

## Top talent 591

Section 591

After being reminded by Immortal King Liuyue.

Everyone can see it.

There is no need for them to take action on these king beasts below six colors.

Just relying on those terrifying invisible sword energy, it can cut the king beasts below six colors to death.

...

Chapter 450 Victory is decided

A group of Daluo Immortal Kings surrounded the Chaos Beast and attacked fiercely.

But in a short while.

I'm afraid it will be difficult for them to achieve too great a result.

After all, the defensive capabilities of king beasts with seven colors or above are terrifying.

Even if it means being imprisoned in place and beating the dog to death.

It's not that easy to be killed.

Zhang Yuhe stands at the front of the fairy ship.

See this situation.

While controlling the sword formation to reduce the coverage area, he soared into the air.

He pounced towards the center of the battlefield.

The duration of Hunyuan Guiyi's magical power is limited.

He had to take advantage of this explosive magical power to seal the victory as soon as possible.

Beat those nine-color king beasts to death first.

Zhang Yuhe picked up the Nine Heavens Flying Spirit Stick and rushed directly towards Helan Bieye.

Back in the beginning.

He could tell.

Helanbieye is the leader of this team.

It is even very possible that he is the supreme commander of the entire Helan Mountain tribe in the South China Sea Immortal Domain.

Just beat it to death.

Then this battle is more than half won.

Immortal King Liuyue waved his spear, and the golden light completely enveloped Helan Bieye.

There are also terrifying big holes in Helanbieye's body.

As the eldest disciple of Tianxing Dao Ancestor.

It goes without saying that Immortal King Liuyue has great strength.

Definitely the top Daluo Immortal King in the entire immortal world.

Moreover, the spear in the hand of Immortal King Liuyue is also very unusual.

Zhang Yuhe didn't quite understand it last time.

Now he finally sees clearly.

That golden spear turned out to be an innate treasure.

Moreover, it is also an innate treasure at the level of the best immortal weapon.

No wonder the spear in Liuyue Immortal King's hand was pierced into the Nine Color King Beast.

It's like pricking a watermelon, it can be pricked all the way through.

That is to say, the nine-color king beast has tenacious vitality.

Otherwise.

I'm afraid I'll be shot to death.

Zhang Yuhe swung his long stick, and the shadow of the stick quickly shrouded the sky towards Helanbieye.

Boom...

The golden stick shadow directly hit Helan Bieye's head.

A loud roar erupted.

After activating the magical power of Hunyuan Guiyi.

His current realm is already close to that of Da Luo Immortal King.

As for the real burst of fighting power, it is at the level of the top Daluo Immortal King.

Ahhhh...

The moment Zhang Yuhe's long stick came down.

Helanbieye almost lost his spear.

It faced Immortal King Liuyue's spear light and quickly took a few steps back.

Then he let out a scream of pain.

Zhang Yuhe completely integrated the power of the nine supreme laws into the stick shadow.

The all-pervasive divine soul law directly affects the depths of its soul.

Helan Bieye felt deep in his soul, as if someone had punched him hard.

The painful feeling almost made him die instantly.

Immortal King Liuyue took this opportunity and shot Helan Bieye through again.

Roar.....

All kinds of injuries and pain are piled up on the body.

Asking Helan to leave the wild, he couldn't help but let out a roar of grief and anger.

It felt like it would soon be unable to hold on any longer.

As the leader of the Helan Mountain Tribe, the Immortal Territory of the South China Sea.

If it dies.

The entire Chaos Beast army will soon fall into disarray.

more importantly.

The following army of Chaos Beasts is coming here.

Helanbieye was not excited because the army was approaching.

But I feel deeply worried.

Under the cover of the sword array.

These king-level chaos beasts may not be able to leave today.

But that army of hundreds of millions of Chaos Beasts cannot die.

That is the essence of the Helan Mountain tribe.

Once they all die in the South China Sea Fairyland.

I'm afraid it will cause a heavy blow to the Helan Mountain tribe.

Thinking of Zhang Yuhe, that terrifying sword array.

Once it is enveloped in the chaos beast army.

No matter how large the team is, it cannot withstand a few kills.

Helanbieye felt that it was necessary to warn the army in the distance.

Let them disperse and flee quickly.

As much as you can escape.

Otherwise.

Wait until all of them, the king-level chaos beasts, are dead.

The three hundred Daluo Immortal Kings in front of them will definitely turn their guns.

Wipe out all the chaos beast army.

Although after the team was disbanded.

Without the king-level chaos beasts in charge, it is estimated that they will not be able to hold on for long in the South China Sea Immortal Domain.

The monks from the human race's various immortal realms will inevitably organize their forces to slowly wipe out the immortal realm in the South China Sea.

But Helanbieye could not think of any other way.

If you spread out and escape, you might be able to survive for a while longer.

If the venerable people in the tribe could return early.

Maybe we can reopen the space channel.

Lead the army of Chaos Beasts back to the tribe.

As for the sacrifices captured by them.

Now Helanbieye, I don't dare to think about it for a long time.

Life can't be saved.

Why do we need sacrifices?

A warning must be issued immediately to allow the Chaos Beast army to disperse and flee.

If the Chaos Beasts behind us also rush over.

Section 592

Then the result of the annihilation of the whole army will soon appear before our eyes.

Thinking of this.

Helan Bieye kept roaring towards the distance.

Seeing Helan Bieye roaring non-stop.

Zhang Yuhe felt a little strange.

I don't know what it is going to do.

They are all about to die.

Still roaring here.

Is this the howl before death?

However, Zhang Yuhe didn't pay much attention to it.

Just kill it quickly.

A dead Chaos Beast is a good Chaos Beast.

After all, the corpse and the crystal core are still very valuable.

As the golden stick shadows in the sky continued to fall.

The aura on Helan Bieye's body became weaker and weaker.

Although the long stick in Zhang Yuhe's hand is not as powerful as the double hammers of Wanshan Immortal King.

It is not as sharp as the spear in the hand of Liuyue Immortal King.

But his power of the supreme law.

It is stronger and more powerful than other Daluo Immortal Kings, and it is also more weird.

This is even more true after opening the magical power of Hunyuan Guiyi.

Every time Zhang Yuhe smashed his stick, it caused a severe impact on Helan Bieye's soul.

This kind of attack that went straight to the soul sea was impossible to defend.

The repeated impacts on the soul made Helan Bieye's breath quickly become weak.

Boom...

As the Nine Heavens Flying Spirit Stick smashed again.

