjoyed enough of his prestige, and he seems to be about to lose his job.

On the one hand, Wang Guofeng naturally hopes that Zhang Yuhe will become stronger as possible.

On the other hand, he was a little reluctant to be on duty as an inspector.

This job is not only fat and fat, but also prestigious.

At least that's the case in Yunzhong Mansion.

"I don't know if Senior Zhang will still need me to do things for him after he becomes the elder of Daosheng Sect?"

Wang Guofeng wanted to hold Zhang Yuhe's thigh forever.

But he knew that if he wanted to hold someone else's lap, he had to be useful first.

A useless person is not worthy of being a pendant.

Therefore, when I heard Qian Weiguang mention that Zhang Yuhe might be about to break through to the Void Refining Realm.

Wang Guofeng couldn't help but feel a little entangled.

Chapter 58 Looking for a place to overcome the tribulation

Zhang Yuhe used all his strength to activate the Tianhuang Flying Immortal Technique and flew towards the depths of Yunmang Mountain at high speed.

At this time, he had reached the Great Perfection of Divine Transformation and sensed an opportunity for a breakthrough.

Just breaking through the Void Refining Realm cannot be done in Yunzhong City.

Because after becoming a god, every time you break through a great realm, a disaster will come.

Not only will a heavenly catastrophe befall you if you break through the Void Realm, but you will also need to face a heavenly catastrophe if you break through the Fusion and Mahayana realms.

Zhang Yuhe cannot survive the disaster in Yunzhong City.

Once he chooses to break through in the city, the catastrophe caused will probably destroy the entire Yunzhong City.

If a monk senses an opportunity for a breakthrough after achieving the Great Perfection of Divine Transformation.

They usually go to places where there are few human beings to survive the catastrophe, so as not to cause accidental injuries and unnecessary trouble.

That's why Zhang Yuhe came to Yunmang Mountains, where he planned to find a place to overcome the tribulation.

The Yunlang Mountains are deserted, and except for the occasional monks who hunt monster beasts, there are almost no people here.

Zhang Yuhe quickly passed through the Yunmang Mountains, looking for a suitable place to escape the tribulation.

Although generally speaking, the location of a monk's tribulation is not very particular.

As long as no one disturbs you, or the monk seeks his own death, find a place that is particularly easy to attract thunder.

For example, there are locations such as metal veins.

Other normal places can be used as places for monks to overcome tribulations.

But Zhang Yuhe felt that he should be more stable.

After all, this was his first time to overcome a tribulation, and he had never seen other monks overcome a tribulation before.

I have no knowledge or experience in this area.

Zhang Yuhe didn't know how powerful the disaster would be once he broke through the Void Refining Realm.

Zhang Yuhe's knowledge about the heavenly calamity all came from the classics in the library.

After all, what I read in the book was a bit abstract.

In order to survive the catastrophe safely, Zhang Yuhe felt that he should make preparations as perfect as possible.

In addition to the natal magic weapon, the Nine Heavens Hunyuan Sword.

He also prepared several other items, defensive Tongtian Lingbao,

There are also a lot of recovery elixirs prepared.

Despite this, Zhang Yuhe still felt that it was not enough.

Maybe add some more chips.

For example, arrange some formations to deal with the catastrophe.

He had seen a formation in the Dao Sheng Sect library before, which was very effective in weakening the heavenly calamity.

It's just that this formation has some special requirements for the environment where it is deployed.

This formation needs to be deployed in a place with abundant water sources to have a good effect in weakening the natural disaster.

Yunzhong Mansion is not close to the sea, and there are no big rivers. I want to find a place with abundant water.

It's really not easy.

Zhang Yuhe had no better choice and could only look for it in the Yunmang Mountains.

See if you can find a bigger lake or something here.

"The Yunlang Mountains stretch for countless miles, and there should be large lakes in them, right?"

Feeling that the opportunity for a breakthrough was getting stronger and stronger, Zhang Yuhe couldn't help but become a little anxious.

If others want to wait for a breakthrough opportunity, they may not be able to wait for hundreds or even thousands of years.

But Zhang Yuhe is different.

When he reached the perfection of spiritual transformation, he had a strong urge to make a breakthrough.

It almost made him unable to suppress himself.

"Hey, you are so talented that you still have such troubles."

"I hope we can find a suitable place as soon as possible. Otherwise, we can only find a place in the mountains to survive the tribulation."

While Zhang Yuhe was flying quickly, he was silently troubled in his heart.

"Hey, what is that place?"

Suddenly, a huge lake appeared within the scope of Zhang Yuhe's consciousness.

He quickly flew through the air.

Soon, a large lake with a radius of thousands of miles appeared in Zhang Yuhe's field of vision.

"There won't be any powerful monsters here, right?"
