Section 59

Finally, he found a suitable place to pass the tribulation, but he did not act impulsively.

There are many monsters in the Yunmang Mountains, and even a ninth-level Yunmang has appeared.

Even now, there are still many seventh- and eighth-level monsters in the Yunmang Mountains.

Zhang Yuhe did not want to dive into the lair of high-level monsters without paying attention.

He flew around the lake quickly to see if there were any powerful monsters.

If there were, he would get rid of the monsters first.

However, after a round of inspection, he found that the surroundings were quiet.

Not to mention high-level monsters, Zhang Yuhe did not even find an ordinary flying bird.

"This place is a bit weird."

Although he did not see any monsters, Zhang Yuhe was even more worried.

A lake in the deep mountains does not even have ordinary wild beasts. Isn't this strange enough?

"Is there a very fierce monster overlord here?"

Zhang Yuhe searched back and forth for several times, but still did not find any traces of monsters around the lake.

This made him very worried.

"Should we look for another place?"

There must be something wrong.

He concluded that there must be a powerful monster here, but it has not been discovered yet.

Maybe the monster is hiding in the depths of the lake.

This big lake is bottomless, and it is impossible for him to cover it completely with his consciousness of the Great Perfection of the Spiritual Transformation.

If the monster is hiding in the depths of the lake, unless he is willing to go into the water and slowly look for it.

Otherwise, it will be impossible to find it for a while.

Zhang Yuhe is in a hurry, and he has no time to look for it slowly here.

But if he doesn't find the monster entrenched in this place, he dare not pass the tribulation here.

If the monster comes out to mess with him halfway through the tribulation, it will be nonsense.

He came here alone, and no one protected him.

Don't let the monster kill him instead of being killed by the heavenly tribulation, that would be a big joke.

Zhang Yuhe turned around and prepared to find another place to pass the tribulation.

This place doesn't work, so change to another place.

Boom...

Just when Zhang Yuhe turned around.

Suddenly, a huge sound came from the lake.

He quickly turned back to look at the lake.

The lake water was surging rapidly like boiling water, raising huge waves.

A huge snake head emerged from the lake.

"Fuck, such a big snake?"

Most of the snake's body was still hidden under the water, and the snake's head was raised high. The part exposed above the water alone was more than ten miles long.

"Nimma, this is too exaggerated."

Although he knew that this was the world of immortal cultivation, it was normal for the monsters to be huge.

But seeing such a big snake, Zhang Yuhe was still very surprised.

He used his spiritual sense to scan the giant snake, and his heart was shocked.

"Seventh-level monster, Red Moon Python."

The seventh-level monster is equivalent to a cultivator of the Void Refining Realm, and its strength is extraordinary.

Zhang Yuhe has not yet broken through the Void Refining Realm, and even if he can beat it, he doesn't want to provoke it.

Because he urgently needs to pass the tribulation now and doesn't want to waste time.

Seeing the Red Moon Python appear, Zhang Yuhe planned to quietly avoid it.

It's not shameful to be a coward.

However, he wanted to leave at this time, but the Red Moon Python didn't seem to agree.

Hiss...

The Red Moon Python, which emerged from the water, suddenly let out a strange hiss when it saw Zhang Yuhe.

Then the huge body of the python rose into the air, revealing its body completely.

The entire body of the python was dozens of miles long.

Almost at the moment of rising into the air, the Red Moon Python's thick tail quickly swept towards Zhang Yuhe.

Boom...

The snake's tail swept through the air, and the air seemed to be torn apart, making a deafening sound.

The tall trees around were all crushed to the ground by the airflow raised by the snake's tail.

"Damn."

Zhang Yuhe was angry.

I didn't want to provoke you, but you actually took advantage of me.

I have killed the Horned Demon in the middle stage of the Void Refining Realm. Am I afraid of a mere seventh-level python like you?

...

Chapter 59: Void Refining Pill

Zhang Yuhe couldn't help but get angry when he saw the Red Moon Python was not giving up.

He was not really afraid of the Red Moon Python, he just didn't want to waste time.

Although the seventh-level monster is very strong, it is equivalent to a cultivator in the Refining Void Realm.

But he has killed even the Horned Demon in the middle stage of the Refining Void Realm, so how could he be afraid of this Red Moon Python.

Judging from the aura, the Red Moon Python is obviously not as good as the Horned Demon in Jingkong City before.

This Red Moon Python should only be in the early seventh level.

If he wants to fight, he can definitely beat it with the Nine Heavens Hunyuan Sword Formation and the Great Wilderness Prison Heaven Finger.

Originally, Zhang Yuhe planned to find another place to survive the tribulation, but now he can't leave even if he wants to.

Seeing the huge tail of the Red Moon Python sweeping over, Zhang Yuhe used all his strength to activate the Tianhuang Flying Technique.

The whole person was like a fairy god, and he dodged lightly.

At the same time, Zhang Yuhe waved his right hand, and a golden flying sword flew out quickly, slashing at the Red Moon Python.

The golden sword light cut a shallow scratch at the seven-inch position of the Red Moon Python.

Hiss...

The Red Moon Python screamed in pain, and its lantern-like eyes quickly turned red, staring at Zhang Yuhe.

The huge body of the python crossed the sky and swept towards Zhang Yuhe again.

Zhang Yuhe slowly stretched out his right hand and pointed at the Red Moon Python.

Suddenly, a huge golden finger shadow appeared in the sky.

The finger shadow slowly pressed down on the Red Moon Python.

The Red Moon Python flying in the air seemed to be fixed in the air and could not move.

Taking this opportunity, Zhang Yuhe waved his right hand, and nine flying swords flew out quickly, falling around the Red Moon Python.

As the spell was pinched, the nine flying swords instantly lit up with a scorching light.

A blue light curtain quickly rose, covering the Red Moon Python.

Nine Heavens Hunyuan Sword Formation.

Facing the seventh-level Red Moon Python, Zhang Yuhe did not expect the Great Wilderness Prison Heaven Finger to kill it directly with one move.

Although the Great Wilderness Prison Finger is powerful, it is obviously impossible to kill the enemy across levels with one move.

The seventh-level monster is not so easy to kill, at least for Zhang Yuhe now.

Maybe after he breaks through to the Refining Void Realm, his strength will be qualitatively improved.

At that time, it is estimated that it will not be a big problem to kill the Red Moon Python with one finger.

Therefore, Zhang Yuhe took advantage of the moment when the Red Moon Python was fixed and quickly deployed the sword formation.

As long as it is trapped by the Nine Heavens Hunyuan Sword Formation, the only fate waiting for the Red Moon Python is death.

The powerful Horned Demon in Jingkong City couldn't break through his sword formation, let alone this Red Moon Python.

Sure enough, after a while.

The golden finger shadow surrounding the Red Moon Python disappeared.

The Red Moon Python regained its freedom, but the scales on its body seemed to have experienced countless years.

It has turned grayish white.

The Red Moon Python's aura has also slipped a lot.

The Great Wilderness Prisoner Heaven Finger is worthy of being a top-level heaven-level upper-grade magical power.

Zhang Yuhe only made one move and severely injured the Red Moon Python.