Helan Bieye's huge body suddenly fell silently.

Seeing this situation.

Liuyue Immortal King put away his spear and was stunned at first.

Then he killed other king-level chaos beasts.

Zhang Yuhe collected the corpses on the ground and turned to kill other king beasts.

As time passed slowly.

Under the cutting of the invisible sword energy.

Those king beasts below six colors have all fallen to the ground.

As for the king beasts above seven colors, there are not many left.

Under the siege of three hundred Daluo Immortal Kings.

These powerful king-level chaos beasts are also dying quickly.

Zhang Yuhe looked around.

There are less than fifty king-level Chaos Beasts still alive.

These are all king beasts with seven colors or above, and there are two nine-color king beasts, which are still alive.

However, Immortal King Liuyue and Immortal King Wanshan are leading people to attack fiercely.

It is estimated that these two nine-color king beasts will not live long.

Zhang Yuhe silently feels himself.

The duration of the Hunyuan Guiyi magical power is about to end.

And after continuous explosions.

The Dantian, which was originally as wide as the sea, is also drying up at this time.

He did not attack again.

Instead, he controlled the sword formation to maintain the suppression of the Chaos Beast.

While silently running the Hunyuan Tianjing, he tried to recover more immortal energy.

After all these king-level Chaos Beasts were eliminated.

He also wanted to go to Wanxianmen to take a look.

If there is a chance.

Then wipe out all the Chaos Beasts there.

But Zhang Yuhe didn't know.

Before his death, Helan Bieye had ordered the Chaos Beasts to disperse and flee.

The originally huge Chaos Beasts are now running around.

But even if Zhang Yuhe knew.

It doesn't matter.

The remaining Chaos Beasts are still huge in number.

But without the King Beast, they can no longer be a force to be reckoned with.

As long as they are cleared out seriously.

Sooner or later, they will be able to wipe out all the Chaos Beasts that enter the South China Sea Fairyland.

Zhang Yuhe looked at the scene and saw the Chaos Beasts that were still struggling.

He breathed a sigh of relief in his heart.

No matter what.

Now the victory is determined.

The Helan Mountain Tribe's invasion of the South China Sea Fairyland is doomed to fail.

...

Chapter 451 Autumn Wind Sweeping Fallen Leaves

Zhang Yuhe stood at the front of the fairy ship, silently running the Hunyuan Heavenly Scripture.

The surrounding fairy spirits slowly gathered towards the fairy.

It's just that there are no spiritual veins near Liuhetian, and the surrounding spiritual energy is not strong.

But it's better to have it than not.

In the fairy world, even in the most remote places.

There will be some spiritual energy.

The fairy spirit gathered from the surroundings slowly gathered into the Dantian through the meridians.

The Dantian, which was about to be exhausted, finally recovered a little.

Zhang Yuhe's Dantian was originally as wide as the sea.

As long as it recovered a little, it could support him to fight for a while.

After all, normal magical powers are not as outrageous as Hunyuan Guiyi.

After a while.

Zhang Yuhe's aura suddenly dropped rapidly.

Soon it recovered to the early stage of Taiyi Xian.

He slowly opened his eyes.

The duration of Hunyuan Guiyi magical power has ended.

Zhang Yuhe looked at the battlefield in the distance.

There were originally thousands of king-level chaos beasts, but now there are only a dozen left.

And they are being watched by three hundred Daluo Immortal Kings.

Even if Zhang Yuhe's Hunyuan Guiyi magical power ends, the suppression effect of the sword formation has weakened a lot.

But the remaining chaos beasts have no chance of survival.

As the Immortal King of Ten Thousand Mountains smashed down with a heavy hammer.

The last King-level Chaos Beast on the battlefield could not bear this endless abuse.

Finally, it fell to the ground unwillingly.

So far, the King-level Chaos Beasts of the Helan Mountain Tribe that entered the South Sea Immortal Realm have basically died.

Even in other places, there may still be some King-level beasts.

But it's completely useless.

"Haha, it's finally solved."

After hammering the last beast to death.

Wanshan Immortal King waved his double hammers and laughed excitedly.

The other Daluo Immortal Kings at the scene also showed excited smiles on their faces.

Section 593

This battle was really enjoyable.

Thousands of king-level chaos beasts were wiped out in one fell swoop.

This is probably the greatest victory in the immortal world in billions of years.

In normal times, it might be very difficult for them to kill a king-level chaos beast.

However, this time, they directly wiped out more than a thousand.

How could they not be excited about such a brilliant achievement?

Everyone turned their attention to Zhang Yuhe on the Galaxy.

Everyone understands.

The reason why they were able to achieve such great results this time.

That was due to Zhang Yuhe's Nine Heavens Hunyuan Sword Formation.

If there is no suppression by the sword formation.

Not to mention killing, thousands of king-level chaos beasts.

I'm afraid at the beginning.

They had already mastered the fairy ship and no one knew where they had gone.

He simply didn't have the courage to go head-to-head with the powerful king-level chaos beast.

Three hundred versus one thousand.

Such a big disadvantage.

No matter how hard-headed you are, you don't dare to be tough.

But with the help of Zhang Yuhe's sword formation.

Everyone is completely confident.

It turns out.

They were indeed right.

Zhang Yuhe's Nine Heavens Hunyuan Sword Formation is even much stronger than everyone imagined.

Especially in the beginning.

I don't know what secret technique or magical power Zhang Yuhe used.

His cultivation suddenly soared rapidly.

In an instant, he rushed from the early stage of Taiyi Immortal to the perfection of Taiyi Immortal.

Almost half a step to the Daluo realm.

After the cultivation broke out.

The Nine Heavens Hunyuan Sword Formation deployed by Zhang Yuhe became even more terrifying.

It can even completely imprison the eight-color king beast in place, unable to move.

Think of this.

Everyone looked at Zhang Yuhe and couldn't help but show awe.

Zhang Yuhe's sword formation can imprison the eight-color king beast.

Doesn't that mean.

Almost all Daluo Immortal Kings present may be imprisoned.

How terrible is this?

To know.

Zhang Yuhe has been practicing for only 200,000 years.

The real cultivation level is only in the early stage of Taiyi Immortal.

An early stage wife Yixian can burst out with such terrifying strength.

Everyone was thinking.

Once Zhang Yuhe was promoted to Da Luo realm.

Then wouldn't it be possible for his explosive strength to be comparable to that of Emperor Daozu?

Think of this.

Everyone couldn't help but be envious.

That's Dao Ancestor.

It is their elusive dream.

However, it is possible for Zhang Yuhe to reach that level.

Facing such a peerless genius.

How can everyone not be in awe?

Zhang Yuhe waved his right hand.

The nine-handled fairy sword turned into a stream of light, flew back quickly, and disappeared into his sleeves.

Looking at all the Daluo Immortal Kings, they looked excited.

Zhang Yuhe said to them.

"Seniors, please clean up the battlefield first. I'll go to the Wanxian Gate to take a look."

"Let's see if we can wipe out part of the Chaos Beast army there first."

After saying this.

Zhang Yuhe then drove the fairy ship and disappeared into the sky into a stream of light.

Until this time.

Only then did everyone wake up.

They just killed the king-level chaos beasts who led the team.

Near the Ten Thousand Immortals Gate station, there is still a huge army of Chaos Beasts that have not been dealt with yet.

Think of this.

Immortal King Liuyue said loudly to everyone.

"Leave a few people to guard the space passage."

"The others will follow me and try to sweep away as many invading chaos beasts as possible."

soon.

Immortal King Liuyue led everyone, piloted the Starlight Immortal Ship, and flew towards the direction of Ten Thousand Immortals Sect.

There were only a few Da Luo Immortal Kings left at the scene, responsible for guarding the space passage.

In order to prevent chaos on the continent, the Helan tribe once again sent reinforcements.

Zhang Yuhe drove the fairy ship and flew forward quickly.

After a while.

He saw a large number of Chaos Beasts fleeing in all directions on the vast sea.

Zhang Yuhe unfolded his sword array and quickly cleared away the Chaos Beasts he encountered.

However, he couldn't be happy.

This seems to be somewhat different from what I imagined.

Zhang Yuhe originally thought that.

Those who came over just now for support were only those king-level chaos beasts.

The remaining Chaos Beast army should still be staying at the Ten Thousand Immortals Gate station.

Now it seems.

That's not the case at all.

Those huge army of Chaos Beasts should have been following for reinforcements just now.

It's just that the chaos beast army can't run as fast as the king beast.

That's why I was left behind.

Zhang Yuhe remembered something.

When Helanbieye was about to be beaten to death.

He kept roaring into the distance.

Now it seems.

Just now, Helanbieye was notifying the army of Chaos Beasts behind to disperse and evacuate.

Zhang Yuhe stands at the front of the fairy ship.

I couldn't help but feel a little tangled in my heart.

What to do now?

Originally he had planned.

In one go, all the chaotic beasts that entered the South China Sea Immortal Domain were wiped out.

Now it seems that it is obviously impossible.

The huge army of chaos beasts had already dispersed and fled.

This left him with nothing to show for his abilities.

Don't be afraid of thieves gathering, but be afraid of thieves scattering.

Hundreds of millions of chaos beasts scattered and fled.

Section 594

No matter how strong he is, he still can't kill them all.

If you chase in this direction, the Chaos Beasts in other directions may run away.

"Forget it, let's kill as many as we can while these Chaos Beasts haven't gone far."

Zhang Yuhe quickly calmed down and continued flying quickly on the sea with the fairy ship.

Just see the figure of Chaos Beast.

He quickly deployed his sword formation, harvested a wave and then left.

Although these chaotic beasts were notified by Helanbieye in advance.

The team had already been disbanded and fled in all directions.

But these chaos beasts don't run very fast.

Under Zhang Yuhe's full pursuit.

Wave after wave of Chaos Beasts were soon caught up with him.

Although these chaos beast teams are not as dense as before.

Can't be like before.

Kill millions of chaos beasts at once.

But a little adds up.

Under Zhang Yuhe's sweep.

No one knew how many Chaos Beasts of various levels he had killed.

Time passed slowly.

The number of chaos beasts wiped out by Zhang Yuhe may have exceeded hundreds of millions.

And other Daluo Immortal Kings also discovered that something was wrong.

They quickly spread out and chased the Chaos Beast team everywhere on the wide sea.

Nearly three hundred Da Luo Immortal Kings swept away fallen leaves like the autumn wind.

Quickly kill groups of Chaos Beasts.

Chaos beasts that invaded the South China Sea Immortal Realm.

Slowly, most of them were wiped out.

...

Chapter 452 The Sea-Sealing Formation

Half a month later.

After a series of successive eliminations by the Immortal Kings.

Near the Wanshan Sea Area, large groups of Chaos Beasts can no longer be seen.

A large number of chaos beasts swarmed into the surrounding uninhabited sea areas.

There are also a small number of Chaos Beasts who have fled into dangerous secret places in various places.

Because the remaining Chaos Beasts are too scattered.

Zhang Yuhe and a group of Da Luo Immortal Kings did not continue to suppress them.

Because this kind of efficiency is really poor.

I want to wipe out all the remaining chaos beasts.

It still needs a large army of monks.

Just rely on these three hundred people.

No matter how strong they are.

In the vast South China Sea Fairyland, I want to find each Chaos Beast.

It's like looking for a needle in a haystack.

Totally inefficient.

Half a month later.

Zhang Yuhe received the summons from Immortal King Liuyue and returned to Liuhetian.

At this time, all three hundred Daluo Immortal Kings had returned to the vicinity of the passage.

Everyone's faces were filled with excited smiles.

Although the chaos beast army disbanded early.

But everyone present was, after all, the powerful Da Luo Immortal King.

Under their full force.

A large number of Chaos Beasts were beaten to death by everyone.

After preliminary statistics.

During this half month.

The number of Chaos Beasts killed by everyone exceeded at least 300 million.

That is to say.

in this war.

Not only did they harvest the corpses of more than a thousand king-level chaos beasts.

And they also harvested the corpses of more than 300 million ordinary chaos beasts.

To know.

This time, the Helan Mountain tribe was a chaotic beast that invaded the South China Sea Immortal Domain.

Even the weakest among them are all four-star chaos beasts.

So many chaos beast corpses.

Even for Daluo Immortal King.

They are all extremely huge wealth.

How can everyone not be excited about such a huge harvest?

Although most of the chaos beasts were killed by Zhang Yuhe alone.

But other Daluo Immortal Kings also killed many.

Everyone's gains will definitely be great.

This time, the total number of chaotic beasts from the Helan Mountain Tribe that entered the South China Sea Immortal Domain was about 500 million.

That is to say.

With everyone's full efforts to clear it out.

They have already wiped out more than half of these chaos beast armies.

Although there are still many chaos beasts left.

But these chaotic beasts are now like frightened birds.

It was broken into pieces and hiding everywhere, and it was no longer large.

It can no longer pose much of a threat to the monks.

Just wait until the armies of monks from each fairyland arrive in the South China Sea Fairyland.

A comprehensive cleanup can begin.

Saw Zhang Yuhe coming.

Everyone immediately came forward to greet him enthusiastically.

"Sect Master Zhang, you are back."

"Haha, this time Sect Leader Zhang showed off his might and made an unparalleled contribution to wiping out the Chaos Beasts in Helan Mountain."

"I believe it won't be long before Sect Master Zhang's reputation will soon spread throughout the immortal world."

Zhang Yuhe said modestly with a smile.

"Seniors, it's time for your rewards."

"The Chaos Beast that was able to severely damage Helan Mountain this time is mainly due to the contributions of our seniors."

Everyone exchanged polite greetings and boarded the Starlight fairy ship together.

In the main hall on the fairy ship, everyone gathered together.

Now the main force of the Chaos Beasts has been severely damaged by them.

But there are still many remaining Chaos Beasts.

They need to discuss the subsequent clearing plan.

the most important is.

Everyone needs to discuss the matter of re-sealing the space channel.

Immortal King Liuyue sat at the head of the main hall.

She glanced at everyone and then said with a smile.

"I have to say that we created a miracle this time."

"Our three hundred Daluo Immortal Kings killed a total of 1,360 King-level Chaos Beasts in this battle."

"Such a brilliant record is probably unprecedented."

Speaking of this.

Immortal King Liuyue paused for a moment, turned her head to look at Zhang Yuhe, and then said in admiration.

Section 595

"Of course, this time it's mainly due to Sect Master Zhang showing off his power."

"Zhang Zongzhu suppressed all the king-level chaos beasts with the power of a sword formation."

"Otherwise, we might not dare to face the Chaos Beast army head-on."

Hearing this, everyone followed suit.

"Yes, if Sect Master Zhang was not here, we would have retreated to the Ji'an waters long ago."

"That's true. To be honest, I have been practicing Taoism for tens of billions of years and have fought countless battles with chaos beasts."

"But I've never felt as good as this time, haha."

"You're right. Beating a king-level chaos beast like a dead dog is something so enjoyable that I never dared to think about before."

I heard people constantly praising me.

Zhang Yuhe sat next to him and could only smile awkwardly.

What could he say?

This is what it is.

No matter how humble he is, he can't find the words.

Immortal King Liuyue then spoke.

"Now Daozu, the old man, has not returned yet."

"But we can't leave this space channel alone."

"We need to find a way to completely seal the passage as much as possible."

"Otherwise, if the Helan Mountain tribe invades again, I'm afraid there will be some trouble."

Hearing what Immortal King Liuyue said.

Everyone nodded.

"Yes, the passage must be sealed first."

"Otherwise, we won't dare to go far and can only stay nearby."

"There are still many remaining Chaos Beasts, including many Nine-Star Chaos Beasts."

"There may even be some king-level chaos beasts that slip through the net."

"Without us sitting in."

"Even if the armies of monks from each immortal domain all enter the South China Sea Immortal Domain."

"It is also impossible to launch a comprehensive cleanup."

"Yes, this space channel is a scourge, and we must find a way to solve it."

"Hey, it's easy for you to say it. It's just that Tianxing Daozu is not here. Which of us has the ability to completely seal the space channel?"

At this point, everyone couldn't help but fall into silence.

yes.

The space channel of Liuhetian is extremely stable.

If it comes to interfering with the use of space channels, they can indeed do it.

But if you want to completely seal the space.

That's a little difficult.

They can't stay here forever.

Every once in a while, use your magical power to stimulate the space storm in the passage.

Daluo Immortal King is not an iron man.

Exhibiting magical powers also consumes immortal spiritual power.

It's impossible for them, just keep showing off your magical powers.

The best way is to seal the space passage by arranging arrays.

I just want to close such a stable space channel.

Ordinary formations obviously won't work.

Although there were many people who were proficient in formations among the people present.

But no one is sure.

It is possible to arrange a fairy formation comparable to the fifth level to completely seal the space passage.

Just at this time.

Wei Tianfeng suddenly said.

"I do know a formation that may come in handy."

"This formation is called the Sea-Sealing Heaven Formation."

"As long as this formation is deployed, it will be enough to seal the world."

"There shouldn't be much problem using this formation to seal the space passage."

At this point, he paused for a moment and then continued.

"At least it can be sealed for a while."

Everyone couldn't help but be overjoyed when they heard Wei Tianfeng's words.

Immortal King Wanshan asked hurriedly.

"Brother Tianfeng, I wonder if you can arrange this sea-shaping sky-sealing formation?"

Wei Tianfeng shook his head.

He took out a jade slip and handed it to Immortal King Wanshan.

Then he said helplessly.

"Brother Wanshan, see for yourself. This formation is not of a high level. It is just a second-level immortal formation."

"But to deploy the Sea-Sealing Heaven-Sealing Formation, a large number of middle-grade immortal weapons are needed as the formation base."

"I'm afraid we won't be able to collect so many middle-grade immortal weapons in a short period of time."

Hear this.

Everyone couldn't help but be stunned.

A mere mid-grade immortal weapon, what does this mean?

Those present were all top powers from various immortal realms.

Isn't it easy to gather some middle-grade immortal weapons?

Could it be that with so many of them, they couldn't gather together the middle-grade immortal weapons needed to set up a second-level immortal formation?

Isn't this a joke?

You can't always tell.

To set up this sea-shaping sky-sealing formation, it would take tens of thousands of middle-grade immortal weapons, right?

It shouldn't be that exaggerated, right?

When setting up a general formation.

Wouldn't it be enough to only need a few formation bases?

...

Chapter 453 Isn't this just a coincidence?

Immortal King Wanshan took the jade slip and looked at it carefully.

When he read the contents of the jade slips, he couldn't help but frown.

He passed the jade slip to Immortal King Liuyue.

After seeing the jade slip, Immortal King Liuyue couldn't help but shake his head.

Seeing the expressions of the two people, everyone couldn't help but be surprised.

What the hell is this?

Is there any mystery behind the contents of the jade slips?

A mere second-order immortal formation.

Would it be so exaggerated?

Immortal King Liuyue passed the jade slip to the Immortal King Daluo next to him.

Then he said softly.

"Everyone, let's take a look."

"Tianfeng Immortal King is right. The Sea-Sealing Heaven-Sealing Formation can indeed seal the space passage."

"Unfortunately, the requirements for setting up this formation are too high."

"I'm afraid that even if we gather all our strength, we probably can't do it."

"At least it's definitely impossible in a short period of time."

Everyone took the jade slip and passed it around.

Without exception.

After they read the contents of the jade slip, they could only shake their heads helplessly.

Because the requirements for setting up the Sea Covering and Sealing Heaven Formation are too outrageous.

It's really not something that they can do.

After a while.

Section 596

The jade slip was passed to Zhang Yuhe.

He looked at the contents of the jade slip.

He could not help but feel a little surprised.

So that's it.

No wonder other people shook their heads after reading it.

Because according to the jade slip.

To set up the Sea Covering and Heaven Sealing Formation, you need to mobilize endless water spirit power.

To do this.

You need a large number of middle-grade immortal artifacts as the basis for the formation.

As for these middle-grade immortal artifacts, there are no strict requirements.

As long as they can connect the water spirit power on the sea surface.

This seems simple.

However, to set up the Sea Covering and Heaven Sealing Formation, you actually need 99,999 top-grade immortal artifacts.

Ninety-nine thousand middle-grade immortal artifacts are indeed a bit exaggerated.

No wonder other people shook their heads after reading it.

With so many middle-grade immortal artifacts, I'm afraid that even if all the Daluo Immortal Kings present were searched, they would not be able to gather them all.

Even if they mobilized from various immortal realms, it is estimated that they would not be able to get so many in a short time.

After all, not all middle-grade immortal tools can be used.

If you want to mobilize the water elemental power on the sea, you need an immortal tool with water attributes.

Or a corresponding extended attribute.

For example, an immortal tool with thunder attribute can also be used.

Renshui produces thunder, which is a common lineage.

Seeing the content in the jade slip.

Zhang Yuhe was a little speechless.

This is too coincidental.

This is to empty his family.

Yes.

Other Daluo Immortal Kings can't gather 90,000 middle-grade immortal tools.

But Zhang Yuhe can.

When he set up the Renshui Thunder Absorption Array on the Galaxy Island.

He used 100,081 middle-grade immortal tool-level lightning absorption columns.

As long as the Renshui Thunder Absorption Array is dismantled.

Then the middle-grade immortal tools needed to set up the Sea Covering and Sealing Heaven Array.

Not only are they enough to use, but there are even some left.

"Forget it, let's dismantle the Renshui Thunder Absorption Array first?"

"Anyway, for quite a long time, no one in the Daosheng Sect will need to survive the Taiyi Heavenly Tribulation."

Thinking of this.

Zhang Yuhe held the jade slip in his hand and spoke lightly.

"If the record on the jade slip is correct."

"Then there shouldn't be much of a problem in setting up this Sea Covering and Sealing Heaven Array."

Hearing Zhang Yuhe's words.

Everyone at the scene couldn't help but be shocked.

Everyone looked at Zhang Yuhe.

The Immortal King Wanshan asked with a little doubt.

"Master Zhang, are you sure you have read all the contents on the jade slip?"

"If you want to set up the Sea Covering and Sealing Heaven Array, you need 90,000 mid-grade immortal artifacts."

"And these mid-grade immortal artifacts must be related to water attributes."

"Such a demanding requirement, even if we all work together."

"I'm afraid it won't take decades to collect them all."

Zhang Yuhe nodded, then smiled and said.

"I know what the Immortal King said."

"It's really unrealistic to want to temporarily create 90,000 mid-grade immortal artifacts."

"But our Daosheng Sect happens to have some in stock."

"It can meet the needs of setting up the array."

Hearing Zhang Yuhe's narration.

The Daluo Immortal Kings at the scene were shocked.

They almost dared not believe their ears.

What a joke.

They had so many people who couldn't handle it.

Zhang Yuhe said lightly.

He solved this problem?

How is this possible?

Liuyue Immortal King asked seriously.

"Master Zhang, is what you said true?"

Zhang Yuhe nodded, and then said lightly.

"Indeed."

"In order to survive the Taiyi Heavenly Tribulation, I specially built a great formation for surviving the tribulation."

"The formation base used in it happened to be a middle-grade immortal weapon with thunder attribute."

Liuyue Immortal King asked hurriedly.

"Then how many middle-grade immortal weapons did you use when you set up the formation?"

"Can those middle-grade immortal weapons be reused?"

Zhang Yuhe nodded in response.

"At that time, a total of 100,081 middle-grade immortal weapons were used."

"These middle-grade immortal weapons can be reused, as long as they are disassembled."

After repeated confirmation.

Everyone finally believed what Zhang Yuhe said.

In fact, they thought about it carefully.

They understood the key.

With Zhang Yuhe's terrible talent.

When he was promoted to Taiyi Immortal, the heavenly tribulation he received must be extremely terrible.

If there is no very special means of overcoming the tribulation, it is almost impossible to overcome the heavenly tribulation.

If Zhang Yuhe used a large number of middle-grade immortal tools to set up a special tribulation formation.

This can be said to be reasonable.

But before this, no one had thought of these at all.

Even the Wanshan Immortal King who was also in the South Sea Immortal Realm, he only knew.

Zhang Yuhe finally overcame the Taiyi Heavenly Tribulation by setting up a certain formation.

As for the details of the formation, he did not pay too much attention.

Now think about it, it turned out to be like this.

Solved the problem of sealing the space channel.

The rest of the things are easy to handle.

It's nothing more than mobilizing a large number of cultivators from various immortal realms.

Then slowly clear out the remaining chaos beasts in the South Sea Immortal Realm.

This is a long-term task.

In fact, everyone is not in a hurry.

This battle with the Helan Mountain tribe has been fought to this extent.

They are very satisfied.

After everyone continued to discuss for a while.

Liu Yue Immortal King stood up and spoke to everyone.

"Let's stop here today. Everyone, mobilize the forces of each immortal realm to the South Sea Immortal Realm as soon as possible."

"Prepare to clear out the remaining Chaos Beasts."

Section 597

Speaking of which.

Immortal King Liuyue paused for a while.

She looked at Zhang Yuhe, and then said slowly.

"Sect Master Zhang will return to the Ji'an sea area first and bring over the middle-grade immortal weapons that have been deployed."

"As long as the space channel is re-sealed, we can all take time off and devote ourselves to the work of exterminating the Chaos Beasts."

"good."

Zhang Yuhe nodded lightly.

After the discussion is over.

Everyone left the Starlight fairy ship one after another.

They also have to stay near the passage to prevent the Chaos Beasts from coming over.

Zhang Yuhe flew up and landed on the Galaxy Fairy Ship.

He had to go back to Ji'an waters first.

Remove the thunder-absorbing pillars on Galaxy Island.

After a while.

The fairy ship Galaxy turned into a stream of light and disappeared from everyone's sight.

...

Chapter 454 Seal and Suppression

Zhang Yuhe quickly returned to the waters of Ji'an.

He dismantled the Renshui mine-absorbing array on Galaxy Island and brought 1,000,081 lightning-absorbing pillars with him.

Return to Liuhetian soon.

Near the space passage, the originally empty sea surface has been occupied by a group of Daluo Immortal Kings.

A huge island was created out of thin air.

They will use this island as the center to set up a stunning array.

Seal the space channel again.

In the center of the island stands a tall platform.

A group of Da Luo Immortal Kings stood on the high platform, looking at the space vortex above their heads from time to time.

Just at this time.

I saw a stream of light quickly passing through the distant sky.

Wei Tianfeng looked into the distance, smiled and said to everyone.

"Sect Master Zhang is back."

The Galaxy Fairy Ship sailed across the sky and soon landed on the platform.

Saw Zhang Yuhe coming back.

Everyone came forward excitedly and asked.

"Sect Master Zhang, everything is ready."

Zhang Yuhe nodded lightly.

"I brought everything."

At this time, Immortal King Liuyue came forward and she said with a smile.

"Okay, if that's the case, let's start setting up the Heaven-Sealing Formation."

"Sealing the passage earlier can also solve this hidden danger earlier."

Speaking of which.

Immortal King Liuyue paused for a moment.

She turned to Wei Tianfeng and said.

"Tianfeng Immortal King, you have the most profound knowledge of formations here. It's up to you to set up the formation."

Wei Tianfeng laughed.

"The fairy is here to lift you up."

"Let's let Sect Master Zhang come."

"Sect Master Zhang can arrange a large formation to help overcome the Taiyi Heavenly Tribulation."

"The art of formation must be extremely profound, and there will definitely be no problem in setting up this sea-covering sky-sealing formation."

"It's just an eye-opener for everyone."

Hearing Wei Tianfeng's words.

Everyone turned to look at Zhang Yuhe.

to be honest.

Even if everyone has fought side by side.

But their understanding of Zhang Yuhe is still somewhat abstract.

After all, Zhang Yuhe has not been practicing for a long time.

In the past, I basically had no interaction with these Da Luo Immortal Kings.

Everyone is very curious.

Zhang Yuhe was able to cultivate to the Taiyi realm in just 200,000 years.

And there is such terrifying strength.

Not only that.

Zhang Yuhe is actually proficient in formation techniques.

This really makes everyone feel very incredible.

Why can one person be so talented?

Did Zhang Yuhe know it from birth?

Can do everything?

In fact, everyone wants to see it.

What are the methods Zhang Yuhe arranged?

After all, seeing is believing.

"Okay, since you seniors are so humble, I will show my shame."

Zhang Yuhe was not pretentious.

Just setting up a formation.

No difficulty.

Although this was the first time he had heard of the Sea-Sealing Heaven-Sealing Formation.

He had only seen Wei Tianfeng's jade slip recording the formation once.

However, he already knew the contents of this formation.

Compared to the Renshui mine-absorbing array that he had improved many times.

This sea-covering and sky-sealing formation is not particularly complicated.

There is absolutely no difficulty in setting it up.

Zhang Yuhe stood in the center of the high platform.

I saw him wave his right hand.

Thunder-absorbing pillars flew out from his sleeves.

The lightning-absorbing pillar fell on the distant sea surface, and then slowly sank to the bottom of the sea.

Wait until all the lightning-absorbing pillars are in place.

Zhang Yuhe soared into the sky.

He slowly stretched out his right hand and began to draw quickly in the void.

Everyone stood on the high platform and observed silently.

Watching formations flash quickly, connecting the lightning-absorbing pillars on the seabed.

Then the array pattern slowly disappeared into the void.

See this situation.

Everyone couldn't help but marvel.

Only Zhang Yuhe was seen setting up the formation on the spot.

Only then did they realize how powerful Zhang Yuhe's formation talent was.

Among the Daluo Immortal Kings present, there were many who were proficient in formations.

But when they carved the formations.

How could he be like Zhang Yuhe?

Flowing clouds and flowing water, relaxed and freehand.

This doesn't look like setting up a formation at all, but rather some kind of artistic creation.

Time passes slowly.

I don't know how much time has passed.

Section 598

When the last formation pattern slowly disappeared into the void.

Zhang Yuhe quickly used the magic formula.

A soft drink came from his mouth.

"Get into formation."

The calm sea surface instantly stirred up huge waves.

Endless water energy surged from the bottom of the sea and quickly gathered in space.

Forming a huge vortex of energy.

After a while.

The vortex of Yuanli slowly rose and headed straight for the space passage high in the sky.

Follow the mysterious passage of Yuanli.

The eternal space vortex began to slowly stop rotating.

The originally terrifying black hole slowly disappeared in the sky.

See this situation.

Everyone couldn't help but shout excitedly.

"Okay, finally this damn space channel has been sealed again."

"Yes, now we can go and eliminate the Chaos Beasts everywhere with peace of mind."

Everyone looked at the space passage in mid-air, and no trace could be found at all.

I feel very excited.

The great formation of overturning the sea and sealing the sky can seal the heaven and the earth.

There is naturally no problem in sealing space passages.

Although this formation is only a third-level immortal formation.

It is far less powerful than the fifth-level immortal formation arranged by Tianxing Daozu.

But it has to be said.

This formation is indeed extremely suitable to be used here.

Unless someone tries to destroy it again.

Otherwise.

The Chaos Beasts of the Helan Mountain Tribe should never think about using this space passage to enter the South China Sea Immortal Realm.

As the space channel is re-sealed.

The armies of monks from various immortal realms also passed through the teleportation array in the Ji'an sea area.

Quickly arrived at the South China Sea Immortal Territory and began the final cleanup work.

Each of the three hundred Daluo Immortal Kings has a town.

The army of monks is responsible for searching and destroying the chaotic beasts scattered everywhere.

The major forces that originally retreated to the Chaos Continent also began to return to the South China Sea Immortal Domain.

They returned to their original territory and began to rebuild their homes.

At the same time, he devoted himself to the work of eradicating the chaos beasts.

Time passed slowly.

Three hundred years later.

The chaos beasts that invaded the South China Sea Immortal Domain have been basically wiped out.

Although in some hidden places, there may still be some chaos beasts left occasionally.

However, individual Chaos Beasts are no longer in their prime.

The South China Sea Fairyland finally slowly began to regain its former vitality.

Unfortunately.

Because a large number of monks were captured by Chaos Beasts.

In the end, these monks were not saved.

Seeing that the situation was over, those chaotic beasts slaughtered all the captured monks.

Most of the mortals in the various immortal realms were killed by the Chaos Beasts.

There were even some big forces who didn't have time to evacuate.

Has disappeared in the long river of history.

The terrible disaster severely damaged the vitality of the Nanhai Immortal Domain.

Fortunately, the high-end combat power of the major forces has basically suffered little damage.

As time passes slowly.

After a period of cultivation and recuperation.

The South China Sea Fairyland will definitely regain its previous prosperity.

It may even develop better than before.

Because now in the South China Sea Immortal Territory, there is the Taoist Sect and the Galaxy Immortal Lord.

In this war.

Zhang Yuhe turned the tide and made countless people remember his name.

Even in those distant immortal realms, the reputation of the Galaxy Immortal Lord is spreading rapidly.

The name of Galaxy Immortal Lord Zhang Yuhe has spread throughout the entire immortal world.

...

Chapter 455 The Return of Dao Ancestor

Liuhetian, Wanshan Hall.

After the space channel was re-sealed.

Immortal King Wanshan moved the sect's headquarters to Liuhetian.

He plans to use the entire sect's strength to guard this space passage.

Prevent anyone from breaking the seal again.

After hundreds of years of continuous suppression.

The chaos beasts from the Helan Mountain tribe that entered the South China Sea Immortal Domain have been basically wiped out.

Support forces from various fairy realms also began to gradually return.

Three hundred Daluo Immortal Kings gathered together.

Immortal King Wanshan said happily to everyone.

"Thank you all fellow Taoists for your efforts in saving the South China Sea Immortal Territory from danger."

"In the future, if you ask for anything, you will definitely be willing to do so."

After saying this.

The Immortal King of Wanshan looked at everyone and bowed their hands in greeting one by one.

Wei Tianfeng said.

"Brother Wanshan, there's no need to be too polite."

"The reason why we human monks have been able to stand in the immortal world for countless years."

"It's all about supporting each other."

"Today we help the South China Sea Immortal Territory."

"Maybe one day in the future, we may still need to rely on your Wanshan support."

Others also echoed.

"Yes, yes, brother Wanshan, there is no need to be too polite."

"We are all under the banner of Tianxing Daozu, so we should support each other."

"That's right. We may have a chance to fight against the enemy together in the Chaos Continent someday."

"Hey, I said you guys are too pretentious."

"To be honest, we didn't do much at all this time."

"It's just a fight against dead dogs, and everyone has gained a lot."

"If you say this, it can be considered support."

"I'm willing to go to the major immortal realms every day to support, hehe."

"Haha, that's a good point."

"This time it was really unexpectedly easy. I hope I will have the opportunity to kill a dog again in the future."

When everyone said this, they couldn't help but look at Zhang Yuhe beside them.

In fact, everyone knew it in their hearts.

This time, they took advantage of Zhang Yuhe.

Such a large-scale battle.

They didn't say that they had no damage, not even a hair was hurt.

And they also picked up a lot of dead fish.

Those corpses of king-level chaos beasts are precious resources.

Section 599

Even these group of Da Luo Immortal Kings.

In normal times, it is not that easy to kill a king-level chaos beast.

He actually killed so many king beasts like this.

Divide it among everyone, and everyone will gain something.

You can say that.

They didn't contribute much, but they got a lot of bargains.

the most important is.

After this war.

Everyone is willing to have a good relationship with the South China Sea Immortal Territory.

Who allowed Zhang Yuhe to appear in the Immortal Domain of the South China Sea?

Now Zhang Yuhe is still in the early stage of Taiyi Immortal, and his strength is so terrifying.

Once you wait for him, you will be promoted to Daluoxian.

His strength is probably not much worse than that of Emperor Daozu.

Of course they are willing to hug such a thick thigh.

Just in case they encounter danger one day.

As long as Zhang Yuhe is willing to take action.

Even the most dangerous situation can be easily solved.

When everyone is chatting enthusiastically.

Immortal King Liuyue suddenly stood up and she said loudly in surprise.

"Master is back, everyone follow me out to greet him."

Hear this.

Everyone showed excitement.

Tianxing Daozu returns.

That means that this war is completely over.

I just don't know what the outcome will be for those noble-level chaos beasts.

Have you been beaten to death by Tianxing Daozu?

Under the leadership of Immortal King Liuyue.

Everyone quickly flew out of the hall.

After a while.

In the distant sky.

Suddenly a terrifying black hole appeared.

Daozu Tianxing floated out of the black hole.

Three giant cauldrons holding the sky surround him.

See this situation.

Zhang Yuhe couldn't help but be fascinated.

The appearance of this scene is simply too handsome.

Traveling through the broken void.

This is much more powerful than his Galaxy Wandering Dragon Movement Technique.

Saw Tianxing Daozu appear.

Everyone shouted respectfully in unison.

"Meet Dao Ancestor."

Tianxing Daozu waved his hand.

He looked around, filled with doubts.

Although during the previous summons.

Immortal King Liuyue had already roughly explained to him what had happened recently.

Tianxing Daozu is still feeling a little incredible.

Originally he thought.

The current South China Sea Immortal Territory may have become a dead place.

After all, every time the Chaos Beast invades the rear.

The local monks will basically be exterminated.

Only after gathering and external support forces can regain the lost territory.

Only then will it slowly come back to life.

However, this time he has not come back yet.

The chaos beasts that invaded the South China Sea Immortal Territory have been wiped out.

Not only that.

This group of Da Luo Immortal Kings actually sealed the space passage again.

Tianxing Daozu raised his head and looked into the distance.

No trace of the original space channel can be seen.

If it weren't for the faint spatial fluctuation in the distant sky.

He didn't even know that there used to be a space passage here.

have to say.

This rearranged seal is indeed perfect.

It is more suitable than the seal he arranged before.

Tianxing Daozu glanced across the sea.

I saw the thunder-absorbing pillars buried deep under the sea.

If you have some understanding in your heart.

As long as these lightning-absorbing pillars are not vandalized.

Then this perfect sealing formation can seal the space passage forever.

Think of this.

Tianxing Daozu stretched out his right hand and slowly pressed it towards the sea.

The lightning-absorbing pillar that was originally buried deep under the sea completely disappeared from everyone's perception.

The Heavenly Star Taoist unleashed his astonishing power and opened up an alien space directly in the depths of the sea.

Drag all the lightning-absorbing pillars used for formation into the alien space.

Thus.

You no longer have to worry about someone destroying this seal.

After doing all this.

Tianxing Daozu looked around at everyone and said calmly.

"You did a good job. You were able to eliminate all the invading Chaos Beasts in such a short period of time."

"It was a bit unexpected."

"But we can't take it lightly."

"The Helan Mountain tribe suffered a big loss this time and will probably take revenge soon."

"After the meeting is over, everyone will return to their respective fairy cities as soon as possible."

"I estimate that the Helan Mountain tribe will soon launch a beast wave in the Chaos Continent."

After saying this.

The giant cauldron surrounding Tianxing Daozu suddenly flew up.

A huge black hole was blasted into the void.

As soon as Tianxing Daozu took a step forward, he quickly disappeared.

Everyone watched respectfully as Tianxing Daozu left.

I couldn't help but feel fascinated.

After a long time.

Immortal King Liuyue spoke slowly.

"Now that Master has returned, everyone should go back quickly."

"According to what Master said, the Chaos Beast is not the one who suffers."

"This time, the Helan Mountain Tribe suffered a big setback in the South China Sea Immortal Domain."

"They must regain their place on the Chaos Continent."

"Everyone should go back and prepare early to avoid being caught off guard."

"Yes, the fairy is right."

"Then let's all disperse."

Everyone nodded.

The monks and the chaos beasts have been fighting in the fairy world for countless years.

Section 600

Both sides are fighting for a breath.

After a monk suffers a loss, he will soon take revenge measures.

The same is true for Chaos Beasts.

Helan Mountain is one of the twelve major tribes.

They stumbled so hard.

It would be strange to say that there would be no revenge.

But don't worry too much about this kind of thing.

As long as it is not a war that sweeps the entire fairy world.

Everyone prepares carefully.

You can handle it.

After all, it is common for Chaos Beasts to launch a beast tide.

Even the scale this time may be larger.

That's nothing, no big deal.

Those present were all the top Daluo Immortal Kings from various immortal realms.

What kind of scenes have they not seen?

Just go back and prepare well.

Wait until this beast wave is repelled.

It should be calm for a while.

...

Chapter 456 Helan Ruobei's anger

Somewhere in the wilderness of Chaos Continent.

A huge black hole suddenly appeared in the sky.

Helan Ruobei's huge figure emerged from the black hole.

At this time, its expression was completely gloomy.

After a while.

There were three more tall figures, staggering out of the black hole.

Compared to Helan Ruobei, at least his body shape is still intact.

The three noble-level chaos beasts that appeared later were all covered in blood.

They are either missing arms or legs, or have terrible bloody holes in their chests.

He was obviously seriously injured.

Four powerful noble-level chaos beasts stand in the wilderness.

Everyone was silent.

No one spoke.

The black hole in the sky slowly heals.

There are no more chaotic beasts emerging from the void.

After a long time.

Helan Ruobei said with a somewhat weak expression.

"Let's go, Feng Nian is dead."

"Why."

Everyone could only sigh.

Under the leadership of Helan Ruobei.

Their five supreme-level chaos beasts passed through the space passage and entered the South China Sea Immortal Realm.

As a result, he was dragged into a battle in an alien space by Tianxing Daozu.

Now only the four of them are left.

Another honorable Chaos Beast, Helan Fengnian.

In order to hold back Tianxing Daozu and help them buy time to escape.

No trace has been seen so far.

Apparently dead.

Helan Ruobei never thought of it.

Tianxing Daozu has not taken action for tens of billions of years, and now it has become so terrifying.

The five of them, the Supreme Chaos Beasts, were completely unable to fight back when facing the Heavenly Star Dao Ancestor.

He was pressed to the ground and rubbed the whole time.

If it hadn't been for Helan Fengnian's desperate effort to hold off Tianxing Daozu at the last moment.

I'm afraid they may not be able to escape safely.

Think of this.

Helan Ruobei couldn't help but regret.

This time I really failed to steal the chicken and lost the rice.

I had known this would be the result.

Even if he is killed, he will not lead the army into the South China Sea Immortal Realm.

This time they not only lost a supreme Chaos Beast.

Moreover, the army of Chaos Beasts entering the South China Sea Immortal Realm is probably unlikely to be spared.

"I'm afraid most of it has been lost, right?"

Helan Ruobei thought silently in his heart.

Since even they have escaped.

Presumably Tianxing Daozu must have returned to the South China Sea Immortal Realm.

The Heavenly Star Dao Ancestor is here.

The Helan Mountain tribe entered the South China Sea Immortal Realm and saw the huge army of chaos beasts.

Is there any chance to escape back to the tribe?

Obviously it's impossible.

Now Helan Ruobei only hopes.

Those chaos beast armies can capture sacrifices from the South China Sea Immortal Realm.

As much as possible was transported back to the tribe.

As long as enough sacrifices are brought back.

So at least their action this time is not too bad.

After all, the South China Sea Immortal Realm is so big, and there are sacrifices everywhere.

More than three hundred years have passed since the army of Chaos Beasts entered the South China Sea Immortal Realm.

It should be about the same. Most of the sacrifices there were transported back to the tribe.

Otherwise.

They really lost all their money in this action.

Even after the war started.

Helan Ruobei was dragged into an alien space by Tianxing Daozu.

Lost contact with the Chaos Beast army.

But in its heart, there is still some bullying.

In Helan Ruobei's view.

Just collect all the sacrifices from the South China Sea Immortal Realm.

Even those Chaos Beast armies were all lost in the South China Sea Immortal Domain.

That's barely acceptable.

After all, as long as there are enough sacrifices.

This will allow the tribe's Chaos Beasts to continue to evolve and advance.

They won't be too bad.

But now Helan Ruobei has lost contact with the chaos beast army.

I don't know what the progress is over there.

During these three hundred years.

How many sacrifices were transported back to the tribe?

"Let's go back and take a look first."

Think of this.

Helan Ruobei turned his head and said to the three respected Chaos Beasts behind him.

"Let's rush back to the tribe as soon as possible. I hope we won't suffer too much loss this time."

After saying this.
